§ 51.635 *U. S. No. 2 Russet Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage other than that caused by dryness or mushy condition, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. No part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of two-thirds of their surface, in the aggregate, affected with discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided,* That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

§ 51.636 *U. S. No. 3 Grade.* Not more than 15 percent, by count, of the fruits in any lot may be below the requirements of this grade but not more than one-third of this amount, or 5 percent, shall be allowed for defects other than dryness or mushy condition, and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point: *Provided,* That an additional tolerance of 2 percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. None of the foregoing tolerances shall apply to wormy fruit.

APPLICATION OF TOLERANCES

§ 51.637 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one decayed or very seriously damaged fruit may be permitted in any package.

(2) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided,* That not more than one grapefruit which is seriously damaged by dryness or mushy condition or very seriously damaged by other means may be permitted in any package, and in addition, en route or at destination, not more than 10 percent of the packages may have more than one decayed fruit.

STANDARD PACK

§ 51.638 *Standard pack.* (a) Fruits shall be fairly uniform in size, unless specified as uniform in size. When packed in boxes, fruit shall be arranged according to the approved and recognized methods. Each wrapped fruit shall be fairly well wrapped.

(b) All packages shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(c) When packed in 1⅘ bushel or 1⅗ bushel nailed boxes, each container shall show a minimum bulge of 2 inches, except that boxes packed with grapefruit of a pack size 80 or smaller need only show a bulge of 1½ inches.

(d) "Fairly uniform in size" means that not more than a total of 10 percent, by count, of the fruits in any container is outside the range of diameters given in the applicable one of the following tables 1 and 2 for the various pack sizes and size of boxes:

TABLE I—1⅘ BUSHEL BOX

[Diameter in inches]

Pack size	Minimum	Maximum
54's or 56's	4 2/16	4 13/16
64's	3 15/16	4 5/16
70's or 72's	3 13/16	4 2/16
80's	3 10/16	4 1/16
96's	3 6/16	3 15/16
112's or 113's	3 2/16	3 10/16
125's or 120's	3	3 6/16

TABLE II—1⅗ bushel box

[Diameter in inches]

Pack size	Minimum	Maximum
36's	5	5 9/16
45's or 46's	4 13/16	5 5/16
54's or 56's	4 6/16	4 15/16
64's	4 3/16	4 12/16
70's or 72's	3 15/16	4 5/16
80's	3 12/16	4 5/16
96's	3 8/16	4 2/16
112's or 113's	3 7/16	4
125's or 120's	3 5/16	3 15/16

(e) "Uniform in size" means that for 1⅘ bushel or 1⅗ bushel boxes, not more than 10 percent, by count, of the fruits in any container vary more than the following amounts:

(1) 64 size and smaller—not more than 9/16 inch in diameter; and,

(2) 54 size and larger—not more than 9/16 inch in diameter.

(f) In order to allow for variations, other than sizing, incident to proper packing, not more than 5 percent of the packages in any lot may fail to meet the requirements of standard pack.

DEFINITIONS

§ 51.639 *Similar varietal characteristics.* "Similar varietal characteristics" means that the fruits in any container are similar in color and shape.

§ 51.640 *Well colored.* "Well colored" means that the fruit is yellow in color with practically no trace of green color.

§ 51.641 *Firm.* "Firm" means that the fruit is not soft, or noticeably wilted or flabby, and the skin is not spongy or puffy.

§ 51.642 *Well formed.* "Well formed" means that the fruit has the shape characteristic of the variety.

§ 51.643 *Smooth texture.* "Smooth texture" means that the skin is thin and smooth for the variety and size of the fruit.

§ 51.644 *Injury.* "Injury" means any defect which more than slightly affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(a) Green spots or oil spots when appreciably affecting the appearance of the individual fruit;

(b) Scale when more than a few adjacent to the "button" at stem end, or when more than 6 scattered on the other portions of the fruit;

(c) Scars which are depressed, not smooth, or which detract from the appearance of the fruit to a greater extent than the maximum amount of discoloration allowed in the grade; and,

(d) Thorn scratches when the injury is not slight, not well healed, or more unsightly than discoloration allowed in the grade.

§ 51.645 *Discoloration.* "Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades of discoloration caused by smooth or fairly smooth, superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by melanose or other means may affect the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed for the grade.

§ 51.646 *Fairly well colored.* "Fairly well colored" means that, except for one inch in the aggregate of green color, the yellow color predominates over the green color on that part of the fruit which is not discolored.

§ 51.647 *Fairly well formed.* "Fairly well formed" means that the fruit may not have the shape characteristic of the variety but is not elongated or pointed or otherwise deformed.

§ 51.648 *Fairly smooth texture.* "Fairly smooth texture" means that the skin is not materially rough or coarse and that the skin is not thick for the variety.

§ 51.649 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Ammoniation when not occurring as light speck type similar to melanose;

(b) Dryness or mushy condition when affecting all segments more than one-fourth inch at the stem end, or more than the equivalent of this amount, by volume, when occurring in other portions of the fruit;

(c) Green spots or oil spots when the aggregate area exceeds the area of a circle 1 inch in diameter on a grapefruit 4¼ inches in diameter. Smaller sizes shall have lesser areas of green spots or oil spots and larger sizes may have greater areas: *Provided,* That the appearance of the grapefruit is not affected to a greater extent than the area permitted on a grapefruit 4¼ inches in diameter;

(d) Scab when it cannot be classed as discoloration, or appreciably affects shape or texture;

(e) Scale when the appearance of the fruit is affected to a greater extent than that of a grapefruit 4¼ inches in diameter which has a blotch the area of a circle seven-eighths inch in diameter or a ring 1⅜ inches in diameter;

(f) Scarring which exceeds the following aggregate areas of different types of scars, or a combination of two or more types of scars the seriousness of which exceeds the maximum allowed for any one type:

(1) Scars when the appearance of the fruit is affected to a greater extent than that of a grapefruit 4¼ inches in diameter which has a very deep or very rough scar aggregating the area of a circle one-half inch in diameter;

(2) Scars when the appearance of the fruit is affected to a greater extent than that of a grapefruit 4¼ inches in diameter which has a deep or rough scar aggregating 1 inch in diameter;

(3) Scars which are slightly rough or of slight depth and aggregate more than 10 percent of the fruit surface; and,

(4) Scars which are smooth or fairly smooth with no depth and affect the appearance of the grapefruit to a greater extent than the amount of discoloration permitted. (Smooth or fairly smooth scars with no depth shall be scored against the discoloration tolerance);

(g) Sunburn when the area affected exceeds 25 percent of the fruit surface, or when the skin is appreciably flattened, dry, darkened, or hard; and,

(h) Thorn scratches when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-fourth inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1 inch in diameter, or dark or scattered thorn injury which detracts from the appearance of the fruit to a greater extent than the amounts specified in this section.

§ 51.650 *Fairly firm.* "Fairly firm" means that the fruit may be slightly soft, but not bruised, and the skin is not spongy or puffy.

§ 51.651 *Slightly misshapen.* "Slightly misshapen" means that the fruit is not of the shape characteristic of the variety but is not appreciably

elongated or pointed or otherwise deformed.

§ 51.652 *Slightly rough texture.* "Slightly rough texture" means that the skin is not smooth or fairly smooth but is not excessively rough or excessively thick, or materially ridged, grooved or wrinkled.

§ 51.653 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Ammoniation when scars are cracked, or when dark and aggregating more than the area of a circle three-fourths inch in diameter, or when light colored and aggregating more than the area of a circle 1¼ inches in diameter;

(b) Buckskin when aggregating more than 25 percent of the fruit surface or the fruit texture is seriously affected;

(c) Dryness or mushy condition when affecting all segments more than one-half inch at the stem end, or more than the equivalent of this amount, by volume, when occurring in other portions of the fruit;

(d) Green spots or oil spots when the aggregate area exceeds the area of a circle 1½ inches in diameter on a grapefruit 4¼ inches in diameter. Smaller sizes shall have lesser areas of green spots or oil spots, and larger sizes may have greater areas: *Provided*, That the appearance of the grapefruit is not affected to a greater extent than the area permitted on a grapefruit 4¼ inches in diameter;

(e) Scab when it cannot be classed as discoloration, or when materially affecting shape or texture;

(f) Scale when the appearance of the fruit is affected to a greater extent than that of a grapefruit 4¼ inches in diameter which has a blotch the area of a circle 1⅛ inches in diameter or a ring 1⅝ inches in diameter;

(g) Scarring which exceeds the following aggregate areas of different types of scars, or a combination of two or more types of scars the seriousness of which exceeds the maximum allowed for any one type:

(1) Scars when the appearance of the fruit is affected to a greater extent than that of a grapefruit 4¼ inches in diameter which has a very deep or very rough scar aggregating the area of a circle 1 inch in diameter;

(2) Scars which are deep or rough and aggregate more than 5 percent of the fruit surface;

(3) Scars which are of slight depth or slightly rough and aggregate more than 15 percent of the fruit surface; and,

(4) Scars which are smooth or fairly smooth with no depth and affect the appearance of the grapefruit to a greater extent than the amount of discoloration permitted. (Smooth or fairly smooth scars with no depth shall be scored against the discoloration tolerance);

(h) Sprayburn which seriously affects the appearance of the fruit or is hard, or when more than 1¼ inches in diameter in the aggregate has a light brown discoloration;

(i) Sunburn which affects more than one-third of the fruit surface, or is hard, or the fruit is decidedly one-sided, or when more than 1¼ inches in diameter in the aggregate has a light brown discoloration; and,

(j) Thorn scratches when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-half inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1½ inches in diameter, or dark or scattered thorn injury which detracts from the appearance of the fruit to a greater extent than the amounts specified in this section.

§ 51.654 *Slightly colored.* "Slightly colored" means that except for two inches in the aggregate of green color, the portion of the fruit surface which is not discolored shows some yellow color.

§ 51.655 *Misshapen.* "Misshapen" means that the fruit is decided elongated, pointed or flat sided.

§ 51.656 *Slightly spongy.* "Slightly spongy" means that the fruit is puffy or slightly wilted but not flabby.

§ 51.657 *Very serious damage.* "Very serious damage" means any defect which very seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as very serious damage:

(a) Growth cracks that are seriously weakened, gummy or not healed;

(b) Ammoniation when aggregating more than the area of a circle 2 inches in diameter, or which has caused serious cracks;

(c) Bird pecks when not healed;

(d) Caked melanose when more than 25 percent in the aggregate of the surface of the fruit is caked;

(e) Buckskin when rough and aggregating more than 50 percent of the surface of the fruit;

(f) Dryness or mushy condition when affecting all segments more than one-half inch at the stem end, or more than the equivalent of this amount, by volume, when occurring in other portions of the fruit;

(g) Scab when aggregating more than 25 percent of the surface of the fruit;

(h) Scale when covering more than 25 percent of the surface of the fruit;

(i) Sprayburn when seriously affecting more than one-third of the fruit surface;

(j) Sunburn when seriously affecting more than one-third of the fruit surface; and,

(k) Thorn punctures when not healed or the fruit is seriously weakened.

§ 51.658 *Diameter.* "Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the fruit.

The United States Standards for Grapefruit (Texas and States other than Florida, California and Arizona) contained in this subpart shall become effective 15 days after publication hereof in the FEDERAL REGISTER, and will thereupon supersede the United States Standards for Grapefruit (Texas and States other than Florida, California and Arizona) which have been in effect since August 20, 1954 (7 CFR 51.620–51.658).

It is hereby found that it is impracticable, unnecessary and contrary to the public interest to postpone the effective date of these standards until 30 days after publication hereof in the FEDERAL REGISTER because packing of Texas grapefruit will begin the latter part of October and it is in the public interest that the standards be in effect as soon as possible; and a reasonable time is permitted, under the circumstances for preparation.

Dated: October 13, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Service.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 722—COTTON

PROCLAMATION RELATING TO NATIONAL MARKETING QUOTA AND NATIONAL ACREAGE ALLOTMENT FOR THE 1956 CROP OF UPLAND COTTON

Sec.
722.701 Basis and purpose.
722.702 Findings and determinations with respect to a national marketing quota for the 1956 crop of cotton.
722.703 Determination of a national acreage allotment for the 1956 crop of cotton.

AUTHORITY: § 722.701 to 722.703 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply Secs. 301, 341–348; 52 Stat. 38, as amended; 7 U. S. C. 1301, 1341–1348.

§ 722.701 *Basis and purpose.* (a) This proclamation is issued to announce findings made by the Secretary of Agriculture with respect to the total supply and the normal supply of upland cotton for the marketing year beginning August 1, 1955, and to proclaim whether, upon the basis of such findings, a national marketing quota and a national acreage allotment for the 1956 crop of upland cotton are required under the provisions of the Agricultural Adjustment Act of 1938, as amended (referred to herein as the "act"). The term "upland cotton" (referred to herein as "cotton") and the data appearing in §§ 722.702 and 722.703 do not include extra long staple cotton described in section 347 (a) of the act or similar types of such cotton which are imported. Section 342 of the act provides, in part, that, whenever during any calendar year the Secretary determines that the total supply of cotton for the marketing year beginning in such calendar year will exceed the normal supply for such marketing year, the Secretary shall proclaim such fact and a national marketing quota shall be in effect for the crop of cotton produced in the next calendar year. Whenever a national marketing quota is proclaimed, the Secretary is required by section 344 (a) of the act to determine and proclaim a national acreage allotment for the crop of cotton to be produced in the next calendar year. The act further provides that the proclamation with respect to a national marketing quota shall be made not later than October 15 of the calendar year in which the determinations relating thereto are made.

(b) The terms "total supply", "carry-over", and "normal supply", as they relate to cotton, are defined in section 301 of the act as follows:

"Total supply" of cotton for any marketing year shall be the carry-over at the beginning of such marketing year, plus the estimated production of cotton in the United States during the calendar year in which such marketing year begins and the estimated imports of cotton into the United States during such marketing year.

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand in the United States at the beginning of such marketing year, not including any part of the crop which was produced in the United States during the calendar year then current.

"Normal supply" of cotton for any marketing year shall be the estimated domestic consumption of cotton for the marketing year for which such normal supply is being determined, plus the estimated exports of cotton for such marketing year, plus 30 per centum of the sum of such consumption and exports as an allowance for carry-over.

(c) The findings and determinations made by the Secretary are contained in §§ 722.702 and 722.703 and have been made on the basis of the latest available statistics of the Federal Government. Prior to making such findings and determinations, notice was published in the FEDERAL REGISTER (20 F. R. 6387) in accordance with the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary was preparing to examine the supply situation with respect to cotton to determine if quotas were required under the act and that any interested person might express his views in writing with respect thereto, postmarked not later than 15 days from the date of publication of the notice, which was August 31, 1955. All written expressions submitted pursuant to such notice have been duly considered in connection with making the findings and determinations.

§ 722.702 *Findings and determinations with respect to a national marketing quota for the 1956 crop of cotton—*(a) *Total supply.* The total supply of cotton for the marketing year beginning August 1, 1955 (in the terms of running bales or the equivalent), is 24,403,162 bales, consisting of (1) a carry-over on August 1, 1955, of 10,633,262 bales, (2) estimated production from the 1955 crop of 13,719,900 bales, and (3) estimated imports into the United States during the marketing year beginning August 1, 1955, of 50,000 bales.

(b) *Normal supply.* The normal supply of cotton for the marketing year beginning August 1, 1955 (in terms of running bales or the equivalent), is 15,600,000 bales, consisting of (1) estimated domestic consumption for the marketing year beginning August 1, 1955, of 9,000,000 bales, (2) estimated exports during the marketing year beginning August 1, 1955, of 3,000,000 bales, and (3) 30 percent of the sum of subparagraphs (1) and (2) of this paragraph as an allowance for carry-over, or 3,600,000 bales.

(c) *National marketing quota.* It is hereby determined and proclaimed that the total supply of cotton for the marketing year beginning August 1, 1955, will exceed the normal supply of cotton for such marketing year. Therefore, a national marketing quota shall be in effect for the crop of cotton produced in the calendar year 1956. It is further determined and proclaimed that the amount of the national marketing quota for the 1956 crop of cotton shall be 10,000,000 bales (standard bales of 500 pounds gross weight). The amount of such quota has been determined under section 342 of the act which, in effect, provides that the 1956 quota shall be the larger of the following:

(1) The number of bales of cotton (standard bales of 500 pounds gross weight) adequate, together with (i) the estimated carry-over at the beginning of the 1956–57 marketing year and (ii) the estimated imports during the 1956–57 marketing year, to make available a normal supply of cotton. The number of bales of cotton determined under this provision is 3,828,731 bales.

(2) The number of bales of cotton (standard bales of 500 pounds gross weight) equal to the smaller of (i) 10,000,000 bales, or (ii) 1,000,000 bales less than the estimated domestic consumption plus exports of cotton for the marketing year ending July 31, 1955. The number of bales of cotton determined under subdivision (ii) of this subparagraph would be 11,264,108 bales. Therefore, the smaller of subdivisions (i) and (ii) would be 10,000,000 bales.

§ 722.703 *Determination of national acreage allotment for the 1956 crop of cotton.* It is hereby further determined and proclaimed that a national acreage allotment shall be in effect for the crop of cotton produced in the calendar year 1956. The amount of such national acreage allotment shall be 17,391,304 acres. The amount of such national acreage allotment has been determined under section 344 (a) of the act, which provides that the national acreage allotment for cotton shall be that acreage, based upon the national average yield per acre of cotton for the 5 years immediately preceding the calendar year in which the national marketing quota is proclaimed, required to make available from such crop an amount of cotton equal to the national marketing quota.

Done at Washington, D. C., this 14th day of October 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55–8458; Filed, Oct. 14, 1955; 2:51 p. m.]

PART 722—COTTON

PROCLAMATION RELATING TO NATIONAL MARKETING QUOTA AND NATIONAL ACREAGE ALLOTMENT FOR THE 1956 CROP OF EXTRA LONG STAPLE COTTON

Sec.
722.1301 Basis and purpose.
722.1302 Findings and determinations with respect to a national marketing quota for the 1956 crop of extra long staple cotton.
722.1303 Determination of a national acreage allotment for the 1956 crop of extra long staple cotton.

AUTHORITY: §§ 722.1301 to 722.1303 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply Secs. 301, 341–348, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1341–1348.

§ 722.1301 *Basis and purpose.* (a) This proclamation is issued to announce findings made by the Secretary of Agriculture with respect to the total supply and the normal supply of extra long staple cotton for the marketing year beginning August 1, 1955, and to proclaim whether, upon the basis of such findings, a national marketing quota and a national acreage allotment for the 1956 crop of extra long staple cotton are required under the provisions of the Agricultural Adjustment Act of 1938, as amended (referred to herein as the "act").

(b) The term "extra long staple cotton", as used in § 722.1302 (a) and (b), means the kinds of cotton described in section 347 (a) of the act, including all American-Egyptian cotton, Sea Island cotton in both the continental United States and Puerto Rico, and Sealand cotton, and all imports of similar type cotton produced in Egypt and Peru. The term "extra long staple cotton", as used in §§ 722.1302 (c) and 722.1303, means the kinds of cotton described in section 347 (a) of the act. The term "carry-over" as used herein does not include the stocks of extra long staple cotton acquired pursuant to, or under the authority of, the Strategic and Critical Materials Stockpiling Act. Section 347 (c) of the act provides that, with certain exceptions, all provisions of the act shall, insofar as applicable, apply to marketing quotas and acreage allotments for extra long staple cotton.

(c) The terms "total supply", "carry-over", and "normal supply", as they relate to cotton, are defined in section 301 of the act as follows:

"Total supply" of cotton for any marketing year shall be the carry-over at the beginning of such marketing year, plus the estimated production of cotton in the United States during the calendar year in which such marketing year begins and the estimated imports of cotton into the United States during such marketing year.

"Carry-over" of cotton for any marketing year shall be the quantity of cotton on hand in the United States at the beginning of such marketing year, not including any part of the crop which was produced in the United States during the calendar year then current.

"Normal supply" of cotton for any marketing year shall be the estimated domestic consumption of cotton for the marketing year for which such normal supply is being determined, plus the estimated exports of cotton for such marketing year, plus 30 per centum of the sum of such consumption and exports as an allowance for carry-over.

(d) Section 347 (b) of the act provides that whenever during any calendar year, not later than October 15, the Secretary of Agriculture determines that the total supply of extra long staple cotton for the marketing year beginning in such calendar year will exceed the normal supply thereof for such marketing year by more than 8 per centum, the Secretary shall proclaim such fact and a national marketing quota shall be in effect for the crop of such cotton produced in the next calendar year. Whenever a national marketing quota is proclaimed under the act, the Secretary is also required to determine and proclaim a national acreage allotment for the crop to be produced in the next calendar year.

(e) The findings and determinations made by the Secretary are contained in §§ 722.1302 and 722.1303 and have been made on the basis of the latest available statistics of the Federal Government. Prior to making such findings and determinations, notice was published in the FEDERAL REGISTER (20 F. R. 6388) in accordance with the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary was preparing to examine the supply situation with respect to extra long staple cotton to determine if quotas were required under the act and that any interested person might express his views in writing with respect thereto, postmarked not later than 15 days from the date of publication of such notice, which was August 31, 1955. All written expressions submitted pursuant to such notice have been duly considered in connection with making the findings and determinations.

§ 722.1302 *Findings and determinations with respect to a national marketing quota for the 1956 crop of extra long staple cotton*—(a) *Total supply.* The total supply of extra long staple cotton for the marketing year beginning August 1, 1955 (in terms of running bales or the equivalent), is 319,593 bales, consisting of (1) a carry-over on August 1, 1955, of 174,493 bales, (2) estimated production from the 1955 crop of 45,100 bales, and (3) estimated imports into the United States during the marketing year beginning August 1, 1955, of 100,000 bales.

(b) *Normal supply.* The normal supply of extra long staple cotton for the marketing year beginning August 1, 1955 (in terms of running bales or the equivalent), is 149,500 bales, consisting of (1) estimated domestic consumption for the marketing year beginning August 1, 1955, of 110,000 bales, (2) estimated exports during the marketing year beginning August 1, 1955, of 5,000 bales, and (3) 30 percent of the sum of subparagraphs (1) and (2) of this paragraph as an allowance for carry-over, or 34,500 bales.

(c) *National marketing quota.* It is hereby determined and proclaimed that the total supply of extra long staple cotton for the marketing year beginning August 1, 1955, will exceed the normal supply of such cotton for such marketing year by more than 8 per centum. Therefore, a national marketing quota shall be in effect for the crop of extra long staple cotton produced in the calendar year 1956. It is further determined and proclaimed that the amount of the national marketing quota for the 1956 crop of extra long staple cotton shall be 35,300 bales of cotton (standard bales of 500 pounds gross weight). Under section 347 (b) of the act, the amount of the national marketing quota in terms of the quantity of cotton needed to make available a normal supply, taking into account the estimated carryover on August 1, 1956, and the estimated imports during the 1956–57 marketing year, would be substantially smaller than 30,000 bales. However, section 347 (b) of the act also provides that the national marketing quota for the 1956 crop of extra long staple cotton shall not be less than the larger of 30,000 bales or the number of bales equal to 30 per centum of the estimated domestic consumption plus exports for the 1955–56 marketing year. Thirty per centum of the estimated domestic consumption plus exports for the 1955–56 marketing year is 35,300 bales of cotton (standard bales of 500 pounds gross weight).

§ 722.1303 *Determination of national acreage allotment for the 1956 crop of extra long staple cotton.* It is hereby determined and proclaimed that the national acreage allotment for the 1956 crop of extra long staple cotton shall be 45,305 acres. The amount of such national acreage allotment has been determined under section 344 (a) of the act, which provides that the national acreage allotment shall be that acreage, based upon the national average yield per acre of cotton for the 5 years immediately preceding the calendar year in which the national marketing quota is proclaimed, required to make available from such crop an amount of cotton equal to the national marketing quota.

Done at Washington, D. C., this 14th day of October 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 989—RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

MODIFICATION OF MINIMUM GRADE AND CONDITION STANDARDS FOR NATURAL CONDITION RAISINS AND MINIMUM GRADE STANDARDS FOR PACKED RAISINS

Pursuant to the Marketing Agreement No. 109, as amended, and Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California, hereinafter referred to as the "order," effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and upon the basis of information supplied by the Raisin Administrative Committee established under the order, and other available information, it is hereby found that to modify for the remainder of the current crop year the minimum grade and condition standards for natural condition raisins and the minimum grade standards for packed raisins as hereinafter provided will tend to effectuate the declared policy of the act.

The changes which will be effected by this document will be to remove, for the remainder of the current crop year, the existing requirements with respect to the maximum permissible moisture content of Layer Muscat raisins, both in regard to their natural condition form and in regard to their packed form. Experience indicates that such moisture requirements should be discontinued for such period because the existing maximum moisture restrictions appear to be inappropriate. It is contemplated that operations under such a relaxation will be studied with a view to determining whether the presently existing maximum moisture content restrictions on Layer Muscat raisins should again be effective for the next crop year and, if not, what, if any, moisture restrictions in that regard should be made effective. It is anticipated that, in the absence of putting other maximum moisture content restrictions on Layer Muscat raisins in effect as of September 1, 1956, the provisions in that regard, which are contained in the order will again be in effect as of that time.

To accomplish the aforementioned objectives, it is hereby ordered that effective as of the date of the publication of this document in the FEDERAL REGISTER and continuing until 12:00 midnight, P. s. t., August 31, 1956:

(1) Section 989.97 B 3 is amended so as to change the parenthetical phrase therein reading "(except Layer Muscats shall not exceed 18 percent)" to read "(except that there shall be no moisture content restrictions with respect to Layer Muscats)" and by changing subparagraph d of said section to read as follows:

d. Of such quality and condition that, when processed in accordance with good commercial practice, will, except with respect to moisture content, meet "U. S. Grade B" or better grade as defined in the effective United States Standards for Grades of Processed Raisins.

(2) The requirement set forth in § 989.59 (a) (2) (iii) that Layer Muscat raisins in packed form at least meet the minimum grade standards prescribed in "U. S. Grade B" as contained in "effective United States Standards for Grades of Processed Raisins" (now in 20 F. R. 5760) is, pursuant to the authority contained in § 989.59 (b) of the order, modified, insofar as operations under the order is concerned, to eliminate therefrom the moisture content restriction set forth in § 52.1847a (b) of said standards.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and postpone the effective date of this document later than the date of its publication in the FEDERAL REGISTER (see section 4 of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) because the existing maximum permissible moisture content of Layer Muscat raisins is unnecessarily restricting the marketing of such raisins; it is necessary that the restrictions be relaxed immediately so that normal marketing of such raisins may proceed; handlers require no time for preparation to comply with the changed regulation; and, in the circumstances, good cause exists for making the provisions of this document effective at the indicated time.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 14, 1955.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6154]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

NORTH SHORE PRODUCTS COMPANY, INC., AND HARVEY GOULD

Subpart—*Using, selling, or supplying lottery devices:* Sec. 13.2475 *Devices for lottery selling;* § 13.2480 *In merchandising.* In connection with the offering for sale, sale, or distribution of watches, electric coffee sets, electric food mixers, electric power tools, wallets, or other merchandise in commerce: (1) Supplying to or placing in the hands of others push cards or other lottery devices, either with merchandise or separately, which said push cards or other lottery devices are designed or intended to be used in the sale or distribution of said merchandise to the public; and (2) selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, North Shore Products Company, Inc., et al., Skokie, Ill., Docket 6154, September 19, 1955]

In the Matter of North Shore Products Company, Inc., a Corporation, and Harvey Gould, an Individual

This proceeding was heard by James A. Purcell, hearing examiner, upon the complaint of the Commission which charged respondents with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of the Federal Trade Commission Act, through furnishing lottery devices to operators and members of the public to be used in the sale of their merchandise; respondents' answer; hearings at which testimony and other evidence, duly recorded and filed in the office of the Commission, were received in support of the allegations of said complaint; respondents, aside from cross-examination of the one witness heard in the proceeding, offering no testimony or other evidence in opposition; and proposed findings as to the facts and conclusions, oral argument not having been requested by either counsel.

Thereafter the proceeding came on for final consideration by said hearing examiner who, having duly considered the record, found that the proceeding was in the public interest, and made his initial decision, including findings as to the facts[1] and conclusions[1] drawn therefrom, and order to cease and desist.

Thereafter, following appeal from said hearing examiner's initial decision by respondents' counsel and the decision of the Commission denying said appeal for the reasons therein set forth, the matter was disposed of by the Commission's "Final Order", dated September 19, 1955, as follows:

The respondents having filed an appeal from the hearing examiner's initial decision in this proceeding; and the matter having come on to be heard upon the record including the briefs of counsel, and the Commission having rendered its decision denying the appeal and affirming the initial decision:

It is ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in the aforesaid initial decision.

The order in said initial decision, thus affirmed as the decision of the Commission, is as follows:

It is ordered, That respondents, North Shore Products Company, Inc., a corporation, and its officers, and respondent, Harvey Gould, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device in connection with the offering for sale, sale or distribution of watches, electric coffee sets, electric food mixers, electric power tools, wallets or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease from:

1. Supplying to or placing in the hands of others push cards or other lottery devices, either with merchandise or separately, which said push cards or other lottery devices are designed or intended to be used in the sale or distribution of said merchandise to the public.

2. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise, or lottery scheme.

Issued: September 19, 1955.

By the Commission.

[SEAL] JOHN R. HEIM,
Acting Secretary.

[F. R. Doc. 55–8428; Filed, Oct. 17, 1955; 8:51 a. m.]

[Docket 6148]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

HOUSEHOLD SEWING MACHINE CO.

Subpart—*Advertising falsely or misleadingly:* § 13.70 *Fictitious or misleading guarantees;* § 13.155 *Prices:* Exaggerated as regular and customary; Product or quantity covered; Savings and discounts subsidized; § 13.200 *Sample, offer or order conformance;* § 13.235 *Source or origin:* Place: *Imported products or parts as domestic.* Subpart—*Appropriating trade name or mark wrongfully:* § 13.295 *Appropriating trade name or mark wrongfully:* Competitor; Product. Subpart—*Misbranding or mislabeling:* § 13.1325 *Source or origin:* Maker or seller, etc.; Place: *Imported product or parts as domestic.* Subpart—*Misrepresenting oneself and goods*—goods: § 13.1745 *Source or origin:* Maker or seller, etc.; Place: *Imported product or parts as domestic;* [*Misrepresenting oneself and goods*]—Prices: § 13.1795 *Coverage or extras;* § 13.1805 *Exaggerated as regular and customary.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1900 *Source or origin:* Foreign product as domestic. Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1980 *Guarantee, in general;* § 13.2060 *Sample, offer or order conformance.* Subpart—*Passing off:* § 13.2105 *Passing off.* Subpart—*Using misleading name*—Goods: § 13.2345 *Source or origin:* Maker; Place: *Foreign product or parts as domestic;* [*Using misleading name*]—Vendor: § 13.2385 *Identity.* In connection with the offering for sale, sale, or distribution of sewing machines, sewing machine heads, or other merchandise in commerce (the complaint having been dismissed with respect to issues other than those to which the order relates): (1) Offering for sale, selling, or distributing foreign-made sewing machine heads or sewing machines of which foreign-made heads are a part, without clearly and conspicuously disclosing on the heads the country of origin thereof, in such a manner that it cannot readily be hidden or obliterated; (2) representing, directly or by implication, that a specified amount is the value of merchandise being offered for sale when such amount is in excess of the price at which said merchandise is regularly and customarily sold in the normal course of business in the same trade territory; (3) representing, directly or by implication, that any savings are afforded on the sale of merchandise represented as having a certain value, unless the represented savings are based upon the price at which said merchandise is regularly and customarily sold in the normal course of business in the same trade territory; (4) representing, directly or by implication, that certain merchandise is offered for sale when such offer is not a bona fide offer to sell the merchandise so offered; (5) representing, directly or by implication, that respondents' sewing machine heads or sewing machines are guaranteed for 20 years or for any period

of time, or that they are otherwise guaranteed, without clearly and conspicuously disclosing the existence of any material limitations upon the nature and extent of such guarantee or the manner of performance thereof, and the identity of the guarantor; (6) representing, directly or by implication, that the price of a sewing machine includes any attachments for which an additional charge is made; and (7) using the word "Home", or any simulation thereof, as a trade or brand name, or as a part of a trade or brand name, to designate, describe, or refer to respondents' sewing machines or sewing machine heads; or representing, through the use of any other word or words, or in any other manner, that their sewing machines or sewing machine heads are made by anyone other than the actual manufacturer; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Barbara E. Martin et al. d. b. a. Household Sewing Machine Company, Washington, D. C., Docket 6148, September 16, 1955]

In the Matter of Barbara E. Martin, Herschel Martin and Dennis Martin, Copartners Doing Business as Household Sewing Machine Company

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with failing to properly disclose the country of origin on certain Japanese sewing machines sold by them, with improperly using American trade names on such machines, with engaging in what is commonly known as "bait advertising", and with engaging in certain other false and deceptive practices with respect to the prices of the sewing machines advertised by them, the nature of the guarantee covering such machines, and other terms and conditions of sale; respondents' answer in which they denied having engaged in certain of the illegal practices charged, and alleged that they had discontinued others prior to the issuance of the complaint in the matter; and hearings on various dates between March 30, 1954, and January 6, 1955, at which testimony and other evidence, duly recorded and filed in the office of the Commission, were offered in support of and in opposition to the allegations of the complaint.

At the close of the evidence in support of the complaint, counsel for respondents moved to dismiss the complaint for insufficiency of evidence, and, pursuant to leave granted, memoranda were filed in support of and in opposition to said motion, which was denied, except as to one allegation of the complaint, and at the close of all the evidence, counsel for respondents renewed their motion to dismiss, which was disposed of in accordance with the order as below set forth.

Thereafter, following the filing of proposed findings of fact [1] and conclusions [1] of law by counsel supporting the complaint, and also by counsel for respondents, together with a supporting memorandum and a motion for oral argument upon their proposals which was denied in view of the fact that the issues were fully discussed in the proposed findings and supporting memorandum, and of the further fact that there were no novel or unusually complex issues involved in the proceeding, the examiner found that the proceeding was in the public interest and issued his order to cease and desist.

Thereafter, said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 22, 1955, became, on September 16, 1955, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That respondents Barbara E. Martin, Hershel Martin and Dennis Martin, individually and as copartners doing business as Household Sewing Machine Company, or under any other name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of sewing machines, sewing machine heads, or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing foreign-made sewing machine heads or sewing machines of which foreign-made heads are a part, without clearly and conspicuously disclosing on the heads the country of origin thereof, in such a manner that it cannot readily be hidden or obliterated.

2. Representing, directly or by implication, that a specified amount is the value of merchandise being offered for sale when such amount is in excess of the price at which said merchandise is regularly and customarily sold in the normal course of business in the same trade territory.

3. Representing, directly or by implication, that any savings are afforded on the sale of merchandise represented as having a certain value, unless the represented savings are based upon the price at which said merchandise is regularly and customarily sold in the normal course of business in the same trade territory.

4. Representing, directly or by implication, that certain merchandise is offered for sale when such offer is not a bona fide offer to sell the merchandise so offered.

5. Representing, directly or by implication, that their sewing machine heads or sewing machines are guaranteed for 20 years or for any period of time, or that they are otherwise guaranteed, without clearly and conspicuously disclosing the existence of any material limitations upon the nature and extent of such guarantee or the manner of performance thereof, and the identity of the guarantor.

6. Representing, directly or by implication, that the price of a sewing machine includes any attachments for which an additional charge is made.

7. Using the word "Home," or any simulation thereof, as a trade or brand name, or as a part of a trade or brand name, to designate, describe, or refer to their sewing machines or sewing machine heads; or representing, through the use of any other word or words, or in any other manner, that their sewing machines or sewing machine heads are made by anyone other than the actual manufacturer.

It is further ordered, That with respect to any issue raised by the complaint other than those to which this order relates, the complaint be, and the same hereby is, dismissed.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 22, 1955.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Bureau of Old-Age and Survivors Insurance, Social Security Administration, Department of Health, Education, and Welfare

[Regs. 4, Further Amended]

PART 404—FEDERAL OLD-AGE AND SURVIVORS INSURANCE (1950- ——)

DEDUCTION OVERPAYMENTS; WAIVER OF ADJUSTMENT OR RECOVERY

Regulations No. 4, as amended (20 CFR, Cum. Supp; 404.1 et seq.) is further amended to read as follows:

1. Paragraph (n) of § 404.510 is amended and new paragraphs (p) and (q) have been added as set forth below:

§ 404.510 *When an individual is "without fault" in a deduction-overpayment.* • • •

(n) Unawareness that his employment after 1950 was covered by virtue of the Social Security Act Amendments of 1950 or that his income from his self-employment activity became net earnings from self-employment by virtue of such act, when he reasonably believed that such employment was not covered or that his income was not net earnings from self-employment. The provisions of this paragraph shall apply only with respect to benefits for months prior to 1953, except that in the case of employment covered after 1952 and prior to January 1955 by virtue of an agreement or modification of an agreement pursuant to section 218 of the act or a certificate filed pursuant to section 1426 (1) (1) of the Internal Revenue Code of 1939 these provisions shall apply with respect to benefits for months prior to 1955.

• • • • • •

(p) Reasonable belief that the method by which deductions were to be imposed as a result of the Social Security Amendments of 1954 (§ 404.408 (a) (4)) became operative, with respect to the rendition of services in employment, in months after July 1954 and, with respect to net earnings from self-employment, in taxable years beginning in 1954; except that this provision shall apply only in the cases of monthly benefits for months after July 1954 and prior to 1955.

(q) Occurrences of unusual or unavoidable circumstances the nature of which demonstrate that the beneficiary was unaware (or could not reasonably be expected to have been aware) of a violation of the deduction provisions of the act in effect prior to the effective date of such provisions enacted by the Social Security Amendments of 1954 (see §§ 404.408 and 404.414 (c)).

2. Paragraph (b) of § 404.512 is amended to read as follows:

§ 404.512 *When adjustment or recovery will be waived in a deduction-overpayment.* • • •

(b) *Adjustment or recovery deemed "against equity and good conscience" under certain circumstances.* In the situations described in § 404.510 (c) to (k), inclusive, and in § 404.510 (m) to (q), inclusive (other than situations arising under such sections with respect to deductions under section 203 (b) (2) of the act), if the monthly net cash earnings ("take-home" pay) did not exceed the total benefits affected, there shall be no adjustment or recovery since it will be deemed that under such circumstances adjustment or recovery would be "against equity and good conscience." Where the net cash earnings exceeded the total benefits or where in such situations the deduction is with respect to an event arising under section 203 (b) (2) of the act, adjustment or recovery shall be waived only if it appears that adjustment or recovery would "defeat the purpose of title II" or would otherwise be "against equity and good conscience."

3. Subpart F is amended by adding at the end thereof a new section, designated as § 404.514, to read as follows:

§ 404.514 *References in §§ 404.510 and 404.512.* References in §§ 404.510 and 404.512 to section 203 (b) of the act, to the extent that such section is applicable to deductions under paragraph (1) or (2) thereof, apply only to such section in effect prior to the effective date of the Social Security Amendments of 1954.

(Sec. 205, 49 Stat. 624, as amended, sec. 1102, 49 Stat. 647; 42 U. S. C. 405, 1302. Interpret or apply sec. 204, 49 Stat. 624, as amended; 42 U. S. C. 404.)

[SEAL] C. I. SCHOTTLAND, *Commissioner of Social Security.*

Approved: October 12, 1955.

HEROLD C. HUNT, *Acting Secretary.*

[F. R. Doc. 55-8400; Filed, Oct. 17, 1955; 8:45 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

Subchapter A—Armed Services Procurement Regulations

[Amdt. 7]

MISCELLANEOUS AMENDMENTS

This subchapter is amended as follows:

PART 1—GENERAL PROVISIONS

SUBPART C—BASIC POLICIES

1. The Department of Labor has revised the method of designation of labor surplus areas. § 1.302-4 (a) (1), as revised, cites the publications in which the new designations will be found.

§ 1.302-4 *Firms performing contracts in labor surplus areas*—(a) *Definitions.* (i) "Labor Surplus Areas" are those set forth in a list entitled "Areas of Substantial Labor Surplus" issued by the Department of Labor in conjunction with the "Bi-Monthly Summary of Labor Market Developments in Major Areas." This list includes both major and smaller areas.

2. Deletions from § 1.306 broaden the scope of exceptions to the policy with regard to place of delivery. Sections 1.306-1 and 1.306-2, as revised, read as follows:

§ 1.306 *Place of delivery.*

§ 1.306-1 *Shipments originating within the Continental United States for ultimate delivery within the Continental United States.* Unless there are valid reasons to the contrary the procurement of supplies from sources and for delivery within the continental limits of the United States shall be in accordance with the following policy:

(a) When it is estimated that a contract will require no shipment to a single destination which will equal a minimum carload or truckload lot, delivery shall be made on the basis of all transportation charges paid to destination.

(b) When it is estimated that a contract will require a shipment of a minimum carload or truckload lot, delivery shall be either on the basis of (1) f. o. b. carrier's equipment, wharf, or freight station (at the Government's option) at or near contractor's plant, at a specified city or shipping point, or (2) all transportation charges paid to destination, whichever is the more advantageous to the Government. In formally advertised procurements the Invitation for Bids shall provide that bidders may bid on either or both bases set forth in this subparagraph. Bids shall be evaluated on the basis of overall cost to the Government.

In the absence of specific information to the contrary, a minimum carload or truckload lot shall be deemed to be one which weighs approximately 20,000 pounds.

§ 1.306-2 *Shipments originating within the Continental United States for ultimate delivery outside the Continental United States.* Unless there are valid reasons to the contrary purchases of supplies within the continental United States for ultimate delivery to destinations outside of the continental United States, wherever possible, regardless of the quantity of the shipment, shall be made on the basis of delivery f. o. b. carrier's equipment, wharf, or freight station (at the Government's option), at or near contractor's plant, at a specified city or shipping point. Shipments included in this policy are those in which supplies are shipped directly to a port area for export or to storage areas for subsequent reshipment to a port area for export.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151-162)

PART 2—PROCUREMENT BY FORMAL ADVERTISING

SUBPART B—SOLICITATION OF BIDS

1. A new § 2.204-8 has been added setting forth the policy regarding release of bidders' mailing lists. Such lists will not be released except to other Government agencies, and then only upon condition that they will not be made available to anyone outside of the Government, as follows:

§ 2.204-8 *Release of bidders' mailing lists.* Except as provided below, the list of prospective bidders to whom invitations for bids or requests for proposals have been submitted will not be released outside the Department of Defense, and will not be made available for inspection to individuals, firms, or trade organizations. Such lists may be made available to other Government agencies, at their specific written request, and upon the condition that the lists will not be made available for inspection to anyone outside the Government.

2. Detailed instructions for preparation and transmittal of information in connection with proposed procurements and awards have been deleted from §§ 2.206 and 2.408. Such instructions will hereafter be found in Departmental procedures. However, the policy to publish such information remains unchanged, except that synopses of awards need not be publicized in the United States with respect to contracts to be wholly performed outside of the continental United States. Section 2.206, as revised, reads as follows:

§ 2.206 *Synopses of proposed procurements.*

§ 2.206-1 *Statement of policy.* All proposed unclassified procurements made in the continental United States, which may result in an award in excess of $10,000, will be publicized promptly in the Department of Commerce publication "Synopsis of U. S. Government Proposed Procurement, Sales and Contract Awards," except the following:

(a) Procurement of research and development.

(b) Procurement of studies or surveys.

(c) Procurement of perishable subsistence supplies.

(d) Sole source procurement.

(e) Procurement where competition is known to be limited by patents, copyrights, or secret processes.

(f) Procurement which must be made too quickly to permit prospective contractors, dependent on the Department of Commerce Synopsis for information, to obtain invitations for bids or requests for proposals in time to prepare and submit their bids or proposals.

(g) Procurements not in the foregoing categories which nevertheless must be accomplished under such circumstances or conditions as to clearly preclude any benefit to industry or the Government by such publication. Justification in each case, for not publicizing the procurement under this exception, shall be in writing, approved by the chief of the purchasing office or his designee, and made part of the procurement file.

§ 2.206–2 *Supply of invitation for bids and request for proposals at purchasing offices.* A reasonable number of copies of each invitation for bids and request for proposals publicized in the Department of Commerce Synopsis, including data and specifications, shall be maintained by the issuing office for supplying requests therefor.

§ 2.206–3 *Responsibility of Small Business Specialists.* The Small Business Specialists in each purchasing office are responsible for screening all proposed procurements to assure that prompt action is taken with respect to publicizing such procurements through the Department of Commerce Synopsis in accordance with the requirements of this § 2.206. When determined appropriate by the Small Business Specialist, and approved by the Contracting Officer, a proposed procurement may be publicized in the Department of Commerce Synopsis even though it is excepted from such requirement under § 2.206–1. In those offices where no Small Business Specialist is assigned, the Contracting Officer or other designated representative will be assigned the responsibilities of the Small Business Specialist under this section.

§ 2.206–4 *Individual procurement action report.* Prior to submission of DD Form 350 for review and approval, the Contracting Officer shall note on the form that the procurement was or was not publicized in the Department of Commerce Synopsis, and if it was not so publicized, giving the reason therefor by reference to the appropriate exception in § 2.206–1.

SUBPART D—OPENING OF BIDS AND AWARD OF CONTRACTS

Section 2.408, as amended, reads as follows:

§ 2.408 *Synopses of contract awards.* Awards of unclassified contracts to be performed in whole or in part within the United States, exceeding $25,000 in amount, whether entered into after formal advertising or negotiation, shall be published in the Department of Commerce "Synopsis of U. S. Government Proposed Procurement, Sales and Contract Awards."

(R. S. 161; 5 U. S. C. 22. Interpret of apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

PART 5—INTERDEPARTMENTAL PROCUREMENT

SUBPART B—PROCUREMENT FROM GENERAL SERVICES ADMINISTRATION STORES DEPOTS

1. This subpart has been revised to express the general policy that, consistent with military necessity, the Department of Defense will place maximum reliance on producer or commercial distributive systems for the supplying of required materiel. This subpart, as revised, reads as follows:

Sec.
5.201 General.
5.202 Stores Stock Catalog.
5.203 Procedure for procurement from General Services Administration Stores Depots.
5.204 General Services Administration Stores Depots and regional offices.

§ 5.201 *General.* It is the general policy of the Department of Defense, when consistent with military necessity, to place maximum reliance on producer or commercial distributive systems for supplying requirements of the military departments. However, items and classes of material which have been designated for supply through local purchase and which normally are stocked by General Services Administration Stores Depots will be procured through the appropriate General Services Administration Stores Depot, provided that—

(a) The delivered price from the General Services Administration Stores Depot is not greater than the delivered price of the item from commercial sources;

(b) The service rendered by the General Services Administration Stores Depot, in terms of availability and procurement lead time, is equal to or better than that of commercial sources; and

(c) Such procurement is consistent with Subparts D and E of this part.

The procurement of items stocked by General Services Administration Stores Depots which are under DOD–GSA interagency purchase assignments will be in accordance with the implementing procedures relating to such assignments.

§ 5.202 *Stores Stock Catalog.* The General Services Administration periodically publishes an illustrated "Stores Stock Catalog" which sets forth, among other things (i) all standard supplies carried in stock for issue by the stores depots listed in § 5.204, (ii) special supplies carried in stock for issue only by certain of the depots, and (iii) price information on a portion of the supplies listed. Copies of the "Stores Stock Catalog," and additional price lists may be obtained, upon request, from any of the regional offices or depots listed in § 5.204.

§ 5.203 *Procedure for procurement from General Services Administration Stores Depots.* Procurement from General Services Administration Stores Depots of supplies listed in the "Stores Stock Catalog" shall be made by submitting a delivery order on DD Form 702 or DD Form 738, as appropriate, (see § 16.003 and § 16.008) to that General Services Administration Stores Depot which can best serve the procuring activity or installation, taking into consideration transportation costs, shipping time, and the regional boundaries of the Stores Depots. The delivery order shall contain the information required by the ordering instructions in the catalog.

§ 5.204 *General Services Administration Stores Depots and regional offices.* The General Services Administration operates stores depots and regional offices located in or near the cities listed below, serving the areas indicated on the back cover page of the "Stores Stock Catalog." The addresses shown are the mailing addresses to which all orders and correspondence should be forwarded.

SUBPART D—PROCUREMENT OF PRISON-MADE SUPPLIES

Sections 5.404 and 5.406 have been amended to substitute General Services Administrative Stores Depots for Federal Supply Service Depots wherever the references appear. Sections 5.404 and 5.406, as amended, read as follows:

§ 5.404 *Mandatory procurement of prison-made supplies.*

§ 5.404–1 *Mandatory procurement from Federal Prison Industries, Inc.* Supplies listed in the Schedule shall be procured directly from Federal Prison Industries, Inc., when—

(a) Supplies require oversea packaging or packing;

(b) Supplies are required in carload lots, as described in the Consolidated Freight Classification for the commodity concerned; or

(c) Supplies are required in less than carload lots, but are not stocked by General Services Administration Stores Depots.

§ 5.404–2 *Mandatory procurement of prison-made supplies from General Services Administration Stores Depots.* Supplies listed in the Schedule which are required in less than carload lots and which are stocked by General Services Administration Stores Depots shall be procured from such Depots, except that procurement shall be made directly from Federal Prison Industries, Inc., when (a) the procuring activity or installation is so located that it is more practical and economical to procure directly from Federal Prison Industries, Inc., rather than from or through the General Services Administration, or (b) the General Services Administration Stores Depot is temporarily unable to furnish the required supplies, in which instance the Depot will so advise the procuring activity or installation so that the procurement may be made directly from Federal Prison Industries, Inc.

§ 5.406 *Procurement procedure.*

§ 5.406–1 *Procurement from Federal Prison Industries, Inc.* Procurement directly from Federal Prison Industries, Inc., will be made by placing a delivery order, using DD Form 702 (Order for Purchase of Supplies or Services), or DD Form 738 (Order and Voucher for Purchase of Supplies and Services) as appropriate (see §§ 16.003 and 16.008), with Federal Prison Industries, Inc., % Department of Justice, Washington 25, D. C.

§ 5.406–2 *Procurement from General Services Administration Stores Depots.* Procurement from General Services Administration Stores Depots of prison-made supplies listed in the Schedule shall be made by submitting a delivery order, using DD Form 702 or DD Form 738 as appropriate (see §§ 16.003 and 16.008), to the General Services Administration Regional Office which normally serves the procuring activity or installation.

SUBPART E—PROCUREMENT OF BLIND-MADE SUPPLIES

Sections 5.503, 5.504 and 5.506 have been amended to substitute General Services Administration Stores Depots wherever Federal Supply Service Stores Depots appears. In addition in § 5.503 a reference correction has been made from 5.203 to 5.204. Sections 5.503, 5.504, and 5.506, as amended, read as follows:

§ 5.503 *Schedule of supplies which are blind-made.* Supplies manufactured by agencies for the blind are listed in the "Schedule of Blind-Made Products" (referred to in this Subpart E as the "Schedule"), now printed in separate loose leaf form, copies of which may be obtained from any of the General Services Administration Regional Offices or Depots listed in § 5.204. Items available from stocks at General Services Administration Stores Depots are so identified in the Schedule.

§ 5.504 *Mandatory procurement of blind-made supplies.* Supplies listed in the Schedule shall be procured from agencies for the blind through National Industries for the Blind when—

(a) Supplies require overseas packaging or packing;

(b) Supplies are required in carload lots, as described in the Consolidated Freight Classification for the commodity concerned;

(c) Supplies are stocked by General Services Administration Stores Depots, but the procuring activity or installation is so located that it is more practical and economical to purchase directly from the agency for the blind which manufactures the supplies, rather than from the Stores Depot; or

(d) The supplies are not stocked by General Services Administration Stores Depots as indicated in the Schedule.

§ 5.506 *Procurement procedure.*

§ 5.506–1 *Carload lots.* Blind-made supplies in carload lots (or in the case of nonstock items whether over or under a carload) shall be procured by forwarding a purchase order to a designated agency for the blind in accordance with an allocation issued by National Industries for the Blind, 15 West 16th Street, New York 11, New York. Complete instructions for obtaining supplies manufactured by agencies for the blind are set forth in the Schedule.

§ 5.506–2 *Less than carload lots.* Except as otherwise permitted in §§ 5.504 and 5.505 procurement of less than carload lots of blind-made supplies which are listed in the Schedule as stocked by General Services Administration Stores Depots shall be made by submitting an order to the General Services Administration regional office which normally serves the procuring activity or installation.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21, sec. 638, 66 Stat. 537; 41 U. S. C. 151–162)

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 12—INSPECTION OF VESSELS

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Governor by Rule 155 of Executive Order No. 4314 of September 25, 1925, section 153 of Title 2 of the Canal Zone Code, approved June 19, 1934, and § 4.158 of Title 35, Code of Federal Regulations, as adopted by Canal Zone Order 30, January 6, 1953 (18 F. R. 280), §§ 12.1 and 12.2 are amended to read as follows, and new § 12.2a is added as set forth below:

§ 12.1 *Marine Director as Supervising Inspector.* Except as provided in § 12.2a, the Marine Director shall act as Supervising Inspector of the Canal Zone in matters of a marine character.

§ 12.2 *Officials constituting Board of Local Inspectors.* The Port Captain, Cristobal, or the official acting in such capacity; the Port Captain, Balboa, or the official acting in such capacity; and the Chief, Industrial Division, or, in his absence, the Assistant to the Chief, Industrial Division, shall constitute the Board of Local Inspectors, referred to in this part as "the Board." Except as provided below, the senior of the two Port Captains shall be the Chairman of the Board. In the discretion of the Governor, accident investigations may be conducted by one regularly constituted member of the Board. In the event the Governor deems it appropriate, he may designate alternates to serve in the place of any of the above-named members in any investigation or hearing. In any case in which the Marine Director is designated as such an alternate, he shall serve as Chairman of the Board.

§ 12.2a *Lieutenant Governor to act in place of Supervising Inspector and Marine Director in certain cases.* The Lieutenant Governor shall serve in the place of the Marine Director as Supervising Inspector or approving official, as the case may be, with respect to any investigation or hearing conducted by the Board of Local Inspectors in which the Marine Director participates as an alternate member of the Board, as provided in § 12.2.

(Sec. 1, 47 Stat. 811; 2 C. Z. Code 153, 48 U. S. C. 1336a).

Issued at Balboa Heights, Canal Zone, September 30, 1955.

[SEAL] J. S. SEYBOLD,
Governor.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 10267, 10304; FCC 55–1010]

[Rules Amdt. 2–9]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

In the matter of amendment of Part 2 of the Commission's rules and regulations concerning the allocation of certain frequency bands to the Aeronautical mobile (OR) service, Docket No. 10267; amendment of Part 2 of the Commission's rules and regulations concerning the allocation of certain frequency bands to the aeronautical mobile (R) service, Docket No. 10304.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 12th day of October 1955;

The Commission having under consideration the above-mentioned matter; and

It appearing that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, general notices of proposed rule making (FCC 52–780 and FCC 52–833) in these matters, which made provisions for the submission of written comments by interested parties, were published in the FEDERAL REGISTER 17 F. R. 7153 on August 6,

1952 (Docket 10267), and 17 F. R. 7549 on August 19, 1952 (Docket 10304), and the period for filing comments has now expired; and

It further appearing that comments were filed by Aeronautical Radio Inc. (ARINC) and by the American Telephone and Telegraph Co. (AT&T) in each of the above-referenced dockets; and

It further appearing that the Commission after consideration of the above comments on January 12, 1955, adopted a Report and Order in each of the above-captioned dockets (FCC–52–25 and FCC 55–26) making final the allocation of all Aeronautical Mobile (OR) and (R) service bands subject to these proceedings with the exception of the (OR) band 3025–3155 kc and the (R) bands 4650–4700 kc and 5450–5680 kc because of then existing non-Government frequency assignment conflicts in these three bands; and

It further appearing that each of the aforementioned Reports and Orders provided for the allocation of these three remaining bands to be made final as soon as all non-Government out-of-band conflicting assignments could be removed therefrom; and

It further appearing that all non-Government out-of-band, conflicting assignments will be removed from these three remaining bands as of August 1, 1955; and

It further appearing that the public interest, convenience and necessity will be served by the amendment contained in the attached appendix and herein ordered, the authority for which action is contained in section 303 (c) (f) and (r) of the Communications Act of 1934, as amended;

It is ordered, That effective November 1, 1955, Part 2 of the Commission's Rules is amended as set forth below.

It is further ordered, That the proceedings in each of these dockets are hereby terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: October 13, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Section 2.104 (a) (3) (i) is amended by changing the table of frequency bands therein to read as follows:

2495–2850 kc	7300–8195
3155–3400	8476–8745
4238–4650	11400–11700
4750–5450	

[F. R. Doc. 55–8422; Filed, Oct. 17, 1955; 8:49 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter C—Carriers by Water

PART 323—UNIFORM SYSTEM OF ACCOUNTS FOR MARITIME CARRIERS

At a general session of the Interstate Commerce Commission held at its office in Washington, D. C., on the 29th day of September A. D. 1955.

The matter of accounting regulations prescribed for maritime carriers being under consideration pursuant to provisions of section 313 of the Interstate Commerce Act, as amended (54 Stat. 944, 49 U. S. C. 913); and,

It appearing, that certain modifications are necessary to clarify provisions of those regulations as they relate to reserve funds required to be maintained under provisions of the Merchant Marine Act, 1936; and,

It further appearing, that the changes in substance to be effected by such modifications are permissive in nature or are otherwise such that the public rule making requirements of section 4 of the Administrative Procedure Act are deemed unnecessary:

It is ordered, That:

(1) *Effective date.* The modifications which are attached hereto and made a part hereof shall become effective November 1, 1955.

(2) *Notice.* A copy of this order shall be served on all carriers by water subject to provisions of the Interstate Commerce Act which also operate vessels in foreign service, and every lessor thereof, and on every receiver, trustee, executor, administrator, or assignee of any such carrier or lessor, and notice of this order shall be given to the general public by depositing a copy with the attached modifications in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

1. In § 323.120 *Marketable securities* cancel the text of the account as now in effect and substitute the following for it:

§ 323.120 *Marketable securities.* This account shall be subdivided as follows:

121. United States Government securities.
122. State, county, and municipal securities.
125. Other marketable domestic securities.
126. Foreign marketable securities.

These accounts shall include the cost of government securities and temporary investments in other readily marketable securities which are available for general purposes of the business. Securities issued or assumed by the carrier or by a related company shall not be included in these accounts.

129 *Discounts and premiums.* This account may be charged with accumulation of any discount and may be credited with amortization of any premium on marketable securities, at the time of accrual or collection of interest thereon, with contra entry to account 679, "Interest income—Marketable securities," if it is the practice of the carrier to adjust that account to a yield basis. When the securities are disposed of, any balance applicable thereto in this account shall be transferred to the account in which the cost of such securities is recorded.

2. In § 323.301 *Capital reserve fund* cancel the text of the account as now in effect and substitute the following for it:

§ 323.301 *Capital reserve fund.* This account shall be subdivided as follows:

301–1 *Cash and securities.* This account shall be charged with cash and the approved value of securities deposited in this fund, and shall be credited with withdrawals therefrom in accordance with the provisions of section 607 (b) of the Merchant Marine Act, 1936, as amended, and under such rules and regulations as the Maritime Administration may issue from time to time. Subsidiary accounts are to be subdivided as to depositories or trustees, as the case may be, and further subdivided to show the amount of (1) cash and (2) marketable securities.

301–2 *Discounts and premiums.* This account may be charged with accumulation of any discount and may be credited with amortization of any premium on securities, at the time of accrual or collection of interest thereon, with contra entry in account 680, "Interest income—Special funds and deposits," if it is the practice of the carrier to adjust that account to a yield basis. When such securities are disposed of, any balance applicable thereto in this account shall be transferred to account 301–1.

3. In § 323.302 *Special reserve fund* cancel the text of the account as now in effect and substitute the following for it:

§ 323.302 *Special reserve fund.* This account shall be subdivided as follows:

302–1 *Cash and securities.* This account shall be charged with cash and the approved value of securities deposited in this fund, and shall be credited with withdrawals therefrom in accordance with the provisions of section 607 (c) of the Merchant Marine Act, 1936, as amended, and under such rules and regulations as the Maritime Administration may issue from time to time. Subsidiary accounts are to be maintained as described in account 301–1.

302–2 *Discounts and premiums.* This account may be charged with accumulation of any discount and may be credited with amortization of any premium on securities, at the time of accrual or collection of interest thereon, with contra entry in account 680, "Interest income—Special funds and deposits," if it is the practice of the carrier to adjust that account to a yield basis. When such securities are disposed of, the balance applicable thereto in this account shall be transferred to account 302–1.

4. In § 323.365 *Interest accruals for deposit in capital reserve fund* cancel the title and text of the account as they are now in effect and substitute the following for them:

§ 323.365 *Interest accruals for deposit in statutory reserve funds.* This account shall include the periodic (not less frequent than annual) accruals of interest on cash and securities on deposit in account 301, "Capital reserve fund," and account 302, "Special reserve fund," with corresponding credit to account 680, "Interest income—Special funds and deposits."

5. In § 323.675 *Interest income* cancel paragraph (a) of the text of the account as now in effect and substitute the following for it:

(a) This account shall be credited with all interest accrued. If it is the practice of the carrier to adjust such interest to a yield basis, this account shall be charged with amortization of any premium and shall be credited with accumulation of any discount on securities at the time of accrual or collection of interest thereon.

(Sec. 12, 24 Stat. 383, as amended, 54 Stat. 933; 49 U. S. C. 12, 904)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Part 814]

1956 SUGAR QUOTA FOR MAINLAND CANE SUGAR AREA

HEARING ON PROPOSED ALLOTMENT

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318; 7 U. S. C. Sup. 1100), and in accordance with the applicable rules of practice and procedure (7 CFR 801.1 et seq), and on the basis of information before me, I do hereby find that the allotment of the 1956 sugar quota for the Mainland Cane Sugar Area is necessary to prevent disorderly marketing and to afford all interested persons an equitable opportunity to market sugar, and hereby give notice that a public hearing will be held at Washington, D. C., in Room 2W, Administration Building, of the Department of Agriculture, on November 3, 1955, at 2:00 p. m., e. s. t.

The finding made above is in the nature of a preliminary finding based on the best information now available. It will be appropriate to present evidence at the hearing on the basis of which the Secretary of Agriculture may affirm, modify, or evoke such preliminary finding.

The purpose of such hearing is to receive evidence to enable the Secretary of Agriculture to establish fair, efficient, and equitable allotments of a portion of the quota which will enable persons who process sugar and liquid sugar from sugarcane grown in the continental United States to market such sugar and liquid sugar in an orderly manner during the period of January 1, 1956, to the date the Secretary prescribes allotments of the Mainland Cane Sugar Area quota for the calendar year 1956.

To avoid disorderly marketing by any allottee who might market early in 1956 a quantity of sugar larger than its allotment of the entire 1956 sugar quota for the Mainland Cane Sugar Area, it is necessary to make allotments effective on January 1, 1956. Much of the evidence necessary to provide an adequate basis for establishing allotments of the entire 1956 quota for the full calendar year cannot be adduced on the date for which the hearing is called. Therefore, the testimony on that date will be limited to data, views and arguments regarding consideration of the factors cited in section 205 (a) of the Act pertinent to establishing allotments of a portion of the quota to be in effect from January 1, 1956, to the date allotments of the entire quota for the calendar year 1956 are established.

On the date specified for the hearing, the Government witness will propose that for the period January 1, 1956, to the date allotments of the entire quota for the calendar year 1956 are prescribed, allotments of the 1956 Mainland Cane Sugar Area quota be established on the basis of 80 percent of the allotments of the Mainland Cane Sugar Area quota for 1955 as published in the FEDERAL REGISTER on September 23, 1955 (20 F. R. 7126). Notice also is given hereby that it will be appropriate at the hearing to present evidence on the basis of which the Secretary may revise or amend the allotment of the quota or proration thereof for the purpose of allotting any deficit in the allotment for any allottee.

Upon notice hereafter to be given in accordance with applicable rules of practice and procedure, a public hearing will be held early in 1956 for the purpose of receiving evidence to enable the Secretary to establish allotments of the entire 1956 Mainland Cane Sugar Area quota for the calendar year 1956 under the provisions of the Sugar Act of 1948, as amended.

Issued this 13th day of October 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55–8439; Filed, Oct. 17, 1955; 8:53 a. m.]

[7 CFR Part 814]

1956 SUGAR QUOTA FOR DOMESTIC BEET SUGAR AREA

HEARING ON PROPOSED ALLOTMENT

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318; 7 U. S. C. Sup. 1100), and in accordance with the applicable rules of practice and procedure (7 CFR 801.1 et seq.), and on the basis of information before me, I do hereby find that the allotment of the 1956 sugar quota for the Domestic Beet Sugar Area is necessary to prevent disorderly marketing and to afford all interested persons an equitable opportunity to market sugar, and hereby give notice that a public hearing will be held at Washington, D. C., in Room 2W, Administration Building, of the Department of Agriculture, on November 3, 1955, at 10:00 a. m., e. s. t.

The finding made above is in the nature of a preliminary finding based on the best information now available. It will be appropriate to present evidence at the hearing on the basis of which the Secretary of Agriculture may affirm, modify, or revoke such preliminary finding.

The purpose of such hearing is to receive evidence to enable the Secretary of Agriculture to establish fair, efficient, and equitable allotments of a portion of the quota which will enable persons who process sugar and liquid sugar from sugar beets grown in the continental United States to market such sugar and liquid sugar in an orderly manner during the period of January 1, 1956, to the date the Secretary prescribes allotments of the Domestic Beet Sugar Area quota for the calendar year 1956.

To avoid disorderly marketing by any allottee who might market early in 1956 a quantity of sugar larger than its allotment of the entire 1956 sugar quota for the Domestic Beet Sugar Area, it is necessary to make allotments effective on January 1, 1956. Much of the evidence necessary to provide an adequate basis for establishing allotments of the entire 1956 quota for the full calendar year cannot be adduced on the date for which the hearing is called. Therefore, the testimony on that date will be limited to data, views and arguments regarding consideration of the actors cited in section 205 (a) of the Act pertinent to establishing allotments of a portion of the quota to be in effect from January 1, 1956, to the date allotments of the entire quota for the calendar year 1956 are established. It also will be appropriate at the hearing to present evidence relative to the manner in which allotments should apply to sugar or liquid sugar processed under contracts providing for sugar beets to be sold to and processed for the account of one allottee by another.

On the date specified for the hearing, the Government witness will propose that for the period January 1, 1956, to the date allotments of the entire quota for the calendar year 1956 are prescribed, allotments of the 1956 Domestic Beet Sugar Area quota be established on the basis of 80 percent of the allotments of the Domestic Beet Sugar Area quota for 1955 as published in the FEDERAL REGISTER on June 9, 1955 (20 F. R. 3999).

Notice also is given hereby that it will be appropriate at the hearing to present evidence on the basis of which the Secretary may revise or amend the allotment of the quota or proration thereof for the purpose of allotting any deficit in the allotment for any allottee.

Upon notice hereafter to be given in accordance with applicable rules of practice and procedure, a public hearing will be held early in 1956 for the purpose of receiving evidence to enable the Secretary to establish allotments of the entire 1956 Domestic Beet Sugar Area quota for the calendar year 1956 under the provisions of the Sugar Act of 1948, as amended.

Issued this 13th day of October 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55–8440; Filed, Oct. 17, 1955; 8:54 a. m.]

[7 CFR Part 815]

REQUIREMENTS RELATING TO MARKETING OF SUGAR AND LIQUID SUGAR PRODUCED FROM SUGAR BEETS AND SUGARCANE GROWN IN CONTINENTAL UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Secretary of Agriculture, pursuant to authority vested in him by the Sugar Act of

1948, as amended (61 Stat. 922 as amended by 65 Stat. 318; 7 U. S. C. 1100), is considering amendment of Sugar Regulation 815 (19 F. R. 7930) as hereinafter proposed. The purposes of this amendment are to clarify the manner in which this regulation relates to the disposition of mainland sugar and to modify the requirements relating to the refining and storage of mainland sugar under bond until released within an applicable quota or allotment.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed regulation shall file the same in quadruplicate with the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 10 days from the date of the publication of this notice in the FEDERAL REGISTER.

The proposed amendment is as follows:

Basis and purpose. Paragraph (c) (1) of § 815.6 establishes a limit on the movement of mainland sugar which is permitted to be marketed by the processors for refining and storage until released within an applicable quota and allotment. In view of the continued increase in year-end inventories of processors of raw mainland cane sugar, it is imperative that the provision permit the fullest possible use of storage facilities ordinarily used by refiners who are permitted to receive such sugar under the provisions of this paragraph consistent with the maintenance of adequate quota controls. The amendment of this paragraph is believed to accomplish this purpose.

Section 815.3 has been amended to include a clarifying provision that mainland sugar removed from the continental United States for consumption out of the continental United States is not chargeable to the quotas and allotments thereof for the domestic beet sugar area or the mainland cane sugar area.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (60 Stat. 922, 65 Stat. 318, 7 U. S. C. 1100), and the Administrative Procedure Act (60 Stat. 237), § 815.3 and § 815.6 of Sugar Regulation 815 are hereby amended as follows:

1. Paragraph (c) (1) of § 815.6 is amended to read as follows:

§ 815.6 *Provisions of bond.* • • •

(c) *Conditions.* • • •

(1) In the case of any application approved by the Secretary to market to the principal named in the bond a quantity of mainland sugar for refining and storage, the principal shall hold and store, until release thereof is authorized by the Secretary, all of such quantity of mainland sugar, or an equivalent quantity of sugar or liquid sugar. Such sugar or liquid sugar must be held and stored at the refinery where the mainland sugar was received or at other storage facilities where the quantity of sugar or liquid sugar refined or to be refined at such refinery is placed in storage after receipt of the mainland sugar under the bond.

2. The following paragraph (c) is added to § 815.3:

§ 815.3 *Effect of marketings on quotas and allotments.* • • •

(c) A marketing of mainland sugar for which it is established to the satisfaction of the Secretary by sales and shipping documents of the processor and buyers, available pursuant to § 815.7, or otherwise that such mainland sugar was removed from the continental United States for consumption outside thereof.

Issued at Washington, D. C., this 12th day of October 1955.

[SEAL] WALTER C. BERGER,
Acting Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF HYDROGEN CYANIDE

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by American Cyanimid Company, 30 Rockefeller Plaza, New York, New York, proposing the establishing of a tolerance of 25 parts per million for residues of hydrogen cyanide in or on the following raw agricultural commodities: Cocoa beans, peanuts, dried beans (including navy beans, lima beans, and kidney beans), dried peas (including cow peas, chick peas, and blackeyed peas), almonds, cashews, pecans, walnuts, and the following grains: barley, corn, popcorn, rice (rough and polished), rye, and wheat.

Methods for determining residues of hydrogen cyanide are set out in the book "Official Methods of Analysis of the Association of Official Agricultural Chemists," Seventh Edition, in sections 22.53 and 22.54 (Eighth Edition, sections 22.55 and 22.56).

Dated: October 12, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

CIVIL AERONAUTICS BOARD

[14 CFR Part 249]

[Economic Regs. Draft Release 76A]

PRESERVATION OF ACCOUNTS, RECORDS AND MEMORANDA

SUPPLEMENTAL NOTICE OF PROPOSED RULE-MAKING

OCTOBER 14, 1955.

In the notice of proposed rule-making on this matter, published in the FEDERAL REGISTER on September 20, 1955 (20 F. R. 7049), it was stated that the Board would consider all relevant matter in communications received on or before October 18, 1955. The Board has been requested by several interested parties to extend the date by which comments must be filed by at least one month. Since the Draft Release proposed a comprehensive revision of Part 249, which contains the Board's requirements concerning the retention of both economic and safety records, extensive changes in the record-keeping methods of the entire industry will be necessitated. Consequently the Board finds that the request for a one month extension beyond the normal time for return of comment is not unreasonable under the circumstances.

Accordingly, the second sentence of the last paragraph of the aforementioned notice is amended to read as follows: "All relevant matter in communications received on or before November 18, 1955, will be considered by the Board before taking final action on the proposed rule."

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 407, 52 Stat. 1000; 49 U. S. C. 487)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

MISSOURI RIVER BASIN PROJECT, MONTANA

FIRST FORM RECLAMATION WITHDRAWAL

FEBRUARY 24, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby withdraw the following-described land from public entry, under the first form of withdrawal, as provided by Section 3 of the Act of June 17, 1902 (32 Stat. 388):

PRINCIPAL MERIDIAN, MONTANA

T. 27 N., R. 50 E.,
Sec. 15, Lots 2 and 3.

The above areas aggregate 36.69 acres.

E. G. NIELSEN,
Acting Commissioner.

OCTOBER 12, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

Notice for Filing Objections to Order Withdrawing Public Lands for the Missouri River Basin Project, Montana.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the term of the above order withdrawing certain public land in the State of Montana, for use in connection with the Nickwall Unit, Missouri River Basin Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN,
Acting Commissioner.

[Docket Nos. 5770 and 6024]

NORTH CENTRAL AIRLINES, INC., AND LAKE CENTRAL AIRLINES, INC.; ACQUISITION OF CONTROL AND INTERLOCKING DIRECTORATE PROCEEDING

NOTICE OF HEARING

In the matter of the joint application for approval of certain interlocking relationships involving North Central Airlines, Inc. and Lake Central Airlines, Inc., and the matter of the proposed acquisition of the control of Lake Central Airlines, Inc., by North Central Airlines, Inc. pursuant to sections 408 and 409 (a) of the Civil Aeronautics Act of 1938, as amended, under Dockets Nos. 5770 and 6024.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, hereinafter called the Act, that a hearing in the above-entitled proceeding will be held on October 24, 1955, at 10:00 a. m., e. s. t., in Room E-206, Temporary Building No. 5, 16th and Constitution Avenue NW., Washington, D. C., before Examiner Paul N. Pfeiffer.

Without limiting the scope of the issues presented by the applications and investigations consolidated herein, particular attention will be directed to the following matters:

(1) Whether the acquisition of control of Lake Central Airlines, Inc., by North Central Airlines, Inc., would result in creating a monopoly or monopolies and thereby restrain competition or jeopardize a third air carrier and would not be consistent with the public interest pursuant to section 408 of the Act?

(2) Whether the interlocking relationships of Howard A. Morey, Frank N. Buttomer, Grove Webster, Arthur E. Schwandt, Arthur E. A. Mueller, Joe Decoursin, Francis M. Higgins, Don Olen, Harold Emch, Harold N. Carr, A. L. Wheeler and Robert B. Stewart, North Central Airlines, Inc., and Lake Central Airlines, Inc., will not adversely affect the public interest within the meaning of section 409 (a) of the act?

For further details of the issues involved in this proceeding interested persons are referred to the applications and amendments thereto, petitions, motions, and orders entered in the docket of this proceeding, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding should file with the Board, on or before October 24, 1955, a statement setting forth the issues of fact or law to be presented.

Dated at Washington, D. C., October 12, 1955.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11300; FCC 55-1022]

ALLEGHENY-KISKI BROADCASTING CO. (WKPA)

ORDER AMENDING ISSUES

In re Application of Allegheny-Kiski Broadcasting Co. (WKPA), New Kensington, Pennsylvania, Docket No. 11300, File No. BP-9546; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 12th day of October 1955:

The Commission having under consideration (1) a motion to enlarge issues, filed by Allegheny-Kiski Broadcasting Co. (WKPA) on March 22, 1955; (2) a partial opposition to the above-mentioned petition to enlarge the issues filed by the Storer Broadcasting Company on April 1, 1955; (3) and an answer to the above-mentioned partial opposition filed by Allegheny-Kiski Broadcasting Co. on April 5, 1955.

It appearing that, by Order released March 10, 1955, the Commission designated the above-entitled application for hearing upon three issues designed to determine, inter alia; the areas and populations which may be expected to gain or lose primary service from the operation proposed by WKPA and the availability of other primary service to such areas and populations; whether the operation of Station WKPA as proposed would involve objectionable interference with Station WWVA, Wheeling, West Virginia, and, if so, the nature and extent of such interference; and to determine whether the operation proposed by WKPA would serve the public interest, convenience and necessity.

It further appearing that, Allegheny-Kiski Broadcasting Co. requests that the issues be enlarged to include the following three additional issues: [1]

"3. To determine the type and character of program service proposed by the applicant.

"4. To determine what program service is being rendered by Station WWVA to the area to be affected by the proposed operation of Station WKPA.

"5. To determine whether any other station serving the area which will be affected by the proposed operation of Station WKPA substantially duplicates all or any portion of said WWVA program services."

It further appearing that, Allegheny-Kiski Broadcasting Co. requests the addition of the aforelisted new Issues Nos. 3 and 4 in order that the Commission may make a determination as to the relative merits of the program service proposed by WKPA in the interference area as compared to the program service which WWVA presently renders in that area.

It further appearing that, Allegheny-Kiski Broadcasting Co., in its motion, requested that the Commission place on Storer Broadcasting Company the burden of proof in connection with the presentation of evidence concerning proposed Issue No. 4 but that this request was later modified, in petitioner's answer to the partial opposition of Storer, so as to change the "burden of proof" to the "burden of proceeding" with the introduction of evidence concerning proposed Issue No. 4;

It further appearing that, Storer Broadcasting Company does not oppose the enlargement of the Hearing Issues as proposed by Allegheny-Kiski Broadcasting Co., but does oppose the suggestion that it be assigned the burden of proof in connection with the presentation of evidence concerning proposed new Issue No. 4 and that Storer requests that the Commission place on Allegheny-Kiski Broadcasting Co. the burden of proof in connection with presenting evidence concerning all Hearing Issues in the instant proceeding.

It further appearing that, Storer Broadcasting Company requests that the Commission, should it grant the request of Allegheny-Kiski Broadcasting Co. for new Issue No. 5, adopt as Issue No. 5 (a), the following:

"5 (a) To determine whether any other station serving the area which will be affected by the proposed operation of Station WKPA substantially duplicates all or any portion of the proposed Station WKPA program service."

It further appearing that, for the reasons advanced by Allegheny-Kiski Broadcasting Co., the enlargement of issues by the addition of proposed new Issues Nos. 3 and 4 is warranted;

It further appearing that, Storer Broadcasting Company (WWVA) may reasonably be expected to be the best source of evidence as to the programs of Station WWVA;

It further appearing that, section 3.24 (b) of the Commission's Rules does not require the consideration of stations which will not be subject to interference from a proposed operation and that enlargement of the issues to include new Issue No. 5, as proposed by Allegheny-Kiski Broadcasting Co., and new Issue No. 5 (a), as proposed by Storer Broadcasting Company, would not be helpful to the Commission in making a determination in the instant proceeding;

It is ordered, That the above entitled petition of Allegheny-Kiski Broadcasting Company to enlarge the issues is granted insofar as to enlarge issues by the addition of the above listed new Issues Nos. 3 and 4 and to place the burden of proceeding with the introduction of evidence concerning new Issue No. 4 on Storer Broadcasting Company. In all other respects this petition is denied.

It is further ordered, That existing Issue No. 3 of the Hearing Order released March 10, 1955, is renumbered Issue No. 5 and that the issues in the above entitled proceeding are amended to read as follows:

"1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WKPA as proposed and the availability of other primary service to such areas and populations.

"2. To determine whether the operation of Station WKPA as proposed would involve objectionable interference with Station WWVA, Wheeling, West Virginia, or with any other existing station, and, if so, the nature and extent of such interference.

"3. To determine the type and character of program service proposed by the applicant.

"4. To determine what program service is being rendered by Station WWVA to the area to be affected by the proposed operation of Station WKPA.

"5. To determine whether, in light of the evidence adduced pursuant to the foregoing issues, the operation of Station WKPA as proposed would serve the public interest, convenience and necessity."

Released: October 13, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8423; Filed, Oct. 17, 1955; 8:50 a. m.]

[Docket No. 11310; FCC 55M-867]

NORTHERN CORP. (WMEX)

ORDER CHANGING PLACE OF HEARING

In re application of The Northern Corporation (WMEX), Boston, Massachusetts, Docket No. 11310, File No. BR-833; for renewal license.

The Hearing Examiner having under consideration a petition, filed on September 29, 1955, on behalf of the Chief of the Broadcast Bureau of this Commission, requesting that the place of the hearing in the above-entitled proceeding, now scheduled to be held on October 25, 1955, be changed from the City of Washington, D. C., to the City of Boston, Massachusetts; an opposition to the said petition filed on October 7, 1955, on behalf of The Northern Corporation (WMEX), the applicant herein; and an oral argument which was held, on October 7, 1955, on the said petition and opposition; and

It appearing from the above petition and oral argument that as a general rule hearings are held on applications for renewal of licenses in the cities in which the licensees are located since it has been found to be a more convenient practice than holding such hearings in the Commission's offices in Washington, D. C.,[1] and

It further appearing that there is now a reasonable expectancy that at least nine witnesses, and possibly a tenth, living in Boston or its environs will be called to testify in the proceeding on behalf of the Commission, and that, in addition, it is the present intention of the Broadcast Bureau to have the officers and directors of The Northern Corporation (WMEX), all of whom are residents of the Boston area, available for examination at the hearing, either with or without the service of subpoenas; and

It further appearing that there are a number of books, minutes, logs and other records, some of which cannot at present be specified, relating to the operation of Station WMEX, which may be required to be obtained by the Broadcast Bureau by means of subpoenas and introduced at the hearing and that it would be preferable to have such documents available in Boston in order that they may be properly identified and explained, if necessary, by persons living in that area associated with the operation of that station; and

It further appearing from the foregoing facts, and especially in view of the substantial number of witnesses who may be required to testify therein, that the proceeding would be expedited if held in Boston, and would be less costly to the government from a budgetary standpoint than if it were held in Washington, D. C.; and

It further appearing from the opposition to the above petition and oral argument thereon that counsel for The Northern Corporation (WMEX) has set forth no convincing reasons why the hearing should not be held in Boston or to show that the rights of that party would be in any respect prejudiced by conducting the proceeding in that city;

It is ordered, This 7th day of October 1955, that the above petition be, and it is hereby, granted; and that the hearing in the above-entitled proceeding is hereby moved from Washington, D. C., to Boston, Massachusetts, to be held in that city on October 25, 1955, the exact time and place thereof to be announced in a notice subsequently to be issued.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11394, FCC 55M-870]

IREDELL BROADCASTING CO. (WDBM)

NOTICE OF PREHEARING CONFERENCE

In re Application of Walter A. Duke d/b as Iredell Broadcasting Company (WDBM), Statesville, North Carolina, Docket No. 11394, File No. BP-9527; for construction permit.

Notice is hereby given that pursuant to section 1.813 of the Commission's Rules a prehearing conference in the above-entitled proceeding will be held at 9:00 a. m., Thursday, October 20, 1955, in Washington, D. C.

Dated: October 11, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8425; Filed, Oct. 17, 1955; 8:50 a. m.]

[Docket Nos. 11417 and 11418; FCC 55M-872]

TAYLOR BROADCASTING CO. AND GARDEN OF THE GODS BROADCASTING CO.

ORDER CONTINUING HEARING

In re applications of Taylor Broadcasting Co., Colorado Springs, Colorado, Docket No. 11417, File No. BP-9439 and Garden of the Gods Broadcasting Co., Manitou Springs, Colorado, Docket No. 11418, File No. BP-9462; for construction permits.

The Hearing Examiner having under consideration two motions, both of which were made on the record at the session of the hearing held October 11, 1955: (1) A motion made by respondent Boulder Radio Station KBOL, Inc., to declare the applicant, Garden of the Gods Broadcasting Company, in default; and (2) a motion made by counsel for the Broadcast Bureau to continue the hearing indefinitely with respect to Taylor Broadcasting Company;

It appearing that the hearing was convened at the time heretofore recited in the Hearing Examiner's Statement and Order of September 23, 1955, and that Garden of the Gods Broadcasting Company did not appear by counsel or otherwise; and

It further appearing that no evidence was adduced by Taylor Broadcasting Company nor would it have been proper to receive it under the Commission's ruling in Jesse Mae Cain, 11 R. R. 1285, because the only issues pertaining to that applicant were of a comparative nature; and

It further appearing that the Commission in its order of June 22, 1955, has found Taylor Broadcasting Company to be legally, technically, financially and otherwise qualified but designated its application for hearing because of the mutually prohibitive interference which would be involved with the operation proposed by Garden of the Gods Broadcasting Company; and

It further appearing that the motion made by counsel for the Broadcast Bureau, which was supported by counsel for KBOL and was not opposed by Taylor Broadcasting Company, contemplates an expeditious disposition of the application now remaining in hearing; and

It further appearing that an indefinite continuance would not be advisable for administrative reasons but that a continuance to December 1, 1955, would be proper in order to permit the parties to file pleadings with the Commission which would terminate this proceeding; and the Hearing Examiner having expressed an intention to confirm his action of

---

[1] Petitioner suggests that Issue No. 3 as contained in the Commission's Order of March 10 be renumbered Issue No. 6.

[Docket No. 11516; FCC 55-1017]

ELIZABETH EVANS AND W. COURTNEY EVANS (WSUX)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Elizabeth Evans and W. Courtney Evans (WSUX), Seaford, Delaware, Docket No. 11516, File No. BMP-6870; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 12th day of October 1955;

The Commission having under consideration the above-entitled application of Elizabeth Evans and W. Courtney Evans, a partnership, for a construction permit to increase the power of Station WSUX, Seaford, Delaware (1280 kilocycles, daytime only) from 500 watts to 1 kilowatt;

It appearing that the applicant is legally, technically, financially and otherwise qualified to operate the station as proposed but that operating as proposed Station WSUX may cause interference to Station WHVR, Hanover, Pennsylvania (1280 kc, 1 kw-LS, 500 w, DA-N, U); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated August 18, 1955, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that the applicant filed a timely reply to the Commission's letter; and

It further appearing that in a reply dated September 16, 1955, WHVR requested that the subject application be designated for hearing on the grounds of the above-described interference and that it be made a party to the hearing; and

It further appearing that the Commission, after consideration of the subject application and the above-described communications is of the opinion that a hearing is necessary;

It is ordered, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and population which would gain or lose primary service if Station WSUX were permitted to operate as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Station WSUX as proposed would involve objectionable interference with Station WHVR, Hanover, Pennsylvania, or any other existing broadcast station, and, if so, the nature and extent thereof, the areas and population affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced with respect to the foregoing issues, if a grant of the subject application would serve the public interest, convenience or necessity.

It is further ordered, That Radio Hanover, Inc., licensee of Station WHVR, Hanover, Pennsylvania, is made a party to the proceeding.

Released: October 13, 1955.

FEDERAL POWER COMMISSION

[Docket No. E-6647]

FLORIDA POWER CORP.

NOTICE OF APPLICATION

OCTOBER 12, 1955.

Take notice that on October 10, 1955, an application was filed with the Federal Power Commission pursuant to Section 204 of the Federal Power Act by Florida Power Corporation (Applicant), a corporation organized under the laws of the State of Florida and doing business in said State, with its principal business office at St. Petersburg, Florida, seeking an order authorizing the issuance of $20,000,000 principal amount of unsecured promissory notes to a group of banks from which it will borrow funds. Applicant proposes to issue said notes on or after November 10, 1955, which will become due and payable on or before August 10, 1956, to the banks and in the amounts indicated below:

Guaranty Trust Co. of New York	$7,800,000
The Hanover Bank	4,000,000
The Chase Manhattan Bank	2,000,000
Chemical Corn Exchange Bank	2,000,000
Bankers Trust Co	2,000,000
Irving Trust Co	1,000,000
The Florida National Bank at St. Petersburg	450,000
The First National Bank at Orlando	300,000
Union Trust Co., St. Petersburg	200,000
The First National Bank in St. Petersburg	200,000
Bank of Clearwater	50,000
Total	20,000,000

All as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 31st day of October 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-8403; Filed, Oct. 17, 1955; 8:46 a. m.]

[Docket No. G-6716, etc.]

E. A. CULBERTSON ET AL.

APPLICATIONS AND DATE OF HEARING

OCTOBER 11, 1955.

In the Matter of E. A. Culbertson & Wallace W. Irwin, Docket Nos. G-6716 and G-6717; W. N. Price, Docket No. G-6744; W. N. Price, L. M. Price and G. Kelley Stout, Docket No. G-6745.

Take notice that the above designated Applicants, hereinafter referred to singly and collectively as Applicant, independent producers of natural gas in Texas and New Mexico, filed applications for certificates of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to continue to render service, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open to public inspection.

E. A. Culbertson and Wallce W. Irwin produce natural gas in New Mexico, which is sold in interstate commerce to El Paso Natural Gas Company for resale. W. N. Price produces natural gas in Texas, which is sold in interstate commerce to Shamrock Oil & Gas Corporation for resale. W. N. Price in association with L. M. Price and G. Kelley Stout produce natural gas in New Mexico which is sold in interstate commerce to El Paso Natural Gas Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Section 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 15, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure. Under the procedure hercin provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 4, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Project No. 2193]

SACRAMENTO MUNICIPAL UTILITY DISTRICT

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

OCTOBER 12, 1955.

Public notice is hereby given that Sacramento Municipal Utility District, of Sacramento, California, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed waterpower Project No. 2193, to be located on the North, Middle, and South Forks of the American River in El Dorado and Placer Counties, California, and to consist of four developments: (1) Auburn Dam, to consist of a concrete gravity dam about 360 feet high located on the North Fork of American River one mile east of Auburn and about 1½ miles downstream from the confluence of the Middle Fork with the North Fork; a reservoir with gross capacity of 514,000 acre-feet at elevation 880; and a powerhouse located about 1,000 feet below the dam with installed capacity of 45,000 kilowatts; (2) Kelsey Dam, to consist of a concrete arch dam about 140 feet high located on the South Fork of American River less than a mile below the mouth of Kelsey Canyon; a reservoir with gross capacity of 18,000 acre-feet at elevation 1000; a penstock about 700 feet long, and a powerhouse located a short distance downstream from the dam with installed capacity of 12,000 kilowatts; (3) Coloma Dam, to consist of a concrete gravity dam over 300 feet high located on the South Fork of American River 1.6 miles upstream from the mouth of Webber Creek; a reservoir with gross capacity of 511,410 acre-feet at elevation 850; and a powerhouse located about 1,000 feet downstream from the dam and having an installed capacity of 45,000 kilowatts; and (4) Salmon Falls Dam, to consist of a concrete gravity dam about 75 feet high on the South Fork of American River 0.8 mile downstream from the mouth of Webber Creek; a reservoir with gross capacity of 2,500 acre-feet; and a powerhouse located about 400 feet downstream from the dam with installed capacity of 12,000 kilowatts. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last date upon which protests may be filed is November 18, 1955. The application is on file with the Commission for public inspection.

[Docket No. E-6646]

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF APPLICATION

OCTOBER 11, 1955.

Take notice that on October 3, 1955, an application was filed with the Federal Power Commission pursuant to Section 204 of the Federal Power Act by California Electric Power Company (Applicant), a corporation organized under the laws of the State of Delaware and doing business in the States of California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing the issuance of $10,000,000 principal amount of promissory notes, maturing by their terms prior to twelve months from date of issue, to the Bank of America National Trust and Savings Association. Applicant proposes to issue said notes on various dates during September 1955 to July 1956 in amounts varying from $500,000 to $1,500,000. The notes will be issued to evidence borrowings which the Applicant proposes to make from the bank and the proceeds will be used to finance the cost of additions, betterments and improvements to Applicant's properties; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 31st day of October 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[Docket No. G-5933, etc.]

TEXAS CO. ET AL.

APPLICATIONS AND DATE OF HEARING

OCTOBER 12, 1955.

In the matters of The Texas Company, Docket No. G-5933; F. William Carr, et al., Docket No. G-6706; The Tacony Company, Docket No. G-8435.

The above-designated Applicants produce natural gas from gas fields in Texas and Mississippi and each proposes to sell natural gas so produced to United Gas Pipe Line Company for transportation in interstate commerce for resale under contracts and at prices indicated in applications filed pursuant to section 7 of the Natural Gas Act for certificates of public convenience and necessity authorizing each Applicant to render the proposed service described, subject to the jurisdiction of the Commission, all as more fully represented in each application on file with the Commission and open for public inspection.

The pertinent data reflected in each application are set forth below:

Docket No.	Date filed	Applicant	Location of field
G-5933	Nov. 26, 1954	The Texas Co	McFaddin Field, Victoria County, Tex.
G-6706	Nov. 30, 1954	F. William Carr, et al	Weesatche Field, Goliad County, Tex.
G-8435	Feb. 4, 1955	The Tacony Co	Pistol Ridge Field, Forrest County, Miss.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 22, 1955, at 9:45 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 7, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[Docket No. G-9126, etc.]

CITIES SERVICE GAS CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

OCTOBER 12, 1955.

In the matters of Cities Service Gas Company, Docket No. G-9126; Falcon Seaboard Drilling Company, et al., Docket G-9121; Buffalo Oil Company, Docket No. G-9127; Davon Oil and Gas Company, et al., Docket No. G-9128.

Take notice that (1) Cities Service Gas Company (Cities Service), a Delaware corporation with a principal office in Oklahoma City, Oklahoma, filed an application in Docket No. G-9126 on July 11, 1955, (2) Falcon Seaboard Drilling Company (Falcon Seaboard), a Delaware Corporation with a principal office in Tulsa, Oklahoma, as operator, and for Harold B. Ward and C. W. Lane, filed an application in Docket No. G-9121 on July 11, 1955, (3) Davon Oil and Gas Company (Davon Oil), a partnership consisting of E. Julian Davis, Aaron Weitzenhoffer, H. W. O'Keeffe and William T. Morrison, Jr., with a principal office in Oklahoma City, Oklahoma, as operator and for Anchor Petroleum Company and Manhattan Construction Company, filed an application in Docket No. G-9128, on July 11, 1955, and (4) Buffalo Oil Company (Buffalo Oil), a Maryland corporation, with a principal Office in Tulsa, Oklahoma, filed an application in Docket No. G-9127, all for certificates of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing (a) Cities Service to construct and operate approximately 7 miles of 6⅝-inch pipe line beginning at a point of connection with an existing 20-inch pipe line in the Northwest Quarter of Section 35, Township 18 North, Range 2 West, and extending West to a point of connection with a proposed gathering system in the Southwest Quarter of Section 3, Township 17 North Range 3 West, Logan County, Oklahoma, together with a meter setting and appropriate appurtenances thereto, and (b) Falcon Seaboard, Davon Oil, and Buffalo Oil respectively to make sales of natural gas in interstate commerce to Cities Service for resale, all subject to the jurisdiction of the Commission, and as more fully described in the applications referred to hereinabove, on file with the Commission, and open for public inspection.

Cities Service proposes by means of the proposed described facilities to take natural gas from the West Lawrie Field, Logan County, Oklahoma, proposed to be produced by Buffalo Oil and Falcon Seaboard, and to be sold in interstate commerce to Cities Service for resale; and to take natural gas proposed to be produced by Davon Oil and Gas Company, Anchor Petroleum Company and Manhattan Construction Company, and to be sold in interstate commerce to Cities Service for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on December 5, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after, a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 16, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3411]

NEW ENGLAND ELECTRIC SYSTEM AND SOUTHERN BERKSHIRE POWER & ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY PURSUANT TO RIGHTS OFFERING, AND ACQUISITION OF COMMON STOCK OF SUBSIDIARY BY PARENT

OCTOBER 12, 1955.

New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Southern Berkshire Power & Electric Company ("Southern Berkshire") have filed a joint application and amendments thereto pursuant to sections 6 (b), 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transactions:

Southern Berkshire, which presently has outstanding 30,368 shares of capital stock (par value $25 per share), proposes to issue and sell for cash 15,184 additional shares, which will be offered to its stockholders at the par value of $25 per share, on the basis of one new share for each two shares held. Rights to subscribe will be evidenced by full and half-share warrants, exercisable during a subscription period of 15 days. Full shares only will be issued.

NEES, which now owns 27,928 shares (91.965 percent) of Southern Berkshire's capital stock, proposes to exercise its rights to subscribe for 13,964 additional shares to which it will be entitled, and to purchase all unsubscribed shares offered to the minority stockholders.

NEES will also offer to purchase from the minority stockholders, at a price of $25 per share and for a period of sixty days following the date of the initial offer of additional capital stock by Southern Berkshire, their present holdings of Southern Berkshire's capital stock and any shares which they may acquire pursuant to said rights offering. New England Gas and Electric Association, an exempt holding company, which holds 2,256 of the 2,440 minority shares outstanding in the hands of the public, has agreed to sell such shares to NEES at the price of $25 per share.

NEES will use treasury funds for its proposed acquisitions. The proceeds from the sale of the additional capital stock, amounting to $379,600, will be used by Southern Berkshire to apply on its outstanding note indebtedness to NEES.

Southern Berkshire and NEES desire to consummate the proposed transactions in order to finance permanently a portion of the capitalizable additions to Southern Berkshire's plant through the issuance of equity securities. NEES also desires to invest funds not otherwise required in its business in acquiring the minority interest in Southern Berkshire.

The Massachusetts Department of Public Utilities, the regulatory commission of the State in which Southern Berkshire is organized and doing business, has approved the issuance and sale of the new shares by Southern Berkshire and the sale of any unsubscribed shares to NEES at the price of $25 per share.

Due notice having been given of the filing of said amended application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding with respect to the proposed transactions that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary; and deeming it appropriate in the public interest and in the interest of investors and consumers that the amended application be granted, effective forthwith:

It is ordered, pursuant to Rule U-23 and the applicable provisions of the act, that said application as amended be, and it hereby is, granted, effective forthwith, subject to the conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-8410; Filed, Oct. 17, 1955; 8:47 a. m.]

[File No. 812-960]

INTERAMERICAN CAPITAL CORP.

APPLICATION FOR ORDER EXEMPTING ACQUISITION OF SECURITIES OF AN INVESTMENT COMPANY

OCTOBER 12, 1955.

Notice is hereby given that Interamerican Capital Corporation ("Applicant"), a corporation organized under the laws of the Republic of Panama, has made application to the Securities and Exchange Commission for an order pursuant to section 6 (c) of the Investment Company Act of 1940 ("Act") exempting from the provisions of section 12 (d) of the Act a proposed investment in securities of Applicant by the Pennroad Corporation ("Pennroad") a registered investment company.

The application makes the following representations:

Applicant was formed on September 15, 1955, for the purpose of making investments in Latin American enterprises. The proposal for the organization of Applicant developed out of the Inter-American Investment Conference held at New Orleans in March of 1955. One of the purposes of that meeting was to stimulate private investment in Latin America and thereby to contribute to the development of that area.

It is expected that Applicant will provide private capital to take participations in new or existing industrial enterprises in the Western Hemisphere of a type not eligible generally for investments or loans by the International Bank or the Export Import Bank.

Applicant has an authorized capitalization consisting of 100,000 shares of convertible preferred stock of the par value of $25 per share and 2,500,000 shares of common stock of the par value of 10 cents per share. The Board of Directors has authorized, in addition, issuance of $5,000,000, principal amount of 3 percent convertible cumulative income debentures. The preferred stock, (taken at $50 per share), is convertible into common stock at $7 per share of common stock. The principal amount of each debenture will be convertible into common stock at $8 per share of common stock. Such conversion prices are, and will be, subject to adjustment in case of dilution.

The income debentures, convertible preferred stock and 750,000 shares of the common stock are proposed to be sold as five thousand units, each consisting of one $1,000 debenture, twenty shares of preferred stock and 150 shares of common stock. The proposed price per unit is $2,015, the debenture being included at 100 percent of its principal amount, the preferred stock at $50 per share and the common stock at 10 cents per share. Not more than 80,000 shares of common stock are to be reserved for issuance on exercise of options which may be granted in connection with a proposed management contract. Such options are limited to the purchase, in the aggregate, of not more than 9 percent of the number of shares outstanding at any given time.

It is proposed to arrange for the sale of the five thousand units to a limited group of investors. Such group of investors will not exceed 90 investment firms and their partners and officers and other corporate and individual investors of substantial means. Each purchaser will confirm in writing that the purchases were made for investment and not with a view to public distribution.

As a first step in the financing of Applicant, Pennroad has subscribed to twenty units at a selling price of $40,300 and Time, Inc. ("Time"), has entered into a similar commitment, subject to the investment by Pennroad. Neither Time nor Pennroad will make a total investment in Applicant of more than $503,750, consisting of 250 of the above units. Hence, at the completion of the financing program of Applicant outlined above, neither Pennroad's nor Time's total investment in Applicant will be in excess of 5% of Applicant's total outstanding capitalization of $10,075,000. It is intended to restrict the offering of Applicants securities so that no other individual or business organization will own 10 per centum or more of the outstanding voting securities of the Applicant at any one time (except to the extent that such ownership might be acquired through exercise of conversion rights by one or a small number of security holders).

Section 12 (d) (1) of the Act, among other things, makes it unlawful for any registered investment company to purchase or otherwise acquire any security issued by any other investment company if such registered investment company and any company controlled by it own in the aggregate, or as a result of such purchase will own, more than 5% of the total outstanding stock of such other investment company if the policy of such other investment company is the concentration of investments in a particular industry or group of industries.

The investment by Pennroad is prohibited by section 12 (d) of the act only to the extent that applicant falls within the definition of an investment company in section 3 of the act. Applicant would satisfy the provisions of section 3 (c) (1), and hence would not be an investment company, except that Time and Pennroad, both publicly held corporations, will own more than 10% of the outstanding voting securities of the applicant in the early stages of the financing program.

Applicant seeks the exemption order herein applied for in order to permit the proposed investment by Pennroad up to the maximum of $503,750.

Section 6 (c) of the act provides, among other things, that the Commission, by order upon application, may conditionally or unconditionally exempt any person from any provision or provisions of the act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Notice is further given that any interested person may, not later than October 24, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the Act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

[Canal Zone Order 41]

PART 24—SANITATION, HEALTH, AND QUARANTINE

By virtue of the authority vested in the President of the United States by section 371 of title 2 of the Canal Zone Code, approved June 19, 1934, and delegated to me by Executive Order No. 9746 of July 1, 1946, as amended by Executive Order No. 10595 of February 7, 1955, Subpart D of Part 24 of Title 35, Code of Federal Regulations, as adopted and amended by Canal Zone Order 39 of February 26, 1955, 20 F. R. 1392, is further amended to read as follows, and new Subparts E and F are added as set forth below:

Subpart D—Compulsory Vaccination

Sec.
24.150 Compulsory smallpox vaccination of persons residing or working in Canal Zone.

Subpart E—Physical Examination of Barbers, Beauticians and Manicurists

24.160 Compulsory examination.
24.161 Certificates of examination.
24.162 Fee for examinations.
24.163 Punishment for violations.

Subpart F—Examination of Food Handlers; Inspection of Food-Handling Establishments

24.170 Applicability.
24.171 Definitions.
24.172 Initial examination.
24.173 Annual examination.
24.174 Special examination.
24.175 Certificate of examination.
24.176 Condition of food-handling establishments.
24.177 Supervision of food handlers.
24.178 Inspection of food-handling establishments.
24.179 Punishment for violations.

AUTHORITY: §§ 24.150 to 24.179 issued under sec. 1, 39 Stat. 527, as amended, 2 CZ Code 371, 372; 48 U. S. C. 1310.

SUBPART D—COMPULSORY VACCINATION

§ 24.150 *Compulsory smallpox vaccination of persons residing or working in Canal Zone.* (a) Every person residing or working in the Canal Zone shall present himself for smallpox vaccination at such places and times as shall be prescribed by authority of the Health Director of the Canal Zone Government; and every person residing in the Canal Zone having the care, custody or control of any child over three months of age shall likewise present such child for vaccination. Every person appearing for vaccination, as hereinbefore required, shall submit to vaccination to the satisfaction of the Health Director or such officer as he may designate: *Provided, however,* That there shall be exempt from the requirement of vaccination persons who, in the judgment of the Health Director or such officer as he may designate, have been successfully vaccinated within three years prior to the time designated as aforesaid, or have acquired immunity to smallpox, or are found not to be fit subjects for vaccination. Vaccinations performed under this section shall be without charge: *Provided, however,* That for vaccination of persons employed by agencies of the United States (other than the Panama Canal Company or the Canal Zone Government) and their dependents the Governor of the Canal Zone may, in his discretion, prescribe a reasonable fee to be paid by the agency concerned. Certificates of successful vaccination shall be issued by the Health Director or such officer as he shall designate. Notices of the time and places prescribed for appearance for vaccination may be given either by personal service or by mail or by publication in such manner as shall be prescribed by the Health Director with the approval of the Governor of the Canal Zone.

(b) A violation of any of the provisions of this subpart is punishable, as provided in section 373 of title 2 of the Canal Zone Code, by a fine of not more than $25, or by imprisonment in jail for not more than thirty days, or by both; and each day such violation continues constitutes a separate offense.

SUBPART E—PHYSICAL EXAMINATION OF BARBERS, BEAUTICIANS AND MANICURISTS

§ 24.160 *Compulsory examination.* Every person engaged in the occupations of barber, beautician, or manicurist at any place in the Canal Zone shall, no less frequently than once each year, present himself at such place as shall be designated by the Health Director of the Canal Zone Government and submit to a physical examination for (a) tuberculosis, (b) syphilis, (c) infectious skin disease, and (d) other communicable or contagious diseases, which examination

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

RECORD RETENTION REQUIREMENTS

Reprint Notice

A reprint of the Federal Register dated April 8, 1955, is now available.

This issue, containing a 57-page index-digest of Federal laws and regulations relating to the retention of records by the public, is priced at 15 cents per copy.

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

may include X-ray and serology and must meet generally accepted medical standards. Every person who hereafter enters any of those occupations or commences an apprenticeship therein shall first submit to the examination prescribed by this section and secure a certificate thereof: *Provided, however,* That by authority of the Health Director temporary clearance for initial employment may be given pending completion of the physical examination. In addition to the foregoing annual and initial examinations, the Health Director or such officer as he may designate shall require a special physical examination of any person engaged in the enumerated occupations whenever he has reason to suspect the presence of any of the aforesaid diseases: *And provided further,* That this subpart shall not apply to any military reservation within the Canal Zone.

§ 24.161 *Certificates of examination.* Certificates of satisfactory examination shall be issued and, when necessary, revoked by the Health Director or such officer as he shall designate, and no person shall engage in any of the aforesaid occupations in the Canal Zone unless he is in possession of a valid certificate so issued.

§ 24.162 *Fee for examinations.* The Governor of the Canal Zone may, in his discretion, prescribe a reasonable fee for the annual and initial examinations required by this subpart.

§ 24.163 *Punishment for violations.* A violation of any of the provisions contained in this subpart is punishable, as provided in section 373 of title 2 of the Canal Zone Code, by a fine of not more than $25, or by imprisonment in jail for not more than thirty days, or by both; and each day such violation continues constitutes a separate offense.

SUBPART F—EXAMINATION OF FOOD HANDLERS; INSPECTION OF FOOD-HANDLING ESTABLISHMENTS

§ 24.170 *Applicability.* The provisions of this subpart shall apply to establishments operated by or for any Government agency, or private or public organization in the Canal Zone which regularly process, manufacture, package, prepare, serve, or sell food or beverages and to the food handlers employed therein: *Provided, however,* That none of the said provisions shall apply to any military reservation within the Canal Zone.

§ 24.171 *Definitions.* (a) The term food handler as used in this subpart is defined as a person engaged in the processing, manufacture, packaging, cooking, preparation, dispensing, serving, or selling of any foodstuffs, beverages, or other items intended for human consumption: *Provided, however,* That the term shall not include persons who handle only unprocessed fruits and vegetables or foodstuffs or beverages that are fully protected by sealed containers or packaging.

(b) The term food-handling establishment is defined as any place where food handlers are employed.

§ 24.172 *Initial examination.* Every person, upon being employed as a food handler in the Canal Zone, shall present himself at such place as shall be designated by the Health Director of the Canal Zone Government and submit to a physical examination for (a) tuberculosis, (b) syphilis, (c) infectious skin disease, and (d) other communicable or contagious diseases, which examination may include X-ray, serology, and tests for enteric diseases and must meet generally accepted medical standards.

§ 24.173 *Annual examination.* Every food handler shall submit, no less frequently than once each year, to physical re-examination in the same manner as provided by § 24.172 for initial examination. The Governor of the Canal Zone may, in his discretion, prescribe a reasonable fee for the examinations required by this section and § 24.172.

§ 24.174 *Special examination.* Whenever he has reason to suspect the presence of any of the diseases enumerated in § 24.172, the Health Director or such officer as he may designate shall require a special examination of the food handler concerned.

§ 24.175 *Certificate of examination.* The Health Director or such officer as he may designate shall issue to each food handler who satisfactorily passes the aforesaid physical examination a certificate to that effect valid, unless sooner revoked, for no longer than one year. A copy of such certificate shall be furnished to the establishment where the food handler is employed where it shall be kept on file and be made available upon request of the sanitation inspector or other authorized representative of the Canal Zone Government. No person shall work as a food handler nor shall any food-handling establishment hire such person unless a valid certificate of satisfactory examination has been issued in his case and remains in effect: *Provided, however,* That by authority of the Health Director temporary clearance for initial employment may be given pending completion of the physical examination. Compliance with this provision shall be jointly the responsibility of the food handler and the food-handling establishment.

§ 24.176 *Condition of food-handling establishments.* All food-handling establishments shall maintain their premises in a clean orderly and hygenic condition and at all times shall provide for the use of food handlers sanitary facilities and supplies which, in the opinion of the Health Director, meet generally accepted minimum standards. No person shall be retained as a food handler who repeatedly evidences unhygenic practices with respect to his person or dress.

§ 24.177 *Supervision of food handlers.* All food-handling establishments shall designate a sufficient number of responsible personnel (a) to supervise their food handlers and enforce suitable standards of personal cleanliness, (b) to note all instances when such standards are not maintained on an examination record for the individual food handler, and (c) to discover disqualifying defects or other indications of illness or disease among their food handlers when they appear. The following shall be considered disqualifying defects and upon their discovery the food-handling establishment shall require the food handler concerned to report for examination and treatment at a hospital or clinic to be designated by the Health Director: lesions, rashes on exposed skin surfaces, coughing, fever, sore throat, nasal discharge, and diarrhea.

§ 24.178 *Inspection of food-handling establishments.* At such intervals as may be prescribed by the Health Director, all food-handling establishments shall be inspected by a sanitation inspector or other authorized representative of the Canal Zone Government. Such inspection shall be conducted in company with the supervisor or person in charge of the establishment. It shall include (a) an examination of the premises to determine compliance with this subpart and (b) inspection of the file of certificates and examination records for the food handlers employed which is to be maintained by the establishment.

§ 24.179 *Punishment for violations.* A violation of any of the provisions contained in this subpart is punishable, as provided in section 373 of title 2 of the Canal Zone Code, by a fine of not more than $25, or by imprisonment in jail for not more than thirty days, or by both; and each day such violation continues constitutes a separate offense.

WILBER M. BRUCKER,
Secretary of the Army.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Edward McSwiggan d. b. a. Universal Training Service, Miami, Fla., Docket 6345, September 17, 1955.]

In the Matter of Edward McSwiggan, Individually and Doing Business Under the Name of Universal Training Service

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission which charged respondent with violation of the Federal Trade Commission Act through the use of certain practices in connection with the sale of his correspondence courses of study for civil service examinations; and an agreement entered into by respondent and counsel supporting the complaint providing, among other things, that respondent admitted all the jurisdictional allegations in the complaint; that the answer theretofore filed might be withdrawn, and that the complaint and agreement should constitute the entire record in the proceeding; that the inclusion of findings of fact and conclusions of law in the decision disposing of the matter was waived, together with any further procedural steps before the hearing examiner and the Commission, to which respondent might be entitled under the Federal Trade Commission Act or the Commission's rules of practice.

It was also agreed that the order hereinafter set forth might be entered in disposition of the proceeding with the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon, respondent specifically waiving any and all right, power, and privilege to challenge or contest the validity of such order; that the order might be altered, modified, or set aside in the manner provided by the Federal Trade Commission Act for other orders of the Commission; and that the signing of the agreement was for settlement purposes only, and did not constitute an admission by respondent that he had violated the law as alleged in the complaint.

The hearing examiner made his initial decision in which he set forth the aforesaid matters and his opinion that they provided an appropriate basis for settlement and disposition of the proceeding, accepted the agreement and made it a part of the record, made findings that the Federal Trade Commission had jurisdiction of the subject matter and of respondent, and that the proceeding was in the public interest, and issued his order to cease and desist.

Thereafter, said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 16, 1955, became, on September 17, 1955, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondent, Edward McSwiggan, individually and doing business under the name of Universal Training Service, or any other name, and his representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of courses of study and instruction, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) That respondent, his school, his agents or representatives, or any one of them, have any connection with the United States Civil Service Commission or any other agency of the United States Government.

(b) That any civil service position is open to all persons, unless such is the fact.

(c) That the completion of respondent's course of instruction assures or guarantees a civil service position.

(d) That prospective students lose the opportunity to enroll for respondent's course of study unless they enroll at the time of the first visit of respondent's agent or representative.

(e) That respondent's school is a nonprofit organization or is sponsored by the United States Government or any agency thereof.

(f) That every prospective student or purchaser of respondent's course of study is especially recommended or selected.

(g) That completion of respondent's course of study makes persons eligible for appointment to, or assures them of, or guarantees them United States Civil Service positions or employment immediately or at any time.

(h) That there is any assurance that persons who complete respondent's course of study and obtain civil service positions will be employed at any particular location.

(i) That respondent's course of study must be taken in order to qualify for civil service positions or that it is difficult to obtain such positions without taking respondent's course of study.

(j) That civil service requirements as to veteran's status, physical, mental educational and experimental qualifications do not apply to persons taking respondent's course of study.

(k) That persons holding positions under the United States Civil Service are exempt from service in the Armed Services.

2. Using the word "registrar" or any word of similar import to designate or describe respondent's agents or representatives; or otherwise representing that respondent's agents or representatives perform the functions usually performed by officers of educational institutions known as registrars.

3. Soliciting, procuring or accepting contracts for respondent's course of study, without permitting prospects to read the same over fully and thoroughly.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: September 16, 1955.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

[F. R. Doc. 55-8469; Filed, Oct. 18, 1955; 8:51 a. m.]

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

Subchapter G—Emergency Operations

[General Order 75, Amdt. 3]

PART 308—WAR RISK INSURANCE

SUBPART D—SECOND SEAMEN'S WAR RISK INSURANCE (1955)

Section 308.306 (46 CFR 308.306) is hereby deleted in its entirety and superseded by the following new section:

§ 308.306 (a) *Standard form of Second Seamen's War Risk Policy (1955).* The following is the standard form of Second Seamen's War Risk Policy (1955):

Form MA-242 (8-55)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE, MARITIME ADMINISTRATION

SECOND SEAMEN'S WAR RISK POLICY

(1955 Standard Form)

Crew Life, Disability, Loss of Effects, and Detention — No. SSWR _____ Date _____

Total number of men insured for life and injury _____ for $_____ each
Total amount insured, life or injury _____ $_____ Rate ___% Premium $_____
Total amount insured, personal effects _____ $_____ Rate ___% Premium $_____
Total amount annual wages and emergency wages _ $_____ Rate ___% Premium $_____
Total Premium _____ $_____

The United States of America (herein called the "Underwriter"), represented by the Maritime Administrator, acting for the Secretary of Commerce, in consideration of the payment by _____ (herein, for identification purposes only, called the "Operator") of a premium of $_____, and in accordance with applicable provisions of law and subject to all limitations thereof, particularly title XII, Merchant Marine Act, 1936, as amended, insures the master, officers and crew, as hereinafter set forth, of the vessel _____ (Official No. _____), during the period described herein commencing on or about _____ against loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided), from the perils and causes hereinafter stated, payable in case of claim in funds current in the United States in accordance with the following schedules and as hereinafter stated.

SCHEDULE 1—LOSS OF LIFE

Master, officers and crew, each ------ $5,000

The amount for which each person is covered by this schedule is the principal sum.

SCHEDULE 2—DISABILITY, INCLUDING DISMEMBERMENT AND LOSS OF FUNCTION

For disability proximately caused by the risks and perils insured against herein, and which arises within ninety days from the date of the happening of such risks and perils, and for dismemberment and loss of function caused by the risks and perils insured against herein, and which result from such a disability or otherwise occur within ninety days from the happening of such risks or perils, the Underwriter will pay to the insured the benefits set forth in the stipulations and conditions.

SCHEDULE 3—CREW EFFECTS

For loss of or damage to the personal effects of the master, officers or members of the crew proximately caused by the risks and perils insured against herein, the Underwriter will pay the amount set forth in the Stipulations and Conditions for the loss of or damage to said effects during the entire period of this policy as hereinafter set forth, and for the loss of or damage to effects proximately caused by the risks and perils insured against herein, purchased or otherwise acquired during the policy to replace effects lost or damaged by the risks and perils insured against herein, the Underwriter will pay not exceeding $50.00 for each such loss or damage.

SCHEDULE 4—DETENTION AND REPATRIATION BENEFITS

For detention of the master, officers or members of the crew during the period covered by this policy, and under other situations hereinafter provided, the Underwriter will pay benefits to the insured or for his or their account, as set forth in the stipulations and conditions.

This policy is made and accepted subject to the foregoing and to the following:

STIPULATIONS AND CONDITIONS

Art.
1. Persons insured.
2. Additional insurance.
3. Risks and perils.
4. Period of coverage.
5. Extension of period of coverage.
6. Payment for loss of life.
7. Beneficiaries of insurance for loss of life.
8. (A) Designation and change of beneficiary; (B) continuing designation.
9. Claims.
10. Time for payment of insurance for loss of life.
11. Proof of death.
12. Disability and dismemberment.
13. Physical examination.
14. Personal effects defined.
15. Amount of payment for loss of, or damage to, personal effects.
16. Death of an insured prior to payment for loss of or damage to personal effects.
17. Detention and repatriation benefits.
18. Payment constituting a discharge.
19. Nonassignability.
20. Amount permitted to be paid agents or attorneys.
21. Notice of loss and claim.
22. Limitation of suit.
23. Deviation and change of voyage.
24. "Administrator" defined.
25. Multiple claims against the United States.
26. Amendments and modifications.
27. Payment of premium and cancellation.
28. Extension.

ARTICLE 1. *Persons insured.* The persons insured by this policy are the master, officers and crew of the vessel described on the face of this policy. Except as to merchant seamen, membership in the vessel's gun crew shall not of itself constitute an individual a member of the crew of the vessel, as that phrase is used herein. Any person or persons insured under any other or similar policy, including the Second Seamen's War Risk Policy (1952), insuring against loss of life or disability (including dismemberment and loss of function) or loss of or damage to personal effects or detention (including the occurrence of other situations hereinafter provided) shall not to the extent of such prior coverage, be entitled to coverage under this policy while such other insurance is in force and effect.

ART. 2. *Additional insurance.* In the event that any person is employed as a master or officer or member of the crew of said vessel after the commencement of the voyage, the amount of the premium shall be increased proportionately, provided, however, that the failure to pay such additional premium shall not affect the additional coverage.

ART. 3. *Risks and perils.* The insurance is for loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided) of the insured, directly and proximately caused by risks of war and warlike operations, including capture, seizure, destruction by men-of-war, sabotage, piracy, takings at sea, arrests, restraints and detainments, acts of kings, princes and peoples in the prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, scuttling to prevent capture, aerial bombardment, or, attempts at, or measures taken in defense of, all of the foregoing acts, floating or stationary mines, torpedoes, whether derelict or not, collision caused by failure, in compliance with wartime regulations, of said vessel or any vessel with which she is in collision, to show the usual full peacetime navigation or anchorage lights, stranding caused by the absence of lights, buoys, or similar peacetime aids to navigation consequent upon wartime regulations, stranding caused by the failure of said vessel to employ a pilot in waters where a pilot would ordinarily be employed in peacetime, but in which the employment of a pilot is dispensed with in compliance with military, naval or other governmental orders, or with a view to avoiding imminent enemy attack (for the purposes of the foregoing, the failure to show lights, the absence of lights, buoys, etc., and the failure to employ a pilot shall be presumed to be the cause of the collision or stranding unless the contrary be proved, and stranding shall include sinking consequent upon stranding or contact with any part of the land), collision with another vessel in the same convoy or collision with any military or naval vessel, that is to say, a vessel manned by and under the control of military or naval personnel and designed to be employed primarily in armed combat service, stranding, collision or contact with any external substance (including ice, but excluding water), as a result of deliberately placing the vessel in jeopardy, in compliance with military, naval or other governmental orders in order to avoid imminent enemy attack, or as an act or measure of war taken in the actual process of embarking or disembarking troops or loading or unloading material of war.

The fact that a vessel, or any vessel with which such vessel is in collision, is carrying troops or military or other supplies, or is proceeding to or from a war base, or is manned or operated by military or naval per-

sonnel, shall not alone be sufficient to include in this policy any claim which is not included by the foregoing terms of this article.

The insurance is also for loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided) of the insured, directly and proximately resulting from stranding, sinking, or break-up of the vessel, explosion or fire causing loss of or substantial damage to the vessel, or collision by the vessel or contact with any external substance (including ice, but excluding water), irrespective of whether the same are caused by risks of war or warlike operations or by marine risks and perils.

The word "vessel" shall include any waterborne conveyance used to transport the insured to and from the vessel on which he is employed, and shall also include any airborne conveyance used to transport the insured pursuant to instructions or permission of the Maritime Administration or its agents.

ART. 4. *Period of coverage.* The period of coverage for each person covered hereunder is

From the time such person signs the articles or enters into a contract of employment for the voyage of the aforesaid vessel, or, if already on articles for a series of voyages or period of time, from the inception of the aforesaid voyage (i. e., when the vessel is ready to begin the loading of cargo for the aforesaid voyage or to sail in ballast) or, if employed subsequent to the commencement of the voyage, from the time of such employment

Until such person shall be returned to a place within the continental United States, excluding Alaska, including any period of capture or internment,

Unless sooner terminated by desertion, discharge, accepting employment on another vessel for a purpose other than to be repatriated, or the refusal without good cause to return to the continental United States, excluding Alaska, from any place outside thereof, in any of which events the coverage under this policy shall be at an end. (The term "discharge," as used in this paragraph, does not include instances in which the insured leaves the vessel for medical or hospital treatment or for other causes deemed good and sufficient in the opinion of the Administrator.)

ART. 5. *Extension of period of coverage.* If the insured returns to the continental United States, excluding Alaska, on a vessel which touches or stays at a place or places within the continental United States, excluding Alaska, other than the place of termination of the voyage and the vessel thence proceeds to such place of termination, the period of coverage in respect to each person covered hereunder who continues to be on board such vessel is extended to the termination of the voyage.

ART. 6. *Payment for loss of life.* The amount of the payment for loss of life shall be the principal sum stated on the face of this policy, subject, however, to any deductions or additions hereinafter contained.

Payment for loss of life shall be made in a lump sum except that when—

(a) In the opinion of the Administrator conclusive proof of death is not present, or

(b) The insured at the time of designating a beneficiary or beneficiaries requests on the form provided therefor that the amount payable for the loss of life be paid in installments, or

(c) The beneficiary or beneficiaries request in writing that the payment for loss of life be made in installments,

payment for loss of life may, in the discretion of the Administrator, be made in monthly installments not exceeding twenty-four, in which event no interest is to be added or paid. By requesting payment in installments, the insured and the beneficiary or beneficiaries agree on behalf of themselves, their heirs, executors and administrators to be bound by the provisions of paragraph B, article 7 hereof, as well as all other provisions contained herein. The beneficiary or beneficiaries may at any time upon written request obtain a lump sum payment of the entire amount yet unpaid if payment is being made in installments pursuant to the written request of the beneficiary or beneficiaries. If payment has been commenced in installments and the principal sum is not yet exhausted, the Administrator, in his sole discretion and at any time may direct that payment of the balance of the principal sum be paid in a lump sum or in installments of different or varying amounts, provided, however, that all of the principal sum be paid within twenty-four months from the time that the first payment is made.

If any payments are made under article 12 hereof, the total amount of such payments shall be deducted from the amount of the principal sum payable under this policy for loss of life.

If the personal effects of an insured are lost or damaged under circumstances where payment would be due under the terms hereof to said person for such loss or damage and said person either before or after such loss or damage dies, his death being proximately caused by the risks and perils insured against herein, the amount which would have been payable for the loss of or damage to such personal effects had he survived shall be added to the principal sum hereof and shall be payable to the beneficiary of the insurance for loss of life.

ART. 7. *Beneficiaries of insurance for loss of life.* A. The insurance shall be payable only to a lawful widow or widower, child (the latter term including a posthumous child, a child legally adopted by the insured, and, if designated, a child in relation to whom the insured stood in *loco parentis*, and a step-child or acknowledged illegitimate child), parent (including a step-parent, parent by adoption and, if designated, a person who stood in the place of a parent to the insured), brother or sister (including, if designated, step-brothers or step-sisters, half-brothers and half-sisters, and brothers and sisters by adoption), grandparents, grandchildren, and, if designated, nephews, nieces, aunts or uncles, of the insured.

(1) The insured shall have the right to designate the beneficiary or beneficiaries of the insurance, but only within the classes above provided, and shall, in the manner hereinafter described, at all times have the right to change the beneficiary or beneficiaries of such insurance without the consent of such beneficiary or beneficiaries, but only within the above classes. A person or persons so designated shall be known as the primary beneficiary or beneficiaries.

(2) The insured shall have the right also to designate any other person or persons, but only within the above classes, to whom the insurance shall be paid if the beneficiary or beneficiaries designated shall die before the insurance or any portion thereof shall be paid. A person or persons so designated shall be known as the contingent beneficiary or beneficiaries.

(3) If the insured fails to designate a beneficiary or if the beneficiary or beneficiaries, whether primary or contingent, die before the insurance or any portion thereof shall be paid, the insurance will, subject to the provisions of paragraph B hereof, be paid to the beneficiary or beneficiaries within the following classes and in the order named:

(a) If the insured shall be survived by a lawful widow or widower but without any child of him or her surviving, 100 percent to such widow or widower.

(b) If the insured shall be survived by a lawful widow or widower and a child or children of him or her surviving, 50 percent to the widow or widower and 50 percent to the child or children in equal shares.

(c) If the insured shall have no lawful widow or widower of him or her surviving but shall have a child or children of him or her surviving, 100 percent to the child or children in equal shares.

(d) If there shall be no lawful widow or widower or children of the insured of him or her surviving, 100 percent to the parent or parents of the insured in equal shares.

(e) If there shall be no lawful widow or widower, child or parent of him or her surviving, 100 percent to the brothers, sisters, grandparents and grandchildren of the insured in equal shares.

The persons in these classes shall be known as the schedule beneficiaries. As used in this subdivision (3), the term "child" includes a posthumous child and a child legally adopted by the insured, and the term "parent" includes a step-parent and a parent by adoption.

B. The right of any beneficiary to payment of the insurance, or any unpaid installment thereof, shall be conditioned upon his or her being alive to receive payment. No person shall have a vested right to any such insurance or any installment of any such insurance. No insurance shall be paid to the heir or heirs or executors or administrators of the insured or of any beneficiary.

Any insurance or any installment thereof not paid to a primary beneficiary because of his or her death shall be paid to the schedule beneficiary or beneficiaries first or next entitled to priority as hereinabove provided, unless a contingent beneficiary has been designated, in which event payment shall be made to the contingent beneficiary. Any such insurance or any installment thereof not paid to a contingent beneficiary because of his or her death shall be paid to the schedule beneficiary or beneficiaries first or next entitled to priority as hereinabove provided. If, however, the insured has designated more than one primary beneficiary or more than one contingent beneficiary and if such a primary beneficiary or contingent beneficiary dies before the insurance or an installment thereof, to which he or she may otherwise be entitled, is paid, such insurance or installment thereof shall be paid to the surviving primary or contingent beneficiary, as the case may be.

Any payments of insurance made to a person represented by the insured to be within the permitted classes of beneficiaries shall be deemed to have been properly made and to satisfy fully the obligation of the United States under this insurance policy.

ART. 8. A. *Designation and change of beneficiary.* The designation of a beneficiary or the change in a designation of beneficiary shall be in writing upon a form or forms and in a manner prescribed by the Administrator, signed by the insured, witnessed either by the Shipping Commissioner or a licensed officer of the vessel, and shall contain the name, address and relationship of the beneficiary to the insured. No designation of a beneficiary and no change of a beneficiary shall be valid unless the instrument containing the designation or change is received by the Administrator at his office in the General Accounting Office Building, 441 G Street NW., Washington 25, D. C., provided, however, that the instrument when received shall be considered as valid as of the time of its execution. Whenever it shall appear to the satisfaction of the Administrator that unusual circumstances existed preventing or substantially preventing the designation or change of beneficiary in the manner or form hereinabove set forth and that the interests of justice would be served, he may waive or disregard the failure to comply with such manner and form and recognize as valid an act intended as a designation or a change of beneficiary. The recognition as valid by the Administrator of such an act shall be conclusive and binding upon all persons and payment or payments pursuant thereto shall be a pro tanto discharge of the obligation of the United States under this policy.

B. *Continuing designation.* As to any individual insured under the Second Seamen's War Risk Policy form as amended or changed from time to time, the beneficiary or beneficiaries first designated by such insured to receive the proceeds of the insurance provided by such form shall (subject to the limitations of paragraph B, article 7 hereof), if properly designated, continue to be the beneficiary or beneficiaries of any subsequent insurance provided by such form without further designation unless and until such initial designation is effectively revoked or changed. In the event of an effective revocation unaccompanied by a new designation, the insurance proceeds shall be disposed of in accordance with the provisions of paragraph A, subdivision (3), article 7, hereof. In the event of an effective change of beneficiary or beneficiaries, the new beneficiary or beneficiaries so designated shall for all purposes, including the purposes of this paragraph, be considered as the initial designee or designees, and such designation shall continue to be effective as to all insurance provided by this form of policy until revoked or changed. Subsequent revocations and changes shall for all purposes be treated as would be the preceding revocations or changes, if any.

ART. 9. *Claims.* No claim for insurance for loss of life shall be recognized unless presented in writing to the underwriter. Any payment or payments of the insurance or the installments thereof made prior to the presentation of claim shall be conclusively deemed to have been properly made under this policy and in complete discharge of the obligation of the United States under this policy to the extent thereof.

ART. 10. *Time for payment of insurance for loss of life.* Unless extended by the provisions hereinafter contained, payment of the insurance for loss of life shall be made within ninety days after the death of the insured is established in a manner satisfactory to the Administrator, but payment may be made prior to the expiration of such ninety days at the discretion of the Administrator. The time for payment may be extended without penalty or interest for that period of time consumed by the Administrator in establishing the identity or the location of the beneficiary or beneficiaries, and should any conflicting claims for payment be presented to the Administrator, payment of the insurance may be withheld and the time for payment thereof extended without any penalty or obligation to pay interest until such claims are duly adjudicated or otherwise withdrawn, settled or compromised to the satisfaction of the Administrator.

ART. 11. *Proof of death.* The time and facts of death of any insured shall be established in a manner satisfactory to the Administrator; and his determination of the time and facts of death shall be binding and conclusive against all persons for all purposes of this policy. If, however, payment of a part of the insurance for loss of life has been made and it appears that the insured is alive, payment of the balance of the insurance for loss of life shall not be made, but the payments of insurance in whole or in part theretofore made shall not be recovered, except where such payments were induced by wilful misrepresentation or fraud either by the beneficiary or any other person. The part so paid shall, however, be a discharge to the extent thereof of any other obligation under this policy, including the obligation to pay benefits under article 17 hereof, to the insured or any other person.

ART. 12. *Disability and dismemberment—* A. *Disability.* "Disability" as that term is used in this policy means incapacity because of injury proximately caused by the risks insured against herein which necessarily and continuously prevents the insured from performing any and every kind of duty pertaining to his occupation at the time of injury.

(1) If an insured suffers disability he shall be paid benefits at the rate of $150 a month, provided, however, that during any part of such period when the insured is hospitalized he shall be paid benefits at the rate of $100 a month, beginning with his return to the continental United States, excluding Alaska, until the Administrator determines that the disability has ceased or until a total of $5,000 is paid, whichever first occurs.

(2) If the Administrator determines at any time during the period such monthly benefits are payable that the insured has received maximum medical treatment for such disability and that such disability is, therefore, permanent in quality (loss of both hands, or both arms, or both feet, or both legs, or both eyes, or combination of any two thereof, will be conclusively presumed by the Administrator to constitute a disability permanent in quality), he shall notify the insured of such facts and the insured shall have the option of

(a) Continuing to receive such monthly benefits at the rate of $150 a month or $100 a month, as the case may be, until the aggregate of all the monthly benefits paid to him both before and after such determination total $5,000, or

(b) Receiving in a lump payment the sum of $5,000 less the total of the monthly benefits paid to him prior to such determination.

(3) In the event the insured elects after such determination to accept payments for such disability under subdivision (2) (a) hereof and if when the total of $5,000 has been paid him as therein provided, the insured claims in writing, and establishes to the satisfaction of the Administrator, that because of the same injury he is incapable of performing, for remuneration or profit, any work or engaging in any business or occupation, then he shall be paid further benefits at the rate of $150 a month or $100 a month, as the case may be, until the Administrator determines such incapacity has ceased or until a total of $2,500 is paid, whichever first occurs.

B. *Dismemberment, including loss of function.* If the Administrator determines that the insured, as a proximate result of the risks insured against herein, has suffered a dismemberment or loss of function of the type set forth below, not, however, amounting to disability which the Administrator determines to be permanent in quality, the Underwriter will pay to the insured additional benefits measured by the following percentages of the principal sum. Such benefits shall be in addition to the benefits paid under subdivision (1), paragraph A hereof, but the aggregate of such benefits for disability, dismemberment, and loss of function shall not exceed the principal sum.

(1) Member lost:	Percent
(a) Arm	65
(b) Leg	65
(c) Hand	50
(d) Foot	50
(e) Eye	45
(f) Thumb	15
(g) First finger	10
(h) Great toe	9
(i) Second finger	5
(j) Third finger	5
(k) Toe other than great toe	2½
(l) Fourth finger	2½

(m) Loss of hearing: For complete loss of hearing of one ear, 12½ percent; for the complete loss of hearing of both ears, 50 percent.

(n) Phalanges: For loss of more than one phalange of a digit, the same as the loss of the entire digit; for loss of the first phalange one-half the loss of the entire digit.

(o) Amputated arm or leg: For an arm or leg, if amputated at or above the elbow or the knee, the same as for the loss of the arm or leg; if amputated between the elbow and the wrist or the knee and the ankle, the same as for the loss of a hand or foot.

(p) Binocular vision or per centum of vision: For loss of binocular vision or for eighty percent or more of the vision of an eye shall be the same as for loss of the eye.

(q) Two or more digits: for loss or loss of use of two or more digits, or one or more phalanges of two or more digits, or a hand or foot, may be proportioned to the loss of use of the hand or foot occasioned thereby but shall not exceed the payment for loss of a hand or foot.

(r) Total loss of use: for permanent total loss of use of a member shall be the same as for loss of the member.

(s) Partial loss or loss of use: payment for permanent partial loss or loss of use of a member may be for proportionate loss of the member or loss of use of the member.

(t) Disfigurement: proper and equitable payment for serious facial or head disfigurement, not to exceed 50 percent.

(u) Total or partial loss or loss of use of more than one member or parts of members. In any case in which there shall be a loss or loss of use of more than one member or parts of more than one member set forth in subdivision (a) to (t) both inclusive, hereof, but not amounting to permanent total disability, payment shall be made for the loss or loss of use of each such member or part thereof, however, not exceeding the principal sum, and except that where the injury affects only two or more digits of the same hand or foot, subdivision (q) hereof shall apply.

(2) The amount determined by the Administrator to be due the insured for dismemberment or loss of function shall

(a) If $750 or less, be paid the insured in a lump sum as soon as practicable.

(b) If more than $750, be paid, at the option of the insured, in a lump sum or in monthly installments of $150 or $100, as the case may be, beginning with the month next succeeding the last monthly payment made for disability pursuant to the provisions of subdivision (1), paragraph A hereof, or as soon thereafter as is practicable. The insured shall notify the Administrator in writing of the desired method of payment immediately upon receipt of the Administrator's determination that the insured is entitled to payment for dismemberment or loss of function under this paragraph. Should the Administrator not receive such written notice within thirty days, it shall be conclusively presumed that the insured desires payment in a lump sum and the Underwriter will act accordingly.

(3) If the insured elects under subdivision (2) (b) hereof to accept payment for dismemberment or loss of function in monthly installments, the number of installments due shall be increased in number by 10 percent but in no event shall the increase be less than one installment of $150 or $100, as the case may be.

C. *Injury increasing disability.* The Administrator in determining if disability, dismemberment or loss of function exists, or if found to exist, the quality thereof, will not take previous disabilities, dismemberments or losses of function into account. If, however, such previous condition was insured under this Second Seamen's War Risk Policy, the insured shall receive with respect to the two claims an aggregate sum not less than he would have been entitled to under either subdivision (2) and (3) of paragraph A or paragraph B hereof, had the injuries causing both disabilities been received at the same time.

D. Disability shall not include incapacity directly resulting from bodily or mental infirmity or disease of any kind. Nor shall benefits be paid for dismemberment or loss

of function directly resulting from bodily or mental infirmity or disease of any kind.

E. If the insured elects after a determination by the Administrator that he is entitled to benefits under either subdivision (2) paragraph A or paragraph B hereof to accept payments for such disability, dismemberment, or loss of function, as the case may be, in installments, and if the insured dies from a cause not insured against herein before he has received the last installment, the remainder which he would have received under such subdivision had he survived shall be paid to the person or persons who would have received his life insurance hereunder, subject, however, to all the conditions, stipulations, and provisions contained in this policy governing the disposition and payment of the insurance for loss of life.

The right of the insured to payment of the benefits provided for herein shall be conditioned upon his or her being alive to receive payment, and benefits shall not be paid to the heirs, executors, or administrators of the insured, or of any other person.

ART. 13. *Physical examination.* The underwriter shall have the right to require an examination of the person of the insured, when and so often as it may reasonably require and also the right and opportunity in case of death to make an autopsy where it is not forbidden by law.

ART. 14. *Personal effects defined.* The term "personal effects" includes personal property reasonably necessary or required for use on board the vessel as well as those articles ordinarily or customarily carried on board for the personal use, wear, comfort, or convenience of the insured, either while on board, while in a foreign port, or upon his return to the home port. Articles of apparel, whether used for ornamentation or otherwise, and articles used in the performance of duties on board, are also included. Articles carried for the purpose of business foreign to the actual duties of the insured, or for resale, are excluded.

ART. 15. *Amount of payment for loss of, or damage to, personal effects.*

A. In the event of total loss of, or damage (equivalent to total loss) to the personal effects of any insured, reimbursement for such total loss or damage shall be as follows:

(a) Licensed officer, $500;

(b) Unlicensed crew member, $300;

(c) U. S. Merchant Marine cadet or cadet officer, $300.

If an insured shall establish the loss of a sextant which he carried aboard the vessel, he shall be paid $100 extra. If the insured shall establish the loss of binoculars, which he carried aboard the vessel, he shall be paid $50 extra. A total loss shall be determined without reference to apparel actually worn by the crew member at the time of the loss or damage.

B. In the event of a partial loss of or damage to the personal effects of an insured, he shall be reimbursed for the actual value of such effects lost or damaged to the extent of such loss or damage, but in no event shall the payment for such effects lost or damaged exceed the amount set forth in paragraph A of this article 15 for which total loss or damage is payable.

ART. 16. *Death of an insured prior to payment for loss of or damage to personal effects.* Payment for loss of or damage to personal effects shall be conditioned upon the insured being alive to receive payment, and shall not be payable to his heirs, executors, administrators or assigns, except as provided in article 6 hereof.

ART. 17. *Detention and repatriation benefits.* A. If it is established to the satisfaction of the Administrator, who, for this purpose, may rely on any official information furnished him by any department or agency of the United States Government, that the insured's vessel has been destroyed or abandoned as a result of a risk or peril insured against herein and that the insured has survived such an event and is not detained (in the sense that that term is used in paragraph B, article 17 hereof), monthly benefits shall be paid as hereinafter provided in this paragraph A. Such monthly benefits shall be equal to the monthly basic wage of the insured (including special emergency wage), as shown by the shipping articles signed by the insured or, if not on articles, by the contract of employment entered into by the insured. Such monthly benefits shall be paid from the date of such destruction or abandonment of the vessel, which, for the purposes hereof, shall be the date recognized by the Administrator when the obligation to pay wages under the applicable shipping articles or contract of employment terminated, or which is otherwise fixed by the Administrator as the date of such destruction or abandonment, and shall continue until the insured arrives at a continental port of the United States.

Such monthly benefits shall be paid to the person or persons, if living, to whom the insured's wages are allotted under the applicable shipping articles. Such allottee or allottees shall receive that portion of the monthly benefits which is equal in amount to the insured's monthly wage which has been allotted, provided such latter amount does not exceed the amount of the monthly benefits, and provided further that no payment shall be made to an allottee for any fractional allotment period between the last regular allotment date and date when such monthly benefits terminate. If no such allotment has been made, or if the person to whom the insured has allotted his wages is dead or dies, or if an allotment has been made and the allottee is living but the amount of monthly benefits exceeds the amount which can be paid to such allottee, the benefits or the remainder thereof shall be held by the Administrator for the benefit of the insured until his return to the continental United States, excluding Alaska, with the right to the Administrator, however, to pay such benefits or the remainder thereof in whole or in part to any person or persons named in subdivision (3), paragraph A, article 7 of these stipulations and conditions (for the purpose of this paragraph the words "widow" and "widower" as used in subdivision (3) shall mean "wife" and "husband" respectively), including the allottee or allottees aforementioned, and such payment when made shall be conclusively presumed to have been made for the account of the insured.

B. If it is established to the satisfaction of the Administrator, who, for this purpose may rely on any official information furnished him by any department or agency of the United States Government, that the insured is detained, either by capture by an enemy of the United States or by internment, but not otherwise, monthly benefits shall be in the same amount or amounts and shall be held or paid in the same manner and for or to the same person or persons as set forth in paragraph A, article 17 hereof. Such monthly benefits shall be paid during such period of detention beginning with the date that the insured suffered such detention as determined by the Administrator.

C. If, in the opinion of the Administrator, it is uncertain—

(1) Whether the insured survived or died as a proximate result of the occurrence of a risk or peril insured against, or

(2) Whether the insured survived or died as a proximate result of the occurrence of an event which may be a risk or peril insured against, but as to which, in the opinion of the Administrator, there is also uncertainty, or

(3) Whether the insured's vessel has been destroyed or abandoned as a proximate result of a risk or peril insured against, although it is certain, in the opinion of the Administrator, that the insured is alive, or

(4) Whether the insured is detained (in the sense that that term is used in paragraph B, article 17 hereof), although it is certain, in the opinion of the Administrator, that the insured is alive,

monthly benefits shall be paid as hereinafter provided in this paragraph C. Such monthly benefits shall be in the same amount or amounts and shall be held or paid in the same manner and for or to the same person or persons as set forth in paragraph A, article 17 hereof. Such monthly benefits shall be paid from the date, as fixed by the Administrator, the insured, if alive, was probably separated from his vessel under any of the respective situations set forth above and shall continue until—

(a) The Administrator determines that the insured is entitled to benefits as provided in paragraph A, article 17 hereof, in which event monthly benefits shall thereafter be paid as provided in paragraph A, Article 17 hereof, or

(b) The Administrator determines that the insured is entitled to benefits as provided under paragraph B, article 17 hereof, in which event monthly benefits shall thereafter be paid as provided in paragraph B, article 17 hereof, or

(c) The death of the insured is established in a manner satisfactory to the Administrator, or

(d) The issuance by the Administrator of certificate of presumptive death of the insured, whichever first occurs, in which event benefits shall cease; provided, however, that if the Administrator determines that at any time after such benefits have ceased the insured is entitled to benefits or has been entitled to benefits as provided in either paragraph A or paragraph B, article 17 hereof, monthly benefits shall thereafter be paid as provided in paragraph A or paragraph B, article 17 hereof, as the case may be, with proper adjustment for the period that the insured was entitled to be paid such benefits prior to the Administrator's determination thereof.

D. If, while the insured is being paid benefits under either paragraph A or B or C, article 17 hereof, the Administrator determines that the insured was not, or is no longer, entitled to benefits under the provisions of such paragraph, then the payment of such benefits shall cease; provided that, if the Administrator determines the insured is entitled to benefits under the provisions of any other of such paragraphs, the insured shall thereafter be entitled to benefits under the provisions of such paragraph.

E. In no event shall benefits be paid under paragraphs A, B, C, or D, article 17 hereof, beyond three months after the termination of the national emergency shall have been proclaimed by the President or beyond the time that the insured shall either refuse without good cause to return to the continental United States, excluding Alaska, or accept employment on another vessel for a purpose other than to be repatriated.

F. If the insured, upon his return to the United States (excluding Alaska), shall be entitled to receive under paragraph A or B or C, article 17 hereof, benefits exceeding a sum equal to twelve months' basic wage (including special emergency wage), payment of a sum equal to twelve months' basic wage (including special emergency wage) shall be made to the insured forthwith. Any unpaid balance of such benefits shall be paid to the insured in monthly installments equivalent in amount to such monthly benefits until paid in full. In determining the amount which the insured is entitled to receive in a lump sum, as aforesaid, benefits paid to his allottees or to the persons named in subdivision (3), paragraph A, article 7 hereof, shall not be considered. Payments to an allottee or to schedule beneficiaries shall not be made after the date of arrival of the insured at a continental United States port, and all payments thereafter shall be made only to the insured: *Provided, however,* That if the insured dies after his arrival and while he is receiving monthly payments as above set forth, such monthly payments shall thereafter be paid to his allottees or to schedule beneficiaries until paid in full.

G. The right of the insured to be paid benefits or to have benefits paid on his account, under paragraphs A, B, or C, article 17 hereof, shall be conditioned upon the insured being alive during the period such benefits accrued or were paid; provided, however, that benefits payable for the account of the insured to allottees or schedule beneficiaries shall always be paid in full to the date of establishment of death or presumed death of the insured as determined under paragraph C, article 17 hereof. Such benefits under no circumstances shall be paid or considered payable to heirs, executors or administrators of the insured or of any allottee or schedule beneficiary of the insured.

H. The Underwriter agrees that detention and repatriation benefits, as provided under this article 17, shall continue until the insured shall be returned to the port to which the Operator is obligated to return the insured, as shown by the shipping articles signed by the insured or, if not on articles, by the contract of employment entered into by the insured.

ART. 18. *Payment constituting a discharge.* A payment by the Administrator to the person or persons determined by him to be entitled to all or any of the proceeds of this policy shall constitute a pro tanto discharge of the obligations under this policy of the United States of America, the Department of Commerce, and the Maritime Administrator.

ART. 19. *Nonassignability.* Neither this policy nor any part thereof nor any insurance, benefits or allowances payable hereunder shall be assignable.

ART. 20. *Amount permitted to be paid agents or attorneys.* Except in the event of legal proceedings arising under or in connection with this policy, payment to any attorney, agent or any other person acting for or on behalf of an insured, beneficiary or recipient, by such insured or any beneficiary or recipient, for such assistance as may be required in the preparation of the claim, shall not exceed $25 in any one case, except that the Administrator may approve an additional amount in those cases in which he feels the nature of the services rendered warrant it. At any time during the pendency of any litigation arising under or in connection with this policy or whenever a judgment or a decree shall be rendered in an action or proceeding arising under or in connection with this policy for the payment of any insurance, benefits or allowances under this policy, the court in which such action or proceeding is pending or in which a judgment or decree has been rendered may and is requested to allow such fees for the attorney or attorneys of the person or persons who are parties to such action or proceeding or who have obtained a judgment or a decree, as it may determine to be just compensation for the services rendered. Before the payment of any insurance, benefits or allowances hereunder, or any judgment or decree, as aforesaid, the Administrator may require proof to be submitted to him in the form of an affidavit, or in any other manner which to him seems fit, by the insured, the beneficiary, the recipient, or holder of any judgment or decree, or his attorney, agent, or any other person acting for or on their behalf, or any or all of them, that the payment previously or thereafter to be made to such attorney, agent or other person does not exceed the sum herein specified or allowed by the court, as the case may be.

ART. 21. *Notice of loss and claim.* Notice of disability (including dismemberment and loss of function), and claim for payment therefor under this policy shall be given to the Administrator within ninety days after the happening of the event causing the disability (including dismemberment and loss of function), or ninety days after the insured returns to the continental United States, excluding Alaska. Notice of loss of, or damage to, personal effects and claim for payment therefor under this policy shall be given to the Administrator within ninety days after the happening of the event causing the loss, or ninety days after the insured returns to the continental United States, excluding Alaska.

Any insured who is employed on a vessel as an employee of the United States through the Office of National Shipping Authority, Maritime Administration, or successor Office shall comply with applicable rules and regulations pertaining to the filing of claims and administrative allowance or disallowance as prescribed by NSA Order No. 67 (LPR 1), 20 F. R. 2414, or as amended or revised.

ART. 22. *Limitation of suit.* No action or suit upon this policy shall be valid unless commenced within two years from the time the insurance, benefits or allowances conferred by this policy are payable, except that

(a) An action or suit by the insured may be commenced at any time within two years after he returns to the United States or the termination of the national emergency shall have been proclaimed by the President, whichever first occurs, and

(b) The time during which a person, other than the insured, is in enemy occupied territory shall be excluded from the two year period as aforesaid.

Any insured who is employed on a vessel as an employee of the United States through the Office of National Shipping Authority, Maritime Administration, or successor Office shall comply with applicable rules and regulations pertaining to the filing of claims and administrative allowance or disallowance as prescribed by NSA Order No. 67 (LPR 1), 20 F. R. 2414, or as amended or revised.

ART. 23. *Deviation and change of voyage.* This insurance shall not be affected by a deviation or change of voyage of the vessel, except that the Administrator may require the payment of an additional premium.

ART. 24. *"Administrator" defined.* Wherever the term "Administrator" is used in this policy that term shall include the person who is the Maritime Administrator at the time of the issuance of this policy and his successor or successors in office, and such other person or persons employed by the Administrator, the Maritime Administration, the Department of Commerce or the United States of America, to whom the Administrator may delegate duties or powers for the administration of the insurance. Wherever there is mention in this policy of a decision, determination or exercise of discretion by the Administrator, such terms shall include a decision, determination or exercise of discretion of a person or persons to whom the Administrator may delegate such power or powers and shall not be taken to mean that the personal act of the Administrator is required.

ART. 25. *Multiple claims against the United States.* A. It is the intent of the underwriter in the issuance of this policy to avoid providing or paying any benefit or sum of money for any loss, event or occurrence to the extent that legal liability to pay for the same loss, event or occurrence otherwise exists on the part of the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel, and this policy shall be construed to give effect to such intent. By the acceptance of the insurance protection afforded by this policy, by the designation of any beneficiary thereunder or by otherwise acting pursuant to the terms of this policy, the insured, in behalf of himself, his personal and legal representatives, administrators, executors, heirs at law, next of kin, dependents and beneficiaries, acknowledges such intent and agrees to the conditions and provisions of this policy, including specifically those contained in this Article 25. Similarly, any beneficiary or person to whom any benefit or sum of money is paid under the provisions of this policy does, by making claim therefor or by the acceptance thereof, acknowledge such intent and agrees to the conditions and provisions of this policy, including specifically the conditions and provisions of this article 25.

B. If any final judgment or award is obtained by any person against the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel by reason of the loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) of the insured but based on a claim or cause of action other than one under this policy, and if such respective loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) of such insured, either separately or combined, also constitutes or forms the basis of a claim payable under this policy, the amount which otherwise would have been payable hereunder because of such claim shall be reduced by an amount equal to the amount of such final judgment or award, unless such person, in a form and manner satisfactory to the Administrator, effectively and validly releases or discharges the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the Administrator, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel from their respective obligations under such final judgment or award to the extent of the amount of such claim payable under this policy.

C. The payment and acceptance of any benefit or sum of money under this Policy shall constitute a waiver, release, acceptance, discharge and satisfaction, to the extent of such payment, of any and all claims, causes of actions, judgments or awards against the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel other than under this policy but arising out of the respective loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) for which such benefit or sum of money was paid and accepted under this policy.

D. This article 25 shall not apply to claims for wages, maintenance and cure where the right to such items arises under the general maritime law of the United States and not under this policy, but this article 25 shall apply to claims for wages to the extent that the insured, his allottee or any other person who is entitled to receive or has received

benefits or sums of money under article 17 hereof, and to claims for maintenance to the extent and for the period that the insured is entitled to receive or has received benefits or sums of money under paragraph A of article 12 hereof.

ART. 26. *Amendments and modifications.* If the Administrator determines that the Second Seamen's War Risk Policy (1955) should be amended and modified to provide for increased hazards and risks undertaken by the masters, officers and crews of vessels of the American Merchant Marine arising from important changes or developments in emergency conditions, or if the Administrator determines that the Second Seamen's War Risk Policy (1955) should be amended and modified to correct injustices or cases of hardship arising under and by virtue of its present terms, the Administrator reserves the right to amend or modify the Second Seamen's War Risk Policy (1955), including this particular policy, in such manner and in such respects as prescribed by him. If the Administrator further determines that it is necessary and proper to make such amendments or modifications retroactive in effect in order to avoid serious inequalities, he reserves the right to make any such amendment or modification applicable to any and all cases or claims arising under the Second Seamen's War Risk Policy (1955), including this particular policy, irrespective of whether benefits have or have not been claimed or paid thereunder, in such manner and in such respects as prescribed by him.

ART. 27. *Payment of premium and cancellation.* A. The Underwriter shall have the right to change the rate of premium for this insurance at any time. Unless the revised rate of premium is accepted in writing by the Operator within fifteen days after receipt by the Operator of notice of the revised rate, this policy shall become null and void and of no effect as of midnight, e. s. t., of the day ending such fifteen-day period, unless the Operator, within such period, dispatches notice to the Maritime Administrator, by telegraph, of his refusal to accept such revised premium rate, in which event premium at the revised rate shall be payable for that portion of the fifteen-day period prior to dispatch of such notice. Upon the receipt by the Maritime Administrator of such notice of nonacceptance, the insurance provided hereunder shall terminate.

B. In the event any premium, either original or additional, which becomes due and payable under this policy, is not paid within thirty days after receipt by the operator of notice of the amount thereof, this insurance shall become null and void and of no effect as of the commencement of the period for which the premium charge is made, unless the Maritime Administrator agrees otherwise.

C. If the vessel shall be requisitioned by the United States on a basis whereby the United States provides insurance equivalent to that provided hereby, then this insurance shall terminate and pro rata daily return premium shall be paid. In no other event shall there be any return of premium.

ART. 28. *Extension.* Should the vessel be at sea at the natural expiry of this Policy, this insurance shall be extended until midnight, Greenwich Mean Time, of the day on which the vessel is moored at the next port to which she proceeds and 24 hours thereafter, provided, notice be given to the Underwriter as soon as practicable and an additional premium paid, if required.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy but it shall not be valid unless countersigned by an authorized underwriting agent.

UNITED STATES OF AMERICA,
By: Maritime Administrator, Acting for the Secretary of Commerce.

(Maritime Administrator)

The Underwriting Agent does not, by countersigning this policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

(b) *Increased Benefits Endorsement.* The following is the standard form of Increased Benefits Endorsement which prescribes the areas in which increased benefits are presently applicable. The areas covered by this endorsement are subject to change.

Form MA-242 (A) (8-55)

UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
MARITIME ADMINISTRATION

INCREASED BENEFITS ENDORSEMENT

This endorsement is attached to and made a part of Second Seamen's War Risk Policy (1955) No. SSWR -------- issued to --------.

It is hereby understood and agreed that while a vessel covered by this policy is in the following described areas:

Area I. All waters within and bounded by the following lines: beginning at a point on the China Coast at latitude 23° north, thence east to the intersection with longitude 119° east, thence north-easterly to the intersection of a point at latitude 26°15' north and longitude 121° east and thence west along the 26°15' parallel of north latitude to the China Coast;

Area II. All waters within and bounded by the following lines: beginning at a point on the China Coast at 33° north latitude, thence east to the intersection with longitude 124° east, thence north along 124° east meridian to the China Coast;

Area III. All waters within and bounded by the following lines: beginning at a point on the China Coast at 26°15' north latitude, thence east to the intersection with 121° east longitude, thence north-easterly to a point at the intersection of 30° north latitude and 124° east longitude, thence north to the intersection of 33° north latitude and 124° east longitude and thence west along the 33° parallel of north latitude to the China Coast;

Area IV. All waters within and bounded by the following lines: beginning at a point on the China Coast and 23° north latitude, thence east to 119° east longitude, then north-easterly to 30° north latitude and 124° east longitude, and from 30° north latitude and 124° east longitude southerly to Shokoto Sho, then westerly to Shichisei Seki, and then from Shichisei Seki westerly intersecting at the China Coast 23° north latitude;

And all waters within and bounded by the following lines: beginning at a point on the China Coast at 23° north latitude, thence easterly to a point 22°30' north latitude and 118° east longitude thence westerly to Gap Rock thence due west along the 21°50' line north latitude to the China Coast;

Also within a sixty (60) mile radius of the mouth of the Donnai River or Cape St. Jacques,

the benefits provided thereunder as respects loss of life, disability, dismemberment and loss of functions are increased by 100 percent and with respect to benefits for personal effects of unlicensed personnel from $300 to $500.

Upon knowledge by the insured of a vessel being in such areas, the insured shall, as soon as permissible under Government laws and regulations, furnish the Maritime Administrator with the name of such vessel and the dates of its entry into and departure from such areas.

Nothing herein contained shall vary, alter or extend any provision or condition of the policy other than as above stated.

This endorsement becomes effective with the inception of the policy to which it is attached.

Not valid unless countersigned by a duly authorized agent of the Department.

UNITED STATES OF AMERICA,
By: Maritime Administrator, Acting for the Secretary of Commerce.

(Maritime Administrator)

The Underwriting Agent does not, by countersigning this policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

Countersigned this ------ day of --------, 195-...

(Underwriting agent)

Throughout Subpart D, the words and figures, "Second Seamen's War Risk Insurance (1952)" and "Second Seamen's War Risk Insurance Policy (1952)" are amended to read "Second Seamen's War Risk Insurance (1955)" and "Second Seamen's War Risk Insurance Policy (1955)," respectively.

(Sec. 204, 49 Stat. 1987, as amended, sec. 1209, 64 Stat. 775; 46 U. S. C. 1114, 1289)

Effective date. The effective date shall be upon publication hereof in the FEDERAL REGISTER.

Dated: August 11, 1955.

[SEAL] CLARENCE G. MORSE,
Maritime Administrator.

[F. R. Doc. 55-8450; Filed, Oct. 18, 1955; 8:47 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

MISCELLANEOUS AMENDMENTS

The following amendments are made to Chapter I of Title 39:

PART 11—PACKAGES

In § 11.4 *Outside wrappings (closure)* amend paragraph (b) to read as follows:

(b) Fiberboard cartons may be wrapped and tied with strong twine or rope as shown in the following illustration. This affords the greatest protection to contents. A fiberboard carton in good condition need not be wrapped. The following illustrations show one method of preparing a parcel for mailing. Parcels may be securely taped if desired.

(R. S. 161, 396; sec. 24, 20 Stat. 361; secs. 304, 309, 42 Stat. 24, 25; sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716, 39 U. S. C. 250)

PART 13—ADDRESSES

a. In § 13.1 *General information,* amend paragraph (b) to read as follows:

(b) Mail addressed to letter-carrier offices must include the street and number, or post office box number.

b. In § 13.5 *Correction of mailing lists* (20 F. R. 4718), make the following changes:

1. Amend paragraph (c) (1) to read as follows:

(1) *Method of submission.* Lists of street addresses may be submitted on cards (as described in par. (b) (1), above), one address to a card, or in sheet form provided the sheets are made up separately by carrier routes and each sheet bears the list owner's name and address.

2. Amend paragraph (c) (2) to read as follows:

(2) *Type of corrections made.* Lists for mail addressed to "occupant" and street address will be corrected. Numbers representing incorrect or nonexistent street addresses will be crossed off, but numbers will not be changed or added. Business addresses will be indicated by inserting B opposite the number. Addresses on a rural route will be indicated by R. The number of separate family units will be indicated opposite addresses of apartment houses or other multiple dwellings. If no change is necessary an *x* will be marked in the upper right corner of the card or sheet. Corrected cards or sheets will be grouped by routes when returned to the owner in order that he may handle and label mailings by routes.

3. Amend paragraph (d) to read as follows:

(d) *Charges.* The minimum charge for each list corrected is 25 cents. For lists of more than 25 names or addresses, the charge is 1 cent per name or street address, including individual apartments. Payment must be made in advance by cash or money order, including return postage. Lists used by Members of Congress and Federal agencies are corrected without charge. Where rural routes have been consolidated or changed to another post office no charge will be made for correction if the list contains only names of persons residing on the route or routes involved.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 15—MATTER MAILABLE UNDER SPECIAL RULES

a. In § 15.4 *Shipments under Federal regulations,* add new paragraph (f) to read as follows:

(f) *Live scorpions.* Live scorpions which are to be used for purposes of medical research or for the manufacture of antivenin will be accepted in the continental surface mails when packaged in a double mailing container, both parts of which are closed or fastened in such a manner as to prevent escape of the scorpions. The inner container shall be of material which cannot be punctured by the scorpions and shall be plainly marked "Live Scorpions". Cushioning material must be used when necessary to prevent shifting of the inner container. The outer container shall be of sufficient strength to prevent crushing of the package or exposure of the contents during normal handling in the mails, and also shall be plainly marked "Live Scorpions". Packages containing live scorpions may not be sent by air.

b. In § 15.5 *Concealable firearms,* make the following changes:

1. Amend paragraph (c) to read as follows:

(c) *Marking of parcels.* You must plainly mark the parcel with the word FIREARMS in bold, block letters, one inch high and of corresponding width. The particular class of persons to which the addressee belongs, as specified in categories (1) through (8) of paragraph (a) of this section shall be indicated by stating underneath the word firearms "for Army officer" or "for manufacturer" or "for bona fide dealer," etc. as the case may be.

2. Add new paragraph (g) to read as follows:

(g) *Antique firearms.* Antique or unserviceable pistols and revolvers sent as curios or museum pieces may be accepted for mailing without regard to the provisions of paragraphs (a) through (d) of this section.

c. In § 15.6 *Identification and marking,* add new paragraph (d) to read as follows:

(d) *Customs declaration tag for Canal Zone.* Any package of merchandise weighing over 8 ounces addressed to the Canal Zone shall have attached a customs declaration, Form 2966.

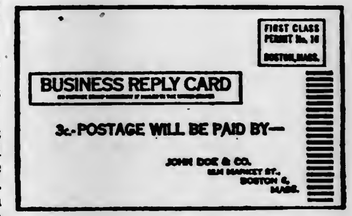
(R. S. 161, 396; sec. 24, 20 Stat. 361, secs. 304, 309, 42 Stat. 24, 25, sec. 1, 62 Stat. 781, as amended, 69 Stat. 191; 5 U. S. C. 22, 369, 18 U. S. C. 1716, 39 U. S. C. 250)

PART 21—FIRST CLASS

a. In § 21.2 *Classification,* make the following changes in paragraph (c):

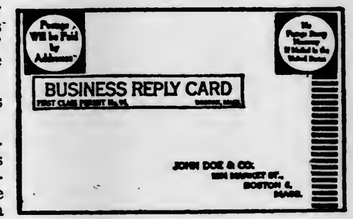
1. Amend subparagraph (3) to read as follows:

(3) Postage is collected on all types of business reply mail when it is returned to the original distributor. Postage is computed at the first-class rate plus 1 cent for each piece. (See § 21.1.) Cards which do not conform to the specifications for post cards (see paragraph (a) (7) of this section) are subject to the postage chargeable on business reply envelopes.



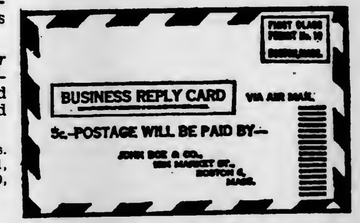
2. Amend subparagraph (4) to read as follows:

(4) A permit to distribute business reply mail is required. An application on POD Form 3614 must be filed at the post office where the mail will be returned. There is no charge for the permit. If business reply cards or envelopes are distributed from a central office to be returned to branches or dealers in other cities, one permit obtained from the post office where the central office is located may be used to cover all.



3. Amend subparagraph (6) to read as follows:

(6) The address side of the card, envelope, or label must be printed in one of the forms illustrated below:



A

B

C

The word "Envelope" or "Label" must be used instead of "Card" where applicable. When the form in illustration A is used, the word "From" with blank lines for the insertion of the name and address of the sender may be placed in the upper left corner of the address side.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 2, 45 Stat. 940; 5 U. S. C. 22, 369, 39 U. S. C. 303)

PART 22—SECOND CLASS

In § 22.2 *Qualifications for second-class privileges,* amend the first paragraph of paragraph (c) (2) by adding at the end thereof the following phrase: "; or by churches and church organizations".

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 69 Stat. 373, 374; 5 U. S. C. 22, 369, 39 U. S. C. 229)

PART 25—FOURTH CLASS

In § 25.3 *Weight and size limits,* amend paragraph (a) (1) to read as follows:

(1) Parcels mailed at a first-class post office in the continental United States

for delivery at another first-class post office in the continental United States are limited to 40 pounds when addressed for delivery in the local, first, and second zone; and to 20 pounds when addressed to the third through the eighth zones; except that parcels mailed on or addressed for delivery on a rural or star route, parcels mailed at the post office from which served by patrons located on rural or star routes (rural or star route address of sender must be shown), or parcels containing baby poultry, nursery stock, agricultural commodities, books, and Braille-writers and other appliances for the blind, are subject to the limit set forth in subparagraph (2) of this paragraph. (The term "agricultural commodities" includes any product grown or produced incident to an agricultural activity on a farm or in a garden, orchard, nursery, or forest, but does not include manufactured products of such commodities.) Parcels containing such articles must be marked to show the nature of the contents, unless such information can be ascertained by outward examination of the parcel.

(R. S. 161, 396, 3879, as amended; secs. 304, 309, 42 Stat. 24, 25; sec. 1, 65 Stat. 610, sec. 1, 66 Stat. 51; 5 U. S. C. 22, 369, 39 U. S. C. 240, 240a, 240b)

PART 27—FRANKED, PENALTY, AND FREE MAIL

In § 27.2 *Penalty mail*, amend paragraph (c) (3) to read as follows:

(3) Official mail may not be sent in penalty envelopes by special delivery without prepayment of the fee or by airmail without prepayment of the air postage, except in the case of urgent official communications of the Post Office Department.

(R. S. 161, 396; secs. 5, 6, 19 Stat. 335, 336, sec. 29, 20 Stat. 362, sec. 3, 23 Stat. 158, secs. 304, 309, 42 Stat. 24, 25, sec. 1, 26 Stat. 412, 29 Stat. 590; 5 U. S. C. 22, 369, 39 U. S. C. 321)

PART 32—PRECANCELED POSTAGE

a. In § 32.2 *Use of precanceled stamps*, amend paragraph (a) (1) by changing Form 3620 to POD Form 3620.

b. In § 32.3 *Precancel permit*, make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Application for permit.* Submit a completed POD Form 3620 to the post office where you will mail. A fee is not required.

2. In paragraph (c) (1), change Form 3620 to POD Form 3620.

(R. S. 161, 396, 3921; sec. 12, 39 Stat. 162, secs. 304, 309, 42 Stat. 24, 25, 5 U. S. C. 22, 369, 39 U. S. C. 365)

PART 34—PERMIT IMPRINTS

a. In § 34.1 *Permit*, make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Application.* If you wish to use permit imprints and pay postage in cash at the time of mailing, obtain a Permit by submitting POD Form 3601 with a fee of $10 to the post office where you will mail. The postmaster will give you a receipt for the fee on form 3544. No other fee for use of permit imprints has to be paid so long as the permit is active.

2. In paragraph (b) change "Form 3601" to "permit POD Form 3601."

b. In § 34.2 *Form of permit imprints*, change the word "impression" to "imprint", wherever it appears therein.

c. Amend § 34.4 *Additions*, to read as follows:

§ 34.4 *Additions.* Do not write, print, or attach anything in a position which will confuse or obstruct the permit imprint.

d. In § 34.5 *Mailings with permit imprints*, make the following changes.

1. Amend paragraph (d) to read as follows:

(d) *Place of mailing.* Deposit mail at the post office that issued the permit or at a station or branch designated by the postmaster.

2. Amend paragraph (f) to read as follows:

(f) *Payment of postage.* You must pay for each mailing when it is presented at the post office, or make an advance deposit of enough to cover more than one mailing. Payments for postage or deposits must be made at points designated by the postmaster. These payments will not be accepted by employees handling the mail. Advance deposits may be made by mail. When the deposit becomes less than enough to pay for an entire mailing, an additional amount must be deposited before any mailings are made. The postmaster will give you a receipt for each payment, on Form 3544. Credit for postage is not allowed. Postage on a mailing must be paid by only one method; that is, postage may not be paid partly in money and partly by postage stamps.

e. Section 34.6 *Additional services*, is amended to read as follows:

§ 34.6 *Additional services.* Mail with permit imprints may be registered or sent as certified, insured, or C. O. D. mail.

(R. S. 161, 396, sec. 5, 41 Stat. 583, as amended, secs. 304, 309, 42 Stat. 24, 25, 47 Stat. 647; 5 U. S. C. 22, 369, 39 U. S. C. 273, 273a)

PART 35—PHILATELY

Section 35.3 *Airmail first-flight covers*, is amended to read as follows:

§ 35.3 *Inaugural covers*—(a) *Cachets authorized.* Official cachets are usually authorized when airmail service is inaugurated on a new airmail route, segment of a new route, or at a new stop point on an existing route, and when new highway post office routes are established. Notice of the new service is published in the Postal Bulletin as far in advance of the inaugural date as practicable.

(b) *How to get inaugural cachets.* Send covers to receive inaugural cachets to the postmaster at the office where service is to be inaugurated. Include a letter requesting the postmaster to hold the covers for the inaugural service and to apply the cachet. After cachets have been applied, all covers will be transported to a designated post office for backstamping and then forwarded to their destinations.

(c) *How to prepare inaugural covers.* (1) Covers should bear postage at the airmail rate for first-flight cachets or at the first-class rate for highway post office service cachets.

(2) Put an enclosure of medium weight in each envelope to obtain a better impression.

(3) Leave 1½ inches of clear space to the left of the innermost postage stamp or 4 inches to the left of the right edge of the cover, whichever is greater, for application of the postmark impression. Also allow a clear space of 2½ by 2½ inches to the left of the address and postmark area for application of the cachet. Cachets will not be applied if their application would overlap the postmark, nor will they be applied to the reverse side of the cover.

(d) *Restrictions.* Double postal cards and double post cards intended for return reply purposes are not acceptable for inaugural covers. No provision is made for point-to-point covers.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 51—REGISTRY

a. In § 51.4 *Fees, surcharges, and return receipts*, make the following changes:

1. In paragraph (a), amend the table showing liability limit by striking out "No indemnity—$0.30".

2. Amend paragraph (b) to read as follows:

(b) *Matter not having intrinsic value.* Articles having no intrinsic value may be registered on payment of the 40 cent fee or any of the higher fees.

3. In paragraph (c) strike out the first sentence.

b. In § 51.5 Preparation for mailing, amend paragraphs (a) and (b) to read as follows:

(a) *First and fourth class mail.* You must securely seal envelopes. Do not place paper strips or wax or paper seals over the intersections of the flaps where the postmark impressions are made. Wrap and seal packages with mucilage or glue or with plain paper strips. Packages containing currency or securities may not be sealed exclusively by use of paper strips, but must first be sealed securely with mucilage or glue. Place the complete name and address of sender and addressee on envelopes or packages. Envelopes or packages that appear to have been opened and resealed will not be registered.

(b) *Second and third class mail and controlled publications.* You may register these classes of mail having no intrinsic value in unsealed envelopes, wrappers, or other containers. If such mail has intrinsic value, you must seal the container and pay first-class postage. The second- and third-class and controlled publication postage rates will not be accepted on sealed mail.

(R. S. 161, 396, 3926, as amended; secs: 304, 309, 42 Stat. 24, 25, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f, 381)

PART 53—C. O. D.

a. In § 53.3 *Mailing*, make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Payment of fees and postage.* Fees and postage must be prepaid. If you include in the charges to be remitted the postage and fee prepaid, the c. o. d. fee will be based on the total c. o. d. charges which include the postage and fee. The sender guarantees to pay any return and forwarding postage unless otherwise specified on the parcel.

2. In paragraph (e) convert all 15-day time limits to 30-day limits.

b. In § 53.5 *Delivery*, amend paragraph (a) by converting the 15-day time reference therein to 30 days.

(R. S. 161, 396, sec. 1, 41 Stat. 581, secs. 304, 309, 42 Stat. 24, 25, 49 Stat. 867, as amended, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246c, 246f, 382)

PART 56—SPECIAL DELIVERY

In § 56.2 *Payment for special delivery*, amend paragraph (c) (1) to read as follows:

(1) *Letters.* The failure of the sender to place the correct postage on a letter on which the special delivery fee has been paid will not hinder or delay the transmission and special delivery of the letter. The letter will be dispatched from the office of mailing and postage due will be collected as provided in subparagraph (4) of this paragraph.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f)

PART 58—CERTIFIED MAIL

a. Section 58.2 *Class of mail to which applicable*, is amended to read as follows:

§ 58.2 *Class of mail to which applicable.* Any mailable matter of no intrinsic value on which postage at the first class rate has been paid will be accepted as certified mail. This does not exclude articles of a nonnegotiable character and other matter which would involve a cost of duplication if lost or destroyed. The mail may be sent by air on payment of the required postage. Return receipt service requested at the time of mailing only, and special delivery services are available on payment of the prescribed fees. Penalty and franked mail may be accepted as certified mail if the fee is prepaid.

b. Section 58.3 *Fees*, is amended to read as follows:

§ 58.3 *Fees.*

	Cents
Fee in addition to postage	15
Return receipts:	
Showing to whom and when delivered	7
Showing to whom, when, and address where delivered	31
Restricted delivery	20
Inquiry fee	10

c. In § 58.4 *Mailing*, make the following changes:

1. Amend paragraph (b) to read as follows:

(b) *Where to mail.* You may mail certified mail at the post office, branch or station or give it to a rural carrier. It may also be deposited in mail drops in post offices, street letter boxes, or any other receptacles for first class mail, provided you follow specific directions in paragraph (c) of this section.

2. Amend paragraph (c) (1) to read as follows:

(1) Enter on the receipt portion of the certified mail coupon the name and complete address of the person or firm to whom the mail is addressed.

3. Amend paragraph (c) (2) to read as follows:

(2) If return receipt is wanted check block on the mailing receipt to show the fee. See § 58.3. Enter the certified mail number on the return receipt card, address it to yourself, and attach it to the back of small envelopes and on the front of packages and large envelopes if it will not cover the address. If you desire the return receipt to show the address where the letter was delivered, there is a block at the top of the form which must be checked by you.

4. Amend paragraph (c) (4) to read as follows:

(4) If you want a postmarked sender's receipt, attach the certified mail sticker to the address side of the article and present the article and the completed coupon to the postal employee. If given to a rural carrier he will bring the postmarked receipt back to you.

5. Amend paragraph (c) (5) to read as follows:

(5) If you do not want a postmarked receipt, attach the certified mail sticker to the address side of the article, detach your receipt, and mail the article. Mark your receipt to show the date.

6. Add new subparagraph (6) to paragraph (c) to read as follows:

(6) If you desire to restrict delivery of certified mail to the addressee or someone named by him in writing, endorse the mail "Deliver to Addressee Only" or "Deliver to Addressee or Order."

7. Amend paragraph (d) to read as follows:

(d) *Firm mailing books.* If you mail an average of three or more letters at one time, you may use mailing books, Form 3877a, which are furnished by the Postal Service without charge, or specially printed mailing bills. A series of numbers will be furnished you. The sheets of the book become the sender's receipts. If you want the firm mailing bills receipted by the postal service, present the books with the articles to be mailed. You must also obtain at your expense a stamp for endorsing the certified letters, or you may have your envelope overprinted with the endorsement. The endorsement must be a facsimile or proportionate enlargement of the official endorsement shown in § 58.1. Following are instructions for use of the forms:

(1) Insert the word "Certified" in the space provided at the top of the form.

(2) The mailer must endorse and number the letters. If return receipt or special-delivery services are requested, mark the letters "Return Receipt Requested," "Return Receipt Requested Showing Address Where Delivered," or "Special Delivery." Prepare and attach return receipt to the back of the envelopes with the receipt side showing.

(3) Show on the bill the number of each article and the name and address of addressee.

(4) Enter only the amount of fees paid for return receipts.

(5) Affix necessary postage to the articles.

(6) The accepting employee will count the items, receipt the bill for the total number, and return the bill to you.

d. In § 58.5 *Delivery*, amend paragraphs (a) and (b) to read as follows:

(a) *Procedure.* Mail for delivery by carriers is taken out on the first trip after it is received, unless the addressee has requested the postmaster to hold his mail at the post office. Certified mail not restricted in delivery will be delivered to the addressee or his authorized representative. Certified mail marked "Deliver to Addressee Only" will be delivered only to the person addressed. If marked "Deliver to Addressee or Order" delivery will be made to the addressee or to a person designated in writing by the addressee to receive the mail. Delivery rules are the same as for registered mail. See § 51.7 (b) and § 51.7 (g) of this chapter.

(b) *Notice of arrival.* The carrier will leave a notice of arrival if he cannot deliver the certified article for any reason. The article will be brought back to the post office and held for you. If the article is not called for or its redelivery requested, it will be returned at the expiration of the period stated by the sender, or after 15 days if no period is stated.

(R. S. 161, 388, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 501, 65 Stat. 290, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 140, 361, 369, 39 U. S. C. 246f)

[SEAL] ABE MCGREGOR GOFF, *The Solicitor.*

[F. R. Doc. 55-8395; Filed, Oct. 18, 1955; 8:45 a. m.]

MISCELLANEOUS AMENDMENTS

The following changes are made in the regulations of the Post Office Department:

Subchapter K—Postal Union Mail

PART 100—POSTAL UNION ARTICLES

a. Section 100.1 *Services available and airmail rates* is amended to read as follows:

§ 100.1 *Services available and airmail rates.* (For surface postage rates, see Parts 101 through 108.)

(See list of countries in § 100.2 for destinations not specified in table.)

Key to symbols:
×=No Service. √=Accepted. *=Accepted at risk of sender. —=Airmail letter rate applies.

Country	Airmail rates: Letters and letter packages, per ½ oz.	Airmail rates: Air letter sheets and post cards	Airmail rates: Other Postal Union articles: First 2 oz. [1] Accepted, if registered.
[2] See § 101.5 (b) (1).
[3] Belize only.
[4] Per ounce (letters). Single post cards, 4 cents each.
[5] Available only for letters or articles prepaid at letter rate.
[6] The maximum weight limit of letter-packages to the Yukon district and to members of the Canadian Armed Forces overseas addressed for delivery through the Canadian Army Post Office is 4 pounds 6 ounces.
[7] Registry service is available only to the island of Taiwan (Formosa).
[8] Quito and Guayaquil only.
[9] Service applicable only to unregistered letters, post cards, and printed matter.
[10] No service to Central Arab Palestine.
[11] Special delivery service is confined to Eldoret, Entebbe, Jinja, Kampala, Kisumu, Kitale, Lamu, Mbale, Mombasa, Nairobi, Nakuru, and Nyeri.
[12] Special delivery service is confined to the offices of Alcazarquivir, Arcila, Dar Drius, Larache, Nador, Targuist, Tangier, Tetuan, Villa Alhucemas, and Xauen.
[13] Through British Post Office only.
[14] When mailed in Guam the rate is 10 cents per half ounce.
[15] *Other articles* rate applies only to Angola.
[16] Per ounce (letters). Single post cards, 8 cents each.
[17] Accepted for Spain only.

b. In § 100.2 *Index of countries* make the following changes:

1. Change "Guinea, New (Mandated Territory)" to read "Guinea, New, Territory of".

2. Change "New Guinea (Mandated Territory)" to read "New Guinea, Territory of".

3. Amend "Northern Rhodesia (see Rhodesia, Northern)" to read: "Northern Rhodesia (see Rhodesia and Nyasaland)".

4. Change "Nyasaland Protectorate" to read "Nyasaland (see Rhodesia and Nyasaland)".

5. Amend "Rhodesia, Northern" to read: "Rhodesia and Nyasaland, Federation of"; and strike out "Rhodesia, Southern".

6. Change "Southern Rhodesia (see Rhodesia, Southern)" to read "Southern Rhodesia (see Rhodesia and Nyasaland)".

7. Change "Tibet (see India)" to read "Tibet (see China)."

8. Change "Trieste, Free Territory of" to read "Trieste".

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372).

PART 101—LETTERS AND LETTER PACKAGES

a. In § 101.4 *Dimensions*, make the following changes:

1. Amend paragraph (a) (1) to read as follows:

(1) Maximum length is 24 inches. Maximum length, breadth, and thickness combined is 36 inches. When sent in the form of a roll, the length (the maximum of which may not exceed 32 inches), plus twice the diameter, may not exceed 40 inches; however, in the case of indivisible objects sent to the countries listed below, the length (which may not exceed 40 inches) plus twice the diameter, may be 48 inches.

2. Amend paragraph (b) to read as follows:

(b) *Minimum dimensions.* Envelopes must not measure less than 4 inches in length and 2¾ inches in width.

b. In § 101.5 *Mailing requirements and restrictions*, make the following changes:

1. Amend paragraph (b) (1) to read as follows:

(1) *Mailability.* Articles liable to customs duty (merchandise) may be forwarded in letters or letter packages, except to the following countries:

Bolivia.	Rumania.
Brazil (see note).	Ryukyu Islands.
China.	El Salvador.
Colombia.	Saudi Arabia.
Estonia (see note).	Spanish Guinea.
Italy (see note).	Spanish West Africa.
Japan.	Union of Soviet Socialist Republics.
Latvia (see note).	Venezuela.
Lithuania (see note).	

NOTE: Italy admits postage stamps for philatelic purposes in registered letters bearing completed revised Form 2976. Addressee must comply with Italian financial regulations.

Brazil admits coins, banknotes, paper money, or any values payable to bearer; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry or other precious articles in registered letters.

USSR, Estonia, Latvia, and Luthuania admit duty-prepaid letter packages not exceeding 16 ounces in weight containing medicines, on condition that the addressee presents the prescription of the treating physician at time of delivery.

2. Rescind paragraph (b) (3).

3. Redesignate subparagraph (4) of paragraph (b) as subparagraph (3); and change the reference therein from "subparagraph (3) of this paragraph" to "subparagraph (1) of this paragraph".

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372).

PART 102—POST CARDS

Section 102.2 *Airmail rates* is amended to read as follows:

§ 102.2 *Airmail rates.* For airmail rates see § 100.1 and 109.3 of this chapter.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 104—PRINTED MATTER

a. In § 104.6 *Mailing requirements*, make the following changes:

1. Amend paragraph (c) to read as follows:

(c) *Prohibited enclosures.* Except in the case of publications mailed at the

rates of postage prescribed in § 22.1 (d) (1) and (2) of this chapter, newspapers, periodicals, or other articles of printed matter addressed to several different subscribers or addressees must not be enclosed in the same package with postage stamps affixed only to the outside wrapper of the package. However, several newspapers, periodicals, or other articles of printed matter, without separate address, may be enclosed in the same package.

2. Amend paragraph (e) to read as follows:

(e) *Dutiable prints.* Prints which are dutiable in the country to which they are addressed should have a green (customs) label, Form 2976, fixed to the address side of the article. (See § 133.1 (a) of this chapter.) You may obtain information as to rates of duty from the Bureau of Foreign Commerce, Washington 25, D. C., or from any field office of that Department.

b. In § 104.7 *Raised print for the blind* amend paragraph (b) to read as follows:

(b) *Airmail rates.* For airmail rates see § 100.1 of this chapter.

c. In § 104.8 *Books* change the reference in paragraph (a) from "§ 25.2 (a) (4) of this chapter" to "§ 25.2 (a) (4) (i) of this chapter".

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372).

Subchapter L—International Parcel Post

PART 110—RATES AND SHIPPING REQUIREMENTS

In § 110.1 *Rates and shipping requirements* make the table to read as follows:

1. Amend the table to read as follows:

Country	Surface Parcel Post rates: First pound	Surface Parcel Post rates: Each additional pound	Air Parcel Post rates: First 4 ounces	Air Parcel Post rates: Each additional 4 ounces	Weight limit (pounds)	Dimensions: Greatest length (feet)	Dimensions: Greatest length and girth combined (feet)	Sealing: R=required; O=optional	Group shipments: Y=permitted, N=not permitted (numeral indicates limit, if any, of number of parcels permitted in group)	Form 2966, Customs Declaration (number required)	Form 2972, Dispatch Note (number required)	Form 2922, Parcel Post sticker (number required)	Registration Y=permitted; N=not permitted	Insurance: Y=available; N=not available
Aden	$0.65	$0.25	$1.50	$0.75	22	3½	6	O	N	1	0	1	N	N

2. Make the following changes in the footnotes accompanying the table of countries:

a. Amend footnote 1 to read as follows:

[1] Parcels must not be addressed "Poste restante" (general delivery). Parcel post business is transacted only at the following post offices, and the name of one of these post offices must form part of the address of the parcel:

Alegrete.
Amparo.
Antonina.
Aracajú.
Araguari.
Araraquara.
Bagé.
Bahia (see Salvador).
Barbacena.
Bára do Piraí.
Barra Mansa.
Barretos.
Bauru.
Bebedouro.
Belem (Para).
Belo Horizonte.
Blumenau.
Botucatu.
Bragança.
Caçapava.
Cachoeira (Bahia).
Cachoeira (Rio Grande do Sul).
Cachoeiro do Itapemirim.
Campanha.
Campina Grande.
Campinas.
Campo Grande.
Campos.
Carangola.
Casa Branca.
Cataguazes.
Catanduva.
Caxambu.
Caxias.
Corumbá.
Cruz Alta.
Cruzeiro.
Cuiabá.
Curitiba.
Curvelo.
Diamantina.
Florianópolis.
Formiga.
Fortaleza.
Franca.
Goiânia.
Guaratinguetá.
Ilhéus.
Itajuba.
Itapetininga.
Itaqui.
Itu.
Jaboticabal.
Jaguarão.
Jau.
João Pessoa.
Joinville.
Juázeiro.
Juiz de Fora.
Jundiaí.
Laguna.
Lavras.
Limeira.
Livramento.
Lorena.
Macaé.
Maceió.
Manáus.
Mococa.
Mogy Mirim.
Montes Claros.
Natal.
Niterói.
Nova Friburgo.
Ouro Prêto.
Pará (see Belém).

Visconde do Rio Branco.
Vitória.

b. Amend footnote 10 to read as follows:

[10] Parcels exceeding 22 pounds are accepted only for dispatch by surface means to Taipei, Keelung (Kirum), and Kaohsiung, Taiwan. Parcels for Quemoy and Matsu are limited to 7 pounds.

c. Amend footnote 11 to read as follows:

[11] Service limited to Kabul, Jallalabad, and Kandahar.

d. Amend footnote 12 to read as follows:

[12] To the Soviet Zone, including the Soviet sector of Berlin, gift parcels are limited to 22 pounds in weight, other parcels may weigh up to 44 pounds. Insured parcels are acceptable only for the Western Zone, including the Western Sector of Berlin. Service to the Soviet Zone, including the Soviet sector of Berlin, is limited to uninsured parcels.

e. Amend footnote 14 to read as follows:

[14] No parcel post service to continental China.

f. Amend footnote 16 to read as follows:

[16] Air parcel limit, 11 pounds.

g. In footnote 18 amend the Post Office listing by changing "Enrique Villaneuva" to "Enrique Villanueva"; and amend the Province listing by changing "Ilocos Norto" to "Ilocos Norte".

h. Footnote 19 is amended to read as follows:

[19] Insurance service limited to:

Aghios Nicolaos (Crete).
Alexandroupolis.
Amphissa.
Argostolion.
Arta.
Athens.
Chalkis.
Chania.
Chios.
Drams.
Edessa.
Filiates.
Florina.
Iraklion (Crete).
Ioannina.
Kalamai.
Karditsa.
Harpenission.
Kastoria.
Katerini.
Kavalla.
Kerkyra.
Kilkis.
Komotini.
Korinthos.
Kozani.
Lamia.
Larissa.
Lefkas.
Levadia.
Messolonghion.
Mytillini.
Nafplion.
Patrai.
Piraeus.
Polyghyros.
Preveza.
Pyrghos (Ilias).
Rethymnon.
Rodos.
Samos.
Serrai.
Sparti.
Syros.
Thessaloniki (Salonica).
Trikkala.
Tripolis.
Verria.
Volos.
Zakynthos.
Zanthi.

i. In footnote 28 add to "Cochabamba" the following: "Potosi, Sucre, Tupiza, Uyuni, and Villazon".

j. Amend footnote 31 to read as follows:

[31] Service only to:

Bafum.
Bafut.
Bali.
Bama.
Bamenda.
Banti.
Bibundi.
Birim.
Buea.
Dalami.
Fontemdorf.
Gashaka.
Ido.
Johnn Albrechts Hohe.
Kentu.
Kote.
Krana.
Kumba.
Mamfe.
Matafe.
Mora.
Ossidinge.
Rio-del-Rey.
Soppo.
Tiko.
Tinto.
Victoria.
Yiaji.

k. In footnote 39 amend the expression "Balearic Islands and North Africa" to read "Balearic Islands and offices in North Africa".

l. Amend footnote 43 to read as follows:

[43] Gift parcels are limited to 4 lbs. 6 oz. gross weight.

m. Strike out footnote 44.

n. Redesignate footnote 45 as 44, and amend same to read as follows:

"Service only to:

Berat.
Bilisht.
Delvine.
Dures (Durazzo).
Elbasan.
Fier.
Gjirokaster (Argirokastro).
Himare.
Kavaje.
Klos.
Kolonje.
Konispol.
Korce (Coritoza).
Kruje.
Kucove.
Kukes.
Kurvelesh.
Lesh (Alessio).
Leskovik.
Libhove.
Librazh.
Lushnje.
Mallakaster.
Milot.
Peqin.
Permet.
Peshkopi.
Puke.
Sarande.
Shijak.
Shkoder (Scutari).
Tepelene.
Tirana.
Vlone (Valooa).
Vlore.
Wilson.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 111—SERVICES AVAILABLE

In § 111.7 *Recall and change of address* strike out "Rhodesia (Northern)"; and change "Rhodesia (Southern)" to "Rhodesia and Nyasaland".

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372).

PART 112—PREPARATION, ADDRESSING, AND MAILING

In § 112.1 *Packing* make the following changes:

1. Amend paragraph (b) (4) to read as follows:

(4) Dry noncoloring powders must be enclosed in boxes of metal, wood, or strong corrugated cardboard, placed in turn in a closely woven cloth bag or heavy kraft paper sack. Powdered dyes must be enclosed in strong metal boxes, securely closed, and placed in turn in another box of wood or strong corrugated cardboard, with sawdust or other absorbent or protective material between the inner and outer containers.

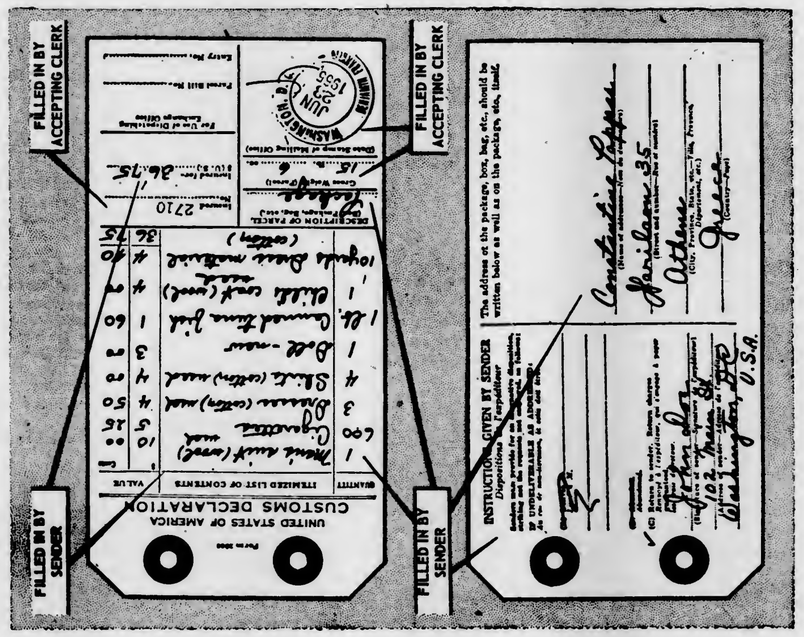
2. In paragraph (b) (5) strike out the words "and hatching eggs for Cuba" contained in the parenthetical phrase therein.

3. Rescind paragraphs (b) (7) and (8).

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 114—DOCUMENTATION

a. In § 114.1 *Customs declaration, form 2966* make the following changes:



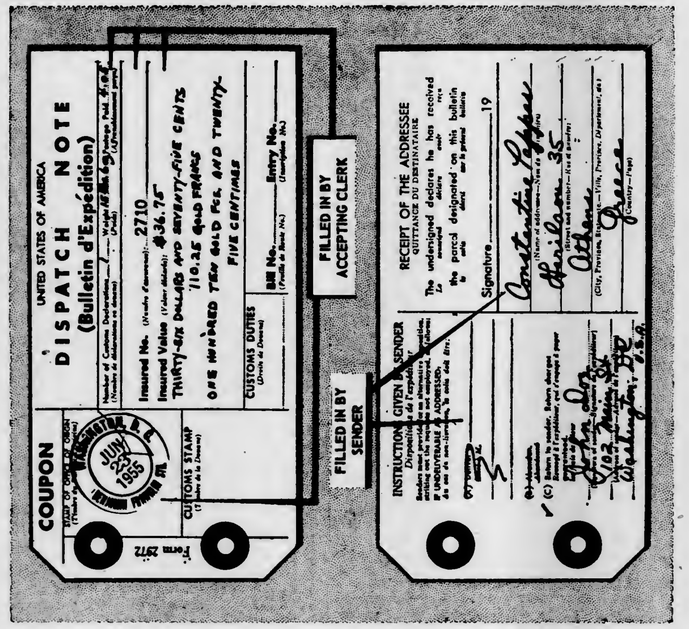
1. Amend the caption of paragraph (c) to read as follows: "(c) *Information to be furnished.*"

2. Amend paragraph (c) (1) to read as follows:

(1) *Customs declaration.* You must complete the customs declaration to show your name and address and that of the addressee, an accurate description of contents (see subparagraph (3) of this paragraph), the alternative disposition instructions and description of the parcel.

3. Add new paragraph (c) (4) to read as follows:

(4) *Facsimile of Form 2966.* The following facsimile illustrates the information which you must supply and which the accepting clerk will add to complete the form:



4. Rescind present paragraph (d) and redesignate paragraph (e) as paragraph (d).

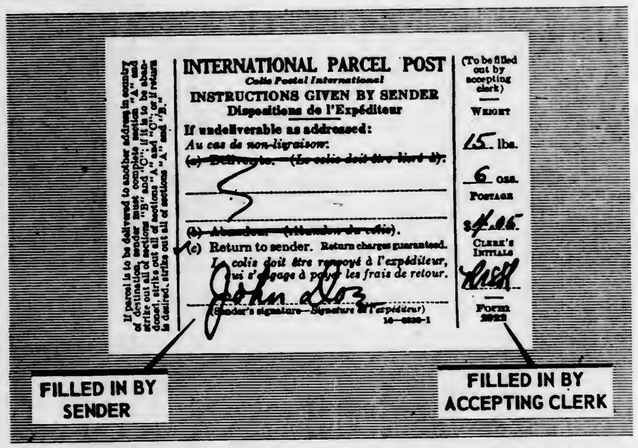
5. Rescind paragraph (f).

b. Section 114.2 *Dispatch note, Form 2972,* is amended to read as follows:

§ 114.2 *Dispatch note, Form 2972—(a) Preparation and affixing.* For certain countries (see § 110.1 of this chapter), a dispatch note, Form 2972, must be completed in ink or on the typewriter. The form must be tied to the parcel in the same manner as Form 2966. (See § 114.1 (d) of this chapter.)

(b) *Information to be furnished.* The following facsimile illustrates the information which you must supply and which the accepting clerk will add to complete the form:

(1) *Customs declaration.* You must complete the customs declaration to show your name and address and that of the addressee, an accurate description of contents (see subparagraph (3) of this paragraph), the alternative disposition instructions and description of the parcel.



3. Add new paragraph (c) (4) to read as follows:

(4) *Facsimile of Form 2966.* The following facsimile illustrates the information which you must supply and which the accepting clerk will add to complete the form:

c. Section 114.3 *Parcel post sticker, Form 2922* is amended to read as follows:

§ 114.3 *Parcel post sticker, Form 2922*—(a) *When required.* The yellow "International Parcel Post" sticker, Form 2922, must be affixed by the sender to each parcel post package, whether the parcel is forwarded under the group shipment arrangement (see § 111.3) with other parcels or as a single shipment. You must complete the "Instructions Given by Sender" section of the form (see § 114.1 (c) (2)), and sign the form by handwriting or otherwise. Form 2922 should not be affixed to parcels addressed for delivery in the United States possessions.

(b) *Information to be furnished.* The following facsimile illustrates the information which you must supply and which the accepting clerk will add to complete the form:

(c) *Manner of affixing.* Form 2922 should be pasted to the wrapper of the parcel, preferably on the address side, but if the shape or size of the parcel makes this impracticable, the sticker may be fixed to a tag which shall in turn be securely attached to the parcel.

d. Section 114.4 *Shipper's export declaration,* is amended to read as follows:

§ 114.4 *Non-postal documentation.* Parcel post packages may require one or more of the forms described in Parts 171–176 of this chapter.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 115—INCOMING PARCEL POST

Part 115 (Export licenses and certificates)[1] is amended to read as follows:

Sec.
115.1 Retention and disposal.
115.2 Forwarding.
115.3 Charges.
115.4 Addressed to banks or other organizations.

[1] The regulations formerly embraced in Part 115 are now codified in Subchapter R—Exportations.

AUTHORITY: §§ 115.1 to 115.4 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 115.1 *Retention and disposal.* A parcel addressed to you will be held for 30 days at your disposal unless you refuse it. If the sender has named an alternate addressee, the parcel will be held for 15 days at your disposal and 15 days at the disposal of the alternate addressee. If the sender has marked the parcel for abandonment if it is undeliverable as addressed, the parcel is so treated as soon as it is found to be undeliverable.

§ 115.2 *Forwarding*—(a) *Within United States.* A parcel will be forwarded to you at another post office in the United States by surface transportation subject to collection on delivery of postage at the United States domestic zone rate. Forwarding by air must be prepaid.

(b) *To another country.* A parcel will not be forwarded to you in another country unless the forwarding postage is paid in advance, except by surface transportation to the country of mailing where postage can be collected on delivery. A domestic fourth-class parcel will not be forwarded to another country but will be returned to the sender or otherwise treated as undeliverable matter.

§ 115.3 *Charges*—(a) Customs clearance and delivery fees. You must pay on each parcel you receive a fee of 10 cents to cover customs clearance, whether your parcel is dutiable or not, and a delivery fee of 5 cents. These fees, though collected by means of postage-due stamps, do not denote short-payment as they are independent of the postage paid by the sender.

(b) *Storage charges.* If you allow a parcel addressed to you to remain in the post office, you must pay a storage charge of 5 cents per day beginning with the 11th day from the first attempt at delivery or the issuance of the first notice that the parcel is ready for delivery. Sundays and holidays are not counted. When a parcel is held pending decision as to customs duty (see § 161.3 of this chapter), the storage charges begin 10 days after the decision is given.

(c) *Letter enclosed.* A letter found in a parcel is charged with double the postage to which it would have been charged if mailed properly.

(d) *Returned United States parcels.* If a parcel which you mailed is returned from the country of destination, you must pay return postage and whatever charges the foreign postal authorities may have assessed for storage or other service rendered. If you have changed your residence so the parcel must be forwarded to another post office, you must pay the applicable domestic postage as well.

§ 115.4 *Addressed to banks or other organizations.* You will be notified of the arrival of a parcel intended for delivery to you through a bank or other organization. The parcel will not be delivered to you, however, until the bank or organization has given its consent in writing, or unless the sender has requested through the foreign postal authorities that it be delivered direct to you.

PART 116—CONSULAR AND COMMERCIAL INVOICES

Part 116 *Consular and Commercial Invoices* is rescinded.[1]

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

Subchapter M—International Special Services

PART 122—INTERNATIONAL INSURED MAIL

a. In § 122.3 *Fees and limit of insurance* amend the table in paragraph (b) by inserting "Greece" in proper order, the figure "165" to accompany same.

b. Section 122.4 *Special endorsements* is amended to read as follows:

§ 122.4 *Special endorsements*—(a) *Contents.* You must mark parcels containing fragile or perishable articles "Fragile", "Perishable", "Glass", or "Eggs", as appropriate.

(b) *Insured value.* (1) You must indicate in United States currency (figures only) in the appropriate space on the customs declaration (Form 2966) the amount for which your parcel is insured. (2) Some countries require that the insured value of a parcel be shown on the wrapper and on the dispatch note (Form 2972). In some instances this information must be shown also in gold francs. Conversion of United States currency into gold francs is made on the basis of 33 cents (approximately) equal to 1 gold franc. To determine the gold franc equivalent, multiply the amount in United States currency by 3. For example, $5.25 multiplied by 3 is equal to 15.75 gold francs.

c. Section 122.6 *Forwarding or return to another country* is amended to read as follows:

§ 122.6 *Forwarding or return to another country.* At the request of the sender or addressee, insured parcels addressed to other countries may be reforwarded or returned to another country, provided they can be reforwarded or returned as insured. You may endorse your parcel *"Do not forward to a third country"* to prevent forwarding to another country.

[1] For the regulations formerly contained in Part 116, see Part 176 of this chapter.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 124—SPECIAL DELIVERY (EXPRÈS)

a. In § 124.1 *Countries* change the reference to § 100.1 of this chapter.

b. In § 124.2 *Classes of mail* change the reference "referred to in § 124.1" to "shown in § 100.1 of this chapter".

c. Section 124.3 *Marking* is amended to read as follows:

§ 124.3 *Marking.* An article intended for special delivery service must have fixed to the cover near the name of the country of destination an *"Exprès (Special Delivery)"* label, Form 2977, obtainable at the post office, or you may mark on the cover boldly in red *"Exprès (Special Delivery)."* A facsimile of Form 2977 is shown below:

d. In § 124.4 *Payment for special delivery* change the caption of paragraph (c) from "Insufficient postage" to "Insufficient prepayment".

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 126—RECALL AND CHANGE OF ADDRESS

Section 126.2 *How made* is amended to read as follows:

§ 126.2 *How made*—(a) *If not dispatched from mailing office.* If the article has not yet been dispatched from the mailing post office you must apply to the postmaster.

(b) *If not dispatched from the United States.* If the article has been dispatched from the mailing office, but has not been dispatched from the United States, it may be returned to you if it can be intercepted at the United States exchange office. You must pay the cost of telegraphing the exchange office if that is done, and guarantee the cost of searching for the article, even if the article is not located. To facilitate identification and return you must furnish available particulars, including description of the article, date of mailing, registration number, if registered, and whether surface or airmail.

(c) *If dispatched from the United States.* If the article has been actually dispatched from the United States, you must apply at the post office at which the article was mailed, where you must identify yourself, furnish a facsimile of the address of the article, and pay (by postage stamps fixed to your application) a fee of 40 cents. If the request is to be sent by air mail or telegraph or cable, you must pay, in addition, the air mail rate or telegraph or cable charges. In this case, your application must be accompanied by sufficient postage to prepay the air mail rate or by a remittance to cover the telegraph or cable charges at the usual rate.

(d) *Single application sufficient.* A single form of application may be used for several articles which you have mailed at the same time, at the same office, to the same addressee, in which case you are required to pay only one fee or one fee plus the airmail or telegraph or cable charge, as the case may be.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

Subchapter N—How to Wrap and Mail

PART 131—PREPARATION, ADDRESSING, AND POSTAGE

a. In § 131.1 *Preparation* amend the last sentence to read as follows: "Letters so sealed often stick to each other and the addresses of some are destroyed in the attempt to separate the articles".

b. In § 131.2 *Addressing* make the following changes:

1. Amend paragraph (b) to read as follows:

(b) *Return address.* The complete address of the sender must be shown in the upper left corner of the address side of the mail in such a way as not to affect either the clarity of the address or the application of service labels or notations. Many countries do not return certain ordinary (unregistered) articles if they cannot be delivered as addressed unless they bear the sender's return card.

2. Rescind paragraph (b).

c. Section 131.3 *Postage* is amended to read as follows:

§ 131.3 *Postage*—(a) *Prepayment.* Articles must be fully prepaid to assure dispatch without delay and without penalty against the addressees. If the missing postage can not be collected from you the shortpaid articles are either sent to destination and double the shortage collected from the addressees or they are sent to dead letter offices for treatment.

(b) *How paid.* Postage, registration fees, and insurance fees can be prepaid on articles (other than the reply half of post cards) by means of United States postage stamps or by meter stamps of a bright red color. Prepayment of postage on printed matter may also be indicated by means of permit imprints. Permit imprints must show the amount of postage paid and may be black or any other color. For printed matter mailed to certain countries at special rates, see § 22.1 (d) of this chapter.

(c) *Articles mailed aboard ships.* Postage on articles mailed on board a ship on the high seas must be prepaid by means of postage stamps of the country under whose flag the ship sails. Such articles are subject to the postage rates and conditions of that country. Postage on articles mailed on board a ship while it is in a port of any country can be prepaid only by means of postage stamps of that country. Such articles are subject to the postage rates and conditions of that country.

(d) *Free-of-postage matter*—(1) *PUAS countries.* The Postal Union of the Americas and Spain consists of the following countries besides the United States:

Argentina.	Panama.
Bolivia.	Paraguay.
Brazil.	Peru.
Canada.	El Salvador.
Chile.	Spain.
Colombia.	Spanish Possessions:
Costa Rica.	Balearic Islands,
Cuba.	Canary Islands,
Dominican Republic.	Morocco (Spanish Zone), Spanish
Ecuador.	Guinea, Spanish
Guatemala.	offices in northern
Haiti.	Africa, and Spanish West Africa.
Republic of Honduras.	Uruguay.
Mexico.	Venezuela.
Nicaragua.	

(2) *Diplomatic and consular mail.* The following instructions apply to free postage for diplomatic and consular mail addressed to countries of the Postal Union of the Americas and Spain:

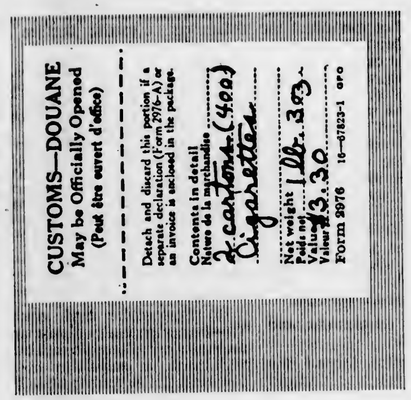
(i) *Diplomatic (official and personal).* Free postage by surface only is granted to all correspondence of members of the diplomatic corps of the PUAS countries when addressed to those countries. This mail is subject to the weight limits specified in Subchapter K of this chapter.

(ii) *Consular.* Free postage by surface only is granted to the official correspondence of consuls (or vice consuls acting as consuls) of the PUAS countries when—

(a) Addressed for delivery in the country represented by the mailing consul;

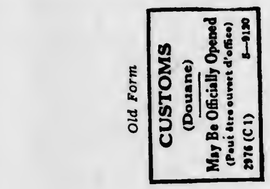
(b) Addressed to the Embassy or Legation of the consul's country located in any of those countries; or

(c) Addressed to a consul of any of those countries located in those countries.



(iii) *Marking.* Envelopes, labels, etc., used by members of the PUAS diplomatic corps for postage free mail must show in the upper left corner of the address side, the name of the Ambassador or Minister or name of the Embassy or Legation, with post office address. In the upper right corner should be the words "Diplomatic Mail" over the word "Free." In the case of consulates, the name and address of the consul or consulate as well as the name of the country must appear over the words "Official Correspondence" in the upper left corner. The words "Consular Mail" must be written above "Free" in the upper right corner.

(3) *Free under domestic conditions.* Any article entitled to be mailed free in the domestic mails is granted free postage by surface only when addressed to PUAS countries, except Argentina, Brazil, Spain, and Spanish possessions. This mail must not exceed the domestic weight limit of 4 pounds, except when it is exempted from that limit by regulation (see § 27.2 (d) (1) of this chapter), in which case the weight limits prescribed in subchapter K will apply.



(4) *Pan American Union.* Mail originating at the Pan American Union bearing the card of the Union and weighing not more than 4 pounds is admitted free of postage for surface transportation only when addressed to PUAS countries (see Subparagraph (1) of this paragraph).

(3) Facsimiles of the old Form 2976 and the revised form (completed to illustrate the information which you must supply) are shown below:

Revised Form

Old Form

(5) *Postal Service Official.* Free postage, by surface or air, is granted in the international service to official correspondence of the postal service addressed to postal administrations or post offices in other countries, to the International Bureau of the Universal Postal Union in Bern, Switzerland, or to the International Office of the Postal Union of the Americas and Spain in Montevideo, Uruguay.

(e) *Reply coupons.* (1) International reply coupons of the Universal Postal Union, printed in blue ink and bearing the caption "Coupon-Reponse International," may be purchased at United States post offices for 13¢ each. Each coupon is exchangeable in any country for a stamp or stamps representing the prepayment of an ordinary single-rate letter originating in that country and addressed to this country. Upon the presentation of a sufficient number of coupons, the stamp or stamps received in exchange may be used to prepay an ordinary letter to this country by air. International reply coupons are exchangeable in postage stamps at the rate of 8¢ each, except that Canadian and Mexican international reply coupons are redeemable in postage stamps at the rate of 3¢ each. They must bear the postmark of the selling post office. The period for exchange of reply coupons is unlimited.

(2) Postal Union of the Americas and Spain reply coupons, printed in green ink and bearing the caption "Cupón Respuesta Americoespañol," are not sold in this service, but they are redeemable in postage stamps in the same manner and rate of exchange as the UPU international reply coupon except that when more than 10 PUAS coupons are offered by one individual the letters on which the postage is being prepaid must also be presented.

(f) *Air letter sheets (Aerogrammes).* For details of air letter sheets (aerogrammes), see § 109.7 of this chapter.

(g) *Nonpostage stamp.* Do not place nonpostage stamps, labels resembling postage stamps, or impressions resembling postage-paid impressions on the address side of mail articles.

(h) *Invalid foreign postage.* An article bearing fraudulent or previously used postage stamps, counterfeit impressions of stamping machines or printed indicia, is not delivered unless you pay the amount of postage due and agree to disclose the name and address of the sender and surrender the cover of the article. If you do not comply with these demands, the article will not be delivered.

(i) *Refunds.* You may file application as outlined in § 37.2 (b) for refund of postage, fees, or other charges paid on international mail for which full service was not rendered or which were paid in excess of the proper rate.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 132—PROHIBITED AND RESTRICTED ARTICLES

a. In § 132.2 *Restricted articles* make the following changes:

1. Amend the reference in paragraph (a) to read "§ 174.1 of this chapter".

2. Change the reference in paragraph (b) to "§ 172.5".

3. In paragraph (c) change the reference to "§ 175.2".

4. Redesignate paragraph (d) as paragraph (e), and amend the reference therein to read "§ 12.4 of this chapter".

5. Insert new paragraph (d) to read as follows:

(d) *Plant material generally.* (See § 113.3 of this chapter.)

6. Add new paragraph (f) to read as follows:

(f) *Foreign import restrictions.* (See § 113.4 of this chapter.)

b. Section 132.3 *Individual country prohibitions* is added to Part 132 to read as follows:

§ 132.3 *Individual country prohibitions.* You may inquire at your post office for information as to articles prohibited to individual countries, or you may purchase the Directory of International Mail from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at an initial cost of $5.00, including a year's subscription to revision sheets.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372).

PART 133—DOCUMENTATION

a. In § 133.1 *Customs forms,* make the following changes:

1. Amend paragraph (a) (3) to read as follows:

b. Section 133.2 *Export declarations* is amended to read as follows:

§ 133.2 *Non-postal documentation.* Packages sent in the Postal Union mails may require one or more of the forms described in Subchapter R of this chapter.

c. Section 133.3 *Licenses and certificates* and § 133.4 *Parcel post documents* are hereby rescinded.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

Subchapter O—Undelivered Mail

PART 141—INQUIRIES AND COMPLAINTS

a. Section 141.1 *Inquiries encouraged* is amended to read as follows:

§ 141.1 *Inquiries encouraged.* Please report any losses or nondelivery or other mistreatment of mail, as these reports may serve to improve the postal service.

b. Section 141.4 *How made* is amended to read as follows:

§ 141.4 *How made.* If an article has failed to reach the addressee within a reasonable time, after it should in regular course have been delivered, the post office will, upon request, institute an inquiry with the foreign postal administration. You may make inquiries even though the articles were mailed in another country. If you are unable to submit the registry (mailing) receipt in the case of a registered article you should make complaint at the office of mailing.

c. Section 141.5 *Charges* is redesignated as § 141.6 and paragraphs (a) and (b) thereof are amended to read as follows:

(a) *When applicable.* No charge is made for inquiry or complaint concerning the nondelivery of a piece of international mail if you have failed to receive a return receipt for which the required fee was paid or if you can show that loss or other irregularity has occurred apparently through fault of the postal service. Such a showing is satisfied either by exhibiting a letter from the addressee a reasonable time after the article involved would normally have been delivered; or satisfactorily explaining the failure to exhibit such a letter or report. Otherwise, a charge of 13 cents is made.

(b) *When several articles involved.* Only one fee is collected for inquiries or requests for information concerning several articles which you have mailed simultaneously to the same addressee.

d. New § 141.5, *Incomplete return receipts* is inserted in Part 141, to read as follows:

§ 141.5 *Incomplete return receipts.* If you receive back a return receipt not properly completed (see § 121.5 (c) of this chapter), send the receipt with your complaint to the Bureau of Transportation, Post Office Department, Washington 25, D. C.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 142—UNDELIVERABLE POSTAL UNION ARTICLES

In Part 142 *Undeliverable articles* make the following changes:

a. Change the part caption to read as set forth above.

b. In § 142.2 *Charges,* make the following changes:

1. Amend paragraph (b) to read as follows:

(b) There is no charge for return postage on undeliverable fully prepaid articles in the Postal Union mails, except for 8-ounce merchandise packages. (See part 107 of this chapter.) These are subject, on return delivery to the sender, to a postage charge of 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction of 2 ounces.

2. Amend paragraph (c) to read as follows:

(c) United States publications of the second-class mailed by publishers or registered news agents at the rates prescribed in § 22.1 (d) (1) of this chapter, which are returned from Canada as undeliverable, are subject on delivery to the senders to a charge at the rate of 2 cents for the first 2 ounces and 1 cent for each additional 2 ounces or fraction of 2 ounces.

3. Rescind paragraph (d).

c. New § 142.3 is added to read as follows:

§ 142.3 *When remailed.* You must prepay new postage when remailing an article which has been returned to you from abroad for insufficient address.

d. New § 142.4 is added to read as follows:

§ 142.4 *Forwarding*—(a) *Received from other countries.* Mail redirected to your new address will be forwarded, unless the envelope or wrapper bears a notation in English forbidding its being forwarded, as follows:

(1) *Within the United States.* Articles received by surface will be forwarded by surface, and articles received by air will be forwarded by air without charge. Articles received by surface will be forwarded by air only if the domestic airmail postage is prepaid with United States postage stamps.

(2) *To another country.* Articles received by either surface or air will be forwarded by surface without charge. Articles will be forwarded by air only if the international airmail postage is prepaid with United States postage stamps. An article will be forwarded only if the new country of destination accepts mail of the classification involved.

(b) *Mailed in United States.* Unregistered letters (except those which appear to contain merchandise) and post cards (surface or air) are the only domestic mail articles permitted to be redirected to another country. They are forwarded by surface means subject to the same postage, less the sum originally prepaid, as would have been charged had the letters or cards been addressed originally to the country to which redirected. This postage, if not prepaid, is collected on delivery. Articles will be forwarded by air, only if additional postage is prepaid. Credit is allowed for the amount of United States postage already on the articles.

(c) *Mail for crew members and ship passengers.* Ordinary (unregistered) articles of correspondence (except those which appear to contain merchandise) addressed to crew members or passengers on board a ship may be forwarded in one envelope addressed to a ship or travel agency in another country by surface or air under the following conditions:

(1) The envelope in which the articles are to be forwarded shall be approximately 9 inches by 6 inches in size, and shall be supplied by the sender. Do not put postage on this envelope, but place the following endorsement in the upper right corner of the envelope:

This envelope contains prepaid letters forwarded in bulk by authority of Assistant Postmaster General, Bureau of Transportation. Any required additional international postage has been affixed to the articles enclosed.

(2) The envelope must be presented unsealed at the mailing office for check of the contents. Any additional postage required must be paid on each of the articles enclosed, as follows:

(i) *Articles of United States origin.* Pay on each article the difference between the postage already paid and the appropriate international rate (surface or air) to the new country of destination.

(ii) *Articles originating in other countries.* If envelope is to be forwarded by air, place full air postage from the United States to the new country of destination on each article enclosed. No additional postage is required if the envelope is to be forwarded by surface means.

(3) If the envelope is intended to be transmitted by air, place a blue Par Avion/By Air Mail label, Form 2978, in the upper left corner of the envelope immediately below the return address of the sender.

(4) The total weight of the forwarding envelope and its contents is limited to 18 ounces.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

Subchapter Q—Importations

PART 161—CUSTOMS TREATMENT

a. In § 161.2 *Delivery and collection of duty* amend paragraph (a) to read as follows:

(a) *Payment of duty required.* Articles which have been examined by the United States Customs authorities and found to be subject to duty will be delivered to the addressee only upon payment of the amount of duty assessed except as provided in § 161.3.

b. In § 161.3 *Payment of duty protested* make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Refusal and protest.* When an addressee refuses to accept a dutiable package and protests against the payment of duty assessed, he shall state his

objection in writing to the postmaster and shall submit any available information or evidence substantiating his claim. If an addressee simply refuses a parcel and makes no protest concerning the duty assessed the parcel will be treated as undeliverable.

2. Amend paragraph (c) to read as follows:

(c) *Unaccompanied articles.* (1) Returning residents of the United States frequently mail to themselves or arrange for the mailing of personal effects and/or merchandise acquired abroad. These articles are entered on the customs baggage declaration as "unaccompanied articles." If it is expected that the declared items will be contained in one shipment, the customs regulations provide that the declaration shall be prepared in duplicate, the duplicate copy bearing the certification of the customs officer being retained by the declarant for clearance purposes.

(2) If upon arrival your parcel is assessed with duty, the postmaster is authorized to deliver it free of duty or internal revenue tax on the condition that (i) you submit the duplicate certified baggage declaration; state in writing that the articles in the parcel are listed on the said declaration and are entitled to free entry under your $200 or $300 personal exemption; and that you will pay promptly on demand any duties or taxes which may be found to be due, and (ii) the description of the articles on the certified baggage declaration identifies the articles with those listed in the postal declaration, mail entry, or invoice attached to the parcel or mail entry.

(3) If you are unable to produce the duplicate certified baggage declaration, submit to the postmaster, for transmittal to the collector who assessed the duty, a written statement as to the date and port through which you reentered the country, the name of the ship or number of the aircraft, and the number borne by the declaration filed at the time of such arrival, if possible. In this case, the parcel must be held pending the decision of the collector unless you elect to follow the procedure set forth in paragraph (b) of this section.

3. Rescind paragraph (d).

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 498, 46 Stat. 728, 59 Stat. 669; 5 U. S. C. 22, 369, 19 U. S. C. 1498, 22 U. S. C. 288–288f)

Subchapter R—Exportations

Subchapter R (International Postal Service: Postal Rates, Services Available, and Instructions for Mailing) is amended to read as follows:

Part
171 Shippers' export declaration.
172 Commerce Department regulations (commodities and technical data).
173 State Department regulations (arms and technical data).
174 Treasury Department regulations (gold and gold certificates).
175 Agriculture Department regulations.
176 Consular and commercial invoices.

PART 171—SHIPPERS' EXPORT DECLARATION

Sec.
171.1 When required.
171.2 Preparation.
171.3 Information to be furnished.
171.4 How obtained.

AUTHORITY: §§ 171.1 to 171.4 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 171.1 *When required.* Business concerns sending merchandise valued at $25 and over to other business concerns—

(a) From continental United States, Alaska, Hawaii, Puerto Rico, or the Virgin Islands of the United States to any foreign country and to the Canal Zone;

(b) From continental United States to its noncontiguous territories or possessions[1] except Alaska and Hawaii;

(c) From Puerto Rico or the Virgin Islands of the United States to continental United States;

must fill out a Shipper's Export Declaration on Department of Commerce Form 7525–V. The Shipper's Export Declaration is required only for goods mailed for commercial purposes and not for goods which involve no commercial consideration. However, Commerce Form 7525–V must also be filed for shipments of all articles covered by a validated export license from the Bureau of Foreign Commerce, Department of Commerce, regardless of value or whether the sender or addressee is a business concern. (See Part 172 of this chapter.) The declaration need not be furnished for catalogs, instruction books, and other advertising matter, or for magazines, newspapers, and periodicals, which are not regarded as merchandise. It is also not required for shipments of technical data, regardless of value and whether or not they are covered by export licenses, except as stated in § 172.3 (c) of this chapter.

§ 171.2 *Preparation.* Only a single copy of the shippers' export declaration is required for mail shipments. A single export declaration may include any number of packages mailed by one sender the same day to one addressee. Export declarations need not be notarized.

§ 171.3 *Information to be furnished.* The following are the only items on the Shippers' Export Declaration (Commerce Form 7525–V) which are required to be filled in by the sender of a postal shipment:

(a) Item 2. Name of post office where shipment is being mailed. (Insert in space on the form reading "From ------ (U. S. port of export)".)

(b) Item 3. Name and address of sender (exporter or forwarding agent). If the shipment is being mailed by a forwarding agent, the name and address of the exporter, his principal, must also be shown.

(c) Item 5. Name and address of addressee (ultimate consignee and intermediate consignee, if any).

(d) Item 8. Country of final destination.

(e) Item 10. Number of packages being mailed; description of merchandise and export license number and expiration date, or general license symbol.

(f) Item 13. Schedule B, commodity number.

(g) Item 14. Net quantity of merchandise, in Schedule B units.

(h) Item 15. Value of merchandise.

The description of contents and units of quantity must be in the detail required by Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States. You may obtain copies of Schedule B for a nominal charge from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce field offices located in the principal cities of the United States. General descriptions, such as dry goods, groceries, millinery, etc., are not sufficient. Quantities and values must be given in whole numbers only, omitting fractions of less than one-half and counting one-half and over as a whole.

§ 171.4 *How obtained.* If you are an occasional shipper, you may obtain Form 7525–V free of charge at your local post office. Regular exporters may obtain copies of the Shippers' Export Declaration from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce field offices at a cost of 55 cents per block of 100. They may be privately printed, provided they conform to the official form in size, wording, color, quality (weight) of paper stock, and arrangement.

PART 172—COMMERCE DEPARTMENT REGULATIONS (COMMODITIES AND TECHNICAL DATA)

Sec.
172.1 Scope and applicability.
172.2 General licenses.
172.3 Validated licenses.
172.4 Export control inspections.
172.5 Diamond shipments.

AUTHORITY: §§ 172.1 to 172.5 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48, Stat. 943; 5 U. S. C. 22, 369, 372.

§ 172.1 *Scope and applicability.* The Bureau of Foreign Commerce, Department of Commerce, controls all exportations, except certain commodities licensed for export by other United States Government agencies, to all countries except Canada. You must inform yourself as to the regulations and comply with them in making any exportations of commodities by parcel post or letter package, and technical data as printed matter, parcel post or letter package. A brief summary of the regulations as they apply to mail shipments is given in this Part. You can obtain more information from a Commerce Department bulletin entitled "Public Notice—Requirements for Exportations by Mail" which can be found on bulletin boards in larger post offices, stations, and branches. You may inquire further of the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C., or of any field office of that Department.

§ 172.2 *General licenses*—(a) *Definition and use.* A "general license" is not a specific document, but is a general authorization covering exportations within its provisions, each general license being designated by symbol, such as GRO, GLV, GIFT, GUS, etc. A brief description of the general licenses usually employed for mail shipments is given in this section. You can obtain further information as set forth in § 172.1. When you have found that the contents of your package are properly exportable under a general license, mark the wrapper with the appropriate symbol and the words "Export license not required" before presenting it at the post office. The marking is your certification that you have complied with the regulations governing the use of the general license denoted by the symbol you use.

(b) *Restricted destinations.* The Commerce Department imposes particular restrictions on exports to Hong Kong, Macao, and the following Soviet bloc countries: Albania, Bulgaria, China (mainland including Manchuria), Czechoslovakia, Estonia, Germany (Soviet Zone including Soviet sector of Berlin), Hungary, Laos (Communist-controlled areas), Latvia, Lithuania, Poland, Rumania, Tibet, U. S. S. R. and Viet-Nam (Communist-controlled areas). Packages for those countries may not bear any general-license symbol other than GIFT (not permitted to mainland China), GUS, G–PUB, GTDP, and in the case of Hong Kong GHK and GHS.

(c) *General license gift.* (1) This license covers gift packages mailed by or on behalf of an individual sender to an individual addressee for the personal use of the latter or his family or to a religious, charitable or educational organization. The contents are limited to items normally sent as gifts, such as food, clothing (except military clothing to the Soviet bloc countries shown in par. (b)), medicinals, and drugs.

(2) The value of the contents of a package is limited to $50. Restricted medicines (antibiotics, sulfa drugs, quinine and quinidine compounds, remedies for malaria, chills and fever) are limited to $25, and the value of such medicines is included in the $50 total value limit.

(3) You may not mail more than one gift package per week to one addressee.

(d) *General license GUS.* You may use this license for shipments to United States Government personnel under prescribed conditions.

(e) *General license G–PUB.* You may use this license for mailing miscellaneous printed matter to any country.

(f) *General licenses GTDP, GTDU, and GTDS for technical data.* (1) You may use general license GTDP for mailing technical data generally available in published form to any country. Agencies of the Federal Government may omit the prescribed marking from shipments mailed under this general license.

(2) You may use general license GTDU for mailing technical data not generally available in published form. This license may not be used to any Soviet bloc country listed in paragraph (b) of this section.

(3) You may use general license GTDS for mailing unclassified scientific and educational technical data under prescribed conditions.

(g) *Other general licenses.* General licenses GHK and GHS may be used only for shipments to Hong Kong. Other licenses (GRO, GO, GLV, etc.) may be used for shipments to any country not listed in paragraph (b) of this section.

§ 172.3 *Validated licenses*—(a) *Definition and use.* A *validated license* is an individual document issued by the Bureau of Foreign Commerce, authorizing a specific exportation. You can obtain information as set forth in § 171.1 of this chapter. Before mailing a shipment under a validated license you must put the license number on the wrapper.

(b) *Export declaration required.* An export declaration (see part 171 of this chapter) is required for every shipment covered by a validated license, except technical data. However, partial shipments of technical data being handled as prescribed in paragraph (c) of this chapter require an export declaration.

(c) *Entire and partial shipments.* If the entire amount authorized by a validated license is mailed at one time, you must surrender the license at the post office at the time of mailing. If only a part of the licensed shipment is to be mailed, you must deposit the validated license with a collector of customs and surrender at the post office a shipper's export declaration (Commerce Form 7525–V), or copy thereof, bearing the number of the license and an authorization dated and signed by the collector of customs or his representative for the shipment of the goods listed on the declaration.

(d) *Technical data licenses.* Licenses issued by the Bureau of Foreign Commerce for exportations of technical data are similar in form to the usual type of validated license, but are handled somewhat differently. No shipper's export declaration is required, except for partial shipments under specific licenses. Technical data licenses are of two types as follows:

(1) *Specific (STD) Licenses.* Mail your shipments under this type of license as prescribed in paragraphs (a) and (c) of this section. However, no shipper's export declaration is required for an entire shipment.

(2) *Project (PTD) Licenses.* As such a license permits continuing shipments during its validity, you need not present it or an authenticated export declaration with every shipment. You must, however, put the number of the license on the wrapper of each package, and present the license at the post office for examination if requested.

§ 172.4 *Export control inspections.* Parcels are subject to inspection by United States customs officers at dispatching exchange post offices. If violations of export control are detected, the parcels may be returned or seized by the customs inspectors. Postage is not refunded.

§ 172.5 *Diamond shipments.* Loose diamonds in any form (except cut gem diamonds, i. e., diamonds cut to be set in jewelry) will not be accepted for mailing to any country, unless they have been inspected by the United States Appraiser of Merchandise at New York and his unbroken seal appears on every package. This does not apply to diamonds forming a part of industrial tools.

PART 173—STATE DEPARTMENT REGULATIONS (ARMS AND TECHNICAL DATA)

Sec.
173.1 Individual licenses.
173.2 Entire and partial shipments.
173.3 Technical data exempt from license.

AUTHORITY: §§ 173.1 to 173.3 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 173.1 *Individual licenses.* Exportation of certain arms or implements of war and related technical data requires individual licenses issued by the Office of Munitions Control, Department of State. Firearms of less than .22 caliber and shotguns are exempt. You can obtain information as to the applicability of the State Department requirements and how to apply for individual licenses from the Office of Munitions Control, Department of State, Washington 25, D. C.

§ 173.2 *Entire and partial shipments.* If you mail the entire amount authorized by an individual license, you must surrender the license at the post office. If you are mailing only a portion of the amount authorized, you must enter on the back of the license the amount being shipped and present it at the post office. It will be postmarked and returned to you.

§ 173.3 *Technical data exempt from license.* Certain technical data which has been published or is otherwise generally available may be exported under State Department regulations without individual license, except to the U. S. S. R., any Soviet bloc country, China (mainland), or any part of Viet-Nam, Cambodia, or Laos under Communist control. You must mark the wrapper of each package "22 CFR 75.140 complied with". Agencies of the Federal Government may omit the marking.

PART 174—TREASURY DEPARTMENT REGULATIONS (GOLD AND GOLD CERTIFICATES)

Sec.
174.1 License requirements.
174.2 Gold held by nonresidents.
172.3 Fabricated gold.
172.4 Gold coin, bullion, or gold dust.
172.5 Where to obtain licenses.

AUTHORITY: §§ 174.1 to 174.5 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 174.1 *License requirements.* A license is necessary to mail gold in any form or gold certificates from the continental United States to any destination outside its continental limits or from any U. S. post office outside the continental limits to another country, except as provided in § 174.2 and § 174.3. In addition, the postmaster at the office of mailing must receive instructions, before mailing, from the Post Office Department.

§ 174.2 *Gold held by nonresidents.* Gold in any other form than coin is mailable without a license and specific instruction, if it is not held or owned by a person who is a resident of or domiciled

[1] Alaska, Puerto Rico, Virgin Islands of the United States, Hawaii, Guam, Samoa, Canton and Enderbury Islands, Johnston, Midway, Palmyra, and Wake Islands.

in the continental United States. In such a case the mailer must place on the wrapper of the package and on the shipper's export declaration when required (see § 171.1 of this chapter) a statement that the gold contained therein is held or owned by a person who is not a resident of, or who is not domiciled in, the continental United States.

§ 174.3 *Fabricated gold*—(a) *Definition.* Fabricated gold is defined by the Treasury Department as processed or manufactured gold in any form (other than gold coin or scrap gold) which has a gold content the value of which does not exceed 90 percent of the total domestic value of the processed or manufactured gold and which has in good faith and not for the purpose of evading or enabling others to evade the provisions of the Gold Reserve Act of 1934, the act of October 6, 1917, as amended, or the regulations of the Treasury Department, been processed or manufactured for some one or more specific and customary industrial, professional, or artistic uses. Fabricated gold is to be distinguished from semiprocessed gold, which may be exported only pursuant to Treasury License, and which is defined to include gold articles of which more than 90 percent of the total domestic value is attributable to the gold content thereof.

(b) *Mailing restricted.* Fabricated gold is acceptable for mailing without being licensed by the Treasury Department and without specific instructions from the Post Office Department. However, the shipper is required to endorse the wrapper of the package with the Bureau of Census Schedule B statistical classification number of each specific commodity contained therein. The shipper's export declaration, when required (see § 171.1 of this chapter) shall contain, in addition to a specific description of the contents of the package, the following notation: "Fabricated gold as defined by section 54.4 of the Gold Regulations, being exported pursuant to the authorization contained in section 54.25 (b) (2) of such regulations."

(c) *How to determine.* To determine whether an article is semi-processed or fabricated gold, the value of the gold content is computed at $35 per fine troy ounce of gold and the total domestic value is determined on the basis of the cost of the article to the owner and not the selling price. In the case of a manufacturer or processor, the allowable elements of such value are the cost of material in the article, labor performed on the article, and processing losses and overhead applicable to the manufacture or processing of such article. In the case of a dealer or other person who holds or disposes of gold without further processing, total domestic value includes only the net purchase price paid by such person and any transportation costs incurred in obtaining delivery of such article to his usual place of business.

(d) *Gold coin made prior to April 5, 1933.* Gold coin made prior to April 5, 1933, is acceptable for mailing without being licensed by the Treasury Department and without specific instructions from the Post Office Department. However, the shipper's export declaration, when required (see § 171.1) shall contain, in addition to a specific description of the package, the following notation: "Rare gold coin as defined by section 54.20 of the Gold Regulations, being exported pursuant to the authorization contained in section 54.25 (b) (3) of such regulations."

§ 174.4 *Gold coin, bullion, or gold dust.* The acceptance in the Postal Union mails or parcel post for any country of any consignment of gold coin, gold bullion, or gold dust, having a value in excess of $100 is prohibited, even though a license has been granted to export such gold coin, gold bullion, or gold dust.

§ 174.5 *Where to obtain licenses.* You may obtain the forms on which to apply for licenses to export gold from the Bureau of the Mint, Treasury Department, Washington 25, D. C.

PART 175—AGRICULTURE DEPARTMENT REGULATIONS

Sec.
175.1 Dried whole eggs.
175.2 Tobacco seed and plants.

AUTHORITY: §§ 175.1 and 175.2 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 175.1 *Dried whole eggs*—(a) *Endorsements.* When dried whole eggs purchased under a program of the Commodity Credit Corporation, Department of Agriculture, are offered for export by mail, an endorsement must be written or stamped on each package by the sender waiving any right to withdraw it from the mails or have it returned. The endorsement must be properly completed and signed by the exporter or his authorized representative over his title. The parcel post forms accompanying such parcels should be completed by the senders to indicate that the parcels are to be abandoned in case of nondelivery.

(b) *Certificates.* A certificate in the following form, prepared and completed by the sender, must be presented with the shipment:

CERTIFICATE OF MAILING DRIED WHOLE EGGS

I hereby certify that there has (have) been posted at this post office today by ----------; ---------- parcels containing a total of ---------- pounds of dried whole eggs on which the sender has waived the right to withdraw same from the mails or have same returned.

Parcels addressed to:
(Names and addresses of addressees)
(Office stamp)

---------- ----------
(Date) (Postmaster)

By ----------

(c) *Execution of certificate.* A single certificate may cover any number of parcels mailed by the same sender even though addressed to different countries. A charge of 3 cents will be made for each certificate of mailing issued to the sender, or for each parcel when a single certificate covers more than one parcel. Postage stamps to cover the charge for the certificate of mailing shall be fixed to the certificate and canceled by the postmark of the office of mailing. After postmarking, the certificate will be signed by the postmaster or his authorized representative and returned to the sender.

§ 175.2 *Tobacco seed and plants*—(a) *Permit required.* It is unlawful to export any tobacco seed and/or live tobacco plants except in pursuance of a written permit granted by the Secretary of Agriculture.

(b) *Endorsement of package.* The package or parcel must be marked "Tobacco seed and plant export permit No. ----------".

(c) *Surrender of permit.* The permit is to be presented at the time of mailing and postmarked and signed by the accepting employee. It will be retained by the post office and forwarded to the Tobacco Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(d) *Charges.* A charge of 3 cents will be made for each permit presented by the sender and for each package or parcel when a single permit covers more than one parcel. Postage stamps to cover the charge shall be affixed to the permit and canceled by the postmark of the office of mailing.

PART 176—CONSULAR AND COMMERCIAL INVOICES

§ 176.1 *Consular and commercial invoices.* Many countries require special documents to be prepared by the sender and either presented by the addressee or enclosed within the package. In some cases, certification by a recognized Chamber of Commerce in the United States, or legalization by a Consulate of the country of destination, or both, are required. You may inquire at your post office for information, or purchase the Directory of International Mail from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at an initial cost of $5.00, including a year's subscription to revision sheets.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 2, Grain Sorghums]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

DISCOLORED; GRADING AND DISCOUNT

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service, published in 20 F. R. 3701 and 5447 and containing the specific requirements for the 1955-Crop Grain Sorghums Price Support Program are amended as follows:

1. Section 421.1228 is amended to make grain sorghums grading "Discolored" eligible for price support so that the amended section reads as follows:

§ 421.1228 *Eligible grain sorghums.* At the time the grain sorghums are placed under loan or delivered under a purchase agreement, they must meet the following requirements:

(a) The grain sorghums must have been produced in the continental United States in 1955 by an eligible producer.

(b) (1) The beneficial interest in the grain sorghums must be in the eligible producer tendering the grain sorghums for loan or for delivery under a purchase agreement, and must always have been in him, or must have been in him and a former producer whom he succeeded before the grain sorghums were harvested.

(2) To meet the requirements of succession to a former producer, the rights, responsibilities, and interest of the former producer with respect to the farming unit on which the grain sorghums were produced shall have been substantially assumed by the person claiming succession. Mere purchase of the crop prior to harvest, without acquisition of any additional interest in the farming unit, shall not constitute succession. The county committee shall determine whether the requirements with respect to succession have been met.

(c) Grain sorghums of any class grading No. 4 or better, No. 4 "Smutty" or better, or No. 4 "Discolored" or better, and containing not in excess of 13 percent moisture shall be eligible.

(d) Grain sorghums represented by warehouse receipts which indicate that the grain sorghums are ineligible because of moisture content only, will be eligible if the warehouseman certifies on the supplemental certificate or on a statement attached to the warehouse receipt that "the grain sorghums have been processed at the request of the eligible producers, and delivery will be made of eligible grain sorghums containing not in excess of 13 percent moisture content and no lien for processing will be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of said warehouse receipt."

(e) The grain sorghums must not grade weevily.

(f) If offered as security for a farm-storage loan, the grain sorghums must have been stored in the bin or granary at least 30 days prior to inspection for measurement, sampling, and sealing unless otherwise approved by the State committee.

2. Section 421.1233 (d) is amended to provide a discount for grain sorghums grading "Discolored" so that the amended paragraph reads as follows:

§ 421.1233 *Support rates.* • • •

(d) *Discounts.* (1) The discount for grain sorghums which grade No. 3 and contain not in excess of 13 percent moisture shall be 8 cents per 100 pounds; and for grain sorghums which grade No. 4 and contain not in excess of 13 percent moisture, 16 cents per 100 pounds.

(2) Grain sorghums which grade "smutty" shall be discounted 5 cents per 100 pounds.

(3) The support rates for mixed grain sorghums (Class V) shall be 3 cents per 100 pounds less than the support rates for grain sorghums of the classes I to IV, inclusive.

(4) Grain sorghums which grade "Discolored" shall be discounted 7 cents per 100 pounds.

(5) The discounts in this paragraph shall be cumulative.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714; 7 U. S. C. 1447, 1421)

Issued this 13th day of October 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 55-8443; Filed, Oct. 18, 1955; 8:47 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS: TEST AND METHODS OF ASSAY

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, 61 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay and certification of chlortetracycline and chlortetracycline-containing drugs (21 CFR, 1954 Supp., Parts 141c, 146c; 20 F. R. 3, 1551, 4003) are amended as indicated below:

1. Section 141c.222 (a) is amended to read as follows:

§ 141c.222 *Tetracycline hydrochloride oral suspension; tetracycline calcium oral suspension*—(a) *Potency.* Transfer 1 milliliter of the well-shaken suspension to a suitable high-speed blender containing 500 milliliters of 0.01 *N* HCl (if it contains vitamins, use 0.1 *N* HCl). Blend for 5 minutes and proceed as directed in § 141c.218 (a). Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams, or the equivalent number of milligrams, of tetracycline hydrochloride per milliliter that it is represented to contain.

2. Section 146c.222 *Tetracycline hydrochloride oral suspension* • • • is amended in the following respects:

a. In paragraph (a) *Standards of identity* • • •, the following new sentence is inserted immediately after the first sentence: "If it is tetracycline hydrochloride oral suspension, it may contain one or more suitable and harmless vitamin substances."

b. In paragraph (c) *Labeling*, subparagraph (1) (iv) is changed to read:

(iv) The name and quantity of each sulfonamide, preservative, and vitamin substance used in making the batch.

c. Paragraph (c) (1) (v) is changed to read:

(v) The statement "Expiration date ----------," the blank being filled in with the date that is 18 months, or if it contains one or more vitamin substances, with the date that is 12 months, after the month during which the batch was certified: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

d. Paragraph (c) (3) is changed to read:

(3) On the label and labeling:

(i) If it is tetracycline hydrochloride oral suspension and it contains one or more vitamin substances or sulfonamides, after the name "tetracycline hydrochloride oral suspension," wherever it appears, the words "with sulfonamide(s)" or "with vitamin ----------," the blank being filled in with the name of the vitamin ingredient used, or "with vitamins," if it contains more than one vitamin ingredient, in juxtaposition with such name.

(ii) If it is tetracycline calcium oral suspension and it contains one or more sulfonamides, after the name "tetracycline calcium oral suspension," wherever it appears, the words "with sulfonamide(s)," in juxtaposition with such name.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended, 67 Stat. 389; 21 U. S. C. 352, 357)

Dated: October 13, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-8460; Filed, Oct. 18, 1955; 8:49 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 166]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter K—Federal Seed Act

PART 201—FEDERAL SEED ACT REGULATIONS

AMENDMENT OF JOINT REGULATIONS OF SECRETARY OF THE TREASURY AND SECRETARY OF AGRICULTURE

On June 23, 1955, there was published in the FEDERAL REGISTER (20 F. R. 4420) a notice of rule making and notice of a hearing with respect to proposed amendments of the joint rules and regulations under the Federal Seed Act. After consideration of all relevant matters presented at the hearing or in writing pursuant to the notice, and under authority of Section 402 of the Federal Seed Act (7 U. S. C. 1592), it is hereby ordered that §§ 201.208, 201.212, 201.222, and 201.230 of the joint rules and regulations of the Secretary of the Treasury and the Secretary of Agriculture (7 CFR 201.208, 201.212, 201.222, 201.230) under the Federal Seed Act are amended as follows:

1. In § 201.208, the following are inserted in proper alphabetical order:

Casterbean.
Safflower.
Sesame.

2. In § 201.212, the following is added as paragraph (c):

(c) When sampling seed in small containers which it is not practical to sample as required in paragraph (a) or (b) of this section, entire unopened containers may be taken in sufficient number to supply a minimum size sample as required in § 201.213. The sample may consist of the contents of one container, or two or more containers when combined.

3. In § 201.222, the following are inserted in proper alphabetical order:

In paragraph (a):

Lettuce.
Rape, winter.

In paragraph (b):

Castorbean.
Safflower.
Sesame.

In § 201.230, paragraph (a) is amended to read as follows:

§ 201.230 *Exportation or destruction.* (a) Seed or screenings refused admission into the commerce of the United States shall be exported under customs supervision by the owner or consignee within 12 months of the date of notice of such refusal or at the expiration of such 12-month period the rejected seed or screenings shall be destroyed under the supervision of an employee or authorized agent of the United States Department of Agriculture in such manner as may be determined by the United States Department of Agriculture.

These amendments shall become effective on November 19, 1955.

(Sec. 402, 53 Stat. 1285; 7 U. S. C. 1592)

Done at Washington, D. C., this 13th day of October 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-8472; Filed, Oct. 18, 1955; 8:51 a. m.]

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 728—WHEAT

SUBPART—1955-56 MARKETING YEAR

COUNTY ACREAGE ALLOTMENTS FOR 1955 CROP OF WHEAT

§ 728.506 *Basis and purpose.* The county acreage allotments for 1955 crop wheat contained herein have been determined under section 334 of the Agricultural Adjustment Act of 1938, as amended. The purpose is to apportion among the counties of each State the respective State wheat acreage allotments for 1955 as established by the proclamation dated July 1, 1954 (19 F. R. 4132) and to add thereto the increases required by section 1 of Public Law 117, 83d Congress, and section 314 of Public Law 690, 83d Congress. Prior to determinations of county acreage allotments for 1955 crop wheat, public notice (19 F. R. 2374) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the determination of county acreage allotments for 1955 crop wheat which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended, including the provisions of section 1 of Public Law 117, 83d Congress, and section 314 of Public Law 690, 83d Congress.

§ 728.507 *Wheat acreage apportioned to counties for 1955.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Avocado Order 10, Amdt. 1]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

MATURITY REGULATION

a. *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of avocados grown in South Florida.

b. It is, therefore, ordered as follows: The provisions set forth in Table II of paragraph (b) of § 969.310 (Avocado Order 10, 20 F. R. 6699) as pertains to the Hickson, Collinson, Hall, Herman, and Winslowson varieties are hereby amended to read as follows:

Variety	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date	Minimum weight or diameter	Date
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)
Hickson	Oct. 17, 1955	14 oz. 3 4/16 in.	Oct. 31, 1955	10 oz. 2 13/16 in.	Nov. 14, 1955	9 oz. 2 13/16 in.	Dec. 5, 1955
Collinson	Oct. 17, 1955	16 oz. 3 13/16 in.	Oct. 31, 1955	14 oz. 3 8/16 in.	Nov. 14, 1955	10 oz. 3 3/16 in.	Dec. 5, 1955
Hall	Oct. 24, 1955	18 oz. 3 5/16 in.	Nov. 7, 1955	16 oz. 3 5/16 in.	Nov. 21, 1955	14 oz. 3 5/16 in.	Dec. 19, 1955
Herman	Oct. 31, 1955	16 oz. 3 9/16 in.	Nov. 14, 1955	14 oz. 3 7/16 in.	Nov. 28, 1955	10 oz. 3 3/16 in.	Dec. 19, 1955
Winslowson	Oct. 31, 1955	18 oz. 3 13/16 in.	Nov. 7, 1955	16 oz. 3 13/16 in.	Dec. 5, 1955	10 oz. 3 5/16 in.	Dec. 26, 1955

c. Effective time: The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., October 17, 1955.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 14, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8471; Filed, Oct. 18, 1955; 8:51 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS' CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 3.0, the headnote and paragraph (c) are amended to read as follows:

§ 3.0 *World Wars I and II and service on or after June 27, 1950, and prior to February 1, 1955.* • • •

(c) Under the provisions of Public Law 28, 82d Congress, active service on or after June 27, 1950, and prior to February 1, 1955, entitles to compensation and pension on a parity with World War II service. Accordingly, all provisions of Veterans Administration Regulations applicable to World War II veterans for such benefits are equally applicable to veterans who served during this period. However, no payment under this act may be made prior to May 11, 1951.

2. In § 3.1, paragraph (e) is amended to read as follows:

§ 3.1 *Persons included in the acts in addition to commissioned officers and enlisted men.* • • •

(e) *Commissioned officers, Public Health Service.* Officers of the Public Health Service who were detailed for duty with the Army or Navy are included as officers in the active service. On or after November 11, 1943, commissioned officers of the Public Health Service, regular and reserve, who (1) are detailed for duty with the Army, Navy, or Coast Guard; (2) are serving in time of war outside the continental limits of the United States or in Alaska, regardless of whether the disability or death was suffered prior or subsequent to November 11, 1943: *Provided, however,* That benefits may not be awarded for any period prior to November 11, 1943; or (3) perform active service in time of war and following the issuance of an Executive order declaring the commissioned corps of the Public Health Service a part of the military forces of the United States are also included. In regard to subparagraph (3) of this paragraph, the Executive order was published on June 29, 1945, effective July 29, 1945. Hence, on and after the latter date and to and including July 3, 1952, the above-described commissioned officers of the Public Health Service, with respect to active service performed, shall be considered as in active military or naval service and included within the acts administered by the Veterans Administration: *Provided, however,* That if disability was incurred after July 25, 1947, and prior to May 11, 1951, the rates payable and criteria are those provided by Part II, Veterans Regulation 1 (a), as amended (38 U. S. C. ch 12A). On and after May 11, 1951, the rates payable and criteria are those provided by Part I, Veterans Regulation 1 (a), as amended, including those who incurred disability after June 26, 1950. Commissioned officers of the Public Health Service retired for any cause during the period from July 29, 1945, to July 3, 1952, inclusive, are in the same category as retired officers of the Armed Forces with respect to benefits payable under the laws administered by the Veterans Administration and are therefore subject to the provisions of § 3.300.

• • • • • •

3. In § 3.59, paragraph (b) is amended to read as follows:

§ 3.59 *Active service under Public Law 2, 73d Congress.* • • •

(b) Service for 90 days or more, required by paragraph I (c), Part I, and service for 6 months or more, required by paragraph I (b), Part II, Veterans Regulation 1 (a) (38 U. S. C. ch. 12A), will mean continuous, active service, as defined in paragraph (a) of this section; during one or more enlistment periods. For the purpose of Part I, Veterans Regulation 1 (a), as amended, such active service must have been during an enlistment or enlistments shown to have begun prior to the termination of a service period specified by Part I, Veterans Regulation 1 (a), as amended by Public Law 239, 84th Congress. The service requirements in claims for pension for disabilities not the result of service are defined in paragraph I (d), Part III, Veterans Regulation 1 (a), and paragraph 3, Veterans Regulation 1 (c), as modified by Public Law 344, 74th Congress. Under Public Law 239, 84th Congress, the service requirements are continuous service extending into or commencing during the period between June 27, 1950, and January 31, 1955, inclusive. A veteran in active service on April 6, 1917, December 7, 1941, or June 27, 1950, who was discharged therefrom without serving 90 days during World War I, World War II, or the Korean conflict, respectively, will be given, if otherwise in order, the benefit of the provisions of paragraph I (c), Part I, Veterans Regulation 1 (a), if he had 90 days' continuous service.

• • • • • •

4. Section 3.60 is revised to read as follows:

§ 3.60 *Active service requirements of Part III, Veterans Regulation 1 (a) (38 U. S. C. ch. 12A).* Where the military service extended into or beyond the period of hostilities, there must be 90 days' continuous service so extending or a discharge prior to service of 90 days on account of disability incurred in or aggravated by service in line of duty without benefit of presumptive provisions of the law or regulations in order to meet the requirements of Part III, Veterans Regulation 1 (a), as amended, but the requirements of active service for a total of 90 days or more during one of the enumerated wars or during the Korean conflict can be composed of two or more periods of service, if all such periods are within the war period. Service is exclusive of the furloughs enumerated in § 3.59, time under arrest, in the absence of acquittal, time for which the soldier or sailor was determined to have forfeited pay by reason of absence without leave, and time spent in desertion or while undergoing sentence of court-martial. Time in a hospital, on sick furlough, or as a prisoner by the enemy is included.

(Part III, Vet. Reg. 1 (a); 38 U. S. C. ch. 12A)

5. In § 3.62, the introduction and paragraph (b) are amended and paragraph (c) is revoked:

§ 3.62 *Eligibility of persons discharged to accept a commission or to change status.* The discharge of a service person to accept appointment as a commissioned or warrant officer, or from a reserve or regular commission to accept a commission in the other component, or to reenlist, prior to the date set forth in paragraph (a) or (b) of this section whichever is applicable, is a qualified and conditional discharge and does not constitute a termination of the person's war service for compensation and pension purposes. The entire service in such case constitutes one period of service, and the conditions of final termination of active service will govern and determine basic eligibility to compensation or pension.

• • • • • •

(b) World War II and Korean conflict—Prior to the date the service person was eligible for discharge from war or Korean conflict service, under the point or length of service system, or under any other criteria in effect. The foregoing principles are applicable to service in the regular establishment whenever a conditional discharge is involved.

(c) [Revoked.]

6. In § 3.63, paragraph (c) is amended to read as follows:

§ 3.63 *Service-connection, sound condition at the time of entrance into service, aggravation, and natural progress, under Public Law 2, 73d Congress, as amended, Part I and Part II, Veterans Regulation 1 (a) (38 U. S. C. ch. 12A).* • • •

(c) Ninety days or more service is not necessary under paragraph I (b), Part I, Veterans Regulation 1 (a), as amended, and the provisions thereof are applicable to all service as defined in paragraph I (a), as amended by Public Law 239, 84th Congress.

• • • • • •

7. In § 3.67, paragraph (c) (1) is amended to read as follows:

§ 3.67 *Disability of veteran (1) as a direct result of armed conflict, or (2) while engaged in extra hazardous service, including such service under conditions simulating war, or (3) while the United States is engaged in war (Public Laws 359, 77th Congress, 868, 80th Congress).* • • •

(c) • • •

(1) Service under conditions simulating war is extra hazardous, and other service will be considered extra hazardous if (i) performed under conditions recognized as exceptionally dangerous or (ii) involving risks beyond those ordinarily encountered in routine peacetime duties. Examples of service recognized as falling within the first category, as being exceptionally dangerous, include the following: While actually engaged in performance of service duty in aircraft, submarine operations (including duty at a submarine escape training tank, when such duty involves participation in the training), parachute jumping, intimate contact with persons afflicted with leprosy, as low-pressure chamber inside observer, as human acceleration or deceleration experimental subject, or diving operations; or dangerous testing operations of instrumentalities of war in differentiation from service involving their routine peacetime use. Every injury or disease resulting directly from or aggravated by these operations, from preparation for flight to the final landing, as of an airplane, or from the casting off to the final berthing, as of a submarine, is considered as incurred in extra hazardous service. Servicing the aircraft while the propeller revolves or loading or unloading explosives from aircraft is considered extra hazardous. During a postwar period pending approval of treaty of peace or other final termination of a technical state of war, service passengers on service airplanes are considered as performing extra hazardous service where their presence on an airplane was required by service orders. Testing or demonstrating explosives and demolition work with explosives are considered extra hazardous. This refers to experimental testing as in developing new weapons, testing of untried equipment upon ordnance proving grounds, or other work not ordinarily included in routine duties. It does not apply to cases as routine demonstrating of ordnance equipment in connection with routine peacetime military duty. Other examples are duty on convoy or patrol vessels and while manning guns on merchant vessels. Service falling within the second category, as involving risks beyond those ordinarily encountered in routine peacetime duties, includes among others the following: Under climatic or other conditions which subject the person to excessively high or low temperatures and predispose to disease, or upon exposure to any conditions which he would not customarily or ordinarily be called upon to endure in ordinary peacetime service. Individual actions incident to performance of service duties of exceptional risk or danger, as extinguishing a serious fire or conflagration, serving where explosives are stored in quantity, rescues at sea, from drowning, or from burning buildings, may be considered extra hazardous, if the element of risk or danger above and beyond the routine of the service is clearly apparent. It is particularly to be noted that accidents with firearms or other instrumentalities of war on land or sea, unless directly traceable to the performance of duties incident to extra hazardous service as above outlined, are considered as involving only the routine risk or danger of the soldier or sailor.

• • • • • •

8. In § 3.77, paragraph (a) is amended to read as follows:

§ 3.77 *Direct and presumptive service-connection.* (a) Under Public Law 2 and Public Law 141, 73d Congress and Public Law 239, 84th Congress, the payment of disability compensation or pension is authorized in cases where it is established that disabilities are shown to have been directly incurred in, or aggravated by, active military or naval service within the dates prescribed under each act and under Public Law 344, 74th Congress, provided that such incurrence or aggravation is not the result of the willful misconduct of the veteran. Under Public Law 141, 73d Congress, disability compensation is also authorized for disabilities presumptively service-connected under the conditions hereinafter specified. Under Public Law 2, 73d Congress, disability pension is payable for disabilities directly incurred in or aggravated in line of duty in active peacetime service during an enlistment on and after April 21, 1898. Under Public Law 196, 76th Congress (July 19, 1939), any World War veteran suffering from paralysis, paresis, or blindness, or who is helpless or bedridden, as the result of any disability and who was in receipt of compensation therefor on March 19, 1933, may be restored to the compensation roll on or after July 19, 1939, where such disability was incurred in service directly or presumptively under the laws and interpretations covering this class of cases prior to March 20, 1933, if otherwise entitled, notwithstanding such disability is considered to have been incurred as the result of the willful misconduct of the veteran. On or after October 17, 1940, under section 7, Public Law 866, 76th Congress (October 17, 1940), any World War veteran, if otherwise entitled, may be paid disability compensation for such disability, found to have been incurred in service, directly or presumptively under the laws and interpretations covering this class of cases prior to March 20, 1933, although he was not on the rolls as of March 19, 1933.

• • • • • •

9. In § 3.80, paragraph (a) is amended to read as follows:

§ 3.80 *Service-connection for chronic or tropical diseases.* (a) Under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), a chronic or tropical disease becoming manifest to a degree of 10 percent or more within 1 year (within 2 years as to multiple sclerosis or within 3 years as to tuberculosis) from the date of separation from active wartime service or service within the purview of Public Law 239, 84th Congress, or within 1 year or 2 years as to multiple sclerosis or 3 years as to tuberculosis after the date prior to which a disability must have been incurred as provided in Veterans Regulation 1 (a), as amended by Public Law 239, 84th Congress, whichever is the earlier, will be

considered as having been incurred in service when the conditions specified in paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, are met. Service incurrence will be established under paragraph I (a), Part I, Veterans Regulation 1 (a), as amended, for any of the tropical diseases listed in § 3.86 (b), when shown to exist at a time when standard and accepted treatises indicate that the incubation period of the diseases commenced during active service. Under paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, a tropical disease becoming manifest to a degree of 10 percent or more within 1 year from date of separation from service or at a time when standard accepted treatises indicate that the incubation period thereof commenced during active service will be considered as having been incurred in service, when the conditions specified in paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, are met. The factual basis may be established by medical evidence, competent lay evidence, or both. Medical evidence should set forth the physical findings and symptomatology elicited by examination within the 1-year (2-year as to multiple sclerosis or 3-year as to tuberculosis) period; and lay evidence should not merely contain conclusions based upon opinion but describe the material and relevant facts as to the veteran's disability observed during such period. Where there is affirmative evidence to show that a chronic disorder is due to an intercurrent disease or injury suffered between the date of separation from active service and the onset of the chronic disorder, service-connection under this section will not be accorded. When service-connection is established, subsequent manifestations of the same chronic disease, unless clearly attributable to intercurrent causes, at no matter how remote a date, are service-connected. This rule does not mean that any manifestation of joint pain, any abnormality of heart action or heart sounds, any urinary findings of casts, or any cough, in service, will permit service-connection of arthritis, disease of the heart, nephritis, or pulmonary disease, first shown as a clear-cut clinical entity at some later date. For the showing of chronic disease in service, there is required a combination of manifestations sufficient to identify the disease entity and sufficient observation to establish chronicity at the time, not merely isolated findings or diagnosis including the word "chronic." When the etiological identity is perfect, as leprosy, tuberculosis, syphilis, etc., there is no requirement of evidentiary showing of continuity. Continuity of symptomatology is required only where the condition noted during service is not in fact shown to be chronic or where the diagnosis of chronicity may be legitimately questioned. When the fact of chronicity during service is not, in the opinion of the adjudicating agency, adequately supported, then there may be reason to require some showing of continuity after discharge to support the claim. Hospital confirmation of such diagnoses made after discharge from service is not routinely required. However, the veteran may well be held at the regional office, hospital, or center for recheck on the following day, particularly for recheck of blood pressure, urinalysis, and further laboratory procedures, if in order. When hospitalization is required, it should not be longer than absolutely necessary for confirmation of the diagnosis.

* * * * * *

10. Section 3.104 is revised to read as follows:

§ 3.104 *Required period of service.* Compensation may be awarded for a dental condition under Part I, Veterans Regulation 1 (a) (38 U. S. C. ch. 12A), and Title III, Public Law 141, 73d Congress, where active service was performed on or after April 6, 1917, and prior to November 12, 1918, or prior to April 2, 1920, for persons who served with the United States military forces in Russia, or on or after November 12, 1918, and before July 2, 1921, where there was prior service between April 6, 1917, and November 11, 1918, or (under Veterans Regulation 1 (a) only) where active service was performed in the Spanish-American War, Boxer Rebellion, Philippine Insurrection, World War II, or Korean conflict, as defined by §§ 3.0 (a), (b) and (c), 3.1000 (a), 3.1001 (a), 3.1002 (a) and 3.1017. For the purposes of Veterans Regulation 1 (a), the veteran must have been discharged under conditions other than dishonorable, and under Public Law 141, 73d Congress, not dishonorably discharged, and the disability must have been incurred in or aggravated by active service during the defined periods and not due to willful misconduct. However, where incurrence of the disability is shown prior to the beginning date of the war concerned or Korean conflict or where the enlistment commenced subsequent to the termination thereof, service-connection may be established only in accordance with Part II, Veterans Regulation 1 (a).

(Sec. 200, 43 Stat. 615, as amended, sec. 5, 50 Stat. 661, Part I, Vet. Reg. 1 (a), as amended; 38 U. S. C. 424a, 471, ch. 12A)

11. In § 3.141, paragraph (b) is amended to read as follows:

§ 3.141 *Use of 1925 and 1945 Rating Schedules.* * * *

(b) Ratings under the Schedule of Disability Ratings, 1925, in effect April 1, 1946, will be continued in the absence of change in the physical or mental condition of the veteran: *Provided*, That if there is increase in the severity of the condition, the rating in effect on April 1, 1946, under the 1925 Schedule will not be reduced and that statutory awards and ratings under the World War Veterans' Act, 1924, as amended, reenacted by Public No. 141, 73d Congress, will be granted or continued. The change in physical or mental condition referred to above contemplates only a permanent or indefinite change as distinguished from a mere temporary change and does not include exacerbation of service-connected organic disease or injury covered by paragraph 1, Extension 2-A of the Schedule for Rating Disabilities, 1945 Edition. Accordingly, where the veteran's service-connected disability is the same when hospitalization is completed as it was when last rated under the Schedule of Disability Ratings, 1925, the rating and award in effect on March 31, 1946, is protected under section 2, Public Law 458, 79th Congress. Where, upon completion of hospitalization, due to an exacerbation of the veteran's service-connected disability, said disability is permanently greater but the evaluation provided by the 1945 Schedule is less than the prior evaluation under the 1925 Schedule, the former rating is likewise protected.

12. In § 3.148, paragraph (d) is amended, former paragraph (e) is redesignated paragraph (f), and a new paragraph (e) is added, so that the amended and redesignated material reads as follows:

§ 3.148 *Effective dates of evaluations, 1945 Schedule, in original ratings.* * * *

(d) When service-connection, World War II, is granted under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), the effective date of evaluation of disability will be determined as above outlined. When claim is filed more than a year from date of discharge or (where service began prior to January 1, 1947, and extended thereafter) July 25, 1947, 2 years as to multiple sclerosis, or 3 years as to tuberculosis, whichever is the earlier, notation will be made of the items of evidence showing the existence of the disease within the 1-year, 2-year, or 3-year periods or showing minimal, moderately advanced, or far advanced active pulmonary tuberculosis within the 42-month, 45-month, or 48-month periods, respectively.

(e) When service connection, Korean conflict, is granted under paragraph I (c), Part 1, Veterans Regulation 1 (a), as amended, the effective date of evaluation of disability will be determined as above outlined. When claim is filed more than a year from date of discharge or January 31, 1955, or 2 years as to multiple sclerosis, or 3 years as to tuberculosis, whichever is the earlier, notation will be made showing the existence of the disease within the 1-year, 2-year, or 3-year periods or showing minimal, moderately advanced, or far advanced active pulmonary tuberculosis within the 42-month, 45-month, or 48-month periods, respectively.

(f) Where a reopened claim under section 5, Public Law 339, 81st Congress, is filed within 1 year from the date of the veteran's separation from service, evaluation will be from the date following date of discharge or October 10, 1949, whichever is the later. If such claim is not filed within a year from date of separation from service, evaluation will be from the date of claim. For the period from October 10, 1949, to November 30, 1949, the rates of compensation will be those in effect prior to the enactment of Public Law 339, 81st Congress.

13. In § 3.245, the introduction and paragraph (a) are amended to read as follows:

§ 3.245 *Rates of pay for disability or death the result of training, hospitalization, or medical or surgical treatment under section 31, Public Law 141, 73d Congress, examination under section 12, Public Law 866, 76th Congress, and paragraph 4, Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A).* Where the disease, injury, death, or the aggravation of an existing disease or injury resulted from submitting to an examination under authority of any of the laws granting monetary or other benefits to World War veterans, or from training, hospitalization, or medical or surgical treatment awarded under any of the laws granting monetary or other benefits to World War veterans (World War I, World War II and Korean conflict), the compensation to be awarded will be determined as follows:

(a) *World War and Korean conflict service.* In claims of veterans with World War I or II or Korean conflict service as defined in Public Law 2, as amended, Public Law 141, 73d Congress, Public Law 344, 74th Congress, or Public Law 304, 75th Congress, or Public Law 239, 84th Congress (see § 3.0 (c)), and regulations and instructions issued pursuant thereto, the compensation to be awarded will be in accordance with the rates provided in the Veterans Regulation 1 series, Part I, and the Schedule for Rating Disabilities, 1945.

* * * * * *

14. In § 3.296, paragraph (c) is amended to read as follows:

§ 3.296 *Concurrent payment of benefits to same person.* * * *

(c) Under the laws administered by the Veterans Administration there is no bar against the receipt of disability compensation concurrently with retirement pay by an officer of the commissioned corps of the Public Health Service who was retired for any cause other than disability incurred while he is deemed to have been in the active military service. (See § 3.1 (e).) If any officer of the commissioned corps of the Public Health Service, who was retired at a time when said corps was not a military service, should be recalled to active duty at a time when the corps is a military service. His pay while on such active duty would be "active service" pay within the meaning of paragraph (a) of this section, and during such active service said officer would not be entitled to receive compensation or pension under the laws administered by the Veterans Administration. But, so long as such officer is not recalled to active duty, his right to receive compensation or pension would not be affected by the fact that the active commissioned corps had become a military service. Regarding concurrent payments of disability compensation, pension, or retired pay and pay from the service departments, see § 3.299.

* * * * * *

15. Section 3.299 is revised to read as follows:

§ 3.299 *Action where veteran returns to extended or other active duty status.* Compensation or pension may not be paid concurrently with the receipt of active service pay and where any person in receipt of compensation or pension returns to active duty status with any of the Armed Forces of the United States, or active service in the United States Coast Guard, benefits will be suspended, effective the day preceding reentrance, if known, or the date of last payment. In the latter instance, the correct date on which the veteran reentered active duty status will be ascertained and a corrected VA Form VB 8–521, Payment Notice (Stop—Suspend—Resume), or amended award then executed as of the correct date. Time spent by members of the ROTC in drills as a part of their activities as members of the corps is not active duty. On and after October 29, 1949, veterans who are Reserve members of the Armed Forces may waive or relinquish their pension, compensation, or retirement pay for periods of field training, instruction, other duty or drill. A waiver is not acceptable if it covers any period prior to October 29, 1949. However, a valid waiver may include prospective periods and contain a right of recoupment for the days which the reservist did not receive payment for Reserve duty training by reason of failure to report for duty. Official information showing the date upon which the veteran actually reentered and terminated active duty will be secured. Payments may be resumed the day following release from active duty, provided the person is otherwise entitled. The determination of service-connection upon which the award of benefits was originally made will not be disturbed. The resumption of payment of compensation as to amount will be at a rate commensurate with the degree of disability found to exist at the time of restoration of the award. Information will be obtained from the service department, and the claim will be adjudicated upon a basis including the pertinent facts in the most recent period of active service. If a disability is incurred or aggravated in the second period of service, the benefits payable on account thereof cannot be paid unless a claim therefor is filed. (See § 3.27.)

(Par. XIII, Vet. Reg. 10, as amended, sec. 610, 63 Stat. 1019; 38 U. S. C. ch. 12A)

16. In § 3.310, the introduction is amended to read as follows:

§ 3.310 *Apportionments authorized.* Disability pension, disability compensation (including additional compensation for dependents provided by Public Law 877, 80th Congress, as amended by sec. 4, Public Law 339, 81st Congress), emergency officers' retirement pay, and on and after October 17, 1940, service pension and pension for service prior to April 21, 1898, amounting to more than the monthly equivalent payable for 20-percent service-connected disability, will be apportioned according to the table provided in § 3.311, except where otherwise authorized or provided in this section.

* * * * * *

17. In § 3.312, paragraphs (e) and (g) are amended to read as follows:

§ 3.312 *Apportionment not authorized.* * * *

(e) Under § 3.310, where the amount payable is not in excess of the monetary equivalent payable for a 20-percent service-connected disability.

* * * * * *

(g) Of the additional amount authorized by the last paragraph of section 202 (3) or section 202 (5), World War Veterans' Act, 1924, as amended, or the additional amount payable under paragraph II (k), Part I, Veterans Regulation 1 (a), as amended, or the corresponding peacetime rate; or in those cases where an amount in excess of that provided for total disability is payable, of any amount in excess of the rate prescribed for total disability.

* * * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective October 19, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 201]

FEDERAL SEED ACT REGULATIONS

NOTICE OF ADDITIONAL HEARING ON PROPOSED AMENDMENTS

On May 27, 1955, there was published in the FEDERAL REGISTER (20 F. R. 3745) a notice of hearings and notice of rule making with respect to certain proposed amendments of the regulations under the Federal Seed Act.

It appears desirable to hold an additional hearing and to give further consideration to the proposed amendments of §§ 201.34 (d), (e), 201.36b, 201.22, and 201.31, referred to, respectively, in proposals 10, 11, 40, and 41, as set forth in said notice. A hearing for this purpose will be held on December 9, 1955, at 9:30 a. m. in Room 302, Federal Office Building, 912 Walnut Street, Kansas City, Missouri. Any interested person who wishes to present his views concerning the aforesaid proposed amendments of the regulations may do so at the hearing or by mailing a written statement of his views to the Seed Branch, Grain Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C. Consideration will be given to written statements received not later than January 31, 1956.

Mr. W. A. Davidson, Seed Branch, Grain Division, Agricultural Marketing Service, is designated as the presiding

officer and Mr. Stanley Rollin, Seed Branch, Grain Division, Agricultural Marketing Service, will serve as his alternate at the hearing.

Done at Washington, D. C., this 13th day of October 1955.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 6]

CIVIL AIRCRAFT LANDING REQUIREMENTS; PLACE OF LANDING; EXPENSES OF INSPECTION

NOTICE OF PROPOSED RULE MAKING

Section 6.2 (a), Customs Regulations (19 CFR 6.2 (a)), provides that, when permission is granted to land an aircraft elsewhere than at an international airport, the owner, operator, or person in charge of the aircraft shall pay the additional expenses, if any, incurred in inspecting the aircraft, passengers, employees, and merchandise, including baggage, carried therein, except that when such permission is granted to a scheduled airline to land aircraft operating on a schedule, no inspection charge shall be made except for overtime service performed by customs officers.

It is believed that, in connection with the granting of landing rights elsewhere than at an international airport, a scheduled airline operating aircraft on a schedule should have the same obligation to pay the additional expenses of inspection as do owners, operators, or persons in charge of aircraft not operating on a schedule.

In addition, to avoid misunderstanding, it is believed desirable to make it clear that suitable space and facilities for official customs purposes, as deemed necessary by the collector of customs, are to be furnished without cost to the Government where landing rights are granted either to scheduled or nonscheduled airlines. The furnishing of such space and facilities must be a condition precedent to the granting of permission to land elsewhere than at an international airport.

Therefore, notice is hereby given, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that it is proposed, under the authority contained in 49 U. S. C. 177 (b) and (c) and 19 U. S. C. 1644, to amend § 6.2 (a), supra, by deleting the last sentence thereof, and by inserting after the second sentence the following: "Permission to land at a place other than an international airport shall not be granted unless there are provided at such place of landing, without cost to the Government, suitable office and other space and any other facilities which may be required for official customs purposes, as determined by the collector of customs for the district in which the intended place of landing is located."

Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 20 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] RALPH KELLY, *Commissioner of Customs.*

Approved: October 11, 1955.

DAVID W. KENDALL, *Acting Secretary of the Treasury.*

FEDERAL TRADE COMMISSION

[16 CFR Part 302]

[File No. 205-4]

FLAMMABLE FABRICS ACT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given all interested parties that the Federal Trade Commission will on November 4, 1955, at 10:00 o'clock a. m., e. s. t., at its offices in the City of Washington, District of Columbia, give consideration to an amendment of Rule 7 (a) (2) and (3) of the Regulations under the Flammable Fabrics Act (§ 302.7 (a) (2) and (3)). These subsections deal with the class testing of plain surface textile fabrics weighing less than two ounces per square yard and certain raised surface textile fabrics.

Interested parties may participate by submitting in writing on or before such date their views, arguments or other pertinent data.

Such action is taken pursuant to the authority given the Federal Trade Commission under Section 5 (c) of the Flammable Fabrics Act (67 Stat. 111) "To prescribe such rules and regulations as may be necessary and proper for purposes of administration and enforcement of this Act".

1a. The matter to be considered is an amendment of § 302.7 (a) (2) (Rule 7 (a) (2) of the Regulations under the Flammable Fabrics Act) by striking out subdivisions (i) and (ii) of such section and by adding a new subdivision to read:

(i) (*a*) When, on the initial test of any plain surface textile fabric weighing less than two ounces per square yard, such fabric exhibits a burning time of 3½ seconds or more, such test may suffice for any fabric of the same fiber composition, construction and finish type. This class of fabric shall be tested at least once at intervals of not more than three months thereafter while in production.

(*b*) If, after four consecutive interval production tests have been made, none of such test results show the flame spread to have been less than 4½ seconds, no further tests of such class of fabric need be made.

b. Subdivisions (iii) and (iv) to be renumbered (ii) and (iii), respectively.

2. Section 302.7 (a) (3) (Rule 7 (a) (3)) to be amended by adding a new subdivision, to read:

(iii) When, on the initial test of any raised surface textile fabric which has a surface composed of looped yarns, such fabric exhibits a burning time in excess of 12 seconds, such test may suffice for any such fabric having the same looped yarns and of the same fiber composition, construction and finish type. An example of the type of fabric referred to is "terry cloth".

Issued: October 14, 1955.

By direction of the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Bureau of Customs

[342.5]

ITEMS IMPORTED FOR USE WITH TOY RUBBER BUILDING BLOCKS OR BRICKS, AND CONSTRUCTION SETS COMPOSED OF SUCH COMBINATIONS

NOTICE OF PROSPECTIVE CLASSIFICATION

OCTOBER 13, 1955.

It appears probable that a correct interpretation of paragraph 1513, Tariff Act of 1930, as modified, requires that such items as roofs, tiles, universal pins, and base plates, imported for use with toy rubber building blocks or bricks, and construction sets composed of such combinations, be classified under the provision for parts of toys, not specially provided for, with duty according to component material of chief value, or the provision for toys, not specially provided for, with duty at the rate of 35 percent ad valorem, respectively. Under an established and uniform practice such articles now are classified under the provision in that paragraph for building blocks or bricks valued 8 cents or more per pound with duty at the rate of 25 percent ad valorem.

Pursuant to section 16.10a (d) of the Customs Regulations notice is hereby given that the existing uniform practice of classifying such merchandise under paragraph 1513 is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of this merchandise which are submitted to the Bureau of Customs, Washington 25, D. C., in writing. To assure consideration, such communications must be received in the Bureau not later than 30 days from the date of publication of this notice. No hearings will be held.

[SEAL] RALPH KELLY, *Commissioner of Customs.*

SUGAR BEETS IN CALIFORNIA, SOUTHWESTERN ARIZONA, SOUTHERN OREGON, AND WESTERN NEVADA

NOTICE OF HEARING ON WAGES AND PRICES AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), and in accordance with the rules of practice and procedure applicable to wage and price proceedings (7 CFR 802.1 et seq.), notice is hereby given that a public hearing will be held as follows:

At Berkeley, California, in the Assembly Room in the basement of the Farm Credit Administration Building, 2180 Milvia Street, on November 10, 1955, at 10:00 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugar beets in California, southwestern Arizona, western Nevada, and southern Oregon, during the crop year 1956 on farms with respect to which applications for payments under the said act are made, and (2) pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1956 crop of sugar beets in California, southwestern Arizona, western Nevada, and southern Oregon, to be paid, under either purchase or toll agreements by producers who process sugar beets grown by other producers and who apply for payments under the said act.

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearing to express their views and present appropriate data in regard to the foregoing matters.

A. A. Greenwood and Ward S. Stevenson are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 14th day of October 1955.

[SEAL] THOS. H. ALLEN, *Acting Director, Sugar Division.*

CIVIL AERONAUTICS BOARD

[Docket No. 7384; Order No. E-9660]

MOHAWK AIRLINES, INC.

STATEMENT OF TENTATIVE FINDINGS AND CONCLUSIONS AND ORDER TO SHOW CAUSE[1]

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 14th day of October 1955.

In the matter of the application of Mohawk Airlines, Inc., under section 401 (e) (3) of the Civil Aeronautics Act of 1938, as amended, for a certificate of public convenience and necessity of unlimited duration for Route No. 94.

Mohawk Airlines, Inc. (Mohawk), on September 9, 1955, filed an application pursuant to section 401 (e) (3) of the Civil Aeronautics Act of 1938, as amended, (the act), requesting the Board to issue Mohawk a certificate of public convenience and necessity of unlimited duration for route No. 94 authorizing air transportation of persons, property and mail between certain named points.

Section 401 (e) (3) of the act (effective May 19, 1955), provides: "If any applicant who makes application for a certificate within one hundred and twenty days after the date of enactment of this paragraph shall show that, from January 1, 1953, to the date of its application, it or its predecessor in interest, was an air carrier furnishing, within the continental limits of the Unted States, local or feeder service consisting of the carriage of persons, property, and mail, under a temporary certificate of public convenience and necessity issued by the Civil Aeronautics Board, continuously operating as such (except as to interruptions of service over which the applicant or its predecessors in interest have no control) the Board, upon proof of such fact only, shall, unless the service rendered by such applicant during the period since its last certification has been inadequate and inefficient, issue a certificate or certificates of unlimited duration, authorizing such applicant to engage in air transportation between the terminal and intermediate points within the continental limits of the United States between which it, or its predecessor, so continuously operated between the date of enactment of this paragraph and the date of its application: *Provided*, That the Board in issuing the certificate is empowered to limit the duration of the certificate as to not over one-half of the intermediate points named therein, which points it finds have generated insufficient traffic to warrant a finding that the public convenience and necessity requires permanent certification at such time."

Mohawk alleges in its application that it is a citizen of the United States of America as defined by section 1 (13) of the act. Proof of this fact has been submitted by Mohawk in other certification proceedings and no information to the contrary has since come to the knowledge of the Board.

Mohawk further alleges in its application that it has continuously operated as an air carrier furnishing local or feeder air transportation of persons, property and mail within the continental limits of the United States during the period January 1, 1953, to the date of its application under a temporary certificate of public convenience and necessity for route No. 94 issued by the Board, except as to interruptions of service over which it had no control. The various schedules and reports required to be filed with the Board by local service carriers indicate that Mohawk has so continuously operated since January 1, 1953.

Section 401 (e) (3) of the act requires in effect that the Board find as a prerequisite to the granting of a certificate of unlimited duration to Mohawk that the service rendered by Mohawk during the period since its last certification has not been inadequate or inefficient. The carrier in its application for such certificate filed September 9, 1955, alleges its service rendered during the aforesaid period has been adequate and efficient. The Board during the said period has received no complaints from the public relating to the overall service provided by this carrier. The Board is possessed of no information from which it could find that, considered as a whole, the service provided by this carrier during the period from June 24, 1952, the date of Mohawk's last certificate for route No. 94, to the present has been inadequate or inefficient within the meaning of section 401 (e) (3) of the act.

Mohawk further alleges in its application that it has from the date of enactment of section 401 (e) (3) (May 19, 1955) to the date of its application, continuously served the following terminal and intermediate points:

[1] This statement does not necessarily represent the views of all Members of the Board with respect to all issues.

New York, N. Y.-Newark, N. J.	Niagara Falls, N. Y.
Binghamton-Endicott-Johnson City, N. Y.	Utica-Rome, N. Y.
Elmira-Corning, N. Y.	Watertown, N. Y.
Ithaca, N. Y.	Syracuse, N. Y.
Auburn-Geneva, N. Y.	Albany, N. Y.
Rochester, N. Y.	Pittsfield, Mass.
Buffalo, N. Y.	Springfield-Westfield, Mass.
	Worcester, Mass.
	Boston, Mass.
	Keene, N. H.
	White Plains, N. Y.

Section 401 (e) (3) provides in effect that all terminal points served by the local service carrier applicant during the period from May 19, 1955, to September 9, 1955, shall be certificated for a period of unlimited duration. The certificate we propose to issue to Mohawk (which is attached as Appendix A) accomplishes this.

Section 401 (e) (3) empowers the Board to limit the duration of the certificate as to not over one-half of the intermediate points named therein, which points the Board finds have generated insufficient traffic to warrant a finding that the public convenience and necessity require permanent certification. The Board has proposed an industry-wide traffic standard upon which to base a tentative conclusion as to whether a particular intermediate point should be permanently or temporarily certificated. A standard which can be applied on an industry-wide basis will assure that all the intermediate cities are equitably treated. The Board has concluded, on the basis of an analysis of the latest available traffic data, that an average of five or more passengers enplaned per day provides a reasonable basis for selection of those intermediate points to be permanently certificated at this time.

As indicated above, the recent amendment of the act provides for the certification for an unlimited duration of all terminal points and of at least one-half of the intermediate points named in the certificate. This means that in the future the applicant carrier will be providing services over permanently certificated segments. During the years of local service carrier experience, the Board, in consideration of the subsidized nature of the operation, has found that on-line intermediate points generating in the neighborhood of 300 passengers on and off monthly have borne a reasonable share of the expense incurred by the carrier in providing service to the intermediate point on existing flights. In the past, the Board has also found that local service carrier points generating in the neighborhood of five or more enplaned passengers per day have warranted recertification. This leads us to conclude that in the absence of a further showing, the five-passenger per day standard is a reasonable one for selecting those intermediate points to be permanently certificated.

The proposed certificate set forth below as Appendix A grants Mohawk permanent authority at those intermediate stations shown in Appendixes C, D and E[2] to have met this five-passenger per day standard and temporary authority at all other intermediate stations served by Mohawk during the period May 19, 1955, to September 9, 1955. Appendixes C and D set forth in tabular form, the average number of daily passengers enplaned at each Mohawk intermediate point for the calendar year 1954 and for the twelve month periods ended March 31, 1955, and June 30, 1955. The average number of passengers enplaned at intermediate points generating less than five passengers per day is set forth in Appendix E on a quarterly basis for the years 1952, 1953, 1954 and for the twelve month periods ended March 31, 1955, and June 30, 1955.

The Board believes that except for cities presenting special considerations warranting permanent certification, those intermediate points which have generated less than five enplaned passengers per day should be certificated for a temporary period of three years. Certification for this period will enable the Board to assess the future traffic development at these points and to consider at a later time whether or not they should be made permanent. These cities will be afforded an opportunity before the expiration of the temporary period to demonstrate their ability to generate a sufficient volume of traffic to warrant permanent certification or continuation of service for a further temporary period.

The Board further tentatively concludes that a point which has been authorized for service, has received service from the carrier, but which was not served during the statutory grandfather period because service had been temporarily suspended for economic reasons, is not eligible for certification pursuant to section 401 (e) (3) of the act. Such a point is ineligible because it was not served during the statutory grandfather period for economic reasons advanced and supported by the carrier.

Thus, the certificate which the Board proposes to issue to Mohawk in this proceeding will carry forward Mohawk's authority to serve Bradford, Pennsylvania, and Liberty-Monticello, New York, only for the term of its present temporary authority. The presently effective temporary suspensions of service at these points are being continued by the proposed supplementary order set forth below as Appendix B.

The Board further tentatively concludes that where since the last certificate issued to this carrier (1) the Board has authorized Mohawk by exemption, to provide service to additional points, or (2) the Board has authorized Mohawk, by exemption, to provide service between points named in such certificate on segments different from that designated in the certificate, the said points are eligible to be certificated pursuant to section 401 (e) (3) of the act as served by the carrier pursuant to such exemptions during the period from May 19, 1955, to September 9, 1955. The carrier's present temporary exemption authority to serve points not continuously served during the period May 19, 1955, to September 9, 1955, will be carried forward in the proposed supplementary order set forth below as Appendix B.

Thus, the Board proposes to require the carrier to show cause why Ithaca, New York, should not be certified as an alternate intermediate point to Syracuse, New York, on segment 4, why Keene, New Hampshire, should not be certificated on an alternate segment between Albany, New York, and Boston, Massachusetts, and why White Plains, New York, should not be certificated as an intermediate point on segment 2.

The Board further believes that the general terms and conditions set forth in the certificate of public convenience and necessity last issued by the Board to Mohawk may not be expanded in a certificate to be issued pursuant to section 401 (e) (3) of the act in such manner as to grant authority to said carrier in excess of that set forth in the certificate of public convenience and necessity last issued to this carrier.

The Board does not believe that authority granted to Mohawk pursuant to § 202.4 and Part 205 of the Economic Regulations of the Board or by temporary exemption, subsequent to the issuance of the last certificate of public convenience and necessity issued by the Board to said air carrier permitting on-segment changes in the service pattern should be incorporated in a certificate issued to Mohawk pursuant to section 401 (e) (3) of the act. In the interest of convenience and clarity the Board will restate the carrier's outstanding service pattern modifications in a single order, a draft of which is set forth below as Appendix B.

It is our intention to strictly limit this proceeding to a consideration of issues directly pertaining to the grant, pursuant to section 401 (e) (3) of the act, of permanent or temporary authority to serve points served by Mohawk during the period from May 19, 1955, to September 9, 1955. We believe the public interest requires expeditious disposition of the proceeding and are therefore adopting a procedure intended to shorten the proceeding while at the same time fully protecting the interests of all interested persons. We are requiring Mohawk to show cause why the Board should not issue an order making final the tentative findings and conclusions set forth in this order and issue a certificate of public convenience and necessity in the form set forth below as Appendix A. After allowing interested persons a reasonable period within which to submit objections to the Board's order, Mohawk's application and the order to show cause will be set for immediate hearing in Washington before a hearing examiner of the Board. Mohawk and all interested persons who desire to be heard in connection with this matter are hereby notified that they may file written objection to the Board's tentative findings and conclusions within 15 days from the date of this order. The hearing will be limited to consideration of the issues raised by such objections. Objections should be in the nature of exceptions, should be brief and concise, and should not contain argument or factual data which the objecting party intends to rely on at the hearing in support of its objections.

[2] Filed as part of original document.

It is also our intention to officially notice all reports, tariffs and schedules required to be filed with the Board by all air carriers, as well as all public Board reports based on these data,[3] so that these materials need not be specially compiled for the record in this proceeding.

On the basis of the foregoing considerations and the data set forth in Appendixes C, D, E and F,[2] which are hereby incorporated into this order and shall constitute part of the record in this proceeding, the Board finds that:

1. Mohawk is a citizen of the United States of America as defined by section 1 (13) of the act.

2. From January 1, 1953, to September 9, 1955, Mohawk was an air carrier providing within the continental limits of the United States, local or feeder service consisting of the carriage of persons, property and mail pursuant to a temporary certificate of public convenience and necessity issued by the Civil Aeronautics Board, continuously operating as such (except as to interruptions of service over which Mohawk had no control).

3. Mohawk has continuously served the following terminal and intermediate points during the period from May 19, 1955, to September 9, 1955:

New York, N. Y.-Newark, N. J.
Binghamton-Endicott-Johnson City, N. Y.
Elmira-Corning, N. Y.
Ithaca, N. Y.
Auburn-Geneva, N. Y.
Rochester, N. Y.
Buffalo, N. Y.
Niagara Falls, N. Y.
Utica-Rome, N. Y.
Watertown, N. Y.
Syracuse, N. Y.
Albany, N. Y.
Pittsfield, Mass.
Springfield-Westfield, Mass.
Worcester, Mass.
Boston, Mass.
Keene, N. H.
White Plains, N. Y.

4. The service rendered by Mohawk during the period from June 24, 1952, the date of its last certification, to the present has been adequate and efficient within the meaning of section 401 (e) (3) of the act.

5. The following intermediate points, which on the basis of the most recent available data have generated an average of five or more enplaned passengers per day, should be designated as points of unlimited duration:

(a) On Mohawk's segment 1, the intermediate points Binghamton-Endicott-Johnson City, Elmira-Corning, Ithaca, Auburn-Geneva, and Rochester, New York;

(b) On segment 2, the intermediate points White Plains and Utica-Rome, New York;

(c) On segment 3, the intermediate points Elmira-Corning and Ithaca, New York;

(d) On segment 4, the intermediate points Utica-Rome, Ithaca, Syracuse, Auburn-Geneva, and Rochester, New York;

(e) On segment 5, the intermediate points Springfield-Westfield and Worcester, Massachusetts.

6. On the basis of the most recent available data the following intermediate points have generated less than an average of five enplaned passengers per day, and therefore have generated insufficient traffic to warrant a finding that the public convenience and necessity requires permanent certification; but that certification of each of said points for a period of three years is warranted:

(a) On Mohawk's segment 5, the intermediate point Pittsfield, Massachusetts;

(b) On segment 6, the intermediate point Keene, New Hampshire.

7. The terminal point Bradford, Pennsylvania, and the point Liberty-Monticello, New York, are ineligible for certification pursuant to section 401 (e) (3) of the act since they were not served by Mohawk during the period May 19, 1955, to September 9, 1955, because service was temporarily suspended for reasons within the carrier's control. It is, however, appropriate to include all Mohawk's effective certificate authority in one document, so Mohawk's present temporary authority to serve Bradford, Pennsylvania, and Liberty-Monticello, New York, should be carried forward in the certificate to be issued in this proceeding: *Therefore it is ordered*, That:

1. Mohawk is directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and issue the proposed certificate of public convenience and necessity in the form set forth below as Appendix A, and further issue the proposed supplementary order in the form set forth below as Appendix B;

2. Mohawk and any other interested person having objection to the issuance of an order making final the tentative findings and conclusions stated herein, or to the issuance of the aforesaid proposed certificate and supplementary order, shall within 15 days from the date hereof, file written notice of objection with the Board;

3. On the expiration of the 15-day period allowed for the filing of objections, this proceeding shall be set for immediate hearing before an examiner of this Board. The hearing shall be limited to consideration of issues raised by the objections filed;

4. Copies of this order shall be served on Mohawk, the Mayors of Liberty-Monticello, New York, and Bradford, Pennsylvania, the Mayor of each city served by Mohawk during the period May 19, 1955, to September 9, 1955, and on every certificated air carrier serving a point served by Mohawk during that period;

5. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

APPENDIX A

CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY FOR LOCAL OR FEEDER SERVICE

Mohawk Airlines, Inc., is hereby authorized, subject to the provisions hereinafter set forth, the provisions of Title IV of the Civil Aeronautics Act of 1938, as amended, and the orders, rules and regulations issued thereunder, to engage in air transportation with respect to persons, property and mail, as follows:

1. Between the terminal point New York, N. Y.-Newark, N. J., the intermediate points Liberty-Monticello (to be served through one airport), Binghamton-Endicott-Johnson City, Elmira-Corning, Ithaca, Auburn-Geneva (to be served through one airport), and Rochester, N. Y., and the co-terminal points Buffalo and Niagara Falls, N. Y.;

2. Between the terminal point New York, N. Y.-Newark, N. J., the intermediate points White Plains, Liberty-Monticello (to be served through one airport), and Utica-Rome, N. Y., and the terminal point Watertown, N. Y.;

3. Between the terminal point Binghamton-Endicott-Johnson City, N. Y., the intermediate point Elmira-Corning, N. Y., and (a) beyond Elmira-Corning, N. Y., the terminal point Bradford, Pa., and (b) beyond Elmira-Corning, N. Y., the intermediate point Ithaca, N. Y., and the terminal point Syracuse, N. Y.;

4. Between the terminal point Albany, N. Y., the intermediate point Utica-Rome, the alternate intermediate points Ithaca and Syracuse, the intermediate points Auburn-Geneva (to be served through one airport), and Rochester, N. Y., and the co-terminal points Buffalo and Niagara Falls, N. Y.;

5. Between the terminal point Albany, N. Y., the intermediate points Pittsfield, Springfield-Westfield, and Worcester, Mass., and the terminal point Boston, Mass.;

6. Between the terminal point Albany, N. Y., the intermediate point Keene, New Hampshire, and the terminal point Boston, Mass.;

to be known as Route No. 94.

The service herein authorized is subject to the following terms, conditions and limitations:

(1) The holder shall render service to and from each of the points named herein, except as temporary suspensions of service may be authorized by the Board; and may begin or terminate, or begin and terminate, trips at points short of terminal points.

(2) The holder may continue to serve regularly any point named herein through the airport last regularly used by the holder to serve such point prior to the effective date of this certificate. Upon compliance with such procedure relating thereto as may be prescribed by the Board, the holder may regularly serve a point named herein through any airport convenient thereto.

(3) On each trip operated by the holder over all or part of one of the six numbered route segments in this certificate, the holder shall stop at each point named between the point of origin and point of termination of such trip on such segment, except a point or points with respect to which (1) the Board, pursuant to such procedure as the Board may from time to time prescribe, may by order relieve the holder from the requirements of such condition, (2) the holder is authorized by the Board to suspend service, or (3) the holder is unable to render service on such trip because of adverse weather conditions or other conditions which the holder could not reasonably have been expected to foresee or control.

(4) Notwithstanding the provisions of paragraph (3) hereof, the holder may render nonstop service between Binghamton-Endicott-Johnson City, on the one hand, and Ithaca, Utica-Rome, Albany, and New York-Newark, on the other hand.

(5) The holder shall not carry local traffic between New York, N. Y.-Newark, N. J., and White Plains, N. Y.

The exercise of the privileges granted by this certificate shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

[3] We will also officially notice the Origination-Destination Airline Traffic Surveys published by the Airline Finance and Accounting Conference from information compiled by the Board.

The services authorized by this certificate were originally established pursuant to a determination of policy by the Civil Aeronautics Board that in the discharge of its obligation to encourage and develop air transportation under the Civil Aeronautics Act, as amended, it is in the public interest to establish certain air carriers who will be primarily engaged in short-haul air transportation as distinguished from the service rendered by trunkline air carriers. In accepting this certificate the holder acknowledges and agrees that the primary purpose of the certificate is to authorize and require it to offer short-haul, local or feeder, air transportation service of the character described above.

This certificate shall be effective on ----------, 1955: *Provided, however,* That prior to the date on which the certificate would otherwise become effective the Board, either on its own initiative or upon the timely filing of a petition or petitions seeking reconsideration of the Board's order of ----------, 1955, (Order E-__) insofar as such order authorizes the issuance of this certificate may by order or orders extend such effective date from time to time.

The authorization to serve Bradford, Pa., and Liberty-Monticello, N. Y., shall continue in effect up to and including June 30, 1958. The authorization to serve Keene, N. H., and Pittsfield, Mass., shall continue in effect up to and including ----------.

In witness whereof, the Civil Aeronautics Board has caused this certificate to be executed by its Chairman, and the seal of the Board to be affixed hereto, attested by the Secretary of the Board, on the ---- day of ----------, 1955.

[SEAL] ROSS RIZLEY,
Chairman.

Attest:

----------,
Secretary.

APPENDIX B

PROPOSED DRAFT OF ORDER EXTENDING EFFECTIVE PERIOD OF TEMPORARY SERVICE AUTHORIZATIONS

The Board has by Order E-__, dated ------, 1955, granted a certificate of public convenience and necessity of unlimited duration to Mohawk Airlines, Inc. (Mohawk), authorizing Mohawk to engage in air transportation of persons, property and mail over route No. 94. In the past, Mohawk has been authorized to conduct operations differing in certain particulars from the authority stated in its temporary certificate of public convenience and necessity for route No. 94.

The term of effectiveness of some of these authorizations is unlimited, while others would expire sixty days after final determination by the Board in any proceeding involving renewal of route No. 94 or at the end of a stated period. The reasons for issuance of these temporary authorizations appear to be still applicable to Mohawk in its operation under the certificate of unlimited duration concurrently issued herewith. It, therefore, appears to the Board that it is in the public interest and consistent with the Act to continue these outstanding temporary authorizations in effect for an additional period of time. In extending these authorizations, it appears desirable to include all currently effective authorizations which are not included in or disposed of in the new certificate in one order which will become effective at the same time the new certificate of unlimited duration becomes effective.

Accordingly, the Board, acting pursuant to sections 205 (a) and 416 (b) of the Civil Aeronautics Act of 1938, as amended, and to § 202.4 and Part 205 of its Economic Regulations, finds:

1. That the enforcement of the provisions of section 401 (a) of the act and of Mohawk's certificate, insofar as it would otherwise prevent the operations hereinafter authorized, would be an undue burden upon Mohawk by reason of the limited extent of, or unusual circumstances affecting its operations and is not in the public interest;

2. That the enforcement of the condition in Mohawk's certificate which requires it on each flight over all or part of the several numbered route segments on route No. 94 to stop at each point named between the point of origin and the point of termination of such flight unless otherwise authorized by the Board, to the extent that it would prevent the service pattern hereinafter authorized, would prevent a service pattern which is in the public interest and which is consistent with Mohawk's performance of a local or feeder air transportation service and is not required by nor is it in the public interest;

3. That the temporary suspensions of service authorized hereinafter do not substantially change the character of the service for which the certificate of public convenience and necessity of unlimited duration is being granted to Mohawk and are otherwise in the public interest;

4. The authority granted by ordering paragraph 3 of Order E-6541, June 24, 1952, insofar as it authorized Mohawk to temporarily suspend service at Liberty-Monticello, New York, until adequate airport facilities are available at that point should and will be terminated because Mohawk's present temporary authority to suspend service at Liberty-Monticello granted by Order E-8608, September 3, 1954, is carried forward in this order.

5. The authority granted by Order E-6977, November 25, 1952, insofar as it authorized Mohawk to serve Ithaca, New York, as an alternate intermediate point to Syracuse, New York, on segment 4 of route No. 94 should and will be terminated because the point, Ithaca, is included as an alternate intermediate point to Syracuse on segment 4 of the certificate being issued to Mohawk concurrently with this order;

6. The authority granted by Orders E-8961, February 21, 1955, E-9046, March 28, 1955, and E-9528, August 29, 1955, insofar as it authorized service to White Plains, New York, over that portion of route No. 94 between Newark, New Jersey, and Buffalo, New York, via Utica-Rome, Syracuse, and Rochester, New York, provided that Mohawk shall not carry local traffic between Newark and White Plains should and will be terminated because this authority is being included in the certificate being issued to Mohawk concurrently with this order by naming White Plains as an intermediate point on segment 2. The authority granted by Order E-9528 insofar as it authorized service to White Plains as an intermediate point on segment 1 of route No. 94 should and will be continued.

7. The authority granted by Orders E-9120, April 21, 1955, and E-9533, August 21, 1955, insofar as it authorized service to Keene, New Hampshire, on a route segment alternate to Mohawk's existing segment between Boston, Massachusetts, and Albany, New York, should and will be terminated because Keene is a point on an alternate route segment between Boston and Albany in the certificate being issued to Mohawk concurrently with this order.

Accordingly, it is ordered, That:

1. Mohawk be and hereby is authorized temporarily to suspend service at Liberty-Monticello, New York, an intermediate point on segments 1 and 2 of route No. 94 (previously authorized by Order E-8608);

2. a. Mohawk be and hereby is authorized (1) to omit service at Auburn-Geneva on flights in excess of one daily round trip over each of the aforesaid segments 1 and 4 of route No. 94; (2) to omit service to Rochester on flights between Auburn-Geneva and Buffalo; to omit service to Syracuse on flights between Auburn-Geneva and Utica-Rome; and to omit service to two of the three points Ithaca, Binghamton-Endicott-Johnson City, or Elmira-Corning, on flights between Auburn-Geneva and New York;

b. Mohawk be and hereby is relieved of the necessity (1) of serving Auburn-Geneva, and Rochester on a flight originating in New York and serving the intermediate points of Binghamton-Endicott-Johnson City, Elmira-Corning and Ithaca; (2) of serving Binghamton-Endicott-Johnson City on flights serving Ithaca and the terminal point New York-Newark, and (3) of serving Binghamton-Endicott-Johnson City on flights serving Elmira-Corning and the terminal point New York-Newark; provided that with respect to parts 2 and 3 Mohawk offer a minimum of four daily round trips between Binghamton-Endicott-Johnson City and New York-Newark (previously authorized by Orders E-7839, E-8409 and E-8724);

3. Mohawk be and hereby is authorized to suspend service temporarily at Bradford, Pennsylvania, a terminal point beyond Elmira-Corning, New York, on segment 3 of route No. 94 (previously authorized by Order E-8268);

4. Mohawk be and hereby is temporarily exempted from the provisions of section 401 (a) of the act insofar as said provisions would otherwise prevent Mohawk from engaging in the air transportation of persons, property and mail to and from White Plains, N. Y., as an intermediate point on segment 1 of route No. 94 between New York, N. Y.-Newark, N. J., on the one hand, and the coterminal points Buffalo, N. Y., and Niagara Falls, N. Y., on the other, via the intermediate points on segment 1: *Provided,* That Mohawk shall not carry local traffic between New York-Newark and White Plains (previously authorized by Order E-9528);

5. a. Mohawk be and hereby is temporarily exempted from section 401 (a) of the act and the terms and conditions of its certificate of public convenience and necessity insofar as they would otherwise prevent Mohawk: (1) from operating between Utica-Rome, New York, and Boston, Massachusetts, via a minimum of two intermediate points, including Albany, and (2) from overflying Albany, New York, on a maximum of four flights daily between Utica-Rome and points east of Albany. This authority shall be effective for a period of one year from August 31, 1955 (previously authorized by ordering paragraphs 1 and 3 of Order E-9533);

b. Mohawk be and hereby is authorized to omit service at Pittsfield, an intermediate point on segment 5 of route No. 94 on flights in excess of one daily round trip over said segment, effective to April 28, 1956 (previously authorized by Order E-9125 and ordering paragraph 4 of order E-9533);

6. Mohawk be and hereby is temporarily exempted from the provisions of section 401 (a) of the act, insofar as said provisions would otherwise prevent Mohawk from engaging in the direct air transportation of persons, property and mail between the intermediate point Ithaca, New York, on segment 3 and the terminal point Albany, New York, on segment 4 of route No. 94: *Provided,* That all flights conducted between Buffalo or Rochester, New York, on the one hand, and Albany, New York, on the other, shall stop at a minimum of two intermediate points. This authority shall remain in effect for a period of two years from June 30, 1955 (previously authorized by Order E-9357);

7. Mohawk be and hereby is authorized to render flag-stop service on its route No. 94, by omitting the physical landing of its aircraft at any intermediate point scheduled to be served on a particular flight: *Provided,* That there are no persons, property or mail on the aircraft destined for such point and no such traffic available at such point for the flight at the scheduled time of departure: *Provided, further,* That the Board in its discretion may at any time disapprove the use of such authority with respect to service to any point on any flight or flights (previously authorized by Orders E-3921 and E-6139);

8. The authority previously granted to Mohawk by Orders E-3921 and E-6139 insofar as they pertain to Mohawk, ordering paragraph 3 of Order E-6541 insofar as it pertains to Liberty-Monticello, N. Y., E-8608, E-6977, E-7839, E-8409, E-8724, E-8268, E-8961, E-9046, E-9528, E-9120, E-9125, E-9533 and E-9357, shall be terminated on the date this order and the certificate of public convenience and necessity of unlimited duration for route No. 94 being issued to Mohawk concurrently with the issuance of this order become effective.

9. The change in service pattern, temporary suspension and temporary exemption authorizations granted herein shall become effective ----------, --------, concurrently with the effective date of the certificate issued to Mohawk in Docket No. 7384;

10. This order or any part thereof may be amended or revoked at any time in the discretion of the Board without hearing.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11407; FCC 55M-873]

LOUIS C. BENNETT

ORDER SCHEDULING HEARING

In the matter of Louis C. Bennett, New Smyrna Beach, Florida, suspension of restricted Radiotelephone Operator permit; Docket No. 11407.

It is ordered, This 11th day of October 1955, that James D. Cunningham, in lieu of William G. Butts, will preside at the hearing in the above-entitled matter which is hereby scheduled to commence at 10:00 a. m., October 25, 1955; *And, it is further ordered,* That the said hearing, which was originally scheduled to be held in Fort Myers, Florida, will be conducted at the offices of the Commission, Washington, D. C.

Released: October 13, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8466; Filed, Oct. 18, 1955; 8:50 a. m.]

[Docket No. 11517; FCC 55-1018]

BARRINGTON CO. (WEW)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR ORAL HEARING

In re application of The Barrington Company (WEW), St. Louis, Missouri, for construction permit to change Antenna, transmitter and studio locations; Docket No. 11517, File No. BP-10000.

1. The Commission has before it a petition filed on September 16, 1955, by the Belleville Broadcasting Co., Inc., licensee of Station WIBV, Belleville, Illinois (1260 kc, 1 kw, day) pursuant to section 309 (c) of the Communications Act of 1934, as amended, protesting the Commission's action of August 19, 1955, in granting without hearing the above-entitled application of The Barrington Company for a construction permit to change the antenna, transmitter and studio locations of Station WEW, St. Louis, Missouri (770 kc, 1 kw, day). The WEW antenna, transmitter and studio are currently located at 3642 Lindell Boulevard, St. Louis, Missouri. The protested authorization permits the relocation of the transmitter and antenna to a site approximately one mile northeast of East St. Louis, Illinois and approximately ten miles from Belleville, Illinois; and the studios to the De Soto Hotel, 11th and Locust, St. Louis, Missouri.

2. An assignment of license of Station WEW from The St. Louis University to The Barrington Company was granted on May 11, 1955, and consummated on June 1, 1955 (File No. BAL-2007). A condition contained in the sale agreement between the two parties provided that the station would be removed from the University grounds. The subject application was filed to carry out the terms of that agreement.

3. Protestant claims that it is a party in interest within the purview of section 309 (c) of the Communications Act of 1934, as amended, because, as the licensee of WIBV, Belleville, it will suffer economic injury from WEW's "signal saturation of the Belleville area" since the sale of time by WEW "will surely follow". Protestant alleges that the authorized transmitter location of WEW is "within ten miles from Belleville". In support of its protest, WIBV alleges that the Commission's action in granting the above-entitled application was in violation of its "Statement of Procedure to be Followed by the Commission in connection with Applications to Operate on Class I-A Channels".[1] This statement provides, in pertinent part, that "• • • the KOB application and all other applications for operation on either 770 kc or 1030 kc be put in the pending file until after a decision in the clear channel hearing. Any application which may be filed in the future for operation on either of these two frequencies will likewise be put in the pending files". The protestant claims that the Commission by the above-quoted statement imposed a "• • • freeze on all movements on 770 kilocycles • • •"; that "In face of the Commission's express policy, no new applicant could come before the Commission and request permission to construct a station on 770 kilocycles in Illinois"; that "• • • The Barrington Company should not be allowed to move an existing station from Missouri to Illinois by means of an application to change transmitter and studio location"; and that The Barrington Company was "fully cognizant" of the Commission's freeze policy on Class I channels when it entered into the agreement with The St. Louis University to move Station WEW from the University campus. In view of the foregoing, the protestant requests that the application of The Barrington Company be designated for hearing; that Station WIBV be made a party to the proceeding; and that the effectiveness of the Commission's action granting the application be stayed pending a decision on this petition. The protestant specifies no issues upon which it desires to present evidence at the hearing.

4. In view of the fact that the protestant is licensee of standard broadcast Station WIBV, Belleville, Illinois; that Belleville is approximately 19 miles from St. Louis and 10 miles from the authorized WEW transmitter and antenna site; that the protestant claims WEW will "achieve signal saturation" of the Belleville area; and that the protestant has alleged that it will be financially injured by the grant in question, we find the protestant to be a "party in interest" within the meaning of section 309 (c) of the Communications Act. T. E. Allen and Sons, Inc., 9 Pike and Fischer RR 197; Federal Communications Commission v. Sanders Brothers Radio Station, 309 U. S. 407 (9 Pike and Fischer RR 2008).

5. We find further that the facts, matters and things relied upon by the protestant have been specified with sufficient particularity to raise a question as to whether the grant of the WEW application was consistent with the Commission's Statement of August 9, 1946, and that a hearing on this question is warranted. Since the issue created involves an interpretation of the above Statement, an evidentiary hearing does not appear to be required. Accordingly, the hearing will take the form of oral argument before the Commission as hereinafter provided for. After such oral argument, if an evidentiary hearing appears necessary, it will be held as provided for below. With respect to the allegations that protestant should not be subjected to the competition which would result from the Commission's grant, protestant has advanced only conclusionary arguments relative thereto and if such allegations were intended to raise an issue for determination at a hearing, the petitioner has not sufficiently supported it with facts. Accordingly, no issue will be included with respect to the alleged unwarranted competition. Finally, although the protestant has not framed specific issues; we do not consider this defective since the petitioner has alleged facts on which issues may be drawn by the Commission. In re Application of T. E. Allen & Sons, Inc., supra.

6. In view of the foregoing: *It is ordered,* That, insofar as the subject protest requests reconsideration of the Commission's action of August 19, 1955, it is granted only to the extent provided for below; that pursuant to section 309 (c) of the Communications Act of 1934, as amended, effective immediately, the effective date of the grant of the above-entitled application is postponed pending a final determination by the Commission in the hearing described below; and that the above-entitled

[1] Public Release No. 96924, August 9, 1946; 1 Pike and Fischer RR 93: 905-906; 11 F. R. 12232.

application is designated for oral hearing at the offices of the Commission in Washington, D. C., on the following issue:

(a) To determine whether the Commission's action of August 19, 1955, granting the above-entitled application of The Barrington Company was consistent with its "Statement of Procedure to be Followed by the Commission in Connection with Applications to Operate on Class I–A Channels" issued on August 9, 1946.

(b) To determine, on the basis of the record of the above hearing, whether the protested grant should be set aside.

7. *It is further ordered*, That Belleville Broadcasting Co., Inc., licensee of Station WIBV, Belleville, Illinois, and the Chief, Broadcast Bureau are made parties to the above-ordered proceedings; and that

(a) The parties intending to participate in the hearing herein shall file their appearance not later than November 7, 1955.

(b) The hearing shall commence at 10 a. m. on November 14, 1955, and shall be held before the Commission en banc.

(c) The hearing shall consist of oral argument, upon the basis that the facts alleged in the protest are true, to determine the legal and policy considerations presented by the above issues.

(d) The parties shall have fifteen days after the hearing to file proposed findings of fact and conclusions of law, and briefs as desired.

(e) Upon completion of the oral hearing, the Commission will issue a decision on the above issues either dismissing the protest or designating it for evidentiary hearing before an Examiner.

Adopted: October 12, 1955.

Released: October 14, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

FEDERAL POWER COMMISSION

[Docket No. G–9468]

CITIES SERVICE GAS CO.

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEETS AND PROVIDING FOR INVESTIGATION AND HEARING

On September 22, 1955, Cities Service Gas Company (Cities Service) tendered for filing First Revised Sheets Nos. 4, 5, 7, 8, 9–A, 9–B, 10, 14 and 19 and Second Revised Sheets Nos. 12 and 16 to its FPC Gas Tariff, Second Revised Volume No. 1, and Second Revised Sheet No. 27 to its FPC Gas Tariff, Original Volume No. 2, proposed to become effective October 23, 1955.

Previously, March 22, 1954, Cities Service tendered for filing its FPC Gas Tariff, Second Revised Volume No. 1, to become effective April 23, 1954, and proposed, among other things, an estimated annual rate increase to its wholesale customers of $12,589,072 or about 44 percent, based on sales for the year 1953, as adjusted. By order issued April 22, 1954, in Docket No. G–2410, such increased rates (except Schedules I–1 and I–2 governing sales for resale for industrial use) were suspended until September 23, 1954, pending a hearing and decision as to the lawfulness thereof. The Commission by order issued October 22, 1954, upon motion of Cities Service permitted such suspended rates to become effective September 23, 1954, subject to refund of such portion thereof as the Commission may find to be not justified. The hearings in Docket No. G–2410 have not been concluded, nor has a decision therein been made.

The proposed revised tariff sheets tendered on September 22, 1955, would result in a further annual rate increase to Cities Service wholesale customers of about $3,963,000, or about 9.5 percent, over and above the previously increased rates now being collected, subject to refund, based on sales for the twelve-month period ending June 30, 1955. Furthermore, the aforementioned proposed revised tariff sheets present all of the issues now involved in the proceedings in Docket No. G–2410.

The State Corporation Commission of Kansas and a number of Cities Service's wholesale customers have protested against the newly proposed rates and charges, some urge suspension thereof pending a hearing and decision.

The increased rates and charges provided in the revised tariff sheets tendered for filing on September 22, 1955, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

It appears that First Revised Sheet No. 14 and Second Revised Sheet No. 16 of Cities Service FPC Gas Tariff, Second Revised Volume No. 1, will be applicable to sales for resale for industrial use only, and, therefore, are not subject to suspension.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in sections 4 and 5 of such Act, concerning the lawfulness of Cities Service FPC Gas Tariff, Second Revised Volume No. 1, and Original Volume No. 2 as proposed to be changed by the revised sheets tendered September 22, 1955; and that the aforesaid proposed revised sheets excepting First Revised Sheet No. 14 and Second Revised Sheet No. 16 of Cities Service FPC Gas Tariff, Second Revised Volume No. 1, be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in Sections 4, 5 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the proposed rates and charges contained in Cities Service's FPC Gas Tariff, Second Revised Volume No. 1, and Original Volume No. 2, as proposed to be changed by the aforesaid revised sheets tendered on September 22, 1955.

(B) Pending such hearing and decision thereon, Cities Service's First Revised Sheets Nos. 4, 5, 7, 8, 9–A, 9–B, 10 and 19 and Second Revised Sheet No. 12 to its FPC Gas Tariff, Second Revised Volume No. 1, and Second Revised Sheet No. 27 to its FPC Gas Tariff, Original Volume No. 2, be and the same are each hereby suspended and the use thereof deferred until March 23, 1956, and until such further time thereafter as they may be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

(C) Interested State commissioners may participate as provided by Sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's Rules of Practice and Procedure.

Adopted: October 12, 1955.

Issued: October 13, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 82]

MOTOR CARRIER APPLICATIONS

OCTOBER 14, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of motor carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 4966 Sub 6, filed October 7, 1955, JONES TRANSFER COMPANY, A Corporation, 927 Washington Street, Monroe, Mich. Applicant's attorney: Robert E. DesRoches, 572 Hollister Building Lansing 8, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the Ford Motor Company, Chassis Parts Division, Sterling Plant, located at the northeast intersection of Mound Road and Seventeen Mile Road, Sterling Township, Macomb County, Mich., as an off-route point in connection with carrier's regular route operations between (a) Detroit, Mich., and Howell, Mich., over U. S. Highways 10 and 16, (b) Detroit, Mich., and Plymouth, Mich., over U. S. Highways 10 and 12, (c) Detroit, Mich., and New Hudson, Mich., over Michigan Highway 153, and (d) Detroit, Mich., and Toledo, Ohio, over U. S. Highway 25. Applicant is authorized to conduct operations in Michigan and Ohio.

No. MC 20793 Sub 18, filed October 7, 1955, WAGNER TRUCKING CO., INC., Jobstown, N. J. Applicant's representative: G. Donald Bullock, Box 146, Wyncote, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Brick* (1) from Hazelton Township, Luzerne County, Pa., to points in New Jersey, and those in that part of New York on and east of U. S. Highway 9W and south of U. S. Highway 20, including New York, N. Y., and points on Long Island, N. Y.; (2) from points in Hillsboro Township, Somerset County, N. J., to points in Pennsylvania on and east of U. S. Highways 111 and 15. Applicant is authorized to conduct operations in New Jersey, New York, Pennsylvania, Maryland, Delaware, Virginia, the District of Columbia, Connecticut, Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, and Ohio.

No. MC 20995 Sub 3, filed October 3, 1955, DUMES TRUCKING COMPANY, INC., 1640 N. Sixth St., Vincennes, Ind. Applicant's representative: Thomas P. Scanlan, 111 W. Washington St., Chicago 2, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Empty returned skids*, (1) from Vincennes, Ind., to Chicago, Ill., Mt. Carmel, Ill., and Quincy, Ill., and Cincinnati, Ohio and Miamisburg, Ohio; (2) from St. Louis, Mo. and points in Ohio west and south of a line beginning at the Indiana-Ohio state line and extending along U. S. Highway 30 to Delphos, thence along U. S. Highway 30S to Kenton, thence along U. S. Highway 68 to Xenia, and thence along U. S. Highway 42 to Cincinnati, points in Kentucky on and west of U. S. Highway 25 and 25E, points in Michigan on and south of U. S. Highway 16, points in Illinois south and east of a line beginning at the Illinois-Wisconsin state line and extending along U. S. Highway 51 to El Paso, and thence along U. S. Highway 24 to the Mississippi River, and points in Tennessee, including points on the highways named, to Vincennes, Ind.

No. MC 21807 Sub 1, filed August 29, 1955, FRED A. GEORGE, 3 Maple Avenue, Barre, Vt. Applicant's attorney: Oliver C. Peterson, 1340 Melrose Ave. South, St. Petersburg, Fla. For authority to operate as a *common carrier*, transporting: *Granite*, serving off-route points in New York within 10 miles of U. S. Highways 4 and 9 between Fair Haven, Vt., and New York, N. Y., in connection with carrier's regular route operations between Montpelier, Vt., and Newark, N. J. Applicant is authorized to conduct operations in New Jersey, New York and Vermont.

No. MC 21807 Sub 2, filed August 29, 1955, FRED A. GEORGE, 3 Maple Avenue, Barre, Vt. Applicant's attorney: Oliver C. Peterson, 1340 Melrose Ave. South, St. Petersburg, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Malt beverages*, from Albany and Troy, N. Y., to Barre, South Barre, and Montpelier, Vt., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified, on return. Applicant is authorized to conduct regular route operations in New Jersey, New York and Vermont.

No. MC 30837 Sub 195, filed October 7, 1955, KENOSHA AUTO TRANSPORT CORPORATION, 4519—76th Street, Kenosha, Wis. Applicant's attorney: Louis E. Smith, Suite 503, 1800 N. Meridian Street, Indianapolis 2, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Pre-cut buildings* and *pre-fabricated buildings*, from Lodi, Calif., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, and Wyoming.

No. MC 30837 Sub 196, filed October 10, 1955, KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. Applicant's attorney: Louis E. Smith, Suite 503, 1800 N. Meridian Street, Indianapolis 2, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor trucks, truck tractors*, and *chassis*, in initial movements, by the driveaway and truckaway methods, from Minneapolis, Minn., to all points in the United States. Applicant is authorized to conduct operations throughout the United States.

No. MC 30897 Sub 6, filed October 5, 1955, CONSOLIDATED FREIGHT COMPANY, 100 Carroll St., Saginaw, Mich. Applicant's attorney: Rober E. DesRoches, 572 Hollister Bldg., Lansing 8, Mich. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the site of the Ford Motor Company, Chassis Parts Division, Sterling Plant, located at the northeast intersection of Mound Road and Seventeen Mile Road in Sterling Township, Macomb County, Mich., as an off-route point in connection with applicant's authorized regular route operations over U. S. Highway 12 between Chicago, Ill. and Detroit, Mich., U. S. Highways 24 and 25 between Toledo, Ohio and Detroit, Mich., U. S. Highway 16 between Detroit and Lansing, Mich., and U. S. Highway 10 between Detroit and Bay City, Mich. Applicant is authorized to conduct operations between Chicago, Ill. and Michigan points, between Toledo, Ohio, and Michigan points, and between points in Michigan.

No. MC 31462 Sub 5, filed September 19, 1955, ACME VAN LINES, INC., 912 Troost Ave., Kansas City 6, Mo. Applicant's attorney: Carll V. Kretsinger, Suit 1014–18 Temple Bldg., Kansas City 6, Mo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri and Kansas, on the one hand, and, on the other, points in Missouri, Kansas, Nebraska, Iowa, Illinois, Georgia, Ohio, Arkansas, Oklahoma, Colorado, and Indiana.

NOTE: Applicant states that the purpose of this application is to eliminate gate-way operation through Kansas City, Mo. Applicant is authorized to transport household goods between Kansas City, Mo., and points within 30 miles thereof, on the one hand, and, on the other, points in Kansas, Arkansas, Oklahoma, Colorado, Iowa, Illinois, and Indiana; between Omaha, Nebr. and points in Nebraska within 100 miles thereof on the one hand, and, on the other, points in Iowa, Illinois, Missouri, Georgia, and Ohio; and between points in Kansas, on the one hand, and, on the other, points in Missouri.

No. MC 37421 Sub 8, filed October 6, 1955, W. R. CANDLER, doing business as W. R. CANDLER TRANSFER COMPANY, 200 Clingman Ave., Asheville, N. C. Applicant's attorney: Robert R. Hendon, Investment Bldg., Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Asheville, N. C., on the one hand, and, on the other, points in Cherokee, Macon, Jackson, Buncombe, Rutherford, Burke, Clay, Transylvania, Haywood, Madison, Yancey, Mitchell, McDowell, Henderson, and Polk Counties, N. C. Applicant is authorized to conduct operations in North Carolina, New York, Maryland, Pennsylvania, New Jersey, Delaware, Illinois, Indiana, South Carolina, Virginia, Ohio, Tennessee, and the District of Columbia.

No. MC 58885 Sub 14, filed September 30, 1955, ATLANTA MOTOR LINES, INC., 1268 Carolina Street, N. E., Atlanta, Ga. Applicant's attorney: Allan Watkins, Grant Building, Atlanta 3, Ga. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Dahlonega, Ga., and Ranger,

N. C., from Dahlonega over U. S. Highway 19 to junction U. S. Highway 129 near Walnut, Ga., thence over combined U. S. Highways 19 and 129 to Ranger, and return over the same route, serving no intermediate points, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between (a) Atlanta, Ga., and Dahlonega, Ga., (b) Blue Ridge, Ga., and Murphy, N. C., and (c) Copperhill, Tenn., and Ranger, N. C., (2) between junction U. S. Highway 19 and Georgia Highway 52 near Dahlonega, Ga., and Ellijay, Ga., over Georgia Highway 52, serving no intermediate points, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between (a) Atlanta, Ga., and Dahlonega, Ga., (b) Atlanta, Ga., and Copperhill, Tenn., (c) the applied for route (3) herein, (3) between Dawsonville, Ga., and junction Georgia Highways 183 and 52, from Dawsonville over Georgia Highway 53 to junction Georgia Highway 183, thence over Georgia Highway 183 to junction Georgia Highway 52, and return over the same route, serving no intermediate points, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between (a) Atlanta, Ga., and Dahlonega, Ga., (b) Atlanta, Ga., and Copperhill, Tenn., and (c) the applied for route (2) herein, (4) between Dawsonville, Ga., and Tate, Ga., over Georgia Highway 53, and return over the same route, serving no intermediate points, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between Atlanta, Ga., and Dahlonega, Ga., and (b) Atlanta, Ga., and Copperhill, Tenn., (5) between Roswell, Ga., and Canton, Ga., over Georgia Highway 140, serving no intermediate points, as an alternate or connecting route, for operating convenience only, in connection with carrier's regular route operations between (a) Atlanta, Ga., and Dahlonega, Ga., and (b) Atlanta, Ga., and Copperhill, Tenn., and (6) between Cumming, Ga., and Canton, Ga., over Georgia Highway 20, serving all intermediate points. Applicant is authorized to conduct operations in Georgia, North Carolina and Tennessee.

No. MC 59077 Sub 28, filed October 3, 1955, INLAND MOTOR FREIGHT, A Corporation, 110 South Sheridan Street, Spokane, Wash. Applicant's attorney: Robert M. Brown, 902 Paulsen Building, Spokane 1, Wash. For authority to operate as a *common carrier*, serving Helix, Oreg., as an off-route point, transporting (1) *General commodities*, except those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, in connection with carrier's regular route operations between Walla Walla, Wash., and Milton, Oreg., over Oregon Highway 11, and (2) *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, in connection with carrier's regular route operations between Milton, Oreg., and Pendleton, Oreg., over Oregon Highway 11. Applicant is authorized to conduct regular route operations in Idaho, Oregon, and Washington, and irregular route operations in Idaho and Washington.

No. MC 59185 Sub 13, filed October 6, 1955, HIGHWAY EXPRESS, INC., 2416 West Superior Avenue, Cleveland, Ohio. Applicant's attorney: G. H. Dilla, 3350 Superior Ave., Cleveland 14, Ohio. For authority to operate as a common carrier, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the site of the McLouth Steel Co. plant at or near Gibraltar, Mich., as an off-route point in connection with carrier's authorized regular route operations between Detroit, Mich., and Cleveland, Ohio. Applicant is authorized to conduct operations in Ohio and Michigan.

No. MC 59185 Sub 14, HIGHWAY EXPRESS, INC., 2416 West Superior Avenue, Cleveland, Ohio. Applicant's attorney: G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the site of the Ford Motor Co. plant located in Sterling Township, Mich., as an off-route point in connection with carrier's authorized regular-route operations between Detroit, Mich., and Cleveland, Ohio. Applicant is authorized to conduct operations in Ohio and Michigan.

No. MC 61396 Sub 56, filed August 17, 1955, HERMAN BROS., INC., 1215 Farnam Street, P. O. Box 1237, Omaha, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum, petroleum products* and *crude oil*, in bulk, in tank vehicles, from Sugar Creek, Mo., and points within 15 miles thereof, to points in Kansas. Applicant is authorized to conduct operations in Iowa, Kansas, Missouri and Nebraska.

No. MC 61396 Sub 57, filed August 17, 1955, HERMAN BROS., INC., 1215 Farnam Street, P. O. Box 1237, Omaha, Nebr. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum, petroleum products* and *crude oil*, in bulk, in tank vehicles, from points in Nebraska to points in Kansas. Applicant is authorized to conduct operations in Iowa, Kansas, Missouri and Nebraska.

No. MC 63290 Sub 3, filed October 11, 1955, WILLIAM O. MATTOX, doing business as MATTOX CHEMICAL TRANSPORT, 418 Grove Street, Newark, N. J. Applicant's attorney: Bert Collins, 140 Cedar Street, New York 6, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Molasses*, in bulk, in tank vehicles, (1) from New York, N. Y., to Old Bridge, N. J., and (2) from Carteret, N. J. to Old Bridge, N. J., and Belleville, N. J., together with *Motion to Dismiss* the application and for determination whether certain operations are in interstate commerce. Applicant is authorized to conduct operations in New York, New Jersey, and Pennsylvania.

No. MC 63670 Sub 1, filed October 3, 1955, D. M. WESTON & COMPANY, INC., 228 Southwater Street, Providence, R. I. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, electrical equipment*, and *commodities* which because of size or weight require specialized handling or rigging, between points in Rhode Island, on the one hand, and, on the other, points in Massachusetts, Connecticut, New Hampshire, Vermont, New York, New Jersey and Pennsylvania. Applicant is authorized to conduct operations in Connecticut, Massachusetts and Rhode Island.

No. MC 65271 Sub 3, filed October 6, 1955, LOUIS MAX CO., INC., 192 Water Street, Brooklyn 1, N. Y. Applicant's attorneys: Brodsky and Lieberman, 1776 Broadway, New York 19, N. Y. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Musical instruments*, uncrated, from New York, N. Y., to points in New Jersey, Pennsylvania, Delaware, Maryland, New York, Connecticut, Rhode Island, Massachusetts, Vermont, and New Hampshire. Applicant is authorized to conduct operations in Connecticut, New Jersey, and New York.

No. MC 72257 Sub 20 (amended), filed September 12, 1955, J. V. BRASWELL, doing business as BRASWELL MOTOR FREIGHT LINES, 201 Reynolds Blvd., P. O. Box 1961, El Paso, Tex. Applicant's attorney: M. Ward Bailey, Continental Life Building, Fort Worth 2, Tex. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving California points located on and within a boundary line beginning at the Mt. Baldy, Calif., post office, and thence extending northwesterly along a straight line drawn through the junction of U. S. Highway 6 with U. S. Highway 99 to the Los Angeles-Ventura Counties line, thence southwesterly along a straight line through Malibu Beach, Calif. to the Pacific Ocean, thence easterly and southerly along the shoreline of the Pacific Ocean to Balboa, Calif., thence northeasterly along a straight line through Irvine and Silverado, Calif. to the Riverside-Orange Counties line, and thence northerly along a straight line through Ontario and Upland, Calif. to point of beginning at the Mt. Baldy Calif. post office, as intermediate and off-route points in connection with regular route operations to and from Los Angeles, Calif. over U. S. Highway 99, with no authority being sought to serve Los Angeles, Calif., points in the commercial zone thereof, and points in the Los Angeles Harbor Commercial Zone, and service as proposed under authority applied for herein to and from points located in the above-specified California territory outside of the Los Angeles, Calif. and Los Angeles Harbor, Calif. Commercial Zones to be restricted to pick up and delivery of shipments moving over carrier's routes to and from points located outside of California. Applicant is authorized to conduct operations in Arizona, California, New Mexico, and Texas.

No. MC 76266 Sub 92, filed September 29, 1955, MERCHANTS MOTOR FREIGHT, INC., 2625 Territorial Road, St. Paul, Minn. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, and those requiring special equipment, serving Middle Amana, Iowa, in connection with carrier's regular route operations between Des Moines, Iowa, and Moline, Iowa, over Iowa Highway 149. Applicant is authorized to conduct regular route operations in Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio and Wisconsin.

No. MC 78118 Sub 2, filed October 10, 1955, WILBUR H. JONES, 327 N. Reservoir St., Lancaster, Pa. Applicant's representative: Bernard N. Gingerich, Quarryville, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Petroleum products*, in containers, from points in Warren County, Pa., to Philadelphia, Pa., New York, N. Y. and points in Nassau, and Suffolk Counties, N. Y., and (2) on return movements *empty containers* used in transporting petroleum products. Applicant does not presently hold any authority from this Commission to transport the commodities named in this application.

NOTE: Applicant holds authority under Permits issued in Docket No. MC 15583 and Subs thereof to perform certain contract carrier operations; therefore, Section 210 matters may be involved in this proceeding.

No. MC 88380 Sub 9, Filed October 3, 1955, O. L. HARVEY, doing business as O. L. HARVEY TRUCK SERVICE, P. O. Box 192, Seminole, Okla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies* used in, or in connection with the discovery development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and; *machinery, materials, equipment*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between points in Shelby County, Tenn., on the one hand, and on the other, points in Arkansas, Kansas, Oklahoma, Texas, and points in Lea County, N. Mex. Applicant is authorized to conduct operations in Illinois, Missouri, Oklahoma, Indiana, Kentucky, Kansas, Texas, and New Mexico.

No. MC 89524 Sub 2, filed September 14, 1955, MORRIS W. HOLLEY, MARLOWE E. HOLLEY, AND CLARENCE A. HOLLEY, doing business as HOLLEY BROTHERS COMPANY, Kentland, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Crushed stone* and *agricultural limestone, sand* and *gravel*, from the Newton County Stone Company in Kentland, Ind., and Brandt's Gravel and Sand Company in Morocco, Ind., to points in Iroquois, Vermillion and Kankakee Counties, Ill. Applicant is authorized to conduct operations in Illinois and Indiana.

No. MC 95084 Sub 29, filed October 3, 1955, HOVE TRUCK LINE, Stanhope, Iowa. Applicant's attorney: William A. Landau, 1307 East Walnut Street, Des Moines 16, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Agricultural implements* and *parts thereof*, from Fort Dodge, Iowa, to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Massachusetts, Mississippi, Montana, New York, North Carolina, South Carolina, Tennessee, Virginia and West Virginia. Applicant is authorized to conduct regular route operations in Illinois and Iowa and irregular route operations in Iowa, Indiana, Wyoming, Kentucky, Colorado, Michigan, Missouri, North Dakota, Ohio, Pennsylvania, Illinois, Minnesota, Nebraska, South Dakota, Wisconsin and Kansas.

No. MC 95535 Sub 5, filed May 25, 1955, published in the June 8, 1955, issue on page 3973, amended October 10, 1955, CLEO CROUCH, doing business as PONY EXPRESS, 802 South 7th Street, St. Joseph, Mo. Applicant's attorney: Charles W. Singer, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Farm tractors*, from Rock Island, Ill., and Kansas City, Mo., to points in Oklahoma, and *returned shipments* on return. Applicant is authorized to conduct operations in Arkansas, Illinois, Iowa, Kansas, Missouri, and Nebraska.

No. MC 95540 Sub 266, filed October 7, 1955, WATKINS MOTOR LINES, INC., Cassidy Rd., P. O. Box 785, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Citrus products*, requiring refrigeration but not frozen, from points in Florida to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 97710 Sub 3, filed September 26, 1955, WALTER F. PETERS AND MYRON D. PETERS, doing business as PETERS TRUCK LINES, 905 South Main Street, Yreka, Calif. Applicant's attorney: Frank Loughran, 155 Sansome Street, San Francisco 4, Calif. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *OVER REGULAR ROUTES: General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between (1) South San Francisco, Calif., and the California-Oregon State line at points where intersected by U. S. Highways 99 and 97, over U. S. Highway 101 from South San Francisco to San Francisco, thence over the San Francisco Bay Bridge to Oakland, Calif., thence over city streets to Berkeley, Calif., thence over U. S. Highway 40 B. P. to junction U. S. Highway 40, thence over U. S. Highway 40 to junction U. S. Highway 99W at or near Davis, Calif., thence over U. S. Highway 99W to junction U. S. Highway 99 at or near Red Bluff, Calif., (also over U. S. Highway 40 from junction U. S. Highway 99W at or near Davis to Sacramento, Calif., thence over U. S. Highway 99E to junction U. S. Highway 99 at or near Red Bluff, Calif.), thence over U. S. Highway 99 to Weed, Calif., thence from Weed over U. S. Highway 99, and also over U. S. Highway 97 to the California-Oregon State line, and return over the same highways, serving the intermediate points of San Francisco, Oakland, Berkeley, Albany, El Cerrito, Richmond, San Pablo, Sacramento, North Sacramento, Piedmont, Emeryville, Redding, and those located on U. S. Highway 99 between Castella (including Castella) and the California-Oregon State line, and on U. S. Highway 97 between Weed (including Weed) and the California-Oregon State line and the off-route points of Alameda, San Leandro, Hayward, Mt. Hebron, Grenada, Hornbrook, Edgewood, Hilt, and all those in California located within one mile of that portion of U. S. Highway 97 extending between Weed and the California-Oregon State line; (2) Yreka, Calif., and Montague, Calif., over California Highway 82, serving all intermediate points; (3) Yreka, Calif., and Callahan, Calif., over California Highway 82 from Yreka to Etna, Calif., thence over unnumbered county road to Callahan, and return over the same route, serving all intermediate points; and (4) between the junction of U. S. Highway 97 and an unnumbered California Highway near the California-Oregon State line, over said unnumbered California Highway to junction California Highway 139 at or near Hatfield, Calif., thence over California Highway 139 to Newell, Calif., and return over the same route, serving all intermediate points, and all off-route points in California located within one mile of said route, and those within ten (10) miles of Tulelake, Calif.; said service being restricted against local service between points located south of Castella (not including Castella), and service at Redding restricted to traffic moving to and from points north of Castella (including Castella); and *OVER IRREGULAR ROUTES: Exempt commodities*, in seasonal operations, between points in Oregon, on the one hand, and, on the other, points in California.

NOTE: Applicant is conducting operations in interstate or foreign commerce in California under the second proviso of Section 206 (a) (1) of the Interstate Commerce Act, and this application is filed to obtain a Certificate of Public Convenience and Necessity, authorizing continuance of interstate opera-

tions conducted under the Second Proviso of Section 106 (a) (1) of the Interstate Commerce Act, supported by Intrastate certificate on file with this Commission. Applicant asserts that the public interest requires that both operations be continued. Therefore, this application is filed in order to assure that applicant can continue to serve in the area covered by the registered certificate and also continue to transport seasonally exempt commodities.

No. MC 103880 Sub 157, filed October 4, 1955, PRODUCERS TRANSPORT, INC., 530 Paw Paw Avenue, Benton Harbor, Mich. Applicant's attorney: Carl L. Steiner, 39 South LaSalle St., Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: *Wax and petrolatum*, in bulk, in tank vehicles, from points in the Chicago Commercial Zone, as defined by the Commission, to points in Michigan, Wisconsin, Illinois, Iowa, Minnesota, and Ohio.

No. MC 107698 Sub 18, filed September 19, 1955, BONANZA, INC., 818 Reserve Loan Life Bldg., Dallas, Tex. Applicant's attorney: W. T. Brunson, Leonhardt Bldg., Oklahoma City, Okla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Frozen eggs*, in metal containers, and *oleomargarine*, in cartons and containers, in refrigerated equipment, between Enid, Okla. and Wichita, Kans. on the one hand, and, on the other, points in Nevada. Applicant is authorized to conduct operations in Texas, Arizona, California, Colorado, and New Mexico.

No. MC 109430 Sub 5 (amended), filed July 20, 1955, HEAVY DUTY HAULERS, INC., 6720 Davison Road, Columbia, S. C. Applicant's attorney: Frank A. Graham, Jr., 406–7 Palmetto Building, Columbia 1, S. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Contractors equipment, heavy machinery, machinery parts and commodities other than heavy machinery*, the transportation of which because of their size or weight require the use of special equipment, and *parts of the aforesaid commodities* when moving in connection therewith, from Aurora, Chicago, Deerfield, Elgin, Joliet, Libertyville, Macomb, Melrose Park, Peoria, and Springfield, Ill., Elkhart, Evansville, and Indianapolis, Ind., Cedar Rapids, and Newton, Iowa, Benton Harbor, and Bay City, Mich., Minneapois, Minn., Rome, N. Y., Cleveland, Findlay, Galion, Lima, Lorain, and Marion, Ohio, Erie, Pa., and Green Bay, and Manitowoc, Wis., to points in South Carolina. Applicant is authorized to conduct operations in Florida, Georgia, North Carolina, and South Carolina.

No. MC 109677 Sub 8, October 6, 1955, FORT EDWARD EXPRESS CO., INC., Route 9, 1 Wing Street, Fort Edward, N. Y. Applicant's attorney: Samuel V. Gianniy, 25 Exchange Street, Rochester, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid resinous compounds*, in bulk, in tank vehicles, from Fort Edward, N. Y. to Winslow, Me.

No. MC 110821 Sub 3, filed September 23, 1955, THE GRIFFIN TRUCKING AND STORAGE COMPANY, P. O. Box 3377, Fayetteville, N. C. Applicant's attorney: York & Boyd, 201–204 Jefferson Bldg., Greensboro, N. C. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Meats, Meat Products, Meat By-Products, Dairy Products, and Articles distributed by Meat Packing Houses*, as defined by the Commission, from Fayetteville, N. C. to points in Edgecombe, Durham, Wake, Wayne, Johnston, Nash, New Hanover, Wilson and Columbus Counties, N. C. Applicant is authorized to conduct irregular route operations in the State of North Carolina.

No. MC 110940 Sub 8, filed September 12, 1955, ROBINS TRANSFER COMPANY, INC., P. O. Box 36 Powderly Station, Birmingham, Ala. Applicant's attorney: Bennett T. Waites, Jr., 531–34 Frank Nelson Building, Birmingham 3, Ala. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Coal tar products*, in bulk, in tank vehicles, from Alabama City, and Holt, Ala., to points in Georgia, Tennessee, Florida, Mississippi, Kentucky, Louisiana, North Carolina, South Carolina, and Arkansas, and (2) on return movements *empty containers or other such incidental facilities* (not specified) used in transporting the aforesaid commodities. Applicant is authorized to conduct operations in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

No. MC 110940 Sub 9, filed October 3, 1955, ROBINS TRANSFER COMPANY, INC., P. O. Box 36, Powderly Station, Birmingham, Ala. Applicant's attorney: Bennett T. Waites, Jr., 531–34 Frank Nelson Building, Birmingham 3, Ala. For authority to operate as a *common carrier*, over irregular routes, transporting: *Vegetable oils, edible oils, lards, lard compounds* and *lard substitutes*, in bulk, in tank vehicles, (1) between Chattanooga, Tenn., and Birmingham, Ala., (2) from Memphis, Tenn., to Birmingham, Ala., and (3) from Atlanta, Ga., to Birmingham, Ala., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application, on return.

No. MC 111198 Sub 3, filed October 7, 1955, CRANE AND TRUCK SERVICE INCORPORATED, 51st Street and A. V. Railroad, Pittsburgh, Pa. Applicant's attorney: Robert S. Young, Jr., Burwell Building, Knoxville, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Caustic soda*, in bulk, in tank vehicles, from Knoxville, Tenn., to Lowland, Tenn. Applicant is authorized to conduct operations in Ohio, Pennsylvania, and Tennessee.

No. MC 111981 Sub 1 (amended), filed August 22, 1955, ROBIDEAU'S EXPRESS, INC., 30 East Oregon Ave., Philadelphia, Pa. Applicant's attorney: Louis F. Floge, 1719 Packard Building, Philadelphia 2, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: (A) *Frozen food, processed food*, and *food in liquid form*, from Philadelphia, Pa., including all points in the commercial zone thereof, to retail stores, retail establishments, schools, restaurants, hotels, institutions and consumers located (1) in Pennsylvania east and south of a line beginning at the Pennsylvania-Maryland State line where intersected by U. S. Highway 222, and thence extending along U. S. Highway 222 to Reading, Pa., thence along U. S. Highway 122 to Hamburg, Pa., and thence along U. S. Highway 22 to the Delaware River at Easton, Pa., (2) in those portions of the commercial zones of the cities of Lancaster, Reading, Allentown, and Easton, Pa. which are located outside of the area specified under (1) above, and (3) in Delaware on and north of a line beginning at New Castle, Del., and thence extending along U. S. Highway 40 to the Delaware-Maryland State line, and (B) on return movements (1) *returned shipments* of the aforesaid commodities, and (2) *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities. Applicant is authorized to conduct operations in Delaware, New Jersey, and Pennsylvania.

No. MC 112497 Sub 48, filed October 10, 1955, HEARIN TANK LINES, INC., 6440 Rawlins Street, P. O. Box 3096, Istrouma Branch, Baton Rouge, La. For authority to operate as a *common carrier*, over irregular routes, transporting: *Crude petroleum oil*, in bulk, in tank vehicles, from an oil field located approximately three (3) miles northwest of Citronelle, Ala., to Blakely Island, Mobile County, Ala. Applicant is authorized to conduct operations in Alabama, Florida, Georgia, Louisiana, and Mississippi.

No. MC 112617 Sub 14, filed September 19, 1955, LIQUID TRANSPORTERS, INC., P. O. Box 35, Cherokee Station, Louisville 5, Ky. For authority to operate as a *common carrier*, over irregular routes, transporting: *Chemicals* and *petroleum products*, in bulk, in tank vehicles, between Doe Run, Ky., on the one hand, and, on the other, points in the Louisville, Ky., Commercial Zone, as defined by the Commission. Applicant is authorized to conduct operations in Alabama, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Mississippi, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia.

NOTE: Applicant states that the purpose of this application is to render service between points in the Louisville, Ky., Commercial Zone and Doe Run, Ky., via Indiana, via use of the Ferry for operating convenience. Applicant states further that the alternate route for use in Kentucky is necessary due to the fact that the Louisville Commercial Zone extends into Indiana including the cities of Albany, Jeffersonville, and Clarksville, Ind., from which deliveries made to Doe Run via Kentucky route would be interstate. The need for a Kentucky route is further illustrated by the fact that during a recent flood of the Ohio River, Morvin Ferry was shut down for a considerable period of time due to inability to make landings on either side of the River.

No. MC 113832 Sub 6, filed October 10, 1955, SCHWERMAN TRUCKING CO., A Corporation, 620 South 29th Street, Milwaukee, Wis. Applicant's attorney: Adolph E. Solie, 715 First National Bank Building, Madison 3, Wis. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Fly ash*, in bulk, in tank vehicles, from points in the Chicago, Ill., Commercial Zone, as defined by the Commission, to points in Wisconsin located on, east and south of a line beginning at the Illinois-Wisconsin State line at Wisconsin Highway 23 and extending along Wisconsin Highway 23 to junction U. S. Highway 51, thence along U. S. Highway 51 to junction Wisconsin Highway 54, and thence along Wisconsin Highway 54 to Lake Michigan.

No. MC 113879 Sub 4, filed October 3, 1955, EUGENE C. FISCHER, doing business as FISCHER TRANSPORTATION COMPANY, 520—1st Avenue, S. E., Watertown, S. Dak. Applicant's attorney: H. Lauren Lewis, Morrell Building No. 50, P. O. Box 747, Sioux Falls, S. Dak. For authority to operate as a *common carrier*, over irregular routes, transporting: *Salt*, from Kanopolis, Kans., and points within ten (10) miles thereof, to points in North Dakota, South Dakota, and Montana. Applicant is authorized to conduct operations in Kansas and Montana.

No. MC 113919 Sub 3, filed July 22, 1955, ELMER VANT HUL, Sioux Center, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Building, Des Moines 9, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fly spray* and *mange oil*, in cans and drums, *empty bags* and *sacks* (paper, cloth and burlap), and *advertising material* used solely in connection with the sale and distribution of animal and poultry feed and fly spray and mange oil, from Burlington, Wis., to points in South Dakota.

No. MC 113997 Sub 1, filed October 5, 1955, DOMENIC MARCHI, 508 N. Stephenson Avenue, Iron Mountain, Mich. Applicant's attorney: Michael D. O'Hara, Spies Building, Menominee, Mich. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Malt beverages*, from (1) Milwaukee, Wis., to Escanaba, Mich.; (2) Minneapolis, Minn., to Escanaba, Mich.; and (3) Duluth, Minn., to Iron Mountain, Mich.; and *empty malt beverage containers*, from the above destination points to the above origin points. Applicant is authorized to conduct operations in Michigan and Wisconsin.

No. MC 115162 Sub 5, filed October 5, 1955, WALTER POOLE, Evergreen, Ala. For authority to operate as a *common carrier*, over irregular routes, transporting: *Lumber, poles, and piling*, between points in Alabama, on and south of U. S. Highway 80 on the one hand, and, on the other, points in Florida, Mississippi, Georgia, Louisiana, Tennessee, Kentucky and Indiana.

No. MC 115223 Sub 1, filed October 7, 1955, J. W. JACKS, doing business as ARKANSAS - FLORIDA FREIGHT LINE, Route No. 1, Box 400, Brinkley, Ark. Applicant's attorney: Ed. E. Ashbaugh, 902 Wallace Building, Little Rock, Ark. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Rice* and *Rice byproducts*, in bags, boxes, or in barrels, from points in Arkansas, Craighead, Cross, Lonoke and Poinsett Counties, Ark., to points in Florida. Applicant will traverse the States of Alabama, Georgia, Mississippi, Louisiana and Tennessee for operating convenience only.

No. MC 115367 Sub 1, filed October 3, 1955, LEO P. TRUDEAU, R. F. D. 1, Keeseville, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Rough lumber*, (green and dried), from Keeseville, N. Y., and points within 25 miles thereof, to the International Boundary line between the United States and Canada at Champlain, N. Y.

NOTE: Applicant states the authority requested herein covers the transportation of rough lumber which is loaded directly from Mill sites located in mountainous regions, and said sites frequently change location.

No. MC 115502 Sub 1, filed October 10, 1955, LEE COMER, 709 E. Eighth St., Metropolis, Ill. Applicant's representative: C. W. Craig, Citizens Bank & Trust Co. Bldg., Paducah, Ky. For authority to operate as a *contract carrier*, over irregular routes, transporting: (1) *Untreated wooden ties* and *lumber*, from points in Henry, Houston, Perry, and Stewart Counties, Tenn., and points in Trigg, Calloway, Livingston, Marshall, and McCracken Counties, Ky., to points in Massac County, Ill., except that no authority is hereby sought for operations from points in Perry County, Tenn., to Metropolis, Ill., and points within one (1) mile of Metropolis; and (2) *treated wooden ties, lumber*, and *poles*, from Metropolis, Ill., to points in Christian, Muhlenbert, and Hopkins Counties, Ky.

No. MC 115528, filed August 18, 1955, C. E. THOMERSON, doing business as THOMERSON MILLING CO., 205 North Green Street, Glasgow, Ky. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Barren, County, Ky., on the one hand, and, on the other, points in Kentucky, Tennessee, Alabama, Georgia, Florida, Illinois, Indiana and Michigan.

No. MC 115599, filed October 3, 1955, ROBERT C. BUTTERFIELD and ELIZABETH K. BUTTERFIELD, R. D. #1, Georgetown, Pa. Applicant's attorney: Henry M. Wick, 1211 Berger Bldg., Pittsburgh 19, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Asphalt roofing, asbestos siding, insulated siding, nails*, and *asphalt products*, in cakes and containers, from (Chester, W. Va., to points in Pennsylvania, Ohio, New York, Maryland, Kentucky, Michigan, New Jersey, Illinois and Virginia, and *returned shipments* of the above-named commodities, from points in the destination states to Chester, W. Va.; *agricultural lime*, in bags, from New Castle, Pa., to Chester, W. Va.; *asphalt filler*, from Ford City, Pa., to Chester, W. Va.; *asphalt specialties*, in containers, and *nails*, from Cleveland, Ohio to Chester, W. Va.; *empty cardboard cartons*, from Pittsburgh, Pa., and Monroe, Mich., to Chester, W. Va.; *asbestos siding*, from Millington, N. J., to Chester, W. Va.; *roofing felt*, from Erie, Pa., and Miamisburg, Ohio, to Chester, W. Va.; *roofing granules* and *asphalt filler*, from Darlington and Delta, Pa., to Chester, W. Va.; and *saturated felt siding*, from Chicago, Ill., to Chester, W. Va., on return movements.

No. MC 115600, filed October 3, 1955, GEORGIA TRANSPORTERS, INC., 1555 Marietta Road, Atlanta, Ga. Applicant's attorney: Allan Watkins, Grant Bldg., Atlanta 3, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Georgia to points in Alabama, North Carolina, South Carolina, Tennessee, and Georgia.

No. MC 115603, filed October 3, 1955, E. E. TURNER, JACK TURNER, and JACK E. TURNER, doing business as TURNER BROS. TRUCKING COMPANY, 620 So. Main St., Elk City, Okla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and; *machinery, materials, equipment* and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between all points in the following counties: Sedgwick, Phillips, Yuma, Kit Carson, Cheyenne, Lincoln; Washington, Morgan, Logan, Weld, Adams, Arapahoe, Elbert, El Paso, Pueblo, Fremont, Douglas, Jefferson, Boulder, Larimer, and Denver Counties, Colo.; Cheyenne and Sherman Counties, Kans.; Dundy, Chase, Perkins, Keith, Deuel, Garden Sheridan, Box Butte, Sioux, Dawes, Scotts Bluff, Morrill, Banner, Kimball, and Cheyenne Counties, Nebr.; Laramie, Goshen, and Platte Counties, Wyo.

No. MC 115605, filed October 5, 1955, B. H. & M. LINES, INC., Upper Broad Avenue, Binghamton, N. Y. Applicant's attorney: Hinman, Howard & Kattell, Binghamton, N. Y. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Brick* and *clay products*, from Binghamton, Horseheads, and Town of Schaghticoke, N. Y., and Lyndhurst, N. J., to points in New Jersey, New York, Pennsylvania, Vermont, Massachusetts, Connecticut, New Hampshire and Rhode Island, and *returned shipments* of the above-named commodities on return.

No. MC 115609, filed October 7, 1955, BLOTNER TRAILER SALES, INC., Route 2, P. O. Box 62, Bangor, Maine. Applicant's attorney: Saul M. Schwartzbach, 1109 Woodward Building, Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *House trailers and contents thereof*, in secondary movements, in truckaway service, between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in the United States, including the District of Columbia.

No. MC 115611, filed October 7, 1955, DOMINICK E. PETRILLO, 364 Cherry Street, Meadville, Pa. Applicant's attorney: George X. Simonetta, 292

Cherry St., Meadville, Pa. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Malt beverages* from Cleveland, Ohio and Milwaukee, Wis. to Meadville, Pa., and from Buffalo, N. Y., to Meadville, Pa., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application on return.

APPLICATIONS OF MOTOR CARRIERS OF PASSENGERS

No. MC 668 Sub 57, filed October 3, 1955, INTER-CITY TRANSPORTATION CO., INC., 733 Madison Ave., Paterson, N. J. Applicant's representative: Edward F. Bowes, 1060 Broad St., Newark 2, N. J. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express* and *newspapers*, in the same vehicle with passengers, between the junction of Godwin Avenue and Paterson Avenue, in the Borough of Midland Park, N. J., and the junction of Oakland Avenue and East Oakland Avenue, in the Borough of Oakland, N. J., over Godwin Avenue from junction Paterson Avenue to junction Franklin Avenue, in the Township of Wyckoff, in the Borough of Franklin Lakes, N. J., thence over Franklin Avenue to junction Belmont Avenue, in the Borough of Oakland, N. J., thence over Belmont Avenue to junction U. S. Highway 202, thence over U. S. Highway 202 (also known as Oakland Avenue) to junction East Oakland Avenue, and return over the same route, serving all intermediate points. Simultaneously with grant of instantly applied for authority the applicant also requests that the restriction applicable against operations presently being conducted under authority from this Commission in Certificate issued on August 31, 1949 in Docket No. MC 668 Sub 46 be amended to read "operations over the above specified route shall be conducted only in conjunction with the service performed over said carrier's presently authorized regular route west and north of the intersection of Passaic Street and New Jersey Highway 17, Rochelle Park, N. J., serving points on said carrier's presently authorized regular route only on Saddle River Road in Fairlawn, N. J., and points in Glen Rock, N. J., Midland Park, N. J., and Oakland, N. J., and that portion of Ridgewood, west of Hope Street and North Maple Avenue, not including North Maple Avenue" thereby allowing said previously authorized operations to be conducted in conjunction with the operations proposed under the authority now being applied for in this application. Applicant is authorized to conduct operations in New Jersey, and New York.

No. MC 1501 Sub 109, filed October 6, 1955, THE GREYHOUND CORPORATION, 2600 Board of Trade Building, Chicago 4, Ill. Applicant's attorney: Jack R. Turney, Jr., 2001 Massachusetts Avenue, NW., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *Passengers and their baggage*, and *express*, *newspapers* and *mail* in the same vehicle with passengers, between Franklinton, La., and Covington, La., over Louisiana Highway 34, serving all intermediate points. Applicant is authorized to conduct operations throughout the United States.

No. MC 1504 Sub 126, filed October 3, 1955, ATLANTIC GREYHOUND CORPORATION, 1100 Kanawha Valley Bldg., Charleston, W. Va. Applicant's attorney: L. C. Major, Jr., 2001 Massachusetts Ave., N. W., Washington, D. C. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers, express, mail, newspapers, and baggage* of passengers in the same vehicle with passengers, between junction U. S. Highway 21 and Broad River Bridge Road, near Burton, S. C., and junction of South Carolina Highway 170 and U. S. Highway 17 south of Hardeeville, S. C., from junction U. S. Highway 21 and Broad River Bridge Road, near Burton, S. C., over Broad River Bridge Road to Broad River Bridge, thence over Broad River Bridge to South Carolina Secondary Highway 27, thence over South Carolina Secondary Highway 27 to South Carolina Secondary Highway 18, thence over South Carolina Secondary Highway 18 to South Carolina Highway 170, near Jasper-Beaufort County Line, thence over South Carolina Highway 170 to junction U. S. Highway 17 south of Hardeeville, S. C., and return over the same route, serving all intermediate points, Applicant is authorized to conduct operations in Ohio, West Virginia, Virginia, Pennsylvania, South Carolina, North Carolina, Tennessee, Georgia, Florida, and the District of Columbia.

No. MC 115559, filed September 9, 1955, CROSBY TRANSPORTATION COMPANY LIMITED, 908 Albert Street, Regina, Saskatchewan, Canada. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, between the International boundary of the United States and Canada at Port of Raymond, Mont., and Plentywood, Mont., from Raymond over Montana Highway 16 to Plentywood, and return over the same route, serving no intermediate points, with closed-door operation between the border and Plentywood.

APPLICATION FOR BROKERAGE LICENSES

No. MC 12632, filed August 18, 1955, EARL JOSEPH WILSON, 221 Wright Street, St. Louis, Mo. Applicant's attorney: James D. Cullen, 506 Oliver Street, St. Louis 1, Mo. For a license as *broker* (BMC 4) in arranging for the transportation of: (1) *Canteloupes*, from St. Louis and Chesterfield, Mo., to Decatur and Chicago, Ill., and Cleveland, Ohio; (2) *carrots*, from Chesterfield, Mo., to Chicago, Ill.; (3) *vegetables*, (a) from Helwig, Mo., to Chicago, Ill. and (b) from Overland, Mo., to Chicago, Ill., Atlanta, Ga., Memphis, Tenn., New Orleans, La., Birmingham and Mobile, Ala. and Houston, Tex., and points in Minnesota, North Dakota and Colorado; (4) *fresh poultry*, from St. Louis, Mo., to Chicago, Ill.; (5) *fresh eggs*, from points in Iowa and Minnesota to points in Tennessee, Alabama, Georgia, Mississippi, Texas and Louisiana; (6) *frozen meat* and *frozen eggs*, from St. Louis, Mo., to New York, N. Y., Philadelphia, Pa., Boston, Mass., Baltimore, Md., and Washington, D. C.; (7) *frozen meat* and *fresh meat*, from St. Louis, Mo., to points in Mississippi, Alabama, Florida and Georgia; and (8) *frozen eggs*, from St. Louis, Mo., to points in New York, Pennsylvania and Maryland.

NOTE: Above-specified commodities proposed to be transported in truckload lot only.

No. MC 12635, filed October 6, 1955, D. T. O'NEAL, doing business as O'NEAL TRAVEL SERVICE, 812 Olive Street, 286 Arcade Bldg., St. Louis 1, Mo. For a license (BMC 5) authorizing operations as a *broker* at St. Louis, Mo., in arranging for transportation in interstate or foreign commerce, by motor vehicle and by rail service and joint motor vehicle and rail service, of *groups of passengers*, in charter service, in round-trip all expense tours, between St. Louis, Mo., on the one hand, and, on the other points in Illinois, Indiana and Missouri.

NOTE: Applicant states these tours are one-day group tours for schools, scouts, clubs and other organizations and most of said tours are arranged for schools in the St. Louis, Mo., area.

CORRECTIONS

Docket No. MC 228 Sub 17, published on page 7631, issue of Wednesday October 12, 1955. That portion of the name of applicant reading: "doing business as SHORT LINE SYSTEM" should be deleted, the correct corporate name of applicant as reflected in the Commission's records is: "HUDSON TRANSIT LINES, INC."

No. MC 2727 Sub 2, T. RUSSELL SPENCER, doing business as SPENCER BROTHERS, 739 North 2nd Street, Lawrence, Kans., published page 7403, issue of October 5, 1955. The subsequent filing docket number assigned thereto MC 2727 Sub 2 (two) was in error, the correct docket number is MC 2727 Sub 6 (six).

APPLICATIONS UNDER SECTION 5 AND 210a (b)

No. MC–F 6011, published in the July 20, 1955, issue of the FEDERAL REGISTER on page 5217. Supplemental application filed October 10, 1955, to show joinder of RUAN TRANSPORT CORPORATION as a person in control of vendee.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3319]

MISSISSIPPI VALLEY GENERATING CO. ET AL.

NOTICE OF PROPOSED ACTION

OCTOBER 12, 1955.

In the matter of Mississippi Valley Generating Company, Middle South Utilities, Inc., the Southern Company; File No. 70–3319.

The Commission having on February 9, 1955, pursuant to the provisions of the Public Utility Holding Company Act of 1935, entered its order authorizing and permitting the issuance by Mississippi Valley Generating Company, a subsidiary company of Middle South Utilities, Inc., and The Southern Company, both registered holding companies of 55,000 shares of its common stock and the acquisition thereof by said Middle South Utilities, Inc., and said The Southern Company, such issuance and acquisition being predicated in part on the then existence of a Power Contract dated November 11, 1954, between Mississippi Valley Generating Company and the United States of America, acting by and through the Atomic Energy Commission; and

No stay of the Commission's order of February 9, 1955, having been applied for or granted, and pursuant to such order Mississippi Valley Generating Company having, on February 11, 1955, issued 11,000 shares of its common stock and Middle South Utilities, Inc., and The Southern Company having acquired their respective shares of said stock; and

The State of Tennessee et al., having filed a petition for rehearing on February 14, 1955, and said petition having been denied by the Commission on February 18, 1955; and

The State of Tennessee et al., having on March 14, 1955, filed a petition for review of the Commission's orders of February 9 and February 18, 1955, in the United States Court of Appeals for the District of Columbia Circuit; and

The Commission having on April 11, 1955, filed a transcript of the record upon which its said orders were based and the matter having been briefed and argued in said court and having been by said court taken under advisement; and

Mississippi Valley Generating Company, Middle South Utilities, Inc., and The Southern Company having filed with the Commission an amendment, dated August 11, 1955, to their application which amendment recited that the Atomic Energy Commission had advised Mississippi Valley Generating Company that it "had been directed to take the necessary steps to bring to an end the relationship between Mississippi Valley and the United States of America and requested, accordingly, that discussions be held to agree on a mutually acceptable basis for bringing to an end the Power Contract," and that discussions for such purpose had commenced and were then in progress; and

The Commission having, upon the basis of said amendment, filed a motion in said United States Court of Appeals for a remand of the case to the Commission for reconsideration by the Commission of its order of February 9, 1955, in the light of changed circumstances, stating to the Court that in the absence of the Power Contract continuing in effect the Commission must reconsider its authorization for the issuance and acquisition of "up to 55,000 shares of Mississippi Valley Generating Company, of which 11,000 shares have heretofore been issued and acquired leaving the balance of 44,000 shares authorized but not yet issued."

Said United States Court of Appeals having on September 12, 1955, ordered that the case be remanded to the Commission for reconsideration of its said order; and

The Commission being of the view that in the circumstances the appropriate action to be taken by it at this time pursuant to the aforesaid remand of the United States Court of Appeals is to enter an order rescinding the authority of Mississippi Valley Generating Company to issue the 44,000 shares of its common stock approved for issuance by the said order of February 9, 1955, but not yet issued, and rescinding the authority of Middle South Utilities, Inc., and The Southern Company to acquire the same; to modify the said order accordingly; and to reserve for future determination, after completion of pending discussions and steps taken pursuant thereto respecting the Power Contract, the question of the action to be taken with respect to the said order of February 9, 1955, insofar as said order relates to the 11,000 shares of common stock issued by Mississippi Valley Generating Company and acquired by Middle South Utilities, Inc., and Southern Company;

Interested persons are afforded an opportunity to submit views in writing with respect to the aforesaid proposed action to the Secretary of the Commission on or before November 1, 1955.

By the Commission.

[SEAL] ORVAL L. DuBOIS, *Secretary.*

ALASKA

SMALL TRACT CLASSIFICATION 109

OCTOBER 12, 1955.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473), I hereby classify the following described public lands, totalling 60.28 acres in the Anchorage Land District, Alaska, as suitable for lease and sale for recreational purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended:

KENAI RIVER BRIDGE AREA—UNIT NO. 4 FOR LEASE AND SALE; FOR RECREATIONAL SITES

Seward Meridian

T. 5 N., R. 10 W.,
Sec. 33: Lots 11–26, inclusive.

Comprising 16 tracts aggregating 60.28 acres.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application or bid with preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to the date of the signing of this order will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

ALASKA

ORDER OF TRANSFER OF JURISDICTION OF INTEREST

OCTOBER 12, 1955.

Whereas the Office of Territories, Department of the Interior, made application Anchorage 030968, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the lands hereinafter described, for the acquisition of property rights to the street right-of-way for Calhoun Avenue in front of the Governor's Mansion, Juneau, Alaska.

Now, therefore, by virtue of the authority contained in section 7 of the Public Works Act of August 24, 1949, supra, and pursuant to Chapter 3.1; Sec. 1.2 (u) (5) of Redelegation Order No. 541 of April 21, 1954, it is ordered as follows:

Jurisdiction of interest in and to the following described lands is hereby transferred to the Office of Territories, Department of the Interior:

Beginning at Corner No. 1, a point which bears North 48 degrees 43 minutes East a distance of 62.00 feet from the most westerly corner of Block 32 of the Townsite of Juneau, Alaska; thence South 77 degrees 32 minutes East a distance of 91.40 feet to Corner No. 2; thence South 62 degrees 32 minutes East a distance of 30.54 feet to Corner No. 3; thence South 47 degrees 32 minutes East a distance

of 25.75 feet to Corner No. 4; thence South 49 degrees 27 minutes East a distance of 39.75 feet to Corner No. 5; thence South 41 degrees 38 minutes East a distance of 34.22 feet to Corner No. 6; thence North 48 degrees 43 minutes East a distance of 34.50 feet to Corner No. 7; thence North 41 degrees 38 minutes West a distance of 67.20 feet to Corner No. 8; thence along a circular curve whose chord bears North 60 degrees 06 minutes West a distance of 75.85 feet, and whose middle ordinate is 6.20 feet, to Corner No. 9; thence North 77 degrees 21 minutes West a distance of 77.12 feet to Corner No. 10; thence South 48 degrees 43 minutes West a distance of 38.00 feet to Corner No. 1, the place of beginning.

Any subsequent conveyance which may be made of the lands to a public body under authority of the act of August 24, 1949, supra, the instrument of conveyance shall contain a provision reserving a right-of-way for ditches and canals constructed under authority of the United States, and reserving also to the United States (1) all oil and gas and other mineral deposits in the lands together with the rights of the United States, its agents, representatives, lessees or permittees, to prospect for, mine and remove the same under such regulations as the Secretary may prescribe, (2) a right-of-way for the construction of railroads, telegraph and telephone lines in accordance with the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 305), (3) a right-of-way for roads, highways, tramways, trails, bridges, and appurtenant structures constructed by or under authority of the United States or of any State created out of the Territory of Alaska, in accordance with the act of July 24, 1947 (61 Stat. 418; 48 U. S. C. 321d), and (4) such other reservations, covenants, terms, and conditions as may be deemed proper by the Office of Territories, as well as those which may be required for the protection of the Department of the Interior or any agency thereof.

ROGER R. ROBINSON,
Acting Area Administrator.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 63]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881, 2973, 3499, 3931, 4397, 4841, 5256, 5709, 6076, 6575, 7134), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraph (9) of paragraph (a), relating to San Diego County in California, is deleted.

2. Subparagraph (1) of paragraph (a), relating to California, is amended to read:

(1) E. ½ Sec. 13, T. 3S., R. 3W., MDBM; and that area included within a boundary beginning at a point on W. line of Plot 4, Rancho El Valle, 10.47 chains N. from N. line Plot 3, Rancho El Valle, thence N. 53° W. 17.95 chains, thence N. 69° 4' E. 6.67 chains, thence N. to County Road, thence SE. 100 feet along SW. line of County Road, thence S. to point of beginning, consisting of 32.98 acres within lots 8–15, in Alameda County.

3. New subdivisions (xiii) and (xiv) are added to subparagraph (11) of paragraph (d), relating to Monmouth County in New Jersey, to read:

(xiii) That part of Marlboro Township lying south and west of the south fork of Deep Run Branch, north of Robertsville-Herberts Corner Road, and east of Old Tennent Road; and

(xiv) That part of Atlantic Township lying east of Hocklockson Brook, south of Hocklockson Road, west of Pine Brook, and north of the Naval Ammunition Depot.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California and New Jersey from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 14th day of October 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

PART 79—SCRAPIE IN SHEEP

RELEASE OF AREA FROM QUARANTINE

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 79.2, as amended, Part 79, Title 9, Code of Federal Regulations (19 F. R. 7338, 20 F. R. 738), which contains a notice and quarantine with respect to the communicable disease of sheep known as scrapie, is hereby revoked.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment revokes the designation of an area is Buckskin Township in Ross County in Ohio as an area in which scrapie exists and revokes the quarantine imposed upon such area because of said disease. Hereafter, none of the restrictions of the regulations in 9 CFR, 1954 Supp., Part 79, as amended, apply with respect to movements of sheep from such area.

The amendment relieves restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 14th day of October 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 63]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border)* is amended between Hartford, Conn., and Boston, Mass., to read: "Hartford, Conn., radio range station; the intersection of a direct line between the Hartford, Conn., radio range and the Bedford, Mass., nondirectional radio beacon (located at Lat. 42°28'47", Long. 71°23'21") with the west course of the Boston, Mass., radio range; Boston, Mass., radio range station;".

2. Section 600.213 *Red civil airway No. 13 (Wheeling, W. Va., to Boston, Mass.)* is amended by changing the last portion to read: "Providence, R. I., radio range station via the intersection of the north course of the Providence, R. I., radio range and the southwest course of the Boston, Mass., radio range to the intersection of a direct line between the intersection of the north course of the Providence radio range and the southwest course of the Boston radio range and the Bedford, Mass., nondirectional radio beacon (located at Lat. 42°28'47", Long. 71°23'21") with the west course of the Boston, Mass., radio range."

3. Section 600.687 is amended to read:

§ 600.687 *Blue civil airway No. 87 (Lexington, Ky., to Dayton, Ohio).* From the Lexington, Ky., nondirectional radio beacon via the Cincinnati, Ohio, radio range station; the intersection of the northeast course of the Cincinnati, Ohio, radio range and the south course of the Wright-Patterson AFB, Dayton, Ohio, radio range; Wright-Patterson AFB, Dayton, Ohio, radio range station to the intersection of the north course of the Wright-Patterson AFB radio range and the west course of the Columbus, Ohio, radio range.

4. Section 600.6004 *VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.)* is amended by changing all between the Topeka, Kans., omnirange station and the St. Louis, Mo., omnirange station to read: "Topeka, Kans., omnirange station, including a south alternate; Kansas City, Mo., omnirange station, including a north alternate; Columbia, Mo., omnirange station, including a north alternate from the Kansas City omnirange station to the Columbia omnirange station via the intersection of the Kansas City omnirange 077° True and the Columbia omnirange 292° True radials and also a south alternate from the Topeka omnirange station to the Columbia omnirange station via the Blue Springs, Mo., omnirange station thence via the intersection of the Blue Springs omnirange 094° True and the Columbia omnirange 261° True radials; St. Louis, Mo., omnirange station, including a north and a south alternate;" and by adding a new last sentence to read: "The portions of this airway which overlap the Lake City Restricted Area (R–307) are excluded."

5. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended by changing all between the Battle Mountain, Nev., omnirange station and the Ogden, Utah, omnirange station to read: "Battle Mountain, Nev., omnirange station; Wells, Nev., omnirange station, including a south alternate from the Battle Mountain omnirange station to the Wells omnirange station via the Elko, Nev., omnirange station; Lucin, Utah, omnirange station; Ogden, Utah, omnirange station;".

6. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended by deleting the following words: "Kansas City, Mo., omnirange station, including a north alternate;" and substituting the following words in lieu thereof: "Kansas City, Mo., omnirange station;".

7. Section 600.6011 *VOR civil airway No. 11 (Houston, Tex., to Detroit, Mich.)* is amended by changing the portion which reads: "Evansville, Ind., omnirange station; Scotland, Ind., omnirange station;" to read: "Evansville, Ind., omnirange station; Scotland, Ind., omnirange station, including an east alternate via the intersection of the Evansville omnirange 049° True and the Scotland omnirange 188° True radials;".

8. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing all between the Winslow, Ariz., omnirange station;" to read: "Evansville, Ind., omnirange station to read: "Winslow, Ariz., omnirange station; Zuni, N. Mex., omnirange station, including a north alternate via the intersection of the Winslow omnirange 076° True and the Zuni omnirange 287° True radials; Grants, N. Mex., omnirange station; Albuquerque, N. Mex., omnirange station;" by changing all between the Emporia, Kans., omnirange station and the Columbia, Mo., omnirange station to read: "Emporia, Kans., omnirange station, including a north alternate via the intersection of the Wichita omnirange 046° True and the Emporia omnirange 259° True radials; Kansas City, Mo., omnirange station; Columbia, Mo., omnirange station, including a north alternate via the intersection of the Kansas City omnirange 077° True and the Columbia omnirange 292° True radials;".

9. Section 600.6013 *VOR civil airway No. 13 (Houston, Tex., to Duluth, Minn.)* is amended by deleting the following words: "Kansas City, Mo., omnirange station, including an east alternate;" and substituting the following words in lieu thereof: "Kansas City, Mo., omnirange station;".

10. Section 600.6023 *VOR civil airway No. 23 (San Diego, Calif., to Bellingham, Wash.)* is amended by changing all after the Portland (Manor), Oreg., omnirange station to read: "Portland (Manor), Oreg., omnirange station, including a west alternate via the intersection of the Eugene omnirange 341° True and the Newburg omnirange 204° True radials, the Newburg, Oreg., omnirange station, and the intersection of the Newburg omnirange 020° True and the Portland omnirange 247° True radials; intersection of the Portland omnirange 353° True and the Seattle omnirange 197° True radials, excluding the portion which overlaps the Fort Lewis restricted area (R–244); Seattle, Wash., omnirange station, including a west alternate from the Portland omnirange station to the Seattle omnirange station via the intersection of the Portland omnirange 353° True and the Olympia omnirange 165° True radials, the Olympia, Wash., omnirange station and the point of intersection of the Olympia omnirange 337° True and the Seattle omnirange 247° True radials; intersection of the Seattle omnirange 359° True and the Bellingham omnirange 169° True radials; Bellingham, Wash., omnirange station; to the United States-Canadian Border via the Bellingham omnirange 304° True radial."

11. Section 600.6025 *VOR civil airway No. 25 (Los Angeles, Calif., to Ellensburg, Wash.)* is amended by changing all before the Paso Robles, Calif., omnirange station to read: "From the Camarillo, Calif., MF radio range station via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omnirange station;".

12. Section 600.6027 is amended by changing the caption to read: "*VOR civil airway No. 27 (Los Angeles, Calif., to Seattle, Wash.)*" and by changing all before the Salinas, Calif., omnirange station to read: "From the Camarillo, Calif., MF radio range station via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omnirange station, including a west alternate via the intersection of the Santa Barbara omnirange 304° True and the Paso Robles omnirange 169° True radials; intersection of the Paso Robles omnirange 335° True and the Salinas omnirange

134° True radials; Salinas, Calif., omnirange station;".

13. Section 600.6032 is amended to read:

§ 600.6032 *VOR civil airway No. 32 (Battle Mountain, Nev., to Fort Bridger, Wyo.)*. From the Battle Mountain, Nev., omnirange station via the Elko, Nev., omnirange station; Bonneville, Utah, omnirange station, including a north alternate from the Elko omnirange station to the Bonneville omnirange station via the Wells, Nev., omnirange station; Salt Lake City, Utah, omnirange station; to the Fort Bridger, Wyo., omnirange station.

14. Section 600.6039 is amended by changing the caption to read: "*VOR civil airway No. 39 (South Boston, Va., to Kennebunk, Maine)*" and by changing the first portion to read: "From the South Boston, Va., omnirange station via the Gordonsville, Va., omnirange station; Herndon, Va., omnirange station; to the point of intersection of the Herndon omnirange 045° True and the Baltimore omnirange 281° True radials."

15. Section 600.6069 is amended to read:

§ 600.6069 *VOR civil airway No. 69 (Little Rock, Ark., to Chicago, Ill.)*. From the Little Rock, Ark., omnirange station via the intersection of the Little Rock omnirange 062° True and the Walnut Ridge omnirange 186° True radials; Walnut Ridge, Ark., omnirange station; Farmington, Mo., omnirange station; intersection of the Farmington omnirange 351° True and the Troy omnirange 215° True radials; Troy, Ill., omnirange station; Springfield, Ill., omnirange station; Pontiac, Ill., omnirange station; Joliet, Ill., omnirange station; to the Chicago, Ill., Midway Airport terminal omnirange station.

16. Section 600.6071 *VOR civil airway No. 71 (Pine Bluff, Ark., to Kansas City, Mo.)* is amended by changing the last portion to read: "From the Flippin, Ark., omnirange station via the Springfield, Mo., omnirange station; Butler, Mo., omnirange station, including a west alternate via the intersection of the Springfield omnirange 301° True and the Butler omnirange 178° True radials; to the Kansas City, Mo., omnirange station."

17. Section 600.6088 *VOR civil airway No. 88 (Tulsa, Okla., to Mansfield, Ohio)* is amended by changing all between the Vichy, Mo., omnirange station and the Scotland, Ind., omnirange station to read: "Vichy, Mo., omnirange station; to the point of intersection of the Vichy omnirange 084° True and the St. Louis, Mo., omnirange 170° True radials. From the Centralia, Ill., omnirange station via the intersection of the Centralia omnirange 075° True and the Scotland omnirange 250° True radials; Scotland, Ind., omnirange station;".

18. Section 600.6107 is amended to read:

§ 600.6107 *VOR civil airway No. 107 (Los Angeles, Calif., to Red Bluff, Calif.)*. From the Los Angeles, Calif., omnirange station via the intersection of the Los Angeles omnirange 301° True and the Fillmore omnirange 163° True radials; Fillmore, Calif., omnirange station; Coalinga, Calif., omnirange station; Oakland, Calif., omnirange station; intersection of the Oakland omnirange 330° True and the Ukiah omnirange 147° True radials; Ukiah, Calif., omnirange station; to the Red Bluff, Calif., omnirange station.

19. Section 600.6161 is amended to read:

§ 600.6161 *VOR civil airway No. 161 (Tulsa, Okla., to Minneapolis, Minn.)*. From the Tulsa, Okla., omnirange station via the Butler, Mo., omnirange station; Blue Springs, Mo., omnirange station; intersection of the Blue Springs omnirange 016° True and the Lamoni omnirange 175° True radials; Lamoni, Iowa, omnirange station; Des Moines, Iowa, omnirange station; Waterloo, Iowa, omnirange station; Rochester, Minn., omnirange station; intersection of the Rochester omnirange 350° True and the Minneapolis-St. Paul International Airport ILS localizer 121° True course, to the Minneapolis-St. Paul, Minn., International Airport ILS localizer. The portions of this airway which overlap the Lake City Restricted Area (R–307) are excluded.

20. Section 600.6174 *VOR civil airway No. 174 (St. Louis, Mo., to Washington, D. C.)* is amended by changing the portion between the York, Ky., omnirange station and the Front Royal, Va., omnirange station to read: "York, Ky., omnirange station; intersection of the York omnirange 076° True and the Elkins omnirange 270° True radials; Elkins, W. Va., omnirange station; Front Royal, Va., omnirange station;".

21. Section 600.6176 is amended to read:

§ 600.6176 *VOR civil airway No. 176 (Centralia, Ill., to Scotland, Ind.)*. From the Centralia, Ill., omnirange station via the intersection of the Centralia omnirange 075° True and the Scotland omnirange 250° True radials; to the Scotland, Ind., omnirange station.

22. Section 600.6191 *VOR civil airway No. 191 (Walnut Ridge, Ark., to Chicago, Ill.)* is amended by changing all before the Troy, Ill., omnirange station to read: "From the Walnut Ridge, Ark., omnirange station via the Farmington, Mo., omnirange station; intersection of the Farmington omnirange 351° True and the Troy omnirange 215° True radials; Troy, Ill., omnirange station;".

23. Section 600.6204 is added to read:

§ 600.6204 *VOR civil airway No. 204 (Hoquiam, Wash., to Olympia, Wash.)*. From the Hoquiam, Wash., omnirange station to the Olympia, Wash., omnirange station, excluding the airspace above 14,500 feet above mean sea level.

24. Section 600.6205 is added to read:

§ 600.6205 *VOR civil airway No. 205 (Springfield, Mo., to Kansas City, Mo.)*. From the Springfield, Mo., omnirange station via the Blue Springs, Mo., omnirange station, including a west alternate via the intersection of the Springfield omnirange 316° True and the Blue Springs omnirange 178° True radials; to the Kansas City, Mo., omnirange station. The portion of this airway which overlaps the Lake City Restricted Area (R–307) is excluded.

25. Section 600.6206 is added to read:

§ 600.6206 *VOR civil airway No. 206 (Blue Springs, Mo., to Kirksville, Mo.)*. From the Blue Springs, Mo., omnirange station via the intersection of the Blue Springs omnirange 056° True and the Kirksville omnirange 225° True radials; to the Kirksville, Mo., omnirange station. The portion of this airway which overlaps the Lake City Restricted Area (R–307) is excluded.

26. Section 600.6209 is added to read:

§ 600.6209 *VOR civil airway No. 209 (Los Angeles, Calif., to Paso Robles, Calif.)*. From the Los Angeles, Calif., omnirange station via the intersection of the Los Angeles, omnirange 301° True and the Fillmore omnirange 163° True radials; Fillmore, Calif., omnirange station; to the Paso Robles, Calif., omnirange station.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. November 3, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[Amdt. 63]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.1015 is amended to read:

§ 601.1015 *Control area extension (Greenwood, Miss.)*. Within 5 miles either side of the east course of the Greenwood radio range extending from the radio range station to a point 20 miles east and within 5 miles either side of the west course of the radio range extending from the radio range station to a point 25 miles west; within 5 miles either side of the 246° True and 66° True radials of the Greenwood omnirange extending to a point 20 miles southwest and northeast of the omnirange station.

2. Section 601.1021 is amended to read:

§ 601.1021 *Control area extension (Belleville, Ill.)*. That airspace within a 40-mile radius of Scott AFB, Belleville, Ill.

3. Section 601.1037 is amended to read:

§ 601.1037 *Control area extension (Pensacola, Fla.)*. That airspace within 8 miles east of and 5 miles west of the north and south courses of the Pensacola radio range extending from the radio range station to points 25 miles north and 12 miles south.

4. Section 601.1050 is amended to read:

§ 601.1050 *Control area extension (Bakersfield, Calif.)*. Within 5 miles either side of the southwest course of the Bakersfield radio range extending from the radio range station to a point 25 miles southwest including the airspace in the northwest quadrant of the radio range bounded on the northeast by VOR civil airway No. 137 and on the west by VOR civil airway No. 107.

5. Section 601.1275 is amended to read:

§ 601.1275 *Control area extension (Fairbanks, Alaska)*. Within 5 miles either side of the Fairbanks ILS localizer course extending from the localizer to a point 25 miles northeast; within 5 miles either side of the east course of the Fairbanks radio range extending from the radio range station to a point 25 miles east of the Chena, Alaska nondirectional radio beacon.

6. Section 601.1281 is amended to read:

§ 601.1281 *Control area extension (Pueblo, Colo.)*. That airspace within a 25-mile radius of the Pueblo radio range station lying in the northeast and southeast quadrants of the radio range.

7. Section 601.1298 is amended to read:

§ 601.1298 *Control area extension (Promontory Point, Utah)*. That airspace bounded on the north by VOR civil airway No. 6, on the east by VOR civil airway No. 21, on the south by VOR civil airway No. 32 and on the west by a line extending from Lat. 40°51′30″, Long. 112°56′30″, to Lat. 41°00′00″, Long. 112°56′30″, to Lat. 41°00′00″, Long. 112°45′00″ to Lat. 41°12′25″, Long. 112°45′00″.

8. Section 601.1352 is amended to read:

§ 601.1352 *Control area extension (Sedalia, Mo.)*. That airspace within a 35-mile radius of Whiteman AFB bounded on the north by VOR civil airway No. 4–S, excluding the portion northwest of Sedalia bounded on the north by VOR civil airway No. 4–S, on the east by Long. 93°45′00″, on the south by Lat. 38°45′00″ and on the west by the Kansas City control area extension, and excluding the portion northeast of Sedalia bounded on the north by VOR civil airway No. 4–S, on the east by Long. 93°00′00″, on the south by Lat. 38°45′00″ and on the west by Long. 93°15′00″.

9. Section 601.1383 is added to read:

§ 601.1383 *Control area extension (Guam Island)*. All of the airspace from 700 feet upwards within a radius of 100 nautical miles of the Guam radio range station extending clockwise from the west course of the radio range to the southeast course of the radio range and within a radius of 25 nautical miles of the Guam radio range extending clockwise from the southeast course of the radio range to the west course of the radio range, excluding the portions which overlap Restricted Areas R–474 and R–478 and Warning Areas W–473, W–475 and W–479.

10. Section 601.1390 is added to read:

§ 601.1390 *Control area extension (Oahu-Molokai, T. H.)*. All of the airspace from 700 feet upwards bounded by a line extending from Lat. 21°26′00″ N., Long. 157°37′45″ W., to Lat. 21°55′00″ N. Long. 156°42′45″ W. to Lat. 21°10′00″ N., Long. 157°26′15″ W., to Lat. 21°14′30″ N., Long. 157°36′15″ to point of beginning including Hawaiian VOR civil airway No. 7.

11. Section 601.2066 is amended to read:

§ 601.2066 *Pueblo, Colo., control zone*. Within a 5-mile radius of Pueblo Municipal Airport, within 5 miles either side of a direct line extending from the center of Pueblo Municipal Airport to the Pueblo radio range station to include a 5-mile radius of the Pueblo radio range station, within 2 miles either side of the southeast course of the radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 271° and 91° True radials of the Pueblo omnirange extending from the Pueblo Municipal Airport five mile radius zone to a point 10 miles east of the omnirange station.

12. Section 601.2103 is amended to read:

§ 601.2103 (*Grand Rapids, Mich., control zone*). Within a 6-mile radius of Kent County Airport and within 2 miles either side of the southeast course of the Grand Rapids radio range extending from the radio range station to a point 12 miles southeast.

13. Section 601.2146 is amended to read:

§ 601.2146 *Greenwood, Miss., control zone*. Within a 5-mile radius of the Greenwood Municipal Airport, within 2 miles either side of the east course of the radio range extending from the radio range station to a point 10 miles east, and within 2 miles either side of the 246° True radial of the Greenwood omnirange extending from the omnirange station to a point 10 miles southwest.

14. Section 601.2265 is amended to read:

§ 601.2265 *Wright-Patterson AFB, Ohio, control zone*. Within a 5-mile radius of Patterson Field including a 5-mile radius of Wright Field, within 2 miles either side of the south course of the Wright-Patterson AFB radio range extending from the radio range station to the Fairfield Fan Marker and within 2 miles either side of a 31° True bearing extending from the Wright-Patterson AFB radio range to a point 10 miles northeast of Patterson Field.

15. Section 601.2368 is added to read:

§ 601.2368 *Sault Ste. Marie, Mich., control zone*. That airspace over United States territory within a 5-mile radius of the Sault Ste. Marie Municipal Airport and within 2 miles either side of the southeast course of the Sault Ste. Marie radio range extending from the radio range station to a point 12 miles southeast.

16. Section 601.4223 *Red civil airway No. 23 (United States-Canadian Border to New York, N. Y.)* is amended by deleting the following reporting point: "the intersection of the southeast course of the Elmira, N. Y., radio range and the north course of the Wilkes-Barre, Pa., radio range;".

17. Section 601.6004 is amended to read:

§ 601.6004 *VOR civil airway No. 4 control areas (Seattle, Wash., to Washington, D. C.)*. All of VOR civil airway No. 4 including north and south alternates, but excluding the airspace between the main airway and its south alternate between the Topeka, Kans., omnirange station and the Columbia, Mo., omnirange station.

18. Section 601.6023 is amended to read:

§ 601.6023 *VOR civil airway No. 23 control areas (San Diego, Calif., to Bellingham, Wash.)* All of VOR civil airway No. 23 including an east alternate and west alternates, but excluding the airspace between the main airway and its west alternate between the Portland, Oreg., omnirange station and the Seattle, Wash., omnirange station.

19. Section 601.6027 is amended to read:

§ 601.6027 *VOR civil airway No. 27 control areas (Los Angeles, Calif., to Seattle, Wash.)*. All of VOR civil airway No. 27 including east and west alternates.

20. Section 601.6039 is amended to read:

§ 601.6039 *VOR civil airway No. 39 control areas (South Boston, Va., to Kennebunk, Maine)*. All of VOR civil airway No. 39.

21. Section 601.6069 is amended to read:

§ 601.6069 *VOR civil airway No. 69 control areas (Little Rock, Ark., to Chicago, Ill.)*. All of VOR civil airway No. 69.

22. Section 601.6071 is amended to read:

§ 601.6071 *VOR civil airway No. 71 control areas (Pine Bluff, Ark., to Kansas City, Mo.)*. All of VOR civil airway No. 71 including a west alternate.

23. Section 601.6161 is amended to read:

§ 601.6161 *VOR civil airway No. 161 control areas (Tulsa, Okla., to Minneapolis, Minn.)*. All of VOR civil airway No. 161.

24. Section 601.6176 is amended to read:

§ 601.6176 *VOR civil airway No. 176 control areas (Centralia, Ill., to Scotland, Ind.).* All of VOR civil airway No. 176.

25. Section 601.6204 is added to read:

§ 601.6204 *VOR civil airway No. 204 control areas (Hoquiam, Wash., to Olympia, Wash.).* All of VOR civil airway No. 204.

26. Section 601.6205 is added to read:

§ 601.6205 *VOR civil airway No. 205 control areas (Springfield, Mo., to Kansas City, Mo.).* All of VOR civil airway No. 205.

27. Section 601.6206 is added to read:

§ 601.6206 *VOR civil airway No. 206 control areas (Blue Springs, Mo., to Kirksville, Mo.).* All of VOR civil airway No. 206.

28. Section 601.6209 is added to read:

§ 601.6209 *VOR civil airway No. 209 control areas (Los Angeles, Calif., to Paso Robles, Calif.).* All of VOR civil airway No. 209.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1107, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. November 3, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 55-8478; Filed, Oct. 19, 1955; 8:45 a. m.]

[Amdt. 137]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.12, the Sahuarita, Arizona, area (R–310 formerly D–310), amended on January 24, 1952, in 17 F. R. 715, is further amended by changing the "Time of Designation" column to read: "Days Only."

2. In § 608.12, the Willcox Dry Lake, Arizona, area (R–311 formerly D–311), amended on July 7, 1953, in 18 F. R. 3561, is further amended by changing the "Time of Designation" column to read: "Days Only."

3. In § 608.12, the Fort Huachuca, Arizona, area (R–181 formerly D–181), published on October 6, 1951, in 16 F. R. 10204, is amended by changing the "Description by Geographical Coordinates" column to read: Beginning at latitude 31°37'00", longitude 110°05'00"; thence to latitude 31°29'00", longitude 110°05'0"; thence to latitude 31°29'00", longitude 110°26'00"; thence to latitude 31° 30'30", longitude 110°26'00"; thence to latitude 31°31'40", longitude 110°26'40"; thence to latitude 31°36'40", longitude 110°26'40"; thence to latitude 31° 41'40", longitude 110°15'00"; thence to latitude 31°41'40", longitude 110°13'30"; thence to point of beginning.

4. In § 608.21, the Glenview, Illinois, area (R–76 formerly D–76), published on July 16, 1949, in 14 F. R. 4290, is amended by changing the "Description by Geographical Coordinates" column to read: Beginning at latitude 42°35'00", longitude 87°33'00"; thence South to latitude 42°19'50", longitude 87°33'00"; thence Southwest to latitude 42°17'50", longitude 87°47'30"; thence North to latitude 42°35'00", longitude 87°47'30"; thence to point of beginning. Also by changing the "Designated Altitudes" column to read: "Surface to Unlimited".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on October 27, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 55-8479; Filed, Oct. 19, 1955; 8:46 a. m.]

[Amdt. 138]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.52, the Wendover, Utah, area (R–258) amended on July 2, 1955, in 20 F. R. 4714 is further amended by changing the "Description by geographical coordinates" column to read: "Beginning at latitude 41°10'40", longitude 112°45'00"; thence to latitude 41°00'00", longitude 112°45'00"; thence to latitude 41°00'00", longitude 112°56'30"; thence to latitude 40°51'30", longitude 112°56'30"; thence to latitude 40°48'30", longitude 113°40'00"; thence to latitude 41°15'00", longitude 113°43'50"; thence to point of beginning.

2. In § 608.18, the Pensacola, Florida, area (R–154 formerly D–154) amended on August 27, 1954, in 19 F. R. 5476, is further amended by changing the "Description by geographical coordinates" column to read: "Bound on the north by the Florida Coastline; bound on the south by a line 3 nautical miles from and parallel to the Florida Coastline; bound on the east by longitude 86°48'00"; bound on the west by the revised Pensacola Control Area and including the area within a circle of a 2 mile radius centered at latitude 30°22'00", longitude 86°58'30".

3. In § 608.56, a Leon, West Virginia, area (R–490) is added to read:

Name and location (chart)	Designation by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
LEON (R–490) (Huntington).	Beginning at latitude 38°44'35", longitude 82°02'24"; thence to latitude 38°43'28", longitude 82°00'40"; thence to latitude 38°42'07", longitude 82°01'15"; thence to latitude 38°43'17", longitude 82°03'50"; thence to latitude 38°44'35", longitude 82°02'24".	Surface to unlimited.	Sunrise to sunset.	Naval Ordnance Plant, Charleston, W. Va.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on November 3, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 55-8480; Filed, Oct. 19, 1955; 8:46 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF MANEB (MANGANESE ETHYLENEBISDITHIOCARBAMATE)

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of maneb (manganese ethylenebisdithiocarbamate) in or on certain raw agricultural commodities.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended as follows:

1. Section 120.101 (c) (4) is amended to read as follows:

(4) For the purposes of this section, in those cases where the same numerical tolerance is established for more than one metallic dithiocarbamate (ferbam, maneb, ziram, or zineb) on a raw agricultural commodity, the total amount of metallic dithiocarbamate residues on such commodity, when calculated as zinc ethylenebisdithiocarbamate, shall not exceed the tolerance established for each metallic dithiocarbamate.

2. Part 120 is amended by adding the following new section:

§ 120.110 *Tolerances for residues of maneb (manganese ethylenebisdithiocarbamate).* Tolerances for residues of maneb (manganese ethylenebisdithiocarbamate), calculated as zinc ethylenebisdithiocarbamate, are established as follows:

(a) 7 parts per million in or on apples, beans, carrots (with or without tops) or carrot tops, celery, cranberries, cucumbers, eggplant, figs, grapes, melons, onions, peaches, peppers, spinach, summer squash, tomatoes, and winter squash.

(b) 0.1 part per million in or on almonds and potatoes.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: October 14, 1955.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-8481; Filed, Oct. 19, 1955; 8:46 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF MALATHION

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of malathion in or on certain raw agricultural commodities. Subsequently, the petitioner withdrew barley, citrus, guavas, oats, pasture grass, pecans, walnuts, and wheat from the list of raw agricultural commodities on which tolerances had been requested.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended as follows:

1. In § 120.101 *Specific tolerances for pesticide residues in or on fresh fruits and vegetables*, paragraph (c) (5) (ii) is amended by inserting immediately following the name "EPN" in the list of organic phosphates the name "Malathion."

2. Part 120 is amended by adding the following new section:

§ 120.111 *Tolerances for residues of malathion.* A tolerance of 8 parts per million is established for residues of malathion (*O, O*-dimethyl dithiophosphate of diethyl mercaptosuccinate) in or on the following raw agricultural commodities: Alfalfa, apples, apricots, avocados, snap beans, beets (including tops), blueberries, broccoli, brussels sprouts; cabbage, cauliflower, celery, cherries, clover, cranberries, cucumbers, dates, eggplants, grapes, kale, lettuce, mangoes, melons, mustard greens, onions (including green onions), passion fruit, peaches, peas, pears, peppers, pineapples, plums, potatoes, prunes, rutabagas, spinach, squash (both summer and winter squash), strawberries, tomatoes, turnips (including tops).

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

Dated: October 14, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-8511; Filed, Oct. 18, 1955; 12:32 p. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter C—Military Education

PART 543—PROMOTION OF RIFLE PRACTICE

TARGET EQUIPMENT

Section 543.6 is revised to read as follows:

§ 543.6 *Targets and target equipment*—(a) *National Guard, Army Reserve, Reserve Officers' Training Corps, and schools operating under Section 55c, National Defense Act*—(1) *General provisions.* (i) The types of target materiel authorized for the Regular Army are also prescribed for use in target practice by the National Guard, Army Reserve, Reserve Officers' Training Corps, and schools operating under section 55c, National Defense Act, provided that no issues or expenditures of target materiel for these purposes will be made until the officer responsible is assured that funds are available, for the payment in full for all items designated as reimbursable in Ordnance Department Field Service Bulletins or in similar US Air Forces instructions, and expenses incident to the issue of target materiel, and the repair of any damage to Regular Army target materiel incident to its use by these components and auxiliaries.

(ii) Funds to provide target materiel for the Army Reserve, Reserve Officers' Training Corps, and schools operating under section 55c, National Defense Act, and the National Guard are allocated to the commanding generals of the areas, territorial commanders and headquarters, US Air Forces, and to the commanders of exempted stations. If definite instructions have not been received by the officers immediately responsible for the issue, expenditure, or use of target materiel from the proper commander to whom funds have been allocated or alloted such responsible officer will apply to such commander before authorizing the issue, expenditure, or use of target materiel by the National Guard.

(iii) When requisitioning for target materiel, separate requisitions should be prepared and submitted for each component and auxiliary.

(2) *Allowances.* The National Guard, Army Reserve, Reserve Officers' Training Corps, and schools operating under section 55c, National Defense Act, are authorized such articles of target materiel as are appropriate for the practice to be conducted, and will not exceed the allowances established for the Regular Army, without the authority of the Department of Defense.

(b) *Civilian rifle clubs and miscellaneous schools and organizations*—(1) *Types and allowances authorized.* (i) *Schools operating under the act of April 27, 1914 (38 Stat. 370).* See § 543.1.

(ii) *Civilian rifle clubs.* See § 543.1.

(iii) *Civilians using rifle ranges.* See § 543.2.

(iv) *Rifle and pistol competitions in schools and colleges.* (*a*) The types of targets authorized for small bore matches and competitions are the National Rifle Association gallery targets for 50 and 75 feet. These targets are obtained through the executive officer, National

Board for the Promotion of Rifle Practice.

(b) Targets and target equipment for outdoor rifle and pistol firing are the same as are provided for the Regular Army for rifle and pistol marksmanship courses and competitions.

(2) *Storage and issue of special targets and target equipment.* Special targets and target equipment procured by the National Board for the Promotion of Rifle Practice, and issued or sold by the board, or under the direction of the Director of Civilian Marksmanship, may be stored and issued by the Ordnance Department when requested by proper authority; provided, that in the opinion of the Chief of Ordnance such storage is practicable and that the Ordnance Department is reimbursed in full by the National Board for the Promotion of Rifle Practice for all expenses incident to the handling of the equipment.

(3) *State soldiers' and sailors' orphans' homes and State and territorial educational institutions.* No issue of targets and target equipment is authorized.

[TA 23, 20 September 1955] (38 Stat. 370, secs. 40, 113, 39 Stat. 191, as amended, sec. 35, 41 Stat. 780, 43 Stat. 510, as amended; 10 U. S. C. 1180, 1181, 1185, 32 U. S. C. 181)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 55-8476; Filed, Oct. 19, 1955; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XIV—General Services Administration

[Revision 3, Amdt. 5]

REG. 7—MICA REGULATION: PURCHASE PROGRAMS FOR DOMESTIC MICA

PRICES AND PAYMENT

Pursuant to the authority vested in me by Executive Order 10480, dated August 14, 1953 (18 F. R. 4939), this regulation, as revised and amended, is hereby further amended as follows:

In section 5 (e), delete the date "September 15, 1955", wherever the same appears therein, and in lieu thereof substitute the following: "September 16, 1955".

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interprets or applies sec. 303, 64 Stat. 801, as amended, 67 Stat. 417; 50 U. S. C. App. and Sup. 2093)

All other provisions of this regulation shall remain in full force and effect.

This amendment is effective immediately.

Dated: October 14, 1955.

EDMUND F. MANSURE,
Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter S—Rights-of-Way

[Circular 1936]

PART 244—RIGHTS-OF-WAY OTHER THAN FOR RAILROAD PURPOSES AND FOR LOGGING ROADS ON THE OREGON AND CALIFORNIA AND OVER COOS BAY REVESTED LANDS

SUBPART F—RIGHTS-OF-WAY UNDER THE ACT OF JANUARY 21, 1895, OVER PUBLIC LANDS FOR TRAMROADS AND OTHER ROADS FOR LOGGING AND MINING PURPOSES, EXCEPT LOGGING ROADS OVER REVESTED AND RECONVEYED AND INTERMINGLED PUBLIC LANDS IN OREGON

TRAMROADS DEFINED; SPECIAL PROVISIONS FOR TEMPORARY RIGHTS-OF-WAY

Section 244.53 is revised to read as follows:

§ 244.53 *Tramroads defined; special provisions for temporary rights-of-way.* (a) Tramroads are considered as including tramways, railroads, and motor-truck roads to be used in connection with mining, quarrying, logging, and the manufacturing of lumber.

(b) An application pursuant to § 244.52 and this section for a temporary right-of-way to be used for a period of not more than six months may be filed with the officer in charge of any local office of the Bureau of Land Management having jurisdiction over the lands. No special form for such an application is required but it should state whether the applicant or applicants are citizens of the United States and if a corporation, whether it is qualified under State law to acquire the right-of-way applied for and be accompanied by three copies of a map or sketch which shows the location of the right-of-way with a degree of accuracy sufficient for its position on the ground in relation to the lines and corners of the public land surveys or in relation to some prominent topographic feature, to be readily determined. Such a map or sketch or statement as to citizenship or qualification may be accepted as the basis for a permit for a temporary right-of-way even though it does not meet the requirements of other regulations in this part, if in the opinion of the authorized officer it would be in the public interest to do so. Within the discretion of the issuing officer, the holder of a temporary permit may be granted a single extension of the permit for a period of not more than six months. Notwithstanding the provisions of § 244.21, the charge for use and occupancy of public lands for such temporary rights-of-way shall be at the rate of 50 cents per mile or fraction thereof per month or fraction thereof, with a minimum rental charge of $5 per right-of-way: *Provided*, That no rental charge shall be made for the use and occupancy of public lands for such temporary rights-of-way to be used for the purpose of removing mine or quarry products, timber, or timber products which have been acquired from the United States under contract or permit.

(28 Stat. 635, as amended; 43 U. S. C. 956)

OCTOBER 13, 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

Appendix C—Public Land Orders

[Public Land Order 1212, Amdt.]

[33331]

ALASKA

AMENDING PUBLIC LAND ORDER NO. 1212 OF SEPTEMBER 9, 1955, WHICH REVOKED PUBLIC LAND ORDER NO. 487 OF JUNE 16, 1948

OCTOBER 14, 1955.

Paragraphs No. 6 and 7 of Public Land Order No. 1212 of September 9, 1955, appearing as Doc. 55-7464 in 20 F. R. 6795 of the issue of September 15, 1955, are hereby amended by deleting therefrom the phrases "including the mineral leasing laws", "including applications under the mineral leasing laws" and "including leasing under the mineral leasing laws," wherever they appear, and by adding after the words "mining locations" in the last sentence of paragraphs 6 and 7 of the order the words "for non-metalliferous minerals."

EDWARD WOOZLEY,
Director.

[Misc. 64537]

NEBRASKA

RESERVING PUBLIC LANDS FOR USE AS WILDLIFE REFUGES, PUBLIC SHOOTING GROUNDS, OR GAME MANAGEMENT UNITS

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, and the act of March 10, 1934, as amended by the act of August 14, 1946 (48 Stat. 401; 60 Stat. 1080; 16 U. S. C. 661–666c), it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Nebraska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, and reserved under the jurisdiction of the Department of the Interior for use of the State of Nebraska Game, Forestation, and Parks Commission as wildlife refuges, public shooting grounds, or game management areas, under such conditions as may be prescribed by the Secretary of the Interior:

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

[Ex Parte No. MC-43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

AUGMENTING EQUIPMENT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 6th day of October A. D. 1955.

It appearing that subsequent to an investigation into the lawfulness of the practices of motor common and contract carriers of property, the Commission, division 5, by order dated June 26, 1950, and the Commission, by order dated May 8, 1951, prescribed rules and regulations governing the practices of such carriers in the performance of transportation with motor vehicles owned by others, the interchange of vehicles between such common carriers, and the lease of vehicles by any such carriers to private motor carriers and shippers (15 F. R. 4339, July 8, 1950 and 16 F. R. 4804, May 23, 1951);

It further appearing that by order entered February 2, 1955 (20 F. R. 921), § 207.4 (a) (3) and (5) of the rules and regulations prescribed by order of May 8, 1951, as modified, was postponed so as to become effective March 1, 1956;

And it further appearing that pursuant to order dated November 30, 1953, this proceeding was reopened for further hearing with respect to § 207.4 (a) (3) and (5) of said rules, that said hearing has been held, and after consideration by the entire Commission, the Commission on this date hereof, has made and filed a report on further hearing containing its findings of fact and conclusions thereon, which report is hereby made a part hereof: [1]

It is ordered, That the said order of February 2, 1955, referred to in the second preceding paragraph hereof, be and the same is hereby, vacated effective December 1, 1955, and that the following rules and regulations be, and the same are hereby prescribed to become effective on December 1, 1955:

Section 207.4 (a) (3) and (5) are amended to read as follows:

§ 207.4 Augmenting equipment. • • •

(a) • • •

(3) Shall specify the period for which it applies, which shall be not less than 30 days when the equipment is to be operated for the authorized carrier by the owner or employee of the owner; excepting:

(i) That equipment specified in section 203 (b), (4a), (5), and (6) of the act, (49 U. S. C. 303 (b), (4a), (5), and (6)), may be utilized by authorized carriers under contracts, leases, or other arrangements applying for any period, upon completion of a movement in which such equipment is exempt from regulation by the Commission except as to qualifications and maximum hours of service of employees and safety of operation and standards of equipment, under the provision of the act just cited, and is next being utilized by the authorized carrier in a loaded movement in any direction and/or series of loaded movements over reasonably direct routes in the direction of the general area in which the exempt movement originated, or in the direction of the area in which the equipment is based; provided the authorized carrier receives, prior to the execution of the lease, a statement signed by the owner of the equipment, or some one duly authorized to sign for the owner, authorizing the driver to lease the equipment for the return movement or movements, and a statement signed by the driver specifying the origin, destination, and the time of the beginning and ending of the exempt movement.

(ii) That equipment owned by an automobile carrier or tank-truck carrier or held by such authorized carriers under lawful leases and used in the transportation of motor vehicles and liquid commodities, in bulk, respectively, may be leased or subleased to other such authorized carriers for round trips.

• • • • • •

(5) Shall specify the compensation to be paid by the lessee for the rental of the leased equipment; provided, however, that such compensation shall not be computed on the basis of any division or percentage of any applicable rate or rates on any commodity or commodities transported in or on said equipment, or on a division or percentage of any revenue earned by said equipment during the period for which the lease is effective, except this latter proviso, relating to compensation, shall not apply to:

(i) Equipment used in the transportation of household goods, of motor vehicles by automobile carriers, of liquid commodities, in bulk, in tank vehicles, of oil-field and pipe-line equipment, materials and supplies, as described in Mercer Extension—Oil Field Commodities, 46 M. C. C. 845, and vehicles equipped with mechanical refrigeration when used in the transportation of commodities requiring refrigeration.

(49 Stat. 546, as amended; 49 U. S. C. 304)

Notice of this order shall be given to the general public by depositing a copy hereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 973]

[Docket No. AO 178-A6]

HANDLING OF MILK IN MINNEAPOLIS-ST. PAUL, MINN., MARKETING AREA

RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the act, and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the order, as amended, regulating the handling of milk in the Minneapolis-St. Paul, Minnesota, marketing area. Interested parties may file exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary Statement. The hearing on the record of which the proposed marketing agreement and order was formulated was conducted at Minneapolis, Minnesota, on May 17–19, 1955, pursuant to notice thereof which was issued on April 27, 1955 (20 F. R. 2933).

[1] Filed as part of the original document.

The material issues of record related to:

1. Replacing the present individual-handler type of pool with a market-wide pool;
2. The scope of the revised regulation;
3. Adjusting class prices as the ratio of producer receipts to Class I sales varies;
4. Providing a payment on other source milk utilized in Class I;
5. Incorporating a "base-excess" plan for prorating returns to producers; and
6. Revising certain other provisions of the order.

Findings and Conclusions. The following findings and conclusions on the material issues are based upon the evidence in the record:

1. *Type of pooling.* The order should be amended to provide for distributing returns to producers on the basis of a market-wide pool instead of the individual-handler pools now provided.

The method of pooling does not affect the obligations of handlers; they will continue to be charged the minimum class prices for the quantities of milk used in each class. Under individual-handler pooling the class utilization of milk by each handler has been ascertained, the blend price payable to producers has been computed, and such blend price paid to those producers who supply milk to the specific handler. Under the market-wide system of pooling, the class utilization of all handlers in the market will be combined for the computation of a single blend price payable to all producers in the market, regardless of the class utilization of the particular handler to whom they may deliver their milk. As a matter of practice the principal cooperative association of producers in the Twin City market has operated a market-wide pool for its membership. The returns from each of the dealers buying milk from association members have been combined with the sales proceeds of manufactured dairy products produced in the association's own plants, and the resultant blend price has been paid to all members.

In recent years increased population in the market and its suburbanization caused an expansion of the milk procurement territory. The principal producers' association has expanded its territory and other suppliers have also entered the market. At present there is a considerable diversity in the operation of the handlers in this market. Most of the handlers served by the principal association are specialized fluid milk operators, and leave the function of caring for the seasonal and daily reserves of Class II milk entirely to the association. The association, on the other hand, operates in three capacities. It supplies such quantities of Class I milk as its handler-customers require, manufactures or otherwise disposes of Class II milk, and also assumes the responsibility of procuring any supplemental milk which the bottling handlers may need. Other handlers are in intermediate positions.

The function of caring for the seasonal and daily reserves of milk which cannot be used for bottling, but must be available for such use and the corollary function of supplying supplemental milk should be shared equally by all producers in the market. Since these functions can no longer be performed in a reasonably satisfactory manner through the rebending of proceeds by the principal producers' association, they should be accomplished by the adoption of market-wide pooling.

2. *The scope of the regulation.* At the present time the marketing order extends to all milk received by a plant which is disposing of milk as a Class I product within the marketing area, irrespective of the grade or quality of the milk. Thus a substantial volume of milk produced only for manufactured products is classified and priced by the order.

The order should now be amended to apply only to plants which receive milk which is produced in conformity with the Grade A standards established by municipal or State authority. Recently the two major cities in the marketing area began to require that only milk of Grade A quality be disposed of for consumption in the city. While it is legally permissible for non-Grade A milk to be sold in the marketing area in some of the suburban territory outside the corporate limits of Minneapolis and St. Paul, the evidence reveals that very little milk other than Grade A is being disposed of within the marketing area. It appears that only one handler is receiving and disposing of non-Grade A milk within the marketing area, while one additional handler bottles both Grade A and non-Grade A milk, but disposes of the non-Grade A milk entirely outside the marketing area.

Some of the handlers argued that the order should continue to regulate non-Grade A milk as well as Grade A milk. It was their contention that if the regulation were lifted from non-Grade A milk, there might be an increase in the sales of such milk and regulated handlers disposing of Grade A milk would be placed at a competitive disadvantage. There is also much testimony in the record, however, to the effect that sales of non-Grade A milk have declined very rapidly in recent years, not only in the marketing area itself, but also in the rural areas adjacent to the market. Indications are that this trend will continue and that the volume of non-Grade A milk disposed of for fluid consumption will continue to decrease. Under the circumstances it is concluded that the regulation should be confined to milk which is produced in conformity with State or municipal Grade A requirements.

The change from individual-handler to market-wide pooling necessitates a reconsideration of those definitions which identify the milk to be priced and pooled under the order. The definitions of "handler", "pool plants" and "producer" are the principal ones which determine the milk to be priced.

The definition of "handler" should be all-inclusive. The handlers are the parties who are regulated under the order. Certain categories of handlers such as producer-handlers, specified public institutions, and handlers primarily associated with other markets are subsequently exempted from certain portions of the order regulation. However, the minimum requirement applicable to all of them is that they make such reports to the market administrator as may be required to verify their special status under the order. The primary category of handlers are those who operate pool plants. These are the plants which supply the market with milk in such quantities and with such regularity as to constitute a part of the fully priced and pooled supply of milk. A second category of handler is comprised of operators of plants from which milk is distributed on routes in the marketing area but in insufficient quantity or regularity to qualify as pool plants. The third class of handler is a cooperative association which may be faced with a necessity of marketing its members' milk. On such quantities of milk as is customarily received at a pool plant, but which a cooperative association diverts for a temporary period to a nonpool plant, the association would be a handler for the purpose of reporting the quantities of milk and its utilization. If the association is defined as a handler for such milk, even though it has no plant, the producers whose milk is so diverted will continue to receive the uniform price under the order and their milk will be available for fluid use when needed in the fall months or at other times.

There are two major categories of plants which constitute the regular supply of milk for the marketing area and which should be defined as "pool plants." One group is the distributing plant in which milk is pasteurized and bottled, and from which it is distributed in the marketing area. Many of these plants are physically located within the marketing area but others are some distance away. The second major type of plant is one at which milk is received from producers, weighed, tested, cooled, and delivered in bulk to the distributing plants for bottling purposes.

(a) *Distributing plants.* A "distributing plant" should be designated as a pool plant if the quantity of milk distributed on routes in the marketing area as Class I milk in any month is equal to 15 percent or more of the total Class I distribution of such plant. A distributing plant should meet the further qualification that half or more of its total supply of milk approved for fluid use be sold on routes, whether inside or outside the marketing area. In view of the considerable seasonal variation in production in this market, "half" should be defined as 40 percent during the flush months of January through June and 60 percent during the low production months of July through December. This latter provision will limit the definition of distributing pool plants to those primarily engaged in the distribution of fluid milk rather than in the manufacture of dairy products. Most of the distributing plants now in the market are exclusively Class I operators and all of the others have a high proportion of their sales in Class I. Any plant which is not primarily engaged in the distribution of fluid milk should be deemed primarily a supply plant, and its status in the pool should be judged by the standards applicable to such plants.

A distributing pool plant should sell at least 15 percent of its Class I milk on routes in the marketing area in order to be significantly associated with the Twin City market. It appears that all distributing plants now serving the market sell substantially more than 15 percent within the marketing area and that any plant that might subsequently sell a smaller proportion than 15 percent would be primarily associated with some other market. Such a plant should not be subject to price provisions of the order since conditions in its primary market may differ substantially from those in this market, and its supply should not be included in the market-wide pool. The milk distributed in the marketing area from such a plant would be considered as "other source" milk and would be subject, under certain conditions, to the compensatory payments described in a subsequent portion of these findings.

(b) *Supply plants.* In as large a market as the Twin Cities, the distributing plants do not commonly obtain enough milk directly from farmers to meet their bottling requirements. Rather, they supplement the direct-received milk with milk from supply plants which have assembled milk from farmers. (The problem of caring for the daily and seasonal reserves of milk also contributes to this specialization of plants; manufacturing is commonly done in large-scale plants instead of in the distributor plants.) During the fall months of lowest production the Twin Cities market draws heavily on supply-plant sources of milk. In the months of August through November a large proportion of the milk received at these plants is transferred or diverted to the distributing plants. During the flush season, however, the supply plants may be called upon for little or no milk. The supplies they receive from producers are manufactured into dairy products and they may also manufacture milk received at the distributing plants in excess of their fluid needs. It is apparent that the pool plant standards for supply plants should be based upon the quantity shipped to distributing plants during the later summer and fall months. Supply plants which have furnished substantial quantities during the fall should then remain qualified as pool plants during the following flush months when their milk is not physically needed for bottling purposes.

It appears from the evidence of record that the supply plants which have been drawn upon for supplemental milk in the fall months have furnished a large proportion of their total supply to the Twin City market. In 1953 and 1954, September was the month of shortest supply. August and October were the next shortest (and about equally so) and November was the fourth shortest. These are the four months in which it was proposed that the pool plant status of supply plants be determined. On the basis of the 1953 and 1954 data, and testimony based on experience over a period of years in the procurement of milk from supply plants it is concluded that supply plants should furnish not less than 50 percent of their total available supply to distributing plants in each of the months of August through November.

A supply plant would qualify as a pool plant the first of these months in which it shipped the 50 percent of its supply to distributing plants. Also, any supply plant which might ship 50 percent or more in a month other than August through November would be a pool plant for such month. Further, as previously indicated, any supply plant which ships 50 percent during each of the four specified months will be a pool plant through the following July without being required to make additional shipments. The operator of such plant must make written application to the market administrator on or before December 31 requesting designation as a pool plant through the following July 31.

One aspect of supply plant operation is unique, so far as the Federal order markets are concerned. One of the major supply plants is physically located within the marketing area and others are so close that it is more efficient to divert loads of producer milk directly to the distributing plants when needed than to receive it at the supply plant and take it to the distributing plants. During some of the months of lowest production, one or more of these supply plants may be shut down completely. During the remainder of the year such plants are needed to supply milk on call to distributing plants, and to manufacture the seasonal excess. Since the milk involved is part of the regular market supply, it appears best to consider the milk which has been diverted from supply plants to distributing plants during the four specified fall months as having been received at the supply plants and shipped to the distributing plants. The diverted milk would be so reported by the plants involved and the pool status of the supply plants would be determined by comparing total receipts with the quantities sent to distributing plants, the diverted milk being included in both the receipts and shipments.

The amended order further provides that those supply plants, on which the market has relied in the past for its supply of milk, be specifically designated as pool plants until August 1 of the year following its effective date. Thus, these plants will not be deprived of pool status during the coming flush season merely because of the fact that the amendment was not effective during the entire qualifying period.

3. *Class prices.* No change should be made in the Class I differentials currently provided in the order.

At the present time these differentials are subject to adjustment of a like amount whenever the "supply-demand" adjustment factor provided in the order for the Chicago, Illinois, marketing area affects the Class I differentials in that market by more than 6 cents. The use of the Chicago "supply-demand" factor should be discontinued in favor of one based on the relationship of receipts to Class I sales in the Minneapolis-St. Paul market.

At the time the Chicago provision was adopted in the Minneapolis-St. Paul market, Grade A ordinances had been effective for only a few months in Minneapolis and St. Paul and there were no data from which to pattern a supply-demand adjustment based on local experience. Because of the proximity of the supply areas of the two markets it was felt that adjusting the Minneapolis-St. Paul price by a like amount whenever the Chicago Class I price was increased or decreased as a result of changing supply and demand conditions would maintain a proper alignment of prices between the two markets and prevent any serious dislocation of supplies.

Experience indicates that the use of the Chicago adjustment has not been as effective as had been anticipated in achieving the desired ends. Although there has been some slight shifting of milk from the Chicago market to the Minneapolis-St. Paul market, total supplies of Grade A milk in the latter market have decreased and the number of Grade A producers has dwindled steadily. At the same time, Class I sales have shown a substantial increase. During each of the months of August through November 1954, Class I sales by handlers exceeded the combined receipts of Grade A milk from farmers at all regulated plants and at those plants which constitute the normal source of emergency milk for the markets. In September 1954, Class I sales were equal to 115 percent of Grade A receipts by the aforementioned plants.

It is evident from these figures that the Chicago "supply and demand adjustment" which has substantially reduced the Class I price every month since it was adopted in the Minneapolis-St. Paul market, has failed to maintain an adequate supply of milk for this market. In order to bring supplies into balance with sales and to maintain a proper alignment between the two, it is necessary that the Class I price in the Minneapolis-St. Paul market be adjusted as the relationship between receipts and sales varies in the market itself.

The proponents of the proposal to adjust Class I prices as local supply and demand conditions vary, submitted a plan whereby the price in any month would be adjusted on the relationship that receipts and sales in the second and third preceding months have to the yearly average during 1954. The effect of such a plan would always be to increase the Class I price during the months of short production and to decrease such prices during the months of flush production. This would tend to defeat the aims and objectives of the supply-demand adjustment. While such a pricing pattern would undoubtedly exert considerable influence upon the seasonal pattern of production in the market, it would have very little effect in adjusting receipts to Class I sales.

To accomplish the desired objectives of aligning market receipts with Class I sales, the Class I differential should be adjusted as the ratio of receipts to sales during any two-month period varies from the percentage established for the

same two months during the base period. Experience elsewhere indicates that the use of a two-month moving average as the factor in adjusting prices provides the necessary flexibility, yet prevents the rather wide changes in prices that might result from the use of a single month.

Since the Minneapolis-St. Paul market has been in extremely short supply for the past two years it is necessary, in determining the basic percentages to be used as an index of the supply-demand ratio, to adjust the actual percentages existing in 1954 to reflect a more nearly adequate supply of milk. In September, the month of shortest supply in 1954, receipts from producers shipping to all the plants regularly associated with the market were only 87 percent as large as Class I sales. The deficiency was supplied by emergency milk. In order to have a full supply of producer milk at all times receipts would have to exceed Class I sales. However, since this goal cannot be reached immediately, it appears that a September supply of producer milk just equal to Class I sales would be an appropriate standard for the supply-demand adjustment. The monthly utilization percentages for 1954, the same percentages after adjustment to reflect 100 percent for September, and the new standard percentages which reflect the average of the adjusted percentages for the second and third preceding months are as follows:

Month	Actual utilization percentage	Adjusted utilization percentage	Standard percentage
January	76.3	66.1	91
February	72.2	62.6	82
March	71.5	62.0	71
April	70.8	61.4	64
May	70.1	60.7	62
June	71.0	61.5	62
July	90.1	78.1	61
August	109.5	94.9	61
September	115.4	100.0	70
October	109.2	94.6	86
November	101.1	87.6	97
December	88.1	76.3	97

To prevent too wide an adjustment in the event unusual short-run conditions occur, it is provided that a ceiling of plus or minus 24 cents be placed on the amount by which the supply-demand ratio may affect the Class I price. Such a ceiling will also recognize that supply responses to the marketwide pool and base rating plans cannot be accurately predicted. As experience accumulates, appropriate change can be made in the supply-demand adjustment.

The Class I butterfat differential should be revised to equal 135 percent of the price of butter during the months of July through November, and should remain at the present level of 125 percent of the price of butter during the remaining months. This revision will result in reflecting in the value of the butterfat a portion of the seasonal increase in the price of Class I milk. At the present time, with the butterfat differential at the same level throughout the year, all of the seasonal variation in prices is reflected in the serum portion of the milk and none is reflected in the butterfat. Prior to the enforcement by the cities of Minneapolis and St. Paul of the requirement that fluid cream be processed from Grade A milk it was necessary to maintain the price of butterfat in cream approximately at the level at which handlers could procure such butterfat from non-Grade A sources. With the adoption of full Grade A requirements, however, it appears that a greater portion of the higher seasonal premium paid for Grade A milk during the months of July through November should be attributed to the butterfat utilized in Class I milk.

The butterfat differential to producers should also be modified. For some time this differential has been slightly below the value of butterfat in Class II. Originally the two were the same but in a previous amendment the value of butterfat in Class II was increased slightly without a corresponding increase being made in the producer butterfat differential. It appears, however, that the producer butterfat differential should reflect the average utilization value of the butterfat in milk just as the uniform price reflects the average utilization value of the whole milk. It is concluded therefore that the producer butterfat differential should equal the weighted average value of the butterfat in the pool.

Since the butterfat differential to producers is merely a means of prorating to producers the total amount paid by handlers for milk, the level of it has no effect on handlers' costs.

4. *Provisions relating to "other source" milk.* Under the present individual-handler pool order, all of the plants from which the regular supply of milk for the market is obtained are fully regulated. The definition of fluid milk plant covers all the distributing plants, that is, those from which any route sales are made in the marketing area. Similarly, any supply plant from which a significant volume is obtained is also a fluid milk plant and fully regulated. The only exception is that during the four months of lowest production a plant may supply supplemental bulk milk without becoming subject to the order.

The provisions for determining the classification of producer milk at plants receiving milk both from producers and from other sources should remain the same as under the present order. The order provides that other source milk be allocated to the lowest classes of use in such plants. This gives producer milk a priority on the highest available utilization. Any supplemental milk which a regulated handler may purchase in bulk or bottled form from any other Federally regulated market is also considered as other source milk under the Minneapolis-St. Paul order and is allocated to the lowest available utilization to determine the classification of any producer milk in the handler's plant.

The amended order attached hereto provides for a market-wide pool. Under this pooling plan, handlers whose proportion of utilization in Class I is greater than the market as a whole make payments into an equalization fund and those handlers whose proportion of utilization in Class I is less than the average for the market receive payments out of the equalization fund. This method of payments into and out of the equalization fund is the essential mechanism for providing uniformity of payments to farmers irrespective of the handler to whom they deliver their milk and provision for equalized payments to farmers is necessary to the maintenance of stable and orderly marketing conditions in the Minneapolis-St. Paul area.

Because handlers with less than the market average proportion of milk in Class I may draw payments out of the producer-settlement, or equalization fund, there is an advantage to any plant operator who has less than the market-wide average proportion of milk in Class I to place himself under regulation in order to obtain these payments and, thereby, make it possible for him to pay the uniform price established under the order to his producers. The smaller the plant operator's proportion in Class I, the greater is the advantage of regulation to him.

This situation is particularly true in the Minneapolis-St. Paul market which is located in the heart of a large milk producing area. There are relatively close to the market many plants with a substantial volume of milk which is manufactured into dairy products. As noted above, under a market-wide pool, if there were no performance standards which a plant is required to meet to share in the equalization fund, such plants, by making a token sale of Class I milk in the area, could draw substantial amounts of money from the producer-settlement fund without assuming any responsibility for supplying the needs of the market. Such performance standards being necessary, it is equally necessary to provide a means whereby such plants can not disrupt the stability of the market by disposing of a small percentage of their milk in the market completely free from regulation. Since this milk would otherwise be manufactured into dairy products, any return above the manufacturing value provides an incentive for such plants to seek an outlet in the fluid market if they can do so without becoming subject to any type of regulation.

Likewise there are other plants within hauling distance of the Minneapolis-St. Paul market which are closely identified with other markets. Since reserve supplies are an essential part of any fluid milk business, such plants, during most of the year and perhaps during the entire year, receive more milk than can be disposed of to their usual outlets. Such excess milk is normally disposed of in manufactured dairy products. As in the case of the manufacturing plants, any return above the manufacturing value would provide an incentive for such plants to seek to dispose of such milk in the Minneapolis-St. Paul market if they could do so without becoming subject to any type of regulation.

It is necessary for the reasons stated, therefore, that that milk which in fact constitutes the regular and normal sources of supply for the marketing area be distinguished from other milk which might enter the marketing area. The pool plant definitions of the order, described under (a) and (b) above, are designed to identify the regular and normal sources of supply for the Minneapolis-St. Paul marketing area. Any plant, no matter where located, may bring itself under regulation by performing in the manner required, and any plant may relieve itself of regulation when it no longer operates in a way that brings it within the scope of the order. Under the circumstances, the decision as to whether a plant will be fully regulated under the order or will not be subject to regulation is determined by the decision of the plant operator himself.

Any milk sold in the marketing area must, of course, conform to the sanitary requirements imposed by the local health authorities. However, handlers may meet these requirements without becoming regular and dependable sources of supply for the market since their milk may have been obtained as a supplemental supply during temporary periods of emergency or their sales may be an extremely small portion of a primary distribution in some other area. Clearly, it is not possible to identify the regular and normal supply for the Minneapolis-St. Paul area solely on the basis of sanitation requirements.

Neither is the shipment of milk to the marketing area for Class I utilization a practical basis for identifying the milk which should be fully regulated under the order. If any small, incidental, or accidental shipment of milk into the marketing area were to bring all of the milk at the plant whence such shipment was made under total regulation, great hardship could be caused to the operator of such plant and to the farmers delivering milk to such an operator. Considerable quantities of milk are, in fact, disposed of in the regulated marketing area as Class I from plants which are not normal or regular sources of supply for the marketing area, particularly in the fall season, when supplies are seasonally lowest. Moreover, the operators of the plants from which such shipments arise may not wish to bring their plants under total regulation. There are many situations in which plant operators may find it economical or desirable to make shipments of small quantities of milk to the marketing area and with respect to which it is neither necessary nor desirable in terms of effective regulation to bring the operators of such plants fully under the regulation. For instance, a plant which is associated with a market outside of the Minneapolis-St. Paul area may find it advantageous to ship milk to a plant regulated by the order in order to have such milk converted into manufactured dairy products. It is quite possible, however, through misunderstanding, or from errors of estimating the utilization of milk, for milk which was intended for utilization in Class II products to be assigned a Class I classification. If through such accident or misunderstanding a plant were placed completely under regulation, considerable hardship, unnecessary to effective regulation, might result. For this reason, it is not practical nor desirable to place a plant totally under regulation merely because a small quantity of milk shipped by it to the market finds its way into a Class I utilization.

Since neither the health regulations nor the possibility that some milk from a plant may be used for Class I purposes in the marketing area provides an adequate measure of a plant's regular status in the market, the pool plant provisions are based on regular performance as previously described. The regular supplies are fully priced under the order and participate in the equalization pool.

The irregular supplies of "other source" milk which may be sold in the market are not priced under the order. The conditions under which unpriced milk has been or would be drawn upon to supply Class I sales in the area have been reviewed. If any handler were able to obtain a price advantage on such milk, he would be in a favorable competitive position relative to the handlers buying producer milk at class prices. To prevent such an advantage the attached amendment provides that a payment shall be made into the producer-settlement fund on all other source milk classified as Class I at a rate equal to the difference between the Class I and Class II price. Payments at this rate are necessary to maintain the integrity of the pricing and pooling provisions of the order. The only exception to these payments is that they are not assessed at times when total supplies of producer milk in the market are not adequate to cover Class I needs and a reasonable reserve. This exception is described in detail in a subsequent paragraph.

It appears from the record that essentially all of the other source milk utilized for Class I purposes in the marketing area has been of Grade A quality and, therefore, similar in quality to that regularly disposed of in the marketing area for Class I. It was produced as part of a supply intended primarily to meet the demand for milk for fluid consumption (or the equivalent of Class I milk uses under the order) in some area other than the area specified to be regulated by this order but it was not used for such purposes in the area for which it was produced. It was, instead, milk which became surplus to the needs for milk for fluid disposition in the area for which it was produced. If the plant operator had not found a sale for such milk within the Minneapolis-St. Paul marketing area, it would have been necessary for him to convert the milk into a manufactured product. The most likely surplus disposition of this other source milk would have been to plants engaged in processing milk into such manufactured dairy products as butter, cheese, ice cream, or nonfat dry milk solids.

Its value, therefore, to the plant operator was a surplus milk value. The Class II price for milk under the attached amendments is based on the value of milk when it is converted into butter and nonfat dry milk solids and this is the price which regulated handlers are required to pay for milk when they convert it into manufactured products. The Class II price, therefore, represents an accurate and fair representation of the value to the receiving plant operator of surplus milk which is disposed of as other source milk for Class I purposes in the marketing area.

If unregulated plant operators were allowed to dispose of surplus milk for Class I purposes in the regulated marketing area without some compensating, or neutralizing provision in the order, it is clear that the disposition of such milk because of its price advantage relative to fully regulated milk, would displace the fully regulated milk in Class I uses in the marketing area at whatever time such milk might be available. The plan of Congress, as contemplated under the Agricultural Marketing Agreement Act of 1937, of returning minimum uniform prices to the producers for the regulated marketing area, would be defeated. Moreover, inefficiencies in the marketing of milk would be encouraged, for the regulated market would obtain its Class I milk not from the regular and normal sources of supply for the market but from other sources of supply generated solely as a result of the occasional price advantage created for unregulated milk by the regulation itself. Providing for some method of compensating for, or neutralizing the effect of, the advantage created for unregulated milk therefore is an essential and necessary provision of this order. Since the value for Class I milk in a regulated market is established at the level of the Class I price provided for in the order and since the true value of other source milk when disposed of in the marketing area is the Class II value, a payment computed as the difference between the Class I price and the Class II price will remove the advantage which other source milk would have when disposed of for Class I purposes in the marketing area.

There is a possible alternative method of determining the rate of the compensatory payments. Such rate would be equal to the difference between the Class I price and the price actually paid by a handler for other source milk of Grade A quality. Under the circumstances which prevail in the Minneapolis-St. Paul marketing area, a handler normally would come into possession of this type of other source milk by purchasing it from an unregulated milk plant. The milk which such a handler receives under these circumstances is at a different stage in the marketing process than is the milk which would be priced under an order. Order prices apply to milk as received at the first plant from individual farmers. The price paid by a handler for other source milk applies to milk which has already been received at the first plant, weighed, tested, cooled and placed in a transportation conveyance. Obviously, the handler generally will pay more for other source milk under this condition than he would for milk received directly from farmers, for the plant operator who first receives the milk from farmers must necessarily obtain a markup if he is to be recompensed for the services which he has performed on the milk. In some situations, the purchase of other source milk might be made from a plant operated by the same company as the regulated plant. Thus, the transaction would be primarily a matter of bookkeeping within the same

company and it would be advantageous to the company if the price for the milk were to be stated as the Class I price. For by this means, all compensatory payments into the equalization fund would be avoided. Even between plants controlled by different companies, the advantage of showing that the price at which the milk was exchanged was at least as high as the Class I prices would give great impetus to the effectuation of paper transactions showing a price at least equal to the Class I price while undisclosed payments were made in order to avoid the imposition of the compensatory payments into the equalization fund. Under these circumstances, it is impractical from an administrative standpoint to provide for a payment the actual amount of which is within the control of parties to the transaction. It is essential instead that the payment be computed on an objective basis and that it be equal for all handlers for similar transactions. The proposed method of computing the payments conforms with these requirements but this alternative method fails to do so.

Another possible rate of payment would be based on the difference between the price paid by the first receiver to farmers and the Class I price. However, from evidence presented at the hearing it is clear that this method would also be impractical under the circumstances prevailing in the Minneapolis-St. Paul market. The primary reason is that some plants purchase some or all of their milk from other plants rather than directly from dairy farmers. Also the payment plans which are used by unregulated operators include such varying practices as paying uniform prices on a straight utilization basis, paying on a base and excess plan, paying irregular and nonuniform premiums, absorbing transportation charges, and paying on a variety of butterfat and location differentials. This wide variety of payment plans would render impossible an accurate ascertainment of the actual prices paid to farmers by the first receiver. But what is equally as important, as shown above, is that the price actually paid to farmers does not determine the true value of other source milk disposed of in the marketing area. The true value for such milk, irrespective of the price paid for it to farmers, is the manufacturing value because other source milk disposed of in a marketing area is in fact the surplus of milk produced primarily for sale in an area outside of the regulated marketing area. Hence, although other suggestions for computing the rate of the compensatory charge have administrative and other difficulties inherent in them, in the final analysis even if they were administratively feasible, they would not be fully effective in removing the advantage which attaches to other source milk when it is used as Class I milk in the regulated marketing area. Only the difference between the Class I price and the Class II prices accurately reflects this advantage and consequently only this rate will be fully effective in dealing with the problem of intergrating other source milk (when used as Class I) into the regulatory plan.

This same rate of payment should apply both to other source milk disposed of by pool plants and to other source milk disposed of on routes in the area by nonpool plants. In the case of the plant which is primarily a manufacturing plant the alternative use of the milk is in manufactured dairy products. In the case of other nonpool plants the operator has the same opportunity to purchase other source milk at the opportunity cost level as do pool plant operators. In addition, such a plant probably has surplus milk which it would be desirous of disposing of on any basis that would yield a higher return than its surplus value. With surplus uses as the alternative and no compensatory payments to make the operator of such a plant would be at a considerable advantage in underbidding the handlers of regulated milk on large contracts for such outlets as hospitals, government institutions and similar large purchasers. Such a situation might also afford the nonpool plant the opportunity to use such price advantage in establishing a regular trade on wholesale and retail routes within the marketing area.

It is considered inappropriate also that a plant disposing of only a small percentage of its milk in the marketing area should be subject to full regulation because of the small percentage disposed of therein. Such a regulation might place a plant of this kind at a competitive disadvantage with respect to the greater proportion of its Class I sales, i. e., those made in unregulated areas. The application of the compensatory payment only to that milk sold within the regulated marketing area, while at the same time allowing the milk disposed of in unregulated areas to be free of price regulation, affords the necessary protection to the regulatory plan and at the same time accommodates the sale of milk in unregulated areas.

Compensatory payments should not apply to purchases of other source milk at times when the market as a whole is short of producer milk. A somewhat similar effect is achieved under the present order by allowing a city plant to purchase from unregulated sources during August–November without making its supplies subject to regulation. At times in the past when the Twin City market has been short of producer milk, supplies of quality milk from other sources have also been limited and more costly than the minimum Class I prices established under the order. In view of the size of the Twin City market and its close relationships with the Chicago market it is probable that other source milk would also be expensive during any future situation of short supply.

The Minneapolis-St. Paul market should be considered short whenever producer receipts are less than 105 percent of the gross Class I utilization at pool plants. The market can be considered definitely short of milk at this monthly average percentage because of daily and weekly variations in sales and receipts during the month. The percentage standard is based on market-wide data. No handler can obtain other source milk without an equalizing payment merely by buying short from his own producers. He must either take on sufficient supplies for his own use or depend upon other handlers who have supplies in excess of their own Class I needs.

No compensatory payments are required under this order on milk classified and priced under another Federal order. The close relationships between the Twin City and Chicago markets have already been described. Since the Class I prices in these two competing markets are so closely aligned, there is no prospect of handlers in either of them achieving a competitive advantage over any significant period of time.

All funds collected from other source milk should be added to the producer-settlement fund. Since the compensatory payments apply only when there are adequate supplies of producer milk in the market, the payments will compensate producers for the loss of income represented by the Class I sales of other source milk.

The regulated handler should be obligated to make the compensatory payments. There will be no difference in actual price paid for milk whether the payment is made by the regulated handler or by the operator of the unregulated plant from which the other source milk is obtained. However, the regulated handler makes the actual distribution of milk and reports its utilization to the market administrator. Therefore, from an administrative viewpoint he is the logical one to make the payment.

5. *Base-excess plan.* A base-excess plan for returning the proceeds of milk sales to producers in a way which will encourage more uniform seasonal production should be incorporated in the order.

The Twin City Milk Producers' Association whose membership comprises nearly 90 percent of the total number of producers in the market has operated a base-excess plan among its own membership for several years. It appears that this plan has contributed substantially to the improvement in seasonality which has occurred since 1950. In 1950, September production was only 56 percent as large as in May, but the percentage has increased each year until in 1954 it was 70 percent as large. In view of this favorable experience and the need for continued progress in the seasonal production of all producers in the market the base-excess plan should be incorporated in the order.

The essential features of the base rating plan may be briefly summarized. Producers establish a base equal to their daily average production during the three shortest months. Then, during the following flush period each producer is paid for base milk at a price reflecting the highest class utilization of base milk and for any milk which he delivers in excess of his base at approximately the Class II or manufacturing price. He is, thereby, encouraged to maximize his deliveries during the low production months and to minimize the quantities of excess milk delivered during the flush production months. A more level production in the Twin City market will lessen the market's dependence upon emergency sources of milk during the short period and will also reduce the quantities which must be converted into manufactured dairy products during the flush months.

August, September, and October are the months of lowest production and it is appropriate that bases be established during this period. Each producer's base should be equal to his daily average deliveries during the three months. In the case of every-other-day delivery the total quantity shipped by the producer during the three-month period would, of course, be divided by the total number of days. Producers should deliver milk on at least 78 days of the 92-day period in order to establish a complete base. This allows a two-week leeway for possible degrading by health authorities or other interruptions to production. The daily base of a producer who delivers on less than 78 days should be computed by dividing his total deliveries by 78. Such a producer will, however, have an opportunity to relinquish such base and establish a new one as hereinafter described.

The months of January through June are the six months of heaviest production and should constitute the base-operating period. These are the months during which each producer will be paid a manufacturing price for any excess milk delivered by him and the higher base price for his base milk. Producers who join the market after the August through October base-forming period will not have a regular base for the following January through June. The proponents testified that such producers should be allowed to establish an equitable base and thereby obtain their share of the base price during such portion of the base-operating period as they ship milk to market. The proponents also recognized that special consideration should be given to established shippers who failed to make a reasonable base through circumstances beyond their own control. Damage resulting from fire or storm, an outbreak of disease in the herd, breeding difficulties, and similar circumstances might prevent an established producer from making a representative base in any particular fall period.

It is concluded that the new producer and the established one who has suffered misfortune are essentially similar cases and that each can be resolved by allowing them to establish a new base. A new producer's base should be figured at a specified percentage of milk delivered during the first full calendar month he was on the market; similarly an old producer should be allowed to establish a new base on the quantity of milk delivered in the calendar month following the date on which he notifies the market administrator of his intention to relinquish his old base and establish a new one. Since production in the market is normally higher during other months than it is in the base-forming months of August, September and October, the new base should be only a fraction of total deliveries during such months. Furthermore, neither the new producers nor the old shippers who elected to set a new base were fully effective suppliers of milk during the previous short season. Any new base established during November should be equal to 75 percent of deliveries during that month; during December or January, to 65 percent of deliveries; and during February, March, April, May and June, to 55 percent of deliveries. These percentages are approximately 10 percent lower than the average experience in the market during 1953 and 1954. If a new base is made during any of the months of January through June it should apply for payment purposes in the same month it is made, and milk received from any producer who enters the market in the middle of a month will be considered as excess milk during the remainder of that month.

Each producer establishes a new base each fall. Also, as previously explained, he has the option of relinquishing such base and establishing a new one under the same rules that apply to a new shipper. It follows that the base will have no permanent value and that only a minimum of rules need be provided for transfers of ownership or other contingencies. The producer to whom the base applies can simply be designated as the one identified on the payroll of the handler to whom the milk is delivered. The proponent proposed that the holder of the base be permitted to transfer any portion of it to any other party. It appears that the effectiveness of the base-excess plan in leveling production plan would be jeopardized by such a provision and that the record-keeping involved would place an unwarranted burden on the office of the market administrator. However, entire bases should be freely transferable upon appropriate notice to the market administrator.

6. *Other proposed changes.* The changeover from an individual-handler pool to a market-wide pool necessitates the revision of the order to include provisions relating to the producer-settlement fund. This fund is the mechanism through which the distribution of uniform payments to all producers is accomplished. Handlers whose utilization value is greater than the amount required to be paid producers are required to pay the difference to the market administrator. The market administrator uses such funds to make up the payment to handlers whose payments to producers are greater than the utilization value of their milk.

Audit adjustments are also cleared through the producer-settlement fund. For the purpose of insuring an adequate reserve in the fund to cover any unusual audit adjustments or the failure of handlers to make prompt settlement, it is provided that the market administrator, in computing the uniform price, deduct 4 to 5 cents per hundredweight. Not less than half of the reserve is added back in the pool computation each month. Thus, once the order has been functioning for a few months, the reserve maintained will level off at an amount approximately equal to two months deductions. Experience elsewhere has shown that such a reserve is adequate to cover all contingencies.

The order must also provide the dates on which reports are to be filed and payments made to and from the producer-settlement fund. Handlers should be required to file their delivery period reports of receipts and utilization not later than the 9th day of each month. The market administrator should be required to compute and announce the uniform price not later than the 14th day of the month. Payments from handlers to the producer-settlement fund would be due on the 16th day of the month and payments to handlers by the market administrator should be made not later than the 17th day.

This schedule should provide ample time for handlers to complete and file their reports and for the market administrator to compute the uniform price. The schedule of payment to and from the producer-settlement fund is such that producers can continue to receive payment for their milk on the 20th of the month as is provided in the present order.

At the present time the cooperative associations receive the uniform price for milk which is caused to be delivered by them to handlers' plants from producer-members. Since the proposed order provides for a base and excess plan of prorating returns to producers, it appears that the administration of the order would be greatly simplified if handlers were to pay the cooperative association class prices for milk caused to be so delivered. The principal cooperative association attempts to furnish each handler with the approximate amount of milk it requires each day. To accomplish this it is necessary that certain loads of milk be shifted from one plant to another several times during the month. Frequently the plant receiving the milk does not know the identity of the producers whose milk is being received. During the months when producers were being paid on the base and excess plan the additional bookkeeping involved in noting the pounds of base milk and the pounds of excess milk received from each producer in each plant each day would be enormous. Since the cooperative association maintains these records for its members regardless of the plant or plants to which the milk may be delivered, administration of the order will be greatly simplified by requiring handlers to pay for such milk at the class prices, and making the cooperative association the person who is responsible to the producer-settlement fund for such milk.

The present order levies an administrative assessment on all producer milk received by a handler regardless of whether such milk is of Grade A quality. Since the proposed order would regulate only Grade A milk the assessment should be applicable only to the milk of producers as defined in the proposed order. To equalize the overall cost of milk to handlers it should also apply to other source milk utilized in Class I. In the case of nonpool plants which dispose of Class I milk in the marketing area the assessment should apply only to the volume of Class I milk disposed of within the marketing area. This will reimburse the market administrator for the expense incurred in verifying the reports submitted by such nonpool plants, and will not disadvantage them in other markets

by requiring an assessment on milk sold in competition with unregulated plants.

Among other proposals concerning which testimony was offered was one which would increase the Class I price by 70 cents per hundredweight during the months of August through November with respect to milk moved to a plant located more than 100 miles from the market. This provision was proposed as a means of deterring supply plants which were carried in the pool during the months of flush production, from disposing of their milk to other markets at the period of the year when such milk was needed for Class I use by Minneapolis and St. Paul handlers. Such a provision is unnecessary in this market. The standards which have been established for a plant to qualify as a pool plant are such that it would be impractical for a supply plant to contract to supply buyers located in other markets during the periods of short supply. Any premiums that might be secured as Class I milk disposed of to such buyers during the short season would be far outweighed by the advantages of continuing to participate in the market-wide pool during the period of flush production.

A further proposal advanced at the hearing would have established a method whereby the added costs of procuring emergency supplies when the market is short of milk would be spread over the entire market either through the producer-settlement fund or through a similar mechanism. In view of the limited evidence submitted, with respect to both the economic justification of the proposal itself and to the procedures by which such a proration might be accomplished, it must be concluded that no action be taken on this proposal.

It was also proposed that any cream moved more than 100 miles from the market be classified as Class I milk regardless of the use to which it ultimately was put. The evidence, however, shows that virtually all of the cream moved more than 100 miles is utilized in the manufacture of ice cream. If the order were amended to price such cream as Class I, it is likely that it would result in the loss of such sales and that the cream instead of moving for use in ice cream would be manufactured into butter, and thus producers would receive no benefit from such a change. The evidence further indicates that the 100-mile limit should be retained since the administrative inconvenience and cost of audits involving small quantities of cream at plants a greater distance from the market would be prohibitive. Accordingly, it is concluded that no change should be made.

No proposals were made and no testimony was offered in support of any major substantive changes in the provisions of the order other than those specifically discussed in preceding paragraphs. Accordingly, except for changes in the context necessitated by the adoption of the amendments discussed above, the remaining provisions of the order should be continued in their present form.

General Findings. (a) The proposed marketing agreement and the order, amending the order, as amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices for milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order amending the order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order amending the order, as amended, will regulate the handling of milk in the same manner as and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Proposed Findings and Conclusions. Briefs were filed on behalf of most of the producers' associations and handlers in the market. The briefs contained proposed findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that such suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Recommended Marketing Agreement and Order. The following order, amending the order, as amended, is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order.

DEFINITIONS

§ 973.1 *Act.* "Act" means Public Act No. 10, 73rd Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

§ 973.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 973.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency as may be authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 973.4 *Minneapolis-St. Paul, Minnesota, marketing area.* "Minneapolis-St. Paul, Minnesota, marketing area" hereinafter called the "marketing area" means the territory within the corporate limits of the cities of Minneapolis, Robinsdale, and Wayzata in Hennepin County; Columbia Heights in Anoka County; St. Paul and White Bear in Ramsey County; West St. Paul and South St. Paul in Dakota County; together with the following townships and all villages therein: Brooklyn, Crystal, St. Anthony, Golden Valley, St. Louis Park, Orono, Excelsior, Minnetonka, Edina, Bloomington, and Richfield in Hennepin County; Fridley in Anoka County; Mounds View, Rose, White Bear, and New Canada in Ramsey County; Grant, Oakdale, Woodbury, Cottage Grove, and Newport in Washington County; and Mendota, West St. Paul, and Inver Grove in Dakota County; all in the State of Minnesota.

§ 973.5 *Handler.* "Handler" means (a) any person in his capacity as the operator of a pool plant; (b) any person in his capacity as the operator of a plant, which receives its entire supply of milk from pool plants, and at which milk is processed and packaged and disposed of as Class I milk within the marketing area; (c) any person in his capacity as the operator of a nonpool plant from which Class I milk is disposed of in the marketing area on wholesale or retail routes (including plant stores and vending machines); and (d) a cooperative association with respect to the milk of its member-producers which it causes to be delivered to either a pool plant or a nonpool plant for the account of such association. This definition shall not apply to a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities.

§ 973.6 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received at a pool plant, or which is caused by a handler to be diverted to a nonpool plant: *Provided,* That such milk is produced under a dairy farm permit or rating issued by a municipal or State health authority for the production of milk to be disposed of for consumption as Grade A milk.

§ 973.7 *Pool plant.* "Pool plant" means any plant meeting the conditions of paragraphs (a) or (b) of this section, except the plant of a handler exempted in § 973.62.

(a) A plant where milk is processed or packaged and from which not less than 15 percent of its total distribution of Class I milk during the delivery period is on a route(s) in the marketing area: *Provided,* That the total quantity of Class I milk distributed during the delivery period on all routes operated inside or outside the marketing area is equal to 40 percent or more of the total supply received at the plant from dairy farmers or from other plants in any of the months of January through June, or to 60 percent in any of the months of July through December; or

(b) (1) Any plant which has, during any delivery period, delivered to a pool plant(s) described in paragraph (a) of this section an amount of milk equal to 50 percent or more of its dairy farm supply of milk: *Provided,* That if, during each of the delivery periods of August through November, such plant has delivered to a pool plant(s) described in paragraph (a) of this section 50 percent or more of its dairy farm supply, it shall upon written application to the market administrator on or before December 31 of any year, be designated as a pool plant through the following July 31.

(2) In the case of any plant from which producers are diverted to pool plants described in paragraph (a) of this section during any of the months of August, September, October, or November, the milk so diverted shall, for the purposes of this paragraph, be considered as having been received at the plant from which it was diverted and shipped from thence to the plant(s) described in paragraph (a) of this section. Such diversion shall be evidenced by the producers being listed as diverted producers on the payroll reports submitted pursuant to § 973.32 and by appropriate notation on the reports of receipts and utilization submitted pursuant to § 973.30.

(3) From the effective date hereof until August 1, next following such effective date the following plants shall be pool plants in addition to any plants which may qualify as pool plants pursuant to paragraph (a) of this section and this paragraph:

Baldwin Cooperative Creamery, Baldwin, Wis.
Buffalo Cooperative Creamery, Buffalo, Minn.
Butternut Cooperative Creamery, Luck, Wis.
Ellsworth Cooperative Creamery, Ellsworth, Wis.
Hastings Cooperative Creamery, Hastings, Wis.
Rock Ridge Cooperative Creamery, Dresser, Wis.
Twin City Milk Producers Association, Anoka, Minn.
Twin City Milk Producers Association, Elk River, Minn.
Twin City Milk Producers Association, Farmington, Minn.
Twin City Milk Producers Association, Lake Elmo, Minn.
Twin City Milk Producers Association, Minneapolis, Minn.
Twin City Milk Producers Association, Northfield, Minn.
Twin City Milk Producers Association, River Falls, Wis.
Twin City Milk Producers Association, Watertown, Minn.
Wisconsin Cooperative Dairies, Inc., Menomonie, Wis.

§ 973.8 *Nonpool plant.* "Nonpool plant" means any milk processing plant during any delivery period in which it does not meet the requirements of a pool plant as defined in § 973.7.

§ 973.9 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 973.10 *Producer-handler.* "Producer-handler" means any person who both produces milk and is a handler and who receives no milk directly from the farms of other producers and not more than 50,000 pounds of milk (3.5 percent butterfat equivalent) during the delivery period from other handlers which are cooperative associations: *Provided,* That the maintenance, care and management of the dairy animals and other resources necessary to produce the milk and the processing, packaging, and distribution of the milk are the personal enterprise and the personal risk of such person.

§ 973.11 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

§ 973.12 *Market administrator.* "Market administrator" means the person designated pursuant to § 973.20 as the agency for the administration of this part.

§ 973.13 *Delivery period.* "Delivery period" means a calendar month or the portion thereof during which this part is in effect.

§ 973.14 *Producer milk.* "Producer milk" means any skim milk and butterfat contained in milk produced by one or more producers under the conditions set forth in § 973.6.

§ 973.15 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that skim milk and butterfat contained in producer milk.

§ 973.16 *Base milk.* "Base milk" means producer milk received by a handler during any of the months of January through June, which is not in excess of such producer's daily average base computed pursuant to § 973.75, multiplied by the number of days in such month for which producer delivered milk to such handler.

§ 973.17 *Excess milk.* "Excess milk" means producer milk received by a handler during any of the months of January through June which is in excess of base milk received from such producer during such months.

MARKET ADMINISTRATOR

§ 973.20 *Designation.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 973.21 *Powers.* The market administrator shall:

(a) Administer the terms and provisions of this part;

(b) Receive, investigate, and report to the Secretary complaints of violations of the terms and provisions of this part;

(c) Recommend to the Secretary amendments to this part; and

(d) Make rules and regulations to effectuate the terms and provisions of this part.

§ 973.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to, the following:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Pay, out of the funds provided by § 973.90, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office, except as provided by § 973.91;

(c) Keep such books and records as will clearly reflect the transactions provided for in this part and surrender the same to his successor or to such other person as the Secretary may designate;

(d) Unless otherwise directed by the Secretary publicly disclose within 30 days after such nonperformance becomes known to the market administrator, the name of any person who, within 20 days after the date on which he is required to perform such acts, has not (1) made reports pursuant to § 973.30 or (2) made payments pursuant to §§ 973.80, 973.84, 973.86, and 973.87; and may at any time thereafter so disclose any such name if authorized by the Secretary.

(e) Verify each handler's records and payments by inspection of such handler's records and the records of any other person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(f) Prepare and disseminate to the public such statistics and information concerning the operations under this part as he deems advisable and as do not reveal confidential information;

(g) On or before the 5th day of each delivery period, mail to all handlers and make public announcement of the Class I price computed pursuant to § 973.53, and the butterfat differential computed pursuant to § 973.56 (a) for the then current delivery period, and the Class II price computed pursuant to § 973.54 and the butterfat differential computed pursuant to § 973.56 (b) for the preceding delivery period; and

(h) On or before the 14th day after the end of each delivery period, mail to all handlers and make public announcement of the uniform price computed pursuant to § 973.71, or the price for base milk computed pursuant to § 973.72, whichever is applicable.

REPORTS, RECORDS, AND FACILITIES

§ 973.30 *Delivery period reports of receipts and utilization.* (a) On or before the 9th of each delivery period, each handler, except a producer-handler, who operates a pool plant or whose entire supply of milk is received from a pool plant(s), shall report to the market administrator with respect to all skim milk and butterfat, except that in nonfluid milk products disposed of in the form in which received without further processing or packaging, received by him at each pool milk plant during the preceding delivery period in the detail and on forms prescribed by the market administrator:

(1) The quantities of skim milk and the quantities of butterfat contained in (or used in the production of) receipts

of skim milk and butterfat in bulk fluid milk products from other pool plants;

(2) The quantities of skim milk and butterfat contained in (or used in the production of) receipts of bulk fluid milk products from nonpool plants;

(3) The quantities of skim milk and butterfat contained in receipts of packaged fluid milk products from any other source;

(4) The quantities of skim milk and butterfat contained in producer milk; and

(5) The quantities of skim milk and butterfat contained in or used in the production of milk products disposed of or on hand at the end of the delivery period.

(b) Each handler described in paragraph (a) of this section shall report for each of his producers with respect to the milk received from such producer during the delivery period, the total pounds and the average butterfat test thereof, and the number of days on which milk was received from such producer.

(c) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who was not a producer during the preceding delivery period, the date on which such handler began to receive milk from such producer.

(d) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who was a producer during the preceding delivery period, but who has not delivered milk during the current delivery period, the date on which such handler last received milk from such producer.

(e) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(f) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(g) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(h) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(i) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(j) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(k) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(l) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(m) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(n) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(o) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(p) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(q) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(r) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(s) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(t) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(u) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(v) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(w) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(x) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(y) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

(z) Each handler described in paragraph (a) of this section shall report with respect to each of his producers who has delivered milk during the current delivery period, but who has not delivered milk during the next preceding delivery period, the date on which such handler began to receive milk from such producer.

from producers (including his own production), producer-handlers, pool plants and nonpool milk plants and the sources thereof;

(2) The utilization of all skim milk or butterfat disposed of;

(3) The quantities of skim milk and butterfat on hand at the beginning and end of each delivery period; and

(4) Such other information with respect to all such receipts and utilization as the market administrator may prescribe.

(b) On or before the 9th day after the end of each delivery period each handler who operates a nonpool plant shall report to the market administrator his total receipts and utilization of milk received from farmers who produce Grade A milk, his total disposition within the marketing area of Class I milk, and such other information as the market administrator may require.

§ 973.31 *Reports of producer-handlers.* Each producer-handler shall report to the market administrator at such time and in such manner as the market administrator may prescribe.

§ 973.32 *Reports as to producers and cooperative associations of producers.* Each handler shall, on or before the 25th day of each delivery period, submit to the market administrator such handler's producer payroll for the preceding delivery period which shall show for each producer or cooperative association of producers (a) the total pounds of milk delivered with the average butterfat test thereof and (b) the net amount of the payment to each producer or to each cooperative association of producers together with the price deductions and charges involved.

§ 973.33 *Records and facilities.* Each handler shall permit the market administrator to make such examinations of his operations, equipment, and facilities as the market administrator deems necessary and he shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as the market administrator deems necessary to verify or to establish the correct data with respect to (a) the receipts and utilization in whatever form of all skim milk and butterfat received, including nonfluid milk products disposed of in the form in which received without further processing or packaging; (b) the weights and tests for butterfat and for other content of all skim milk or butterfat handled; (c) payments to producers and cooperative associations; and (d) the pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and at the end of each delivery period.

§ 973.34 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 973.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat, except that in nonfluid milk products disposed of in the form in which received without further processing or packaging, received by a handler during each delivery period, shall be classified by the market administrator pursuant to the provisions of §§ 973.41 through 973.45.

§ 973.41 *Classes of utilization.* Subject to the conditions set forth in §§ 973.42 and 973.43, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of milk, skim milk (including reconstituted skim milk), concentrated milk, buttermilk, flavored milk drinks (except flavored milk drinks in hermetically sealed containers), cream (sweet or sour, including mixtures of cream and milk or skim milk containing less butterfat than the legal standard for cream), and all skim milk and butterfat not specifically accounted for pursuant to paragraph (b) of this section; and

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat stored in a public cold storage warehouse as frozen cream, or disposed of as animal feed, and all skim milk and butterfat used to produce a milk product other than those specified in paragraph (a) of this section.

§ 973.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat purchased or received by a handler shall be Class I milk unless the handler who first received such skim milk and butterfat proves to the market administrator that it should be classified otherwise; and

(b) Any skim milk and butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 973.43 *Transfers.* Skim milk or butterfat transferred or diverted in fluid form as milk, skim milk, or cream, by a handler shall be classified as follows:

(a) As Class I milk if transferred or diverted from one pool plant to the pool plant of another handler unless utilization in Class II is mutually indicated to the market administrator in the delivery period reports submitted by both handlers for the delivery period in which such transfer or diversion occurred, but in no event shall the amount classified in either class exceed the total use in such class by the transferee handler: *Provided,* That if either or both handlers have received other source milk, the milk so transferred shall be classified at both plants so as to return the higher class utilization to producer milk;

(b) As Class I milk if transferred in the form of milk, skim milk, or cream to a producer-handler;

(c) As Class I milk if transferred in the form of milk, skim milk, or cream to a nonpool plant located less than 100 miles from the marketing area unless (1) the handler reports to the market administrator on or before the 9th day after the end of the delivery period that such skim milk or butterfat was utilized in Class II, (2) the nonpool plant maintains records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available to the market administrator for purposes of verification, and (3) such nonpool plant had actually used not less than an equivalent amount of skim milk and butterfat in Class II: *Provided,* That if verification of such records discloses that an equivalent amount of skim milk and butterfat had not been used in Class II, the remaining pounds shall be classified as Class I; and

(d) As Class I milk if transferred or diverted in the form of milk or skim milk or transferred in the form of cream in consumer packages, and as Class II if transferred in the form of cream in bulk, to a purchaser whose plant is located more than 100 miles from the marketing area.

§ 973.44 *Computation of milk in each class.* For each delivery period the market administrator shall correct mathematical and other obvious errors in the delivery period report submitted by each handler and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for each handler.

§ 974.45 *Allocation of skim milk and butterfat classified.* After computing pursuant to § 973.44, the classification of all skim milk and butterfat received by a handler at his pool plant(s), the market administrator shall determine the classification of milk received from producers in the following manner:

(a) Skim milk shall be allocated as follows:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided,* That if the pounds of skim milk in other source milk exceed the total pounds of skim milk classified as Class II, an amount equal to the difference shall be subtracted from Class I: *Provided further,* That any other source milk which is classified and priced under another marketing order issued pursuant to the act shall be allocated to Class I before any other source milk is so allocated;

(2) Subtract from the remaining pounds of skim milk in each class, the pounds of skim milk contained in receipts from other pool plants or which have been caused by a cooperative association to be delivered for its account to such handler directly from the farms of its member producers in accordance with its classification as determined pursuant to § 973.43 (a);

(3) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II. Any amount in excess of that in Class II shall be subtracted from Class I. The amounts so subtracted shall be called overage.

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Determine the weighted average butterfat content of the milk received from producers and allocated to Class I milk and Class II milk pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 973.50 *Class prices.* Each handler shall pay at the time and in the manner set forth in §§ 973.80 to 973.83 not less than the prices set forth in §§ 973.53 and 973.54 for all milk received during each delivery period from producers at such handler's pool plant(s).

§ 973.51 *Basic formula price.* The basic price to be used in determining the Class I price shall be the price for Class II milk computed pursuant to § 973.54 for the preceding delivery period or that computed from the formulas set forth in paragraphs (a) and (b) of this section, whichever is the highest.

(a) The average of the basic or field prices ascertained to have been paid for milk of 3.5 percent butterfat content received during the preceding delivery period at the following plants or places for which prices are reported to the market administrator by the listed companies or by the Department of Agriculture.

Companies and Locations

Borden Company, Mount Pleasant, Mich.
Carnation Company, Sparta, Mich.
Pet Milk Company, Hudson, Mich.
Pet Milk Company, Wayland, Mich.
Pet Milk Company, Coopersville, Mich.
Borden Company, Orfordville, Wis.
Borden Company, New London, Wis.
Carnation Company, Richland Center, Wis.
Carnation Company, Oconomowoc, Wis.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Belleville, Wis.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

(b) (1) Multiply by 6 the simple average of the daily wholesale selling price (using the midpoint of any price range as one price) per pound of Grade AA (93-score) bulk creamery butter at New York as reported by the Department of Agriculture during the preceding delivery period; (2) add 2.4 times the weekly prevailing price of "Cheddars" during the preceding delivery period or the Wisconsin Cheese Exchange at Plymouth, Wisconsin, as reported by the Department of Agriculture; (3) divide the resulting sum by 7; (4) add 30 percent thereof; and (5) multiply the resulting sum by 3.5.

§ 973.52 *Supply and demand ratio.* On or before the 5th day of each delivery period the market administrator shall make the following computations based upon information obtained from handlers' reports of receipts and utilization:

(a) Determine the total receipts of milk from all producers (including receipts from own farm production) during the second and third preceding months;

(b) Determine the total pounds of milk actually disposed of from pool plants as Class I (excluding shrinkage and unaccounted for milk, but converting cream to its 3.5 percent milk equivalent) during the same two delivery periods; and

(c) Divide the amount obtained in paragraph (b) of this section by the amount obtained in paragraph (a) of this section and adjust to the nearest full percentage point. The resulting percentage shall be known as the "current supply-demand ratio".

§ 973.53 *Class I price.* Subject to the differentials provided in §§ 973.55 and 973.56 (a), the price for Class I milk shall be the basic price computed pursuant to § 973.51, plus 70 cents for the delivery periods of January through April, plus 60 cents for May and June, plus $1.10 for July through November, and plus 80 cents for December: *Provided,* That whenever the current supply-demand ratio varies from that set forth in the table below, the Class I price shall be increased or decreased 2 cents for each 2 full percentage points that the current supply-demand ratio is above or below that set forth in the table, but shall not be increased or decreased more than 24 cents because of the supply-demand ratio:

Delivery periods used in computing current supply-demand ratio	Percentage	Delivery period to which applicable
January–February	64	April.
February–March	62	May.
March–April	62	June.
April–May	61	July.
May–June	61	August.
June–July	70	September.
July–August	86	October.
August–September	97	November.
September–October	97	December.
October–November	91	January.
November–December	82	February.
December–January	71	March.

§ 973.54 *Class II price.* Subject to differential computed pursuant to § 973.56 (b) the price for Class II milk shall be that computed by the market administrator as follows: (a) Multiply by 4.24 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at New York as reported by the Department of Agriculture during the delivery period; (b) multiply by 8.2 the weighted average of carlot prices for spray process nonfat dry milk solids, for human consumption f. o. b. manufacturing plants in the Chicago area, as published by the Department of Agriculture for the period from the 26th day of the immediately preceding period through the 25th day of the current delivery period; (c) add into one sum the amounts obtained in paragraphs (a) and (b) of this section; and (d) subtract 75.2 cents therefrom.

§ 973.55 *Location differential to handlers.* (a) With respect to producer milk purchased or received at a pool plant and which is classified as Class I milk, the price per hundredweight computed pursuant to § 973.50 (a) shall be reduced by the amount indicated below for the distance that such plant is located from the Minnesota Transfer Viaduct over University Avenue in St. Paul. Such deduction shall be based on the airline mileage as computed by the market administrator.

Location of Plant and Amount of Deduction	*Cents*
0 to 15 miles	0
15 to 20 miles	8
20 to 30 miles	10
30 to 40 miles	12
40 to 50 miles [1]	14
50 to 60 miles	15
60 to 70 miles	16
70 miles or over	[1] 17

[1] Plus an additional 1-cent for each 10 miles or fraction thereof in excess of 80 miles.

§ 973.56 *Butterfat differentials to handlers.* (a) If the average butterfat content of the milk disposed of by any handler as Class I milk is more or less than 3.5 percent, there shall be added to the Class I price per hundredweight computed pursuant to § 973.53 (a) for each one-tenth of 1 percent that the average butterfat content of such Class I milk is above 3.5 percent or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class I milk is below 3.5 percent, an amount computed by the market administrator as follows: To the average wholesale price per pound of Grade AA (93-score) butter at New York as reported by the Department of Agriculture for the preceding delivery period add 25 percent during the delivery periods of December through June, and 35 percent during the remaining delivery periods, and divide the resulting sum by 10.

(b) If the average butterfat content of the milk disposed of by any handler as Class II milk is more or less than 3.5 percent, there shall be added to the Class II price per hundredweight computed pursuant to § 973.54 (b) for each one-tenth of 1 percent that the average butterfat content of such Class II milk is above 3.5 percent or shall be subtracted for each one-tenth of 1 percent that the average butterfat content of such Class II milk is below 3.5 percent an amount computed by the market administrator as follows: To the average wholesale price per pound of Grade AA (93-score) butter at New York as reported by the Department of Agriculture for the delivery period add 21.14 percent and divide the sum obtained by 10.

§ 973.57 *Emergency price provisions.* Whenever the provisions of this order require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose and the specified price is not reported or published, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the prices specified.

APPLICATION OF PROVISIONS

§ 973.60 *Application to producer-handlers.* Sections 973.40 to 973.45, 973.50 to 973.57, 973.62 to 973.64, 973.70 to 973.73, 973.75 to 973.77, 973.80 to 973.88, and 973.90 to 973.92 shall not apply to the handling of milk by producer-handlers.

§ 973.61 *Producer-handlers.* Handlers shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of their qualifications as producer-handlers pursuant to § 973.10, as of the effective date of this part, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing milk that affect their qualifications as producer-handlers; such verification by the market administrator shall be made within 15 days of the receipt of the evidence and shall be retroactive to the effective date of this part in cases verified within 45 days of such effective date and shall be effective retroactively to the first day of the delivery period during which verification is made in subsequent cases.

§ 973.62 *Handlers subject to other Federal orders.* In the case of a handler whose plant is fully regulated by another milk marketing order issued pursuant to the act, the provisions of this order shall not apply except that such handler, with respect to his total receipts and utilization of skim milk and butterfat, shall make reports to the market administrator at such time and in such manner as the market administrator may require, and shall allow the market administrator to verify such reports in accordance with § 973.33.

§ 973.63 *Other source milk diverted by a cooperative association.* Other source milk caused by a cooperative association to be delivered to a pool plant for its account from a nonpool plant shall be considered to have been first received by such cooperative association.

§ 973.64 *Payment for overage.* In computing the value of the milk of any handler (including a handler whose sole source of supply is other pool plants), if any skim milk has been subtracted pursuant to § 973.45, or if any butterfat has been similarly subtracted, the market administrator shall add an amount computed by multiplying the pounds of skim milk and butterfat so subtracted by the applicable class prices.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 973.70 *Computation of the value of milk received from producers.* (a) The value of the milk received by each handler from producers at his pool plant(s) shall be a sum of money computed by the market administrator by multiplying the pounds of milk in each class by the applicable class prices, adding together the resulting amounts, and adding any amounts owed by the handler pursuant to subparagraphs (1) and (2) of this paragraph.

(1) Any amount computed pursuant to § 973.64,

(2) If any skim milk or butterfat received in other source milk, except other source milk which is classified and priced under another marketing order issued pursuant to the act, has been allocated to Class I pursuant to § 973.45 in any delivery period when total receipts of producer milk at all pool plants exceed 105 percent of Class I sales, the market administrator shall add an amount equal to the difference between the value of such skim milk or butterfat at the Class I price and at the Class II price.

(b) In the case of a handler who operates a nonpool plant from which Class I milk has been disposed of in the marketing area, the market administrator shall determine a value for such handler by multiplying the pounds of skim milk or butterfat disposed of as Class I milk in the marketing area by the difference between the applicable Class I price and the Class II price in any delivery period when total receipts of producer milk at all pool plants exceed 105 percent of Class I sales.

§ 973.71 *Computation of uniform price.* For each of the delivery periods of July through December, the market administrator shall compute a uniform price per hundredweight for milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 973.70 for all handlers who filed reports pursuant to § 973.30, and who made the payments required pursuant to §§ 973.80, and 973.83 for the preceding delivery period;

(b) Subtract, if the average butterfat content of the milk included in these computations is greater than 3.5 percent, or add if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 973.81 and multiplying the resulting amount by the total hundredweight of milk included in these computations;

(c) Add an amount equal to the total value of the location differentials computed pursuant to § 973.82;

(d) Add an amount equal to not less than one-half the unobligated balance in the producer-settlement fund;

(e) Divide the resulting sum by the total hundredweight of milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports or payments or delinquencies in payments by the handlers. The result shall be known as the "uniform price" per hundredweight for producer milk of 3.5 percent butterfat content.

§ 973.72 *Computation of price for base milk.* For each of the delivery periods of January through June, the market administrator shall compute a price per hundredweight for base milk received from producers as follows:

(a) Make the same computations required pursuant to § 973.71 (a), (b), (c), and (d);

(b) Subtract an amount computed by multiplying the pounds of excess milk included in these computations by an amount equal to the Class II price plus 8 cents;

(c) Divide the resulting sum by the total hundredweight of base milk included in these computations; and

(d) Subtract not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports or payments or delinquencies in payments by the handlers. The result shall be known as the "price for base milk" of 3.5 percent butterfat content.

§ 973.73 *Notification of handlers.* On or before the 14th day of each delivery period the market administrator shall notify each handler of:

(a) The amount and value of his producer milk in each class computed pursuant to §§ 973.45 and 973.70, and the totals of such amounts and values;

(b) The uniform price computed pursuant to § 973.71 or the price for base milk computed pursuant to § 973.72, whichever is applicable;

(c) The amount, if any, due such handler from the producer-settlement fund; and

(d) The total amounts to be paid by each handler pursuant to §§ 973.80, 973.84, 973.90 and 973.91.

BASE RULES

§ 973.75 *Determination of base for each producer.* (a) Any producer who delivers milk during the delivery periods of August, September, and October shall have a base computed by the market administrator, to be applicable during the following January through June, equal to the total pounds of milk delivered in the 3-month period divided by the number of days, not less than 78, from the date of first delivery to the end of such 3-month period: *Provided*, That for any portion of the period of August through October, 1955, that this subpart is not in effect, a producer may either submit evidence of delivery, in form satisfactory to the market administrator, or take the status of a new producer pursuant to paragraph (b) of this section.

(b) Any new producer shall have a base computed by dividing the quantity of milk delivered during the first full month in which such producer delivers milk by the number of days in such month and multiplying the result by the following factors:

November	0.75
December or January	.65
February, March, April, May, or June	.55

§ 973.76 *Establishing a new base.* A producer with a base, upon notifying the market administrator that he relinquishes such base, may establish a new base pursuant to § 973.75 (b) once during the period of November through June, the period for establishing such new base to begin the first day of the month following receipt of such notice by the market administrator.

§ 973.77 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base-forming period.

(b) The base of a producer may be moved from one handler to another and may be transferred from such producer to another producer.

PAYMENTS FOR MILK

§ 973.80 *Time and method of payment.* Each handler shall make payment for milk received from producers or cooperative associations as follows:

(a) To a cooperative association, on or before the 10th day after the end of the delivery period in which the skim milk or butterfat was received at not less than the applicable class prices for all skim milk and butterfat received from such cooperative association or caused by it to be delivered to such handler directly from producers' farms.

(b) To each producer, on or before the 20th day after the end of the delivery period in which the milk was received, for milk not caused to be delivered to such handler by a cooperative association: (1) During the months of July through December, at not less than the uniform price computed pursuant to § 973.71, subject to the butterfat and location differentials set forth in §§ 973.81 and 973.82, and (2) during the months of January through June, at not less than the price for base milk computed pursuant to § 973.72, for all milk received from such producer not in excess of his base, and at not less than the price for Class II milk plus 8 cents for all excess milk received from such producer, subject in both cases to the butterfat and location differentials set forth in §§ 973.81 and 973.82.

§ 973.81 *Butterfat differential to producers.* If, during the delivery period, any handler has purchased or received from any producer, milk having an average butterfat content other than 3.5 percent, such handler in making the payments prescribed in § 973.80 (b) shall add to the applicable price for each one-tenth of one percent that the average butterfat content of such milk is above 3.5 percent, not less than, and shall deduct for each one-tenth of one percent that such average butterfat is below 3.5 percent, not more than an amount equal to the weighted average value of the butterfat in producer milk allocated to each class pursuant to § 973.45.

§ 973.82 *Location differential to producers.* In making payment pursuant to § 973.80 (b) for milk received from producers at a pool plant, each handler shall deduct from the applicable price payable to such producer the amount indicated below for the distance that such plant is located from the Minnesota Transfer Viaduct over University Avenue in St. Paul. Such deduction shall be based on the airline mileage as computed by the market administrator.

Location of Plant and Amount of Deduction

	Cents
0 to 15 miles	0
15 to 20 miles	8
20 to 30 miles	10
30 to 40 miles	12
40 to 50 miles	14
50 to 60 miles	15
60 to 70 miles	16
70 miles or over	[1] 17

[1] Plus an additional 1-cent for each 10 miles or fraction thereof in excess of 80 miles.

§ 973.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 973.84 and 973.86 and out of which he shall make all payments to handlers pursuant to §§ 973.85 and 973.86: *Provided*, That the market administrator shall offset any payments due any handler against payments due from such handler.

§ 973.84 *Payments to the producer-settlement fund.* On or before the 16th day after the end of each delivery period (a) each handler who operates a pool plant shall pay to the market administrator for payment to producers through the producer-settlement fund, the amount, if any, by which the total value computed for him pursuant to § 973.70 for such delivery period is greater than the sum required to be paid by such handler pursuant to § 973.80 (b); (b) each handler who receives his entire supply of milk from pool plants shall pay to the market administrator the amount, if any, computed for him pursuant to § 973.64; and (c) each handler who operates a nonpool plant shall pay to the market administrator the amount computed for him pursuant to § 973.70.

§ 973.85 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of each delivery period, the market administrator shall pay to each handler for payment to producers, the amount, if any, by which the sum required to be paid by such handler pursuant to § 973.80 (b) is less than the total computed for him pursuant to § 973.70.

§ 973.86 *Adjustment of accounts.* Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to or from the producer-settlement fund pursuant to §§ 973.84 and 973.85, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 5 days, make payment to such handler.

§ 973.87 *Adjustment of errors in payments to producers.* Whenever verification by the market administrator of the payments by a handler to any producer or to a cooperative association, discloses payment of less than is required by § 973.80, the handler shall make up such payment to such producer or cooperative association not later than the time for making payments next following such disclosure.

§ 973.88 *Statement to producers.* In making payment to producers as required by § 973.80, each handler shall furnish each producer from whom he received milk, with a supporting statement in such form that it may be retained by the producer, which shall show:

(a) The delivery period and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of the milk delivered by the producer, and for the delivery periods of January through June, the pounds of base milk and the pounds of excess milk;

(c) The minimum rate or rates at which payment to the producer is required pursuant to § 973.80 (a);

(d) The rate which is used in making the payment if such rate is other than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under § 973.91, together with a description of the respective deductions; and

(f) The net amount of the payment to the producer.

MSCELLANEOUS

§ 973.90 *Expense of administration.* As his pro rata share of the expense of the administration hereof, each handler who operates a pool plant shall pay to the market administrator, on or before the 15th day after the end of the delivery period, 1.5 cents per hundredweight or such amount not exceeding 1.5 cents per hundredweight as the Secretary may prescribe with respect to all receipts within the delivery period of (a) milk from producers including such handler's own farm production, and (b) other source milk which is classified as Class I milk, and each handler who operates a nonpool plant shall make such payment only with respect to Class I milk disposed of within the marketing area.

§ 973.91 *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section each handler in making payments to producers (other than himself) pursuant to § 973.80 shall make a deduction of 2 cents per hundredweight or such lesser deduction as the Secretary from time to time may prescribe, with respect to all milk purchased or received directly from producers' farms during the delivery period and shall pay such deductions to the market administrator on or before the 18th day after the end of such delivery period. Such money shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk purchased or received from said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, no such deduction shall be made.

§ 973.92 *Termination of obligation.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose except an

obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

§ 973.93 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

EFFECTIVE TIME, SUSPENSION, AND TERMINATION

§ 973.100 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 973.101.

§ 973.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 973.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising under this part, the final accrual of ascertainment of which requires acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate shall:

(a) Continue in such capacity until discharged by the Secretary;

(b) From time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and

(c) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 973.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control together with claims for any funds which are unpaid at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

Filed at Washington, D. C., this 14th day of October 1955.

CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO; BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO; MARYLAND TOBACCO

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO TOBACCO MARKETING QUOTAS FOR 1956–57 MARKETING YEAR

Pursuant to the Agricultural Adjustment Act of 1938, as amended, the Secretary of Agriculture is preparing to proclaim national marketing quotas for burley tobacco, cigar-filler tobacco, Maryland tobacco, and Virginia sun-cured tobacco, for the three marketing years beginning October 1, 1956; proclaim the amount of the national marketing quota for each such kind of tobacco, and for cigar-filler and binder tobacco, fire-cured tobacco, and dark air-cured tobacco for the 1956–57 marketing year; apportion the national marketing quotas for such kinds of tobacco for the 1956–57 marketing year among the several States; and convert the State marketing quotas into State acreage allotments. The Secretary is also preparing to apportion among the several States the national marketing quota for flue-cured tobacco for the 1956–57 marketing year which was proclaimed on July 1, 1955 (20 F. R. 4787) and convert the respective State marketing quotas for flue-cured tobacco into State acreage allotments.

The Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1312 (a)), provides that the Secretary shall, not later than December 1 of any marketing year, proclaim a national marketing quota for any kind of tobacco for each of the next three succeeding marketing years whenever he determines with respect to such kind of tobacco (a) that such marketing year is the last year of three consecutive years for which marketing quotas previously proclaimed will be in effect or (b) that a marketing quota previously proclaimed for such marketing year is not in effect because of disapproval by producers in a referendum. Certain other conditions and provisions are included in the act stating the circumstances under which the Secretary is required to proclaim a national marketing quota, but such conditions and provisions do not affect the circumstances under which the Secretary is required to proclaim national marketing quotas as outlined above for the 1956–57 marketing year. The act (7 U. S. C. 1301 (b) (15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (Part 30 of this

title) of the Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13, and 14;
Fire-cured tobacco, comprising types 21, 22, 23, and 24;
Dark air-cured tobacco, comprising types 35 and 36;
Virginia sun-cured tobacco, comprising type 37;
Burley tobacco, comprising type 31;
Maryland tobacco, comprising type 32;
Cigar-filler and cigar-binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, and 55;
Cigar-filler tobacco, comprising type 41.

The act provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of this act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority the Secretary has determined (15 F. R. 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports on the 1951 and subsequent crops of such tobacco.

The act (7 U. S. C. 1313 (i)) provides that notwithstanding any other provision of the act, whenever after investigation the Secretary determines with respect to any kind of tobacco that a substantial difference exists in the usage or market outlets for any one or more of the types comprising such kind of tobacco and that the quantity of tobacco of such type or types to be produced under the marketing quotas and acreage allotments established pursuant to this section would not be sufficient to provide an adequate supply for estimated market demands and carry-over requirements for such type or types of tobacco, the Secretary shall increase the marketing quotas and acreage allotments for farms producing such type or types of tobacco in the preceding year to the extent necessary to make available a supply of such type or types of tobacco adequate to meet such demands and carry-over requirements. The increases in farm marketing quotas and acreage allotments shall be made on the basis of the production of such type or types of tobacco during the period of years considered in establishing farm marketing quotas and acreage allotments for such kind of tobacco. The additional production authorized by this subsection shall be in addition to the national marketing quota established for such kind of tobacco pursuant to section 312 of this act. The increase in acreage under this subsection shall not be considered in establishing future State of farm acreage allotments.

The act (7 U. S. C. 1312 (b)) provides that the Secretary shall also determine and announce, prior to the first day of December, the amount of the national marketing quota which is in effect for the 1956–57 marketing year in terms of the total quantity of tobacco which may be marketed which will make available during such marketing year a supply of tobacco equal to the reserve supply level. The act provides further that the amount of the 1956–57 national marketing quota may, not later than March 1, 1956, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level. The act (7 U. S. C. 1301 (b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year (or on January 1 of such marketing year in the case of Maryland tobacco) plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the ten marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the ten marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The act (7 U. S. C. 1312 (c)) requires that within 30 days after a national marketing quota is proclaimed for the 1956–57, 1957–58, and 1958–59 marketing years for cigar-filler tobacco, burley tobacco, Virginia sun-cured tobacco, and Maryland tobacco, the Secretary shall conduct a referendum of farmers who are engaged in the production of the 1955 crop of each of such kinds of tobacco to determine whether such farmers are in favor of or opposed to such quotas for the next three succeeding marketing years. If more than one-third of the farmers voting in the referendum oppose such quotas, such results shall be proclaimed by the Secretary and the national marketing quotas so proclaimed shall not be in effect but such results shall in no wise affect or limit the subsequent proclamation and subsequent submission to a referendum, as otherwise provided in section 312 of the act, of a national marketing quota. A separate referendum will be held for each of such kinds of tobacco and the results of any referendum will not affect the results of any other referendum.

Cigar-filler and binder, flue-cured, fire-cured and dark air-cured tobacco growers favored marketing quotas for the 1956–57 marketing year in referenda held pursuant to the act as follows: Cigar-filler and binder tobacco—18 F. R. 8474; flue-cured tobacco—20 F. R. 6543; fire-cured tobacco—20 F. R. 809; and dark air-cured tobacco—20 F. R. 809.

The act (7 U. S. C. 1313 (a)) requires the Secretary to apportion the national marketing quota, less the amount to be allotted under subsection (c) of section 1313 (small farms and "new" farms), among the several States on the basis of the total production in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed, with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such five-year period. The act (7 U. S. C. 1313 (g)) authorizes the Secretary to convert State marketing quotas into State acreage allotments on the basis of average yield per acre for the State during the five years last preceding the year in which the national marketing quota is proclaimed, adjusted for abnormal conditions of production.

In making the determinations of the amounts of the national marketing quotas, the apportionment of the quotas among the several States, and the conversion of State marketing quotas into State acreage allotments, consideration will be given to any data, views and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 14th day of October 1955.

[SEAL] WALTER C. BERGER,
Acting Administrator.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

NOTICE OF HEARING ON PROPOSED REVISION AND CONSOLIDATION OF REGULATION A AND REGULATION D

On July 19, 1955, the Securities and Exchange Commission announced (in Securities Act Release No. 3555) that it had under consideration a proposed revision of its Regulation A and the consolidation with that regulation of Regulation D. The purpose of the proposed revision is, among other things, to provide a single integrated exemptive regulation for both domestic and Canadian securities and to add certain special provisions for companies in the promotional or development stage so as to provide added protection for investors.

The Commission has received requests from various persons and organizations that a public hearing be held on the proposed revision, and the Commission is of the opinion that such a hearing would be appropriate in the public interest and for the protection of investors. Accordingly, notice is hereby given that a public hearing in the matter will be

held in Room 102 at the Commission's offices, 425 Second Street NW., Washington, D. C., on Tuesday, November 15, 1955, at 10:00 a. m.

Any person interested in presenting his views at the public hearing should, not later than 5:30 p. m. on November 7, 1955, submit to the Commission in writing a statement of his intention to appear at the hearing, together with a written statement of his views (which may be made by reference to written statements previously filed), and should limit his request for time to make oral presentations so as to provide an opportunity for all interested persons to be heard.

Those persons who have submitted written views and comments need not feel obliged to attend the hearing in person, for all written submissions will be made part of the record considered by the Commission in determining whether the proposed revision and consolidation should be adopted. The Commission also will consider any testimony before the Commerce and Finance Subcommittee of the House Committee on Interstate and Foreign Commerce incident to its consideration of H. R. 5701 to repeal section 3 (b) of the Securities Act of 1933, which may have been given prior to final action upon this proposal; and persons who have testified at that hearing prior to November 15th need not undertake to repeat their testimony before the Commission.

Requests to be heard should be addressed to the Secretary, Securities and Exchange Commission, Washington 25, D. C.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

OCTOBER 12, 1955.

NOTICES

DEPARTMENT OF COMMERCE

Office of the Secretary

[Department Order 160 (Amended)]

NATIONAL CIVIL DEFENSE PROGRAM ASSISTANCE

REDELEGATIONS OF AUTHORITY

The material appearing in 20 F. R. 1227 is superseded by the following:

SECTION 1. *Purpose.* The purpose of this order is to redelegate authority to perform certain functions in connection with the Department's responsibility for assisting the Federal Civil Defense Administration in the development of the national civil defense program.

SEC. 2. *General.* .01 The provisions of Section 201 (b) of the Federal Civil Defense Act of 1950 (64 Stat. 1248) authorize the Administrator of the Federal Civil Defense Administration to delegate, with the approval of the President, appropriate civil defense responsibilities to the several departments and agencies of the Federal Government.

.02 Under Federal Civil Defense Administration Delegation No. 2 of September 8, 1954, and Federal Civil Defense Administration Delegation No. 3 of August 13, 1955, the Secretary of Commerce has been delegated certain authorities and responsibilities in furtherance of the national civil defense program.

SEC. 3. *Redelegation of authority.* .01 Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 5 of 1950, authority is hereby redelegated to the heads of the following primary organization units to perform the functions indicated:

1. The Bureau of Public Roads to—

(1) Provide advice and guidance to State highway departments in the designation of State civil defense emergency highway routes;

(2) Coordinate interstate and State designated civil defense highway systems to assure uniformity of designation for civil defense emergency purposes;

(3) Plan a national program, develop technical guidance for States, and direct Federal activities concerning emergency clearance and restoration of highways, streets, and bridges in damaged areas; and

(4) Provide technical guidance to States concerning highway traffic control problems which may be created during a civil defense emergency.

(5) Determine and evaluate, with the cooperation of the States, counties, and cities, and assist in the planning of the needs for highway improvements to meet civil-defense requirements.

2. The Office of Area Development, Business and Defense Services Administration, to provide data and assist the States in conducting analyses of potential target areas.

3. The Bureau of the Census to—

(1) Collect and process data required by the Office of Area Development, Business and Defense Services Administration, in accomplishing the assignment indicated in subsection 2 above; and

(2) Provide basic statistics and maps essential to the completion of Federal, State, and local civil defense plans.

4. The Weather Bureau to—

(1) Prepare analysis of past data, conduct research, and develop techniques and capabilities leading to improved forecasts of radiological fall-out patterns.

(2) Prepare and issue currently, as well as in an emergency, forecasts and estimates of areas likely to be covered by fall-out as a result of enemy attack. Such information is to be made available to Federal, State, and local civil defense authorities for public information.

5. The Bureau of Public Roads, the Office of Area Development, Business and Defense Services Administration, the Bureau of the Census, and the Weather Bureau—

(1) During a civil defense emergency, whenever needed to carry out the responsibilities as indicated hereunder and subject to such regulations, requirements, and conditions as may be approved by the Office of Personnel Management, to employ additional personnel on a temporary basis without regard to the civil service laws and to incur such obligations on behalf of the United States as may be required to meet the civil defense requirements of an attack or of an anticipated attack; and

(2) To disseminate such civil defense information as may be approved from time to time by the Federal Civil Defense Administration.

.02 The authority delegated herein may be redelegated to such officers or employees as the heads of these primary organization units may designate. The names of officers or employees to whom such authority is delegated shall be reported to the Emergency Planning Coordinator of the Department, and when personnel authority is involved, to the Office of Personnel Management.

.03 The heads of the primary organization units designated herein are hereby authorized to execute, with the approval of the Emergency Planning Coordinator, "Memorandums of Understanding" with the Federal Civil Defense Administration outlining their respective responsibilities in civil defense or natural disaster emergency.

SEC. 4. *Conditions and limitations.* In carrying out their responsibilities hereunder, the heads of the primary organization units and their delegates shall be governed by the following:

1. The Federal Civil Defense Administrator shall provide general assumptions and program guidance relating to the said responsibilities and shall review and coordinate the carrying out of such responsibilities.

2. The designated officials shall take into consideration, and shall coordinate their responsibilities hereunder with, assignments respecting mobilization preparedness measures made to them by the Office of Defense Mobilization.

3. The Emergency Planning Coordinator shall coordinate the responsibilities assigned herein with other Federal agencies concerned, with the advice and consent of the Federal Civil Defense Administration.

4. Each of the designated officials shall be responsible for submitting to the Federal Civil Defense Administration through regular departmental channels, including the Emergency Planning Coordinator, requests for such appropriations as may be required to implement his delegated responsibilities.

5. The Emergency Planning Coordinator shall make such reports as may be required by the Federal Civil Defense Administrator to insure consistency with national civil defense policies and standards.

Effective date: September 30, 1955.

[SEAL] SINCLAIR WEEKS, *Secretary of Commerce.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Document 70]

ARIZONA

SMALL TRACT CLASSIFICATION NO. 45

OCTOBER 13, 1955.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955 (20 F. R. 3514-15), the following described lands totalling approximately 267 acres in Maricopa County are hereby classified as suitable for lease and sale for residence and/or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

GILA AND SALT RIVER MERIDIAN

T. 3 N., R. 3 E.,
Section 22: W½SW¼NE¼, S½SE¼NW¼, E½SW¼ lots 12 to 23 inclusive; NE¼NW¼ exclusive of patented Mineral Survey Nos. 4321 and 4367; S½N½NW¼NE¼ and S½NW¼NE¼ exclusive of patented Mineral Survey Nos. 4321 and 4367. That part of E½SW¼NE¼ included in Cactus Mineral Location Segregation Survey. All the area included in the Corona Mineral Location Segregation Survey.
Section 27: W½NW¼NW¼.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279-284), as amended.

4. All valid applications filed prior to 3:32 p. m. July 26, 1946, will be granted, as soon as posible, the preference right provided for by 43 CFR 257.5 (a).

E. R. TRAGITT, *State Lands and Minerals Staff Officer.*

NEW MEXICO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

OCTOBER 12, 1955.

An application, serial number New Mexico 016398, for the withdrawal from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws, of the lands described below was filed on September 24, 1954, by the Department of the Navy. The purposes of the proposed withdrawal: Aircraft vulnerability and warhead design studies.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, Department of the Interior, at P. O. Box 1251, Santa Fe, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN

T. 3 S., R. 1 W.,
Sec. 20, N½;
Sec. 21, NW¼, W½NE¼.

The areas described contain 560 acres.

E. R. SMITH, *State Supervisor.*

[F. R. Doc. 55-8487; Filed, Oct. 19, 1955; 8:47 a. m.]

[Doc. 8—California State Office]

CALIFORNIA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

OCTOBER 12, 1955.

Pursuant to the authority delegated by the Director, Bureau of Land Management, in section 2.5 of Order 541, dated April 21, 1954 (19 F. R. 2473, 2476), it is ordered as follows:

Subject to valid rights and the provisions of existing withdrawals, the Departmental Order of January 21, 1933, establishing Stock Driveway Withdrawal No. 235, California No. 17, under section 10 of the act of December 29, 1916 as amended (30 Stat. 865; 43 U. S. C. 300), is hereby revoked so far as it affects the following described lands:

MOUNT DIABLO MERIDIAN

T. 25 S., R. 35 E.,
Sec. 34, SE¼SE¼;
Sec. 35, N½SW¼, SW¼SW¼.
T. 25 S., R. 36 E.,
Sec. 24, NW¼SW¼;
Sec. 25, N½SW¼NW¼SW¼.
T. 26 S., R. 33 E.,
Sec. 21, N½NE¼;
T. 26 S., R. 35 E.,
Sec. 4, Lot 1, SW¼NE¼.
T. 27 S., R. 35 E.,
Sec. 27, SE¼NE¼, E½SE¼;
Sec. 34, N½SW¼, W½NW¼, NE¼NE¼, S½NE¼.
T. 30 S., R. 37 E.,
Sec. 15, NE¼SW¼, S½SW¼.

The areas described aggregate 740 acres.

2. The lands affected by this order are rough, semiarid, and lack sufficient water supply to be suitable for farming.

3. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph one hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on November 17, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed at that hour and before 10:00 a. m. on February 16, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on February 16, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m., on February 16, 1956.

Persons claiming veteran's preference under Paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

4. Inquiries concerning these lands and applications shall be addressed to the Manager, Land Office, in Los Angeles, 1512 Post Office Building.

R. R. BEST,
State Supervisor,

[F. R. Doc. 55-8488; Filed, Oct. 19, 1955; 8:48 a. m.]

[Doc. 9—California State Office]

CALIFORNIA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

OCTOBER 12, 1955.

Pursuant to the authority delegated by the Director, Bureau of Land Management, in section 2.5 of Order 541, dated April 21, 1954 (19 F. R. 2473, 2476), it is ordered as follows:

Subject to valid rights and the provisions of existing withdrawals, the Departmental order of January 21, 1933, establishing Stock Driveway Withdrawal No. 235, California No. 17, under section 10 of the act of December 29, 1916 as amended (30 Stat. 865; 43 U. S. C. 300), is hereby revoked so far as it affects the following described lands:

MOUNT DIABLO MERIDIAN

T. 25 S., R. 35 E.,
Sec. 24, NE¼NE¼, S½NE¼.
T. 25 S., R. 36 E.,
Sec. 16, SE¼SE¼;
Sec. 21, N½NE¼NE¼, NW¼NE¼, S½NW¼, NW¼SW¼, W½SW¼SW¼.
T. 26 S., R. 35 E.,
Sec. 2, NE¼SE¼;
Sec. 4, SE¼SE¼.

The areas described aggregate 440 acres.

This revocation is made in furtherance of an exchange under Section 8 of the act of June 28, 1934, as amended by section 8 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal Land program. This restoration is, therefore, not subject to the provisions contained in the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II and others.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, 1512 Post Office Building, Los Angeles, California.

R. R. BEST,
State Supervisor.

[61193]

WISCONSIN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

OCTOBER 14, 1955.

1. A plat of survey of the omitted lands described below will be officially filed in the Eastern States Land Office, Washington, D. C., effective at 10:00 a. m. on November 16, 1955:

FOURTH PRINCIPAL MERIDIAN, WISCONSIN

T. 39 N., R. 11 E.,
Sec. 31, Lots 10, 11, 12, 13 and 14.

The area described aggregates 99.96 acres.

Lot 11 sec. 31 has been subdivided as follows: Lots 11-A, 11-B, 11-C, 11-D, 11-E, 11-F, 11-G, 11-H, 11-J and 11-K.

2. Available information indicates that the lands opposite Planting Ground Lake are mostly high rolling upland, reaching approximately 60 feet above the water level of the lake. The soil is a sandy loam, with some gravel and stone. The swamp areas are scattered and comprise approximately 11 percent of the total area. The lands opposite Range Line Lake are mostly high rolling and gently rolling upland, with two areas of level swampland which comprise approximately 16 percent of the total area. The upland reaches approximately 40 feet above the water level of the lake and the soil is a sandy loam with some gravel and stone.

3. The above-described lands are hereby opened to disposal only under the Act of February 27, 1925 (43 Stat. 1013, 43 U. S. C. 994) and the Act of August 24, 1954 (68 Stat. 789). Claimants under the 1925 act, supra, have a preferred right of application for a period of 90 days from November 16, 1955. Applications for public lands under the 1954 act, supra, must be filed within one year from November 16, 1955. No patents will be issued for the above-described lands prior to November 17, 1956.

4. Any of the above-described lands not patented under the acts of 1925 and 1954, supra, shall not become subject to disposition under the general public land laws until it is so provided by an appropriate order.

5. Inquiries concerning the above-described lands shall be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Acting Manager.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended April 19, 1955, 20 F. R. 2304).

Anderson Bros. Consolidated Co. Inc., Floyd and High Streets, Danville, Va.; effective 10-5-55 to 10-4-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (coveralls, work pants, work shirts, etc.).

Ann Lee Frocks, 108-112 South Main Street, Pittston, Pa., effective 10-13-55 to 10-12-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (dresses).

Appomattox Garment Co., Inc., Appomattox, Va., effective 10-6-55 to 10-5-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (children's dresses).

Appomattox Garment Co., Inc., 1400 Thurman Avenue, Lynchburg, Va.; effective 10-6-55 to 10-5-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (children's dresses).

Blue Bell, Inc., Fulton, Miss., effective 10-14-55 to 10-13-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts and pants).

Cookeville Shirt Co., 106 Walnut Street, Cookeville, Tenn., effective 10-19-55 to 10-18-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

David Manufacturing Co., 119 Berwick Street, Beaver Meadows, Pa., effective 10-5-55 to 10-4-56; 10 learners for normal labor turnover purposes (children's bath robes).

Elk Brand Manufacturing Co., Hopkinsville, Ky., effective 10-7-55 to 10-6-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work pants, shirts and overalls).

Gallatin Manufacturing Co., Inc., Gallatin, Tenn., effective 10-7-55 to 2-29-56; 75 learners for plant expansion purposes (men's shirts).

Hammond Garment Manufacturing Co., Inc., Hammond, La., effective 10-6-55 to 10-5-56; 10 learners for normal labor turnover purposes (sport shirts).

Junior Form Lingerie Corp., 428 Morris Avenue, Boswell, Pa., effective 10-17-55 to 10-16-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

Junior Form Lingerie Corp., Atkinson Way, Boswell, Pa., effective 10-17-55 to 10-16-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

The Kaynee Co., Williamsburg, Ky., effective 10-14-55 to 10-13-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (boys' shirts and sport shirts).

Miller Westernwear, Inc., Walnut Street, Baxley, Ga., effective 9-22-55 to 2-29-56; 40 learners for plant expansion purposes (Replacement Certificate) (boys' Western type shirts).

Oshkosh B'Gosh, Inc., Celina Division, Celina, Tenn., effective 10-8-55 to 10-7-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton twill pants and shirts).

Rice Stix Factory No. 17, Houston, Miss., effective 10-9-55 to 10-8-56; 5 learners for normal labor turnover purposes in the production of pajamas (men's and boys' pajamas).

Rice Stix Factory No. 25, Farmington, Mo., effective 10-7-55 to 2-29-56; 25 learners for plant expansion purposes (women's and girls' outer shorts and slacks).

Sylvania Garment Co., Inc., Savannah Road, Sylvania, Ga.; effective 10-15-55 to 10-14-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' blouses).

Troutman Shirt Co., Inc., Troutman, N. C., effective 10-10-55 to 10-9-56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts, sport shirts).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended April 19, 1955, 20 F. R. 2304).

Athco, Inc., Athens, Ala., effective 10-21-55 to 10-20-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (underwear and sleepwear).

Knitters Co., 19 East Magnolia Street, Hazelton, Pa., effective 10-21-55 to 10-20-56; 5 learners for normal labor turnover purposes (infants' and children's knitted outerwear).

Port City Hosiery Mills, Inc., 715 Greenfield Street, Wilmington, N. C., effective 10-7-55 to 10-6-56; 5 percent of the total number of factory production workers for normal labor turnover purposes (slips, panties, pajamas).

Rice Stix Factory No. 17, Houston, Miss., effective 10-9-55 to 10-8-56; 5 percent of the total number of workers engaged in the production of shorts for normal labor turnover purposes (men's and boys' shorts).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

The Carborundum Co. of Puerto Rico, Km. 187, Mayagues, P. R., effective 9-21-55 to 3-20-56; 23 persons authorized to be employed as learners in any one work day in the occupations of Assembly and Inspection; each for 240 hours at 50 cents an hour, and 240 hours at 60 cent an hour (kovar seals).

Senorita Hosiery Mills, Inc., Gurabo, P. R.; effective 9-20-55 to 9-19-56; 6 persons authorized to be employed as learners in any one work day in the occupations hereinafter listed: Knitting, seaming, and mending each for 320 hours at 35 cents an hour; 320 hours at 40 cents an hour, and 320 hours at 45 cents an hour. Examining, 240 hours at 37½ cents an hour and 240 hours at 45 cents an hour. (Full fashioned hosiery.)

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 12th day of October 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. G-9083]

UNITED FUEL GAS CO. AND ATLANTIC SEABOARD CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 14, 1955.

Take notice that United Fuel Gas Company and Atlantic Seaboard Corporation (Applicants), West Virginia and Delaware corporations, respectively, having their principal place of business in Charleston, West Virginia, filed on June 28, 1955, a joint application for permission to abandon service and for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

United Fuel Gas Company seeks authority under section 7 (b) of the Natural Gas Act to abandon its Storage Pool X-56 and its related transmission line X-56-M-1 in Upshur County, West Virginia, through sale to Atlantic Seaboard Corporation. Atlantic Seaboard Corporation seeks authority to acquire the facilities United Fuel Gas Company proposes to abandon.

The estimated cost of the facilities to be acquired is $1,073,547 adjusted from April 30, 1955, to be financed through the issuance of notes and common stock to its parent, Columbia Gas System, Inc.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 15, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 1, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-8492; Filed, Oct. 19, 1955; 8:49 a. m.]

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 17, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

UNIVERSITY OF MICHIGAN

LONG-AND-SHORT HAUL

FSA No. 31195: *Sulphuric acid—Baton Rouge and North Baton Rouge, La., to Starke, Fla.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sulphuric acid, tank-car loads from Baton Rouge and North Baton Rouge, La., to Starke, Fla.

Grounds for relief: Circuitous route.

Tariff: Supplement 97 to Agent Spaninger's I. C. C. 1357.

FSA No. 31196: *Petroleum and products from Roseport, Minn.* Filed jointly by The Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Great Northern Railway Company, Northern Pacific Railway Company and Minneapolis, St. Paul & Sault Ste. Marie Railroad Company. Rates on petroleum and petroleum products, carloads from Roseport, Minn., to stations in Iowa, Minnesota, Montana, North Dakota, South Dakota, and Wisconsin to which rates are in effect on like property from St. Paul, Minn.

Grounds for relief: Origin rate relations, market competition and circuity.

FSA No. 31197: *Sulphuric acid—Baton Rouge and North Baton Rouge, La., to Florida points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sulphuric acid, tank-car loads from Baton Rouge and North Baton Rouge, La., to Hialeah and Miami, Fla.

Grounds for relief: Circuitous routes.

TITLE 3—THE PRESIDENT

PROCLAMATION 3117

TERMINATION OF GUATEMALAN TRADE AGREEMENT PROCLAMATION

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, under the authority vested in him by section 350 (a) of the Tariff Act of 1930, as amended by the act of June 12, 1934, entitled "An Act to amend the Tariff Act of 1930" (48 Stat. 943), the President of the United States entered into a trade agreement with the President of the Republic of Guatemala on April 24, 1936 (49 Stat. 3990), and proclaimed such trade agreement by proclamation of May 16, 1936 (49 Stat. 3989); and

WHEREAS the Government of the United States of America and the Government of the Republic of Guatemala have agreed to terminate the said trade agreement effective October 15, 1955; and

WHEREAS the said section 350 (a) of the Tariff Act of 1930, as amended, authorizes the President to terminate, in whole or in part, any proclamation carrying out a trade agreement entered into under such section:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including the said section 350 (a) of the Tariff Act of 1930, as amended, do proclaim that the said proclamation dated May 16, 1936 shall be terminated as of the close of October 14, 1955.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventeenth day of October in the year of our Lord nineteen hundred [SEAL] and fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

[F. R. Doc. 55-8547; Filed, Oct. 19, 1955; 1:16 p. m.]

PROCLAMATION 3118

FARM-CITY WEEK

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the increased efficiency of the farmers of our Nation, achieved through research and through their initiative, ability, and energy, makes it possible for fewer and fewer farmers to produce an increasing abundance of food and fiber; and

WHEREAS the productivity of the farms and of urban labor and business continues to provide the food, the tools, the services, and the goods that afford our citizens the highest standards of living in the world; and

WHEREAS it is desirable that those who work on the farms and those who work in the cities develop greater understanding of their mutual problems and interdependence in our closely-knit economy; and

WHEREAS such understanding will be advantageous to all of us in the building of a stronger and a more prosperous free Nation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby designate the period from October 23 through October 29, 1955, as Farm-City Week, and I ask the people throughout the country to participate fully in the observance of that week. I urge such observance as evidence of our appreciation of all those on the farms and in the cities of this Nation who have worked so well in providing us with the food and goods that we need and enjoy.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventeenth day of October in the year of our Lord nineteen hundred [SEAL] and fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

RULES AND REGULATIONS

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

EFFECTIVE DATE OF ORDER AMENDING DEFINITION AND STANDARD OF IDENTITY FOR MONTEREY CHEESE

In the matter of amending the definition and standard of identity for Monterey cheese:

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, as amended 68 Stat. 54; 21 U. S. C. 341) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER on September 9, 1955 (20 F. R. 6607) amending the definition and standard of identity for Monterey cheese (21 CFR 19.580). The amendments promulgated by that order will become effective November 10, 1955.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 401, 52 Stat. 1046, as amended, 68 Stat. 54; 21 U. S. C. 341)

Dated: October 17, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55–8512; Filed, Oct. 20, 1955; 8:45 a. m.]

PART 130—DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS OF SECTION 503 (b) (1) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

EXEMPTION OF DIAMTHAZOLE DIHYDROCHLORIDE PREPARATIONS FROM PRESCRIPTION REQUIREMENTS

The Commissioner of Food and Drugs, in accordance with the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 701 (a), 65 Stat. 649, 52 Stat. 1052, 1055; 21 U. S. C. 353 (b) (3), 355 (c), 371 (a)) and the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR, 1954 Supp. 1.108 (c)), hereby orders the following amendment:

Section 130.1 (a) is amended by adding the following new subparagraph (7):

§ 130.1 *Exemption for certain drugs limited by new-drug applications to prescription sale.* (a) • • •

(7) Diamthazole dihydrochloride (2-dimethylamino - 6 - (β - diethylamino ethoxy)-benzothiazole dihydrochloride) preparations meeting all the following conditions:

(i) The diamthazole dihydrochloride is prepared with or without other drugs in a dosage form suitable for external application in self-medication as a dusting powder.

(ii) The diamthazole dihydrochloride and all other components of the preparation meet their professed standards of identity, strength, quality, and purity.

(iii) If the preparation is a new drug, an application pursuant to section 505 (b) of the act is effective for it.

(iv) The preparation contains not more than 5 percent by weight of diamthazole dihydrochloride.

(v) The preparation is labeled with adequate directions for use only for adults and children 12 years of age and older in the prevention of athlete's foot.

(vi) The labeling bears, in juxtaposition with the directions for use, clear warning statements against:

(*a*) Application to infants or young children.

(*b*) Use on open cracks or weeping stages of athlete's foot.

(*c*) Contact with mucous membranes.

(*d*) Use in the event of irritation.

This amendment removes the drug mentioned therein from the prescription-dispensing requirements of the Federal Food, Drug, and Cosmetic Act (sec. 503 (b) (1) (C), 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353 (b) (1) (C)). This drug was previously limited by its new-drug application to use under professional supervision because the scientific data establishing the toxic potential of the drug and its intended use showed that it was safe only if used under professional supervision.

Pursuant to the regulations in § 1.108 (c) of this chapter (21 CFR, 1954 Supp., 1.108 (c)), petitions have been submitted to remove the prescription restrictions from this drug. Evidence now available through investigation and marketing experience shows that the drug can be safely used by the laity in self-medication if it is used in accordance with the proposed labeling. The restriction to prescription sale is no longer necessary for the protection of public health.

This action in removing the prior restriction limiting this drug to prescription sale is taken under the authority of the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353 (b) (3), 355 (c)), which provides for and requires the removal of such restrictions if they are not necessary for the protection of the public health.

Effective date. This order shall become effective 30 days after the date of its publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 503, 505, 52 Stat. 1052, 65 Stat. 649; 21 U. S. C. 353, 355)

Dated: October 17, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55–8528; Filed, Oct. 20, 1955; 8:47 a. m.]

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter K—Federal Seed Act

PART 201—FEDERAL SEED ACT REGULATIONS

MISCELLANEOUS AMENDMENTS

On May 27, 1955, there was published in the FEDERAL REGISTER (20 F. R. 3745) a notice of rule making and notice of hearings with respect to proposed amendments of the regulations of the Secretary of Agriculture (7 CFR 201.1–201.109) under the Federal Seed Act. After consideration of all relevant matters presented at the hearings, or in writing, pursuant to said notice, and under authority of section 402 of the Federal Seed Act (7 U. S. C. 1592), the amendments to the regulations set forth in said notice and specified below are hereby adopted with the changes specifically stated and with certain corrections of typographical errors.

1. In § 201.5 (a) the proposal to insert "orchard grass" after "alfalfa" is not adopted.

2. In § 201.14 (a) the proposal to insert "orchard grass" after "alfalfa" is not adopted.

3. In § 201.31 the germination standard for Welsh Onion stated in proposal No. 9 of the notice as 75 percent is changed to 70 percent.

4. In § 201.34 paragraphs (d) and (e) are deleted and the heading "Kind and variety" is changed to "Kind, variety, and type."

5. The first unnumbered section entitled "Seed Unit" set forth in proposal No. 16 of the notice is promulgated as § 201.47a.

6. The second unnumbered section entitled "Working Samples" set forth in proposal No. 16 of the notice is promulgated as § 201.47b.

7. Section 201.48 is amended to read as set forth in proposal No. 17 of the notice with the addition of the phrase ", except as provided in paragraph (i)" in paragraph (a) following the word "injured".

8. Section 201.51 is amended to read as set forth in proposal No. 20 of the notice with the addition of a new paragraph numbered (a) (4).

9. The unnumbered section set forth in proposal No. 24 is promulgated as § 201.55a.

10. Sections 201.56–1 through 201.56–11 are promulgated as set forth in proposal No. 26 of the notice, with the following changes:

(a) Section 201.56–1 (c) (7) is changed to read "various combinations of the abnormalities described in this paragraph."

(b) In § 201.56–2 (a) (2) (ii) "a" is inserted before "shortened" and "are" is changed to "is."

(c) Section 201.56–2 (a) (2) (viii) is changed to read "various combinations of the abnormalities described in this subparagraph."

(d) Section 201.56–2 (b) (2) (viii) is changed to read "various combinations of the abnormalities described in this subparagraph."

(e) Section 201.56–3 (b) (2) (vii) is changed to read "various combinations of the abnormalities described in this subparagraph."

(f) Section 201.56–4 (b) (2) (v) is changed to read "various combinations of the abnormalities described in this subparagraph."

(g) Section 201.56–5 (b) (2) (viii) is changed to read "various combinations of the abnormalities described in this subparagraph."

(h) In § 201.56–6 (b) (2) (iv) "two" is inserted before "shoots."

(i) In § 201.56–11 (b) (7) "subparagraph" is changed to "paragraph".

11. The unnumbered section set forth in proposal No. 28 of the notice is promulgated as § 201.57a.

12. Section 201.58 is amended to read as set forth in proposal No. 29 of the notice, except that paragraph (c) is changed by substituting the word "indicum" for the word "orientale" with respect to "Sesame" in the column headed "agricultural seed" and by inserting the phrase "vulgare var." between the word

"Sorghum" and the word "sudanense" with respect to "Sudangrass" in said column.

13. The unnumbered section set forth in proposal No. 34 of the notice is promulgated as § 201.62.

14. The proposed amendments of §§ 201.34 (d) and (e), 201.36b, 201.22, and 201.31, referred to, respectively in proposals 10, 11, 40, and 41, are not being adopted. Additional hearing notice was published at 20 F. R. 7879.

The amendments set forth above shall become effective on November 21, 1955.

(Sec. 402, 53 Stat. 1285; 7 U. S. C. 1592)

NOTE: The record keeping and reporting requirements of these amendments have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 13th day of October 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

1. Section 201.2 *Terms defined* is amended in the following respects:

a. Paragraph (h) is amended to read as follows:

(h) *Agricultural seeds.* The term "agricultural seeds" means the following kinds of grass, forage, and field crop seeds:

Alfalfa—Medicago sativa L.
Alfilerla—Erodium cicutarium (L.) L'her.
Alyceclover—Alysicarpus vaginalis (L.) DC.
Bahiagrass—Paspalum notatum Fluegge.
Barley—Hordeum vulgare L.
Bean, adzuki—Phaseolus angularis Willd.
Bean, field—Phaseolus vulgaris L.
Bean, mung—Phaseolus aureus Roxb.
Bean—(see Velvetbean).
Beet, field excluding sugar beet—Beta vulgaris L.
Beggarweed—Desmodium tortuosum (Sev.) DC.
Bentgrass or
Bentgrass, colonial—Agrostis tenuis Sibth.
Bentgrass, creeping—Agrostis palustris Huds.
Bentgrass, velvet—Agrostis canina L.
Bermuda-grass—Cynodon dactylon (L.) Pers.
Bluegrass, annual—Poa annua L.
Bluegrass, bulbous—Poa bulbosa L.
Bluegrass, Canada—Poa compressa L.
Bluegrass, Kentucky—Poa pratensis L.
Bluegrass, Nevada—Poa nevadensis Vasey.
Bluegrass, rough—Poa trivialis L.
Bluegrass, Texas—Poa arachnifera Torr.
Bluegrass, wood—Poa nemoralis L.
Bluestem, big—Andropogon furcatus Muhl.
Bluestem, little—Andropogon scoparius Michx.
Bluestem, sand—Andropogon hallii Hack.
Bluestem, yellow—Andropogon ischaemum.
Brome, mountain—Bromus marginatus Nees.
Brome, smooth—Bromus inermis Leyss.
Broomcorn—Sorghum vulgare var. technicum (Koern.) Jav.
Buckwheat—Fagopyrum esculentum Moench (F. vulgare Hill.).
Buffalograss—Buchloe dactyloides (Nutt.) Engl.
Buffelgrass—Pennisetum ciliare (L.) Link.
Bur-clover, California—Medicago hispida Gaertn.
Bur-clover, spotted—Medicago arabica (L.) DC.
Burnet, little—Sanguisorba minor Scop.
Buttonclover—Medicago orbicularis (L.) All.
Canarygrass—Phalaris canariensis L.
Canarygrass, reed—Phalaris arundinacea L.
Carpetgrass—Axonopus affinis Chase.
Castorbean—Ricinus cammunis (L.)
Chickpea—Cicer arietinum L.
Clover, alsike—Trifolium hybridum L.
Clover, berseem—Trifolium alexandrinum L.
Clover, cluster—Trifolium glomeratum L.
Clover, crimson—Trifolium incarnatum L.
Clover, large hop—Trifolium procumbens L.
Clover, small hop (suckling)—Trifolium dubium Sibth.
Clover, ladino—Trifolium repens L.
Clover, lappa—Trifolium lappaceum L.
Clover, Persian—Trifolium resupinatum L.
Clover, red or
Red clover, mammoth—Trifolium pratense L.
Red clover, medium—Trifolium pratense L.
Clover, rose—Trifolium hirtum All.
Clover, strawberry—Trifolium fragiferum L.
Clover, sub (subterranean)—Trifolium subterraneum L.
Clover, white—Trifolium repens L. (also see Clover, ladino).
Clover, (also see Alyceclover, Bur-clover, Buttonclover, Sourclover, Sweetclover).
Corn, field—Zea mays L.
Corn, pop—Zea mays var. everta (Sturt.) Bailey.
Cotton—Gossypium spp.
Cowpea—Vigna sinensis (Torner) Savi.
Crested dogtail—Cynosurus cristatus L.
Crotalaria, lance—Crotalaria lanceolata E. Mey.
Crotolaria, showy—Crotalaria spectabilis Roth.
Crotalaria, slenderleaf—Crotolaria intermedia Kotschy.
Crotalaria, striped—Crotalaria striata DC.
Crotalaria, Sunn—Crotalaria juncea L.
Dallisgrass—Paspalum dilatatum Poir.
Dichondra-Dichondra repens Forst.
Dropseed, sand—Sporobolus cryptandrus (Torr.) A. Gray.
Emmer—Triticum dicoccum Schrank.
Fescue, Chewings—Festuca rubra var. commutata Gaud.
Fescue, hair—Festuca capillata Lam.
Fescue, meadow—Festuca elatior L.
Fescue, red—Festuca rubra L.
Fescue, sheep—Festuca ovina L.
Fescue, tall—Festuca arundinacea Schreb.
Flax—Linum usitatissimum L.
Grama, blue—Bouteloua gracilis (H. B. K.) Lag.
Grama, side-oats—Bouteloua curtipendula (Michx.) Torr.
Guineagrass—Panicum maximum Jacq.
Hardinggrass—Phalaris tuberosa var. stenoptera (Hack.) Hitchc.
Hemp—Cannabis sativa L.
Indiangrass, yellow—Sorghastrum nutans (L.) Nash.
Indigo, hairy—Indigofera hirsuta (L.)
Japanese lawngrass—Zoysia japonica Steud.
Johnsongrass—Sorghum halepense (L.) Pers.
Kudzu—Pueraria thunbergiana (Sieb. and Zucc.) Benth.
Lespedeza, Korean—Lespedeza stipulacea Maxim.
Lespedeza, sericea or Chinese—Lespedeza cuneata Dumont) D. Don. [L. sericea (Thunb.) Miq.]
Lespedeza, Siberian—Lespedeza hedysaroides (Pallas) Ricker.
Lespedeza, striate—Lespedeza striata (Thunb.) Hook. and Arn.
Lovegrass, sand—Eragrostis trichodes (Nutt.) Wood.
Lovegrass, weeping—Eragrostis curvula (Schrad.) Nees.
Lupine, blue—Lupinus angustifolius L.
Lupine, white—Lupinus albus L.
Lupine, yellow—Lupinus luteus L.
Manilagrass—Zoysia matrella (L.) Merr.
Meadow foxtail—Alopecurus pratensis L.
Medick, black—Medicago lupulina L.
Millet, browntop—Panicum ramosum L.
Millet, foxtail—Setaria italica (L.) Beauv.
Millet, Japanese—Echinochloa crusgalli var. frumentacea (Roxb.) Wight.
Millet, pearl—Pennisetum glaucum (L.) R. Br.
Millet, proso—Panicum miliaceum L.
Molassesgrass—Melinis minutiflora Beauv.
Mustard, black—Brassica nigra Koch.
Mustard, white—Brassica hirta Moench.
Napiergrass—Pennisetum purpureum Schumach.
Oat—Avena spp.
Oatgrass, tall—Arrhenatherum elatius (L.) Mert. and Koch.
Orchardgrass—Dactylis glomerata L.
Panicgrass, blue—Panicum antidotale Retz.
Peanut—Arachis hypogaea L.
Pea, field—Pisum sativum var. arvense (L.) Poir.
Poa trivialis—(see Bluegrass, rough).
Rape, annual—Brassica napus var. annua Koch.
Rape, bird—Brassica campestris L.
Rape, turnip—Brassica campestris vars. L.
Rape, winter—Brassica napus var. biennis (Schubl. and Mart.) Reichb.
Redtop—Agrostis alba L.
Rescuegrass—Bromus catharticus Vahl.
Rhodesgrass—Chloris gayana Kunth.
Rice—Oryza sativa L.
Ricegrass, Indian—Oryzopsis hymenoides (Roem. and Schult.) Ricker.
Roughpea—Lathyrus hirstus L.
Rye—Secale cereale L.
Ryegrass or
Ryegrass, Italian—Lolium multiflorum Lam.
Ryegrass, perennial—Lolium perenne L.
Safflower—Carthamus tinctorius L.
Sainfoin—Onobrychis viciaefolia Scop.
Sesame—Sesamum indicum L.
Sesbania—Sesbania exaltata (Raf.) Torr.
Smilo—Oryzopsis miliacea (L.) Benth. and Hook.
Sorghum—Sorghum vulgare Pers.
Sourclover—Melilotus indica (L.) All.
Soybean—Glycine max (L.) Merrill [Soja max (L.) Piper].
Spelt—Triticum spelta L.
Sudangrass—Sorghum vulgare var. sudanense (Piper) Hitchc.
Sunflower—Helianthus annuus L.
Sweetclover or
Sweetclover, white—Melilotus alba Desr.
Sweetclover, yellow—Melilotus officinalis (L.) Lam.
Sweet vernalgrass—Anthoxanthum odoratum L.
Switchgrass—Panicum virgatum L.
Timothy—Phleum pratense L.
Trefoil, big—Lotus uliginosus Schkuhr.
Trefoil, birdsfoot—Lotus corniculatus L.
Vaseygrass—Paspalum urvillei Steud.
Veldtgrass—Ehrharta calycina J. E. Smith.
Velvetbean—Stizolobium deeringianum Bort.
Velvetgrass—Holcus lanatus L.
Vetch or
Vetch, common—Vicia sativa L.
Vetch, hairy—Vicia villosa Roth.
Vetch, Hungarian—Vicia pannonica Grantz.
Vetch, monantha—Vicia articulata Hornem. (V. monantha Desf.)
Vetch, narrowleaf—Vicia angustifolia (L.) Reich.
Vetch, purple—Vicia athopurpurea Desf.
Vetch, woollypod—Vicia dasycarpa Ten.
Wheat or
Wheat, common—Triticum aestivum L. (T. vulgare Vill.)
Wheat, club—Triticum compactum Host.
Wheat, durum—Triticum durum Desf.
Wheat, Polish—Triticum polonicum L.
Wheat, poulard—Triticum turgidum L.
Wheatgrass, crested or fairway crested—Agropyron cristatum (L.) Gaertn.
Wheatgrass, crested or standard crested—Agropyron desertorum (Fisch.) Schult.
Wheatgrass, intermediate—Agropyron intermedium (Host) Beauv.
Wheatgrass, pubescent—Agropyron trichophorum (Link) Richt.
Wheatgrass, slender—Agropyron pauciflorum (Schwein.) Hitchc. (A. Trachycaulum Steud.).
Wheatgrass, tall—Agropyron elongatum (Host) Beauv.
Wheatgrass, western—Agropyron smithii Rydb.
Wild-rye, Canada—Elymus canadensis L.
Wild-rye, Russian—Elymus junceus Fisch.
Zoysia japonica—(see Japanese lawngrass)
Zoysia matrella—(see Manila grass)

b. Paragraph (i) is amended to read as follows:

(i) *Vegetable seeds.* The term "vegetable seeds" means the seeds of the following kinds that are or may be grown in gardens or on truck farms and are or may be generally known and sold under the name of vegetable seeds:

Artichoke—Cynara scolymus L.
Asparagus—Asparagus officinalis L.
Asparagusbean—Vigna sesquipedalis (L.) Fruwirth.
Bean—Phaseolus vulgaris L.
Bean, lima—Phaseolus lunatus var. macrocarpus Van Eseltine.
Bean, runner—Phaseolus coccineus L.
Beet—Beta vulgaris L.
Broadbean—Vicia faba L.
Broccoli—Brassica oleraca var. botrytis L.
Brussels sprouts—Brassica oleracea var. gemmifera Zenker.
Cabbage—Brassica olearacea var. capitata L.
Cantaloupe—(see muskmelon)
Cardoon—Cynara cardunculus L.
Carrot—Daucus carota L.
Cauliflower—Brassica oleracea var. botrytis L.
Celeriac—Apium graviolens var. rapaceum DC.
Celery—Apium graveolens var. dulce (Mill.) Pers.
Chard, Swiss—Beta vulgaris var. cicla L.
Chicory—Cichorium intybus L.
Chinese cabbage—Brassica pekinensis (Lour.) Rupr.
Citron—Citrullus vulgaris Schrad.
Collards—Brassica oleracea var. acephala DC.
Corn, sweet—Zea mays L.
Cornsalad—Valerianella locusta var. olitoria Pall.
Cowpea—Vigna sinensis (Torner) Savi.
Cress, garden—Lepidium sativum L.
Cress, water—Rorippa nasturtium-aquaticum (L.) Britt. and Rendle.
Cucumber—Cucumis sativus L.
Dandelion—Taraxacum officinale Weber.
Eggplant—Solanum melongena var. esculentum Nees.
Endive—Cichorium endivia L.
Kale—Brassica oleracea var. acephala DC.
Kale, Chinese—Brassica oleracea var. alboglabra (Bailey) Musil.
Kohlrabi—Brassica oleracea var. gongylodes L.
Leek—Allium porrum L.
Lettuce—Lactuca sativa L.
Muskmelon—Cucumis melo L.
Mustard—Brassica juncea (L.) Coss.
Mustard, spinach—Brassica perviridis Bailey.
Okra—Hibiscus esculentus L.
Onion—Allium cepa L.
Onion, Welsh—Allium fistulosum L.
Pak-choi—Brassica chinensis L.
Parsley—Petroselinum hortense Hoffm.
Parsnip—Pastinaca sativa L.
Pea—Pisum sativum L.
Pepper—Capsicum spp.
Pumpkin—Cucurbita pepo L., C. moschata Duchesne and C. maxima Duchesne.
Radish—Raphanus sativus L.
Rhubarb—Rheum rhaponticum L.
Rutabaga—Brassica napus var. napobrassica (L.) Reichb.
Salsify—Tragopogon porrifolius L.
Sorrel—Rumex acetosa L.
Soybean—Glycine max (L.) Merrill [Soja max (L.) Piper].
Spinach—Spinacia oleracea L.
Spinach, New Zealand—Tetragonia expansa Thunb.
Squash—Cucurbita Pepo L., C. moschata Duchesne and C. maxima Duchesne.
Tomato—Lycopersicon esculentum Mill.
Tomato, husk—Physalis pubescens L.
Turnip—Brassica rapa L.
Watermelon—Citrullus vulgaris Schrad.

c. Paragraph (y) is amended to read as follows:

(y) *Hybrid.* The term "hybrid" means the first generation seed of a cross produced by controlling the pollination and by combining (1) two, three, or four inbred lines; (2) one inbred or a single cross with an open-pollinated variety; or (3) two varieties or species, except open-pollinated varieties of corn (Zea mays). The second generation and subsequent generations from such crosses shall not be regarded as hybrids. Hybrid designations shall be treated as variety names.

2. In § 201.5 (a) "white clover," is inserted after "red clover,".

3. Paragraph 201.5 (c) is deleted.

4. In § 201.7 the phrase "received from the grower" is deleted from the first sentence and the phrase "and the sample" is deleted from the last sentence, and the following sentence is added at the end of the section: "A copy of the grower's declaration and a sample of the seed shall be retained by the grower."

5. Section 201.12 is amended to read as follows:

§ 201.12 *Name of kind and variety.* The representation of kind or kind and variety shall be confined to the name of the kind or kind and variety determined in accordance with § 201.34. The name shall not have affixed thereto words or terms that create a misleading impression as to the history or characteristics of the kind or variety.

6. In § 201.14 (a) "white clover," is inserted after "red clover,".

7. Section 201.16 is amended by adding at the end of the section the following sentence: "If in the course of such transportation, or thereafter, the seed is diverted to another State of destination, the person or persons responsible for such diversion shall cause the seed to be relabeled with respect to noxious-weed seed content, if necessary, to conform to the laws and regulations of the State to which the seed is diverted."

8. Section 201.20 is amended by adding at the end of the section the following proviso: "*Provided*, That this shall not apply to the seed of Kentucky bluegrass during the months of July, August, and September of the year in which the seed is produced."

9. Section 201.26 is amended to read as follows:

§ 201.26 *Kind and variety.* The label shall bear the name of the kind and variety determined in accordance with § 201.34. The name shall not have affixed thereto words or terms that create a misleading impression as to the history or characteristics of the kind or variety.

10. In § 201.31 the names of kinds of vegetable seeds in the list are rearranged in alphabetical order in accordance with § 201.2 (i) and the following additional kinds and germination standards are inserted in proper alphabetical order:

Kale, Chinese	75
Onion, Welsh	70

11. Section 201.34 is amended to read as follows:

§ 201.34 *Kind, variety and type; designation as hybrid*—(a) *Indistinguishable seed.* Proper precautions to insure that the kind or variety or type of indistinguishable agricultural or vegetable seeds is properly stated shall include the maintaining of the records described in § 201.7. The examination of the seed and any pertinent facts may be taken into consideration in determining whether proper precautions have been taken to insure the kind, variety, or type to be that which is shown.

(b) *Name of kind.* The name of each kind of agricultural or vegetable seed is the name listed in § 201.2 (h) or (i), respectively.

(c) *Hybrid designation.* Seed shall not be designated in labeling as "hybrid" seed unless it comes within the definition of "hybrid" in § 201.2 (y).

12. Section 201.42 is amended to read as follows:

§ 201.42 *Small containers.* In sampling seed in small containers which it is not practical to sample as required in § 201.41, entire unopened containers may be taken in sufficient number to supply a minimum size sample as required in § 201.43. The sample may consist of the contents of one container, or two or more containers when combined.

13. Section 201.45 (b) is amended to read as follows:

(b) The sample shall be repeatedly divided to the weight to be used for the working sample. Some form of efficient mechanical divider should be used. In case the proper mechanical divider cannot be used or is not available, the sample shall be thoroughly mixed and placed in a pile and the pile shall be repeatedly divided into halves until a sample of the desired weight remains.

14. Section 201.46 is amended as follows:

a. The introductory paragraph is amended to read:

For the detailed purity analysis and noxious-weed seed examination the working samples shall be at least the weights set forth in table 1. In mixtures the weight of the sample for purity analysis and the weight of the sample for noxious-weed seed examination shall be determined by the kind (or group of kinds of similar size) which comprises the major proportion of the sample.

b. In table 1 the necessary amendments are made in the names for the indicated kinds of seed so the names will be the same as those appearing in table 2, § 201.58. Also the order of the kinds of seeds in table 1 is rearranged to correspond with the order in which they are listed in table 2.

c. In table 1 the existing information in the various columns for the indicated kinds is amended to read:

Bahia grass—Paspalum notatum:			
Var. Pensacola	5	50	----
All other varieties	10	50	366
Flax—Linum usitatissimum	15	100	178
Oatgrass, tall meadow—Arrhenatherum elatius	5	50	330
Cornsalad (Fetticus)—Valerianella locusta var. olitoria:			
Vars. Full Hearted and Dark Green Fullhearted	5	50	----
All other varieties	10	50	380

d. In all instances where the figure in the column "Minimum weight for purity analysis" in table 1 is 2 grams,

the corresponding figure in the column "Minimum weight for noxious-weed seed examination" is changed from 50 to 35.

e. Table 1 is further amended by inserting the following kinds and information in their appropriate alphabetical position:

Name of seed	Minimum weight for purity analysis	Minimum weight for noxious-weed seed examination	Approximate number of seeds per gram
	Gm	*Gm*	
Bluestem, yellow—Andropogon ischaemum	2	35	-------
Buffelgrass—Pennisetum ciliare	10	50	-------
Burnet, little—Sanguisorba minor	25	150	108
Buttonclover—Medicago orbicularis	10	50	337
Castor bean—Ricinus communis	500	500	5
Dichondra—Dichondra repens	5	50	472
Indigo, hairy—Indigofera hirsuta	10	50	437
Lovegrass, sand—Eragrostis trichodes	1	25	3,550
Rose clover—Trifolium hirtum	5	50	358
Safflower—Carthamus tinctorius	100	500	29
Sesame—Sesamum indicum	10	50	360
Veldtgrass—Ehrharta calycina	2	35	655
Wheatgrass, pubescent—Agropyron tricophorum	10	50	180
Wheatgrass, intermediate—Agropyron intermedium	10	50	230
Wheatgrass, tall—Agropyron elongatum	10	50	140
Wild-rye, Russian—Elymus junceus	10	50	400
Chinese kale—Brassica oleracea var. alboglabra	10	50	-------
Onion, Welsh—Allium fistulosum	10	50	-------

f. In table 1, footnotes Nos. 1, 2, and 4, including the reference designations in the table are deleted, and footnote No. 3 and its reference designation are renumbered as No. 1.

15. Section 201.47 is amended to read as follows:

§ 201.47 *Separation.* (a) The working sample shall be weighed in grams to four significant figures, and shall then be separated into four parts: (1) Kind or variety to be considered pure seed; (2) other crop seed; (3) weed seed; and (4) inert matter. Each of these four component parts shall be weighed in grams to four significant figures, and the percentage by weight of each part (based on the sum of the weights of the component parts and not on the original weight) shall be determined. The sum of the weights of the component parts shall be compared with the original weight of the working sample as a check against loss of material or other error.

(b) In the case of other crop seed and weed seed, the seeds of each species shall be separated when possible and the number or the weight of each kind determined. The separation of the seed of the kind or variety considered pure seed must be on such a basis that the separation can be made definitely by seed characteristics.

(c) When samples of seed contain two or more similar kinds of seeds the separation of which in the entire working sample would be very difficult, it is permissible to separate and weigh the similar seeds as a group. From the purity working sample at least 400 seeds are to be taken indiscriminately and the separation made on this portion. The proportion of each kind is then determined by weight or, if the seeds are of similar weight, the proportion may be determined by count, and from this the percentage in the entire sample is calculated.

(d) With reference to classification of pure seed, other crop seed, and inert matter, applicable methods of determination may include visual examination, use of reflected light or specific gravity. This has reference particularly to insect-damaged, broken or diseased seeds, or sterile grass florets.

16. Following § 201.47 two new sections are inserted to read, respectively, as follows:

§ 201.47a *Seed unit.* The seed unit is the structure usually regarded as a seed in agricultural practices and in commercial channels. The seed unit may consist of one or more of the following structures:

(a) True seeds;

(b) Caryopses and florets in the grass family. In this family the pure seed unit also includes the following structures for the indicated kinds:

(1) Spikelet or paired spikelets with at least one caryopsis in the bluestems (Andropogon) and yellow Indiangrass (Sorghastrum nutans),

(2) Spikelet with at least one caryopsis in the gramas (Bouteloua), or spike with at least one caryopsis in side-oats grama (B. curtipendula),

(3) Bur or fertile floret of buffalo grass (Buchloe dactyloides),

(4) Fascicle of buffel grass (Pennisetum ciliare),

(5) Bulblet of bulbous bluegrass (Poa bulbosa);

(c) Dry indehiscent fruits in the following plant families: Buckwheat (Polygonaceae), sunflower (Compositae), geranium (Geraniaceae), goosefoot (Chenopodiaceae), and valerian (Valerianaceae);

(d) One- and two-seeded pods of small-seeded legumes, burs of the bur clovers, and pods of peanuts. (This does not preclude the shelling of small-seeded legumes for purposes of identification);

(e) Fruits or half fruits in the carrot family (Umbelliferae);

(f) Nutlets in the following plant families: Borage (Boraginaceae), mint (Labiateae), vervain (Verbenaceae);

(g) "Seed balls" or portions thereof in beets (Beta), and fruits with accessory structures such as occur in New Zealand spinach (Tetragonia expansa).

§ 201.47b *Working samples.* The purity working sample is the sample on which the purity analysis is made. The noxious-weed seed working sample is the sample on which the noxious-weed seed examination is made.

17. Section 201.48 is amended to read as follows:

§ 201.48 *Kind or variety considered pure seed.* The pure seed shall include all seeds of each kind or each kind and variety under consideration present in excess of 5 percent of the whole, and may include kinds and varieties present to an extent of 5 percent or less of the whole. The following shall be included with the pure seed:

(a) Seeds that are immature, shriveled, cracked, insect-damaged or otherwise injured, except as provided in paragraph (i) of this section. (Seeds of legumes and crucifers with the seedcoat entirely removed shall be classified as inert matter. See § 201.51);

(b) Pieces of broken seeds that are larger than one-half the original size;

(c) Seeds that have started to germinate;

(d) Seeds of Cucurbitaceae and Solanaceae consisting principally of seedcoat (usually referred to as empty seed);

(e) Empty fruits (seed units) of species belonging to the following families: Sunflower (Compositae), buckwheat (Polygonaceae), carrot (Umbelliferae), valerian (Valerianaceae), mint (Labiateae), and other families in which the seed unit may be a dry, indehiscent, one-seeded fruit;

(f) All seed units of grasses in which a caryopsis can be detected either by light pressure or by reflected light;

(g) Multiple florets, or spikelets, of the following kinds of seeds when one or more of the florets contain a caryopsis: Bluegrass (Poa), tall meadow oatgrass (Arrhenatherum elatius), Rhodes grass (Chloris gayana), bluestems (Andropogon), gramas (Bouteloua), and oats (Avena), and spikes of side-oats grama (Bouteloua curtipendula) that contain one or more caryopses; in the case of orchard grass (Dactylis glomerata) all empty florets may be removed and classed as inert matter; or alternatively, all multiple florets may be weighed without detaching the empty florets in which case four-fifths (⅘) of the weight is added to the pure seed and one-fifth (⅕) to the inert matter;

(h) Diseased seeds, except ergots, smut balls, and other fungus bodies which are to be classed as inert matter. (See § 201.51);

(i) Insect-damaged seeds, except (1) broken pieces that are one-half or less than the orginal size and (2) chalcid-damaged seeds of alfalfa, red clover, and similar kinds of small-seeded legumes;

(j) Seed units of New Zealand spinach and beets regardless of whether they contain true seeds: *Provided,* That in the case of segmented beet balls, small fragments which obviously do not contain true seeds shall be classified as inert matter.

18. Section 201.49 is amended to read as follows:

§ 201.49 *Other crop seed.* Seeds of plants grown as crops (other than the kind or variety included in the pure seed) shall be considered other crop seeds, unless recognized as weed seeds by applicable laws, or regulations, or by general usage. All interpretations and definitions for "pure seed" in § 201.48 shall also apply in determining whether seeds are other crop seed or inert matter.

19. Section 201.50 is amended to read as follows:

§ 201.50 *Weed seed.* Seeds, bulblets, or tubers of plants recognized as weeds by applicable laws or regulations, or general usage shall be considered weed seeds. Badly injured weed seeds and empty, seedlike structures, including those of noxious-weed seeds, as described in § 201.51, shall be considered inert matter and not weed seeds. When seeds of Juncus tenuis, or other species of Juncus having seeds of a similar size, are present they may be included with the inert matter. However, clusters of Juncus seeds shall be included with the weed seeds.

20. Section 201.51 is amended to read as follows:

§ 201.51 *Inert matter.* Inert matter shall include seeds and seedlike structures from both crop and weed plants and other material not seeds as follows:

(a) Crop plants—

(1) Broken seeds: Pieces of broken seeds one-half the original size or less;

(2) Seeds of legumes and crucifers with the seedcoats entirely removed;

(3) Glumes and empty florets except when considered pure seed or other crop seed under §§ 201.48 and 201.49;

(4) Chalcid-damaged seeds of alfalfa, red clover, and similar kinds of small-seeded legumes;

(b) Weed plants—

(1) Damaged seeds (other than caryopses of grasses) with over one-half of the embryo missing;

(2) Damaged caryopses of grasses, with over one-half of the root shoot axis missing (the scutellum excluded); and glumes and empty florets of grasses;

(3) Seeds of legumes and species of Brassica with the seedcoats entirely removed;

(4) Empty fruits (seeds) such as occur in the following plant families: Sedge (Cyperaceae), buckwheat (Polygonaceae), morning-glory (Convolvulaceae), and sunflower (Compositae). (This is to be determined by visual examination, which may include dissection or the use of reflected light);

(5) Bulblets of wild onion and wild garlic (Allium) which are devoid of the husk and pass through a 10 x 10 mesh screen (10 mesh per inch) made of 26 gage (0.020 inch diameter) stainless steel wire; bulblets which are devoid of the husks and are retained on 10 x 10 mesh screen, but which show injury to the basal end; bulblets which show evident damage to the basal end and have part of the husk removed;

(6) Immature florets of quackgrass (Agropyron repens) in which the caryopses are less than one-third the length of the palea;

(7) Dodder (Cuscuta): Seeds which are either (i) fragile, (ii) ashy gray to creamy white in color, or (iii) badly shriveled;

(8) Buckhorn (Plantago lanceolata): Black seeds, with no brown color evident, whether shriveled or plump; (The color of questionable seeds should be determined under a magnification of approximately 10 X with strong light);

(9) Ragweed (Ambrosia): Seed with both the involucre and pericarp absent;

(c) Other matter—

(1) Nematode galls, including galls enveloped by the lemma and palea of grass florets;

(2) Fungus bodies, such as ergot and other sclerotia, and smut balls;

(3) All inert matter such as soil particles, sand, stones, chaff, stems, and leaves.

21. Section 201.52 is amended to read as follows:

§ 201.52 *Noxious-weed seeds.* The determination of the number of seeds, bulblets, or tubers of individual noxious weeds present per unit weight should be made on at least the minimum quantities listed in table 1: *Provided,* That if the following indicated numbers of a single kind of seed, bulblet, or tuber are found in the pure-seed analysis (or noxious-weed seed examination of a like amount) the occurrence of that species in the remainder of the bulk examined for noxious-weed seeds need not be noted: ½-gram purity working sample, 16 or more seeds; 1-gram purity working sample, 23 or more seeds; 2-gram purity working sample or larger, 30 or more seeds.

22. In § 201.53 paragraph (c) is amended to read as follows:

(c) When only a germination test is required and the pure seed is found to be less than 98 percent, the seed for the test shall be obtained by separating the sample into two components as follows: (1) Pure seed and (2) other crop seed, weed seed, and inert matter. In making this separation at least ¼ of the quantity required for a regular purity analysis shall be used. The whole sample must be well mixed and divided in such a manner as to get a completely representative subsample.

23. Section 201.55 is amended to read as follows:

§ 201.55 *Retests.* (a) In considering whether a retest is required a difference of 10 percent between any two 100-seed replicates is permitted when the average is 80 percent or above, and a difference of 15 percent when the average is below 80 percent. When all 4 replicates are in agreement (i. e., do not exceed the 10 and 15 percent limits) the average shall be used and a retest is not required. If three replicates are in agreement the median of the four replicates shall be used and a retest is not required. (The median of four replicates is the average of the two middle values). When no more than two replicates are in agreement, a retest is necessary. If, at the time of the prescribed final count there are indications that a satisfactory germination has not been obtained, such as the presence of firm ungerminated seeds, a retest should be made.

(b) Samples showing injury as a result of chemical treatments shall be retested in soil. The result of the soil test will be regarded as authentic.

(c) When one or more retests, or concurrent tests, are made in the same laboratory in accordance with this part by either (1) the same method, or (2) alternate methods, the results of all tests within tolerance shall be averaged. When the results obtained by different methods are not within tolerance of each other, the higher result shall be used.

24. Following § 201.55 a new section is inserted to read as follows:

§ 201.55a *Moisture and aeration of substratum.* (a) The substratum must be moist enough to supply the needed moisture to the seeds at all times. Excessive moisture which will restrict aeration of the seeds should be avoided. Except as provided for those kinds of seeds requiring high moisture levels of the germination media, the substrata should never be so wet that a film of water is formed around the seeds. For most kinds of seeds blotters or other paper substrata should not be so wet that by pressing, a film of water forms around the finger.

(b) The following formula may be used as a guide in the preparation of sand for germination tests:

$$\frac{\text{118.3 cc. (1 gill) sand}}{\text{Its weight in grams}} \times 20.2 - 8.0 = \text{The number of cc. of water to add to each 100 grams of air-dry sand.}$$

(c) The amount of water provided by this formula is satisfactory for seeds the size of clovers and will have to be modified slightly, depending on the kind of seed being tested and the kind of sand used. For example, slightly more moisture should be added when the larger seeds are to be tested.

(d) In preparing soil tests water should be added to the soil until it can be formed into a ball when squeezed in the palm of the hand but will break freely when pressed between two fingers. After the soil has been moistened it should be rubbed through a sieve and put in the seed containers without packing.

(e) The addition of water subsequent to placing the seed in test will depend on the evaporation from the substrata in the germination chambers. Since the rate of evaporation will depend upon the relative humidity of the air, it is desirable to keep water in the germination chambers or to provide other means of supplying a relative humidity of approximately 95 percent. Germination tests should be observed at frequent intervals to insure an adequate moisture supply of the substrata at all times.

25. Section 201.56 is amended to read as follows:

§ 201.56 *Interpretation.* (a) A seed shall be considered to have germinated when it has developed those essential structures which, for the kind of seed under consideration, are indicative of its ability to produce a normal plant under favorable conditions. Seedlings possessing those essential structures are referred to as normal seedlings. Abnormal seedlings, consisting of those which are broken, devoid of roots, malformed, or weak, and other types not possessing essential structures, shall not be considered to have germinated.

(b) Sand and/or soil tests may be used as a guide in determining the classification of questionable seedlings and the evaluation of germination tests made on

approved artificial media. This is intended to provide a method of checking the reliability of tests made on artificial substrata when there may be doubt as to the proper evaluation of such tests.

(c) Seedlings infected with fungi or bacteria should be regarded as normal if all essential structures are present. A seedling that has been seriously damaged by bacteria or fungi from any source other than the specific seed should be regarded as normal if it is determined that all essential structures were present before the injury or damage occurred. Germination counts should be made on samples where contamination and decay are present at approximately 2-day intervals between the usual first count and the final count. During the progress of the germination test, seeds which are obviously dead and moldy and which may be a source of contamination of healthy seeds should be removed at each count and the number of such dead seeds should be recorded. When symptoms of certain diseases develop which can be readily recognized and identified, their presence should be noted.

(d) Seed units containing more than one seed or embryo, such as New Zealand spinach seed, Beta seed, and seed units of grasses consisting of multiple florets, shall be tested as a single seed and shall be regarded as having germinated if they produce one or more normal seedlings.

(e) Standard guides for seedling interpretation shall include the photographs of normal and abnormal seedlings[1] identified by photo numbers in table 2 in § 201.58 and the following descriptions for specific kinds and groups.

26. Following § 201.56, 11 new sections are inserted to read, respectively, as follows:

§ 201.56–1 *Goosefoot family (Chenopodiaceae) and Carpetweed family (Aizoaceae).* (a) Kinds of seed: Beet, swiss chard, mangel, spinach, and New Zealand spinach.

(b) A completely normal seedling of the kinds specified in paragraph (a) of this section should have a long, slender root with root hairs, a long, well-developed hypocotyl, two attached leaflike cotyledons and an intact but small epicotyl. Normal seedlings shall include those that have: (1) A well-developed, long, slender root with root hairs; (2) a stubby primary root provided the secondary roots are strong and the hypocotyl is near normal length, as in spinach; (3) at least one attached cotyledon, provided the seedling is otherwise normal; (4) slight infection by fungi, provided none of the essential seedling structures have been damaged; (5) normal seedlings structures of Beta that have been discolored from toxic substances in the seed balls or other causes; or (6) at least one normal seedling from a seed ball, regardless of whether abnormal seedlings also emerge from the same fruit.

[1] These photographs may be purchased from the Office of Information, United States Department of Agriculture, Washington 25, D. C.

(c) Abnormal seedlings include those that have: (1) No root or a stubby primary root with poor secondary root development, usually associated with a shortened hypocotyl; (2) a malformed, shortened, twisted, watery, or stubby hypocotyl, usually associated with a stubby root but not necessarily so; (3) deep grainy lesions or cracks in the hypocotyl if they appear to interfere with the conducting tissues; (4) both cotyledons absent as in samples of "sheared" beets and occasional samples of spinach; (5) two large cotyledons, but a malformed, short hypocotyl, usually with a stubby root; (6) decayed cotyledons or hypocotyl, provided they are not the result of improper test conditions (if there is decay of beet seedlings in blotter tests the results from a properly conducted soil or sand test should be accepted as correct); or (7) various combinations of the abnormalities described in this paragraph.

§ 201.56–2 *Sunflower family (Compositae).* Kinds of seed: Artichoke, cardoon, chicory, dandelion, endive, lettuce, safflower, salisfy, and sunflower.

By the end of the germination test, a perfectly normal seedling belonging to the sunflower family should have a well-developed root with root hairs, a long and well-developed hypocotyl, two leaflike cotyledons, and a small but visible epicotyl.

(a) Lettuce: The interpretations of lettuce seedlings are made only at the end of the test period.

(1) Normal seedlings include those that have: (i) A well-developed, long, slender root with root hairs; (ii) a well-developed long hypocotyl with no deep lesions which might interfere with the conducting tissues; (iii) two green cotyledons with some blackened or reddish brown areas, provided the hypocotyl and roots have developed normally or approximately so; or (iv) slight infections by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No roots or very stubby or shortened roots, which are usually associated with a shortened hypocotyl; (ii) a shortened hypocotyl which is usually associated with stubby roots; (iii) a malformed hypocotyl, severely twisted or having grainy areas or cracks extending into the conducting tissues; (iv) cotyledons with large areas of blackish or reddish brown tissue, usually appearing along the midrib, associated with a short hypocotyl and root (the seedcoats are often attached to the cotyledons, adhering to the darkened areas and can be easily removed if lightly sprinkled with water); (v) cotyledons with a gray cast over their entire area, usually darker at the midrib section (hypocotyl and roots invariably shortened and seedcoats usually attached to the cotyledons); (vi) swollen, blackened cotyledons with only vestiges of hypocotyl and root, the seedcoats usually remaining attached to the cotyledons; (vii) decayed cotyledons; or (viii) various combinations of the abnormalities described in this subparagraph.

(b) Other kinds in the sunflower family: This group includes artichoke, cardoon, sunflower, safflower, salsify, dandelion, chicory, and endive.

(1) Normal seedlings include those that have: (i) A well-developed, long, slender primary root with root hairs; (ii) a stubby root if there are one or more strong secondary roots, provided the seedling is otherwise normal; (iii) a well-developed, long hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iv) at least one uninjured cotyledon, provided the epicotyl is also present; or (v) slight infection of the roots or hypocotyl with fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No root or a stubby root with weak secondary roots, usually associated with a shortened hypocotyl; (ii) a malformed hypocotyl, which may be curled, shortened, or thickened, usually associated with a stubby root; (iii) deep, unhealed cracks or grainy areas on the hypocotyl, extending into the conducting tissues; (iv) both cotyledons entirely broken off; (v) one cotyledon broken off, provided the epicotyl is also absent; (vi) two normal cotyledons with a short malformed hyopcotyl, usually with a stubby root; (vii) decayed cotyledons, provided the infection is not caused by improper test conditions; or (viii) various combinations of the abnormalities described in this subparagraph.

§ 201.56–3 *Mustard family (Cruciferae).* Kinds of seed: Broccoli, brussels sprouts, cabbage, Chinese cabbage, cauliflower, collards, garden cress, water cress, kale, Chinese kale, kohlrabi, mustard, pakchoi, radish, rape, rutabaga, and turnip.

By the end of the germination test, a perfectly normal cruciferious seedling should have a well-developed root, usually with root hairs, a long hypocotyl, two intact green leaflike cotyledons and a small but visible epicotyl or growing point.

(a) *Radish and Brassica.* (1) Normal seedlings include those that have: (i) A well-developed, long, slender primary root with root hairs; (ii) a well-developed, long hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) one or two cotyledons not decayed at the point of attachment to the hypocotyl, provided the epicotyl is also present; (iv) slight decay at the base of one cotyledon, provided the epicotyl is not infected; (v) less than 50 percent of the area of the cotyledons covered with spots or darkened areas; or (vi) slight infection of roots or hypocotyl with fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No root or a stubby root, usually associated with a shortened hypocotyl; (ii) a malformed hypocotyl, which may be curled, shortened, or thickened and usually associated with a stubby root; (iii) deep, unhealed cracks or lesions (often grainy) on the hypocotyl, extending into the conducting tissues; (iv) decay at the point of attachment of both cotyledons to the hypocotyl which may or may not involve the terminal bud; (v) decay at the point of attachment of one cotyledon to the hypocotyl, provided the terminal bud is also decayed; (vi) 50 percent or more of the area of the cotyledons covered with spots or darkened areas; (vii) decayed roots or hypocotyl, provided the infection was not caused by improper test conditions; (viii) watery hypocotyl (usually associated with some other abnormality of the seedlings) provided this condition is not caused by excessive moisture of the substratum; or (ix) various combinations of the abnormalities described in this subparagraph.

(b) *Garden cress and water cress.* (1) Normal seedlings include those that have: (i) A well-developed, slender root with root hairs; (ii) a long, well-developed hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) intact cotyledons; or (iv) slight infection with fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No root, or a stubby root, usually associated with a shortened hypocotyl; (ii) a malformed hypocotyl, which may be curled, twisted, shortened, or thickened and frequently associated with a stubby root; (iii) deep, unhealed cracks or grainy lesions on the hypocotyl, extending into the conducting tissues; (iv) watery hypocotyls, usually associated with stubby roots or decayed cotyledons; (v) cotyledons entirely broken off; (vi) decayed cotyledons, provided the infection was not caused by improper test conditions; or (vii) various combinations of the abnormalities described in this subparagraph.

§ 201.56–4 *Cucurbit family (Cucurbitaceae).* (a) Kinds of seed: Citron, cucumber, muskmelon or cantaloup, pumpkin, squash, and watermelon.

(b) By the end of the germination test a perfectly normal seedling should have a well-developed primary root with several secondary roots, a long hypocotyl, two intact cotyledons, and an epicotyl or terminal growing bud.

(1) Normal seedlings include those that have: (i) A well-developed primary root with or without secondary roots; (ii) a stubby primary root with at least two strong and vigorous adventitious roots, provided the hypocotyl is not shortened very much; (iii) a long well-developed hypocotyl; (iv) two intact cotyledons; or (v) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No primary root, a stubby primary root only, or a stubby primary root with weak secondard roots which are usually associated with a short hypocotyl; (ii) a malformed hypocotyl which may be shortened or thickened; (iii) a thickened and shortened hypocotyl and roots owing to injury from chemical treatment, provided the injury is still apparent in a soil or sand check test; (iv) decayed cotyledons or other essential seedling structures, provided the decay was not the result of improper test conditions; or (v) various combinations described in this subparagraph.

§ 201.56–5 *Grass family (Gramineae).* Kinds of seed: Bentgrasses, bluegrasses, bluestems, bromes, cereals, fescues, millets, orchard grass, redtop, ryegrass, sorghum, timothy, wheatgrass, and all other grasses listed in § 201.1 (h).

In the grass family a perfect seedling should have a well-developed primary root system, an intact cotyledon or scutellum, seed free from serious decay and long, well-developed green leaves within the coleoptile. One or more leaves may have broken through the coleoptile by the end of the test period.

(a) *Barley, oats, rye, and wheat.* (1) Normal seedlings include those that have: (i) At least one primary or seminal root, but preferably two or three seminal roots, provided the shoot is well-developed and the grain is not badly decayed; (ii) well-developed leaves, green in color, and long enough to extend more than half way up into the sheath or coleoptile at the time the seedling is evaluated; (iii) spiral twisting or bending of the shoot, provided it is green in color, has normal length, and is not frost damaged; or (iv) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No primary root, (ii) only one or two short or spindly seminal roots which are usually accompanied by weakened shoots and decayed grains; (iii) no green leaves, but only the white sheath or coleoptile formed, which may or may not be grainy, spirally twisted, split, or shortened; (iv) a shortened shoot, extending no more than one-half the way up through the coleoptile; (v) a thin, spindly, or watery shoot usually accompanied by weak root development and decayed grains; (vi) badly shattered or longitudinally split leaves, with or without splitting of the coleoptile; (vii) thickened and shortened shoot (leaves and coleoptile) often the result of overtreatment of seed with chemicals; (viii) decayed shoots (usually weak and show decay near the point of attachment to the grain which has often decayed) provided the decay is not the result of improper test conditions; (ix) bad frost-damage characterized by grainy coleoptiles and spirally twisted leaves and coleoptiles; (x) coleoptiles developed without the leaves (in soil tests, some of the longest of the spirally twisted seedlings will appear fairly strong but most of them break off just above the attachment of the plumule and coleoptile to the grain; the shortest of the seedlings do not emerge in soil tests); or (xi) various combinations of the abnormalities described in this subparagraph.

(b) *Rice.* (1) Normal seedlings include those that have: (i) One primary root, usually with numerous lateral roots (several permanent roots arising from the first node should be present if seedlings are not removed until the end of the test); (ii) well-developed green leaves which ordinarily should have broken through the coleoptile at the time the seedling is evaluated; or (iii) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No roots; (ii) a spindly primary root with very little or no branching or secondary development; (iii) no green leaves, but only the white sheath or coleoptile; (iv) a spindly and sometimes watery shoot which is usually associated with decay of the rice grain; (v) a short leaf, extending no more than one-half the distance up through the coleoptile; (vi) shattered or longitudinally split plumules with or without splitting of the coleoptile; (vii) decayed plumules (usually appear weak and show decay near the point of attachment to the grain) provided the decay is not the result of improper test conditions; or (viii) various combinations of the abnormalities described in this subparagraph.

(c) *Corn.* (1) Normal seedlings include those that have: (i) One primary root, usually with secondary roots present; (ii) no primary root, but with at least two vigorous secondary roots, provided the grain is not badly decayed, and the shoot is well-developed; (iii) well-developed green leaves, usually broken through the coleoptile by the end of the test period; (iv) twisted and curled shoots bound by the tough seedcoat, provided the shoot is not decayed; or (v) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No primary or secondary roots; (ii) no primary roots but small and weak secondary roots; (iii) no plumule, but only the white sheath or coleoptile; (iv) a shortened plumule, extending no more than one-half the way up through the coleoptile; (v) a thickened and shortened shoot, often the result of overtreatment of seed with chemicals; (vi) a spindly and pale shoot usually associated with moldy seeds; (vii) albino (entirely white) seedlings, which will not develop into plants because of lack of chlorophyll; (viii) shattered or longitudinally split leaves, with or without splitting of the coleoptile; (ix) decayed shoots of which the plumules usually appear weak and show decay near the point of attachment to the grain and the scutellum is usually rotten, provided the decay is not the result of improper test conditions; or (x) various combinations of the abnormalities described in this subparagraph.

(d) *Sorghum and Sudan grass.* (1) Normal seedlings include those that have: (i) One primary root, usually with well-developed secondary roots and root hairs if left for final counts in soil tests; (ii) well-developed, green leaves, usually broken through the coleoptile by the end of the test period; (iii) slight infection by fungi, provided none of the essential seedling structures have been damaged; or (iv) red coloration on the roots and on the coleoptile of the shoot, caused by natural pigments, provided the seedling is otherwise normal.

(2) Abnormal seedlings include those that have: (i) No roots; (ii) a weak, spindly, and usually shortened primary

root, which is often associated with decay of the grain; (iii) no plumule, but only the white sheath or coleoptile; (iv) a shortened plumule, extending no more than one-half the way up through the coleoptile; (v) a spindly and pale plumule, usually associated with moldy seeds; (vi) shattered and longitudinally split plumules, with or without splitting of the coleoptile; (vii) decayed plumules, provided the decay is not the result of improper test conditions (the plumules usually appear weak and show decay near the point of attachment to the grain which is usually rotten); or (viii) various combinations of the abnormalities described in this subparagraph.

(e) *Grasses and millets.* (1) Normal seedlings include those that have: (i) A well-developed primary root, usually with root hairs; (ii) a well-developed green plumule which has usually broken through the coleoptile by the end of the test period; (iii) slight infection by fungi, provided none of the essential seedling structures have been damaged; (iv) spirally coiled roots held within the tightly enveloping glumes as in certain samples of Bermuda grass; or (v) poor root development resulting from injury caused by use of a potassium nitrate solution (if many roots are so affected, a retest should be made on top of soil in closed Petri dishes).

(2) Abnormal seedlings include those that have: (i) No root; (ii) a weak, stubby, or spindly root, usually short and watery, associated with a decayed seed; (iii) no plumule, but only the white sheath or coleoptile which is often short and thick; (iv) a shortened plumule, extending only one-half the distance up through the coleoptile; (v) a spindly plumule, usually pale and watery; (vi) a shattered longitudinally split plumule with or without splitting of the coleoptile; (vii) decayed plumules, provided the decay is not the result of improper test conditions (the plumules usually appear weak and show decay near the point of attachment to the seed, which is usually rotten); or (viii) various combinations of the abnormalities described in this subparagraph.

§ 201.56–6 *Legume or pea family (Leguminosae).* Kinds of seed: Alfalfa, alyceclover, asparagusbean, beans (Phaseolus spp.), beggarweed, black medic, broadbean, bur-clovers, button-clover, chickpea, clovers (Trifolium spp.), cowpea, crotalarias, hairy indigo, kudzu, lespedezas, lupines, peas, peanut, rough pea, sainfoin, sesbania; sourclover, soybean, sweetclover, trefoils, velvetbean, and vetches.

(a) *Beans: adzuki, field, garden, lima, mung, and asparagusbean.* Seedling interpretation for all these beans is similar as they all have the same type of development.

(1) Normal seedlings include those that have: (i) a terminal bud or epicotyl, and at least one primary leaf, even though one or both cotyledons may be present; (ii) a primary root or adventitious or secondary roots sufficient to anchor the seedling when grown in soil or sand, provided the hypocotyl is approximately of normal length; (iii) a fairly well-developed hypocotyl with no prominent breaks or deep lesions (Healed breaks, sometimes referred to as knees, are to be considered as normal, provided the seedling is not spindly); (iv) spirally twisted and curled roots and hypocotyl held within the tough seedcoat, causing delayed development, but are otherwise normal; (v) slight infection caused by fungi or bacteria, provided the essential structures have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation. (If a few seedlings with total or partial decay of the plumule are found, they may be counted as normal, provided the hypocotyl and root are well-developed. The plumules on such seedlings usually do not decay when grown under greenhouse conditions where the cotyledons open up naturally and are exposed to a dry environment and sunlight. However, if there are many seedlings with decayed plumules in a test, a retest should be made and such seedlings evaluated cautiously).

(2) Abnormal seedlings include those that have: (i) No primary leaves or terminal bud (baldheads); (ii) no primary leaves, but with a terminal bud (snakeheads or partial baldheads); (iii) no primary leaves, but terminal bud present and axillary buds in one or both of the cotyledons (partial baldheads); (iv) a malformed hypocotyl, which may be characterized by open splits, or one that appears curled, shortened, or thickened; (v) no primary root or well-developed set of adventitious or secondary roots; or various combinations of the abnormalities described in this subparagraph.

(b) *Broadbean, runner bean, velvetbean, chickpea, field pea, garden pea, roughpea, and vetches.* In this group a perfectly normal seedling should have a well-formed root, with or without secondary or adventitious development, a strong epicotyl with fairly long stem, a well-developed epicotyl with the leaves and terminal bud intact, and attached cotyledons.

(1) Normal seedlings include those that have: (i) A primary root or a set of secondary or adventitious roots sufficient to anchor the seedling when grown in soil or sand, provided the stem is not badly shortened; (ii) a fairly well-developed stem with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) a terminal bud with at least one first leaf and an intact growing point; (iv) two shoots, provided the seedling appears vigorous and at least one of the shoots has a normal epicotyl and root; or (v) slight infection by fungi, provided the essential seedling parts have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation.

(2) Abnormal seedlings include those that have: (i) No primary root or well-developed secondary or adventitious roots; (ii) a malformed stem, which may be characterized by severe open splits, and curled, shortened, or thickened development; (iii) no epicotyl, or an epicotyl without the terminal bud; (iv) two shoots both of which appear weak and spindly, often partially broken away from the cotyledons; (v) decay caused by the spread of organisms from the cotyledons of the developing seedling; or (vi) various combinations of the abnormalities described in this subparagraph.

(c) *Cowpeas, lupines, peanuts, and soybeans.* A completely normal seedling of the above-mentioned kinds should have a well-formed root with or without secondary or adventitious roots, a strong and fairly long hypocotyl with two attached and open cotyledons, two well-developed primary leaves, and an intact terminal bud or epicotyl.

(1) Normal seedlings include those that have: (i) A primary root or a set of secondary or adventitious roots sufficient to anchor the seedling when grown in soil or sand, provided the hypocotyl is normal; (ii) a fairly well-developed hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) a plumule with at least one leaf and an intact growing point; or (iv) slight infection by fungi, provided the essential seedling parts have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation.

(2) Abnormal seedlings include those that have: (i) No primary root or no well-developed secondary or adventitious roots; (ii) a malformed hypocotyl which may be curled, shortened, or thickened or have severe open splits; (iii) no epicotyl, or one without the growing point, with or without leaves; (iv) decayed epicotyl, provided the decay has spread from the rotted cotyledons of the developing seedling; or (vi) various combinations of the abnormalities described in this subparagraph.

(d) *Alfalfa, alyceclover, beggarweed, black medic, burclovers, buttonclover, clovers, crotalarias, hairy indigo, kudzu, lespedezas, sainfoin, sesbania, sourclover, sweetclovers, trefoils.* By the end of the germination test a perfectly normal seedling should have a long, slender root, usually with root hairs, a long hypocotyl, two attached cotyledons which have opened, and an intact epicotyl or growing point.

(1) Normal seedlings include those that have: (i) A long, slender root, usually with root hairs; (ii) slightly stubby roots on blotter tests of sweetclovers, provided the seedling is otherwise normal; (iii) roots slightly stubby from being held back by the attached seedcoat, provided the seedling is otherwise normal; (iv) short splits on the roots, provided the split does not extend into the central conducting tissues of the hypocotyl, and provided further that root hairs are present and the seedling is normal in other respects; (v) a long, well-developed hypocotyl which may have slight cracks or breaks, provided they do not extend into the conducting tissues; (vi) at least one cotyledon, provided the epicotyl is also present; or (vii) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) Stubby roots, usually associated with shortened hypocotyl; (ii) longitudinal, deep splits on the roots, extending into the conducting tissues of the hypocotyls; (iii) deep cracks or breaks in the hypocotyl which extend into the conducting tissues; (iv) both cotyledons broken off; (v) one cotyledon broken off if the epicotyl is also absent; (vi) rotted cotyledons, provided the decay did not spread to the seedling from an adjacent seed or was not the result of improper test conditions; (vii) A spindly, watery hypocotyl, provided it is not the result of excess moisture in the substrata (usually seedlings of this type have one or more abnormalities of the essential structures, such as broken cotyledons or deep splits in the hypocotyl); or (viii) various combinations of the abnormalities described in this subparagraph.

§ 201.56–7 *Lily family (Liliaceae).* Kinds of seed: Asparagus, leek, onion, and Welsh onion.

(a) *Onion, Welsh onion, and leek.* By the end of the test period a perfectly normal onion or leek seedling should have a long, slender root with a thickened area where it is joined to the base of the hypocotyl, a fairly long hypocotyl, and a long, green cotyledon with a definite loop or bend, often referred to as the "knee."

(1) Normal seedlings include those that have: (i) A well-developed, long, slender root, with or without root hairs; (ii) a fairly long hypocotyl; (iii) a long, green, leaflike cotyledon, with a well-developed bend or "knee" or (iv) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) A thickened area at the base of the hypocotyl with no root, or a stubby root; (ii) a very short hypocotyl, usually associated with a poorly developed root and cotyledon; (iii) a poorly developed leaflike cotyledon without a definite bend or "knee"; (iv) a spindly, watery hypocotyl, often associated with slowness in sprouting, and one or more other abnormalities; (v) a rotted cotyledon, provided the decay is not the result of improper test conditions; or (vi) various combinations of the abnormalities described in this subparagraph.

(b) *Asparagus.* By the end of the test period a normal asparagus seedling should have a long, slender root, a fairly long epicotyl, an intact terminal bud, and the seedling should not be broken away from the cotyledon.

(1) Normal seedlings include those that have: (i) A long, slender root; (ii) a long, well-developed epicotyl with terminal growing point; (iii) the cotyledon attached to the seedling; or (iv) slight infestation by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) No root, or a very stubby root with weak secondary root development; (ii) a malformed epicotyl, which may be thickened, shortened, or twisted; (iii) no terminal growing point or bud; (iv) cotyledon broken away from the seedling; (v) decayed epicotyl, provided the decay is not the result of improper test conditions; or (vi) various combinations of the abnormalities described in this subparagraph.

§ 201.56–8 *Flax family (Linaceae).* (a) Kind of seed: Flax.

(b) By the end of the germination test a normal flax seedling should have a well-developed primary root, a long hypocotyl, two intact cotyledons, and a small epicotyl.

(1) Normal seedlings include those that have: (i) A long, slender root, usually with root hairs; (ii) a short or stubby primary root, provided secondary root development is strong and the hypocotyl is of normal length or approximately so; (iii) a long, well-developed hypocotyl with no breaks or lesions extending into the conducting tissues; (iv) at least one attached cotyledon, provided the epicotyl is not injured; (v) variously broken or cracked cotyledons, provided the other seedling parts appear normal; or (vi) slight infection by fungi, provided none of the essential seedling structures have been damaged.

(2) Abnormal seedlings include those that have: (i) A stubby or no primary root, provided the secondary root development is weak, a condition usually associated with a shortened hypocotyl; (ii) a malformed hypocotyl, which may be twisted, thickened, or shortened; (iii) deep cracks or lesions on the hypocotyl, extending into the conducting tissues; (iv) both cotyledons broken off; (v) one cotyledon broken off if the epicotyl is also injured (vi) decayed cotyledons or other essential seedling structures, provided the decay is not the result of improper test conditions; or (vii) various combinations of the abnormalities described in this subparagraph.

§ 201.56–9 *Mallow family (Malvaceae).* (a) Kinds of seed: Cotton and okra.

(b) By the end of the germination test a perfectly normal seedling should have a long, well-developed root with root hairs, a long hypocotyl, two attached green leaflike cotyledons, and a small epicotyl.

(1) Normal seedlings include those that have: (i) A well-developed, long, slender root, usually with root hairs; (ii) no primary root but strong secondary roots, provided the hypocotyl is of normal or approximately normal length; (iii) a long, well-developed hypocotyl with no breaks or deep grainy lesions which might interfere with the conducting tissues; (iv) at least one cotyledon and intact epicotyl; (v) slight infection by fungi, provided none of the essential seedling structures have been damaged; or (vi) a yellowish hypocotyl or roots of cotton which may appear diseased, provided the cotyledons are free of infection (the seedcoat must be peeled back on young seedlings to determine this condition of the cotyledons).

(2) Abnormal seedlings include those that have: (i) No root or very stubby roots, usually associated with a shortened hypocotyl; (ii) stubby roots and a thickened hypocotyl resulting from chemical treatment of seed, such as often occurs on delinted cottonseed; (iii) malformed hypocotyl, which may be curled, thickened, or shortened; (iv) deep cracks or grainy lesions on the hypocotyl which appear to interfere with the conducting tissues; (v) epicotyl absent, even though one or both cotyledons are attached; (vi) decayed cotyledons and hypocotyl, provided the decay did not spread from another seed or was not the result of improper test conditions; or (vii) various combinations of the abnormalities, described in this subparagraph.

§ 201.56–10 *Spurge family (Euphorbiaceae).* Kind of seed: Caster bean.

(a) Normal seedlings include those that have: (1) A primary root or a set of secondary or adventitious roots sufficient to anchor the seedling when grown in soil or sand, provided the hypocotyl is not badly shortened; (2) a fairly well-developed hypocotyl with no prominent breaks or stem lesions which might interfere with the conducting tissues; (3) an epicotyl with terminal bud; or (4) slight infection by fungi or bacteria, provided the essential seedling parts have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation.

(b) Abnormal seedlings include those that have: (1) No primary root or well-developed adventitious or secondary roots; (2) a malformed stem, which may be characterized by severe open splits, and curled, shortened or thickened hypocotyl; (3) no epicotyl, or an epicotyl without the terminal bud; (4) decay caused by microorganisms carried by the individual seed or seedling being evaluated; or (5) various combinations of the abnormalities described in this subparagraph.

§ 201.56–11 *Miscellaneous plant families.* Kinds of seed by families:

Benne family (Pedaliaceae)—Sesame.
Carrot family (Umbelliferae)—carrot, celery, celeriac, parsley, parsnip.
Dichondra family (Dichondraceae)—Dichondra.
Knotweed family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Nightshade family (Solanaceae)—Eggplant, pepper, tomato, husk tomato.
Geranium family (Geraniaceae)—Alfilaria.
Hemp family (Cannabiaceae)—Hemp.
Rose family (Rosaceae)—Little burnet.
Valerian family (Valerianaceae)—Cornsalad.

(a) In this group of plant families, normal seedlings include those that have: (1) A well-developed primary root, usually with root hairs; (2) a stubby root or no primary root, provided the secondary root development is strong and the hypocotyl is near normal length as is frequently encountered in tomato seedlings; (3) a long, well-formed hypocotyl, with no prominent breaks or lesions, extending into the conducting tissues; (4) at least one attached cotyledon, provided the epicotyl is intact and the seedling is otherwise normal (a tiny epicotyl may be observed in seedlings left in test for final evaluation); or (5) slight infection by fungi, provided none of the essential seedling structures have been damaged (infection is likely to occur in rhubarb in which case retests may be advisable).

(b) Abnormal seedlings include those that have: (1) No primary root or well-developed adventitious or secondary roots; (2) a malformed stem, which may be characterized by severe open splits, and curled, shortened or thickened hypocotyl; (3) no epicotyl, or an epicotyl without the terminal bud; (4) decay caused by microorganisms carried by the individual seed or seedling being evaluated; or (5) various combinations of the abnormalities described in this subparagraph.

§ 201.56–12 *Sunflower family (Compositae).* Kinds of seed: Cocklebur, cosmos, lettuce, safflower, sunflower, and zinnia.

(a) *Cocklebur.* (1) Normal seedlings include those that have: (i) A well-developed primary root, usually with root hairs; (ii) a well-developed green plumule which has usually broken through the coleoptile by the end of the test period; (iii) slight infection by fungi, provided none of the essential seedling structures have been damaged; (iv) spirally coiled roots held within the tightly enveloping glumes as in certain samples of Bermuda grass; or (v) poor root development resulting from injury caused by use of a potassium nitrate solution (if many roots are so affected, a retest should be made on top of soil in closed Petri dishes).

(2) Abnormal seedlings include those that have: (i) No root; (ii) a weak, stubby, or spindly root, usually short and watery, associated with a decayed seed; (iii) no plumule, but only the white sheath or coleoptile which is often short and thick; (iv) a shortened plumule, extending only one-half the distance up through the coleoptile; (v) a spindly plumule, usually pale and watery; (vi) a shattered longitudinally split plumule with or without splitting of the coleoptile; (vii) decayed plumules, provided the decay is not the result of improper test conditions (the plumules usually appear weak and show decay near the point of attachment to the seed, which is usually rotten); or (viii) various combinations of the abnormalities described in this subparagraph.

(b) *Lettuce.* (1) Normal seedlings include those that have: (i) A primary root or a set of secondary or adventitious roots sufficient to anchor the seedling when grown in soil or sand, provided the hypocotyl is normal; (ii) a fairly well-developed hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) a plumule with at least one leaf and an intact growing point; or (iv) slight infection by fungi, provided the essential seedling parts have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation.

(2) Abnormal seedlings include those that have: (i) No primary root or no well-developed secondary or adventitious roots; (ii) a malformed hypocotyl which may be curled, shortened, or thickened or have severe open splits; (iii) no epicotyl, or one without the growing point, with or without leaves; (iv) decayed epicotyl, provided the decay has spread from the rotted cotyledons of the developing seedling; or (vi) various combinations of the abnormalities described in this subparagraph.

(c) *Safflower, sunflower, and zinnia.* (1) Normal seedlings include those that have: (i) A primary root or a set of secondary or adventitious roots sufficient to anchor the seedling when grown in soil or sand, provided the hypocotyl is normal; (ii) a fairly well-developed hypocotyl with no prominent breaks or deep lesions which might interfere with the conducting tissues; (iii) a plumule with at least one leaf and an intact growing point; or (iv) slight infection by fungi, provided the essential seedling parts have not been seriously damaged and appear to be able to carry on their normal functions at the time of evaluation.

(2) Abnormal seedlings include those that have: (i) No primary root or no well-developed secondary or adventitious roots; (ii) a malformed hypocotyl which may be curled, shortened, or thickened or have severe open splits; (iii) no epicotyl, or one without the growing point, with or without leaves; (iv) decayed epicotyl, provided the decay has spread from the rotted cotyledons of the developing seedling; or (vi) various combinations of the abnormalities described in this subparagraph.

§ 201.56–13 *Miscellaneous plant families.* Kinds of seed by families:

Bellflower family (Campanulaceae)—Bellflower.
Bindweed family (Convolvulaceae)—Morningglory, sweetpotato.
Borage family (Boraginaceae)—Forget-me-not.
Buckwheat family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Cabbage family (Cruciferae)—Broccoli, brussels sprouts, cabbage, cauliflower, collards, cress, kale, kohlrabi, mustard, radish, rape, rutabaga, turnip.
Caper family (Capparidaceae)—Caper.
Carrot family (Umbelliferae)—Carrot, celery, celeriac, parsley, parsnip.
Dichondra family (Dichondraceae)—Dichondra.
Ginseng family (Araliaceae)—Ginseng.
Gourd family (Cucurbitaceae)—Cucumber, gourd, muskmelon, pumpkin, squash, watermelon.
Knotweed family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Nightshade family (Solanaceae)—Eggplant, pepper, tomato, husk tomato.
Pink family (Caryophyllaceae)—Garden pink, sweet william.
Purslane family (Portulacaceae)—Garden purslane.
Spinach family (Chenopodiaceae)—Beet, chard, spinach.
Stonecrop family (Crassulaceae)—Stonecrop.
Tobacco family (Solanaceae)—Tobacco.
Violet family (Violaceae)—Violet.

(a) In this group of plant families, normal seedlings include those that have: (1) A well-developed primary root, usually with root hairs; (2) a stubby root or no primary root, provided the secondary root development is strong and the hypocotyl is near normal length as is frequently encountered in tomato seedlings; (3) a long, well-formed hypocotyl, with no prominent breaks or lesions, extending into the conducting tissues; (4) at least one attached cotyledon, provided the epicotyl is intact and the seedling is otherwise normal (a tiny epicotyl may be observed in seedlings left in test for final evaluation); or (5) slight infection by fungi, provided none of the essential seedling structures have been damaged (infection is likely to occur in rhubarb in which case retests may be advisable).

(b) Abnormal seedlings include those that have: (1) No primary root or well-developed adventitious or secondary roots; (2) a malformed stem, which may be characterized by severe open splits, and curled, shortened or thickened hypocotyl; (3) no epicotyl, or an epicotyl without the terminal bud; (4) decay caused by microorganisms carried by the individual seed or seedling being evaluated; or (5) various combinations of the abnormalities described in this subparagraph.

§ 201.56–14 *Miscellaneous plant families.* Kinds of seed by families:

Bellflower family (Campanulaceae)—Bellflower.
Bindweed family (Convolvulaceae)—Morningglory, sweetpotato.
Borage family (Boraginaceae)—Forget-me-not.
Buckwheat family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Cabbage family (Cruciferae)—Broccoli, brussels sprouts, cabbage, cauliflower, collards, cress, kale, kohlrabi, mustard, radish, rape, rutabaga, turnip.
Caper family (Capparidaceae)—Caper.
Carrot family (Umbelliferae)—Carrot, celery, celeriac, parsley, parsnip.
Dichondra family (Dichondraceae)—Dichondra.
Ginseng family (Araliaceae)—Ginseng.
Gourd family (Cucurbitaceae)—Cucumber, gourd, muskmelon, pumpkin, squash, watermelon.
Knotweed family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Nightshade family (Solanaceae)—Eggplant, pepper, tomato, husk tomato.
Pink family (Caryophyllaceae)—Garden pink, sweet william.
Purslane family (Portulacaceae)—Garden purslane.
Spinach family (Chenopodiaceae)—Beet, chard, spinach.
Stonecrop family (Crassulaceae)—Stonecrop.
Tobacco family (Solanaceae)—Tobacco.
Violet family (Violaceae)—Violet.

(a) In this group of plant families, normal seedlings include those that have: (1) A well-developed primary root, usually with root hairs; (2) a stubby root or no primary root, provided the secondary root development is strong and the hypocotyl is near normal length as is frequently encountered in tomato seedlings; (3) a long, well-formed hypocotyl, with no prominent breaks or lesions, extending into the conducting tissues; (4) at least one attached cotyledon, provided the epicotyl is intact and the seedling is otherwise normal (a tiny epicotyl may be observed in seedlings left in test for final evaluation); or (5) slight infection by fungi, provided none of the essential seedling structures have been damaged (infection is likely to occur in rhubarb in which case retests may be advisable).

(b) Abnormal seedlings include those that have: (1) No primary root or well-developed adventitious or secondary roots; (2) a malformed stem, which may be characterized by severe open splits, and curled, shortened or thickened hypocotyl; (3) no epicotyl, or an epicotyl without the terminal bud; (4) decay caused by microorganisms carried by the individual seed or seedling being evaluated; or (5) various combinations of the abnormalities described in this subparagraph.

§ 201.56–15 *Miscellaneous plant families.* Kinds of seed by families:

Bellflower family (Campanulaceae)—Bellflower.
Bindweed family (Convolvulaceae)—Morningglory, sweetpotato.
Borage family (Boraginaceae)—Forget-me-not.
Buckwheat family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Cabbage family (Cruciferae)—Broccoli, brussels sprouts, cabbage, cauliflower, collards, cress, kale, kohlrabi, mustard, radish, rape, rutabaga, turnip.
Caper family (Capparidaceae)—Caper.
Carrot family (Umbelliferae)—Carrot, celery, celeriac, parsley, parsnip.
Dichondra family (Dichondraceae)—Dichondra.
Ginseng family (Araliaceae)—Ginseng.
Gourd family (Cucurbitaceae)—Cucumber, gourd, muskmelon, pumpkin, squash, watermelon.
Knotweed family (Polygonaceae)—Buckwheat, sorrel, rhubarb.
Nightshade family (Solanaceae)—Eggplant, pepper, tomato, husk tomato.
Pink family (Caryophyllaceae)—Garden pink, sweet william.
Purslane family (Portulacaceae)—Garden purslane.
Spinach family (Chenopodiaceae)—Beet, chard, spinach.
Stonecrop family (Crassulaceae)—Stonecrop.
Tobacco family (Solanaceae)—Tobacco.
Violet family (Violaceae)—Violet.

(a) In this group of plant families, normal seedlings include those that have: (1) A well-developed primary root, usually with root hairs; (2) a stubby root or no primary root, provided the secondary root development is strong and the hypocotyl is near normal length as is frequently encountered in tomato seedlings; (3) a long, well-formed hypocotyl, with no prominent breaks or lesions, extending into the conducting tissues; (4) at least one attached cotyledon, provided the epicotyl is intact and the seedling is otherwise normal (a tiny epicotyl may be observed in seedlings left in test for final evaluation); or (5) slight infection by fungi, provided none of the essential seedling structures have been damaged (infection is likely to occur in rhubarb in which case retests may be advisable).

(b) Abnormal seedlings include those that have: (1) No primary root or well-developed adventitious or secondary roots; (2) a malformed stem, which may be characterized by severe open splits, and curled, shortened or thickened hypocotyl; (3) no epicotyl, or an epicotyl without the terminal bud; (4) decay caused by microorganisms carried by the individual seed or seedling being evaluated; or (5) various combinations of the abnormalities described in this subparagraph.

(b) Abnormal seedlings include those that have: (1) A stubby root or no primary root, provided there is weak secondary root development; (2) a malformed hypocotyl, which may be twisted, thickened, or shortened; (3) deep cracks or lesions on the hypocotyl extending into the conducting tissues; (4) both cotyledons, or one cotyledon and epicotyl, broken off; (5) two enlarged cotyledons, but hypocotyl short and usually malformed; (6) decayed cotyledons or hypocotyl, provided they are not the result of improper test conditions; or (7) various combinations of the abnormalities described in this paragraph.

27. In the second sentence of § 201.57 the words "and asparagus" are deleted and the words "cotton and dichondra" are substituted therefor.

28. Following § 201.57 a new section is inserted to read as follows:

§ 201.57a *Dormant seeds; firm ungerminated seeds.* Dormant seeds means seeds, other than hard seeds, which fail to germinate when provided the specific germination conditions for the kind of seed in question. Firm ungerminated seeds means seeds, other than hard seeds, which neither germinate nor decay during the prescribed test period and under the prescribed test conditions.

29. Section 201.58 is amended to read as follows:

§ 201.58 *Substrata, temperature, duration of test, and certain other specific directions for testing for germination and hard seed.* Specific germination requirements are set forth in table 2 to which the following paragraphs (a) and (b) are applicable:

(a) *Definitions and explanations applicable to table 2*—(1) *Duration of tests.* The following deviations are permitted from the specified duration of tests: Any test may be terminated prior to the number of days listed under "Final Count" if the germination of the sample has then been determined. The number of days stated for the first count is approximate and a deviation of 1 to 3 days is permitted. (Also, see subparagraph (5) of this paragraph and § 201.57.)

(2) *Light.* When light is required the intensity for nondormant seed may be as low as 25 foot-candles. In the case of dormant seed of grasses such as occur in Agrostis tenuis, Poa compressa, and Lolium multiflorum the light intensity should approximate 100 foot-candles.

(3) *Moisture-on-dry-side.* This term means that the moistened substratum should be pressed against a dry absorbent surface such as a dry paper towel or blotter to remove excess moisture. The moisture content thus obtained should be maintained throughout the germination test period.

(4) *Potassium nitrate* (KNO_3). These terms mean a two-tenths (0.2) percent solution of potassium nitrate (KNO_3) shall be used in moistening the substratum. Such solution is prepared by dissolving 2 grams of KNO_3 in 1,000 ml. of distilled water. The grade of the potassium nitrate shall meet A. C. S. specifications.

(5) *Prechill.* The term "prechill" means to place the seed on, or in, a moist substratum at a specified low temperature for a designated period of time. The prechilling period is not included in the duration of tests given in table 2, unless otherwise specified.

(6) *Predry.* The term "predry" means to place the seed in a shallow layer at a temperature of 35° to 40° C. for a period of 5 to 7 days, with provisions for circulation of the air.

(7) *Substrata (Kinds).* The symbols used for substrata are:

B= between blotters
TB= top of blotters
T= paper toweling, used either as folded towel tests or as roll towel tests in horizontal or vertical position
S= sand or soil
TS= top of sand or soil
P= covered Petri dishes: with two layers of blotters; with one layer of absorbent cotton; with five layers of paper toweling; with three thicknesses of filter paper; or with sand or soil
C= creped cellulose paper wadding (0.3-inch thick Kimpak or equivalent) covered with a single thickness of blotter through which holes are punched for the seed that are pressed for about one-half their thickness into the paper wadding
RB= blotters with raised covers, prepared by folding up the edges of the blotter to form a good support for the upper fold which serves as a cover, preventing the top from making direct contact with the seeds.

(8) *Temperature.* A single numeral indicates a constant temperature. Two numerals separated by a dash indicate an alternation of temperature, the test to be held at the first temperature for approximately 16 hours and at the second temperature for approximately 8 hours per day. If tests are not subjected to alternating temperatures over weekends and on holidays they are to be held at the lower temperature during this time. In cases where two temperatures are indicated (separated by a semicolon) the first temperature shall be regarded as the regular method and the second as an alternate method.

(9) *Toxicity of substrata.* If there is question as to whether a paper substratum is toxic to developing seedlings, check tests should be made on Whatman's No. 2 filter paper or its equivalent. Seeds of celery, celeriac, chicory, dandelion, endive, timothy, and Bermuda grass are particularly sensitive to toxic substrata. If root injury is evident on a substratum moistened with potassium nitrate, retests should be made on a substratum moistened with water or on soil.

(b) *Special procedures and alternate methods for germination referred to in table 2*—(1) *Alyce clover (Alysicarpus vaginalis); Swollen seeds.* At the conclusion of the 21-day test period carefully pierce the seedcoat with a sharp instrument and continue the test for 5 additional days.

Alternate method: The swollen seeds may be placed at 20° C. for 48 hours and then at 35° C. for 3 additional days.

(2) *Bahia grass (Paspalum notatum); removal of glumes*—(i) *Vars. Common and Argentine.* Remove the glumes with the aid of a sharp scalpel. If the seed is fresh or dormant scratch the surface of the caryopsis lightly and use potassium nitrate.

(ii) *Var. Pensacola.* The glumes shall not be removed for the germination test.

(3) *Beet, Swiss chard (Beta); preparation of seed for test.* Before placing the seeds on the germination substratum they shall be soaked in water for 2 hours, using at least 250 ml. of water per 100 seeds, then washed in running water and the excess water should be blotted off. Samples producing darkened radicles should be retested in soil or by washing in running water for 3 hours and tested on "Kimpak," keeping the seed covered with slightly moist blotters.

(4) *Buffelgrass (Pennisetum ciliare); alternate method for dormant seed.* The caryopses shall be removed from the fascicles and placed on blotters moistened with a 0.2 percent potassium nitrate solution, in Petri dishes. The seeds from a fascicle should be arranged so they will not be confused with seeds from other fascicles during the test. The seeds are then prechilled at 5° C. for 7 days and tested at 30° C. in light for 21 additional days. Firm ungerminated seeds remaining at the conclusion of the test should be scratched lightly and left in test for 7 additional days.

(5) *Cotton (Gossypium spp.); dormant samples.* Samples of cottonseed which do not respond to the usual method should be placed in a closed container with water and shaken until the lint is thoroughly wet. The excess moisture should then be blotted off.

(6) *Endive (Cichorium endivia); dormant samples.* Add about ⅛ inch of tap water at the beginning of the test and remove excess water after 24 hours.

(7) *Lettuce (Lactuca sativa); light exposure.* All samples should be given at least ½ hour of light after being placed on the moist substratum. Additional light during the test period is desirable for dormant samples and facilitates seedling interpretation for samples of low vigor.

(8) *Rescue grass (Bromus catharticus); dormant samples.* Wash for 48 hours in running water, or soak for 48 hours, changing the water and rinsing each morning and night.

(9) *Rice (Oryza sativa); flood test.* The seed is planted in moist sand. On the seventh day of the test add water to a depth of ¼ inch above the sand level and leave for the remainder of the test. Only a final count is made.

(10) *Ryegrass (Lolium); fluorescence test.* The germination test for fluorescence of rye grass shall be conducted in light (not to exceed 100 foot-candles) with white filter paper as a substratum. The test shall be conducted in a manner that will prevent the contact of roots of different seedlings.

(11) *Trifolium, Medicago, Melilotus,* and *Vicia faba; temperature requirements.* The temperature for Trifolium spp., Medicago spp., Melilotus spp., and Vicia faba should never exceed 20° C. and a temperature of 17° to 18° is desirable.

(c) *Table 2; germination requirements for indicated kinds.*

TABLE 2—GERMINATION REQUIREMENTS FOR INDICATED KINDS

Name of seed	Substrata	Temperature	First count	Final count	Additional directions: Specific requirements and photo numbers	Additional directions: Fresh and dormant seed
Agricultural seed		°C.	Days	Days		
Alfalfa—Medicago sativa	B, S	20	4	[1] 7	Photos 2481, 2486; see par. (b) (11)	
Alfilaria—Erodium cicutarium	B	20–30	3	14	Clip seeds	
Alyceclover—Alysicarpus vaginalis	B	35	4	[2] 21	See par. (b) (1) for swollen seeds	
Bahiagrass—Paspalum notatum:						
Var. Pensacola	P, S	30–35	7	[2] 28	Light; see par. (b) (2)	
All other vars	P	30–35	3	21	Light; remove glumes; see par. (b) (2).	Scratch caryopses; KNO_3.
Barley—Hordeum vulgare	B, T, S	20; 15	4	7		Prechill 5 days at 5° or 10° C. or predry.
Bean:						
Adzuki—Phaseolus angularis	T, S	20–30	4	[1] 10		
Field—Phaseolus vulgaris	T, S	20–30; 25	5	[1] 8		
Mung—Phaseolus aureus	T, S	20–30	3	[1] 7		
Beet, field—Beta vulgaris	B, S	20–30	3	14	Photos 19557, 19558; see par. (b) (3)	
Beggarweed, Florida—Desmodium tortuosum	B	30	5	[1] 28		
Bentgrass:						
Colonial (including Astoria and Highland)—Agrostis tenuis	P	15–30; 10–30	7	28	Light; KNO_3	Prechill at 5° or 10° C. for 7 days; see par. (a) (2).
Creeping—Agrostis palustris	P	15–30; 10–30	7	28	Light; KNO_3	Prechill at 5° or 10° C. for 7 days.
Velvet—Agrostis canina	P	20–30	7	21	Light; KNO_3	
Bermuda grass—Cynodon dactylon	P	20–35	7	21	Light; KNO_3, photo 2518; see par. (a) (9).	
Bluegrass:						
Annual—Poa annua	P	20–30	7	21	Light	
Bulbous—Poa bulbosa	P, S	10	10	35	KNO_3 or soil	Prechill all samples at 5° C. for 7 days.
Canada—Poa compressa	P	15–30; 10–30	10	28	Light; KNO_3, see par. (a) (2).	
Kentucky (including var. Merion)—Poa pratensis	P	15–30; 10–30	10	28	Light; KNO_3	Prechill at 10° C. for 5 days.
Nevada—Poa nevadensis	P	20–30	7	21	Light; KNO_3	
Rough—Poa trivialis	P	20–30	7	21	Light	
Texas—Poa arachnifera	P	20–30	7	28	Light; KNO_3	Prechill at 5° C. for 2 weeks.
Wood—Poa nemoralis	P	20–30	7	28	Light	
Bluestem:						
Big-Andropogon gerardi	P, TS	20–30	7	28	Light; KNO_3	Prechill at 5° C. for 2 weeks
Little—Andropogon scoparius	P, TS	20–30	7	28	do	Do.
Sand—Andropogon hallii	P, TS	20–30	7	28	do	Do.
Yellow—Andropogon ischaemum	P, TS	20–30	5	21	do	Do.
Brome:						
Mountain—Bromus marginatus	P	20–30	6	14	Light	
Smooth—Bromus inermis	P, B, TB	20–30	6	14	Light optional	Prechill at 5° or 10° C. for 7 days.
Broomcorn—Sorghum vulgare var. technicum	B, S	20–30	3	10		
Buckwheat—Fagopyrum esculentum	B, T	20–30	3	6		
Buffalograss—Buchloe dactyloides:						
(Burs)	P, TB, TS	20–35	7	28	Light; KNO_3	Prechill at 5° C. for 6 weeks; test 14 additional days.
(Caryposes)	P	20–35	5	14	Light; KNO_3	
Buffelgrass—Pennisetum ciliare	S	30	7	28	Light; press fasciles into well-packed soil and prechill at 5° C. for 7 days.	See par. (b) (4).
Bur-clover, California—Medicago hispida	B, T	20	4	[1] 14	Remove seeds from bur; see par. (b) (11).	
Bur-clover, spotted—Medicago arabica	B, T	20	4	[1] 14	do	
Burnet, little—Sanguisorba minor	B	15	5	14		
Buttonclover—Medicago orbicularis	B	20	4	[1] 10	See par. (b) (11)	15° C.
Canarygrass—Phalaris canariensis	B	20–30	3	7		
Canarygrass, reed—Phalaris arundinacea	P	20–30	5	21	Light	KNO_3.
Carpet grass—Axonopus affinis	P	20–35	10	21	Light	KNO_3.
Castorbean—Ricinus communis	T, S	20–30	7	14	Remove caruncle if mold interferes with test.	
Chickpea—Cicer arietinum	T, S	20–30	3	7		
Clover:						
Alsike—Trifolium hybridium	B, S	20	3	[1] 7	See par. (b) (11)	15° C.
Berseem—Trifolium alexandrinum	B, S	20	3	[1] 7	do	Do.
Cluster—Trifolium glomeratum	B	20	4	[1] 10	do	Do.
Crimson—Trifolium incarnatum	B, S	20	4	[1] 7	See par. (b) (11). Photos 2479, 2482	Do.
Ladino—Trifolium repens	B, S	20	3	[1] 7	See par. (b) (11)	Do.
Lappa—Trifolium lappaceum	B	20	3	[1] 7	do	Do.
Large hop—Trifolium procumbens (T. campestre)	B	20	4	[1] 14	do	Do.
Persian—Trifolium resupinatum	B	20	3	[1] 7	do	Do.
Red—Trifolium pratense	B, S	20	4	[1] 7	See par. (b) (11). Photos 2483, 2484	Do.
Rose—Trifolium hirtum	B	20	4	[1] 10	See par. (b) (11)	Do.
Small hop (Suckling)—Trifolium dubium	B	20	4	[1] 14	do	Do.
Strawberry—Trifolium fragiferum	B	20	3	[1] 7	do	Do.
Sub—Trifolium subterraneum	B	20	4	[1] 14	do	Do.
White—Trifolium repens	B, S	20	3	[1] 7	do	Do.
Corn:						
Field—Zea mays	T, S	20–30; 25	4	7	Photos 2510, 2511, 2512, 2514	
Pop—Zea mays var. everta	T, S	20–30; 25	4	7		
Cotton—Gossypium spp	T, S	20–30	4	[1] 12	Photos 19553, 19554	Test by alternate method; see par. (b) (5).
Cowpea—Vigna sinensis	T, S	20–30	5	[1] 8	Photos 1989, 1990, 2377.	
Crested dogtail—Cynosurus cristatus	P	20–30	10	21	Light	Prechill for 3 days at 5° or 10° C.
Crotalaria:						
Lance—Crotalaria lanceolata	B, S	20–30	4	[1] 10		
Showy—Crotalaria spectabilis	B, S	20–30	4	[1] 10	Photos 2496, 2497	
Slenderleaf—Crotalaria intermedia	B, S	20–30	4	[1] 10		
Striped—Crotalaria mucronata	B, S	20–30	4	[1] 10		
Sunn—Crotalaria juncea	B, S	20–30	4	[1] 10		
Dallis grass—Paspalum dilatatum	P	20–35	7	21	Light; KNO_3	
Dichondra—Dichondra repens	B	20–30	7	[1] 28		
Dropseed, sand—Sporobolus cryptandrus	P	15–35	5	42	Light; KNO_3	Prechill at 5° C. for 4 to 8 weeks and test for 28 days.
Emmer—Triticum dicoccum	B, T, S	20, 15	4	7		Prechill at 5° C. or 10° C. for 5 days or predry.

[1] Hard seeds often present. [2] Firm ungerminated seeds frequently present.

TABLE 2—GERMINATION REQUIREMENTS FOR INDICATED KINDS—Continued

Name of seed	Substrata	Temperature	First count	Final count	Additional directions: Specific requirements and photo numbers	Additional directions: Fresh and dormant seed
Agricultural seed—Continued		°C.	Days	Days		
Fescue:						
Chewings—Festuca rubra var. commutata	P	15–25	7	21		
(Alternate method	P	20–30	7	28	Light)	
Hair—Festuca capillata	P	10–25	10	28	KNO_3	
Meadow—Festuca elatior	P	20–30	5	14	Light and KNO_3 optional	
(Alternate method	P	15–25	5	14)		
Red—Festuca rubra	P	15–25	7	21		
(Alternate method	P	20–30	7	28	Light)	
Sheep—Festuca ovina	P	15–25	7	21		
(Alternate method	P	20–30	7	28	Light)	
Tall—Festuca arundinacea	P	20–30	5	14	Light and KNO_3 optional	
(Alternate method	P	15–25	5	14)		
Flax—Linum usitatissimum	B, T, S	20–30	3	7	Photos 2003, 2008, 2485, 2487	
Grama:						
Blue—Bouteloua gracilis	P, TB	20–30	7	28	Light	KNO_3.
Side-oats—Bouteloua curtipendula	P	15–30	7	28	Light; KNO_3	
Guineagrass—Panicum maximum	P	20–30	10	28	Light	KNO_3.
Hardinggrass—Phalaris tuberosa var. stenoptera	P	10–30	7	28	Light	
Hemp—Cannabis sativa	B, T	20–30	3	7		Prechill at 5° C. for 2 weeks.
Indiangrass, yellow—Sorghastrum nutans	P, TS	20–30	7	28	Light; KNO_3	
Indigo, hairy—Indigofera hirsuta	B	20–30	5	[1]14		
Japanese lawngrass—Zoysia japonica	P	35–20	10	28	Light; KNO_3	
Johnsongrass—Sorghum halepense	P	20–35	7	35	Light	KNO_3.
Kudzu—Pueraria thunbergiana	T	20–30	6	[1]14		
Lespedeza:						
Korean—Lespedeza stipulacea	B, S	20–35	5	[1]14		
Sericea or Chinese—Lespedeza cuneata (L. sericea).	B, S	20–35	7	[1]28	Photo 2494	
Siberian—Lespedeza hedysaroides	B, S	20–35	7	[1]21		
Striate (Common, Kobe, Tenn. 76)—Lespedeza striata.	B, S	20–35	7	[1]14		
Lovegrass, sand—Eragrostis trichodes	P	20–35	5	14	Light, KNO_3	Prechill at 5° or 10° C. for 6 weeks.
Lovegrass, weeping—Eragrostis curvula	P	20–35	5	14	Light	KNO_3.
Lupine:						
Blue—Lupinus angustifolius	T, S	20	4	[1]10	Photos 14535–14542	
White—Lupinus albus	T	20	3	[1]10		
Yellow—Lupinus luteus	T	20	7	[1]10		
Mantlegrass—Zoysia matrella	P	35–20	10	28	Light; KNO_3	
Meadow foxtail—Alopecurus pratensis	P	20–30	7	14	Light	
Medick, black—Medicago lupulina	B, S	20	4	[1]7	See par. (b) (11).	
Millet:						
Browntop—Panicum ramosum	B	20–30	4	14	Light; KNO_3	Predry at 35° or 40° C. for 7 days; or test at 30° C.
Foxtail—Such as common, white wonder, German, Hungarian, Siberian, or Golden—Setaria italica.	B	20–30	4	10		
Japanese—Echinochloa crusgalli var. frumentacea.	B	20–30	4	10		
Pearl—Pennisetum glaucum	B	20–30	3	7		
Proso—Panicum miliaceum	B	20–30	3	7		
Molassesgrass—Melinis minutiflora	P	20–30	7	21	Light	
Mustard:						
Black—Brassica nigra	P	20–30	3	7	Light	KNO_3 and prechill at 10° C. for 3 days.
White—Brassica hirta	P	20–30	3	5	Light	
Napiergrass—Pennisetum purpureum	B	20–30	3	10		
Oat—Avena spp	B, T, S.	20; 15	5	10	Photos 2407, 2408, 2524–2527, 19545, 19546.	Prechill at 5° or 10° C. for 5 days and conclude test on 7th day or predry.
Ostgrass, tall—Arrhenatherum elatius	P	20–30	6	14	Light	
Orchardgrass—Dactylis glomerata	P, TS	20–30	7	21	Light; germination more rapid on soil.	
Panicgrass, blue—Panicum antidotale	P, TS	20–30	7	28	Light	
Peanut—Arachis hypogaea	T, S	20–30	5	10	Remove shells; Photos 19541, 19542	Test at 30° C.
Pea, field—Pisum sativum var. arvense	T, S	20	3	[1]8	Photos 2503, 2506, 14543–14547	
Rape:						
Annual—Brassica napus var. annua	B	20–30	3	7		
Bird—Brassica campestris	P	20–30	3	10	Light	KNO_3.
Turnip—Brassica campestris vars	B	20–30	3	7		
Winter—Brassica napus var. biennis	B	20–30	3	7		
Redtop—Agrostis alba	P, TB	20–30	5	10	Light	KNO_3.
Rescuegrass—Bromus catharticus	P, S	10–30	7	28	Light; see par. (b) (8) for alternate method.	In soil at 15° C.
Rhodesgrass—Chloris gayana	P	20–30	6	14	Light; KNO_3	
Rice—Oryza sativa	T, S	20–30	5	14	Photos 19549, 19550; see par. (b) (9) for alternate method.	
Ricegrass, Indian—Oryzopsis hymenoides	P	15	7	42		Prechill at 5° C. for 4 weeks and test for 21 additional days.
Roughpea—Lathyrus hirsutus	T	20	7	[1]14		
Rye—Secale cereals	B, T, S	20; 15	4	7	Photos 2403, 2406, 2528–2531	Prechill at 5° or 10° C. for 5 days, or predry.
Ryegrass:						
Italian—Lolium multiflorum	P, TB	20–30; 10–30	5	14	Light; KNO_3; see par. (b) (10) for fluorescence test.	Prechill at 5° C. for 5 days; see par. (a) (2).
Perennial—Lolium perenne	P, TB	20–30; 10–30	5	14	do	Do.
Safflower—Carthamus tinctorius	T, S	20	4	8		
Sainfoin—Onobrychis viciaefolia	B, T	20–30	4	[1]14		
Sesame—Sesamum indicum	P	20–30	3	6		
Seshania—Sesbania exaltata	T	20–30	5	[1]7		
Smilo—Oryzopsis miliacea	P	20–30	7	42	Light	Prechill at 5° C. for 2 weeks.
Sorghum:						
Grain and Sweet—Sorghum vulgare	B, T, S	20–30	4	10	Photos 2413–2416	Prechill at 5° or 10° C. for 5 days.
Sourclover—Melilotus indica	B	20	3	[1]14	See paragraph (b) (11)	
Soybean—Glycine max	T, S	20–30; 25	5	[1]8	Photos 2371, 2372, 2378	
Spelt—Triticum spelta	B, T, S	20; 15	4	7		Prechill at 5° or 10° C. for 5 days, or predry.
Sudangrass—Sorghum vulgare var. sudanense	B, T, S	20–30	4	10	Photos 2447–2452	Prechill at 10° C. for 5 days.
Sunflower (Cult.)—Helianthus annuus	T, B	20–30	3	7		
Sweetclover:						
White—Melilotus alba	B, S	20	4	[1]7	Photos 2374, 2375, 2376, 2381; see par. (b) (11).	
Yellow—Melilotus officinalis	B, S	20	4	[1]7	do	
Sweet vernalgrass—Anthoxathum odoratum	P	20–30	6	14	Light	
Switchgrass—Panicum virgatum	P, TS	15–30	7	28	Light; KNO_3	Prechill at 5° C. for 2 weeks.

[1] Hard seeds often present.

TABLE 2—GERMINATION REQUIREMENTS FOR INDICATED KINDS—Continued

Name of seed	Substrata	Temperature	First count	Final count	Additional directions: Specific requirements and photo numbers	Additional directions: Fresh and dormant seed
Agricultural seed—Continued		°C.	Days	Days		
Timothy—Phleum pratense	P, TB	20–30	5	10	Light; photo 2399; see par. (a) (9)	KNO_3.
Trefoil:						
Big—Lotus uliginosus (L. major)	B	20	5	[1]10		
Birdsfoot—Lotus corniculatus	B	20	5	[1]10	Photos 19531, 19532	
Vaseygrass—Paspalum urvillei	P	20–35	7	21	Light	KNO_3.
Veldtgrass—Ehrharta calycina	P	10–30	7	28	Light	
Velvetbean—Stizolobium deeringianum	T, S, C	20–30	3	[1]14	Photos 19539, 19540	
Velvetgrass—Holcus lanatus	P	20–30	6	14	Light	
Vetch:						
Common—Vicia sativa	T	20	5	[1]10		
Hairy—Vicia villosa	T	20	5	[1]14		
Hungarian—Vicia pannonica	T	20	5	[1]10		
Monantha—Vicia articulata (V. monantha)	T	20	5	[1]10		
Narrowleaf—Vicia angustifolia	T	20	5	[1]14		
Purple—Vicia atropurpurea	T	20	5	[1]10		
Woollypod—Vicia dasycarpa	T	20	5	[1]14		Prechill at 10° C. for 5 days and test at 15° C.
Wheat:						
Common—Triticum aestivum	B, T, S	20;15	4	7	Photos 2507, 2522	Prechill at 5° or 10° C. for 5 days, or predry.
Club—Triticum compactum	B, T, S	20;15	4	7	do	Do.
Durum—Triticum durum	B, T, S	20;15	4	10	do	Do.
Polish—Triticum polonicum	B, T, S	20;15	4	7	do	Do.
Poulard—Triticum turgidum	B, T, S	20;15	4	7	do	Do.
Wheatgrass:						
Fairway crested—Agropyron cristatum	P, TB	20–30	5	14	Light optional	KNO_3 and prechill at 5° or 10° C. for 7 days.
(Alternate method	P, TB	15–25	5	14	do	
Standard crested—Agropyron desertorum	P, TB	20–30	5	14	do	KNO_3 and prechill at 5° or 10° C. for 7 days.
(Alternate method	P, TB	15–25	5	14	do	
Intermediate—Agropyron intermedium	P	20–30	5	28	Light	
Pubescent—Agropyron trichophorum	P	20–30	5	28	do	
Slender—Agropyron trachycaulum	P, TB	20–30	5	14	do	
Tall—Agropyron elongatum	P	20–30	5	21	do	
Western—Agropyron smithii	P, B	15–30	7	28	Light optional	KNO_3 or soil.
Wild rye:						
Canada—Elymus canadensis	P	15–30	7	21	Light	Prechill at 5° C. for 2 weeks.
Russian—Elymus junceus	P	20–30	5	14		
Vegetable seed						
Artichoke—Cynara scolymus	T	20–30	7	21	Photos 19533, 19534	
Asparagus—Asparagus officinalis	T, S	20–30	7	21		
Asparagusbean—Vigna sesquipedalis	T, S	20–30	5	[1]8		
Beans:						
Garden—Phaseolus vulgaris	T, S	20–30;25	5	[1]8	Photos 1834, 1835, 1846, 1854, 1855	
Lima—Phaseolus lunatus var. macrocarpus	T, C, S	20–30	5	[1]9	Photos 2380, 2400, 2401	
Runner—Phaseolus coccineus	T, S	20–30	5	[1]9		
Beet—Beta vulgaris	B, S	20–30	3	14	See par. (b) (3); photos 19557, 19558	
Broadbean—Vicia faba	S, C	20	4	14	See para. (b) (11)	Prechill at 10° C. for 3 days.
Broccoli—Brassica oleracea var. botrytis	B, P	20–30	3	10		Prechill at 5° or 10° C. for 3 days; KNO_3 and light.
Brussels sprouts—Brassica oleracea var. gessifera	B, P	20–30	3	10		Do.
Cabbage—Brassica oleracea var. capitata	B, P	20–30	3	10	Photos 19551, 19552	Do.
Cabbage, Chinese—Brassica pekinensis	B	20–30	3	7		
Cardoon—Cynara cardunculus	T	20–30	7	21	Photos 19547, 19548	
Carrot—Daucus carota	B	20–30	6	21	Photo 19561	
Cauliflower—Brassica oleracea var. botrytis	B, P	20–30	3	10		Prechill at 5° or 10° C. for 3 days; KNO_3 and light.
Celeriac—Apium graveolens var. rapaceum	P, TB	10–20;20	10	21	Light at 20° C. constant; see par. (a) (9).	
Celery—Apium graveolens var. dulce	P, TB	10–20;20	10	21	do	KNO_3 and prechill at 10° C. for 3 days.
Chard, Swiss—Beta vulgaris var. cicla	B, S	20–30	3	14	See par. (b) (3)	
Chicory—Cichorium intybus	P, TS	20–30	5	14	Light; KNO_3 or soil; photo 2504; see par. (a) (9).	
Citron—Citrullus vulgaris	T	20–30	7	14	Soak seeds 6 hours	Test at 30° C.
Collards—Brassica oleracea var. acephala	B, P	20–30	3	10		Prechill at 5° or 10° C. for 3 days; KNO_3 and light.
Corn, sweet—Zea mays	T, S	20–30; 25	4	7	Photos 2510–2512, 2514	
Cornsalad (Fetticus)—Valerianella locusta var. olitoria.	B	20	7	28		Test at 10° or 15° C.
Cowpea—Vigna sinensis	T, S	20–30	5	[1]8	Photos 1989, 1990, 2377	
Cress:						
Garden—Lepidium sativum	B, P	20	4	10		Test at 15° C. and light.
Water—Rorippa nasturtium-aquaticum	P	20–30	4	14	Light	
Cucumber—Cucumis sativus	B, T, S	20–30	3	7	Keep substratum on dry side; see par. (a) (3); photos 19555, 19536.	
Dandelion—Taraxacum officinale	P, TB	20–30	7	21	Light; see par. (a) (9)	
Eggplant—Solanum melongena var. esculentum	P, TB, RB	20–30	7	14		Light; KNO_3.
Endive—Cichorium endivia	P, TS	20–30	5	14	Light; KNO_3 or soil	See pars. (a) (9) and (b) (6).
Kale—Brassica oleracea var. acephala	B, P	20–30	3	10		Prechill at 5° or 10° C. for 3 days; KNO_3 and light.
Kale, Chinese—Brassica oleracea var. alboglabra	P, B	20–30	3	10		Light; KNO_3; Prechill at 5° or 10° C. for 3 days.
Kohlrabi—Brassica oleracea var. gongylodes	B, P	20–30	3	10		Prechill at 5° or 10° C. for 3 days; KNO_3 and light.
Leek—Allium porrum	B	20	6	14

[1] Hard seeds often present.

30. Section 201.65 is renumbered as § 201.58a and amended as follows:

a. In the formula for "percent perennial ryegrass" in paragraph (a), "percent fluorescence + percent nonfluorescence" is deleted and "percent germination" is substituted therefor.

b. Paragraph (b) is amended to read:

(b) *Sweetclover.* In determining the percentage of yellow blossom biennial sweetclover in a mixture of yellow and white blossom biennial sweetclover, at least 400 seeds shall be examined to determine the percentage of mottled seed. The percentage of mottled seed shall be multiplied by four and this product multiplied by the percentage of sweetclover in the sample. The product shall be construed as representing the percentage of yellow blossom sweetclover.

31. Section 201.66 is renumbered as § 201.58b.

32. In § 201.59 the first two words in the first sentence, and the entire second sentence, are deleted, and the following is added to the section: "Tolerances for purity percentages and germination percentages provided for in §§ 201.60 and 201.61 shall be determined from the mean of (a) the results being compared, or (b) the result found by test and the figures shown on a label, or (c) the result found by test and a standard. All other tolerances, including tolerances for pure-live seed, tolerances for pure seed based on 400- to 1000-seed tests, and tolerances for field and greenhouse tests for determination of kind, variety, or type shall be determined from the result or results found in the administration of the act."

33. Section 201.60 is amended as follows:

a. The first sentence in the second undesignated paragraph is amended to read: "An additional tolerance shall be allowed for the following kinds of seeds (a) when any one kind constitutes the principal component of the sample, (b) in mixtures containing these kinds, singly or combined, in excess of 50 percent of the whole, and (c) in mixed and unmixed seeds wherein the chaffy seed plus the empty florets and/or spikelets exceed 50 percent of the sample."

b. The following are added to the list of subject kinds of seed: "Buffelgrass, Hairy intermediate wheatgrass, Intermediate wheatgrass, Tall wheatgrass, and Veldtgrass."

34. Section 201.64a is renumbered as § 201.61, and the section heading and the first sentence are amended to read as follows:

§ 201.61 *Pure seed percentages based on 400- to 1000-seed tests.* Tolerances for pure seed percentages based on 400- to 1000-seed separations and fluorescence tests shall be: (a) Those set forth in the following table plus (b) one-half the regular pure seed tolerances determined in accordance with § 201.60. The sum of these two tolerances shall be applied to the result or results obtained in the administration of the act.

[Tolerance]

Percentage purity found by test [1]	Number of plants— 50–74	75–99	100–149	150–199	200–249	250–299	300–349	350–399	400–799	800 or more
	Tolerance in percent									
95–100	10.0	9.5	8.5	8.0	7.5	7.0	6.5	6.0	5.5	5.0
90–94	10.5	10.0	9.0	8.5	8.0	7.5	7.0	6.5	6.0	5.5
85–89	11.0	10.5	9.5	9.0	8.5	8.0	7.5	7.0	6.5	6.0
80–84	11.5	11.0	10.0	9.5	9.0	8.5	8.0	7.5	7.0	6.5
75–79	12.0	11.5	10.5	10.0	9.5	9.0	8.5	8.0	7.5	7.0
70–74	12.5	12.0	11.0	10.5	10.0	9.5	9.0	8.5	8.0	7.5
65–69	13.0	12.5	11.5	11.0	10.5	10.0	9.5	9.0	8.5	8.0
60–64	13.5	13.0	12.0	11.5	11.0	10.5	10.0	9.5	9.0	8.5
55–59	14.0	13.5	12.5	12.0	11.5	11.0	10.5	10.0	9.5	9.0
50–54	14.5	14.0	13.0	12.5	12.0	11.5	11.0	10.5	10.0	9.5

[1] The tolerance for any value below 50 percent is the tolerance on the difference between 100 percent and the figure for which the tolerance is being determined. Thus, the tolerance on 45 percent for 400 plants would be: 100−45=55; tolerance equals 9.5 percent.

35. A new § 201.62 is added to read as follows:

§ 201.62 *Field and greenhouse tests for determination of kind, variety, or type.* The following table of tolerances shall be used for field and greenhouse tests for determination of kind and variety:

36. Section 201.61 is renumbered as § 201.63; and the heading "Found by test" therein is deleted, and the following is substituted therefor: "Mean (See § 201.59)"

37. Present §§ 201.62, 201.63, and 201.64 are renumbered as §§ 201.64, 201.65, and 201.66, respectively.

38. In the list in § 201.101 the following are inserted in the proper alphabetical order:

Castorbean.
Lettuce.
Rape, winter.
Safflower.
Sesame.

39. Section 201.102 is amended by adding to the tabulation in proper alphabetical order the following names and percentages:

Bluestem, yellow	25
Buffelgrass	50
Lovegrass, sand	50
Veldtgrass	35
Wild-rye, Russian	60

40. Section 201.107 is amended as follows:

a. In paragraph (a) "Piperaceae—Pepper" is added to the list of plant families in proper alphabetical order.

b. In paragraph (b) the following are added to the list of incidental weed seeds in proper alphabetical order:

Alfilería—Erodium cicutarium (L.) L'Her.
Beggarweed—Desmodium tortuosum (Sev.) DC.
Bluegrass, annual—Poa, annua L.
Burnet, little—Sanguisorba minor Scop.
Dichondra—Dichondra repens Forst.
Sesbania—Sesbania exaltata (Raf.) Torr.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

PART 505—SPECIFIC PROHIBITIONS

REGULATION RESTRICTING TRANSFER OF SHARES OF STOCK VESTED AND SOLD BY OFFICE OF ALIEN PROPERTY

Section 505.10 of the Rules of the Office of Alien Property provides that certain corporations in which stock has been vested pursuant to the Trading With the Enemy Act, as amended (50 U. S. C. App. 1 et seq.), may be designated "key corporations" and that the vested stock, after sale thereof by the Attorney General, may be owned or held only by American nationals as there defined. Section 505.10 (g) provides that key corporations shall report at least annually to this Office the names and addresses of the record holders of the vested stock. It has been found that annual reporting is not necessary to enforce the provisions of § 505.10, that the other provisions of § 505.10 (g) requiring key corporations and record holders to submit information on ownership on request are adequate and that § 505.10 (g) should be amended to conform to such findings. It is hereby found that the following amendment will relieve existing reporting requirements and that notice, hearing and suspension of applicability are unnecessary. Accordingly, § 505.10 (g) is hereby amended to read as follows:

§ 505.10 *Regulation restricting the transfer of shares of stock vested, and sold by the Office of Alien Property.* • • •

(g) Each key corporation shall, when requested by the Director, Office of Alien Property, furnish to the Director, Office of Alien Property, a list of the names and addresses of the holders of record of its outstanding vested stock. Whenever requested by the Director, Office of Alien Property, each holder of record of vested stock shall furnish to the Director, Office of Alien Property, the name and address of the beneficial owner or owners of the stock so held of record by such person.

(Sec. 5, 40 Stat. 415, as amended; 50 U. S. C. App. 5. E. O. 9193, 7 F. R. 5205; 3 CFR, 1943 Cum. Supp.)

Executed at Washington, D. C., on October 14, 1955.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General, Director, Office of Alien Property.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6381]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WALDBAUM, CIPES, INC., ET AL.

Subpart—*Importing, selling, or transporting flammable wear:* [1] § 13.1057 *Importing, selling, or transporting flammable wear.*[1] Directly or through any corporate or other device: (1) (a) Importing into the United States; or (b) selling, offering for sale, introducing, delivering for introduction, transporting or causing to be transported, in commerce, as "commerce" is defined in the Flammable Fabrics Act; or (c) transporting or causing to be transported, for the purpose of sale or delivery after sale in commerce; any article of wearing apparel, which, under the provisions of section 4 of the said Flammable Fabrics Act, as amended, is so highly flammable as to be dangerous when worn by individuals; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets ar applies sec. 5, 38 Stat. 719, as amended, 67 Stat. 111; 15 U. S. C. 45, 1191) [Cease and desist order, Waldbaum, Cipes, Inc., et al., New York, N. Y., Docket 6381, September 20, 1955]

In the Matter of Waldbaum, Cipes, Inc., a Corporation, and Jay Cipes and Sidney Waldbaum, Individually and as Officers of Said Corporation

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with having violated the Flammable Fabrics Act and the rules and regulations issued thereunder, and the Federal Trade Commission Act, through importing into the United States, selling, and transporting flammable silk scarves manufactured in Japan; and a consent order entered into by respondents disposing of all the issues in the proceeding without hearing.

Respondents, pursuant to aforesaid agreement, admitted all the jurisdictional allegations of the complaint and agreed that the record might be taken as if findings of facts had been duly made in accordance with such allegations; waived all further procedural steps before the hearing examiner or the Commission, including the making of findings of fact or conclusions of law and the right to challenge or contest the validity of the order to cease and desist entered into in accordance therewith; agreed that the record in the proceeding consisted solely of the complaint and said agreement, and that said agreement was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged.

Thereafter, the proceeding having come on for final consideration by the hearing examiner on the complaint and the aforesaid agreement, said hearing examiner made his initial decision in which he set forth the aforesaid matters; his conclusion that said agreement provided for an appropriate disposition of the proceeding; his acceptance of the agreement which he ordered filed as part of the record; his findings that the Federal Trade Commission had jurisdiction of the subject matter and the respondents hereinabove named, that the complaint stated a cause of action against respondents under the Flammable Fabrics Act and the Federal Trade Commission Act, and that the proceeding was in the public interest; and in which he set forth his order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 20, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondent Waldbaum, Cipes, Inc., a corporation, and Jay Cipes and Sidney Waldbaum, individually and as officers of the said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, do forthwith cease and desist from: (a) Importing into the United States; or (b) selling, offering for sale, introducing, delivering for introduction, transporting or causing to be transported, in commerce, as "commerce" is defined in the Flammable Fabrics Act; or (c) transporting or causing to be transported, for the purpose of sale or delivery after sale in commerce; any article of wearing apparel, which, under the provisions of Section 4 of the said Flammable Fabrics Act, as amended, is so highly flammable as to be dangerous when worn by individuals.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 20, 1955.

By the Commission.

[SEAL] JOHN R. HEIM,
Acting Secretary.

[F. R. Doc. 55–8514; Filed, Oct. 20, 1955; 8:45 a. m.]

[Docket 6309]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

BENEFICIAL STANDARD LIFE INSURANCE CO.

Subpart—*Advertising falsely or misleadingly:* § 13.260 *Terms and conditions;* § 13.275 *Undertakings, in general.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.2080 *Terms and conditions;* § 13.2090

Undertakings, in general. In connection with the offering for sale, sale, and distribution in commerce, of any accident, health, hospital, or surgical insurance policy, representing, directly or by implication: (1) That said insurance policy may be continued in effect indefinitely or for any period of time, when, in fact, said policy provides that it may be cancelled by respondent or terminated under any circumstances over which insured has no control, during the period of time represented; (2) that no medical examination is required or that applicant's health is not a factor in securing insurance, unless the representation is clearly and conspicuously limited in immediate connection therewith to insurance on claims not caused by previous conditions of health of the insured; (3) that said policy provides for indemnification to insured in cases of sickness or accident generally or in any or all cases of sickness or accident, when such is not the fact; (4) that said policy provides a monthly or other cash benefit to insured, when disabled by sickness or accident, for a longer period of time or in a larger amount than is in fact provided; (5) that said policy provides for the payment of certain benefits in addition to other benefits when such is not the fact; (6) that said policy will pay in full or in any specified amount or will pay up to any specified amount for any medical, surgical, or hospital service unless the policy provides that the actual cost to the insured for that service will be paid in all cases up to the amount represented; and (7) that said policy provides indemnification for losses caused by accident or sickness immediately upon the effective date of said policy when such is not the fact; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Beneficial Standard Life Insurance Company, Los Angeles, Calif., Docket 6309, September 29, 1955]

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission which charged respondent with violation of the Federal Trade Commission Act by falsely and deceptively advertising the indemnification for losses resulting from accident or injury and sickness, provided by insurance policies which it issued; and upon a Stipulation for Consent Order entered into between respondent and counsel supporting the complaint, which was approved by the Director, Bureau of Litigation.

Said stipulation provided, among other things, that respondent admitted all the jurisdictional allegations set forth in the complaint and that the record therein might be taken as if findings of jurisdictional facts had been made in accordance with such allegations; that the stipulation, together with the complaint, should constitute the entire record in the matter; that the complaint might be used in construing the order agreed upon, which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission; that the signing of the stipulation was for settlement purposes only and did not constitute an admission by respondent that it had violated the law as alleged; and that the order provided for in the stipulation and included in the decision should have the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon.

All parties further waived the filing of answer, hearing before a hearing examiner or the Commission, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, the filing of exceptions and oral argument before the Commission, and all other procedure before the hearing examiner and the Commission to which respondent might be entitled under the Federal Trade Commission Act and the Rules of Practice of the Commission, including any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with the stipulation.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters, found that the order agreed upon conformed to that contained in the "Notice" portion of the complaint, except for the omission therefrom of the provision "(B) Misrepresenting in any other manner or by any other means the terms or provisions of said insurance policies", and disposed of all the issues raised in the complaint, accordingly accepted the Stipulation for Consent Order, found the proceeding to be in the public interest, and issued his order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 23, 1955, became, on September 29, 1955, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the Beneficial Standard Life Insurance Company, a corporation, and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any accident, health, hospital or surgical insurance policy, do forthwith cease and desist from representing, directly or by implication:

1. That said insurance policy may be continued in effect indefinitely or for any period of time, when, in fact, said policy provides that it may be cancelled by respondent or terminated under any circumstances over which insured has no control, during the period of time represented;

2. That no medical examination is required or that applicant's health is not a factor in securing insurance, unless the representation is clearly and conspicuously limited in immediate connection therewith to insurance on claims not caused by previous conditions of health of the insured;

3. That said policy provides for indemnification to insured in cases of sickness or accident generally or in any or all cases of sickness or accident, when such is not the fact;

4. That said policy provides a monthly or other cash benefit to insured, when disabled by sickness or accident, for a longer period of time or in a larger amount than is in fact provided;

5. That said policy provides for the payment of certain benefits in addition to other benefits when such is not the fact;

6. That said policy will pay in full or in any specified amount or will pay up to any specified amount for any medical, surgical or hospital service unless the policy provides that the actual cost to the insured for that service will be paid in all cases up to the amount represented;

7. That said policy provides indemnification for losses caused by accident or sickness immediately upon the effective date of said policy when such is not the fact.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Beneficial Standard Life Insurance Company, a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: September 23, 1955.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

[Docket 6284]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

DUMAS OF CALIFORNIA, INC., AND HERBERT BASS

Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition: Wool Products Labeling Act:* § 13.1325 *Source or origin:* Maker or seller, etc.: *Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Wool Products Labeling Act: § 13.1900 *Source or origin:* Wool Products Labeling Act. In connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, of ladies' coats or other "wool products", which contain, purport to contain, or in any manner are represented as containing "wool", "reprocessed wool", or "reused wool", misbranding said products by: 1. Falsely or deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers included therein; 2. Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner: (a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter; (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; and 3. Misrepresenting in any manner the true character and amount of the constituent fibers used in the manufacture of such wool products, or the representative percentage of the various fibers contained therein; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68c) [Cease and desist order, Dumas of California, Inc., et al., Los Angeles, Calif., Docket 6284, September 22, 1955]

In the Matter of Dumas of California, Inc., a Corporation, and Herbert Bass, Individually and as an Officer of Said Corporation

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with having violated the Wool Products Labeling Act of 1939 and the Rules and Regulations promulgated thereunder, and the Federal Trade Commission Act, through the misbranding of certain wool products, including ladies' coats which did not contain vicuna, wool, and cashmere in the amounts stated on labels, and other ladies' coats which were not tagged as required; and upon an agreement for consent order approved by the Director of the Commission's Bureau of Litigation providing for the full disposition of the proceeding without hearing. After submission of said agreement, counsel for respondents was permitted to make a statement for the record in explanation of the circumstances surrounding the particular violations charged, and counsel's remarks were received with the understanding that they did not constitute an admission concerning any of the substantive allegations of the complaint and did not impair the effectiveness of aforesaid agreement and order therein provided for.

The aforesaid agreement provided that respondents withdrew their answer, which they had filed after service of the complaint, admitted all the jurisdictional allegations and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; provided further that all parties expressly waived a hearing before the hearing examiner or the Commission, and all further procedure to which they might be entitled under the Federal Trade Commission Act or the Commission's rules of practice; provided that the order to cease and desist issued in accordance with said agreement should have the same force and effect as if made after a full hearing, and that respondents specifically waived any and all right, power, or privilege to challenge or contest the validity of said order; that the complaint might be used in construing the terms of the order provided for in said agreement; and that the signing of said agreement was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged.

Thereafter, the proceeding having come on for final consideration by said hearing examiner on the complaint and the aforesaid agreement for consent order, said hearing examiner made his initial decision in which he set forth the aforesaid matters; his conclusion that said agreement provided for an appropriate disposition of the proceeding; his acceptance of said agreement which he ordered filed as a part of the record in the matter; and his findings for jurisdictional purposes with respect to said respondents, and the jurisdiction of the Commission over the subject matter of the proceeding and over said respondents; and including his findings that the complaint stated a cause of action against respondents under the aforesaid acts and was in the interest of the public; and in which he set forth order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated September 22, 1955, became, on said date, pursuant to § 3.21 of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent Dumas of California, Inc., a corporation; respondent Herbert Bass, individually and as an officer of said corporation; and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of ladies' coats or other "wool products," as such products are defined in and are subject to the said Wool Products Labeling Act of 1939; which products contain, purport to contain, or in any manner are represented as containing "wool," "reprocessed wool" or "reused wool" as such terms are defined in said Act, do forthwith cease and desist from misbranding said products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five per centum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five per centum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

3. Misrepresenting in any manner the true character and amount of the constituent fibers used in the manufacture of such wool products, or the representative percentage of the various fibers contained therein:

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939: *And provided further,* That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 22, 1955.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1228]

IDAHO

RESERVING LANDS WITHIN NATIONAL FORESTS FOR USE OF THE FOREST SERVICE AS ADMINISTRATIVE SITES, RECREATION AREAS, OR FOR OTHER PUBLIC PURPOSES

Correction

In F. R. Document 55–7925, appearing in the issue for Saturday, October 1, 1955, at page 7335, make the following change under (Idaho 05282), Big Creek Forest Camp: In lines 3 and 4, the land description referred to as "E½E½NW¼ NE¼NE¼SW¼" should read "E½E½ NW¼NE¼SW¼".

[Public Land Order 1230]

NEW MEXICO

RESERVING LANDS WITHIN APACHE NATIONAL FOREST FOR USE OF FOREST SERVICE AS ADMINISTRATIVE SITES, CAMP SITES, LOOKOUTS, AND ROADSIDE ZONES

Correction

In F. R. Document 55–7927, appearing in the issue for Saturday, October 1, 1955, at page 7337, make the following changes for New Mexico State Highway No. 12 Roadside Zone: In the legal subdivisions, line 5 should read "T. 5 S., R. 16 W.," and line 7 should read "T. 5 S., R. 17 W.,".

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 19]

PART 19—CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

PARTIALLY CREAMED COTTAGE CHEESE

On August 23, 1955, a notice of proposed rule making was published in the FEDERAL REGISTER (20 F. R. 6141) setting forth a proposal to adopt a definition and standard of identity for a food to be designated as "partially creamed cottage cheese." The notice allowed 30 days for interested persons to submit in writing their views on the proposal.

Upon consideration of the views presented and other relevant information, it is concluded that it would not promote honesty and fair dealing in the interest of consumers to adopt the definition and standard of identity proposed for a food to be designated partially creamed cottage cheese.

Therefore, pursuant to the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, 68 Stat. 54; 21 U. S. C. 341) and the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996):

It is ordered, That the definition and standard of identity proposed for partially creamed cottage cheese be not adopted.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day following the date of the publication of this order in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections. Objections shall show wherein the person filing will be adversely affected by the order, shall specify the provisions of order deemed objectionable and grounds for the objections, and shall request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

If a public hearing is to be held upon objections to this order, an appropriate notice will be published in the FEDERAL REGISTER.

Dated: October 17, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[Economic Regs. Draft Release 68E]

REVISED UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

SUPPLEMENTAL NOTICE OF RULE MAKING AND ORAL ARGUMENT THEREON

OCTOBER 18, 1955.

By notice dated September 20, 1955 (Economic Regulations Draft Release No. 68D), published in the FEDERAL REGISTER on September 22, 1955 (20 F. R. 7111), the Board gave notice that it had under consideration modification of a previously proposed amendment to the accounting and reporting requirements of Part 241 of the Economic Regulations (14 CFR Part 241) published as Draft Release No. 68, dated July 6, 1954. Reference is made to the former notice for the terms of the proposed amendment and further explanation thereof. Copies of Draft Release No. 68D may be obtained from the Secretary, Civil Aeronautics Board, Washington 25, D. C.

The Air Transport Association of America, writing on behalf of itself and its members, has requested that the Board provide an opportunity for the oral presentation of views concerning the proposed rule. It has also requested that the Board extend the date presently set for return of comments. The Board finds that it would be in the public interest to grant these requests. Accordingly, notice is hereby given that consideration of the proposed rule has been set down for oral argument at 10:00 a. m., e. s. t., November 7, 1955, in Room 5042, Department of Commerce Building, Washington, D. C., and that written comments may be filed before or upon November 7, 1955. Oral argument will be limited to one full day. Those desiring to be heard are requested to inform F. W. Brown, Chief Hearing Examiner, Civil Aeronautics Board, prior to October 31, 1955, indicating the amount of time desired.

Oral presentation may be in addition to, or in lieu of, written submission pursuant to the previous notice (Draft Release No. 68D), which is hereby amended to provide that all relevant material in communications received on or before November 7, 1955, will be considered by the Board before taking final action on the proposed rule.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 407, 52 Stat. 1000; 49 U. S. C. 487)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

NOTICES

DEPARTMENT OF COMMERCE

Federal Maritime Board

J. E. LOWDEN AND I. FRAZIER CO.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8049 between two freight forwarders—J. E. Lowden, with an office in San Francisco, California, and I. Frazier Company, with offices in Seattle, Washington, and Portland, Oregon, provides that each of the parties at his respective office or offices upon request by the other party will prepare and process all documents for ocean export shipments and perform all the functions required in clearing such shipments through U. S. Customs and such other services as the other party may require.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: October 17, 1955.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

[F. R. Doc. 55–8510; Filed, Oct. 20, 1955; 8:45 a. m.]

Maritime Administration

TRADE ROUTE 14; U. S. ATLANTIC AND GULF/WEST COAST AFRICA

ESSENTIALITY AND U. S. FLAG SERVICE REQUIREMENTS; CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on October 13, 1955, the Maritime Administrator, acting pursuant to § 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States foreign Trade Route No. 14 and, in accordance with his action of October 29, 1954, ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said trade route be published in the FEDERAL REGISTER:

1. Trade Route No. 14, as described below, is reaffirmed as an essential United States foreign trade route with no change in the United States and foreign areas served: Trade Route No. 14—U. S. Atlantic and Gulf/West Coast Africa; between U. S. Atlantic and Gulf ports (Maine-Texas, incl.) and ports on the West Coast of Africa from the southern border of French Morocco to the southern border of Angola, including Madeira, Canary, Cape Verde and other islands adjacent to the West African coast.

2. United States flag sailing requirements for Service No. 1 of Trade Route No. 14 (from U. S. Atlantic ports to the foreign areas above described) are approximately two freighter sailings per month. The C–2 type freight vessels presently being used on this service are suitable for operation thereon. Five such vessels are required to serve this portion of the route adequately under present circumstances.

3. United States flag sailing requirements for Service No. 2 of Trade Route No. 14 (from U. S. Gulf ports to the foreign areas above described) are between one and two freighter sailings per month. The C1–A type freight vessels presently being used on this service are suitable for operation thereon. Four such vessels are required to serve this portion of the route adequately under present circumstances.

Any person, firm, or corporation having any interest in the foregoing who desires to offer comments and views thereon should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: October 17, 1955.

By order of the Maritime Administrator.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[Notice 3 of Requirement of Certification—1955]

ENTRY OF SUGAR OR LIQUID SUGAR FROM CUBA INTO CONTINENTAL UNITED STATES

REQUIREMENTS AND QUOTAS

Pursuant to § 817.4 of this part (7 CFR Part 817) (13 F. R. 127; 14 F. R. 1169; 16 F. R. 12847), notice is hereby given that the 1955 sugar quota for Cuba, amounting to 2,763,840 short tons of sugar, raw value, has been filled to the extent of 80 per centum or more.

Accordingly, pursuant to § 817.4 of this part, after the close of business on October 21, 1955, and for the remainder of the calendar year 1955, entry into the continental United States from Cuba of any sugar may not be made unless and until the certification described in § 817.4 (a) is issued to the Collector of Customs.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153, 13 F. R. 127, 14 F. R. 1169, 16 F. R. 12847)

Issued this 14th day of October 1955.

[SEAL] THOS. H. ALLEN,
Acting Director, Sugar Division, Commodity Stabilization Service.

POST OFFICE DEPARTMENT

REGIONAL REAL ESTATE MANAGERS

REDELEGATION OF AUTHORITY WITH RESPECT TO LEASES

The following is the text of various orders of the Assistant Postmaster General, Bureau of Facilities:

[Order No. 82]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Ben A. Brock, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Arizona, Colorado, New Mexico, Utah and Wyoming.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 53, dated March 23, 1955 (20 F. R. 2206).

[Order No. 83]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Arthur C. Chandler, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Idaho, Montana, Oregon, Washington, and the Territory of Alaska.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 55, dated March 23, 1955 (20 F. R. 2206).

[Order No. 85]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Frank A. Gilbert, Regional Real Estate Manager, Bureau of Facilities, to take final action, in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Illinois and Michigan (except the Northern Peninsula).

(B) The authority delegated by this order shall be exercised by the Regional Real Estate Manager covered only with respect to the procurement of space for postal purposes in the States of Illinois and Michigan (except the Northern Peninsula).

(C) This order, with the exception of paragraph (B), shall be effective September 1, 1955. Paragraph (B) shall be effective October 1, 1955. Until October 1, 1955, the Regional Real Estate Manager covered by this order shall continue to exercise his delegated authority only with respect to the procurement of space for postal purposes in the States of Illinois (except Henry, Rock Island, and Whiteside Counties), Michigan, Wisconsin, and Lake County in the State of Indiana.

(D) This supersedes and cancels Order No. 54, dated March 23, 1955 (20 F. R. 2206).

[Order No. 84]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (F. R. 6169), authority is hereby delegated to Harold L. Duncan, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Arkansas, Iowa, and Missouri.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 56, dated March 23, 1955 (20 F. R. 2206).

[Order No. 86]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Thomas G. Jay, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Kansas, Nebraska and Oklahoma.

(C) This order, with the exception of paragraph (B), shall be effective September 1, 1955. Paragraph (B) shall be effective October 1, 1955. Until October 1, 1955, the Regional Real Estate Manager covered by this order shall continue to exercise his delegated authority only with respect to the procurement of space for postal purposes in the States of Kansas, Nebraska, Oklahoma, and the City of Kansas City in the State of Missouri.

(D) This supersedes and cancels Order No. 57, dated March 23, 1955 (20 F. R. 2206).

[Order No. 87]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Robert W. Jones, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of Paragraphs 3 and 6 of this order;

in the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 58, dated March 23, 1955 (20 F. R. 2206).

[Order No. 88]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954, (19 F. R. 6169), authority is hereby delegated to John W. Meinhart, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Indiana, Kentucky, and Ohio.

(B) The authority delegated by this order shall be exercised by the Regional Real Estate Manager covered only with respect to the procurement of space for postal purposes in the States of Indiana, Kentucky, and Ohio.

(C) This order, with the exception of paragraph (B), shall be effective September 1, 1955. Paragraph (B) shall be effective October 1, 1955. Until October 1, 1955, the Regional Real Estate Manager covered by this order shall continue to exercise his delegated authority only with respect to the States of Indiana (except Lake County), Kentucky, and Ohio.

(D) This supersedes and cancels Order No. 59, dated March 23, 1955 (20 F. R. 2206).

[Order No. 89]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Arthur J. Parsons, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of Paragraphs 3 and 6 of this order;

in the States of Pennsylvania, New Jersey (except Hudson and Bergen Counties), and Newcastle County in the State of Delaware.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 60, dated March 23, 1955 (20 F. R. 2206).

[Order No. 90]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Lloyd A. Sifford, Jr., Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of Paragraphs 3 and 6 of this order;

in the States of Florida, Georgia, North Carolina and South Carolina and Puerto Rico and the Virgin Islands.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 61, dated March 23, 1955 (20 F. R. 2206).

[Order No. 91]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to John K. Witherspoon, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of Paragraphs 3 and 6 of this order;

in the States of Alabama, Mississippi and Tennessee.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 62, dated March 23, 1955 (20 F. R. 2206).

[Order No. 92]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Harold J. Cooke, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of California and Nevada, the Territory of Hawaii, Somoa, Guam, Canton Island, Caroline Islands, Mariana Islands, Marshall Islands, and Wake Island.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 63, dated March 23, 1955 (20 F. R. 2206).

[Order 93]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Arba P. Dewitt, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the States of Louisiana and Texas.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 64, dated March 23, 1955 (20 F. R. 2206)

[Order No. 94]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to James M. Murphy, Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order.

(B) The authority delegated by this order shall be exercised by the Regional Real Estate Manager covered only with respect to the procurement of space for postal purposes in the States of Minnesota, North Dakota, South Dakota, Wisconsin, and the Northern Peninsula of the State of Michigan.

(C) This order, with the exception of paragraph (B), shall be effective September 1, 1955. Paragraph (B) shall be effective October 1, 1955. Until October 1, 1955, the Regional Real Estate Manager covered by this Order shall continue to exercise his delegated authority only with respect to the States of Minnesota, North Dakota and South Dakota.

(D) This supersedes and cancels Order No. 65, dated March 23, 1955 (20 F. R. 2206).

[Order No. 95]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Henry A. Kresse, Acting Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the State of New York, and Hudson and Bergen Counties in the State of New Jersey.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 66, dated March 23, 1955 (20 F. R. 2206).

[Order No. 96]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to H. Brooks Perring, Acting Regional Real Estate Manager, Bureau of Facilities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) when the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order;

in the District of Columbia and the States of Maryland, Virginia and West Virginia and Kent and Sussex Counties in the State of Delaware.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 67, dated March 23, 1955 (20 F. R. 2206).

[Order No. 97]

AUGUST 24, 1955.

(A) Pursuant to authority of Order No. 55734, dated September 21, 1954 (19 F. R. 6169), authority is hereby delegated to Charles H. Carle, Chief, Post Office Quarters Section, Bureau of Facil-

ities, to take final action in the name of Ormonde A. Kieb, Assistant Postmaster General, Bureau of Facilities, with respect to the procurement of space for postal purposes, as follows:

1. To make agreements for space on a month to month basis; or

2. To make agreements for space for holiday or seasonal needs for fixed periods not in excess of two months where the rental is not in excess of $10,000 a month, and to make agreements for space for fixed periods not in excess of six months to meet emergency conditions where the rental is not in excess of $5,000 a month; or

3. To make lease extension agreements for periods of not in excess of one year where the annual rental is $7,200 or less; or

4. To accept proposals to lease quarters for postal purposes (including garages and related facilities) where the term of the lease covered by the proposal is for ten years or less and where the annual rental specified in the lease covered by the proposal is $7,200 or less; or

5. To exercise or reject options to renew leases where the renewal term of the lease under the option is for ten years or less, and the annual rental is $7,200 or less; or

6. To execute contracts or agreements for garage or parking space for periods of not in excess of one year where the annual rental is $7,200 or less; or

7. To cancel contracts or agreements for quarters for postal purposes (including garages and related facilities) entered into or extended under authority of paragraphs 3 and 6 of this order; throughout the United States and its Possessions, including Guam.

(B) This order shall be effective September 1, 1955.

(C) This supersedes and cancels Order No. 68, dated March 23, 1955 (20 F. R. 2206).

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

DEPARTMENT OF STATE

[Delegation of Authority 85-1]

[Public Notice 143]

ESTABLISHMENT OF INTERNATIONAL COOPERATION ADMINISTRATION AND DELEGATION OF CERTAIN RELATED FUNCTIONS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me in Executive Order No. 10610, the Mutual Security Act of 1954 (68 Stat. 832), as amended, and section 4 of the Act of May 26, 1949 (63 Stat. 111, 5 U. S. C. sec. 151c), and in accordance with the requirements of section 3 (a) (1) of Public Law 404, 79th Congress (60 Stat. 238, 5 U. S. C. sec. 1002 (a) (1)), Delegation of Authority No. 85 ("Establishment of International Cooperation Administration and Delegation of Certain Related Functions") (20 F. R. 4825) is amended as follows:

1. Section 2 is amended by adding at the end thereof the following new sentence: "The Director of the International Cooperation Administration may, to the extent consistent with law, delegate or assign any of his functions to his subordinates."

2. The title of section 3 is amended to read: "*Functions of the International Cooperation Administration or the Director Thereof.*"

3. Section 3a (3) (d) is amended to read:

(d) The function of determining the value of the program for any country under so much of chapter 2 of title I of the Mutual Security Act of 1954 as pertains to the functions transferred to the Secretary of Defense and the Department of Defense by section 201 of Executive Order No. 10610 or delegated to the Secretary of Defense by section 102 (a) (4) of Executive Order No. 10575 as amended by Executive Order No. 10625;

4. Section 3a is further amended by adding after subparagraph (3) the following new subparagraph:

(4) Subject to the concurrence of the Secretary of State, the function referred to in section 107 (b) of Executive Order No. 10575 as amended by Executive Order No. 10625 of agreeing with the Department of Defense on a division of the sum of $300,000,000 provided for in section 402 of the Mutual Security Act of 1954, as amended (relating to the export and sale of surplus agricultural commodities).

5. Section 3 is further amended by adding after paragraph b the following new paragraphs:

c. The Director of the International Cooperation Administration may from time to time, to the extent consistent with law, promulgate such rules and regulations as may be necessary and proper to carry out any of his functions. The Director of the International Cooperation Administration is hereby designated as the person who shall issue regulations relating to travel expenses paid out of appropriations which have been or may be made under the Mutual Security Act of 1954, including the regulations referred to in the second proviso of section 102 of the Mutual Security Appropriation Act, 1956.

d. The Director of the International Cooperation Administration is designated as the person who shall make certificates of the amount of expenditures of a confidential character made out of funds allocated to the International Cooperation Administration whenever any provisions of law, including section 102 of the Mutual Security Appropriation Act, 1956, require such certificates to be made by the Secretary of State or such person as he may designate.

6. Section 7 is amended by adding after paragraph b the following new paragraph:

c. References in this order to the Mutual Security Act of 1954 shall be deemed to be references to the Mutual Security Act of 1954 as amended from time to time.

Dated: October 12, 1955.

[SEAL] JOHN FOSTER DULLES,
Secretary of State.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

LOXAHATCHEE NATIONAL WILDLIFE MANAGEMENT AREA, FLORIDA

DESIGNATION OF AREA AND NOTICE OF APPLICABILITY OF REGULATIONS

The United States Department of the Interior, by and through the Fish and Wildlife Service, has acquired control for wildlife management purposes pursuant to the Act of August 14, 1946 (60 Stat. 1080), over 143,038 acres of land in Palm Beach County, Florida, under the terms of an agreement with the Central and South Florida Flood Control District, dated June 8, 1951, described as all lands acquired by the District within its Conservation Area No. 1 bounded on the north by West Palm Beach Canal, on the east by the east right-of-way boundary of Levee No. 40, on the south by the centerline of Levee No. 39, and on the west by the west right-of-way boundary of Levee No. 7, and has acquired title to certain other contiguous lands under authority of the Migratory Bird Conservation Act (45 Stat. 1222) described as 1,111.55 acres of land adjoining the east boundary of Levee No. 40, lying about one-half mile west of State Highway No. 7, access to which is from said Highway No. 7 at a point 2 miles south of State Highway No. 804, and 1,327.47 acres of land adjoining the west boundary of Levee No. 7 and extending northward approximately two miles from the Hillsboro Canal.

The above lands, totaling approximately 145,477 acres, are hereby designated as the Loxahatchee National Wildlife Management Area, and notice is hereby given that thirty days after publication hereof in the FEDERAL REGISTER entry thereon or use thereof for any purpose will be subject to regulations contained in Part 22, Title 50, Code of Federal Regulations, and such other regulations as the Secretary of the Interior may adopt from time to time.

Issued at Washington, D. C., this 14th day of October 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

Office of the Secretary

CERTAIN WATERS ADJACENT TO ARANSAS NATIONAL WILDLIFE REFUGE, TEXAS

NOTICE OF INTENTION TO DESIGNATE AS CLOSED AREA UNDER MIGRATORY BIRD TREATY ACT

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 238, 5 U. S. C. 1003), and the authority contained in section 3 of the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755, 16 U. S. C. 704), as amended, notice is hereby given that the Secretary of the Interior intends to issue a regulation designating as a closed area in which the pursuing, hunting, taking, capture, or killing of migratory birds or attempting to take, capture, or kill migratory birds will not be permitted, all those parts of the waters of San Antonio Bay, Aransas Bay and St. Charles Bay, including islands lying therein in Aransas and Calhoun Counties, Texas, immediately contiguous to and abutting upon lands of the United States comprising the Aransas National Wildlife Refuge on Blackjack Peninsula, from Webb Point on the east to the mouth of Willow Creek at the head of St. Charles Bay on the west.

The proposed regulation will include all of the area closed to the hunting of migratory birds by the Acting Secretary's regulation of March 31, 1941, designating as a closed area certain land and water adjacent to or in the vicinity of the Aransas National Wildlife Refuge, approved by the President by Proclamation No. 2478 of April 15, 1941 (6 F. R. 1995), and in addition certain strips of water not exceeding an average width of one-half mile and approximately 4,640 acres of water adjoining the refuge and not presently closed to hunting.

All interested persons are hereby afforded an opportunity to participate in the formulation of the proposed regulation by submitting their views, data, or arguments in writing to John L. Farley, Director, Fish and Wildlife Service, Washington 25, D. C., on or before October 31, 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

OCTOBER 14, 1955.

DEPARTMENT OF LABOR

Wage and Hour Division

[Administrative Order 449]

PUERTO RICO

APPOINTMENTS TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES; NOTICE OF HEARING

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C., and Sup. 201 et seq.), and Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), the Secretary of Labor hereby appoints, convenes, and gives notice of the hearings of Special Industry Committee No. 18-A for the Clay and Clay Products Industry in Puerto Rico, Special Industry Committee No. 18-B for the Stone, Glass, and Related Products Industry in Puerto Rico, Special Industry Committee No. 18-C for the Wholesaling, Warehousing and Other Distribution Industry in Puerto Rico, and Special Industry Committee No. 18-D for the Hooked Rug Industry in Puerto Rico.

Special Industry Committee No. 18-A is composed of the following representatives:

For the public: Martin P. Catherwood, Chairman, Ithaca, New York; Paul F. Brissenden, Dobbs Ferry, New York; Candido Oliveras, Santurce, Puerto Rico.

For the employers: E. L. Torbert, Syracuse, New York; Emiliano Pol, Pueblo Viejo, Puerto Rico; E. Kenneth Koos, Santurce, Puerto Rico.

For the employees: Hipolito Marcano, San Juan, Puerto Rico; Thomas D. Burke, Washington, D. C.; Carl Lindner, Philadelphia, Pennsylvania.

For the purpose of this order the Clay and Clay Products Industry in Puerto Rico is defined as follows:

The quarrying or other extraction of common clay, shale, kaolin, ball clay, fire clay and other types of clay; and the manufacture of structural clay products, china, pottery, tile, and other ceramic products and refractories.

Special Industry Committee No. 18-B is composed of the following representatives:

For the public: Martin P. Catherwood, Chairman, Ithaca, New York; Paul F. Brissenden, Dobbs Ferry, New York; Candido Oliveras, Santurce, Puerto Rico.

For the employers: E. L. Torbert, Syracuse, New York; Emiliano Pol, Pueblo Viejo, Puerto Rico; Jose Benitez, Santurce, Puerto Rico.

For the employees: Hipolito Marcano, San Juan, Puerto Rico; Thomas D. Burke, Washington, D. C.; Carl Lindner, Philadelphia, Pennsylvania.

For the purpose of this order the Stone, Glass, and Related Products Industry in Puerto Rico is defined as follows:

The mining, quarrying, or other extraction and the further processing of all minerals (other than clay, metal ores, chemical and fertilizer minerals, coal, petroleum, or natural gasses) and the manufacture of products from such minerals, including, but without limitation, glass and glass products; dimension and cut stone; crushed stone, sand and gravel; abrasives; lime, concrete, gypsum, mica, plaster, and asbestos products; and the manufacture of products from bone, horn, ivory, shell, and similar natural materials.

Provided, however, That the definition shall not include any product or activity included in the button, buckle, and jewelry industry in Puerto Rico; the cement industry in Puerto Rico; the chemical, petroleum, and related products industry in Puerto Rico; the clay and clay products industry in Puerto Rico; the construction, business service, motion picture, and miscellaneous industries in Puerto Rico; the electrical, instrument, and related manufacturing industries in Puerto Rico; the jewel cutting and polishing industry in Puerto Rico; or the metal, machinery, transportation equipment, and allied industries in Puerto Rico, (as defined in the wage orders issued for those industries).

Special Industry Committee No. 18-C is composed of the following representatives:

For the public: Martin P. Catherwood, Chairman, Ithaca, New York; Paul F. Brissenden, Dobbs Ferry, New York, Candido Oliveras, Santurce, Puerto Rico.

For the employers: E. L. Torbert, Syracuse, New York; Emiliano Pol, Pueblo Viejo, Puerto Rico; Frank Besosa, San Juan, Puerto Rico.

For the employees: Hipolito Marcano, San Juan, Puerto Rico; Thomas D. Burke, Washington, D. C.; Lewis C. Harkins, Silver Spring, Maryland.

For the purpose of this order the Wholesaling, Warehousing, and Other Distribution Industry in Puerto Rico is defined as follows:

The wholesaling, warehousing, and other distribution of commodities, including, but without limitation, the wholesaling, warehousing, and other distribution activities of jobbers, importers and exporters, manufacturers' sales branches and offices engaged in distributing products manufactured outside of Puerto Rico, industrial distributors, mail order and retail selling establishments, brokers and agents, and public warehouses: *Provided, however,* That the definition shall not include the activities of employees who are engaged in wholesaling, warehousing, or other distribution of products manufactured by their employer in Puerto Rico, or any activities covered by the wage orders for the communications, utilities, and miscellaneous transportation industries in Puerto Rico, the shipping industry in Puerto Rico, the railroad, railway express, and property motor transport industry in Puerto Rico, the tobacco industry in Puerto Rico, and the food and related products industries in Puerto Rico.

Special Industry Committee No. 18-D is composed of the following representatives:

For the public: Martin P. Catherwood, Chairman, Ithaca, New York; Paul F. Brissenden, Dobbs Ferry, New York; Candido Oliveras, Santurce, Puerto Rico.

For the employers: E. L. Torbert, Syracuse, New York; Emiliano Pol, Pueblo Viejo, Puerto Rico; Thaddeus C. V'Soske, Vega Baja, Puerto Rico.

For the employees: Hipolito Marcano, San Juan, Puerto Rico; Thomas D. Burke, Washington, D. C.; Lewis C. Harkins, Silver Spring, Maryland.

For the purpose of this order the Hooked Rug Industry in Puerto Rico is defined as follows:

The manufacture of hooked or punched rugs and carpeting.

I hereby refer to each of the above mentioned Industry Committees the question of the minimum wage rate or rates to be fixed under section 6 (c) of the Act for the industry assigned. Each such Industry Committee shall investigate conditions in its industry and it, or any authorized sub-committee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the Committee to perform its duties and functions under the Act.

Industry Committee No. 18-A shall commence its hearing on November 21, 1955, at 2 p. m. in Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico. Consecutively, at the same place, after the hearing of Industry Committee No. 18-A, Industry Committees Nos. 18-B, 18-C, and 18-D shall hold their hearings in that order.

Each Committee will convene at the same place before its hearing to make its investigation and appropriate decisions concerning its hearing. Industry Committee No. 18–A will convene at 10 a. m. and Industry Committee No. 18–B, No. 18–C, and No. 18–D will convene at an hour to be designated by the Committee Chairman.

Upon completion of its investigation and hearing each Committee will file with the Administrator a report containing its findings of fact and recommendations specifying the minimum wage rates for all employees in Puerto Rico in its industry, who are "engaged in commerce or in the production of goods for commerce" within the meaning of the Act. These will be the highest rates, not in excess of the minimum wage provided in section 6 (a) of the Act (75 cents an hour prior to March 1, 1956 and $1.00 an hour on and after March 1, 1956), which, having due regard to economic and competitive conditions, will not substantially curtail employment in such industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Each Industry Committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it, under the principles set out in section 8 (c) of the Act, which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rate for each such classification, the Committee shall consider among other relevant factors, the following: (1) competitive conditions as affected by transportation, living and production costs; (2) the wages established for work of like or comparable character by collective bargaining agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry. However, no classification shall be made and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex.

Any interested person who desires to testify before a Committee shall file two copies of a written notice of intention to appear with the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C. and four copies of such notice at the Office of the Territorial Director of the Wage and Hour Division, Post Office Box 9061, Santurce 29, Puerto Rico, not later than November 14, 1955. This notice shall contain (1) a statement of the person's interest, (2) a copy of the written data he proposes to introduce in evidence by his testimony, (3) a summary of the testimony he proposes to give, and (4) a statement of the approximate length of time his direct testimony should take. Filing of such notice shall give only the right to testify, and shall not give the rights hereinafter provided for parties.

Every employer, employee, trade association, or trade union in the industry as defined, or in such industry elsewhere in the United States, and every other person who in the judgment of the committee has a sufficient interest, shall have the right to appear before the Committee as a party (i. e. to present his case by oral and documentary evidence, to submit rebuttal evidence, to conduct such cross-examination of witnesses called by others as may be required for a full and true disclosure of the facts, to submit proposed findings and conclusions for the consideration of the Committee, and to otherwise participate more fully than as a witness) upon filing two copies of a notice of his intention with the Administrator, and four copies of such notice with the Territorial Director, not later than November 14, 1955, at the places set forth above. This notice shall contain (1) a statement of the person's interest, (2) a statement of the classifications and wage rates, if any, which he proposes to support, (3) the written data which he intends to introduce in evidence, (4) a statement of the name and address of the witnesses he proposes to call and a summary of the evidence proposed to be developed, and (5) a statement of the approximate length of time his case will take. Testimony on behalf of an employer or group of employers as to inability to absorb wage increases shall be received in evidence only if supported by tangible objective data such as the pertinent profit and loss statements and balance sheets for a reasonably representative period of years.

Each person who files a notice of intention to appear and testify or to participate more fully as a party, should, if requested, make himself available for conference with the Department staff. Notices of intention to appear as interested persons or parties will be made available for examination at the places of filing by anyone who has filed or contemplates filing such a notice of intention to appear.

Each Committee will take official notice of the facts stated in the economic report prepared by the Department of Labor for its consideration. Copies of these reports will be made available to interested persons as soon as they are completed and prior to the hearing, at the National and Puerto Rican offices of the Department of Labor. The parties will have an opportunity at the hearing to refute any statement of fact in these reports.

The procedures of these Industry Committees shall conform to the applicable standards provided in the Administrative Procedure Act as interpreted and applied in such regulations as may be issued. As soon as the receipt of evidence is concluded, each committee which presides at a hearing will receive any proposed findings of fact and recommendations together with the reasons therefor submitted by any party. These submittals shall be oral unless otherwise directed by the committee. If, in the discretion of the committee, such proposals should be in writing the committee may grant such additional time as it deems essential. The committee shall then make its final report and file it with the Secretary.

Signed at Washington. D. C., this 18th day of October 1955.

JAMES P. MITCHELL,
Secretary of Labor.

FEDERAL POWER COMMISSION

[Docket No. G–9475]

SHELL OIL COMPANY

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Shell Oil Company (Applicant) in September 15, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Sept. 14, 1955.	United Fuel Gas Co.....	Supplement No. 1 to applicant's FPC Gas Rate Schedule No. 27.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's General Rules and Regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commissons' Rules of Practice and Procedure.

Adopted: October 12, 1955.

Issued: October 17, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

UNITED STATES TARIFF COMMISSION

[Investigation 44]

TOWELING, OF FLAX, HEMP, OR RAMIE

NOTICE OF PUBLIC HEARING

The United States Tariff Commission announces a public hearing, to begin at 10 a. m., on February 14, 1956, in the Hearing Room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., in connection with Investigation No. 44 under section 7 of the Trade Agreements Extension Act of 1951, as amended, instituted October 4, 1955, with respect to toweling, of flax, hemp, or ramie, as described in the public notice of this investigation previously given (20 F. R. 7559).

Request to appear at hearings. Parties interested will be given opportunity to be present, to produce evidence, and to be heard at the above-mentioned hearing. Such parties desiring to appear at the hearing should notify the Secretary of the Commission, in writing, three days in advance of the hearing.

I certify that the above hearing was ordered by the Tariff Commission on the 17th day of October 1955.

Issued: October 18, 1955.

[SEAL] DONN N. BENT,
Secretary.

TITLE 3—THE PRESIDENT

PROCLAMATION 3119

NATIONAL OLYMPIC DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the XVIth Olympic Games of the modern era will be held in Melbourne, Australia, beginning November 22 and ending December 8, 1956, with the Winter Games to be held at Cortina d'Ampezzo, Italy, from January 26 to February 5, 1956; and

WHEREAS the Olympic Games have imbued competitors and spectators alike with ideals of friendship, chivalry, and comradeship, thus contributing to common understanding and mutual respect among the peoples of the world; and

WHEREAS the Congress by a joint resolution approved August 4, 1955 (69 Stat. 470), calls attention to the fact that the United States Olympic Association is engaged in assuring maximum support for the United States teams which will compete with young men and women from more than seventy nations in the fortheoming athletic contests; and

WHEREAS the said joint resolution requests the President to issue a proclamation designating the twenty-second day of October, 1955, as National Olympic Day:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby designate Saturday, October 22, 1955, as National Olympic Day; and I urge all of our citizens to do their utmost in support of the XVIth Olympic Games and the Winter Games to be held in 1956, to the end that our Nation may be able to send an adequate number of representatives to participate in these games.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this eighteenth day of October in the year of our Lord nineteen hundred
[SEAL] and fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

[FHA Instruction 443.3]

PART 333—PROCESSING SUBSEQUENT LOANS

Part 333, Title 6, Code of Federal Regulations (14 F. R. 6325, 17 F. R. 190, 18 F. R. 1147, 6201) is revised to read as follows:

Sec.
333.1 General.
333.2 Approval of subsequent loans.
333.3 Loan purposes.
333.4 Refinancing and reamortization.
333.5 Certification by county committee.
333.6 Loan processing actions.

AUTHORITY: §§ 333.1 to 333.6 issued under sec. 41 (1) 60 Stat. 1066; 7 U. S. C. 1015 (i). Statutory provisions interpreted or applied are cited to text in parentheses.

§ 333.1 *General.* (a) This part prescribes the authority, policies, and procedures for making subsequent direct Farm Ownership loans. The term subsequent loan, as used in this part, means a Farm Ownership loan to a person who is indebted to the Government for a direct Farm Ownership loan, a Farm Ownership loan made in connection with a credit sale of real estate on Farm Ownership terms, or a Farm Ownership loan made to a transferee in connection with the transfer of a Farm Ownership farm in accordance with Part 372 of this chapter. The term Farm Ownership

§ 333.3 *Loan purposes.* (a) Subsequent loans may be made for the same purposes and under the same conditions as initial loans. In addition, subsequent loans may be made to pay equity to a transferor in connection with the transfer of a Farm Ownership farm. Farm Ownership borrowers who own efficient family-type farm-management units are not eligible for subsequent Farm Ownership loans.

(b) A subsequent loan may be made to a Building Improvement borrower for the same purposes as other Farm Ownership loans. Whenever a loan to a Building Improvement borrower includes funds for land development or purchase, the borrower will receive supervision in the same manner as other Farm Enlargement or Farm Development borrowers.

(Sec. 1, 60 Stat. 1072; 7 U. S. C. 1001)

§ 333.4 *Refinancing and reamortization*—(a) *Refinancing of existing Farm Ownership debt required.* Existing Farm Ownership debts of a borrower who obtains a subsequent loan will be refinanced when the indebtedness represents an asset of (1) a State Rural Rehabilitation Corporation, (2) a Defense Relocation Corporation, the accounts of which are not yet considered Government accounts, or (3) a land-leasing or land-purchasing association or similar organization. The amount to be refinanced will include interest on the Farm Ownership debt to the date the subsequent loan is closed. The determination of the balance to be refinanced, the receipt for payment, note, mortgage, and satisfaction of the mortgage in connection with the debt being refinanced will be handled in accordance with the provisions of Part 366 of this chapter except as modified by the closing instructions.

(b) *Refinancing of existing Farm Ownership debt not required.* Existing Farm Ownership debts except the three types indicated in paragraph (a) of this section will not be refinanced. When the outstanding Farm Ownership debt is not refinanced:

(1) The subsequent Farm Ownership loan will bear interest at 4½ percent and the outstanding debt(s) will be continued at the present rate(s) of interest.

(2) The mortgage(s) securing the outstanding debt(s) will not be released but the mortgage securing the subsequent loan will contain a covenant to the effect that it secures not only the subsequent loan, but also all the obligations of the existing mortgage(s) which secure the outstanding Farm Ownership debt(s).

(3) Each borrower whose initial loan was approved prior to November 1, 1946, will execute a Form FHA–165, "Variable-Payment Agreement," for his initial loan at the time he receives a subsequent loan if he has not previously done so. Execution of Form FHA–165 will change the repayment plan, eliminate the 90-day grace period, and establish December 31 as the due date on installments on the notes, except that, if a subsequent loan has already been made with a March 31 due date for installments, the new subsequent loan installments will also be due on March 31.

(c) *Reappraisal of farms.* Except for a subsequent loan in connection with a transfer as provided in §§ 372.21 to 372.26 of this chapter, a new appraisal report will be required only when:

(1) Subsequent loan funds will be used to purchase land or to refinance debts against land not mortgaged to the Government; or

(2) The County Committee requests a new appraisal report; or

(3) The County Supervisor determines that there have been physical changes in the farm which appear to have altered significantly its normal earning capacity, or such changes are likely to result if the subsequent loan is made.

(d) *Reamortization of outstanding Farm Ownership debts.* An outstanding Farm Ownership debt will be reamortized pursuant to Part 361 of this chapter as of the date the subsequent loan is closed, except that an account need not be reamortized if it was on schedule as of the last preceding due date of the note. When the outstanding Farm Ownership debt is to be reamortized, the borrower will execute Form FHA–176, "Request for Reamortization of Farm Ownership Loan."

(e) *Amortization of subsequent loan.* Ordinarily, a subsequent loan will be amortized so as to mature within one year of the maturity date of the earliest outstanding Farm Ownership note. The loan may be amortized over a longer period if the approval official determines that a longer payment period is necessary, but in no case will it be amortized over a period longer than 40 years from the date of the subsequent loan note.

(Secs. 1 (a), 2 (b), 3 (b) (3), 48 60 Stat. 1072, 1073, 1074, 1070; 7 U. S. C. 1001 (a), 1002 (b), 1003 (b) (3), 1022)

§ 333.5 *Certification by County Committee.* The County Committee will certify again, on Form FHA–491, "County Committee Certification," as to the fair and reasonable value of the farm with the contemplated improvements. The Committee will take into consideration any information on farm production that has become available as a result of operating history, as well as the normal earning capacity of the farm as indicated on the latest appraisal report.

(Secs. 2 (b), (d), 3 (a), 44 (a) (2) and (3), 60 Stat. 1073, 1074, 1068; 7 U. S. C. 1002 (b), (d), 1003 (a), 1018 (a) (2) and (3))

§ 333.6 *Loan processing actions.* The subsequent loan docket will be assembled and the loan will be processed and closed in the same manner as prescribed in Part 332 of this chapter, except that:

(a) Forms FHA–165, FHA–176 and additional Forms FHA–643, "Farm Development Plan," FHA–42, "Valuation Report for Insurance," and FHA–596, "Earning Capacity Report," or Form FHA–440, "Farm Housing Appraisal Report," will be completed and included in the docket only when applicable.

(b) Title clearance will be effected in accordance with Part 327 of this chapter as modified by this paragraph. A new mortgagee's policy of title insurance will be required only with respect to land being purchased from a party other than the Farmers Home Administration and with respect to land covered by a mortgage securing an outstanding Farm Ownership debt which is being refinanced. Title evidence with respect to other land will be furnished in accordance with the requirements of closing instructions issued by the representative of the Office of the General Counsel.

(c) The installment due date of a subsequent loan will be January 1, except that where an existing initial or subsequent loan note or assumption agreement contains a March 31 installment due date, the installment due date of the subsequent loan will be March 31.

(Secs. 1 (a), 3 (a), (b), 44 (b), 60 Stat. 1072, 1074, 1069; 7 U. S. C. 1001 (a), 1003 (a), (b), 1018 (b))

Dated: October 18, 1955.

[SEAL] R. B. MCLEAISH,
Administrator,
Farmers Home Administration.

Subchapter F—Security Servicing and Liquidations

[FHA Instruction 465.9]

PART 375—ASSIGNMENT OF INSURED NOTES

Chapter III of Title 6, Code of Federal Regulations, is hereby amended by the establishment of a new Part 375 in Subchapter F, titled "Assignment of Insured Notes"; added to read as follows:

Sec.
375.1 General.
375.2 Definitions.
375.3 Authorities.
375.4 General policies.
375.5 Assignment of insured note by private holder to private buyer.
375.6 Assignment of insured note to the Government.
375.7 Assignment of insured note from insurance fund to a private buyer.
375.8 Assignment of an insured Farm Ownership note held by the Farmers Home Administration as trustee for a State Rural Rehabilitation Corporation under a section 2 (f) agreement.

AUTHORITY: §§ 375.1 to 375.8 issued under sec. 6 (3), 50 Stat. 870, sec. 10 (a) (7), 68 Stat. 735, sec. 41 (1), 60 Stat. 1066, sec. (4) (c), 64 Stat. 100; 16 U. S. C. 590w (3), 590x–3 (a) (7), 7 U. S. C. 1015 (l), 40 U. S. C. 442 (c). Interpret or apply sec. 16, 69 Stat. 553 (Pub. Law 273, 84th Cong.). Other statutes interpreted or applied are cited to text in parentheses.

§ 375.1 *General.* This part prescribes the authorities, policies and procedures for processing the assignment of insured Soil and Water Conservation notes and insured Farm Ownership notes for loans under which the United States is the mortgagee. It includes the assignment by a private holder to a private buyer or to the Government, the assignment by the Government (insurance fund) to a private buyer, and the assignment to a private buyer or to the Government of an insured Farm Ownership note held by the Farmers Home Administration as trustee of the assets of a State Rural Rehabilitation Corporation under sec-

debt, as used in this part, means any amount owed by a Farm Ownership borrower on his Farm Ownership account.

(b) When a borrower with a direct Farm Ownership loan requests a subsequent loan, his credit needs will be met, if possible, with an insured Farm Ownership loan. Such a borrower's credit needs may be met with a direct loan only if he cannot qualify for an insured loan.

(c) Ordinarily, a subsequent loan will not be processed if the amount of funds required is less than $1,000.

(Secs. 1, 2, 3, 44, 60 Stat. 1072, 1062, 1074, 1069, 64 Stat. 98; 7 U. S. C. 1001, 1001 (note), 1003, 1018, 40 U. S. C. 440)

§ 333.2 *Approval of subsequent loans.* The State Director is authorized to approve or disapprove subsequent Farm Ownership loans.

(Sec. 1 (a), 60 Stat. 1072; 7 U. S. C. 1001 (a))

tion 2 (f) of the Rural Rehabilitation Corporation Trust Liquidation Act.

(Sec. 10 (a) (1), 68 Stat. 735, secs. 12 (i), 13 (a), 13 (d), 60 Stat. 1077, 1078, sec. 12 (j), 62 Stat. 535, sec. 2 (f), 64 Stat. 99; 16 U. S. C. 590x–3 (a) (1), 7 U. S. C. 1005b (i), (j), 1005c (a), (d), 40 U. S. C. 440 (f))

§ 375.2 *Definitions.* As used in this part, the term:

(a) "Private buyer" is any purchaser of an insured note other than the Government or a State Rural Rehabilitation Corporation under a section 2 (f) agreement.

(b) "Holder" is the current owner of an insured note.

(c) "Value" of an insured note is the outstanding unpaid principal plus the amount of unpaid accrued interest on the note account.

(d) "Insurance fund" is the insurance fund established pursuant to section 11 (a) of the Bankhead-Jones Farm Tenant Act, as amended.

(e) "Fixed period" is the period agreed upon during which the note cannot be assigned by the holder to the Government except at the request of the Government.

(Sec. 10 (a) (1)–(3), 68 Stat. 735, sec. 11 (a), 60 Stat. 1075, sec. 12 (j), 62 Stat. 535, sec. 2 (f), 64 Stat. 99; 16 U. S. C. 590x–3 (a) (1)–(3), 7 U. S. C. 1005a (a), 1005b (j), 40 U. S. C. 440 (f))

§ 375.3 *Authorities.* Subject to the policies and procedures prescribed in this part:

(a) The Director, Finance Office, is authorized, on behalf of the Government, in connection with the assignment of insured Soil and Water Conservation and Farm Ownership notes, to execute required documents and to perform other necessary steps, including but not limited to:

(1) Acknowledging receipt of notice of assignment of an insured note.

(2) Requiring the holder of an insured note to assign the note to the Government, when requested to do so by the State Director.

(3) Approving the request of a holder to have the Government purchase the note.

(4) Accepting the assignment of an insured note on behalf of the insurance fund, assigning such note and endorsing it for reinsurance.

(5) Authorizing disbursements from the insurance fund for notes being assigned to the Government.

(6) Executing supplemental purchase agreements.

(b) The State Director is authorized to require assignment of an insured Soil and Water Conservation or Farm Ownership note to the Government when a borrower is in default for any reason that necessitates liquidation of the loan by voluntary conveyance or foreclosure. The State Director also is authorized to assign an insured Farm Ownership note held by the United States as trustee for a State Rural Rehabilitation Corporation under a section 2 (f) agreement.

(Sec. 10 (a) (7), 68 Stat. 735, sec. 41 (1), 60 Stat. 1066, sec. 4 (a), 64 Stat. 100; 16 U. S. C. 590x–3 (a) (7), 7 U. S. C. 1015 (i), 40 U. S. C. 442 (c))

§ 375.4 *General policies—(a) Conditions of assignment.* When insured Soil and Water Conservation and Farm Ownership notes are assigned between private holders, notice of such assignment, executed by both the assignor and the assignee, must be given to the Farmers Home Administration. The Government may require assignment of an insured note if the borrower is in default. Insured notes that have been acquired by the insurance fund may be assigned to private buyers provided the borrower is not in default in payments on his note.

(b) *Selling price.* Whenever an insured note is purchased or sold by the Government, the selling price will be the value of the note as of the date of the sale. The selling price of an insured note assigned by one private holder to another will be determined by the assignor and the assignee.

(c) *Method of assignment.* The insured note will be assigned by endorsement as shown below, and delivery to, the assignee:

Pay to the order of _____
(Buyer's correct name)
without recourse, effective_____
(Date)

(NOTE: The effective date will not be shown on the endorsement when the note is assigned to the Government.)

(d) *Responsibilities of the Director, Finance Office.* The Director, Finance Office, will:

(1) Advise holders regarding the procedures to be followed for assigning insured notes.

(2) Perform the necessary steps, on behalf of the Government, in connection with the assignment of insured notes.

(3) Advise the holder of the options available to him at the expiration of the fixed period. Any holder of the note may, at his option, within a period of one year after the expiration of 10 years from the date of the note, have the note purchased by the Government even though the note is not then in default, and, if such option is exercised, the Government shall, upon assignment of the note to the Government, pay therefor by the United States Treasury check the amount of unpaid principal and interest on the note.

(e) *Responsibilities of the National Office.* The National Office is responsible for negotiating with private buyers for the assignment of notes acquired by the insurance fund or for the account of a State Rural Rehabilitation Corporation under a section 2 (f) agreement.

(Sec. 10 (a) (1)–(3), 68 Stat. 735, secs. 12 (i), 13 (a), 13 (d), 60 Stat. 1077, 1078, sec. 12 (j), 62 Stat. 535, sec. 2 (f), 64 Stat. 99; 16 U. S. C. 590x–3 (1)–(3), 7 U. S. C. 1005b (i), (j), 1005c (a), (d), 40 U. S. C. 440 (f))

§ 375.5 *Assignment of insured note by private holder to private buyer.* (a) Upon receipt of notice from a holder of intention to assign an insured note, the Director, Finance Office, will send any accumulated payments on the loan to the holder and furnish the holder with appropriate information on how to complete the assignment. The Director, Finance Office, also will send the holder a copy of Form FHA–756, "Notice and Acknowledgment of Sale," and a statement of account.

(b) If the Director, Finance Office, receives information that an insured note has already been assigned, he will request the holder to furnish Form FHA–756 completed with respect to information and signatures by the holder and buyer.

(c) Upon receipt of a properly completed Form FHA–756, the Director, Finance Office, will prepare, execute, and date the acknowledgment section of Form FHA–756. He will send a facsimile of the completed Form FHA–756 to the assignee, the assignor, and the County Supervisor, and retain the original.

(d) The Finance Office will transmit payments to the assignee after the date of acknowledgment of Form FHA–756 and will notify the assignor and the assignee of any payments processed to the assignor subsequent to the date of the assignment or the statement of account, whichever is earlier, and prior to the date of the acknowledgment. The Farmers Home Administration will assume no liability for failure to give such notice and for adjustment of these payments between the assignor and the assignee.

(Sec. 10 (a) (1), (2), 68 Stat. 735, secs. 12 (f) (1), 12 (i), 60 Stat. 1077; 16 U. S. C. 590x–3 (a) (1), (2), 7 U. S. C. 1005b (f) (1), (i))

§ 375.6 *Assignment of insured note to the Government—(a) Assignment at the request of the holder.* The following actions will be taken whenever the holder of an insured note requests that the Government accept assignment of the note during the 12-month period following the expiration of a fixed period.

(1) The Director, Finance Office, will inform the holder regarding the procedures to be followed to effect the assignment.

(2) Upon receipt of the endorsed note the Director, Finance Office will:

(i) Acknowledge receipt of the note.

(ii) Process payment to the assignor for an amount equal to the value of the note as of the date of the Treasury check.

(b) *Assignment at the request of the Government.* If the State Director decides that liquidation through voluntary conveyance or foreclosure is necessary, he will request the Director, Finance Office, to require the holder to assign the note to the Government. The procedures for assigning such an insured note will be the same as those prescribed for assignment of an insured note to the Government at request of the holder, except that the Director, Finance Office, will advise the holder that the Government is requiring assignment of the note because the borrower is in default.

(R. S. 3648, sec. 10 (a) (1)–(3), 68 Stat. 735, secs. 12 (c) (7), 13 (d), 60 Stat. 1076, 1078, sec. 12 (j), 62 Stat. 535; 31 U. S. C. 529, 16 U. S. C. 590x–3 (a) (1)–(3), 7 U. S. C. 1005b (c) (7), (j), 1005c (d))

§ 375.7 *Assignment of insured note from insurance fund to a private buyer.* (a) Upon completion of the negotiations for assignment to a private buyer of insured notes held by the insurance fund, the National Office will advise the Director, Finance Office, of:

(1) The name and case number shown on the note(s) to be sold, if known,

(2) The legal name and correct mailing address of the buyer. Also the legal name and mailing address of the recipient if collections are to be remitted to other than the buyer,

(3) The manner and time of delivery of the note,

(4) Agreed upon arrangements for making payments,

(5) The effective date of the sale,

(6) Any other information particularly significant or pertinent to the terms and conditions of the sale.

(b) The Director, Finance Office, will send to the buyer a list of the notes showing each borrower's name and case number and the value of each note as of the effective date of the assignment.

(c) If payment will be made in advance of delivery of the endorsed notes, the Director, Finance Office, will request the buyer to forward a check or draft before the effective date of assignment, drawn to the order of the Farmers Home Administration in the amount of the total value of all the notes. If the buyer is an individual, payment by certified check or cashier's check will be required. Upon receipt of payment, the Director, Finance Office, will:

(1) Endorse the note for assignment and reinsurance.

(2) Execute a supplemental purchase agreement when instructed to do so by the National Office.

(3) Send the note to the purchaser by registered mail, return receipt requested, and request the return of an executed copy of the supplemental purchase agreement, if any.

(d) If the sight draft method is used, the Director, Finance Office, will attach a sight draft to the endorsed notes and send them to the bank designated by the buyer by registered mail, return receipt requested. The buyer will pay the bank's charge for handling the transaction. The remittance must be dated on or before the effective date of assignment.

(e) If the negotiated terms and conditions of the sale provide for delivery and payment by means other than those enumerated above, the Director, Finance Office, will make the necessary arrangements.

(f) If any payment has been processed to the borrower's note account subsequent to the date on which the value of the note was computed and prior to the effective date of the assignment, the Finance Office will process a check to the assignee for the amount of the payment.

(Sec. 10 (a) (2), 68 Stat. 735, sec. 12 (f) (1), 60 Stat. 1077, sec. 12 (j), 62 Stat. 535; 16 U. S. C. 590x–3 (a) (2), 7 U. S. C. 1005b (f) (1), (j))

§ 375.8 *Assignment of an insured Farm Ownership note held by the Farmers Home Administration as trustee for a State Rural Rehabilitation Corporation under a section 2 (f) agreement—(a) Assignment to a private buyer.* Unless otherwise authorized by the Administrator, the steps involved in assigning a Farm Ownership note from the United States as trustee for a State Rural Rehabilitation Corporation to a private buyer are the same as those prescribed in § 375.7 for the assignment of notes from the insurance fund.

(1) The Director, Finance Office, will request the buyer to make the check or draft payable to the "Farmers Home Administration, Trustee of the _____ Rural Rehabilitation Corporation."

(2) Upon receipt of payment from the buyer, the Director, Finance Office, will:

(i) Endorse the promissory note on behalf of the United States as trustee, showing the effective date of the assignment.

(ii) Send the note to the buyer, return receipt requested, with a letter of transmittal listing each note separately and acknowledging the assignment thereof.

(3) If the sight draft method is used, the Director, Finance Office, will attach a sight draft to the endorsed note and forward it to the bank designated by the buyer.

(4) A supplemental purchase will be executed by the Director, Finance Office, when instructed to do so by the National Office.

(b) *Assignment to the insurance fund.* Whenever the State Director determines that liquidation through voluntary conveyance or foreclosure is necessary, he will endorse the note on behalf of the United States as trustee, showing the effective date of the assignment. He also will request the Director, Finance Office, to process payment to the revolving fund of the State Rural Rehabilitation Corporation for the value of the note as of the effective date of the assignment.

(R. S. 3648, secs. 12 (f) (1), (i), 13 (d), 60 Stat. 1077, 1078, sec. 12 (j), 62 Stat. 535, sec. 2 (f), 64 Stat. 99; 31 U. S. C. 529, 7 U. S. C. 1005b (f) (1), (i), (j), 1005c (d), 40 U. S. C. 440 (f))

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 59]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.359 *Valencia Orange Regulation 59—(a) Findings.* (1) Pursuant to Order No. 22 (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on October 20, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., October 23, 1955, and ending at 12:01 a. m., P. s. t., October 30, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300,300 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have

the same meaning as when used in said order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 21, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8614; Filed, Oct. 21, 1955; 11:44 a. m.]

[Grapefruit Reg. 229]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.747 *Grapefruit Regulation 229*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 24, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 24, 1955; the recommendation and supporting information for continued regulation subsequent to October 23, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on October 18; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 24, 1955, and ending at 12:01 a. m., e. s. t., November 7, 1955, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 2;

(ii) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than $3\frac{11}{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Grapefruit (§§ 51.750–790 of this title).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 19, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Orange Reg. 283]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.748 *Orange Regulation 283*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 24, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until October 24, 1955; the recommendation and supporting information for continued regulation subsequent to October 23, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on October 18; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 24, 1955, and ending at 12:01 a. m., e. s. t., November 7, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida,

which are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack, in a standard $1\frac{3}{5}$ bushel nailed box.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "standard pack," and "standard $1\frac{3}{5}$ bushel nailed box" shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1186, of this title, 20 F. R. 7205).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 19, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangerine Reg. 160]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.749 *Tangerine Regulation 160*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than October 24, 1955. The committee held an open meeting on October 18, 1955, to consider recommendations for a regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; information regarding the provisions of the regulation recommended by the committee has been disseminated among shippers of tangerines grown in the State of Florida, and this section, including the effective time thereof, is identical with the recommendation of the committee; it is necessary, in order to effectuate the declared policy of the act, to make this section effective on the date hereinafter set forth so as to provide for the regulation of the handling of tangerines grown in the State of Florida at the start of this marketing season; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., October 24, 1955, and ending at 12:01 a. m., e. s. t., November 7, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions $9\frac{1}{2}$ x $9\frac{1}{2}$ x $19\frac{1}{8}$ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 19, 1955.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Regulation 612]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.719 *Lemon Regulation 612*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on October 19, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., October 23, 1955, and ending at 12:01 a. m., P. s. t., October 30, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 150 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 20, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Revision of Export Regs., Amdt. 42]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

NONFERROUS COMMODITIES, INCLUDING ORES, CONCENTRATES, OR UNREFINED PRODUCTS

In § 373.41 *Nonferrous commodities, including ores, concentrates, or unrefined products*, paragraphs (d) and (e) are amended to read as follows:

(d) *Copper ores, and concentrates, unrefined copper, refined copper, copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots—(1) General.* License applications to export copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100; refined copper in cathodes, billets, ingots, wire bars, and anodes and other crude forms, except copperweld rods, Schedule B No. 641200 (hereinafter referred to as refined copper); copper scrap (new and old), Schedule B No. 641300; copper-base alloy scrap (new and old), Schedule B No. 644000; and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, will be considered for approval in accordance with the procedures described below.

(2) *Refined copper, Schedule B No. 641200.* License applications to export refined copper in cathodes, billets, ingots, wire bars and other crude forms (including anodes) made from domestic origin materials, or Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, will generally be denied. License applications covering the exportations of these refined copper materials made from foreign or commingled domestic and foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, shall include the following:

(i) *Certification of foreign origin or commingled origin.* (*a*) Applications from non-producers of refined copper—Applications from non-producers covering refined copper made from materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots, of foreign or commingled domestic and foreign origin materials shall be accompanied by a letter, addressed to the Bureau of Foreign Commerce, from the producer of the refined copper to the effect that (*1*) the refined copper proposed for export is refined from foreign origin copper other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots; or (*2*) that an equivalent amount of foreign origin materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(*b*) Applications from producers of refined copper—Applications from producers of refined copper made of foreign or commingled (foreign and domestic origin) materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots, shall include the following certification:

I (we) certify that I am (we are) the producer(s) of the refined copper covered by this license application and (1) that this refined copper was produced from foreign origin materials other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, or (2) that an equivalent amount of foreign materials, other than Canadian-origin copper scrap, copper-base alloy scrap, or copper-base alloy ingots and other crude forms including remelt ingots, has been smelted and refined to replace in the domestic market the amount of domestic copper contained in the commingled copper proposed for export.

(ii) *Availability for export.* One of the following certifications shall appear on each license application:

(*a*) Where materials are in possession of applicant the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

I (we) certify that the copper materials described in this license application are in my (our) possession and will be available for export not later than December 31, 1955.

or

(*b*) (*1*) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification from the producer of the materials:

I (we) certify that not later than December 31, 1955, I (we) shall supply to ---------- ----------
(Name of applicant) (Quantity in short tons
short tons of ---------- in
(Type of copper material)
accordance with the terms of contract sale number ----------, dated
(Contract number)

(Date of contract)

(*2*) All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card, Form IT– or FC–116.

(*3*) Applications not accompanied by the evidence of availability required by the provisions of this subparagraph, shall not be approved and should not be submitted.

(iii) *Disclosure of foreign consumer.* The foreign consumer shall be identified on the license application by the use of one of the following applicable statements:

The foreign consumer of the commodities covered by this application is the same as that shown in item 7 on this license application;

or if the foreign consumer is not the same as that shown in item 7:

The name and address of the foreign consumer is ----------

(iv) *Toll or conversion agreements.* Applications covering the exportation of refined copper produced in the United States under toll or conversion agreements from materials received from foreign sources are not subject to any of the above provisions of this paragraph (d). Where the license application covers refined copper produced from toll or conversion agreements, the applicant shall include the following certification on the license application:

I (we) certify that the refined copper described in this license application was produced in the United States under toll or conversion contracts from materials received from foreign sources.

(3) *Copper ores, concentrates, matte, and other unrefined copper, Schedule B No. 640100.* License applications to export copper ores, concentrates, matte, and other unrefined copper of domestic origin or produced from domestic materials generally will be denied. However, where consideration of such applications is requested, the application shall be supported by documentation or other evidence showing any exceptional hardship as well as by the information set forth in subparagraph (2) (ii) and (iii) of this paragraph. With reference to the copper materials included in this paragraph, a foreign smelter, refiner, or processor may be identified as the consumer. License applications covering the exportation of these copper materials of foreign origin or produced from foreign origin material shall include in addition to the information set forth in subparagraph (2) (ii) and (iii) of this paragraph, the following:

(i) *Non-producers.* Applications from non-producers covering the exportation of these materials of foreign origin or commingled foreign and domestic origin (or materials produced from materials of foreign origin or commingled foreign and domestic origin) shall be accompanied by a letter addressed to the BFC from the producer of the copper material to the effect that (*a*) the material proposed for export is of foreign origin or is produced from foreign origin materials; or (*b*) that an equivalent amount of foreign origin material has been imported to replace in the domestic market the amount of domestic copper material contained in the commingled copper materials proposed for export.

(ii) *Producers.* Applications from producers of these copper materials of foreign or commingled foreign and domestic origin (or produced from foreign or commingled foreign and domestic materials) shall include the following certification:

I (we) certify that I am (we are) the producer(s) of the unrefined copper material covered by this license application and that (1) this material was produced from foreign origin material, or (2) that an equivalent amount of foreign material has been imported to replace in the domestic market the amount of domestic copper material contained in the commingled copper material proposed for export.

The provisions of this subparagraph do not apply to exportations of materials included under Schedule B No. 640100 made for purposes of processing abroad where the resultant copper is to be returned to the United States. In such cases, details of the transaction shall accompany the application for an export license.

(4) *Copper scrap, copper-base alloy scrap, and copper-base alloy ingots and other crude forms including remelt ingots.* (i) In order that the Bureau of Foreign Commerce may provide an equitable basis for distributing available export quotas for copper scrap (new and old) containing 40 percent or more copper, Schedule B No. 641300; copper-base alloy scrap (new and old) containing 40 percent or more copper, Schedule B No. 644000; and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, applicants are required to submit to the Bureau of Foreign Commerce a Statement of Past Participation in Exports of these commodities on Form IT– or FC–821 in accordance with the procedure set forth in § 373.4. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the fourth calendar quarter of 1953 and the calendar year 1954, where the total for such exports to all countries for each Schedule B number was $5,000 or over for the five quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "4th quarter 1953" and the heading above items (e) and (f) shall read "calendar year 1954."

(ii) License applications covering copper scrap (new and old) containing less than 40 percent copper, Schedule B No. 641300, or copper-base alloy scrap (new and old) containing any percentage of copper, Schedule B No. 644000, shall include information as to the copper and nickel content of the material.

(5) *Validity period.* Licenses to export all materials covered by this paragraph (d), will be issued for a validity period ending on the last day of the third month following the month during which the license is validated, e. g., a license issued on November 25, 1955, would expire February 29, 1956.

(6) *Amendments to export licenses.* Except for export licenses issued under toll or conversion agreements, no amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure.

(7) *Time for submission of applications.* Applications for licenses to export copper scrap (new and old) containing 40 percent or more copper, Schedule B No. 641300, copper-base alloy scrap (new and old) containing 40 percent or more copper, Schedule B No. 644000, and copper-base alloy ingots and other crude forms including remelt ingots, Schedule B No. 644100, shall be submitted in accordance with the time schedules set forth in Supplement No. 1 to Part 373.

(e) *Aluminum scrap (new and old) and aluminum remelt ingots—(1) General.* License applications to export aluminum scrap (new and old), Schedule B No. 630050 and aluminum remelt ingots, Schedule B No. 630070, will be considered by the Bureau of Foreign Commerce for approval in accordance with the procedure described herein.

(2) *Availability for export.* One of the following certifications shall appear on each license application:

(i) Where materials are in possession of applicant, the applicant shall execute and submit to the Bureau of Foreign Commerce the following certification:

I (we) certify that the aluminum materials described in this license application are in my (our) possession and will be available for export not later than December 31, 1955.

or

(ii) Where materials are not in possession of applicant, the applicant shall submit to the Bureau of Foreign Commerce the following certification from the supplier of the materials:

I (we) certify that not later than December 31, 1955, I (we) shall supply to ----------
(Name of applicant)

(Quantity in short tons)
short tons of ----------
(Type of aluminum material)
in accordance with the terms of contract sale number ---------- dated
(Contract number)

(Date of contract)

All documents evidencing commitment of sale must be kept available for inspection, upon demand, by the Bureau of Foreign Commerce for three years from the date of receipt of the application, as shown on the Acknowledgment Card (Form IT– or FC–116).

(3) *Statement of Past Participation in Exports, Form IT– or FC–821.* Applicants are required to submit to the Bureau of Foreign Commerce for the commodities set forth above a Statement of Past Participation in Exports on Form IT– or FC–821 in accordance with the procedure set forth in § 373.4. A separate report on Form IT– or FC–821 shall be filed for each Schedule B number, broken down by countries of destination, and shall cover the quantity in Schedule B units of exports from the United States made during the second, third and fourth calendar quarters of 1954 and the first calendar quarter of 1955, where the total for such exports to all countries for each Schedule B number was $2,000 or over for the four quarters. In preparing Form IT– or FC–821, the heading above items (c) and (d) shall be changed to read "2nd, 3rd, 4th quarters, 1954", and the heading above items (e) and (f) shall read "1st quarter 1955."

(4) *Unsalable leaded aluminum foil.* Applications for licenses to export leaded aluminum foil scrap for which there is no market in the United States are not subject to subparagraphs (2) and (3) of this paragraph, but shall be supported by evidence of commercial unsalability in the domestic market. This evidence may be in the form of a letter or other statement from the applicant, supplier, or persons to whom the scrap was offered for sale. The evidence must be adequate to demonstrate that the scrap has been offered for sale without success in the normal domestic market at reasonable and competitive prices. It shall include, as a minimum, the names and addresses of the potential users to whom the scrap has been offered, the terms at which it has been offered, and the reason(s) for rejection of offers to sell.

(5) *Aluminum scrap containing 70% or less aluminum* (including drosses, skimmings, slags, ashes, insulated wire and cable, paper-backed and cloth-backed aluminum foil). Applications for licenses to export aluminum scrap containing 70 percent or less aluminum shall specify the weight of the aluminum alloy metal content of the scrap material to be exported.

(6) *Validity period.* Licenses to export the aluminum materials covered by this paragraph (e) will be issued for a validity period ending on the last day of the third month following the month during which the license is validated (e. g., a license issued on October 25, 1955, would expire January 31, 1956. However, no licenses will be approved for a validity period extending beyond January 31, 1956.

(7) *Amendments to export licenses.* No amendments requesting an extension of the validity period of the license will be granted for export licenses issued under this procedure. Where an amendment request involves an action other than an extension of the validity period, it shall be submitted directly to the Bureau of Foreign Commerce.

(8) *Time for submission of applications.* Applications for licenses to export aluminum scrap (new and old), Schedule B No. 630050, and aluminum remelt ingots, Schedule B No. 630070, shall be submitted in accordance with the time schedules set forth in Supplement No. 1 to Part 373.

(9) *Utilization of export quota.* (i) A licensee who determines that the full amount of the quantity of the aluminum materials shown on the export license will not be used during the validity period for which it was issued should promptly submit a request for amendment on Form IT– or FC–763 to reduce the quantity of the aluminum materials licenses to the amount actually intended for export. The amendment procedure set forth in § 380.2 (g) shall be followed in requesting quantity reductions on outstanding licenses.

(ii) Any quantities recovered as a result of this procedure will be considered for licensing in the same quarter in which they were recovered. The return of any unused quantities by an exporter will in no way affect the exporter's entitlement under the historical licensing procedure in future quarters.

This amendment shall become effective as of October 22, 1955.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR,

1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES TO EXPORT CERTAIN POSITIVE LIST COMMODITIES

Section 373.71 *Supplement 1; Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended by adding the words "Before December 1, 1955" in the column headed "Submission Dates, Fourth Quarter, 1955" opposite the following commodities:

Dept. of Commerce Schedule B No.	Commodity
630050	Aluminum scrap (new and old).
630070	Aluminum remelt ingots.
641300	Copper scrap (new and old) containing 40 percent or more copper
644000	Copper-base alloy scrap (new and old containing 40 percent or more copper.
644100	Copper-base alloy ingots and other crude forms.

This amendment shall become effective as of October 22, 1955.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Illinois Commercial Men's Association, Chicago, Ill., Docket 6245, October 4, 1955]

This proceeding was heard by Loren H. Laughlin, hearing examiner, upon the complaint of the Commission—charging respondent corporation with misrepresenting the coverage of its accident insurance policies in advertising disseminated in commerce throughout the United States—and an agreement between counsel for the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of September 23, 1955, pursuant to § 3.21 of the rules of practice, became, on October 4, 1955, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondent, Illinois Commercial Men's Association, a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any accident insurance policy, do forthwith cease and desist from:

(A) Representing, directly or by implication:

(1) That said insurance policy may be continued in effect indefinitely or for any peroid of time, when, in fact, said policy provides that it may be canceled by respondent or terminated under any circumstances over which insured has no control, during the period of time represented.

(2) That said policy provides for indemnification to insured in cases of accident generally or in any or all cases of accident, when such is not the fact.

(3) That said policy provides for the payment of certain benefits in addition to other benefits when such is not the fact.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: September 23, 1955.

By the Commission.

[SEAL] JOHN R. HEIM,
Acting Secretary.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL FOOD BROKERS ASSN. ET AL.

Subpart—*Coercing and intimidating:* § 13.345 *Competitors:* By denying membership in trade association; [1] By threatening disciplinary action or otherwise. Subpart — *Combining or conspiring:* § 13.450 *To limit distribution or dealing to regular, established or acceptable channels or classes.*

[1] New.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National Food Brokers Association (Washington, D. C.) et al., Docket 6363, October 7, 1955]

In the matter of National Food Brokers Association, a voluntary, unincorporated association; Watson Rogers, individually, as President of aforesaid National Food Brokers Association and as a representative of the members of aforesaid National Food Brokers Association; Truman F. Graves, Walter H. Burns, Sr., George E. Dillworth, W. Sloan McCrea, Willis Johnson, Jr., E. Norton Reusswig, and Clarence Wendt, individually, as members of the Executive Committee of aforesaid National Food Brokers Association and as representatives of the members of aforesaid National Food Brokers Association; Roy C. Ossman, Ed. W. Jones, Ralph D. Davies, Jack L. Gentry, Elwin W. Peterson, John O. Crawford, H. Wayne Clarke, A. J. Campbell, Harry L. Wagner, James J. Reilley, T. H. McKnight, Sr., Howard L. Scott, George R. Bennett, and Wilbur R. Orr, individually, as members of the Advisory Committee of aforesaid National Food Brokers Association and as representatives of the members of aforesaid National Food Brokers Association; Truman F. Graves and Winston W. Chambers, copartners doing business under the firm name and style of Graves-Chambers Co., a partnership, Walter H. Burns Company, Inc., a corporation, Jean N. Bistline, Roy M. Bistline and Bessie M. Bistline, copartners doing business under the firm name and style of Bistline Brokerage Company, a partnership, Earl V. Wilson Company, a corporation, Willis Johnson, Jr., and William M. Powell, copartners doing business under the firm name and style of Willis Johnson & Company, a partnership, Harold J. Lestrade, E. Norton Reusswig, Sidney Kahn and Herbert Davies, copartners doing business under the firm name and style of Lestrade Brothers, a partnership, Ed Allison and Clarence Wendt, copartners doing business under the firm name and style of Allison & Wendt, a partnership, The Paul E. Kroehle Co., a corporation, Meinrath Brokerage Co., a corporation, Ralph D. Davies, Inc., a corporation, Jack L. Gentry, doing business under the firm name and style of Jack L. Gentry, a sole proprietorship, Peterson Sales, Inc., a corporation, Calvin H. Baker, John O. Crawford and James Bishop, copartners doing business under the firm name and style of Baker-Crawford-Bishop, a partnership, H. Wayne Clarke and G. Leaman, copartners doing business under the firm name and style of Walter Leaman Company, a partnership, A. J. Campbell, doing business under the firm name and style of A. J. Campbell Company, a sole proprietorship, Carter Wagner Brokerage Company, a corporation, James J. Reilley, doing business under the firm name and style of James J. Reilley & Associates, a sole proprietorship, T. H. McKnight, Sr., T. H. McKnight, Jr., and J. M. McKnight, copartners doing business under the firm name and style of T. H. McKnight & Sons, a partnership, Deming & Gould Company, a corporation, George R. Bennett Company, Inc., a corporation, Wilbur R. Orr, doing business under the firm name and style of W. R. Orr and Company, a sole proprietorship, T. F. Robbins, Jr., and L. D. Greenwood, copartners doing business under the firm name and style of Robbins-Greenwood Company, a partnership, Eldridge Brokerage Company, a corporation, The John G. Paton Co., Inc., a corporation, Rodway Sales Corporation, a corporation, J. P. Wier and J. Neville Wier, copartners doing business under the firm name and style of J. P. Wier Brokerage Company, a partnership, Clarence A. Klag, doing business under the firm name and style of Clarence A. Klag Company, a sole proprietorship, and Kierce & Dillworth, Inc., a corporation, individually, as members of aforesaid National Food Brokers Association and as representatives of the members of aforesaid National Food Brokers Association.

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint of the Commission—which charged a trade association and its 1750 food broker members with conspiring to eliminate competition in their industry—and an agreement between counsel for both parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist which by the Commission's order of October 7, 1955, pursuant to § 3.21 of the rules of practice, became the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondents, National Food Brokers Association, a voluntary, unincorporated association, its officers, Executive Committee, Advisory Committee, agents, employees, representatives, successors, assigns and members, Watson Rogers, individually, as President of respondent association and as representative of the members of respondent association, and his successors in said office; Truman F. Graves, individually, as National Chairman and a member of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in each of said offices; Walter H. Burns, Sr., individually, as First Vice-Chairman and a member of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in each of said offices; George E. Dillworth, individually as Second Vice-Chairman and a member of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in each of said offices; W. Sloan McCrea, individually, as Member at Large of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in said office; Willis Johnson, Jr., individually, as a member of the Executive Committee of respondent association and as a representative of the members of respondent association, and his successors in said office; E. Norton Reusswig, individually, as a member of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in said office; Clarence Wendt, individually, as a member of the Executive Committee of respondent association and as representative of the members of respondent association, and his successors in said office; Roy C. Ossman, Ed. W. Jones, Ralph D. Davies, Jack L. Gentry, John O. Crawford, H. Wayne Clarke, A. J. Campbell, Harry L. Wagner, James J. Reilley, T. H. McKnight, Sr., Howard L. Scott, George R. Bennett and Wilbur R. Orr, individually, as members of the Advisory Committee of respondent association and as representative of the members of respondent association, and their successors on said Advisory Committee; Walter H. Burns Company, Inc., a corporation, Earl V. Wilson Company, a corporation, The Paul E. Kroehle Co., a corporation, Meinrath Brokerage Co., a corporation, Ralph D. Davies, Inc., a corporation, Peterson Sales, Inc., a corporation, Carter Wagner Brokerage Company, a corporation, Deming & Gould Company, a corporation, George R. Bennett Company, Inc., a corporation, Eldridge Brokerage Company, a corporation, The John G. Paton Co., Inc., a corporation, Rodway Sales Corporation, a corporation, and Kierce & Dillworth, Inc., a corporation, and their respective officers, agents, representatives and employees, individually, as members of respondent association and as representative of all of the members of respondent association; Truman F. Graves and Winston W. Chambers, copartners doing business under the firm name and style of Graves-Chambers Co., a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; Jean N. Bistline, Roy M. Bistline and Bessie M. Bistline, copartners doing business under the firm name and style of Bistline Brokerage Company, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; Willis Johnson, Jr., and William M. Powell, copartners doing business under the firm name and style of Willis Johnson & Company, a partnership, each individually, as a member of respondent association and as representative of all the members of respondent association; Calvin H. Baker, John O. Crawford and James Bishop, copartners doing business under the firm name and style of Baker-Crawford-Bishop, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; H. Wayne Clarke and G. Leaman, copartners doing business under the firm name and style of Walter Leaman Company, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; T. H. McKnight, Sr., T. H. McKnight, Jr. and J. M. McKnight, copartners doing business under the firm name and style of T. H. McKnight & Sons, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; T. F. Robbins, Jr., and L. D. Greenwood, copartners doing business under the firm name and style of Robbins-Greenwood Company, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; and J. P. Wier and J. Neville Wier, copartners doing business under the firm name and style of J. P. Wier Brokerage Company, a partnership, each individually, as a member of respondent association and as representative of all of the members of respondent association; Jack L. Gentry, doing business under the firm name and style of Jack L. Gentry, a sole proprietorship, A. J. Campbell, doing business under the firm name and style of A. J. Campbell Company, a sole proprietorship, James J. Reilley, doing business under the firm name and style of James J. Reilley & Associates, a sole proprietorship, Wilbur R. Orr, doing business under the firm name and style of W. R. Orr and Company, a sole proprietorship and Clarence A. Klag Company, a sole proprietorship, individually, as members of respondent association and as representative of all of the members of respondent association, directly or indirectly, or through any corporate or other device, in or in connection with the representing or soliciting the representation of sellers of food or grocery products, or in or in connection with the carrying on of the business of food brokers, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from entering into, continuing, cooperating in or carrying out any agreement, understanding, combination or planned common course of action between two or more of said respondents, or between any one or more of said respondents and another or other persons, partnerships, or corporations not parties hereto, to do, perform, carry out or engage in, either directly or indirectly, or to attempt to do, perform, carry out or engage in, either directly or indirectly, any of the following acts, practices or methods:

1. Refraining from, abstaining from or refusing to solicit the representation, as food brokers, of a seller of food or grocery products when such seller is already represented by a food broker.

2. Compelling, inducing or coercing food brokers to refrain or abstain from soliciting the representation, as food brokers, of a seller of food or grocery products when such seller is already represented by a food broker.

3. Disciplining, reprimanding, suspending or expelling from membership any member of the National Food Brokers Association because such member solicited the representation, as a food broker, of a seller of food or grocery products when such seller was already represented by a food broker.

4. Prohibiting or forbidding the solicitation of representation, as a food broker, of a seller of food or grocery products when such seller is already represented by a food broker.

5. Refusing to endorse applications for membership, declining to elect candidates to membership, or in any manner denying or refusing membership in the National Food Brokers Association, or any similar organization, to any person, partnership or corporation because such person, partnership or corporation solicited the representation, as a food broker, of a seller of food or grocery products when such seller was already represented by a food broker.

6. Engaging in any act or practice, the purpose or effect of which is, directly or indirectly, to further or accomplish any understanding, agreement or combination prohibited herein.

7. Effectuating or attempting to effectuate any act, practice, policy or method, prohibited by any provision or part of this order, through respondent National Food Brokers Association or any other instrumentality, agent, medium or representative.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission.

Issued: October 7, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1066]

IRISH POTATOES

REGULATIONS GOVERNING IMPORTS

Notice is hereby given that the Secretary of Agriculture is giving consideration to the grade, size, quality, and inspection regulations that are to be made applicable to the importation of Irish potatoes into the United States pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable General Regulations (7 CFR Part 1060; 19 F. R. 7707, 8012).

The regulations under consideration are to apply to all imports of Irish potatoes on the same basis as regulations imposed upon handlers of (1) round white or red skin varieties of Irish potatoes grown in the State of Maine pursuant to regulations issued under Marketing Agreement No. 122 and Order No. 70 (§ 970.302; 20 F. R. 6500, 6815), and (2) long varieties of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon pursuant to regulations issued under Marketing Agreement No. 98 and Order No. 57, as amended (§ 957.313; 20 F. R. 4794, 5807, 6075, 6729, 7325).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 10 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 1066.7 *Potato Regulation No. 2.* (a) During the period from November 14, 1955, to June 30, 1956, both dates inclusive, and subject to the general regulations (Part 1060 of this chapter; 19 F. R. 7707, 8012) applicable to the importation of listed commodities and the requirements of this section, no person shall import any Irish potatoes of any variety, other than certified seed potatoes, unless at least 90 percent of such potatoes are "fairly clean" and (1) if they are of the round white or red skin varieties such potatoes meet the requirements of the U. S. No. 1 or better grade, 2¼ inches minimum diameter and 4 inches maximum diameter, and (2) if they are of the long white varieties (including, but not limited to, Russet Burbank variety) such potatoes meet the requirements of the U. S. No. 2 or better grade, Size A, 5 ounces minimum weight, except that potatoes not less than 2 inches minimum diameter or 4 ounces minimum weight, Size A, may be imported if they meet the requirements of the U. S. No. 1 grade.

(b) Minimum quantities: Any importation which, in the aggregate, does not exceed 500 pounds, may be imported without regard to the provisions of paragraph (a) of this section.

(c) Plant quarantine: No provisions of this section shall supersede the restrictions or prohibitions of potatoes under the Plant Quarantine Act of 1912.

(d) Certified seed imports: Any person may import certified seed potatoes, which shall include only those potatoes which are officially certified and tagged as seed potatoes by the Plant Protection Division, Science Service, Canada Department of Agriculture.

(e) Offshore imports: During the period November 14, 1955, to June 30, 1956, both dates inclusive, and subject to the aforesaid general regulations, Irish potatoes of the round white or red skin varieties, may be imported into Puerto Rico, Hawaii, or Alaska if they meet the requirements of the U. S. No. 1 or better grade, 1⅞ inches minimum diameter.

(f) Designation of Governmental Inspection Service: The Fruit and Vegetable Inspection Services, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, is hereby designated, pursuant to § 1060.4 (a) of this chapter, as a governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of Irish potatoes that are imported, or to be imported, from Canada into the United States under the provisions of section 8e of the act.

(g) Inspection and official inspection certificates: (1) Inspection by the Federal or Federal-State Inspection Service, by the Fruit and Vegetable Inspection Services, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, or by such other governmental inspection service as may be designated, or approved, by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate issued by the respective service and applicable to a particular shipment of potatoes, is required on all imports of potatoes, other than certified seed, pursuant to § 1060.3 *Eligible imports* of this chapter.

(2) Inspection certificates shall cover only the quantity of potatoes that is being imported at a particular port of entry by a particular importer.

(3) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of any inspection and certification shall be borne by the applicant therefor.

(4) Each inspection certificate issued with respect to any potatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The name of the importer (consignee);

(iv) The commodity inspected;

(v) The quantity of the commodity covered by the certificate;

(vi) The principal identifying marks on the containers;

(vii) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(viii) The following statement, if the facts warrant: Meets U. S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(h) Findings and determinations with respect to imports of Irish Potatoes: (1) Pursuant to section 8e of the Agricultural Adjustment Act of 1933, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq., 68 Stat. 906, 907, 1047), it is hereby found and determined that during the effective time hereof (i) imports of Irish potatoes of the long varieties are in most direct competition with such varieties of Irish potatoes which are grown in the production area defined in Order No. 57 (Part 957 of this chapter; designated counties in Idaho and Malheur County, Oregon) and (ii) imports of Irish potatoes of the round white or red skin varieties are in most direct competition with such varieties of Irish potatoes which are grown in the production area defined in Order No. 70 (Part 970 of this chapter; the State of Maine).

(2) It is hereby determined that the grade, size, and quality regulations hereby established for the respective varieties of Irish potatoes that may be imported into the United States are equivalent or comparable to those imposed upon domestic Irish potatoes under the aforesaid marketing orders.

(i) Definitions: (1) The terms "U. S. No. 1," "U. S. No. 2", "fairly clean", and "Size A," mean the U. S. No. 1 grade, the U. S. No. 2 grade, fairly clean, and Size A, respectively, as set forth in the United States Standards for Potatoes (§§ 51.1540 to 51.1559, inclusive of this title), including the tolerances set forth therein. For the purposes of this regulation, the following United States Potato Standards and Canadian potato standards are determined to be equivalent; U. S. No. 1 grade and Canada No. 1 grade; U. S. No. 2 grade and Canada No. 2 grade except that the tolerances for size, as set forth in the said United States Standards, may be used.

(2) All other terms have the same meaning as when used in the general regulations (Part 1060 of this chapter; 19 F. R. 7707; 8012) applicable to the importation of listed commodities.

Done at Washington, D. C., this 18th day of October 1955.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division.*

[7 CFR Part 903]

[Docket No. AO 10-A19]

HANDLING OF MILK IN THE ST. LOUIS, MISSOURI, MARKETING AREA

HEARING ON PROPOSED AMENDMENTS TO THE TENTATIVE MARKETING AGREEMENT AND TO THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) notice is hereby given of a public hearing to be held in the Melbourne Hotel, Grand and Lindell Streets, beginning at 10:00 a. m., e. s. t., October 25, 1955, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Evidence will be received at this hearing with respect to any modification of the provisions of § 903.51 (a) which determine the price for Class I milk. With respect to such provisions the following amendments have been proposed:

By Sanitary Milk Producers:

1. Amend § 903.51 (a) to read as follows:

(1) Add the amount shown for the appropriate month:

January	$1.40	July	$1.40
February	1.40	August	1.40
March	1.40	September	1.70
April	.90	October	1.70
May	.90	November	1.70
June	.90	December	1.40

By Square Deal Milk Producers Association and Cooperative Milk Producers of Missouri:

2. To amend § 903.51 (a) (1), Class I premiums, by increasing 45 cents per hundredweight of milk for each delivery period or for every month with the exception of April, May and June. These three months should be increased 20 cents.

By Dairy Division, Agricultural Marketing Service:

3. Make such other changes as may be required to make the entire order conform with any amendment thereto which may result from this hearing.

Copies of this notice of hearing and of the order now in effect may be procured from the market administrator, 4030 Chouteau Avenue, St. Louis 10, Missouri, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: October 19, 1955.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF 3-(3,4-DICHLOROPHENYL)-1,1-DIMETHYLUREA

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued.

A petition has been filed by E. I. du Pont de Nemours and Company, Inc., Wilmington, Delaware, proposing the establishment of a tolerance of 2 parts per million for residues of 3-(3,4-dichlorophenyl)-1,1-dimethylurea in or on the raw agricultural commodities alfalfa and grass crops (grass hay).

The petition proposes that residues of 3-(3,4-dichlorophenyl)-1,1-dimethylurea be determined by the method described in "Determination of 3-(*p*-chlorophenyl)-1,1-dimethylurea in Soils and Plant Tissues," by W. E. Bleidner, H. M. Baker, Michael Levitsky, and W. K. Lowen, published in Journal of Agricultural and Food Chemistry, Vol. 2, pages 476–479, April 28, 1954, with the following modifications:

1. For calibration, 3,4-dichloroaniline is used in place of *p*-chloroaniline.

2. Hexane is the recommended solvent.

3. Under calibration, page 477, following the dilution of the aliquot to 40 milliliters with 1.0*N* HCl, 5 milliliters of glacial acetic acid is added. The sodium nitrite is then added and the color development completed as described. Fifteen minutes after the addition of the *N*-(1-naphthyl)-ethylenediamine dihydrochloride, the intensity of the color is determined at approximately 560 millimicrons with a filter photometer.

4. Under determination, page 479, following placement of the aliquot into a 50-milliliter volumetric flask, the aliquot is diluted to 40 milliliters with 1.0 *N* HCl and 5 milliliters glacial acetic acid is added. The color is then developed and read as before.

5. In the equation on page 479, the factor should be changed from 1.56 to 1.44.

Dated: October 17, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

EXCHANGE DISTRIBUTION PLANS OF THE AMERICAN STOCK EXCHANGE, AND THE MIDWEST STOCK EXCHANGE

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to declare effective amended Exchange Distribution Plans filed by the American Stock Exchange and Midwest Stock Exchange which permit specialist-odd-lot dealers to participate in such Plans under certain conditions. The Commission's action would be taken pursuant to the provisions of sections 10 (b) and 23 (a) of the Securities Exchange Act of 1934 and § 240.10b-2 (d) (Rule X-10b-2 (d)) thereunder.

The Commission's Rule X-10B-2, which implements the anti-manipulative provisions of the Securities Exchange Act of 1934, in substance prohibits any person engaged in distributing a security from paying any other person for soliciting or inducing a third person to buy the security on an exchange. Paragraph (d) of the rule provides that the rule shall not apply to any transaction effected in accordance with the provisions of a plan filed with the Commission by a national securities exchange and declared effective by the Commission, provided that the person paying such compensation does not know or have reasonable grounds to believe that transactions connected with such distribution are being carried out in violation of the plan.

The Exchange Distribution Plans of the American and Midwest exchanges now in effect authorize the exchange to grant approval to members to make a distribution of a block of securities "at the market" on the exchange when the regular market on the exchange cannot otherwise absorb the block of securities within a reasonable time and at a reasonable price or prices. The Plans contain certain anti-manipulative controls and require participating members to make certain disclosures to persons solicited to buy the securities being distributed.

The American and Midwest exchanges have requested the Commission to declare effective amended Exchange Distribution Plans which would permit a specialist-odd-lot dealer to make a distribution thereunder when he has been unable to dispose of the block of securities within a reasonable period in the ordinary course of his dealings as a specialist-odd-lot dealer. The amended Plans contain certain additional anti-manipulative controls restricting the price at which the specialist-odd-lot dealer may effect round-lot purchases of the security for his own account during the course of the distribution. This restriction should not affect the performance of his functions as an odd-lot dealer. The amended Plans also prohibit the specialist-odd-lot dealer from dealing directly with the public in effecting any such distribution; he would be required to make an arrangement with one or more other members to effect the distribution on his behalf. It has been suggested that the amended Plans should help specialist-odd-lot dealers to maintain fair and orderly markets in the securities in which they act as specialists since they would be more willing to take larger amounts of stock, either in the ordinary performance of their dealer functions on the exchange or by purchasing blocks off the floor, because there will be available to them a facility for the distribution of the stock in the event that they are unable to sell such stock within a reasonable time in the ordinary course of their business as specialist-odd-lot dealers.

The Commission proposes to declare the amended Exchange Distribution Plans of the American and Midwest exchanges effective for a limited experimental period on the condition that if at any time it appears to the Commission necessary or appropriate in the public interest or for the protection of investors to suspend or terminate the effectiveness of either of the Plans the Commission may do so by sending at least 10 days written notice to the exchange. This condition would be imposed pursuant to the provisions of paragraph (d) (2) of the Commission's Rule X-10B-2.

The text of the amended Exchange Distribution Plan of the American Stock Exchange is set out below. The amended Exchange Distribution Plan of the Midwest Stock Exchange is substantially the same.

Rule 570. To effect an "Exchange Distribution" of a block of a security dealt in on the Exchange, a member, member firm or member corporation, for his or its own account, or the account of a customer, may

(A) Make an arrangement with one or more other members, member firms or member corporations under which

(1) The members, member firms or member corporations with whom the arrangement is made solicit others to purchase such security; and

(2) The selling member, member firm or member corporation pays to the members, member firms or member corporations with whom the arrangement is made a special commission which is mutually agreeable but not lower than the applicable commission prescribed in Article VI of the Constitution; and

(3) The members, member firms or member corporations with whom the arrangement is made may pay a special commission to their registered employees; and/or

(B) Pay a special commission to his or its registered employees for soliciting others to purchase such security.

An "Exchange Distribution" may be made only with the prior approval of the Exchange (given after consulting and with the concurrence of a Governor who is active on the Floor of the Exchange). Such a distribution shall not be approved unless the Exchange shall have determined that the regular market on the Floor of the Exchange cannot, within a reasonable time and at a reasonable price or prices, otherwise absorb the block of securities which is to be the subject of the "Exchange Distribution". In making such determination the following factors may be taken into consideration, viz.:

(a) Price range and the volume of transactions in the security on the Floor of the Exchange during the preceding month;

(b) Attempts which have been made to dispose of the security on the Floor of the Exchange;

(c) The existing condition of the specialist's book and Floor quotations with respect to the security;

(d) The apparent past and current interest in the security on the Floor; and

(e) The number of shares or bonds and the current market value of the block of the security proposed to be covered by the "Exchange Distribution".

No "Exchange Distribution" shall be made unless each of the following conditions is complied with:

(1) The person for whose account the Distribution is to be made shall, at the time of the Distribution, be the owner of the entire block of the security to be so distributed.

(2) The person for whose account the Distribution is to be made shall include within the Distribution all of the security which he then intends to offer within a reasonable time, and there shall be furnished to the Exchange before the Distribution is made a written statement by the offeror to that effect or a written statement by his broker stating that the broker has been so advised by the offeror.

(3) The person for whose account the Distribution is made shall agree that, during the period the Distribution is being made, he will not bid for or purchase any of the security for any account in which he has a direct or indirect interest.

(4) The members, member firms and member corporations who are parties to the arrangement for the Distribution shall not, during the period the Distribution is being made, bid for or purchase any of the security for an account in which they have a direct or indirect interest.

(5) No member shall be granted approval to effect an "Exchange Distribution" of a block of a security for an account in which he has a direct or indirect interest, if he is registered as a specialist-odd-lot dealer in such security, unless the Exchange has determined that such member has been unable, within a reasonable period of time, to dispose of the block of security in the ordinary course of his dealings as a specialist-odd-lot dealer. Such approval shall stipulate that the specialist-odd-lot dealer may not deal directly with the public but must make an arrangement with one or more other members, member firms or member corporations to solicit others to purchase the security, and pay a special commission to such other members, member firms and member corporations as provided for under paragraph (A) of this rule.

(6) Each member, member firm or member corporation soliciting purchase orders for execution in the Distribution shall advise the person so solicited, before effecting any transaction for such person pursuant thereto, that the securities being offered are part of a specified number of shares or bonds being offered in an "Exchange Distribution" and that he or it

(a) Is acting for the seller and will receive a special commission from the seller or his broker, or is acting as a principal; and

(b) Is charging the buying customer the regular commission, the equivalent of the regular commission, or is making the sale at a net amount, whichever the case may be.

(7) No short sale may be made in connection with the Distribution, except that securities may be borrowed to make delivery where the person owns the securities sold and intends to deliver such securities as soon as possible without undue inconvenience or expense.

The conditions set forth in (2), (3) and (4) above shall not apply.

(A) To transactions effected on the Exchange, for the purpose of maintaining a fair and orderly market, by a member in a security in which he is registered as a specialist-odd-lot dealer and which is the subject of an Exchange Distribution for an account in which he has an interest, except that, while such Distribution is in effect, he shall not bid for or purchase such stock on the Exchange for an account in which he has an interest:

(a) At a price above the preceding sale (i. e., A "plus" tick) or

(b) At a price above the next preceding different sale price (i. e., a "zero plus" tick); or

(B) To transactions effected by a member on the Exchange in less than the unit of trading for the purpose of purchasing odd-lots offered to him in a security in which he is registered as specialist-odd-lot dealer and which is the subject of an Exchange Distribution in which he has an interest.

The conditions set forth in (3) and (4) above shall not apply to purchases necessitated solely in connection with the crossing of orders pursuant to the Distribution.

In effecting an "Exchange Distribution" the orders for the purchase of the securities being distributed must be sent to the Floor together with an order to sell an equal amount to be crossed in accordance with the rules applicable to the crossing of orders on the Floor, and such transactions shall be printed on the ticker tape.

The member, member firm or member corporation selling securities in an "Exchange Distribution" shall report to the Exchange all transactions in such securities effected by him or it for any account in which the seller had a direct or indirect interest, commencing with the time arrangements for the Distribution were made and ending with the time the Distribution was completed.

All interested persons are invited to submit views and comments on the above proposal in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before October 26, 1955. Views and comments will be available for public inspection unless in any case a person requests that his comments not be made public.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[Docket No. G-9119]

TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 17, 1955.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern), Applicant, a Delaware corporation whose address is Shreveport, Louisiana, filed on July 11, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to permit Arkansas-Missouri Power Company (Arkansas-Missouri) to convert its purchase contract from service under Applicant's DCQ Rate Schedule to service under Applicant's GS Rate Schedule subject to the jurisdiction of the Commission all as more fully represented in the application which is on file with the Commission and open for public inspection.

The general terms and conditions of Applicant's FPC Gas tariff permit such conversion upon Applicant's consent which has been given.

The effect of this conversion will be to increase the volumes of gas available to Arkansas-Missouri on a peak day from 6,434 Mcf to 8,698 Mcf at 14.23 p. s. i. a. The annual quantity of gas available to Arkansas-Missouri will not be increased under this conversion in accordance with the general terms and conditions pertaining to conversion from DCQ to GS Rate Schedules.

Applicant further desires to consolidate the purchase contracts of Arkansas-Missouri and Associated Natural Gas Company (Associated) into one service agreement with these two companies as joint buyers, as requested by said companies.

Arkansas-Missouri has purchased all the outstanding common stock of Associated. Through the consolidation of the purchase contracts Applicant seeks authorization to sell and deliver to Arkansas-Missouri and Associated, as joint buyers, a maximum of 15,183 Mcf at 14.73 p. s. i. a. per day in accordance with Applicant's GS-B Rate Schedule, instead of delivering these volumes previously authorized by the Commission to be delivered separately.

This change will not affect the overall total volume of gas that Applicant is obligated to deliver to Arkansas-Missouri and Associated.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 10, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 1, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-966]

CRUM & FORSTER SECURITIES CORP. AND CRUM AND FORSTER

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES INCIDENT TO MERGER

OCTOBER 18, 1955.

Notice is hereby given that Crum and Forster and its subsidiary, Crum & Forster Securities Corporation ("Securities Corporation"), a registered investment company, have filed a joint application pursuant to sections 17 (b) and 8 (f) of the Investment Company Act of 1940 ("act") for an order exempting certain transactions pursuant to a merger of said companies from the provisions of section 17 (a) of the act, and for an order declaring that, upon such merger becoming effective, Securities Corporation has ceased to be an investment company.

It is proposed that Securities Corporation be merged and consolidated with and into Crum and Forster. The following representations are made:

Securities Corporation, a closed-end non-diversified investment company, has investments almost entirely in stocks of multiple-line insurance companies. Its total assets as of June 30, 1955, were $28,414,900. Crum and Forster is engaged in the underwriting management of multiple-line insurance companies, equity securities of which are owned by it and by Securities Corporation. The total assets of Crum and Forster as of June 30, 1955, were $111,193,157.

Neither corporation has any funded or current debt for borrowed money. Crum and Forster, a New York Corporation, has outstanding 81,300 shares of 8 percent non-voting cumulative preferred stock, $100 par value, and 778,683 shares of voting common stock, $10 par value. Securities Corporation, a Delaware Corporation, has outstanding 25,000 shares of voting Class A common stock and 232,086 of non-voting Class B common stock. Such shares have equal rights except as to votes. Under the laws of New York and Delaware, all stockholders, regardless of class, of each corporation are entitled to notice of and to vote at the respective special meetings, at which the merger will be proposed.

As of September 30, 1955, Crum and Forster owned all of the 25,000 issued and outstanding shares of voting Class A common stock of Securities Corporation and 197,982 of the 232,086 issued and outstanding shares of non-voting Class B common stock of Securities Corporation, the shares thus owned by Crum and Forster constituting 86.7 percent of the total number of outstanding shares of common stock of Securities Corporation.

Under the terms of the proposed merger and consolidation, shareholdings of Crum and Forster stock will remain undisturbed. The 25,000 shares of Class A common stock and 197,982 shares of Class B common stock of Securities Corporation owned by Crum and Forster will be canceled and no shares issued therefor. Each of the 34,104 remaining outstanding shares of the Class B common stock of Securities Corporation will be converted into 1.4 shares of common stock of Crum and Forster.

It is stated that a comparison of the market prices, net income and dividends per share of common stock, and net asset values of the shares of the two corporations, indicates that the conversion ratio is both reasonable and fair to the holders of the Class B common stock of Securities Corporation. There has been no marked difference between the market prices of the common stock of Crum and Forster and of the Class B common stock of Securities Corporation during the past two years. During the three years and six months ended June 30, 1955, the earnings per share of common stock of Crum and Forster aggregated $7.57 and the earnings per share of Class B common stock of Securities Corporation aggregated $8.61. During the same period dividends declared on the common stock of Crum and Forster aggregated $5.90 per share and the dividends declared on the Class B common stock of Securities Corporation aggregated $8.00 per share. If the Class B common stock of Securities Corporation had been converted prior to this period at the proposed conversion ratio, the holders thereof would have received dividends of 1.4×$5.90 or $8.26 per share. The net asset value per share as of June 30, 1955, of the outstanding common stock of Crum and Forster was $106.52 and of the Class B common stock of Securities Corporation was $110.35, and the net asset value per share on a pro forma basis as of June 30, 1955, of the 826,429 shares of common stock of the surviving corporation, which would have been outstanding if the proposed merger and consolidation had been consummated as of such date, would have been $104.93. Since one share of Class B common stock of Securities Corporation would be convertible into 1.4 shares of the surviving corporation's common stock, the June 30, 1955, net asset value of such share as so converted would be 1.4×$104.93 or $146.90. Such conversion ratio also takes into account the fact that Securities Corporation has no preferred stock outstanding whereas the common stock of Crum and Forster is subordinate to the outstanding preferred stock of Crum and Forster. The effect of the proposed conversion on the earnings, dividends and net asset value per share of common stock of Crum and Forster would not be significant.

The boards of directors of both corporations consider the proposed merger and consolidation to be in the best interest of, and advantageous to, the stockholders of both corporations. For the Securities Corporation's stockholders it will mean ownership of readily marketable shares in a larger and more diversified enterprise. For the Crum and Forster stockholders it will mean direct ownership by Crum and Forster of the assets of Securities Corporation with a consequently simpler corporate structure, resulting in reduced cost of operation as well as certain state franchise and other tax savings.

The proposed merger and consolidation is stated to be consistent with Securities Corporation's statement of policy as set forth in its registration statement. The application recites that Crum and Forster is principally an operating company engaged in the underwriting management of multiple line insurance companies, substantial amounts of equity securities of which are owned by it. Crum and Forster, as the surviving corporation after the merger and consolidation, will not be an investment company as defined in section 3 (a) of the act, since (i) it is not engaged primarily, does not hold itself out as being engaged primarily, and does not propose to engage primarily, in the business of investing, reinvesting or trading in securities, (ii) it has not engaged and does not propose to engage in the business of issuing face amount certificates of the installment type, and (iii) on the basis of the combined pro forma balance sheet as of June 30, 1955, of the Securities Corporation and Crum and Forster included in the Proxy Statements filed as exhibits hereto, it will have less than 21.5 percent of its total assets, less cash and government securities, invested in investment securities as defined in section 3 (a) (3) of the act.

Generally speaking, section 17 (a) of the act prohibits an affiliated person of a registered investment company or any affiliated person of such a person, from selling to, or purchasing from such registered investment company or any company controlled by such registered investment company, any securities or property, subject to certain exceptions not here pertinent. The Commission upon application pursuant to section 17 (b) may grant an exemption from the provisions of section 17 (a) if it finds that the terms of the proposed transactions, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act and is consistent with the general purposes of the act. Since Crum and Forster and Securities Corporation are affiliates, the proposed merger is subject to the provisions of section 17 (a) of the act.

Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and that upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than October 31, 1955, at 12:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the act.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 55-8541; Filed, Oct. 21, 1955; 8:47 a. m.]

[File No. 812-959]

AMERICAN RESEARCH AND DEVELOPMENT CORP.

NOTICE OF FILING FOR ORDER GRANTING EXEMPTION

OCTOBER 18, 1955.

Notice is hereby given that American Research and Development Corporation ("Applicant"), a registered investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 17 (a) of the act the transactions described below.

Applicant is a Massachusetts corporation with its principal place of business at 200 Berkeley Street, Boston, Massachusetts. Pursuant to an arrangement with John F. Rockett, Jr. ("Rockett"), in October 1953 Applicant caused to be incorporated under Massachusetts law Product Development Corporation ("Product"), whose principal business was to function as a conduit between inventors and business concerns through which inventors' developments and ideas could be brought to the attention of interested business concerns under con-

tract arrangements satisfactory both to the inventor and to the business concern interested in his development or idea.

Research invested a total of $10,000 in Product through (i) the purchase on October 28, 1953, of all of Product's authorized capital stock (1,000 shares) for $1,000 and (ii) a loan to Product of $9,000 evidenced by a 5 percent five-year promissory note of Product dated November 6, 1953, and payable November 6, 1958. At about the same time, Research and Rockett entered into an agreement pursuant to which (i) Product employed Rockett as its principal executive officer and (ii) Research, in consideration of Rockett's entering into such employment contract, transferred to Rockett, for no additional consideration, 200 shares of the common stock of Product (leaving Research with 800 shares of Product) and made the $9,000 loan to Product. Rockett thereupon was elected a Director and President of Product.

The operations of Product have not been profitable. During the current year 1955 Rockett began negotiations with Research looking toward a transfer of control of Product to Rockett. This culminated in a proposal by Rockett to Research which was subsequently embodied in a written agreement dated August 26, 1955, between Research, Product and Rockett. Pursuant to this agreement Research transferred to Rockett (i) the 800 shares of common stock of Product held by Research for $4,800 in cash and (ii) the five-year promissory note of Product held by Research for $9,000 in cash, plus accrued interest. In addition, it was agreed that Product would pay to Research quarterly (a) 20 percent of all royalty income received by Product with respect to certain products referred to in such agreement and (b) 10 percent of all royalty income received by Product with respect to certain other products referred to in such agreement until the sum of such 20 percent and 10 percent payments to Research totalled $250,000.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company, or an affiliated person of such a person, from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions not pertinent here. The Commission upon application may grant an exemption from the provisions of section 17 (a), if it finds that the terms of the transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act. Since Rockett is an affiliated person of Product, which in turn is an affiliated person of Research, a registered investment company, the above mentioned transaction comes within the prohibitions of section 17 (a) of the act, unless exempted by order of the Commission.

Section 6 (c) of the act authorized the Commission by order upon application conditionally or unconditionally to exempt any transaction from any provisions of the act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

It is Applicant's belief that the terms of the transaction described above are reasonable and fair and involve no overreaching and that an exemption would be appropriate in the public interest and consistent with the protection of investors and the purposes intended by the policy and provisions of the Investment Company Act.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than November 2, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 19, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31203: *Scrap iron or steel—Columbus, Ga., to Anniston, Ala.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on scrap iron or steel, carloads from Columbus, Ga., to Anniston, Ala.

Grounds for relief: Circuitous routes.

Tariff: Supplement 85 to Agent Spaninger's I. C. C. 1329.

FSA No. 31204: *Aluminum billets—Northern points to South.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on aluminum billets, blooms, ingots, pigs, or slabs, straight or mixed carloads from specified points in Indiana, Maryland, Michigan, New York, Ohio, and Pennsylvania to specified points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 88 to C. W. Boin's tariff I. C. C. A-968 and two other tariffs.

FSA No. 31205: *Petroleum coke—Lima, Ohio, to Norton, Ala.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on petroleum coke, carloads from Lima, Ohio, to Norton, Ala.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 4 to Agent Hinsch's I. C. C. 4664.

FSA No. 31206: *Anhydrous ammonia—Houston, Tex., to Memphis, Tenn.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tank-car loads from Houston, Tex., to Memphis, Tenn.

Grounds for relief: Competition of water carriers and circuity.

Tariff: Supplement 94 to Agent Kratzmeir's I. C. C. 4112.

FSA No. 31208: *Rugs and carpets—Greenville, Miss., to eastern points.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on rugs and carpets, carloads from Greenville, Miss., to New Brunswick, N. J., Philadelphia, Pa., Columbus, Ohio, and Yantic-Fitchville, Conn.

Grounds for relief: Truck competition and circuitous routes.

Tariff: Supplement 160 to Agent Spaninger's I. C. C. 1351; supplement 145 to Agent Spaninger's I. C. C. 1324.

FSA No. 31209: *Gypsum rock—Indiana points to Alabama and Louisiana.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on gypsum rock, carloads from East Shoals and Willow Valley, Ind., to specified points in Alabama, and Baton Rouge, La.

Grounds for relief: Additional circuitous routes.

Tariff: Supplement 86 to Agent Hinsch's I. C. C. 4367; Supplement 4 to Agent Hinsch's I. C. C. 4664.

FSA No. 31210: *Liquefied petroleum gas, to La Grange, Ind.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on liquefied petroleum gas, tankcar loads from specified points in Kansas, Missouri and Texas to La Grange, Ind.

Grounds for relief: To maintain destination rate relations and circuity.

Tariff: Supplement 33 to Agent Kratzmeir's I. C. C. 4150.

FSA No. 31211: *Zircon ore—Louisiana and Texas to Oklahoma City, Okla.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on zircon ore (crude zircon silicate), carloads from specified points in Louisiana and Texas (import), to Oklahoma City, Okla.

Grounds for relief: Circuitous routes.

Tariff: Supplement 125 to Agent Kratzmeir's I. C. C. 3781.

FSA No. 31212: *Forest products—Norfolk, Va., to North Carolina.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on lumber and logs of foreign woods, veneer and dimension stock of foreign woods and built-up woods, wholly or in part of foreign woods, carloads, domestic and import, from Norfolk, Va., to Denton, High Point, Lexington, Mount Airy, Rural Hall, and Winston-Salem, N. C.

Grounds for relief: Circuitous routes.

Tariff: Supplement No. 38 to Agent C. A. Spaninger's I. C. C. 1356; Supplement No. 106 to Agent C. A. Spaninger's I. C. C. 1369.

FSA No. 31213: *Motor-rail rates in the East—Substituted service.* Filed jointly by The New York, New Haven and Hartford Railroad Company and the Seaboard General Expressways, Inc., and on behalf of other common carriers by motor vehicle. Rates on General commodities, loaded in semi-motor vehicle trailers, and empty trailers, loaded on railroad flat cars between Harlem River, N. Y., on the one hand, and Boston, and Springfield, Mass., New Haven, Conn., and Providence, R. I., on the other.

Grounds for relief: Competition with motor truck carriers on substituted rail for motor transportation.

FSA No. 31214: *Lime-Sallisaw, Okla., Sequiota and Springfield, Mo.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on lime (calcium), carloads from Sallisaw, Okla., Sequiota and Springfield, Mo., to Pryor, Okla.

Grounds for relief: Truck competition and circuity.

Tariff: Supplement 21 to Agent Kratzmeir's I. C. C. 4021.

AGGREGATE-OF-INTERMEDIATES

FSA No. 31207: *Anhydrous ammonia—Houston, Tex., to Memphis, Tenn.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on anhydrous ammonia, tank-car loads from Houston, Tex., to Memphis, Tenn.

Grounds for relief: Maintenance of proposed rates without requiring their use as factors in constructing combination rates lower than present through one-factor rates from or to points beyond the considered points.

Tariff: Supplement 94 to Agent Kratzmeir's I. C. C. 4112.

By the Commission.

TITLE 3—THE PRESIDENT

PROCLAMATION 3120

NATIONAL DAY OF PRAYER, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS all of those whom we have revered as leaders throughout our history have been wont to turn to Almighty God in thanks for His providence and in suppliance for His guidance; and

WHEREAS it is fitting that we of this generation, who are the heirs of their handiwork, should emulate those inspired builders of our Nation and should turn our hearts and minds to things spiritual; and

WHEREAS, recognizing that prayer has been a vital force in the growth and development of our country, the Congress, by a joint resolution approved on April 17, 1952, provided that the President should set aside and proclaim a suitable day each year, other than a Sunday, as a National Day of Prayer, on which the people of the United States might turn to God in prayer and meditation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim Wednesday, the twenty-sixth day of October, 1955, as a National Day of Prayer; and I ask each of our people on that day wherever he may be—at church, home, factory, or office—to pray particularly for God's blessing upon the councils of those who labor for increased international understanding, and upon the efforts of all men who strive for a just and lasting peace.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this eighteenth day of October in the year of our Lord nineteen hundred [SEAL] and fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 2, Corn]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP CORN LOAN AND PURCHASE AGREEMENT PROGRAM

The 1955 C. C. C. Grain Price Support Bulletin 1 (20 F. R. 3017 and 4563), issued by the Commodity Credit Corporation and Commodity Stabilization Service and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1955 was supplemented by 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Corn (20 F. R. 4104 and 7413), containing specific requirements applicable to price support operations on the 1955 corn crop. These regulations are further supplemented as follows:

§ 421.1146 *Support rates*—(a) *County support rates.* (1) Basic county support rates for corn placed under loan and for corn delivered under purchase

(b) *Premiums and discounts*—(1) *Farm storage.* In the case of eligible corn delivered from farm storage under purchase agreements and in the case of farm-storage loans, the applicable premiums and discounts shown in the "Schedule of Premiums and Discounts," in this paragraph, except for eligible corn under loan grading "mixed," shall be applied to the basic rate at the time of settlement. In the case of eligible corn, grading "mixed," placed under a farm-storage loan, the discount shall be applied to the basic rate at the time the loan is completed.

(2) *Warehouse storage.* In the case of warehouse-storage loans, the applicable premiums and discounts for eligible corn shown in the "Schedule of Premiums and Discounts" in this paragraph shall be applied to the basic support rate at the time the loan is completed. In the case of eligible corn represented by warehouse receipts tendered to CCC under a purchase agreement, the applicable premiums and discounts shall be applied to the basic support rate at the time of settlement. The discounts for weevily and for moisture content are not applicable since corn in approved warehouse storage which grades weevily or contains in excess of 13.5 percent moisture is not eligible.

(3) *Schedule of premiums and discounts.*

Issued this 18th day of October 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 55-8561; Filed, Oct. 24, 1955; 8:45 a. m.]

TITLE 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation

[Amdt. 2]

PART 417—TOBACCO CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1954 AND SUCCEEDING CROP YEARS

POLICY; CO-INSURANCE

The above identified regulations, as amended (18 F. R. 5703; 19 F. R. 469, 5602; 20 F. R. 5625), are hereby amended, effective beginning with the 1956 crop year as follows:

1. Section 10 of the policy shown in § 417.8 is amended by adding a last sentence to read as follows: "Where released acreage is not put to another use, or is replanted to tobacco, the release may be disregarded by the Corporation."

2. Section 16 of the policy shown in § 417.8 is amended to read as follows:

16. *Other insurance.* If the insured has or acquires any other insurance against fire on the crop, or portion thereof, covered by the insurance contract, regardless of whether such other insurance is valid or collectible, the Corporation shall only be liable in the event of a loss due to such risk, for the smaller of either (1) the amount of loss determined pursuant to this contract, or (2) the amount by which the loss from such risk exceeds the indemnity paid or payable under such other insurance.

3. Subsections (a) and (b) of section 20 of the policy shown in § 417.8 are amended to read as follows:

(a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before the applicable cancellation date shown in section 26 preceding the crop year for which the cancellation is to become effective: *Provided, however,* That if 60 days after such cancellation date any amount due the Corporation remains unpaid or the insured has not complied with a request by the Corporation that arrangements satisfactory to the Corporation be made for the payment of the following crop year's premium, the contract shall terminate as if canceled by the Corporation prior to such cancellation date. Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation or any request that arrangements be made for the payment of a premium to the insured's last known address and mailing shall constitute notice to the insured.

(b) If the insured cancels the contract, he shall not be eligible for tobacco crop insurance in the county in the next succeeding crop year unless he, (1) subsequently applies for insurance on or before the cancellation date preceding such year or (2) applies for insurance to cover (i) an interest (individual or sharecroppers') not covered by the canceled contract, or (ii) both the individual and sharecroppers' interest where only one such interest was covered under the canceled contract.

4. Subsections (g), (h), and (l) of section 25 of the policy shown in § 417.8 are amended to read as follows:

(g) "Market price" for a crop year in the case of tobacco of types 11, 12, 13, 14, 21, 22, 23, 31, 35 and 36 means the average auction price for the applicable type (less warehouse charges) in the belt or area, as determined by the Corporation. "Market price" for a crop year in the case of tobacco of types 41, 51, 52, 54 and 55 means the average price for the applicable type in the belt or area as determined by the Corporation. The market price when determined by the Corporation shall be filed in the county office.

(h) "Owner-operator" means a person who owns land and is responsible for farm management with respect to the production of tobacco on such acreage whether produced by his own or other person's(s') labor. Land rented for cash or for a fixed commodity payment shall be considered owned by the lessee.

* * * * *

(l) "Sharecropper" or "share tenant" means a person other than an owner-operator or tenant-operator who works tobacco under supervision of a farm operator and is entitled to receive a share of the crop or proceeds therefrom and includes a person employed on the farm of an owner-operator or tenant-operator who receives for his labor the entire interest of such owner-operator or tenant-operator in the tobacco crop, or proceeds therefrom, produced on a specified acreage of such farm (for the purpose of the contract the owner-operator or tenant-operator of the farm shall be considered to have an interest in such acreage).

5. Section 26 of the policy shown in § 417.8 is amended to read as follows:

26. *Date table.* For each year of the contract, the cancellation date and the discount date are as follows:

Type of tobacco	Cancellation date [1] [2]	Discount date [1] [3]
11a	March 5	December 15.
11b	February 28	December 15.
12	February 25	December 15.
13	February 15	November 30.
14	January 31	September 30.
21	March 5	January 31.
31 All States (except North Carolina and Virginia).	March 15	March 31.
31 North Carolina and Virginia.	March 15	January 31.
22, 23, 35, 36	March 15	March 31.
41, 51, 52, 54, 55	March 31	May 31.

[1] When a cancellation or discount date falls on a Sunday or other day when the county office is not officially open for business, such date shall be extended to the next business day.

[2] The cancellation date is the applicable date preceding the beginning of the crop year for which cancellation is to become effective.

[3] The last date for the payment of the annual premium before the unpaid balance is increased by 10 percent is the applicable discount date following the date the tobacco crop is planted. In case two or more types of tobacco are insured under the contract, the earliest date for any type of tobacco insured shall apply to the entire premium for the contract.

6. Section 417.9 is deleted and there is substituted a new § 417.9 to read as follows:

§ 417.9 *Co-insurance.* Notwithstanding any other provisions of this subpart to the contrary, the Manager of the Corporation is authorized, in counties designated by him, to permit insureds to elect a percentage, which in no case shall be less than 50 percent, of the maximum protection available, in which event the amount of premium (subject to section 7 (d) of the policy) and any indemnity payable under the contract shall be reduced accordingly. For the first crop year of a contract the election

must be made in writing at the time the application for insurance is filed. For any subsequent crop year of a contract, an election may be made, changed, or rescinded by notifying the county office in writing on or before the cancellation date for the crop year the change is to become effective. In counties designated for such co-insurance the percentage(s) established by the Manager by which premiums and indemnities may be reduced will be shown on the county actuarial table on file in the county office.

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on October 4, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on October 19, 1955.

TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-8589; Filed, Oct. 24, 1955; 8:50 a. m.]

PART 419—COTTON CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1956 AND SUCCEEDING CROP YEARS

By virtue of the authority contained in the Federal Crop Insurance Act, as amended, the "Regulations for the 1952 and Succeeding Crop Years," as amended (16 F. R. 7975, 11565; 17 F. R. 2110, 5633, 8206, 8471; 18 F. R. 440, 3633, 3994, 6990; 19 F. R. 470, 5604, 8500; 20 F. R. 5055), which shall continue in full force and effect for the 1955 crop year, are hereby amended for the 1956 and succeeding crop years to read as set forth below. The provisions of this subpart shall apply, until amended or superseded, to all continuous cotton crop contracts as they relate to the 1956 and succeeding crop years.

Sec.
419.1 Availability of cotton crop insurance.
419.2 Coverages, premium rates, and fixed price.
419.3 Application for insurance.
419.4 Public notice of indemnities paid.
419.5 Creditors.
419.6 Co-insurance.
419.7 The policy.

AUTHORITY: § 419.1 to 419.7 issued under secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509.

§ 419.1 *Availability of cotton crop insurance.* (a) Cotton crop insurance may be provided in counties designated annually by the Manager of the Corporation from a list of counties approved by the Board of Directors of the Corporation. A list of the designated counties shall be published annually by appendix to this section.

(b) Insurance will not be provided in a county for any crop year unless the minimum participation requirement established by the Federal Crop Insurance Act, as amended, is met. For the purpose of determining whether the minimum participation requirement is met, an insurance unit shall be counted as one farm.

§ 419.2 *Coverages, premium rates, and fixed price.* The Corporation shall establish coverage(s) and premium rate(s) per acre and the fixed price, used to evaluate production, which shall be shown on the county actuarial table on file in the county office and may be revised from year to year.

§ 419.3 *Application for insurance.* (a) Application for insurance on a form prescribed by the Corporation may be made by any person to cover his interest as landlord, owner-operator, tenant-operator, share tenant, or sharecropper in a cotton crop.

(b) Application for insurance may also be made by any owner-operator or tenant-operator on a form prescribed by the Corporation to cover the interest(s) which a share tenant(s) or sharecropper(s) has in a cotton crop in which such farm operator has an interest. The interest(s) covered shall be that interest(s) which the share tenant(s) or sharecropper(s) has at the time of planting and any interest(s) allocated to him after planting pursuant to an understanding existing at the time of planting. As to such share tenant(s) or sharecropper(s) interest(s), notwithstanding any other provision of the contract to the contrary, (1) the applicant shall be considered the insured and the interest(s) insured shall be considered as his interest(s), (2) premiums (except for reductions based on good experience) and losses shall be computed and transfers of interest shall be made in the same manner and under the same terms and conditions as if the share tenant(s) or sharecropper(s) had signed (and the Corporation accepted) an individual application for insurance, (3) the applicant shall designate on his annual acreage report the name of the share tenant(s) or sharecropper(s) and the acreage allocated to him, (4) any indemnity shall be paid to the insured for the benefit of the share tenant or sharecropper (or transferee) allocated the insurance unit on which the loss occurred and payment shall be made by joint check payable to the insured and said share tenant or sharecropper (or transferee), (5) collateral assignments shall not be honored but the insured shall from the proceeds of the joint check be entitled to any amounts owed him for advances to finance the current cotton crop on the insurance unit, and (6) the Corporation shall not deduct from any indemnity any amount except the current premium on the share tenant's or sharecropper's interest and any amount owed the Corporation by the share tenant or sharecropper (or transferee). For each crop year of the contract, the contract shall not cover the interest of any share tenant or sharecropper who is insured with the Corporation under an individual contract.

(c) For any crop year applications shall be submitted to the county office on or before the following applicable closing date preceding such crop year:

Alabama: Randolph, Clay, Talladega, Shelby, Tuscaloosa, and Pickens Counties and all Alabama counties lying north thereof, April 10. All other Alabama counties, March 31.
Arkansas: April 10.
Mississippi: Noxubee, Winston, Attala, Madison, Hinds, and Warren Counties and all Mississippi counties lying north thereof, April 10. All other Mississippi counties, March 31.
North Carolina: April 10.
South Carolina: April 10.
Tennessee: April 10.
Texas: Jackson, Victoria, Goliad, Bee, Live Oak, Atascosa, Medina, Uvalde, and Kinney Counties, and all Texas counties lying south thereof, February 28. All other Texas counties, March 31.
All other States: March 31.

§ 419.4 *Public notice of indemnities paid.* The Corporation shall provide for the posting annually in each county at the county courthouse of a list of the indemnities paid in the county.

§ 419.5 *Creditors.* An interest in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy or any involuntary transfer shall not entitle the holder of the interest to any benefit under the contract.

§ 419.6 *Co-insurance.* Notwithstanding any other provisions of this subpart to the contrary, the Manager of the Corporation is authorized, in counties designated by him, to permit insureds to elect a percentage, which in no case shall be less than 50 percent, of the maximum protection available, in which event the amount of premium (subject to section 5 (d) of the policy) and any indemnity payable under the contract shall be reduced accordingly. For the first crop year of a contract the election must be made in writing at the time the application for insurance is filed. For any subsequent crop year of a contract, an election may be made, changed, or rescinded by notifying the county office in writing on or before the cancellation date for the crop year the change is to become effective. In counties designated for such co-insurance the percentage(s) established by the Manager by which premiums and indemnities may be reduced will be shown on the county actuarial table on file in the county office.

§ 419.7 *The policy.* The provisions of the policy for the 1956 and succeeding crop years are as follows:

Pursuant to the provisions of the application upon which this policy is issued, which application together with this policy shall constitute the contract, and subject to the terms and conditions set forth herein, the Federal Crop Insurance Corporation (herein called the "Corporation") does insure the applicant (herein called the "insured"), subject to the acceptance of his application, against unavoidable loss of lint cotton production on his cotton crop due to drought, flood, hail, wind, frost, freeze, lightning, fire, excessive rain, snow, wildlife, hurricane, tornado, insect infestation and plant disease. The contract shall not cover any loss due to the neglect or malfeasance of the insured, any member of his household, his tenants, sharecroppers, or employees, or failure to follow recognized good farming practices, or to any cause other than those specified above. No term or condition of the contract shall be waived or changed on

behalf of the Corporation except in writing by a duly authorized representative of the Corporation.

TERMS AND CONDITIONS

1. *Insured acreage and interest.* The insured acreage and interest for each crop year shall be that acreage in the county planted to cotton in which the insured had an interest at the time of planting and his interest therein at such time as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided,* That insurance shall not attach or be considered to have attached on acreage for which a coverage is not shown on the county actuarial table for the crop year or, in counties where a coverage(s) is established by farming practice(s), on acreage on which the farming practice followed is one for which a coverage is not established. *Provided Further,* That insurance shall not attach or be considered to have attached on acreage on which it is determined by the Corporation that cotton is (a) destroyed and it is practical to replant to cotton and such acreage is not replanted to cotton, (b) initially planted too late to expect a normal crop to be produced, (c) planted following in the same year a small grain crop which reaches the heading stage, (d) planted on new ground acreage, or (e) planted in excess of the allotment or permitted acreage established under any program administered by the Secretary of Agriculture but destroyed by natural causes or by the insured and not considered as cotton under the provisions of such program. The Corporation reserves the right to limit the insured acreage to the cotton allotment or permitted acreage established under any act of Congress including the Agricultural Adjustment Act of 1938, as amended. For the purpose of determining the amount of loss, the insured interest shall not exceed the insured's interest at the time of loss or the beginning of harvest, whichever occurs first.

2. *Responsibility of the insured to report acreage and interest.* (a) Promptly after planting the cotton crop each year the insured shall submit to the county office, on a form prescribed by the Corporation, a report showing all acreage in the county planted to cotton in which he has an interest and his interest therein at the time of planting. If the insured does not have an interest in any cotton acreage in the county for any year he shall nevertheless submit a report so indicating. Any acreage report submitted by the insured shall not be subject to change by the insured.

(b) If the insured fails to submit the above-mentioned acreage report within 30 days after planting of cotton is generally completed in the county, the Corporation may elect to determine the insured acreage and interest or to declare the insured acreage to be "zero".

3. *Coverage, premium rate, and fixed price.* For each crop year of the contract the coverage and premium rate per acre established for the area in which the insured acreage is located, and the fixed price, used to evaluate production, shall be those established by the Corporation for such crop year and shown on the county actuariel table on file in the county office. The coverage per acre is progressive by stages of production which are as follows:

First stage: After it is too late to plant cotton but before the first cultivation;
Second stage: After the first cultivation but before laying by;
Third stage: After laying by but before harvest, and
Fourth stage: After harvest and to the end of the insurance period.

The coverage applicable to any acreage shall be that established for the stage of production reached by the crop as determined by the Corporation.

4. *Changes in contract.* The Corporation reserves the right to change the premium rate(s), coverage(s), fixed price(s), and other terms and provisions of the contract from year to year. Any changes shall be mailed to the insured or placed on file in the county office at least 15 days prior to the cancellation date preceding the crop year for which the changes are to become effective, and such mailing or filing shall constitute notice to the insured. Failure of the insured to cancel the contract as provided in section 13 shall constitute his acceptance of any such changes.

5. *Amount of annual premium.* (a) The annual premium for each insurance unit will be based upon (1) the insured acreage of cotton, (2) the applicable premium rate(s), and (3) the insured interest(s) in the crop at the time of planting, and with respect to any insured acreage shall be earned and payable when the cotton on such acreage is planted. However, subject to (d) below the amount of the premium so determined for an insurance unit shall not exceed 50 percent of the result obtained by multiplying (1) the insured acreage by (2) the applicable coverage per acre by (3) the insured interest in the crop. There will be a reduction in the annual premium for each insurance unit of four percent for each full hundred acres of insured acreage on the unit, provided, however, that the total reduction shall not exceed 20 percent.

(b) Any amount of the premium which is unpaid on the day following the applicable discount date (following planting) shown below will be increased by ten percent, which increased amount shall be the premium balance, and thereafter, at the end of each 12 months' period, six percent simple interest shall attach to any amount of the premium balance which is unpaid. For each year of the contract, the discount date shall be January 31 for counties in Arizona, California, and New Mexico and for Andrews, Martin, Howard, Mitchell, Scurry, Kent, Dickens, Motley, Hall, and Collingsworth Counties, Texas, and for all Texas Counties lying north and west thereof; December 31 for Oklahoma; and November 30 for all other counties.

(c) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured cotton crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. If the insured is not eligible for the above premium reduction, his annual premium for any year may be reduced not to exceed 25 percent if it is determined by the Corporation that the accumulated balance, expressed in pounds, of premiums over indemnities on consecutively insured cotton crops exceeds his total coverage (computed on a harvested acreage basis). Nothing in this paragraph shall create in the insured any right to a reduced premium.

(d) If in any year a premium is earned under the contract and totals less than $5.00 the amount shall be increased to $5.00.

(e) Any unpaid amount due the Corporation by the insured may be deducted from any indemnity payable to the insured by the Corporation or from any loan or any payment made to the insured under any act of Congress, or program, administered by the United States Department of Agriculture.

6. *Insurance period.* Insurance on any insured acreage shall attach at the time the cotton is planted and, with respect to any portion of the crop, shall cease upon removal from the field, upon being housed, or upon disposal of the unharvested crop or transfer of interest in unharvested cotton after harvest has commenced, but in no event shall insurance remain in effect later than the applicable date set forth below:

Alabama: Randolph, Clay, Talladega, Shelby, Tuscaloosa, and Pickens Counties and all Alabama counties lying south thereof, November 15. All other Alabama counties, December 15,
Arizona: January 31.
Arkansas: December 15.
California: January 31.
Georgia: December 15.
Louisiana: November 30.
Mississippi: Noxubee, Winston, Attala, Holmes, Yazoo, and Issaquena Counties and all Mississippi counties lying south thereof, November 30. All other Mississippi counties, December 15.
New Mexico: December 31.
North Carolina: December 31.
Oklahoma: December 31.
South Carolina: December 15.
Tennessee: December 31.
Texas: Jackson, Victoria, Goliad, Bee, Live Oak, Atascosa, Medina, Uvalde, Kinney Counties, and all Texas counties lying south thereof, September 30. Andrews, Martin, Howard, Mitchell, Scurry, Kent, Dickens, Motley, Hall, and Collingsworth Counties and all Texas counties lying north and west thereof, December 31. All other Texas counties, November 30.

7. *Notice of loss or substantial damage.* (a) If, during the growing season the insured cotton crop on any insurance unit is substantially damaged the insured shall give immediate written notice of such damage to the Corporation at the county office.

(b) If an insured loss occurs on any insurance unit the insured shall give prompt written notice to the Corporation at the county office but in no event shall such notice be given later than (1) 15 days after harvesting is completed on the insurance unit or (2) the end of the insurance period, whichever is earlier.

(c) Any insured acreage which is not to be harvested shall be left intact until the Corporation makes an inspection.

(d) The Corporation may reject any claim for loss if any of the requirements of this section are not met.

8. *Released or damaged acreage.* (a) Any acreage of the insured cotton crop may be released by the Corporation after it is too late to replant to cotton if (1) the Corporation determines that the crop on such acreage is destroyed, or (2) the insured requests a release of acreage which the Corporation determines is not destroyed and agrees to the appraisal by the Corporation of the potential production from such acreage. No insured acreage may be put to another use until the Corporation releases such acreage. If the cotton crop on insured acreage is damaged but the acreage has not been released by the Corporation, proper measures shall be taken to care for the crop and protect it from further damage.

(b) Where released acreage is not put to another use, or is replanted to cotton, the release may be disregarded by the Corporation.

(c) There shall be no abandonment of any crop or portion thereof to the Corporation.

9. *Time of loss.* Any loss shall be deemed to have occurred at the end of the insurance period unless the entire crop on the insurance unit was destroyed earlier in which event the loss shall be deemed to have occurred on the date of such damage as determined by the Corporation.

10. *Claims for loss.* (a) Any claim for loss on an insurance unit shall be submitted to the Corporation, on a form prescribed by the Corporation, not later than 60 days after the time of loss.

(b) It shall be a condition precedent to the payment of any loss that the insured establish the production of cotton on the insurance unit and that such loss has been directly caused by one or more of the hazards insured against during the insurance period for the crop year for which the loss is claimed, and furnish any other information

regarding the manner and extent of loss as may be required by the Corporation. The cotton stalks on any acreage with respect to which a loss is claimed, shall not be destroyed until the Corporation makes an inspection.

(c) Losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the planted acreage (exclusive of any acreage to which insurance did not attach) by the applicable coverage(s) per acre, (2) subtracting therefrom the value (determined in accordance with (d) below) of the total production to be counted for the planted acreage, and (3) multiplying the remainder by the insured interest. However, if for the insurance unit, the premium computed for the planted acreage exceeds the premium computed for the acreage and interest shown on the acreage report, the amount of loss so determined shall be reduced proportionately. The total production to be counted for an insurance unit shall include all harvested production (except harvested production destroyed before being housed or removed from the field and harvested production from acreage not eligible for fourth stage coverage) and in addition any appraisals which the Corporation determines should be made for potential or unharvested production, poor farming practices, uninsured causes of loss or acreage abandoned or put to another use without being released by the Corporation. An appraisal of not less than the applicable coverage, minus the value (determined in accordance with (d) below) of any cotton harvested, shall be made for acreage with a reduced yield due solely to any cause(s) not insured against or acreage abandoned or put to another use without being released by the Corporation. Notwithstanding the other provisions of this subsection regarding the determination of the production to be counted, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the fixed price for the county, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the fixed price for the county.

(d) In determining any loss under the contract, production shall be valued at the fixed price.

(e) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year without affecting the insured's liability for premium(s), or (2) allocate the commingled production in such manner as it determines appropriate.

11. *Payment of indemnity.* (a) Any indemnity will be payable within thirty days after a claim for loss is approved by the Corporation, but if payment is delayed for any reason, the Corporation shall not be liable for interest or damage on account of such delay.

(b) If the insured dies, is judically declared incompetent or disappears after the planting of the cotton crop in any year, any indemnity which is, or becomes, part of his estate shall be paid to the legal representative of the estate. Should no such representative be qualified, the Corporation may pay the indemnity to the person(s) it determines to be beneficially entitled thereto or to any one or more of such persons on behalf of all such persons, or may withhold payment until a legal representaitve of the estate is qualified. In such cases, and in any other case where an indemnity is claimed by a person(s) other than the original insured or diverse interests appear with respect to any insurance unit, the determination of the Corporation as to the existence or non-existence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment shall be made shall be final and conclusive. Payment of an indemnity shall constitute a complete discharge of the Corporation's obligations with respect to the loss for which such indemnity is paid.

12. *Avoidance of contract.* The Corporation may void the contract without affecting the insured's liability for premium(s) or waiving any right or remedy including the right to collect any unpaid premium(s) if (a) at any time, either before or after loss, the insured has concealed or misrepresented any material fact or committed any fraud relating to the contract, or (b) the insured fails to give any notice or otherwise fails to comply with the terms of the contract at the time and in the manner prescribed. The Corporation may make such avoidance effective as of the beginning of any crop year with respect to which any act or omission referred to in (a) or (b) above occurred.

13. *Life of contract, cancellation or termination thereof.* (a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before the cancellation date which shall be the December 31 preceding the crop year for which the cancellation is to become effective: *Provided, however,* That the contract shall terminate as if canceled by the Corporation prior to such cancellation date if by the applicable termination date set forth below following such cancellation date, any amount due the Corporation under this contract remains unpaid or the insured has not complied with a request by the Corporation that arrangements satisfactory to the Corporation be made for the payment of the following year's premium:

Alabama: Randolph, Clay, Talladega, Shelby, Tuscaloosa, and Pickens Counties and all Alabama counties lying north thereof, April 10. All other Alabama counties, March 31.

Arkansas: April 10.

Mississippi: Noxubee, Winston, Attala, Madison, Hinds and Warren Counties, and all Mississippi counties lying north thereof, April 10. All other Mississippi counties, March 31.

North Carolina: April 10.

South Carolina: April 10.

Tennessee: April 10.

Texas: Jackson, Victoria, Goliad, Bee, Live Oak, Atascosa, Medina, Uvalde, and Kinney Counties, and all Texas counties lying south thereof, February 28. All other Texas counties, March 31.

All other States: March 31.

Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation to the insured's last known address and mailing shall constitute notice to the insured.

(b) If the insured cancels the contract, he shall not be eligible for cotton crop insurance in the county in the next succeeding crop year unless he (1) subsequently applies for insurance on or before the cancellation date preceding such year, or (2) applies for insurance to cover (i) an interest (individual or sharecroppers') not covered by the canceled contract, or (ii) both the individual and sharecropper's interests where only one such interest was covered under the canceled contract.

(c) If the Corporation determines that the county minimum participation requirement established by the Federal Crop Insurance Act, as amended, is not met for any crop year, insurance shall not be in effect for that crop year and the contract shall terminate.

(d) The contract shall terminate upon death or judicial declaration of incompetence of the insured, except that if such death or judicial declaration of incompetence occurs after the beginning of planting of the cotton crop in any crop year but before the end of the insurance period for such year, the contract shall (1) not terminate until the end of such insurance period, and (2) cover any additional cotton planted for the insured or his estate for that crop year.

14. *Transfer of interest.* If the insured transfers all or a part of his insured interest in a cotton crop before the beginning of harvest and the time of loss, the transferee may obtain the benefits of the contract for the current crop year on the interest transferred if within 15 days after the date of transfer he (1) submits to the county office such information concerning the transfer as may be required by the Corporation, and (2) makes arrangements satisfactory to the Corporation for the payment of any unpaid premium on the interest transferred. Upon approval of a transfer of interest by the Corporation, the transferee and transferor shall be jointly and severally liable for any unpaid premium on the interest transferred. Any transfer shall be subject to the conditions of the contract including any collateral assignment made by the transferor, and the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than if the transfer had not taken place.

15. *Collateral assignment.* The original insured may assign his right to an indemnity for any year under the contract by executing a form prescribed by the Corporation and upon approval thereof by the Corporation the interest of the assignee will be recognized and the assignee shall have the right to submit the loss notices and forms as required by the contract if the insured neglects or refuses to take such action.

16. *Subrogation.* The insured assigns to the Corporation all rights of recovery against any person(s) for loss or damage to the extent that payment therefor is made by the Corporation, and shall execute all papers required and take such other action as may be necessary to secure such rights.

17. *Other insurance.* If the insured has other insurance, whether valid or not, against (a) more than two of the risks insured against under this contract, or (b) damage by fire during the insurance period, and there is damage from a risk(s) so insured against, the Corporation shall not be liable, unless it otherwise elects, for a greater proportion of any loss under this contract than the coverage under this contract for the insurance unit(s) involved bears to the total of all coverages.

18. *Records and access to farm.* The insured shall keep or cause to be kept, for two years after the time of loss, records of the harvesting, storage, shipment, sale or other disposition of all cotton produced on each insurance unit covered by the contract, and separate records showing the same information for production on any uninsured acreage in the county in which he has an interest. Any persons designated by the Corporation shall have access to such records and the farm(s) for purposes related to the contract.

19. *Forms.* Copies of forms referred to in the contract are available at the county office.

20. *Meaning of terms.* For purposes of the cotton insurance program the terms:

(a) "County" (Parish in Louisiana) means the area shown on the county actuarial table which may include farms located in a local producing area(s) bordering on the county.

(b) "Cotton crop" means only American Upland cotton and does not include cotton planted primarily for experimental purposes.

(c) "County actuarial table" means the form(s) and related materials (including the crop insurance maps) which are approved annually by the Corporation and show the fixed price, the coverage per acre and the premium rates per acre applicable in the county.

(d) "County office" means the Corporation's office for the county shown on the application for insurance or such other office as may be specified by the Corporation from time to time.

(e) "Crop year" means the period within which the cotton crop is planted and normally harvested, and shall be designated by reference to the calendar year in which the crop is planted.

(f) "First cultivation" means the first tillage of the cotton after it is up, which must be performed with an implement (other than a spike tooth or section harrow, rotary hoe, or stalk cutter) designed for use on individual cotton rows for the purpose of working the ground close to the plants.

(g) "Harvest" means the removal of seed cotton from the open cotton boll or the severance of the open cotton boll from the stalk by either manual or mechanical means. For the purpose of determining the stage of production, any acreage shall not be considered as harvested unless (1) the production of lint cotton actually harvested therefrom equals 10 percent or more of the coverage for such acreage in the fourth stage of production, and (2) the Corporation determines as authorized in section 3 that the crop reached the fourth stage of production.

(h) "Laying by" means the completion of the final cultivation, consistent with good farming practices, that would be necessary to carry the crop to harvest.

(i) "Insurance unit" means all insurable acreage of cotton in the county (1) in which the insured has 100 percent interest, plus any acreage owned by him and worked for him by a share tenant(s) or sharecropper(s) or (2) which is owned by the insured and rented to one tenant-operator, or (3) which is owned by one person and operated by the insured as a tenant-operator, or (4) which is owned by one person and worked by the insured as a share tenant or sharecropper. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

(j) "New ground acreage" in all States except Arizona, California, and New Mexico, means acreage on which it was necessary to remove or deaden timber and remove undergrowth to carry out established cultural practices. Pasture land, other than woodland pasture, cleared of underbrush and brought into cultivation will not be considered new ground acreage. In Arizona, California, and New Mexico, "new ground acreage" means any acreage which has not been planted to a crop in any one of the previous three crop years, except that acreage in tame hay or rotation pasture during the previous crop year shall not be considered new ground acreage.

(k) "Person" means an individual, partnership, association, corporation, estate, trust or other business enterprise or other legal entity, and wherever applicable, a State, a political subdivision of a state, or any agency thereof.

(l) "Sharecropper" or "share tenant" means a person other than an owner-operator or tenant-operator who works cotton under supervision of a farm operator and is entitled to receive a share of the crop or proceeds therefrom and includes a person employed on the farm of an owner-operator or tenant-operator who receives for his labor the entire interest of such owner-operator or tenant-operator in the cotton crop, or proceeds therefrom, produced on a specified acreage of such farm (for the purpose of the contract the owner-operator or tenant-operator of the farm shall be considered to have an interest in such acreage).

(m) "Tenant-operator" or "tenant" means a person who rents land from another person for a share of the cotton crop, or proceeds therefrom, produced on such land and is responsible for farm management with respect to the production of cotton on such acreage whether produced by his own or other person's(s') labor.

(n) "Owner-operator" means a person who owns land and is responsible for farm management with respect to the production of cotton on such acreage whether produced by his own or other person's(s') labor. Land rented for cash or a fixed commodity payment shall be considered owned by the lessee.

21. *Irrigated acreage.* (a) The acreage of cotton which shall be insured on the basis of irrigated coverage in any year shall not exceed the smaller of (i) that acreage which could be irrigated adequately with the facilities available, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, or (ii) that acreage on which one irrigation is carried out in accordance with good farming practices as determined by the Corporation, either before the crop is planted or during the growing season. Insurance shall not attach with respect to acreage planted to cotton the first year after being leveled.

(b) In addition to the causes of loss insured against shown on the first page of this policy the contract shall cover loss in production due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured, including (1) lowering of the water level in pump wells adequate at the beginning of the growing season to the extent that either deepening the well or drilling a new well would be necessary to obtain an adequate supply of water, (2) failure of public power used for pumping or failure of an irrigation district or water company to deliver water where such failure is not within the control of the insured, and (3) the collapse of casing in wells.

(c) The contract shall not cover loss in production caused by (1) failure properly to apply adequate irrigation water to cotton when needed and in accordance with recognized good farming practices for the area. (2) failure to provide adequate casing or properly to adjust the pumping equipment in the event of a lowering of the water level in pump wells when such adjustment can be made without deepening the well, (3) failure properly to apply irrigation water to cotton in proportion to the need of the crop and the amount of water available for all irrigated crops, and (4) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which could be reasonably expected.

NOTE: The reporting and record-keeping requirements contained herein have been approved by the Bureau of the Burget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on October 4, 1955.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on October 19, 1955.

TRUE D. MORSE,
Acting Secretary.

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.22, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS

MAINLAND CANE SUGAR AREA, 1955

Correction

In Federal Register Document 55-7688, published at page 7126 in the issue dated September 23, 1955, the table appearing on page 7130 is corrected by changing the headnote over columns (3) and (4) to read: "Past marketings average within allotments, 1950-54".

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1955-56 FISCAL PERIOD

On October 5, 1955, notice of proposed rule making was published in the FEDERAL REGISTER (20 F. R. 7399) regarding the expenses and the fixing of the rate of assessment for the 1955-56 fiscal period under Marketing Agreement No. 84, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida. This regulatory program is effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which were submitted by the Growers Administrative Committee (established pursuant to the amended marketing agreement and order), it is hereby found and determined that:

§ 933.209 *Expenses and rate of assessment for the 1955-56 fiscal period.* (a) The expenses necessary to be incurred by the Growers Administrative Committee established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning, during the fiscal period beginning August 1, 1955, and ending July 31, 1956, both dates inclusive, of the Growers Administrative Committee and the Shippers Advisory Committee, established under the aforesaid amended marketing agreement and order, will amount to $162,000.00 and the rate of assessment to be paid by each handler shall be four and one-half mills ($0.0045) per standard packed box of fruit shipped by such handler during the said fiscal period; and such rate of assessment is hereby approved as each handler's prorata share of the aforesaid expenses.

(b) As used herein, the terms "standard packed box," "handler," "shipped," and "fruit" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(c) The provisions hereof shall become effective 30 days after publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 20, 1955.

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

AMENDMENT OF ADMINISTRATIVE RULES AND REGULATIONS

Pursuant to Marketing Agreement No. 127 and Marketing Order No. 103 (20 F. R. 5056) regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of, and information supplied by, the Date Administrative Committee, the administrative agency for program operations, and other available information, it is hereby ordered that the administrative rules and regulations (20 F. R. 6486) issued under said agreement and order be amended as set forth hereinafter.

Paragraph (b) of § 1003.110 is amended by inserting the word "and" between the semi-colon and "(7)," by inserting a period in lieu of the semi-colon following the word "inspection," and by deleting the remainder of said paragraph.

Section 1003.117 is amended to read as follows:

§ 1003.117 *Exemptions from regulation*—(a) *Producer Exemptions.* Any date producer, upon obtaining written approval of the committee, may sell dates of his own production directly to consumers, free of the requirements of §§ 1003.45, 1003.72, and 1003.73 in the following outlets:

(1) *Roadside stands or date shops.* Any quantity if sold directly to consumers at roadside stands or date shops at locations specifically approved by the committee.

(2) *Parcel post or express shipments.* Shipments by parcel post or express directly to consumers.

(b) *Handler exemptions.* Any date handler, upon obtaining written approval of the committee, may obtain the following partial exemptions in the following outlets:

(1) *Specialty outlets.* Any quantity if sold to such specialty outlets as health stores or outlets specializing in health foods, as shall be approved by the committee, may be exempt from the moisture requirements of the effective minimum grade.

(2) *Specialty packs.* Any quantity if sold in specialty packs such as glass, tin, wood, plastics, film or other type of containers approved by the committee, may be exempt from the provisions of § 1003.41 (a): *Provided,* That, such dates shall have been packed from dates that have been certified as meeting the effective grade regulations and have not been commingled with other dates.

(3) *Minimum quantity shipments.* Shipments by common carrier not to exceed ten flats of fifteen pounds each, or the equivalent weight in other packs, to any one purchaser in any one day may be exempt from the provisions of § 1003.41 (a): *Provided,* That, such dates shall have been packed from dates that have been certified as meeting the effective grade regulations and have not been commingled with other dates.

(c) *Sales not eligible for exemption.* Except as provided in subparagraphs (b) (1), (2), and (3) of this section no exemption shall be granted on dates sold by producers or handlers to truckers, dealers, retail stores or any other outlet for resale. The committee may, however, upon a finding that inspection is unnecessary, exempt any producer receiving other exemptions hereunder from the requirements of § 1003.41.

(d) *Application to be filed.* Applications for exemption from regulation shall be filed with the committee on producer DAC Form No. 9 or handler DAC Form No. 10, whichever is applicable, at the beginning of each marketing year or as soon thereafter as is practicable. The applications shall show, as applicable: (1) name and address of producer or handler; (2) if dates are to be sold from roadside stands or date shops, the location and description of the place at which the sales are to be made, the estimated quantity to be sold at such location during the marketing year, and the grade of the dates to be sold; (3) if dates are to be sold by mail order, the estimated quantity and grade of the dates to be sold; (4) if dates are to be sold in specialty packs, a detailed description of the type of container in which dates are to be packed, the estimated quantity to be sold in each type of pack, and the procedure for having such dates inspected prior to packing and set aside to prevent commingling with other dates; (5) if dates are to be sold to specialty outlets, the name, address and nature of business of the person or company to whom the dates will be sold, and the estimated quantity of dates that will be sold during the marketing year in such outlets; (6) if dates are to be sold in minimum quantity shipments, the application shall set forth the procedure for having such dates inspected prior to packing and set aside to prevent commingling with other dates, and shall state the estimated quantity to be marketed in this manner during the marketing year. The application shall also contain a certification to the committee and the United States Department of Agriculture, signed by the applicant, that all date sales will conform with the requirements of this part except to the extent that exemption is specifically granted. The applicant shall agree to submit on DAC Form No. 2 such information concerning his exempt sales of dates as may be requested by the committee.

A new § 1003.120 is added, reading as follows:

§ 1003.120 *Diversion of restricted or standard grade dates by export.* Each handler who exports restricted dates or standard grade but non-marketable dates shall certify to the United States Department of Agriculture and the Date Administrative Committee on DAC Form No. 11 that he will include in his export sales contract a provision whereby the buyer agrees that such dates will not re-enter the continental United States, or its territories or possessions, or be reshipped to any country not included on the list of countries approved by the committee for export.

It is hereby found that it is impracticable, unnecessary, and contrary to public interest to give preliminary notice, engage in public rule-making, or postpone the foregoing action later than the date of publication hereof in the FEDERAL REGISTER because new crop dates have already begun to move to market and shipments are expected to reach substantial volume in the near future, and it is necessary that the new regulations governing exemptions be made effective at the earliest practicable date in order that those eligible may be relieved of the obligations covered by such exemptions.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 20th day of October 1955, to become effective on the date of the publication of this order in the FEDERAL REGISTER.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 55-8611; Filed, Oct. 24, 1955; 8:54 a. m.]

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Harvey J. Strauss d. b. a. H. J. Strauss Furs, Lowell, Mass., Docket 6371, October 12, 1955]

In the Matter of Harvey J. Strauss, an Individual Doing Business as H. J. Strauss Furs

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission—which charged the respondent individual with misbranding and falsely advertising fur products in violation of the Fur Products Labeling Act and the Federal Trade Commission Act—and an agreement between counsel for both parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of September 23, 1955, pursuant to § 3.21 of the rules of practice, became on October 12, 1955, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondent, Harvey J. Strauss, an individual doing business as H. J. Strauss Furs, or under any other name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the advertising or offering for sale of fur products in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur product," are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur when such is a fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product.

2. Attaching to fur products labels which fail to meet the medium size requirements of Rule 27 of the Rules and Regulations.

3. Setting forth on labels attached to fur products required information in handwriting, or mingled with non-required information.

4. Failing to set forth on labels attached to fur products, an item number or mark assigned to such products.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

(e) The name and address of the person issuing such invoices;

(f) The name of the country of origin of any imported furs contained in the fur product.

2. Setting forth, on invoices pertaining to fur products, required information in abbreviated form.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice, which is intended to aid, promote or assist, directly or indirectly in the sale or offering for sale of fur products, and which:

1. Fails to disclose the name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

2. Fails to disclose that fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is the fact;

3. Abbreviates words or terms of required information.

4. Represents, directly or by implication:

(a) That fur products are being offered at or for less than wholesale prices when such is contrary to the fact;

(b) That a sale price enables purchasers of fur products to effectuate any savings in excess of the difference between the said price and the price at which comparable products were sold during the time specified or, if no time is specified, in excess of the difference between said price and the current price at which comparable products are sold;

(c) The aggregate value of fur products to be greater than is the fact;

(d) That fur products are bankrupt stock, or that they were purchased by respondent, or were from the stock of a famous or reputable furrier when such is contrary to the fact.

5. Makes pricing claims or representations of the type referred to in paragraph C (4) (a), (b), or (c) above, unless there is maintained by respondent full and adequate records disclosing the facts upon which such claims and representations are based, as required by Rule 44 (e) of the rules and regulations.

By said "Decision of the Commission," report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: September 23, 1955.

By the Commission.

[SEAL] JOHN R. HEIM,
Acting Secretary.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

RICE'S FASHION CORNER, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* §13.30 *Composition of goods.* Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition: Wool Products Labeling Act:* § 13.1325 *Source or origin:* Maker or seller, etc.: *Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* Sec. 13.1845 *Composition:* Wool Products Labeling Act; § 13.1900 *Source or origin:* Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Rice's Fashion Corner, Inc., et al., Norfolk, Va., Docket 6385, October 12, 1955.]

In the Matter of Rice's Fashion Corner, Inc., a Corporation; and Irwin G. Rice (referred to in the Complaint as Irving G. Rice) and Maurice Nordlinger, Individually and as Officers of Said Corporation

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission—charging respondents with misbranding and false advertising of ladies' weskit and skirt combinations and other wool products, in violation of the Wool Products Labeling Act and the Federal Trade Commission Act—and an agreement between the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of September 23, 1955, pursuant to § 3.21 of the rules of practice, became, on October 12, 1955, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That the respondent, Rice's Fashion Corner, Inc., a corporation, and its officers and respondent Maurice Nordlinger, individually and as an officer of said corporation, and respondent Irwin G. Rice, individually, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of ladies' weskit and skirt combinations or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool" or "reused wool," as those terms are defined in said Act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool products, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool products, of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool products or of one or more persons engaged in introducing such wool products into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939, and

3. Failing to securely affix to or place on each separate piece of such products a stamp, tag, label or other means of identification as required by Rule 12 of the rules and regulations promulgated under the Wool Products Labeling Act of 1939:

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939, and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

It is further ordered, That respondent Rice's Fashion Corner, Inc., a corporation, and its officers, and respondent Maurice Nordlinger, individually and as an officer of said corporation, and respondent Irwin G. Rice, individually, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of ladies' weskit and skirt combinations or other products, do forthwith cease and desist from:

Misrepresenting the constituent fibers of which their products are composed or the percentages or amounts thereof, in advertisements or in any other manner.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 23, 1955.

By the Commission.

[SEAL] JOHN R. HEIM, *Acting Secretary.*

[F. R. Doc. 55-8596; Filed, Oct. 24, 1955; 8:51 a .m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF SULPHENONE (*p*-CHLOROPHENYL PHENYL SULFONE)

A petition was filed with the Food and Drug Administration requesting the establishment of tolerances for residues of Sulphenone (*p*-chlorophenyl phenyl sulfone) in or on certain raw agricultural commodities.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended as follows:

1. Section 120.101 (c) (5) (i) is amended by adding to the list of chlorinated hydrocarbons the name "Sulphenone (*p*-chlorophenyl phenyl sulfone)."

2. Part 120 is amended by adding the following new section:

§ 120.112 *Tolerances for residues of Sulphenone (p-chlorophenyl phenyl sulfone).* A tolerance of 8 parts per million for residues of Sulphenone (*p*-chlorophenyl phenyl sulfone) is established in or on each of the following raw agricultural commodities: Apples, peaches, pears.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: October 19, 1955.

[SEAL] JOHN L. HARVEY, *Acting Commissioner of Food and Drugs.*

[F. R. Doc. 55-8566; Filed, Oct. 24, 1955; 8:45 a. m.]

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Rev. S. O. 908]

PART 95—CAR SERVICE

SUBSTITUTION OF REFRIGERATOR CARS FOR BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of October A. D. 1955.

It appearing that the number of freight cars available for the movement of box car freight in the States of Oregon, Idaho, Utah, California, Arizona, and Nevada, has seriously decreased recently; that at present the supply is insufficient to move such freight traffic of carriers serving those States; that there are certain SFRD, PFE and WP refrigerator cars in that territory not suitable for transporting commodities requiring protective service and that such cars are suitable for transporting other freight; in the opinion of the Commission an emergency exists requiring immediate action in Oregon, Idaho, Utah, California, Arizona and Nevada: It is ordered, that:

§ 95.908 *Substitution of refrigerator cars for box cars.* (a) (1) Except as provided in subparagraph (2) of this paragraph, common carriers by railroad subject to the Interstate Commerce Act transporting carload freight from origin in the States of Oregon, Idaho, Utah, California, Arizona, or Nevada, and destined to points in the States of Oregon, Idaho, Utah, California, Arizona or Nevada, may, at their option, furnish and transport not more than three (3) refrigerator cars of SFRD, PFE or WP ownership, not suitable for transporting commodities requiring protective service, in lieu of each box car ordered, subject to the car load minimum weight which would have applied if shipment had been loaded in a box car.

(2) On shipments on which the carload minimum weight varies with the size of the car:

(i) Two (2) refrigerator cars not suitable for transporting commodities requiring protective service may be furnished in lieu of one (1) box car ordered of a length of 40' 7", or less, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(ii) Three (3) refrigerator cars not suitable for transporting commodities requiring protective service may be furnished in lieu of one (1) box car ordered of a length of over 40' 7", but not over 50' 7", subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(b) Application: The provisions of this section shall apply to shipments not in intrastate commerce as well as to those moving in interstate commerce.

(c) Effective date: This section shall become effective at 8:00 a. m., October 20, 1955.

(d) Expiration date: This section shall expire at 11:59 p. m., December 31, 1955, unless otherwise modified, changed, suspended or annulled by order of the Commission.

(e) Rules and regulations suspended: The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) Announcement of suspension: Each of such railroads, or its agents, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY, *Secretary.*

Appendix C—Public Land Orders

[Public Land Order 1235]

[Misc. 62646]

FLORIDA

RESERVING CERTAIN PUBLIC LANDS AS ADDITION TO NATIONAL KEY DEER REFUGE

Correction

In Federal Register Document 55-8250, published on page 7605 of the issue for Wednesday, October 12, 1955, the third line of the land description should read "T. 66 S., R. 29 E.,".

[Public Land Order 1237]

[Misc. 28706]

[Misc. 38753]

COLORADO AND UTAH

AMENDING PUBLIC LAND ORDER NO. 1223 OF SEPTEMBER 13, 1955

Public Land Order No. 1223 of September 13, 1955, appearing as Document No. 55-7546 in 20 F. R. 7007 of the issue for September 17, 1955, is hereby amended as follows:

1. By deleting from paragraph 4 (a) of the order the words "and applications and offers under the mineral-leasing laws", and by substituting for the words "Such applications, selections and offers * * *" in the last sentence of paragraph 4 (a) the words "Such applications and selections * * *".

2. By deleting from paragraph 4 (a) (3) of the order the words "and applications and offers under the mineral-leasing laws".

3. By deleting from paragraph 4 (b) of the order the words "and the reserved minerals in the patented lands described in paragraph 3".

The original orders of withdrawal (Public Land Orders No. 459, 494 and 745) were not a bar to the issuance of mineral leases for the lands.

WESLEY A. D'EWART, *Assistant Secretary of the Interior.*

OCTOBER 19, 1955.

[Public Land Order 1238]

[Fairbanks 07357]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE BY CIVIL AERONAUTICS ADMINISTRATION AS A TERMINAL AIRPORT; MODIFYING AND ENLARGING AIR NAVIGATION SITE WITHDRAWAL NO. 186 OF AUGUST 15, 1942; REVOKING PUBLIC LAND ORDER NO. 92 OF FEBRUARY 19, 1943

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, and section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved as follows:

(a) Under the jurisdiction of the Secretary of Commerce for use by the Civil Aeronautics Administration as a terminal airport:

FAIRBANKS MERIDIAN

T. 1 S., R. 1 W.,
Sec. 18, E½NW¼, lots 1, 2, and 3;
Sec. 19, lots 1, 2, and 3.
T. 1 S., R. 2 W.,
Sec. 23, E½SE¼;
Sec. 24, E½.

The areas described aggregate 652.62 acres.

(b) Under the jurisdiction of the Secretary of Commerce for use by the Civil Aeronautics Administration as an addition to Air Navigation Site Withdrawal No. 186:

FAIRBANKS MERIDIAN

T. 1 S., R. 2 W.,
Sec. 23, lot 1, NE¼NE¼.

The areas described aggregate 61.82 acres.

2. The Departmental order of August 15, 1942 (Air Navigation Site Withdrawal No. 186) withdrawing lands for use of the Department of Commerce in the maintenance of air-navigation facilities is hereby revoked so far as its affects the following-described lands:

FAIRBANKS MERIDIAN

T. 1 S., R. 2 W.,
Sec. 13, lot 8 (NE¼SE¼).

The areas described, aggregating 55.11 acres, are embraced in an allowed homestead entry for which final certificate was issued November 8, 1948.

3. Public Land Order No. 92 of February 19, 1943, which withdrew the following-described lands for use of the Alaska Road Commission as an Administrative Site is hereby revoked:

FAIRBANKS MERIDIAN

T. 1 S., R. 2 W.,
Sec. 24, NE¼.

The area described aggregating 160 acres, is included in the withdrawal made by paragraph 1 of this order.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

OCTOBER 19, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

BANKING INSTITUTIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

The following regulations relating to banking institutions are hereby promulgated under subchapter H of chapter 1 of the Internal Revenue Code of 1954, and are effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

BANKING INSTITUTIONS

RULES OF GENERAL APPLICATION

Sec.
1.581 Statutory provisions; definition of bank.
1.581–1 Tax on banks.
1.581–2 Mutual savings banks, building and loan associations, and cooperative banks.
1.582 Statutory provisions; bad debt and loss deduction with respect to securities held by banks.
1.582–1 Bad debt and loss deduction with respect to securities held by banks.
1.583 Statutory provisions; deductions of dividends paid on certain preferred stock.
1.584 Statutory provisions; common trust funds.
1.584–1 Common trust funds.
1.584–2 Income of participants in common trust fund.
1.584–3 Computation of common trust fund income.
1.584–4 Admission and withdrawal of participants in the common trust fund.
1.584–5 Returns of banks with respect to common trust funds.
1.584–6 Net operating loss deduction.

MUTUAL SAVINGS BANKS, ETC.

1.591 Statutory provisions; deduction for dividends paid on deposits.
1.591–1 Deduction for dividends paid on deposits.
1.592 Statutory provisions; deduction for repayment of certain loans.
1.592–1 Repayment of certain loans by mutual savings banks, building and loan associations, and cooperative banks.
1.593 Statutory provisions; additions to reserve for bad debts.
1.593–1 Additions to reserve for bad debts.
1.593–2 Additions to reserve for bad debts where surplus, reserves, and undivided profits equal or exceed 12 percent of deposits or withdrawable accounts.
1.594 Statutory provisions; alternative tax for mutual savings banks conducting life insurance business.
1.594–1 Mutual savings banks conducting life insurance business.

BANK AFFILIATES

1.601 Statutory provisions; special deduction for bank affiliates.
1.601–1 Special deduction for bank affiliates.

BANKING INSTITUTIONS

RULES OF GENERAL APPLICATION

§ 1.581 *Statutory provisions; definition of bank.*

SEC. 581. *Definition of bank.* For purposes of sections 582 and 584, the term "bank" means a bank or trust company incorporated and doing business under the laws of the United States (including laws relating to the District of Columbia), of any State, or of any Territory, a substantial part of the business of which consists of receiving deposits and making loans and discounts, or of exercising fiduciary powers similar to those permitted to national banks under section 11 (k) of the Federal Reserve Act (38 Stat. 262; 12 U. S. C. 248 (k)), and which is subject by law to supervision and examination by State, Territorial, or Federal authority having supervision over banking institutions. Such term also means a domestic building and loan association.

§ 1.581–1 *Tax on banks.* A bank, as defined in section 581, is subject to the tax on corporations imposed by section 11.

§ 1.581–2 *Mutual savings banks, building and loan associations, and cooperative banks.* (a) Mutual savings banks, building and loan associations, and cooperative banks not having capital stock represented by shares are subject to tax as in the case of other corporations. For special rules governing the taxation of a mutual savings bank conducting a life insurance business, see section 594 and § 1.594–1.

(b) While the general principles for determining the taxable income of a corporation are applicable to a mutual savings bank, a building and loan association, or a cooperative bank not having capital stock represented by shares, there are certain exceptions and special rules governing the computation in the case of such institutions. See section 593 and § 1.593–1 for special rules concerning additions to reserves for bad debts. See section 591 and § 1.591–1, relating to dividends paid by banking corporations, for special rules concerning deductions for amounts paid to, or credited to the accounts of, depositors or holders of withdrawable accounts as dividends. See also section 592 and § 1.592–1, relating to deductions for repayment of certain loans.

(c) For the purpose of computing the net operating loss deduction provided in section 172, any taxable year for which a mutual savings bank, building and loan association, or a cooperative bank not having capital stock represented by shares was exempt from tax shall be disregarded. Thus, no net operating loss carryover shall be allowed from a taxable year beginning before January 1, 1952, and, in the case of any taxable year beginning after December 31, 1951, the amount of the net operating loss carryback or carryover from such year shall not be reduced by reference to the income of any taxable year beginning before January 1, 1952.

§ 1.582 *Statutory provisions; bad debt and loss deduction with respect to securities held by banks.*

SEC. 582. *Bad debt and loss deduction with respect to securities held by banks*—(a) *Securities.* Notwithstanding sections 165 (g) (1) and 166 (e), subsections (a), (b), and (c) of section 166 (relating to allowance of deduction for bad debts) shall apply in the case of a bank to a debt which is evidenced by a security as defined in section 165 (g) (2) (C).

(b) *Worthless stock in affiliated bank.* For purposes of section 165 (g) (1), where the taxpayer is a bank and owns directly at least 80 percent of each class of stock of another bank, stock in such other bank shall not be treated as a capital asset.

(c) *Bond, etc., losses of banks.* For purposes of this subtitle, in the case of a bank, if the losses of the taxable year from sales or exchanges of bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including one issued by a government or political subdivision thereof), with interest coupons or in registered form, exceed the gains of the taxable year from such sales or exchanges, no such sale or exchange shall be considered a sale or exchange of a capital asset.

§ 1.582–1 *Bad debt and loss deduction with respect to securities held by banks.* A bank, as defined in section 581, is allowed a deduction for bad debts to the extent and in the manner provided by subsections (a), (b), and (c) of section 166 with respect to a debt which has become worthless in whole or in part and which is evidenced by a security (a bond, debenture, note, certificate, or other evidence of indebtedness to pay a fixed or determinable sum of money) issued by any corporation (including governments and their political subdivisions), with interest coupons or in registered form.

§ 1.583 *Statutory provisions; deductions of dividends paid on certain preferred stock.*

SEC. 583. *Deductions of dividends paid on certain preferred stock.* In computing the taxable income of any national banking association, or of any bank or trust company organized under the laws of any State, Territory, possession of the United States, or the Canal Zone, or of any other banking corporation engaged in the business of industrial banking and under the supervision of a State banking department or of the Comptroller of the Currency, or of any incorporated domestic insurance company, there shall be allowed as a deduction from gross income, in addition to deductions otherwise provided for in this subtitle, any dividend (not including any distribution in liquidation) paid, within the taxable year, to the United States or to any instrumentality thereof exempt from Federal income taxes, on the prefered stock of the corporation owned by the United States or such instrumentality. The amount allowable as a deduction under this section shall reduce the deduction for dividends paid otherwise computed under section 561.

§ 1.584 *Statutory provisions; common trust funds.*

SEC. 584. *Common trust funds*—(a) *Definitions.* For purposes of this subtitle, the term "common trust fund" means a fund maintained by a bank—

(1) Exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank in its capacity as a trustee, executor, administrator, or guardian; and

(2) In conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System pertaining to the collective investment of trust funds by national banks.

(b) *Taxation of common trust funds.* A common trust fund shall not be subject to taxation under this chapter and for purposes of this chapter shall not be considered a corporation.

(c) *Income of participants in fund*—(1) *Inclusions in taxable income.* Each participant in the common trust fund in computing its taxable income shall include, whether or not distributed and whether or not distributable—

(A) As part of its gains and losses from sales or exchanges of capital assets held for not more than 6 months, its proportionate share of the gains and losses of the common trust fund from sales or exchanges of capital assets held for not more than 6 months;

(B) As part of its gains and losses from sales or exchanges of capital assets held for more than 6 months, its proportionate share of the gains and losses of the common trust fund from sales or exchanges of capital assets held for more than 6 months;

(C) Its proportionate share of the ordinary taxable income or the ordinary net loss of the common trust fund, computed as provided in subsection (d).

(2) *Dividends and partially tax exempt interest.* The proportionate share of each participant in the amount of dividends to which section 34 or section 116 applies, and in the amount of partially tax exempt interest on obligations described in section 35 or section 242, received by the common trust fund shall be considered for purposes of such sections as having been received by such participant. If the common trust fund elects under section 171 (relating to amortizable bond premium) to amortize the premium on such obligations, for purposes of the preceding sentence the proportionate share of the participant of such interest received by the common trust fund shall be his proportionate share of such interest (determined without regard to this sentence) reduced by so much of the deduction under section 171 as is attributable to such share.

(d) *Computation of common trust fund income.* The taxable income of a common trust fund shall be computed in the same manner and on the same basis as in the case of an individual, except that—

(1) There shall be segregated the gains and losses from sales or exchanges of capital assets;

(2) After excluding all items of gain and loss from sales or exchanges of capital assets, there shall be computed—

(A) An ordinary taxable income which shall consist of the excess of the gross income over deductions; or

(B) An ordinary net loss which shall consist of the excess of the deductions over the gross income;

(3) The deduction provided by section 170 (relating to charitable, etc., contributions and gifts) shall not be allowed; and

(4) The standard deduction provided in section 141 shall not be allowed.

(e) *Admission and withdrawal.* No gain or loss shall be realized by the common trust fund by the admission or withdrawal of a participant. The withdrawal of any participating interest by a participant shall be treated as a sale or exchange of such interest by the participant.

(f) *Different taxable years of common trust fund and participant.* If the taxable year of the common trust fund is different from that of a participant, the inclusions with respect to the taxable income of the common trust fund, in computing the taxable income of the participant for its taxable year, shall be based upon the taxable income of the common trust fund for any taxable year of the common trust fund ending within or with the taxable year of the participant.

(g) *Net operating loss deduction.* The benefit of the deduction for net operating losses provided by section 172 shall not be allowed to a common trust fund, but shall be allowed to the participants in the common trust fund under regulations prescribed by the Secretary or his delegate.

§ 1.584–1 *Common trust funds*—(a) *Method of taxation.* A common trust fund maintained by a bank is not subject to taxation under this chapter and is not considered a corporation. Its participants are taxed on their proportionate share of income from the common trust fund. Except as otherwise provided in §§ 1.584–1 to 1.584–6, inclusive, the term "participant" refers to any trust or estate, the moneys of which have been contributed to the common trust fund.

(b) *Conditions for qualification.* Under section 584, two conditions must be satisfied by a fund maintained by a bank (as defined in section 581) before such fund may be designated as a "common trust fund." These conditions are that such fund must be maintained by such a bank:

(1) Exclusively for the collective investment and reinvestment of moneys contributed thereto by the bank, whether acting alone or in conjunction with one or more co-fiduciaries, but solely in its capacity: (i) As a trustee of a trust created by will, deed, agreement, declaration of trust, or order of court, (ii) as an executor of the will of, or as an administrator of the estate of, a deceased person, or (iii) as a guardian (by whatever name known under local law) of the estate of an infant, of an incompetent individual, or of an absent individual; and

(2) In conformity with the rules and regulations, prevailing from time to time, of the Board of Governors of the Federal Reserve System pertaining to the collective investment of trust funds by national banks, whether or not the bank maintaining such fund is a national bank or a member of the Federal Reserve System.

§ 1.584–2 *Income of participants in common trust fund.* (a) Each participant in a common trust fund is required to include in computing its taxable income for its taxable year within which or with which the taxable year of the fund ends, whether or not distributed and whether or not distributable:

(1) Its proportionate share of the gains and losses from sales or exchanges of capital assets held for not more than six months, computed as provided in § 1.584–3, as part of its gains and losses from sales or exchanges of capital assets held for not more than six months;

(2) Its proportionate share of the gains and losses from sales or exchanges of capital assets held for more than six months, computed as provided in § 1.584–3, as part of its gains and losses from sales or exchanges of capital assets held for more than six months; and

(3) Its proportionate share of the ordinary taxable income or the ordinary

net loss of the common trust fund, computed as provided in § 1.584–3.

(b) (1) Each participant's proportionate share in the amount of dividends to which section 34 or section 116 applies received by the common trust fund shall be deemed to have been received by such participant as such dividends.

(2) Each participant's proportionate share in the amount of partially tax exempt interest described in section 35 or section 242 received by the common trust fund shall be deemed to have been received by such participant as such interest. If the common trust fund elects under section 171 (relating to amortizable bond premium) to amortize the premium on such obligations, for purposes of the preceding sentence the proportionate share of each participant of such interest received by the fund shall be his proportionate share of such interest (determined without regard to this sentence) reduced by so much of the deduction under section 171 as is attributable to such shares. See section 171 and the regulations thereunder.

(3) Any tax withheld at the source from income of the fund shall be deemed to have been withheld proportionately from the participants to whom such income is allocated.

(c) (1) The proportionate share of each participant in gains and losses from sales or exchanges of capital assets held for not more than six months, gains and losses from sales or exchanges of capital assets held for more than six months, ordinary taxable income or ordinary net loss, dividends received, partially exempt interest, and tax withheld at the source shall be determined under the method of accounting adopted by the bank in accordance with the written plan under which the common trust fund is established and administered, provided such method clearly reflects the income of each participant.

(2) The items of income and deductions are, therefore, to be allocated to the periods between valuation dates within the taxable year established by such plan in which they were realized or sustained, and the ordinary taxable income or ordinary net loss, gains and losses from sales or exchanges of capital assets held for not more than six months, and gains and losses from sales or exchanges of capital assets held for more than six months computed for each such period. The proportionate shares of the participants in such items are then to be determined.

(3) The provisions of subparagraph (2) of this paragraph may be illustrated by the following example:

Example. (i) The plan of a common trust fund provides for quarterly valuation dates and for the computation and the distribution of the income upon a quarterly basis, except that there shall be no distribution of capital gains. The participants are as follows: Trusts A, B, C, and D for the first quarter; Trusts A, B, C, and E for the second quarter; and Trusts A, B, F, and G for the third and fourth quarters, the participants having equal participating interests. As computed upon the quarterly basis, the ordinary taxable income, the short-term capital gain, and the long-term capital loss for the taxable year were as follows:

	First quarter	Second quarter	Third quarter	Fourth quarter	Total
Ordinary taxable income	$200	$300	$200	$400	$1,100
Short-term capital gain	200	100	200	100	600
Long-term capital loss	100	200	100	200	600

(ii) The participants' shares of ordinary taxable income are as follows:

PARTICIPANTS' SHARES OF ORDINARY TAXABLE INCOME

Participant	First quarter	Second quarter	Third quarter	Fourth quarter	Total
A	$50	$75	$50	$100	$275
B	50	75	50	100	275
C	50	75	------	------	125
D	50	------	------	------	50
E	------	75	------	------	75
F	------	------	50	100	150
G	------	------	50	100	150
Total	200	300	200	400	1,100

(iii) The participants' shares of the short-term capital gain are as follows:

PARTICIPANTS' SHARES OF SHORT-TERM CAPITAL GAIN

Participant	First quarter	Second quarter	Third quarter	Fourth quarter	Total
A	$50	$25	$50	$25	$150
B	50	25	50	25	150
C	50	25	------	------	75
D	50	------	------	------	50
E	------	25	------	------	25
F	------	------	50	25	75
G	------	------	50	25	75
Total	200	100	200	100	600

(iv) The participants' shares of the long-term capital loss are as follows:

PARTICIPANTS' SHARES OF LONG-TERM CAPITAL LOSS

Participant	First quarter	Second quarter	Third quarter	Fourth quarter	Total
A	$25	$50	$25	$50	$150
B	25	50	25	50	150
C	25	50	------	------	75
D	25	------	------	------	25
E	------	50	------	------	50
F	------	------	25	50	75
G	------	------	25	50	75
Total	100	200	100	200	600

(4) If in the above example the common trust fund also had short-term capital losses and long-term capital gains, the treatment of such gains or losses would be similar to that accorded to the short-term capital gains and long-term capital losses in the above example.

(d) The provisions of Subparts A, B, C, D, and E of Part I of Subchapter J of this chapter are applicable in determining the extent to which each participant's proportionate share of the income of the common trust fund is taxable to the participant, or to the beneficiaries or the grantor of the participant.

§ 1.584–3 *Computation of common trust fund income.* The taxable income of the common trust fund shall be computed in the same manner and on the same basis as in the case of an individual, except that:

(a) No deduction shall be allowed under section 170 (relating to charitable, etc., contributions and gifts);

(b) The gains and losses from sales or exchanges of capital assets of the common trust fund are required to be segregated. A common trust fund is not allowed the benefit of the capital loss carryover provided by section 1212;

(c) The ordinary taxable income (the excess of the gross income over deductions) or the ordinary net loss (the excess of the deductions over the gross income) shall be computed after excluding all items of gain and loss from sales or exchanges of capital assets; and

(d) The standard deduction provided in section 141 shall not be allowed.

§ 1.584–4 *Admission and withdrawal of participants in the common trust fund*—(a) *Gain or loss.* The common trust fund realizes no gain or loss by the admission or withdrawal of a participant, and the basis of the assets and the period for which they are deemed to have been held by the common trust fund for the purposes of section 1202 are unaffected by such an admission or withdrawal. If a participant withdraws the whole or any part of its participating interest from the common trust fund, such withdrawal shall be treated as a sale or exchange by the participant of the participating interest or portion thereof which is so withdrawn. A participant is not deemed to have withdrawn any part of its participating interest in the common trust fund so as to have completed a closed transaction by reason of the segregation and administration of an investment of the fund, pursuant to the provisions of subdivision (c) (7) of section 17 of Regulations F of the Board of Governors of the Federal Reserve System, as amended, for the benefit of all the then participants in the common trust fund. Such segregated investment shall be considered as held by, or on behalf of, the common trust fund for the benefit ratably of all participants in the common trust fund at the time of segregation, and any income or loss arising from its administration and liquidation shall constitute income or loss to the common trust fund apportionable among the participants for whose benefit the investment was segregated.

(b) *Basis for gain or loss upon withdrawal.* The participant's gain or loss upon withdrawal of its participating interest or portion thereof shall be measured by the difference between the amount received upon such withdrawal and the adjusted basis of the participating interest or portion thereof withdrawn plus the additions prescribed in paragraph (c) of this section and minus the reductions prescribed in paragraph (d) of this section. The amount received by the participant shall be the sum of any money plus the fair market value of property (other than money) received upon such withdrawal. The basis of the participating interest or portion thereof withdrawn shall be the money contributed by the participant to the common trust fund to acquire the participating interest or portion thereof withdrawn. Such basis shall not be reduced on account of the segregation of any investment in the common trust fund pursuant to the provisions of subdivision (c) (7) of section 17 of Regulations F of the Board of Governors of the Federal Reserve System, as amended. For the purpose of making the adjustments, additions, and reductions with respect to basis as prescribed in this paragraph, the ward, rather than the guardian, shall be deemed to be the participant; and the grantor, rather than the trust, shall be deemed to be the participant, to the extent that the income of the trust is taxable to the grantor under subpart E of part I of subchapter J.

(c) *Additions to basis.* As prescribed in paragraph (b) of this section, in computing the gain or loss upon the withdrawal of a participating interest or portion thereof, there shall be added to the basis of the participating interest or portion thereof withdrawn an amount equal to the aggregate of the following items (to the extent that they were properly allocated to the participant for a taxable year of the common trust fund and were not distributed to the participant prior to withdrawal):

(1) Wholly exempt income of the common trust fund for any taxable year,

(2) Net income of the common trust fund for the taxable years beginning after December 31, 1935, and prior to January 1, 1938,

(3) Net short-term capital gain of the common trust fund for each taxable year beginning after December 31, 1937,

(4) The excess of the gains over the losses recognized to the common trust fund for each taxable year beginning after December 31, 1937, and before January 1, 1942, upon sales or exchanges of capital assets held for more than 18 months, and for more than 6 months for taxable years beginning after December 31, 1941, and

(5) Ordinary net or taxable income of the common trust fund for each taxable year beginning after December 31, 1937.

(d) *Reductions in basis.* As prescribed in paragraph (b) of this section, in computing the gain or loss upon the withdrawal of a participating interest or portion thereof, the basis of the participating interest or portion thereof withdrawn shall be reduced by such portions of the following items as were allocable to the participant with respect to the participating interest or portion thereof withdrawn:

(1) The amount of the excess of the allowable deductions of the common trust fund over its gross income for the taxable years beginning after December 31, 1935, and before January 1, 1938, and

(2) The amount of the net short-term capital loss, net long-term capital loss, and ordinary net loss of the common trust fund for each taxable year beginning after December 31, 1937.

§ 1.584–5 *Returns of banks with respect to common trust funds.* For rules applicable to filing returns of common trust funds, see section 6032 and the regulations thereunder.

§ 1.584–6 *Net operating loss deduction.* The net operating loss deduction is not allowed to a common trust fund. Each participant in a common trust fund, however, will be allowed the benefits of such deduction. In the computation of such deduction, a participant in a common trust fund shall take into account its pro rata share of the income and losses of the common trust fund in the same manner as prescribed by section 702 and § 1.702–1 in the case of partners.

MUTUAL SAVINGS BANKS, ETC.

§ 1.591 *Statutory provisions; deduction for dividends paid on deposits.*

SEC. 591. *Deduction for dividends paid on deposits.* In the case of mutual savings banks, cooperative banks, and domestic building and loan associations, there shall be allowed as deductions in computing taxable income amounts paid to, or credited to the accounts of, depositors or holders of accounts as dividends on their deposits or withdrawable accounts, if such amounts paid or credited are withdrawable on demand subject only to customary notice of intention to withdraw.

§ 1.591–1 *Deduction for dividends paid on deposits*—(a) *In general.* (1) A mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit may deduct from gross income amounts which during the taxable year are paid to or credited to the accounts of depositors or holders of accounts, as dividends on their deposits or withdrawable accounts, if such amounts paid or credited are withdrawable on demand subject only to customary notice of intention to withdraw.

(2) The deduction provided in section 591 is applicable to the taxable year in which amounts credited as dividends become withdrawable by the depositor or holder of account subject only to customary notice of intention to withdraw. Thus, amounts credited as dividends as of the last day of the taxable year which are not withdrawable by depositors or holders of accounts until the following business day are deductible under section 591 in the year subsequent to the taxable year in which they were credited. A deduction under this section will not be denied by reason of the fact that the amounts credited as dividends, otherwise deductible under section 591, are subject to the terms of a pledge agreement between the institution and the depositor or holder of account. In the case of a building and loan association having nonwithdrawable capital stock represented by shares, no deduction is allowable under this section for amounts paid or credited as dividends on such shares.

(b) *Serial associations, bonus plans, etc.* If a building and loan association operates in whole or in part as a serial association, maintains a bonus plan, or issues shares subject to fines, penalties, forfeitures, or other withdrawal fees, it may deduct under section 591 the total amount credited as dividends upon such shares, credited to a bonus account for such shares, or allocated to a series of shares for the taxable year, notwithstanding that as a customary condition of withdrawal:

(1) Amounts invested in, and earnings credited to, series shares must be withdrawn in multiples of even shares, or

(2) Such association has the right, pursuant to by-law, contract, or otherwise, to retain or recover a portion of the total amount invested in, or credited as earnings upon, such shares, such bonus account, or series of shares, as a fine, penalty, forfeiture, or other withdrawal fee.

In any taxable year in which the right referred to in subparagraph (2) of this paragraph is exercised, there is includible in the gross income of such association for such taxable year amounts retained or recovered by the association pursuant to the exercise of such right.

§ 1.592 *Statutory provisions; deduction for repayment of certain loans.*

SEC. 592. *Deduction for repayment of certain loans.* In the case of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, there shall be allowed as deductions in computing taxable income amounts paid by the taxpayer during the taxable year in repayment of loans made before September 1, 1951, by (1) the United States or any agency or instrumentality thereof which is wholly owned by the United States, or (2) any mutual fund established under the authority of the laws of any State.

§ 1.592–1 *Repayment of certain loans by mutual savings banks, building and loan associations, and cooperative banks.* There is deductible, under section 592, from the gross income of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, amounts paid by such institutions during the taxable year in repayment of loans made before September 1, 1951, by the United States or any agency or instrumentality thereof which is wholly owned by the United States, and amounts paid to a mutual fund established under the authority of the laws of any State. For example, amounts paid by such institution in repayment of loans made by the Reconstruction Finance Corporation before September 1, 1951, are deductible under this section. Section 591 is not applicable, however, in the case of amounts paid to an agency or instrumentality not wholly owned by the United States.

§ 1.593 *Statutory provisions; additions to reserve for bad debts.*

SEC. 593. *Additions to reserve for bad debts.* In the case of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit, the reasonable addition to a reserve for bad debts under section 166 (c) shall be determined with due regard to the amount of the taxpayer's surplus or bad debt reserves existing at the close of December 31, 1951. In the case of a taxpayer described in the preceding sentence, the rea-

sonable addition to a reserve for bad debts for any taxable year shall in no case be less than the amount determined by the taxpayer as the reasonable addition for such year; except that the amount determined by the taxpayer under this sentence shall not be greater than the lesser of—

(1) The amount of its taxable income for the taxable year, computed without regard to this section, or

(2) The amount by which 12 percent of the total deposits or withdrawable accounts of its depositors at the close of such year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year.

§ 1.593–1 *Additions to reserve for bad debts*—(a) *In general.* A mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit may, as an alternative to a deduction from gross income for specific debts which become worthless in whole or in part, deduct amounts credited to a reserve for bad debts in the manner and under the circumstances prescribed in this section. In the case of such an institution, the selection of the reserve method for treating bad debts may be made in the return for its first taxable year beginning after December 31, 1951, and shall be subject to the approval of the Commissioner upon examination of the return. If the method selected is approved, it must be followed in returns for subsequent years, unless permission is granted by the Commissioner to change to another method. Application for permission to change the method of treating bad debts shall be made at least 30 days prior to the close of the taxable year for which the change is to be effective.

(b) *Addition to reserve.* Except as otherwise provided in § 1.593–2, the reasonable addition to a reserve for bad debts shall be any amount determined by the taxpayer which does not exceed the lesser of:

(1) The amount of its taxable income for the taxable year, computed without regard to section 593 and without regard to any section providing for a deduction the amount of which is dependent upon the amount of taxable income (such as section 170, relating to charitable, etc., contributions and gifts), or

(2) The amount by which 12 percent of the total deposits or withdrawable accounts of its depositors at the close of such year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year.

(c) *Adjustments to reserve.* Bad debt losses sustained during the taxable year shall be charged against the bad debt reserve. Recoveries of debts charged against the bad debt reserve during a prior taxable year in which the institution was subject to tax under this chapter or under chapter 1 of the Internal Revenue Code of 1939 shall be credited to the bad debt reserve. The establishment of such reserve and all adjustments made thereto must be reflected on the regular books of account of the institution at the close of the taxable year, or as soon as practicable thereafter. Minimum amounts credited in compliance with Federal or State statutes, regulations, or supervisory orders to reserve or similar accounts, or additional amounts credited to such reserve or similar accounts and permissive under such statutes, regulations, or orders, against which charges may be made for the purpose of absorbing losses sustained by an institution, will be deemed to have been credited to the bad debt reserve.

(d) *Definitions.* When used in this section and in § 1.593–2:

(1) *Institution.* The term "institution" means either a mutual savings bank not having capital stock represented by shares, a domestic building and loan association as defined in section 7701 (a) (19), or a cooperative bank without capital stock organized and operated for mutual purposes and without profit.

(2) *Surplus, undivided profits, and reserves.* (i) The phrase "surplus, undivided profits, and reserves" means the amount by which the total assets of an institution exceed the amount of the total liabilities of such an institution.

(ii) For this purpose the term "total assets" means the sum of money, plus the aggregate of the adjusted basis of the property other than money, held by an institution. Such adjusted basis for any asset is its adjusted basis for determining gain upon sale or exchange for Federal income tax purposes. (See sections 1011 through 1022, and the regulations thereunder. For special rules with respect to adjustments to basis for prior taxable years during which the institution was exempt from tax, see section 1016 (a) (3) and the regulations thereunder.) The determination of the total assets of any taxpayer shall conform to the method of accounting employed by such taxpayer in determining taxable income and to the rules applicable in determining its earnings and profits.

(iii) The term "total liabilities" means all liabilities of the taxpayer, which are fixed and determined, absolute and not contingent, and includes those items which constitute liabilities in the sense of debts or obligations. The total deposits or withdrawable accounts, as defined in subparagraph (3) of this paragraph, shall be considered a liability. In the case of a building and loan association having permanent nonwithdrawable capital stock represented by shares, the paid-in amount of such stock shall also be considered a liability. Reserves for contingencies and other reserves, however, which are mere appropriations of surplus, are not liabilities.

(3) *Total deposits or withdrawable accounts.* The phrase "total deposits or withdrawable accounts" means the aggregate of (i) amounts placed with an institution for deposit or investment and (ii) earnings outstanding on the books of account of the institution at the close of the taxable year which have been credited as dividends upon such accounts prior to the close of the taxable year, except that such term, in the case of a building and loan association, does not include permanent nonwithdrawable capital stock represented by shares, or earnings credited thereon.

(e) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). (i) Institution X, which keeps its books on the basis of the calendar year, has surplus, reserves, and undivided profits of $800,000 as of January 1, 1955, and total deposits or withdrawable accounts of $10,000,000 as of December 31, 1955. During 1955 the institution credits $30,000, as required by a Federal agency, to a Federal insurance reserve for the sole purpose of absorbing losses. Likewise, it credits $25,000, as permitted by State statute, to another reserve fund for the purpose of absorbing losses. In 1955 Institution X charges $5,000 against its bad debt reserve for losses sustained during the taxable year.

(ii) The taxable income of Institution X for the taxable year 1955, computed without regard to section 593 and without regard to any section providing for a deduction the amount of which is dependent upon the amount of taxable income, is $200,000.

(iii) Upon the basis of the facts as stated in subdivision (i) above, the amount by which 12 percent of the total deposits or withdrawable accounts of Institution X at the close of taxable year 1955 exceeds the sum of such institution's surplus, undivided profits, and reserves at the beginning of the taxable year is $400,000 (12% of $10,000,000, minus $800,000).

(iv) Institution X, therefore, may deduct, for the taxable year 1955, as an addition to a reserve for bad debts, any amount it may determine that does not exceed the lesser of the amounts determined in subdivision (ii) or (iii) above. That amount is $200,000 (as determined in subdivision (ii) above). Since under paragraph (c) of this section, the $30,000 credited to the reserve as required by the Federal agency and the $25,000 credited to the reserve as permitted by the State statute are regarded as amounts credited to a reserve for bad debts account, Institution X can credit an additional $145,000 ($200,000 minus $55,000) to a general reserve for bad debts account at any time during the taxable year.

(v) The loss of $5,000 charged to the bad debt reserve during the taxable year does not affect the amount of the addition to the bad debt reserve provided for in paragraph (b) of this section. It is of significance only in determining the surplus, undivided profits, and reserves of Institution X as of January 1, 1956.

Example (2). The taxable income of Institution Y for the taxable year 1955, computed without regard to the deduction under section 593 and without regard to any section providing for a deduction the amount of which is dependent upon the amount of taxable income, is determined to be $250,000. The amount by which 12 percent of the total deposits or withdrawable accounts of Institution Y at the close of the taxable year exceeds the sum of such institution's surplus, undivided profits, and reserves at the beginning of the taxable year is $500,000. Institution Y credits $250,000 to its bad debt reserve in 1955. In 1957, it is determined that the correct taxable income of Institution Y for 1955, computed without regard to any deduction under section 593 and without regard to any section providing for a deduction the amount of which is dependent upon the amount of taxable income, is $275,000 and not $250,000. Assuming that Institution Y credits the additional $25,000 to its bad debt reserve, $275,000 is allowable as a deduction from gross income for such institution for the taxable year 1955.

§ 1.593–2 *Additions to reserve for bad debts where surplus, reserves, and undivided profits equal or exceed 12 percent of deposits or withdrawable accounts.* Where 12 percent of the total deposits or withdrawable accounts of an institution at the close of the taxable year is equal to or less than the sum of such institution's surplus, undivided profits, and reserves at the beginning of the taxable year, a reasonable addition to the reserve for bad debts as determined under the general provisions of section 166 (c) may be allowable as a deduction from gross income. In making such determination, there shall be taken into account (a) surplus or bad debt reserves existing at the close of December 31, 1951 (i. e., the amount of surplus, undivided profits, and reserves accumulated prior to January 1, 1952, and in existence at the close of December 31, 1951), and (b) changes in the surplus, undivided profits, and reserves of the institution from December 31, 1951, until the beginning of the taxable year. A deduction for an addition to the reserve for bad debts pursuant to this section will be authorized only in those cases where the institution proves to the satisfaction of the Commissioner that the bad debt experience of the institution warrants an addition to the reserve for bad debts in excess of that provided in § 1.593–1 (b). For definitions, see § 1.593–1 (d).

§ 1.594 *Statutory provisions; alternative tax for mutual savings banks conducting life insurance business.*

SEC. 594. *Alternative tax for mutual savings banks conducting life insurance business*—(a) *Alternative tax.* In the case of a mutual savings bank not having capital stock represented by shares, authorized under State law to engage in the business of issuing life insurance contracts, and which conducts a life insurance business in a separate department the accounts of which are maintained separately from the other accounts of the mutual savings bank, there shall be imposed in lieu of the taxes imposed by section 11 or section 1201 (a), a tax consisting of the sum of the partial taxes determined under paragraphs (1) and (2):

(1) A partial tax computed on the taxable income determined without regard to any items of gross income or deductions properly allocable to the business of the life insurance department, at the rates and in the manner as if this section had not been enacted; and

(2) A partial tax computed on the taxable income (as defined in section 803) of the life insurance department determined without regard to any items of gross income or deductions not properly allocable to such department, at the rates and in the manner provided in subchapter L (sec. 801 and following) with respect to life insurance companies.

(b) *Limitations of section.* Subsection (a) shall apply only if the life insurance department would, if it were treated as a separate corporation, qualify as a life insurance company under section 801.

§ 1.594–1 *Mutual savings banks conducting life insurance business*—(a) *Scope of application.* Section 594 applies to the case of a mutual savings bank not having capital stock represented by shares which conducts a life insurance business, if:

(1) The conduct of the life insurance business is authorized under State law,

(2) The life insurance business is carried on in a separate department of the bank,

(3) The books of account of the life insurance business are maintained separately from other departments of the bank, and

(4) The life insurance department of the bank would, if it were treated as a separate corporation, qualiffy as a life insurance company under section 801.

(b) *Computation of tax.* In the case of a mutual savings bank conducting a life insurance business to which section 594 is applicable, the tax upon such bank consists of the sum of the following:

(1) A partial tax computed under section 11 upon the taxable income of the bank determined without regard to any items of income or deduction properly allocable to the life insurance department, and

(2) A partial tax upon the taxable income (as defined in section 803) of the life insurance department determined without regard to any items of income or deduction not properly allocable to such department at the rates and in the manner provided in subchapter L with respect to life insurance companies.

BANK AFFILIATES

§ 1.601 *Statutory provisions; special deduction for bank affiliates.*

SEC. 601. *Special deduction for bank affiliates.* In the case of a holding company affiliate (as defined in section 2 of the Banking Act of 1933; 12 U. S. C. 221a (c)), there shall be allowed as a deduction, for purposes of section 535 (b) (8) (relating to the computation of accumulated taxable income) and section 545 (b) (6) relating to the computation of undistributed personal holding company income), the amount of the earnings and profits which the Board of Governors of the Federal Reserve System certifies to the Secretary or to his delegate has been devoted by such affiliate during the taxable year to the acquisition of readily marketable assets other than bank stock in compliance with section 5144 of the Revised Statutes (12 U. S. C. 61). The amount of the deduction under this section for any taxable year shall not exceed the taxable income for such year computed without regard to the special deductions for corporations provided in part VIII (except section 248) of subchapter B (section 241 and following, relating to the deduction for dividends received by corporations, etc.). The aggregate of the deductions allowable under this section and the credits allowable under the corresponding provision of any prior income tax law for all taxable years shall not exceed the amount required to be devoted under such section 5144 to such purposes.

§ 1.601–1 *Special deduction for bank affiliates.* (a) The special deduction described in section 601 is allowed:

(1) To a holding company affiliate of a bank, as defined in section 2 of the Banking Act of 1933 (12 U. S. C. 221a), which holding company affiliate holds, at the end of the taxable year, a general voting permit granted by the Board of Governors of the Federal Reserve System.

(2) In the amount of the earnings or profits of such holding company affiliate which, in compliance with section 5144 of the Revised Statutes (12 U. S. C. 61), has been devoted by it during the taxable year to the acquisition of readily marketable assets other than bank stock.

(3) Upon certification by the Board of Governors of the Federal Reserve System to the Commissioner that such an amount of the earnings or profits has been so devoted by such affiliate during the taxable year.

No deduction is allowable under section 601 for the amount of readily marketable assets in excess of what is required by section 5144 of the Revised Statutes (12 U. S. C. 61) to be acquired by such affiliate, or in excess of the taxable income for the taxable year computed without regard to the special deductions for corporations provided in sections 241–247, inclusive. Nor may the aggregate of the deductions allowable under section 601 and the credits allowable under the corresponding provision of any prior income tax law for all taxable years exceed the amount required to be devoted under such section 5144 to the acquisition of readily marketable assets other than bank stock.

(b) Every taxpayer claiming a deduction provided for in section 601 shall attach to its return a supplementary statement setting forth all the facts and information upon which the claim is predicated, including such facts and information as the Board of Governors of the Federal Reserve System may prescribe as necessary to enable it, upon the request of the Commissioner subsequent to the filing of the return, to certify to the Commissioner the amount of earnings or profits devoted to the acquisition of such readily marketable assets. A certified copy of such supplementary statement shall be forwarded by the taxpayer to the Board of Governors at the time of the filing of the return. The holding company affiliate shall also furnish the Board of Governors such further information as the Board shall require. For the requirements with respect to the amount of such readily marketable assets which must be acquired and maintained by a holding company affiliate to which a voting permit has been granted, see section 5144 (b) and (c) of the Revised Statutes (12 U. S. C. 61).

[F. R. Doc. 55–8600; Filed, Oct. 24, 1955; 8:52 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 937]

[AO—264]

HANDLING OF CELERY GROWN IN FLORIDA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Winter Haven, Florida, on March 28–31, 1955, pursuant to notice thereof which was published in the FEDERAL REGISTER (20 F. R. 1217) upon proposed Marketing Agreement No. 124 and proposed Marketing Order No. 37 (hereinafter referred to as the "order") regulating the handling of celery grown in Florida.

Upon the basis of the evidence introduced at the aforesaid hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on August 19, 1955, filed with the Hearing Clerk, U. S. Department of Agriculture,

his recommended decision in this proceeding. The notice of the filing of such recommended decision affording opportunity to file written exceptions thereto was published August 24, 1955, in the FEDERAL REGISTER (20 F. R. 6171).

Rulings. Within the period provided therefor, interested parties filed exceptions to certain of the findings, conclusions, and actions recommended by the Deputy Administrator. A set of exceptions was filed through their attorney on behalf of Herbert G. Behrens; William Bush, Jr.; W. P. Chapman; Chase & Co.; M. L. Cullum; Donald Dunn; C. M. Flowers; L. T. Frazier; J. L. Jackson; W. A. Leffer; L. C. Leonardy; A. B. Mahoney; F. T. Meriwether; W. B. Miller; F. W. Pope; W. W. Tyre; Joder Cameron; E. A. Londenberg; Karl Daull; H. L. Gary; A. M. Jones; and W. T. Walker. In arriving at the findings, conclusions, and regulatory provisions of this decision each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

To the extent that suggested findings and conclusions proposed by interested parties are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise federal jurisdiction;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(3) The definition of the commodity and determination of the production area to be affected by the order;

(4) The identity of the persons and transactions to be regulated; and

(5) The specific terms and provisions of the order including:

(a) Definitions of terms used therein which are necessary and incidental to attain the declared objectives of the act, and including all those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions;

(b) The establishment, maintenance, composition, powers, duties, and operation of a committee, which shall be the administrative agency for assisting the Secretary in administration of the program;

(c) The authority for the committee to incur expenses and to levy assessments on celery handled;

(d) The authority for establishment of celery marketing research and development projects;

(e) The methods for limiting the grade, size, and quality of celery which may be handled under the order;

(f) The method for fixing the size, capacity, weight, dimensions, or pack of containers which may be used in the packaging, transportation, sale, shipment, or handling of celery;

(g) The prohibition of unfair trade practices or unfair methods of competition in the handling of celery;

(h) The issuance of volume regulations, the methods for establishing prorate bases and the fixing of allotments or modifications thereof;

(i) The methods for establishing reporting requirements with respect to handlers of celery;

(j) Requirements with respect to notice in connection with applications for prorate bases, allotments, and regulations;

(k) The methods for establishing minimum standards of quality and maturity;

(l) The methods for authorizing special regulations applicable to the handling of celery for specified purposes or to specified outlets which may be handled under special regulations that are modifications or amendments to grade, size, and quality regulations;

(m) The necessity for inspection and certification of celery being handled pursuant to the proposed order;

(n) The relaxation of regulation in hardship cases and the methods and procedures applicable thereto;

(6) The requirements of compliance with all provisions of the order and with regulations issued pursuant thereto; and

(7) Additional terms and conditions as set forth in §§ 937.80 through 937.95 and published in the FEDERAL REGISTER (20 F. R. 1217) on February 26, 1955, which are common to marketing agreements and orders.

Findings and conclusions. The following findings and conclusions relate to the above stated material issues developed at the aforementioned hearing and they are based on the record of such hearing. All findings and conclusions and all the terms and conditions of the marketing agreement and order are based on substantial evidence in the hearing record and such findings and conclusions are determined adequate and specific with respect to each and all of the terms and conditions of such proposed order.

(1) Florida celery is sold in and transported to markets both within and outside the State. Reports on carlot unloads of certain fruits and vegetables for 1952, also for 1953, show marketings of Florida celery in most major United States markets east of the Mississippi. Market news reports and summaries thereof for various seasons, such as 1949 through 1954, issued by the Market News Service of the United States Department of Agriculture, show daily sales prices of Florida celery at shipping point, also weekly price ranges at major terminal markets, such as New York, Chicago, Philadelphia, Pittsburgh, Detroit, and Boston. Daily market news reports for the 1954 season through March 11, 1955, show sales of celery in Cincinnati, Pittsburgh, Baltimore, Detroit, New York, Atlanta, Dallas, Birmingham, St. Louis, Chicago, Cleveland, Boston, Philadelphia, and Kansas City, as well as in Miami, Jacksonville, Tampa, Sanford, Belle Glade, and Sarasota.

Florida celery is transported both by rail and by truck. Total shipments for the 1952–53 Florida crop are estimated as 14,282 carlot equivalents, of which 10,126 cars were shipped by rail and the balance of 4,156 carlots were handled by truck. Similar distribution by rail and truck is shown for other seasons. The above combined rail and truck movement for the 1952–53 season accounts for over ninety percent of the 6,474,000 crates estimated as total Florida celery production for that season. Distribution of Florida celery shipments during the same 1952–53 season was to 40 States and to Canada. The great bulk of Florida celery which is handled commercially is transported to and sold in markets outside the production area. The remainder is sold in or transported to markets within the State.

Florida celery is sold in different ways, but sales usually follow customary patterns. The customary methods of sale are on a cash basis, or on f. o. b. shipping point, delivered sales, or on a consigned basis. Whenever Florida celery is so sold or transported, such transactions in the commodity have a direct influence on the celery market. Handlers of Florida celery, if they successfully maintain a balanced competitive position, must make full and constant use of modern means of communication so that they can keep up with market price changes and supply movements of Florida celery both within the production area and at market points outside thereof. This constant attention by celery handlers to prices and movement of celery within the State as well as outside thereof is an essential activity of such handlers in seeking the highest return they can get for celery which they have to handle, or in seeking to purchase celery to their own best advantage if they should attempt to obtain additional supplies to fill orders at hand. Every opportunity for advantageous sale is eagerly sought by celery handlers, and advantageous sales are made regardless of whether celery is sold at shipping point, or at destination, or in consuming markets within the State of Florida, or in Atlanta, Birmingham, Boston, Chicago, Detroit, New York, Pittsburgh, or any other market beyond the production area. It is a primary essential in assessing the market outlook and in making sales for successful celery handlers to survey all accessible markets with a view to accepting the most advantageous opportunities and offers to market their product. Such constant attention to the varying shifts in prices and in movement of supplies places Florida celery handlers in positions whereby they can react quickly to such changes whether they occur within the State or outside the State. In turn, the complete and close attention which Florida celery handlers give to changes in prices and in movement of supply help to create the institution referred to as "the celery market." The Florida celery "market" is closely tied together through modern communication so that buyers and sellers both within the State and outside the State know almost simultaneously of price changes or movement of supply which may immediately or subsequently affect Florida celery prices. The market for Florida celery is a combination of

all the phenomena that relate to the supply of celery in the producing area, the supply that is available for immediate marketing, the supply for marketing later, the quality of such supply, the supply of celery in competing areas with various ramifications of quality and availability, prices quoted by sellers at shipping point and in receiving markets as well as some other points between, and a large number of additional factors that influence both buyers and sellers in helping them to conclude sales of celery.

The factors which make up the celery market are intermingled and interdependent as between shipping point and terminal markets. Shifts in the immediate supply of Florida celery available at shipping point causes changes in the prices at shipping point which in turn are soon reflected in prices changes at receiving markets. Also, as price changes occur in sales of Florida celery in receiving markets these price changes are soon reflected at shipping points. For example, if weather at shipping points turns cool, both buyers and sellers may, and frequently do, change their judgments with respect to supplies that are available or are about to become available and price changes occur in local markets. Such price changes in local markets are soon reflected in terminal markets. If weather in the producing area should become hot and remain so, supplies available for harvest may increase faster than buyers and sellers have previously estimated so that the increased available quantities, with possible changes in quality too, may tend to depress prices at shipping point which information soon becomes known in receiving markets where buyers and sellers adjust their offers and acceptances accordingly. Changes in the supply of celery grown in the State of Florida, or any part thereof, have a direct effect on both terminal market and shipping point prices for all celery. Celery grown in any portion of the production area and marketed at any given time competes with other celery being marketed whether such other celery is grown in other portions of or outside of the production area.

Information with respect to daily sales of Florida celery in terminal markets such as Atlanta, New Orleans, Chicago, Cleveland, Pittsburgh, New York, Boston, and Philadelphia is supplied by public agencies, such as the Market News Service of the United States Department of Agriculture, to any and all handlers, as well as other persons, who request it. This information is followed closely by handlers of Florida celery as a means of keeping abreast of general price levels for celery and of price changes as well as supply movements in various markets. Handlers also obtain additional information of similar nature through their trade connections in the various markets and shipping points. Public agencies supply information with respect to prices and shipments of celery from shipping points. This public and private service enables handlers to maintain constant integration of market information between shipping points and receiving markets.

Many shipping point handlers of Florida celery sell to truckers, as well as to their usual receiving market outlets. Sales to truckers frequently are on a cash basis. Some truckers maintain a constant and established business in the sale and transportation of Florida celery between customary shipping points and usual outlets either within the State or outside the State. On the other hand, some truckers may buy and load Florida celery for the stated purpose of transporting to and selling it in a market within the State. However, if they received information that they can sell to better advantage at an out-of-state market such truckers frequently continued to transport such celery to out-of-state markets contrary to their original intent at time of shipping point purchase.

Any sale or transportation of Florida celery whether to markets within the State or to markets outside the State has a direct influence upon other handling of Florida celery being marketed. To leave the sale or transportation of Florida celery within the State free from the authority of the order while having the sale or transportation of the major portion of the Florida celery transported to or sold outside the State subject to regulation thereunder would create chaotic market conditions within the State which would result in an excessive burden upon the sale and movement of celery to points outside the State and thereby tend to prevent the effectuation of the declared policy of the act.

The phenomena making up the market for Florida celery constitute commerce which is so inextricably intermingled that all sale and transportation of such celery is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce. Therefore, all such transportation and sale of celery grown in the production area should be subject to the authority of the act and of the order which may be issued pursuant thereto. Upon the hearing record evidence, the findings and conclusions in the recommended decision of the Deputy Administrator, Agricultural Marketing Service with respect to the rights to exercise Federal jurisdiction by means of an order for Florida celery are affirmed and adopted. All sales of Florida celery are in the current of interstate commerce or they burden, obstruct, or affect such commerce. All sales of Florida celery by a retailer in his capacity as a retailer or by a producer in his capacity as a producer are exempted by the act from authority to regulate by the order, consequently, the definition of handle should provide specifically for such exceptions.

(2) The declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is, through the exercise of the powers authorized by such act and incorporated in the order, to establish and maintain such orderly marketing conditions for Florida celery, among other agricultural commodities, in interstate commerce as will establish as the prices to farmers, parity prices.

Florida celery producers have not received parity prices during the past several seasons as shown by Exhibit 29. Since the end of World War II and beginning with the 1946 season, Florida celery producers have received parity prices or better for the winter crop in 3, namely 1946, 1947, and 1949, of the succeeding nine crops and for the spring crop in one, the 1947, season.

The 1954 season average price for the winter crop of Florida celery was 72 percent of the Florida parity equivalent; 1953, 50 percent; 1952, 60 percent; 1951, 74 percent; and 1950, 67 percent. The 1954 season average price for the spring crop of Florida celery was 60 percent of the Florida parity equivalent; 1953, 97 percent; 1952, 78 percent; 1951, 59 percent; and 1950, 61 percent. The relationship of season average prices for Florida celery to Florida parity equivalent prices of such celery is such that the powers granted by the act may be exercised through the order to help producers of such celery obtain parity prices for their commodity. Although some growers receive higher season average prices for their celery than the season average prices shown in Exhibit 29, an equal number or weight received the lower prices, so that the returns of the majority of producers are reflected in the prices of the past several seasons which are below parity.

Marketing conditions for Florida celery should be improved, according to evidence, not only because prices to growers have been below parity, but also because there have been numerous occasions during recent past season when f. o. b. shipping point celery prices were less then marketing costs, which include such direct costs as harvesting, packing, cooling, and sales. The record also shows that marketing conditions can be improved by prohibiting the marketing of discounted grades, sizes, and quality of celery and by limiting the volume of shipments from the production area so that grower prices which are below the cost of marketing may be avoided. Although the record shows that, because of competitive celery shipments from other areas, there are limits to which volume control may be effective in promoting Florida celery growers' prices that tend toward parity, the Florida celery industry, through the exercise of the powers granted in the order, should be able to limit shipments of excessive volume so that sales at less than cost of marketing may be avoided. The Florida celery industry also needs the marketing assistance which may be obtained through exercise of the powers granted in the order so that by reason of volume control, or grade, size, and quality control, or both, grower prices may be improved toward parity to the extent that it is possible within limitations of the act and the limitations imposed by competition from supplies originating in other producing areas.

F. o. b. shipping point prices of Florida celery vary considerably from week to week throughout the season. Such variations are directly effected by the amount of Florida celery handled and by the grade, size, and quality of such celery. Shipments of excess quantities of Florida celery, also shipments of off grades and discounted sizes, have tended to maintain prices below parity and to

prevent the establishment of orderly marketing conditions.

Florida Pascal celery prices, f. o. b. shipping point, in the Sanford-Oviedo-Zellwood section, ranged from $1.00 to $3.00 per crate for 2–3 dozen size during the 1954 season (ending in the spring of 1954). Similar fluctuations occurred the same season in that section for four dozen sizes, ranging from $1.00 to $2.50 per crate. A comparable range in prices for 6–10 dozen size Pascal in the same section for that season was $1.25 to $3.00 per crate.

Shipping point prices in the Belle Glade section were comparable during the same season ranging from $1.15 to $3.25 per crate for 2–3 dozen size Pascal, and from $1.25 to $2.75 per crate for 6–10 dozen size. In the Sarasota section, comparable f. o. b. shipping point prices during the 1954 season ranged from $1.15 to $3.00 per crate for 2–3 dozen size Pascal, and from $1.50 to $2.50 per crate for 6–10 dozen size Pascal.

During the same season prices of Golden celery in the Sanford-Oviedo-Zellwood section ranged from $1.25 to $3.75 per crate for 3–4 dozen size. Prices for Golden celery in the Belle Glade area followed a similar course and ranged from $1.15 to $3.50 per crate for 3–4 dozen size. The low points on the Golden celery prices which were in late April in the Sanford-Oviedo and in the Belle Glade areas occurred at the time when prices for Pascal celery also were at their lowest points of the season.

Total weekly rail and truck shipments of Florida celery during the same season ranged from 423 carlots equivalent during the second week of January 1954 to 792 carlots during the second week of April. Total carlot movement of Florida celery fluctuated more than one hundred cars from one week to another during parts of the season. Shipping point prices were lowest for the season during the periods of heaviest carlot movement.

Similarly, f. o. b. shipping point prices for Florida Pascal and Golden celery fluctuated in much the same manner for the 1949, 1950, 1951, 1952, and 1953 seasons. For example, during the 1952–53 season, f. o. b. shipping point prices of Florida celery in the Sanford-Oviedo-Zellwood section ranged from $1.25 to $4.25 per crate for 2–3 dozen size Pascal, and for 3–4 dozen size Golden they ranged from a low of $1.40 per crate in the third week of March to a high of $4.50 per crate the first week in May. F. o. b. prices in Belle Glade, the same season ranged from $1.50 to $3.00 per 2–3 dozen size for Pascal type and for 2–4 dozen Golden celery they varied from a low of $1.40 in the third week of February and again in the third week in March to a high of $3.50 per crate in the second and third weeks in May. The daily and weekly variations in the price of Golden celery closely followed the variation in the price of Pascal celery.

Total weekly carlot shipments by rail and truck during the 1952–53 season ranged from 424 to 737 cars per week, with total weekly shipments varying as much as 180 cars from one week to the next during the height of the shipping season.

During the 1951–52 season f. o. b. shipping point prices for Florida celery in the Sanford-Oviedo section ranged from $1.35 to $3.25 per crate for 2–3 dozen size Pascal and for 3–4 dozen size Golden ranged from a low of $1.75 to a high of $4.50 per crate. F. o. b. prices for the same sizes of Golden celery in the Belle Glade section followed a similar pattern ranging from $1.50 to $4.50 per crate. Prices of Golden celery during that season again closely followed the daily and weekly variations of prices of Pascal celery. Weekly truck and rail shipments of Florida celery during the same season ranged from 434 carlots equivalent to 886 carlots, fluctuating as much as 344 cars from one week to the next.

In the 1950–51 season, f. o. b. prices for Florida celery in the Sanford-Oviedo section ranged from $1.35 to $5.00 per crate for 3–4 dozen size Pascal and they averaged from $1.35 to $5.50 per crate on 3–4 dozen size Golden. Prices for Pascal celery in the Belle Glade area ranged similarly for the 3–4 dozen size from $1.50 to $6.00 per crate. Prices of Golden celery again followed Pascal celery and varied from day to day and week to week approximately the same as Pascal celery prices. Weekly truck and rail shipments of Florida celery ranged from 314 to 836 carlots equivalent, fluctuating as much as 180 carlots from one week to the next.

In the 1949–50 season, f. o. b. prices for Florida celery in the Sanford-Oviedo section ranged from $1.15 to $3.50 per crate for 3–4 dozen size Pascal, and for 3–4 dozen size Golden, they ranged from $1.25 per crate in the third week of March to $3.75 per crate in the first week of May. Prices of Golden celery fluctuated from day to day and week to week at much the same level as prices of Pascal celery. Total weekly truck and rail shipments of Florida celery ranged that season from 428 to 853 carlot equivalents, fluctuating as much as 270 cars from one week to the next.

In the 1948–49 season, f. o. b. prices of Florida celery in the Sanford-Oviedo section ranged from $1.50 to $6.00 per crate for 3–4 dozen size Pascal and for Golden type from a high of $6.50 per crate for 3–4 dozen size during the second week of January 1949, to a low of $1.35 during the first week of April. Similarly, prices for the same size of Golden celery in the Belle Glade area ranged from $4.50 per crate for 3–4 dozen size to a low of $1.40 per crate the first part of April. Most shippers observed cutting holidays during the period of low grower prices in April 1949. F. o. b. prices of Golden celery closely followed prices of Pascal celery during the 1949 season. Weekly rail and truck shipments of Florida celery ranged from 333 to 657 carlot equivalent, fluctuating as much as 165 cars from one week to the next.

F. o. b. price reports, as shown by Exhibits 13 through 18 and by Exhibit 28, show price distinctions for both Pascal and the Golden celery for each season from 1949 through March 11, 1955. These price distinctions by sizes for both types of celery are shown for both the Sanford-Oviedo and for the Belle Glade sections. Price reports by size for Pascal type celery in the Sarasota area show that prices by size vary from week to week during the season depending upon the relationship of the volume of celery of such sizes to the total volume of celery being shipped. Prices of the smaller sizes were lower at times than prices for the large sizes and, during other periods of the season, prices for smaller sizes were higher than the larger sizes.

Changes in the total supply of celery being marketed, also variations in the grades and sizes of such celery, are reflected in fluctuations in shipping point prices of Florida celery. Excessive shipments of such celery, also shipments of off-grades and off-sizes, tend to depress shipping point prices. Terminal market prices for Florida celery and, in turn, f. o. b. shipping point prices for such celery were directly affected each season from 1949 through the 1954 crops by the volume of celery shipped during specific periods. Similarly, f. o. b. shipping point prices during the first portion of the 1955 season, through the first part of March 1955, were also directly affected by the volume of Florida celery shipments. In addition, prices during the 1938 season, covering shipments from the fall of 1937 to the end of the Florida celery shipping season in the spring of 1938, also were directly influenced by the volume of Florida celery shipments. During portions of each of the above cited seasons celery prices tended to decline when Florida celery shipments were exceptionally heavy and f. o. b. shipping point prices were also exceptionally low, to the point that voluntary shipping holidays were observed because growers and shippers also were unable to recover harvesting and other marketing costs. The exceptionally heavy Florida celery shipments during the 1938 season, coupled with large supplies of celery from competing areas and large supplies of competing vegetables, resulted in low prices. The limitation imposed on Florida celery shipments through Order No. 21—the prior marketing order regulating the handling of Florida celery—had some favorable effect on grower prices, and, although such effect was not as great as some members of the industry desired, it was nevertheless direct and it tended to increase grower prices above what they would otherwise have been. The effect of changes in the volume of Florida celery shipments during specific parts of the 1938 season was directly related to the level of prices which producers received for their commodity.

The need for a marketing order program which will help to establish and maintain such orderly marketing conditions for Florida celery in interstate commerce as will tend to establish, as the prices to farmers, parity prices for their celery, is established by substantial evidence.

Based on the hearing record evidence, the findings and conclusions in the aforesaid recommended decision with respect to the need for the order to improve marketing conditions for Florida celery through effectuating the purposes of the act are affirmed and adopted. Substantial evidence in the hearing record shows that limitation of the grades, sizes, and quality of Florida celery, or limitations of the volume of Florida celery, or both, which may be marketed in or transported to any or all markets, will tend to establish and maintain such orderly marketing conditions therefor as will establish parity prices to producers thereof.

(3) The term "celery," used in the order, identifies the agricultural commodity referred to therein and establishes "celery" as the commodity to which the handling activities related thereto are subject to the authority of the order. The term "celery" should be defined to mean all varieties and types of the vegetable commonly known as celery in the production area and throughout the remainder of the United States. References to celery have a common and specific meaning to growers and handlers in the production area, as well as to handlers and other persons in various parts of the country. The definition of celery should include both Pascal and Golden types of the commodity grown in the production area. This definition not only identifies the agricultural commodity grown in the producton area, and commonly known as celery, which is subject to the authority of the order but also, distinguishes it for regulatory purposes from any other agricultural commodity and from celery grown in any other section or area.

The act authorizes marketing agreements and orders applicable to celery, or to any regional or market classification thereof. All varieties of celery, including both Pascal and Golden types, which are grown in the production area constitute a regional classification of celery and regulation of the handling of such celery as authorized by the order will tend to effectuate the declared policy of the act. Celery, therefore, should be defined in the order to mean all types or varieties of celery grown in the production area.

The term "production area" should be incorporated in the order as a means of specifying the area within which celery must be produced before the handling thereof is subject to regulation thereunder. Production area is defined to include all territory within the State of Florida. All celery producing sections of commercial importance within southeastern United States are included within the production area.

There may be minor variations in practices in methods of production, harvesting, and marketing of celery from one growing section to another within the production area; one type of celery may be preferred by some farmers for growing in the Everglades section, another may be preferred by some producers in the Sanford section or in the Sarasota section. No producing section has a marketing season which is entirely separate and apart from the other sections' marketing seasons as shown by the tabulation of monthly rail and truck shipments for the various Florida celery producing areas. Each section within the production area has to share and compete in common markets at the same time as one or more other sections. Undesirable grades, sizes, and qualities, of celery have the same effect in a market on the prices paid for Florida celery irrespective of the producing section or sections. Grading and quality standards for commercial sales of celery are the same throughout the production area. A high percentage, well over three-fourths of the Florida celery crop is inspected and certified to on the basis of such uniform standards. Sales of celery from each growing section within the production area compete directly on the basis of grade, size, quality, and volume with sales of celery from other growing sections being made at approximately the same time.

Although celery is not now grown commercially in some counties within the production area, especially among some northern and western counties, such counties contain land areas capable of supporting commercial production of celery and, as such, are potential growing areas. To decrease the size of the proposed production area or to divide the production area into separated regions would tend to defeat the purpose of the order in that excess shipments, or poor quality, or discounted sizes from a section in Florida outside the area could depress the price of the celery regulated and would have a similar effect on price as an illegal shipment from the regulated area. There is no reasonable method or basis of dividing the production area into two or more areas for purposes of separate marketing orders.

All territory included within the boundaries of the production area constitutes the smallest regional production area that is practicable, consistent with carrying out the declared policy of the act, and the production area, therefore, should be defined as hereinafter set forth.

Exception was taken to the findings in the recommended decision with respect to the definition of production area which means the entire State of Florida. The aforesaid findings with respect to the State of Florida being the smallest production area that is practicable, consistently with carrying out the declared policy of the act, are adequately supported by substantial evidence in the hearing record and they are hereby affirmed and adopted and the exception thereto is overruled.

(4) The terms "handler" and "shipper" are synonymous and they should be defined to identify those persons who handle celery in the manner described and set forth in the definition of "handle" because such persons are subject to the regulations authorized by the order. Any person who is engaged in the act or acts of handling or shipping celery, or who causes celery to be handled or shipped, is a handler. Such persons are responsible for the quantity of celery, as well as for the grade, size, and quality of celery delivered to transportation agencies, or which is transported or sold in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect such commerce.

Common or contract carriers transporting celery which is owned by another person are performing a handling function but such handling should not be regulated under the order because such carriers are not responsible for the grade, size, or quality of the celery being transported. Neither are they responsible for the introduction of such celery into the stream of interstate commerce. Also the sole interest of common or contract carriers in such celery is to transport it for a service charge to destinations selected by others. The responsibility for the quantity of celery, as well as for the grade, size, and quality of such celery delivered to a common or contract carrier should be borne solely by the persons responsible for delivering such celery to the carriers.

Therefore, the term handler or shipper should be defined to mean any person (except a common or contract carrier of celery owned by another person) who handles celery or causes celery to be handled.

"Handle" is defined in the order so as to determine and specify the activities and transactions by handlers which are within the regulatory authority of such program. Such activities include all those commonly recognized as handling and begin with the harvesting of celery and follow it through succeeding transactions until it reaches final destination.

The definition of handle does not include the growing of celery for such activities should be construed as a producer function in the capacity of a producer. Any sale of unharvested celery is not within the definition of "handle" because "handle" applies under the order to celery upon harvesting thereof and after. Sale of celery at retail is not included within the definition of handle for such transaction is considered as the act of a retailer in his capacity as such.

Harvesting celery is customarily and normally considered part of the handling process in the production area. It is customary for the person or persons responsible for handling celery to assume responsibility for determining when celery shall be harvested and to assume full responsibility for the manner or method of harvesting, including the direction of labor and the number of rows in particular fields or blocks to be harvested at any given time or during any given period.

Harvesting of celery begins with the cutting of celery stalks from the roots. Several methods may be used but each has for its primary purpose the beginning of the harvesting operations and starting such celery through the marketing processes. Harvesting is an organized, integrated process that is a basic, indivisible part of the marketing process. Harvesting may be performed as a simple, hand operation or it may be a large scale, mechanical operation. In either instance, or in any variation thereon, the primary purpose of harvesting celery is to prepare it for market so that it can be sold and transported in its usual packaged or crated form to ultimate destination either within or outside the production area.

Activities included within the definition of handling include all those performed in connection with the mechanical harvesting of celery. These are not only the cutting of celery, but also necessary stripping, washing, grading, sizing, and the crating or packaging of celery, as well as the placing of such

packaged or crated celery on trucks for hauling to the coolers. Handling also includes the hauling of such celery from the field to the cooler and any and all transactions involving sale or transportation of such celery from the cooler until it reaches the local retailer or it leaves the production area. The same activities are included within the definition of handle if such activities should be performed by separate crews, such as in so-called hand harvesting.

The definition of handle should include the sale of celery among handlers within the production area. It is common practice for handlers to buy and sell celery among themselves to help finish out loads, or for other business reasons. Such sale transactions in celery should be included under the definition of handle because they have a direct effect upon the marketing of celery and directly influence interstate commerce in such commodity. The act of selling celery makes the person who effects such sale a handler because such sale directly affects the market for celery. The transportation of celery also has a direct bearing on the market and the movement and sale of celery, regardless of whether such sale or movement is within the production area or from the production area to any point outside thereof because all transportation of celery is so intermingled that such activities cause such celery to become a part of the stream of interstate commerce, or directly burden, obstruct, or affect such commerce.

Any handling of celery under the order is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the order. Those terms should be defined for the purpose of designating specifically their applicability, and establishing limitations of their respective meanings wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citation for the statute pursuant to which the proposed regulatory program is to be operative, and makes it unnecessary to refer to such citations thereafter.

The definition of "person" follows the definition of that term as set forth in the act, and will ensure that it will have the same meaning as used in the act.

The definition of "type" or "variety" is intended primarily to establish a basis for distinguishing between Pascal type or variety and Golden type or variety of celery. Both the Pascal and Golden types of celery are commonly recognized in the production area and throughout the marketing area. Market destinations are based on these two types. This definition recognizes the customary distinction between Pascal and Golden types of celery and it is intended that such recognition of distinctions through this definition should provide a basis for the committee and the Secretary, as well as handlers, to distinguish between the two for regulatory purposes under the order.

The definition of "harvest" or "preparation for market" relates to and specifies those activities which are an essential, elementary part of the handling process. Harvest or preparation for market begins with the cutting of the celery stalk or bunch from the roots. This activity is accompanied by or immediately followed by some stripping of outer stalks and trimming of the crown to make the bunch suitable for market. In the case of mechanical harvesting the bunch is then placed on the conveyor arms, which move it to the circular saw, then to the washer, then to the sorting belt where laborers additionally strip the celery, when necessary, then sort the celery for grade or quality differences, and for size. Packers then place bunches of celery in crates, according to grade and size. The packages or crates are then closed, moved on to trucks and taken to the cooler for chilling, then to loading platforms for transfer to cars or trucks, or they are moved to temporary or other storage.

Activities involved in harvest or preparation for market by hand, or in a combination of hand and mechanical harvesting, are essentially the same except for minor time and location differences. In the case of so-called hand harvest, celery may be cut by knives in the hands of laborers, or by laborers with push knives, or by multiple row cutters pulled by tractors. This is followed by stripping, placing in field boxes, topping, placing on trucks and hauling to the central wash house. At this point, the celery is dumped from the field boxes. It is conveyed through a washer, then continued on the sorting table where it is given additional stripping, if necessary. At the same time and as part of the same continuous process the celery is graded and sorted for quality and size, then placed in crates, which are closed, then conveyed to coolers for chilling, or to loading platforms for transfer to cars or trucks, or to temporary or other storage.

All such activities, regardless of how they are performed, are part of the preparation of such celery for market. They constitute an essential, customary part of the harvesting or preparation for market of celery in the production area.

"Producer" should be defined to mean any person who is engaged in a proprietary capacity in the production of celery within the production area and who is producing such celery for market. A definition of the term producer is necessary for appropriate determinations as to eligibility to vote for, and to serve, as a member or alternate member of the committee, and for other reasons. The term should be limited to those who have an ownership interest in celery produced in the production area. It should not include laborers or others who perform work for a fee or for hire in producing celery. A producer is any "person" who produces celery for market; and "person" is defined as an individual, partnership, corporation, association, or any other business unit—each of which should be considered a legal entity. Each legal entity, whether an individual, a partnership or "joint venture", or a corporation, so engaged in the production of celery for market should have, for example, one voice in selecting committee members and alternates in one district.

A person who owns and farms land resulting in his ownership of the celery produced on such land should be considered as the producer of such celery. The same is true with respect to a person who rents and farms land resulting in his ownership of all or a portion of the celery produced thereon. Likewise, a person who owns land which he does not farm but, as rental for such land, obtains the ownership of a portion of the celery produced thereon should be regarded as the producer of that portion, and the tenant on such land should be regarded as the producer of the remaining portion produced on such land. In each of the above situations where the person acquires ownership of all of the particular celery, such person, regardless of whether an individual, partnership, association, corporation, or other business unit, should be considered as one producer. However, in cases where the ownership is divided, i. e., where one person obtains ownership of only a portion of the particular production and another person obtains ownership of the other portion of such production, each such person should be considered as a producer.

Numerous persons are engaged in celery growing operations who are paid for their services on a wage or per unit of production basis. As heretofore indicated, if such persons do not have title to any of the celery, they are merely laborers working for a stated fee and as such should not have a producer status under the order.

Definitions of "grade" and "size" are incorporated in the order to enable persons affected thereby to determine the basis for application of grade and size limitations to the commodity they handle. Grade, one of the essential terms in which regulations are issued, should be defined as comprehending the equivalents of the meanings assigned to this term by (i) the United States Standards for Celery (7 CFR 51.560 et seq.) issued by the United States Department of Agriculture, (ii) the United States Consumer Standards for Celery stalks (7 CFR 51.595 et seq.) issued by the United States Department of Agriculture, and (iii) modifications or amendments of such standards, and by variations of such standards by regulation under the order. Regulations under the order can then use the term grade with the constant meaning assigned thereto in such standards, or in such modified or amended standards, or such regulation can vary such terms by prescribing, for example, a percentage of grade, as may be required at the time of issuing such regulation. Official inspectors are qualified to certify the grade of celery in terms of any one of the aforesaid standards, or modification, amendment, or variation thereof.

Celery is customarily sold on the basis of size which is ascertained and represented by the number of stalks or bunches packed per standard wire bound crate, commonly referred to as No. 3601, and measuring, inside 9¾ x 16 x 20⅜ inches. This method of designating size has been followed for years. It is commonly accepted as the standard method of size determinations in the producing area and in markets both within and outside the production area. Market quotations are customarily made on the basis of size as determined by the number of dozens of stalks per crate. Daily sale and purchase of celery between handlers, brokers, and receivers are on the same size basis. So also are sales among handlers. The record is replete with facts that the number of dozen of stalks or bunches of celery per standard crate is the common and usual, and a satisfactory method for determining size of celery. The definition of size adopts this customary method of ascertaining and determining size of celery. Exceptions was taken to the proposed findings and conclusions and to the provision of the recommended order that the term "size" means the number of celery stalks which may be packed in a container of fixed size and capacity, as approved by the Secretary pursuant to methods set forth in the proposed order. The terms of the order through the definition provide methods for determining size of celery. Such methods should be based upon the same principles which are now usually followed, namely the number of celery stalks which will customarily pack in a box that is accepted as a standard unit. As the evidence shows, the present standard container, No. 3601, may be used as a basis for measurement. However, if the industry should adopt the use of another size container on a widespread basis the committee might recommend that such other box or unit of fixed dimensions should be used in addition to or in place of the present standard box as a basis for determining size of celery. The methods for fixing the size and capacity of any such box or unit are those set forth in the terms and conditions of the order.

The United States Standards for Celery are generally used for shipments of celery from the various producing sections. However, in some instances, Florida celery is graded in terms of consumer standards and latitude for the application of the latter standards should be afforded.

"Container" is defined in the order as a basis for differentiating among the shipping units in which celery is marketed and for the permissive application of different regulation to such different shipping units. This definition also enables the Secretary, pursuant to committee recommendation, to establish the present standard crate as the basic, proper crate for determining size of celery. Authority for regulation by type of container was enacted by the 83rd Congress as an amendment to the Agricultural Marketing Agreement Act of 1937, as amended. Use of this authority in the order is appropriate and proper as a means of promoting orderly marketing for celery.

The definition of "pack" or "packs" is intended to include the manner of placing celery in crates or other containers. The term standard pack has a customary, specific meaning among celery handlers in the State of Florida. This includes a variety of factors, such as the manner in which celery stalks are laid in reverse layers in the crate, also the extent to which the celery is tightly placed in the container. Experience indicates that handling of celery evolves new practices, such as the use of the wirebound crate. If a new type of pack, such as a consumer pack, should develop, which the committee might find desirable to regulate differently than the standard pack, the order should contain authority for doing so. Such different packs may be recognized pursuant to rules and regulations recommended by the committee and approved by the Secretary.

A definition of "fiscal period" is incorporated in the order to establish the beginning and end for an operating period. The establishment of such period is necessary for business-like-administration of the order. The date marking the end of one fiscal period and the beginning of the new should fall at a time of little or no activity in the marketing of the celery crop and should allow sufficient time for the committee to organize and be prepared to function prior to the start of the new marketing season. July 31 is after the end of the spring celery deal in Florida and August 1 is prior to the beginning of the fall planting season. No commercial shipments of celery from Florida are made during this between-season time of year. It is therefore, appropriate that fiscal period should be defined as set forth in the order.

The definition of "committee" is incorporated in the order to identify the administrative agency which is responsible for assisting the Secretary in the administration of the program. Such committee is authorized by the act and the definition thereof minimizes the use of words in the order.

"District" should be defined in the order as referring to each of the geographical sections or divisions of the production area, either as initially established or as later reestablished, in order to provide a basis for the nomination and selection of committee members and for regulatory purposes. The proposed division into districts is adequate and equitable and it provides a practical basis for the purposes for which intended.

"Field' is defined to mean a well delineated plot of cultivated land upon which celery is grown. Producers are well acquainted with their fields of celery and they know to what they refer when speaking of any field. Field is used to specify and identify particular plots of celery. Such is the purpose of the definition in the order.

"Block" is defined as a portion of a field or fields of celery. Block also is used to identify certain plots of celery. Its purpose in the order is to assist in identification of celery that was planted at particular times, or which is to be harvested and marketed at particular times, or both.

"Available supply of celery" is defined in the order to mean the linear feet of rows of unharvested celery of a particular type or variety which is ready for harvest for shipment during a particular prorate period or periods. The available supply of celery for any handler should be the amount, expressed in linear feet of rows of celery which are ready or will become ready for harvest during a specific period. From the available supply of celery submitted by each handler, the total available supply of celery may be computed by the committee as a basis for estimating the relationship of supply to market requirements. Also, the available supply of celery of a handler is to be used as a basis for establishment of allotments for the handler.

"Allotment" is defined to mean the amount of celery which may be handled by any and all handlers during specific prorate periods. Allotment includes the linear feet of rows which each handler may harvest for shipment during a specific period of volume regulation under the order.

"Prorate period" is defined to mean the period or periods recommended by the committee and approved by the Secretary during which allotments of celery may be established for handlers and pursuant to which the volume of shipments may be limited.

"Export" is defined to mean shipments of celery beyond the boundaries of continental United States and of Canada. For purposes of regulations under the order, Canada should be cosidered as requiring the same types, grades, and sizes of celery as the United States market. Shipments to off shore points, such as some of the sales to steamship lines, or to off shore military installations, should be classed as export. Shipments, if any to Cuba, or to Puerto Rico or the Virgin Islands should be classed in the same way.

(b) The order should provide for the selection by the Secretary of an administrative committee, called the Florida Celery Committee composed of nine producer members. Establishment of this committee is desirable and necessary to aid the Secretary in carrying out the declared policy of the act and such committee is authorized by the act. Inasmuch as most producers within the production area also perform handler functions and are familiar with marketing conditions for celery, no useful purpose would be served by providing for handler representation, as distinct from producer representation, on the committee.

The committee membership of nine producers would be equitable and practicable. Evidence supports the finding that this plan of representation has received intensive study by the industry and that, after thorough consideration, such division of responsibility among nine producers is appropriate.

Each member of the committee should be a producer, or an officer or employee of a producer, of celery in the district for which selected and each such person should be a resident of the production area. A person with such qualifications should be intimately acquainted with the problems of producing and marketing celery grown in such district and each may be expected to present accurately the problems incident to production or marketing of celery grown in that district. The qualifications for each alternate should be the same as for the respective member for whom he may act. Such qualifications should help to assure that the interests of the group from which each is selected will be adequately represented in committee deliberations.

Each committee member and his respective alternate should serve a one year term of office ending July 31, and for any additional period needed for the selection and qualification of his successor. Such term of office is reasonable and will allow the celery industry to express its approval or disapproval of the committee's membership at the end of any season and prior to the opening of a new season. Committee members and alternates should be selected for the fiscal period during which they are to serve and until their successors are selected and have qualified.

Districts are established to provide a basis for selection of committee members. The districts as initially established were worked out by a committee of industry spokesmen and they represent the best basis which could be devised at this time for providing a fair, adequate, and equitable representation on the committee.

The districts as set forth in the order constitute what are generally known and recognized by the celery trade as the major growing sections within the production area. For example, District No. 1 or the South Florida District is generally known as the Glades section; District No. 2 or the Florida West Coast District is commonly referred to as the Sarasota section; and District No. 3 or the Central and North Florida District includes the Sanford, Oviedo, Zellwood, Weirsdale, and Ocklawaha producing sections.

The provision for redistricting is desirable because it allows the committee to consider from time to time whether the basis for representation could be improved and how such improvements should be made. The guides as set forth in the order which the committee should keep in mind in considering redistricting are appropriate and desirable points of reference that relate directly to the welfare of celery producers and handlers.

It is practical and equitable that selection of committee members and alternates should be on the basis of districts as provided for in the order. This would provide a geographical basis for selection of such members. Such geographical basis should be, and for purpose of initial membership has been, related to the number of producers and the production of celery within the production area so that a practical basis for establishing equity may be attained.

The order should provide for the selection of 3 members and 3 alternates from District No. 1, 2 members and 2 alternates from District No. 2, and 4 members and 4 alternates from District No. 3. Although the representation on the committee from District No. 2 appears to be in excess of that warranted by the acreage and production of celery grown in this district as compared to the other districts, such representation is equitable in that a comparison of the districts in terms of the numbers of producers serves to counterbalance the weight given to acreage and production. The committee composition should result in equitable representation and treatment for both large and small producers. The provision that there should be a producer selected as an alternate for each member provides a practical working basis for having full representation on the committee when any member from a district is absent.

A procedure for the election by producers of nominees for membership on the committee should be prescribed in the order. Such provision is intended to provide for assistance by the celery industry to the Secretary in his selection of members and alternates on the committee. It is customary in the Florida celery industry for producers to conduct meetings to establish their preference for positions of trust and responsibility. The nomination of prospective members and alternates at meetings of producers in the respective districts is a customary and practical method of providing the Secretary with the names of the persons which the industry desires to serve on the committee. In order to obtain an indication of the industry's preference for membership on the initial committee, meetings of producers may be sponsored by the United States Department of Agriculture, or by any agency or group requested to do so by the Department. This provides a practical and an expedient means of initiating movement whereby the industry may express its wishes and preferences with respect to committee membership.

Nomination meetings for the purpose of electing nominees for members or alternates on the committee after the initial committee should be held prior to July 10 of each year because this allows ample time before the new term of office for the industry to make its preferences known concerning nominees. Such meetings should be held by the committee or by persons or groups requested by such committee to hold such meetings.

At least two nominees should be designated for each position as member and each position as alternate so that the Secretary will have a choice in making his selection. In addition, if a selectee declines to serve, the Secretary would also have the name of another prospective member or alternate from which to make a selection. It is the desire of the industry, and it is appropriate that producers voting at such industry meetings may ballot for nominees to indicate the ranking of their choice for each position to be filled. The producer in each district who, during the preceding season, had the largest volume of sales of his own celery production in such district should be permitted to designate two nominees for member and two nominees for aletrnate member. This permission is in the order so that a person with an important stake in the celery industry will be assured a voice in the selection of the committee members from the district involved. Although small producers serving on the committee will undoubtedly have the interests of the industry foremost, testimony at the hearing indicated that such small producers have a relatively short shipping season, their interest in the celery "deal" tends to wane at the conclusion of their individual deals, and the industry would best be served by providing for the inclusion among committee membership of at least one large producer from each district. Nominee lists should be supplied to the Secretary in the form and manner prescribed by him so as to establish administrative uniformity in the handling of such matters. Such nominations for committee members and alternates should be supplied to the Secretary not later than July 15 of each year to enable him to select the committee prior to the new term of office.

Only producers should participate in nominating members and alternates on the committee because the committee will be composed entirely of producer members.

If a person produces celery in more than one district, such person should select the district in which he wishes to cast his vote for nominees on the committee. Any other procedure would tend to give such person a greater voice than other producers in the nomination of committee members.

Each producer participating in the industry meetings for election of nominees to the committee should be limited to one vote on behalf of himself, his agents, subsidiaries, affiliates, or representatives in designating nominees. Voting on any other basis would not provide for equitable representation because it would give the producers with interest in more than one district a greater voice in election of nominees than producers operating in only one district. The plan of one vote for each producer should be so construed that the person eligible to vote in a nomination meeting shall be allowed to cast one vote for each position which is to be filled in the district with which he affiliates. For example, at meetings for election of nominees to the initial committee each person voting as a producer in District No. 1 would be allowed to cast three votes, one for each of the three member nominees, and likewise for the alternates.

In order that there will be an administrative agency in existence at all times to administer the order, the Secretary should be authorized to select committee members and alternates without regard to nominations if, for any reason, nominations are not submitted to him in conformance with the procedure prescribed therein. Such selection should, of course, be on the basis of the representation provided in the order so that the composition of the committee will at all times continue as prescribed therein.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in such capacity. This requirement is necessary so that the Secretary will know whether or not the position has been filled. Such acceptance should be filed within 10 days after notification of appointment so that the composition of the committee will not be delayed unduly.

It is also desirable and necessary that the Secretary should be authorized to fill committee vacancies without regard to nominations if the names of nominees to fill any such vacancy are not made available to the Secretary within thirty days after such vacancy occurs. The Secretary should have recourse to such means of filling vacancies in order to maintain continuity of administrative agency operation and to insure that all portions of the production area are adequately represented in the conduct of committee business.

Each alternate should be authorized to act in the place and stead of a member for whom he is an alternate during such member's temporary absence. Continuity of operation of the order is best assured by such authorization. An alternate should be authorized to act in a member's absence when such absence is due to death, removal, resignation, or disqualification of the member. Alternates acting in the place and stead of members may continue to act in such capacity until a successor for the member has been selected and has qualified.

A quorum of the committee should consist of at least six members. This would not only insure that one more than a majority of the members must be in attendance at committee meetings but also would require that representation be present from at least two of three districts. Committee decisions should, therefore, reflect an accurate and representative cross section of industry thought and attitudes.

Not less than six members of the committee should be required to concur in any committee action in order for it to pass. Such a voting requirement, constituting a minimum of two-thirds of the membership, is deemed reasonable and adequate.

The committee should be authorized to conduct meetings and to vote by telephone, telegraph, or other means of communication. Thus, two types of assembled meetings may be held. In one instance the assembled meeting may be held at the central location and be attended in person by all committee members and alternates. In the other type of assembled meeting, some members and alternates may be assembled simultaneously at different locations, but connected by means of telephone whereby each person in each group may actively enter the discussions and be heard by each other member in any other group, and each member may vote in person. Improved telephone equipment, including loud speakers and microphones, make such arrangements practical in that it permits the free exchange of ideas and thoughts by parties at one location, such as Sanford, with other members at different locations such as Sarasota or Belle Glade. The distance between major producing sections in Florida is such that an arrangement whereby assembled meetings may be held by telephone, as above described, may make it possible for members and alternates to avoid considerable loss of time in traveling from their normal places of business to a central location. Assembled telephone meetings of this type may be used after the program is operating smoothly and efficiently. Also, when a matter to be considered is routine so that it would be unreasonable to call an assembled meeting at a central location, or in other instances, if rapid action is necessary because of an emergency, assembled meetings at different locations should be authorized. In addition, the committee should be authorized to vote by telephone, telegraph, or other means of communication. Any votes cast at other than an assembled meeting should be confirmed promptly in writing to provide a written record of the vote so cast. In case of an assembled meeting, however, all votes should be cast in person so that an absent member may not participate.

Committee members and alternates should be reimbursed for necessary expenses incurred in the performance of service to the committee. Expenses for services by committee members should be allowed only for those specifically requested or directed by the committee. Such expenses might include travel, hotel accommodations, and meals. Reimbursement for reasonably necessary expenses is required to offset actual out-of-pocket expense incurred in performing duties in connection with the order.

The committee should be given those specific powers which are set forth in section 8c (7) and (C) of the act, because such powers are authorized to be granted by the enabling statutory authority and they are necessary so that an agency of the character set forth in the order can function.

The committee's duties, as set forth in the order, are necessary for the discharge of its responsibilities. The duties established for the committee are generally similar to those specified for administrative agencies under other programs of this character. It is intended that any activities undertaken by members or alternates of the committee will be necessary for the committee to carry out its responsibilities as prescribed in the order. It should be recognized that these specified duties are not necessarily all inclusive in that it may develop that there are other duties which are incidental to, and not inconsistent with, the terms and conditions of the order which the committee may need to perform.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee during each fiscal period for the maintenance and functioning of such committee and for such other purposes as the Secretary may, pursuant to the provisions of the order, determine to be appropriate. The expenses so incurred should be shared by handlers on the basis of the ratio of each handler's total celery handled by him as the first handler thereof to the total celery handled by all first handlers during specified fiscal periods. The determination of individual handlers shares of expenses should be based upon total celery handled by first handlers thereof to avoid duplication of assessments on the same celery.

The committee should be required to prepare a budget at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of income and expenditures necessary for the administration of the order for such period. Each such budget should be presented to the Secretary with an analysis of its components and explanation thereof in the form of a report on such budget. It is desirable that the committee should recommend a rate of assessment to the Secretary which should be designed to bring in during each fiscal period sufficient income to cover expenses incurred by the committee.

The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of such expenses by administrative agencies, such as the Florida Celery Committee, and the statute also requires that each order issued pursuant to the act should contain provisions requiring handlers to pay their pro rata shares of the necessary expenses.

Each handler should pay the committee upon demand his pro rata share of such reasonable expenses which the Secretary finds will be incurred necessarily by the committee during each fiscal period. Such pro rata share of expenses should be equal to the ratio between the total quantity of celery handled by him as the first handler thereof during a specified fiscal period and the total quantity of celery so handled by all handlers during the same fiscal period. It is necessary that responsibility for the payment of the assessment on each lot of celery be fixed and it is logical to impose such liability on the first handler of such celery. In most instances the first handler and the applicant for inspection are the same person. However, in the event the first handler fails to apply for and obtain inspection, this does not in any way cancel his obligation with respect to the payment of assessments.

Assessment rates should be recommended by the committee and applied by the Secretary to a specific unit. For example, assessment rates may apply to carlots, or they may be applied on a crate basis, or by any other unit commonly used in marketing celery grown in the production area. However, such assessments for a fiscal period should be applied on a uniform rate basis.

At any time during or subsequent to a given fiscal period the committee should be authorized to recommend the approval of an amended budget and the fixing of an increased rate of assessment to balance necessary committee expenses and revenues. Upon the basis of such recommendations, or other available information the Secretary should be authorized to approve

amended budgets and, if he finds that the then current rate of assessment is insufficient to cover committee administration of the order he should be authorized to increase the rate of assessment. The order should authorized the application of such increased rate of assessment to all celery previously handled by first handlers during the specified fiscal period so as to avoid inequities among handlers.

Funds received by the committee pursuant to the levying of assessments should be used solely for the purpose of administration of the order, including appropriate research and development projects. The committee should be required to maintain books and records clearly reflecting the true up-to-date operations of its affairs so that its administration may be subject to inspection at any time by appropriate parties. Each member and each alternate, as well as employees, agents, or other persons working for or on behalf of the committee should be required to account for all receipts and disbursements, funds, property, or records for which they are responsible and the Secretary should have the authority, at any time, to ask for such accounting. Whenever any person ceases to be a member or alternate of the committee, he should be required to account for all receipts, disbursements, funds, property, books, records, and other committee assets for which he is responsible. Such persons should also be required to execute assignments or such other instruments which may be appropriate to vest in their successor or agency or person designated by the Secretary, the right to all such property and all claims vested in such person.

If the committee should recommend that the operations of the order should be suspended, or if no regulation should be in effect for a part or all of a marketing season, the committee should be authorized to recommend as a practical measure that one or more of its members, or any other person, should be designated by the Secretary to act as a trustee or trustees during such period. This would provide a practical method whereby the committee's business affairs could be taken care of during periods of relative inactivity with a minimum of difficulty and expense to the industry and to the Secretary. Such a procedure should not be mandatory; it should be permissive. If circumstances would seem to call for the committee and its personnel to continue as usual, to operate, possibly in a curtailed fashion, they should be free to do so.

The committee should provide periodic reports on its fiscal operation. It is expected that audit reports will be requested by the Secretary at appropriate times, such as the end of each marketing season, or at such other times as might be necessary to maintain appropriate supervision and control of the committee's affairs. Handlers should be entitled to a proportionate refund of the excess assessments which remain at the end of a fiscal period, or at the end of such other period as may be deemed appropriate by reason of suspension or termination. Such refund should be credited to each such handler against the operations of the following fiscal period, unless he should demand payment thereof, in which event such proportionate refund shall be paid to him.

If and when the committee is required to wind up its affairs upon termination of the order authorizing such agency, considerable expense may be involved in the liquidation process. The affairs of the committee which are to be liquidated usually result from a number of years' operations. It is appropriate, therefore, for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period, which are in excess of those necessary for payment of expenditures during such period, should be carried over into subsequent fiscal periods as a reserve for possible liquidation. Such reserve should be maintained for the purpose of helping to cover the expenses of final liquidation in the event that the order is terminated. It is not anticipated that any such reserve will be accumulated in an amount in excess of what might be the reasonable costs of such a liquidation action. Any funds remaining after liquidation has been effected should to the extent practical be refunded to handlers on a pro rata basis.

Exceptions were taken to the proposed findings and conclusions with respect to assessments on celery handled. Assessments should be levied on the handler who first ships celery after it has been prepared for market, who customarily is the party applying for inspection thereon. Inspection certificates provide a practical basis for billing assessments and should be used for such purposes. In cases where no inspection certificates are available, the handler who first ships the celery should be determined by the facts in particular transactions. The terms and conditions of the order are determined to be adequate and specific with respect to the equitable apportionment under the act of the necessary expenses among handlers of Florida celery. The expenses for such program should be limited to those which are necessary and reasonable as authorized by the act; and in arriving at determinations with respect to such essentiality and reasonableness the Department should have the benefit of the committee's recommendations with respect thereto. It is concluded that reasonable and necessary expenses can be determined upon the basis of facts presented in the manner prescribed in the terms and conditions of the order.

(d) The establishment or provision for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of celery was authorized by amendments to the act in Public Law 690 known as the Agricultural Act of 1954, enacted by the 83rd Congress. Such authorization should be included in the order.

Projects designed to evaluate preferences among markets and localities in terms of grade, size, quality, pack, containers, and other factors could be of considerable value in determining the grade, size, quality, or volume regulations that should be recommended and established. The aid of marketing research and development projects may assist in a determination as to the effect and value of private and industry promotion of Florida celery.

Research into market development, transportation, handling methods, and containers in which celery is marketed are examples of aspects which the committee may at some time consider worthy of investigation. Research projects designed to assist the committee in their consideration of volume regulations should be authorized as one of the means of promoting distribution of celery.

As the celery industry and the committee become more aware of the value of and need for marketing research and development, other projects will undoubtedly be initiated, the need for which will not have been foreseen early in committee operations. Therefore, the committee should have the authority to recommend the establishment of such projects which are in the best interest of celery marketing and which will assist, improve, and promote the marketing, distribution, and consumption of Florida celery. The committee should be empowered to engage in or contract for such projects, to spend funds for such purpose, and to consult and cooperate with other agencies with regard to their establishment. All such projects should receive the prior approval of the Secretary.

The findings and conclusions in the recommended decision relating to research and development projects should be effectuated in the proposed order. Section 937.48, entitled "Research and development," therefor, is incorporated in the proposed order.

(e) The declared policy of the act is to establish and maintain such orderly conditions for celery, among other commodities, in interstate commerce as will tend to establish parity prices for such celery. The regulation of the handling of celery by grade, size, or quality as authorized in the order provides a means of carrying out such policy and is one of the ways authorized by the act (in section 8c (6)) for achieving that objective.

The procedures and methods which are outlined in the order for the development and institution of marketing policies relating to grade, size, and quality and to volume regulations provide a practical basis for the committee to obtain appropriate and adequate information relating to celery marketing problems. Also, members of the industry including both growers and handlers, should be provided with the information regarding the policies and regulations recommended by the committee. The factors set forth in the order which the committee should take into consideration in developing its marketing policies are the ones commonly and usually taken into account by growers and handlers in their day to day evaluation of the market outlook with respect to celery.

In order that the Secretary may effectively carry out his responsibilities in connection with the order, the committee should prepare and submit to the Secretary a report on its proposed marketing policy, or amendments thereto, relating to the marketing of celery during each season. The initial marketing policy offered each season by the committee should be prepared and submitted to the Secretary prior to or simultaneous with its initial recommendations for regulations. This will give all interested parties the maximum notice of probable regulations. Reports on marketing policy and regulations recommended should be submitted to the Secretary and presented to the industry by the committee.

The committee, which has responsibility for recommending grade, size, quality, and volume regulations, as well as modifications, suspensions, amendments thereto, or terminations thereof, should be authorized to consider and recommend any or all methods of regulations which are authorized by the order for the Secretary to issue thereunder. Evidence shows that authority should be established in the order to issue regulations with respect to grade, size, quality, or packs in any or all portions of the production area during any period and the limitation of the volume of celery which may be shipped during specified periods.

The two United States Standards for celery provide a common and acceptable means for determining grade or quality of celery grown in the production area. These standards for celery are widely used throughout the production area, and both producers and shipping point handlers, as well as buyers, are generally acquainted with such standards and commonly use them in their market transactions.

Authority should be provided for limiting the grade and size of celery which may be placed in any given pack or container. The limitation of the handling of poorer grades or off qualities, and less desirable sizes of celery grown in the production area will tend to increase prices of more desirable grades, qualities, and sizes and to promote more orderly marketing and increase the returns to producers of such celery. The poorer grades and off qualities include not only unclassified celery, commonly referred to as cull, but also other celery which shows excessive defects as set forth and described in the Federal standards for celery. The limitation of the handling by prohibiting movement of poorer grades or off qualities, and less desirable sizes of celery will help to improve orderly marketing conditions for such celery by enhancing the long run demand for and competitive position of celery grown in the production area.

The order should include authority for the committee to recommend and the Secretary to issue regulations which would limit a certain size or sizes of celery to not more than specified percentage of the total celery shipments during a given day or given week, or any other practical period. For example, if the committee finds that 10-dozen, or smaller sizes are selling for a low price in relation to other sizes, but if all 10-dozen or smaller sizes are cut off from the market the price of such sizes would rise appreciably, then the committee should be authorized to recommend and the Secretary to issue a regulation so that the percentage of total shipments which may be in 10-dozen or smaller sizes, or any other sizes, shall be within the prescribed proportions. Thus, shipments by each handler during a period of such regulation should be the base against which the percentage of the shipments of particular discounted sizes should apply. The authority to make such recommendations should not be restricted to any part of the season. The committee and the Secretary should have the greatest flexibility possible in order to meet marketing situations in a practical manner from time to time in a sound commercial manner.

The orderly marketing of celery grown in the production area, with the objective of increasing returns to producers of such celery, will be promoted by authorizing the regulation of handling of particular grades, sizes, qualities, or packs of celery, differently for different types or varieties, differently for different portions of the production area, differently for different containers, differently for different purposes to which modification, suspension, or termination of regulation may be applied, or differently for any combination of these groups, during any period.

Demand for different types or varieties of celery establishes price preferences for different grades or sizes, or both, of such types of varieties. For example, evidence establishes a basis for varietal or type preference at the market place. Pascal type celery may be returning a preferred price for certain sizes at particular times. Or again, Golden type of certain sizes may be in short supply and returning preferred prices. The committee, and in turn the Secretary, should be authorized to recognize and consider such differences and to recommend and establish different regulations based thereon.

Unusual weather conditions may arise during a crop year in one portion of the production area as compared with other portions of such area. This possibility is particularly true with respect to such things as hail, wind, and violent rain storms. Hazards of these natures are obviously beyond the control or reasonable expectation of the celery growers in such localities. Because of these circumstances, and to provide equity among producers and handlers insofar as any regulation under the order may be concerned, authority should be provided for the committee to consider such differences, to make appropriate recommendations in that regard to the Secretary, and for the Secretary to issue different regulations to accommodate any such differences in the crop arising out of actions beyond human control. It is contemplated, however, that any such relaxation for a portion of the production area in those circumstances will still require that the celery handled will be the best quality available.

The order should authorize the committee to recommend and the Secretary to issue different regulations for different packs. Such authority is in the best interests of good merchandising and the promotion of orderly marketing conditions for celery. Although the standard pack of celery constitutes the great bulk of celery handled within the production area or between the production area and any point outside thereof, the industry should be authorized to recognize any new packs which may develop and to allow such packs to move freely without grade and size regulation, or to regulate them differently, if such is the proper industry judgment as reflected by the committee.

(f) The order should permit regulations differently for different types of containers. The establishment of such regulation is authorized by virtue of an amendment to the act in Public Law 690, known as the Agricultural Act of 1954, enacted by the 83d Congress. Such authority permits the provision in a marketing agreement and order of a method for fixing the size, capacity, weight, dimensions, or pack of the container, or containers which may be used in packaging, transportation, sale, shipment, or handling of celery. It is contemplated that the industry through the Secretary may wish to fix the standard container, No. 3601, as an appropriate and proper container for handling celery under the order. If developments should bring forth new containers the industry should be empowered to pass upon them and to adopt such containers for use in the celery industry. Should the use of certain of these containers, when moved into commercial market channels, be deemed by the committee, with approval of the Secretary, as contributing to disorderly marketing of Florida celery, then the Secretary should be empowered to fix the size, weight, capacity, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or other handling of such celery. For the same reason, the committee should be permitted to recommend different regulation for different containers.

(g) The proposal for prohibiting unfair methods of competition and unfair trade practices, as proposed in the notice of hearing was not supported by evidence at the hearing. Therefore, no further consideration is given to the matter.

(h) The volume of celery shipped from Florida has a direct influence upon the price received by Florida celery growers, as shown by records of shipments and prices for the 1949 celery season and subsequent seasons, including the 1954–55 season through March 14, 1955. In general, Florida celery prices to growers are higher when Florida shipments are light than when such shipments are heavy. Heavy shipments of Florida celery frequently occur during the middle or late winter and prices to growers during such periods have often brought low prices that returned less than marketing costs which created disorderly marketing conditions. The prevention of excessive celery shipments from Florida should help to relieve supplies and improve prices to growers. The extent to which the Florida celery industry may limit shipments to improve prices is limited by competing supplies from other areas. Florida handlers can limit shipments to the extent that they eliminate losses on their shipments. Also supplies from Florida could be limited to improve prices toward parity but only to the extent that additional competing supplies

would not be attracted to markets into which Florida celery is usually shipped and undermine the improved returns to Florida celery producers.

Growers' prices for Florida celery fluctuate due to changes in the supply of such commodity being marketed. Undue fluctuations in the f. o. b. price of such celery disrupts orderly marketing conditions therefor and results in the impairment of the purchasing power of Florida celery growers. Volume regulation of celery shipments, in the manner authorized in the order, will tend to promote the orderly flow of Florida celery to market and to prevent and avoid unreasonable fluctuations in supplies and prices of such celery. The order should provide that the Secretary, upon recommendation of the committee or other available information, may exercise the powers conferred by the act so as to establish and maintain such orderly marketing conditions for Florida celery as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices.

The order should provide methods for fixing, as provided in the Act, the total allotments of any or all types of celery that may be handled by each handler so that orderly marketing conditions for Florida celery may be established and maintained. The regulation of the volume of celery which may be handled during specific prorate periods provides a method under a uniform rule of carrying out such policy.

The order should provide for issuance by the Secretary, pursuant to committee recommendations, or on the basis of other available information, of regulations limiting during specific prorate periods, whenever such regulations will effectuate the policy of the act, the handling of celery to that which is harvested from designated linear feet of rows. The order should contain provisions relating to (1) the method of recommending and fixing the total quantities of celery that may be handled by any and all handlers; (2) the method for fixing the allotment of each handler under a uniform rule based on the available supply of celery of each handler and providing a means for computing the base for fixing such allotments; and (3) modifications or adjustments of such allotments so as to provide flexibility of operation for handlers under such regulations.

The amount of celery shipped to market affects growers prices and limitations on the amount to be shipped should be for the purpose of improving such prices. The amount of celery shipped to market is a direct result of the linear feet of rows harvested and a limitation of handling based on linear feet of rows which may be harvested provides a readily determinable and uniform rule for computing the amount to be shipped and for establishing allotments.

The committee should be authorized to consider and to recommend the amount of celery expressed in linear feet of rows which should be permitted to be harvested under allotments during specific periods. This amount can be readily and accurately determined from information submitted to the committee by handlers. Upon receipt of such information, and after due consideration of the amount the market may take at particular price levels and of the total available supply of celery, the committee should be authorized to recommend to the Secretary that the amount of celery to be handled during a specific period or periods should be limited to certain proportions of such available supply of celery. The total allotments should be expressed in linear feet of rows permitted to be harvested for shipment. This provides an appropriate and proper method, pursuant to the act, for alloting the amount of celery that may be handled by each handler during a specified prorate period or periods.

The act provides that a marketing order shall contain certain terms and conditions and authorizes the allotting, or providing methods for allotting, the amount of celery which any handler may market in or transport to any or all markets under a uniform rule, based upon the amounts each handler has available for current shipment, to the end that the total quantity of such celery to be marketed shall be equitably apportioned among all of the handlers thereof. The order should so provide, and does so by establishing an appropriate method for determining a prorate base for each handler pursuant to which allotments are computed and fixed. Under the terms and provisions of the order each handler is given the same opportunity to handle celery as each other handler under a uniform rule whereby he will have equality of opportunity among handlers for securing his equitable proportion of the celery to be handled. Each handler customarily keeps close record of the celery he expects to handle. Such records date from the time of planting. Planting schedules are built up, maintained, and followed so that harvesting schedules may follow a similar pattern at a later date. Each handler follows growth and progress of celery as closely as possible so that he may keep thoroughly and constantly apprised of when certain fields and blocks are ready for harvest. Handlers customarily plan their harvesting schedule and they know with considerable degree of certainty as time for harvest approaches the exact fields and blocks of celery which should be ready for harvest during specific periods. This information is customarily maintained as a matter of record by handlers.

Handlers can make this information available to the committee. Such information, when presented as a handler's available supply of celery and with an application to handle such celery, will enable the committee to determine the total available supply of celery for all handlers. This provides a basis for determining the total amount of celery which each handler has available for current shipment. Handlers reports showing the linear feet of rows of celery available for harvest provide a uniform rule for determining the amount available for market by each handler and for equitably apportioning the total quantity for market among all handlers. Celery that is ready to be harvested must be harvested within a reasonable length of time. The estimate of the linear feet of rows available for harvest for each handler places each on an equitable basis of allotment because the measure of quantity is uniform. Some fields may yield differently than others, but in the absence of regulation such differences would also apply. By estimating available supplies of celery and allotments on linear feet of rows, the order preserves equity among handlers under a uniform rule that is readily and easily understood by celery growers and handlers. This provides a practical, uniform rule for establishing equity among handlers and a precise, well known basis for allotments.

The equity of each handler in the total quantity of celery that may be handled during any prorate period should be expressed as his prorate base. A prorate base is a handler's proportion of the total quantity that may be handled under volume regulation and it is expressed as the ratio between the handler's available supply of celery and the total available supply of celery of all handlers during a specific prorate period. Thus, each handler's share of the limited quantity of celery which may be handled during a specific prorate period is the same percentage as his share of the total available supply of celery of all handlers during such period.

The order should provide that each handler, who has an available supply of celery, should make application to the committee for a prorate base and for allotment to assure an orderly basis for establishing equities. This application should contain the information required by the order pursuant to rules and regulations concerning reports. Such information is incidental to, and not inconsistent with, and necessary to the operating terms and conditions of the order. Such information is necessary to determine the correct total of each handler's available supply of celery and the total available supply of celery of all handlers.

The committee should compute for each prorate period when volume regulation is in effect the available supply of celery for each handler who has applied for a prorate base and an allotment and fix as a prorate base for each such handler. A report thereon should be transmitted to the Secretary and the committee should notify each handler of the prorate base established for him so that he may arrange to handle the celery allotted to him.

The Secretary, pursuant to committee recommendation or other available information, should fix the total volume of any or all types of celery which may be handled by all handlers during a specified prorate period or periods and such volume of any or all types of celery should be computed for allotment purposes in linear feet of rows of the applicable type of celery. The allotment for each handler for a prorate period should be determined by multiplying the total linear feet of rows, which may be harvested for shipment by all handlers during such prorate period, by the prorate base for such handler. The committee should make such computations and so notify each handler of his allotment. This method of fixing allotments provides an appropriate means, under a uniform rule, for calculating the equities of handlers in the total quantity of celery to be marketed. Requirements as to notice set forth in the order are appropriate and proper. Appropriate notice to handlers should include, among other requirements, reasonable notice by the committee to each handler of the allotment computed for him pursuant to the order.

Each handler during any given prorate period should be permitted to handle celery which is harvested only from rows which are contained in the fields or blocks specified in the applicable approved report filed by such handler which shows his available supply of celery for such prorate period. This is necessary to maintain the uniform rule for handling celery under allotments and to maintain equity among handlers. It is also necessary, as part of the uniform rule, that each handler should harvest celery during a prorate period from the same relative location in each row of each block within each field, or from consecutive complete rows.

In order to accommodate handlers who use mechanical harvesters where a series of rows—16, 20, or more—are cut at the same time as the harvester moves through the field of celery, the linear feet of harvested rows may be applied to fractions of rows. In the case of harvesting celery by hand, it should follow customary methods of harvesting one complete row after another and the celery should be harvested from consecutive, complete rows, so that each handler will have equitable treatment in the application of his allotment by taking the celery as it comes rather than by selecting special portions of a field.

Celery should be harvested only from the allotted portion of a field or block of celery. Celery reported as part of an individual handler's available supply of celery during a particular prorate period, but not allotted therein, should remain unharvested until fieldmen or other designated agents for the committee have checked the block or field from which celery was harvested during the particular prorate period. This would be the most effective time and the most economical point in the successive steps of the handling of celery to ascertain compliance with the allotment. The committee's designated agent, upon proof of satisfactory performance by each handler, should issue a certificate of compliance to such handler.

None of any such unharvested celery should thereafter be harvested, unless all handlers' unharvested celery originally contained in reports of available supply of celery for specified prorate periods should be authorized for harvest by the Secretary. Such authorization may be issued by the Secretary upon recommendation of the committee or upon other available information whenever market conditions warrant.

Any handler's allotment for a specific prorate period may be modified by appropriate, timely action by such handler. Any handler who has unharvested celery previously included in an application for allotment and who wishes to withdraw such celery from his application for allotment should notify the committee of his intent to do so. Also, any handler, who wishes to harvest celery of particular types in excess of his allotment for a particular prorate period, may exceed his allotment for such period if he gives written or telegraphic notice of his intent to the committee. Such notice of intent or application should show the linear feet of rows of such type of celery which each handler desires to withdraw from his current allotment or to harvest in excess of his current allotment. Such celery for which allotment is to be modified should be identified by field, block, and row.

The prorate base for celery withdrawn from current allotment and later harvested or for celery harvested in excess of current allotments, should be adjusted downward by a number of percentage points which should be determined by the committee, with the approval of the Secretary. Such adjustment in a modified prorate base is necessary to keep total marketings, as recommended by the committee and approved by the Secretary, within reasonable limits and to discourage handlers from abuse of the modification provisions of the order.

Exception was taken to the findings and conclusions that the proposed order provides a method for allocation of Florida celery among handlers under a uniform rule. Evidence in the hearing record substantially shows that the terms of the proposed order provide a method whereby handler's allotments should be determined under the terms and conditions thereof by dividing the total available supply of celery declared by each handler during specific prorate periods by the total available supply of celery declared by all handlers for such periods and thereby determining each handler's prorate base. Such prorate base for each handler should then be applied to the total amount which may be handled by all handlers to provide the allotment for each such handler. The declaration of available supply in terms of linear feet of rows to be harvested by each handler during specified periods and the allocation of Florida celery upon the basis of such linear feet of rows contained in such declarations provides a uniform rule for allotments based upon the amounts which each handler has available for current shipment. Such uniform rule accords with the requirements of the act and operations pursuant thereto will tend to effectuate the purposes of the act.

(i) The committee should have information and data necessary for calculating prorate bases, allotments, modifications thereof, and for checking on compliance with regulations by handlers. Such information may include, but not be limited to, reports by handlers on the available supply of celery, which should be identified by fields or blocks, or both, and estimates of the quality and yield of any such celery. Such reports by handlers should be timely in order to provide up-to-date, accurate information and they should be required in such a manner and only at such times that will give due consideration to the convenience of the handler. Such reports should be required at such times as the committee may prescribe and should require essential details relating to available supplies of celery, acreage, yields, quantities harvested, grade, quality, and size as may be prescribed by rules and regulations issued pursuant to committee recommendation and approval by the Secretary. Such reports should not be requested more often than weekly. Such rules and regulations may require that reports include, where necessary for successful operation of the order, maps or diagrams of fields or blocks of celery which they own or control, by type or variety, by time of planting, by time of prospective harvest, and by the amount, including grade, size, and quality, harvested during specific periods. Authority to harvest celery by a handler should be deemed evidence of the handler's control thereof.

All reports submitted by handlers should be subject to inspection, correction of errors, and approval by the committee. Such authority is essential to the committee so that it may have an accurate, factual basis for computing prorate bases and allotments. Should any reports by handlers contain information that is normally considered confidential by handlers, the committee should arrange to hold such information under appropriate protective classification so that no information contained therein shall be disclosed if it will adversely affect the competitive position of such reporting handler. Reports on such data may be compiled subject to the prohibition of disclosure of individual handlers' entities or operations.

(j) The committee should give notice to all handlers of meetings to consider recommendations for regulation, either grade and size or volume regulations, or both. Whenever volume regulation is contemplated, the committee should give notice to all handlers that they should apply for an allotment. Such notice should be given in adequate time prior to meetings so that handlers may have time to receive such notice and to prepare for them. The determination as to adequate time and mode of notice should be made pursuant to rules and regulations recommended by the committee and approved by the Secretary.

The committee should give notice promptly of any recommendation for volume regulation. Such notice should be given to handlers at least 48 hours before the recommended effective time of the proposed regulations. Such notice should be given by forwarding a copy of the committee's recommendations to each handler who has filed his name with the committee for such purpose.

The Secretary should notify the committee of each regulation issued under the order. The committee, in turn, should notify each handler of the regulation. Such notice should be given promptly upon receipt of advice of issuance from the Secretary and a copy of such notice should be forwarded to each handler who has filed his address for that purpose with the committee.

The order should authorize different regulations during any period so that the committee and the Secretary may take account of different supply and demand conditions as they may arise and become apparent. It should also authorize limitations of shipments by volume, or by grade, size, and quality, or both, at any or all times that the industry, through the committee, may recommend and the Secretary approve. Such authority is essential in the order so that the various problems affected by the supply of celery may be met in the most appropriate manner in the order to help establish orderly marketing conditions and parity prices.

(k) The committee should be authorized to recommend, and the Secretary to establish, such minimum standards of quality and maturity, and such grading and inspection requirements, during any and all periods when the seasonal average price for celery may be above parity, as will be in the public interest. Some celery is of such low quality that it does not give consumer satisfaction at any time because of the large amount of waste and the time consumed in preparing it. Consumers do not receive proper value for their expenditures for such low quality celery, and even when prices are above parity it is not in the public interest, either of the producers, handlers, or of consumers to permit shipments of such poor quality. The shipment of celery which is not of proper maturity also tends to disrupt general market conditions for the commodity and the discounted prices received for such celery adversely affects grower prices. It is also necessary that such authority should include grading and inspection requirements so that compliance with such minimum standards of quality and maturity may be determined whenever such regulations are in effect.

Exception was taken to the findings and conclusions with respect to standards of quality for celery and to the authority for establishing minimum standards of quality for Florida celery as will be in the public interest when the seasonal average price for celery may be above parity. Hearing record evidence is conclusive that quality of Florida celery is commonly recognized in the customary sales of the commodity. The establishment of minimum standards of quality for the commodity as will effectuate orderly marketing thereof in the public interest is authorized by the act. Exception with respect to quality and establishment of minimum standards thereof is overruled.

Although some small shipments of celery are made, they constitute only a minor percentage of total production. Some growers pick small quantities and peddle these to local stores, to tourists, or to other similar outlets. In some areas tourists call at the fields and pick up small quantities of celery. In addition, the sale of a few crates of celery to accommodate friends or to take care of special purposes oftentimes is desirable. Problems of inspecting such small lots, or other problems in complying with regulations on such small lots, may make it uneconomical, undesirable, and impractical to require that such small shipments comply with any or all regulations required of the larger commercial shipments. The administrative difficulties in checking upon such shipments to see that they are inspected, or that they meet grade, size, quality, or maturity restrictions, or that they pay assessments may be such that it would be impractical for the committee to attempt to do so. It might be necessary to permit the maintenance of one or more regulatory requirements on such minimum quantities while relaxing other regulations applicable to them. It is contemplated, of course, that any such relaxations of regulations will be applied uniformly. The order therefore should provide authority for the establishment of minimum quantities below which certain regulations may not be applicable in any or all portions of the production area.

(l) The Secretary, upon the basis of recommendations and information submitted by the committee, or other available information, should be authorized to modify, suspend, or terminate grade, size, or quality regulations with respect to the handling of celery for purposes other than disposition in normal domestic fresh markets. The committee should be well qualified, because of the experience and knowledge of individual members, to recommend such modifications, suspensions, or terminations as will be in the best interests of the Florida celery industry and which will tend to effectuate the declared policy of the act. Celery moving to or sold in certain outlets, such as those specified in § 937.59 of the order, are usually handled in a different manner, or such outlets usually accept different grades, sizes, qualities, packs, containers, or different prices are returned, or combinations of such considerations may apply. The order should provide authority for the committee and the Secretary to give appropriate consideration to handling of celery for such purposes so that full opportunity may be taken by this program to improve orderly marketing conditions for celery, thereby promoting the tendency to increase total returns to celery growers in the production area.

The movement of celery from the field to the wash house, or to any other customary location within the production area for grading should be free of grade, size, or quality regulations, if the committee so recommends and the Secretary approves. The imposition of grade, size, or quality regulations on movement of celery between the field and wash house, or to any other point in the production area for grading, as designated by the committee, may not serve any useful purpose in helping to improve producers prices. Such modifications may include elimination of grade, size, or quality requirements, or inspection requirements, or assessments, on celery being handled for grading within the production area.

The order should provide that special considerations may be given to the handling of celery for relief or for charitable purposes. Such shipments are intended for special outlets and usually the shipments are by way of donation or due to some special consideration between the shippers and the receivers.

Shipments of celery, among other vegetables, for the purpose of having such celery processed at canning plants, are specifically exempted from regulation by the act. Any mention of celery for canning or processing herein has particular reference merely to a safeguard, which requirement may cause such shipments to canners to be reported to the committee for the sole purpose of assuring the committee and the celery industry that such shipments are, in fact, moved to the outlet for which intended. No other regulation or restriction is implied on celery for canning or processing.

For purposes which may develop in the future, the committee should be empowered to provide special treatment through modification, suspension, or termination of regulation applicable thereto, or for other purposes which later may be specified by the committee, with the approval of the Secretary.

The authority for modifying, suspending, or terminating grade, size, quality, assessment, or inspection regulations should be accompanied by the additional administrative authority for the committee to recommend and the Secretary to prescribe adequate safeguards to prevent shipments for such purposes from entering market channels contrary to the provisions of such special regulations. Such safeguards may be recommended by the committee and they should be administered by the committee. The authority for establishment of safeguards should include such limitations or appropriate qualifications on shipments which are necessary and incidental to the proper and efficient administration of the order. Such safeguards, among others, may include inspection so that the committee may have an accurate record of the grade, size, and quality of celery shipped to special outlets, applications to make such special shipments, requirements for the payment of assessments in connection with such shipments, reports by handlers on the number of such shipments and the amounts of celery shipped, and assurances by purchasers that the celery is to be used for the purpose designated.

In order to maintain appropriate identification of shipments of celery to special outlets, the safeguards authorized herein may provide for the issuance of certificates of privilege to handlers of such celery and, in addition, require that such handlers shall obtain such certificates on all shipments by them to such special outlets. Certificates of privilege may be issued by the committee as an indication of the authority for a handler to make such shipments and as a means of identifying specific shipments. Such certificates of privilege should be issued in accordance with rules and regulations established by the Secretary on the basis of committee recommendations, or other available information, so that the issuance of such certificates may be handled in an orderly and efficient manner which can be made known to all handlers. The committee should be authorized by the order to deny or rescind certificates of privilege

when such action is necessary to prevent abuse of the privileges conferred thereby or upon evidence satisfactory to it, that a handler to whom a certificate of privilege has been issued has handled celery contrary to the provisions of the certificate previously issued to him. If the committee rescinds or denies a certificate of privilege to any handler, such action should be in terms of a specified period of time. Handlers affected by the denial of a certificate or the rescinding of such a certificate should have the right of appeal to the committee for a reconsideration.

The Secretary should have the right to modify, change, alter, or rescind any safeguards prescribed or any certificates of privilege issued by the committee in order that the Secretary may retain all rights necessary to carry out the declared policy of the act. The Secretary should give prompt notice to the committee of any action taken by him in connection therewith and the committee should currently notify all persons affected by the indicated action.

The committee should maintain records relevant to the safeguards and to certificates of privilege and should submit reports thereon to the Secretary when requested in order to supply pertinent information requisite for him to discharge his duties under the act and the order.

(m) Inspection of celery grown in the production area by the Federal-State inspection service is a common and usual practice for the purpose of determining officially the grade, size, quality, and maturity of such celery. The Federal-State Inspection Service has operated in the State of Florida for a number of years. Celery growers and handlers throughout the production area are acquainted with the service and with the inspection which it offers on shipments of celery. Federal-State inspection is available throughout the entire production area and reasonably prompt inspection can be given at all points within the production area at a reasonable time prior to the anticipation of shipment of the celery to be inspected.

Provision is made in the order for inspection by the Federal-State Inspection Service, or such other inspection service as the Secretary may approve, of celery grown in the production area during any period in which handling of celery is regulated under the program. Such inspection requirements should apply to all celery handled under regulations issued under the order, except when any such handling is relieved from these requirements by the Secretary upon recommendation of the committee. Provision for inspection of handling subject to regulation establishes a means for providing the handler, the buyer, the committee, the Secretary, and other interested parties with a means of determining whether such handling of celery complies with the requirements of any particular grade, size, and quality regulation which may be in effect under the order. Effective regulation of the handling of celery grown in the production area requires that the grade, size, and quality of each sale or shipment of such celery should be authoritatively established so that the administration of the order shall be efficient and effective. The provision for inspection and the certificates which are issued pursuant to inspection offer an appropriate and practical means of establishing and identifying the grade, size, and quality of celery handled pursuant to the terms and conditions of the order.

Copies of inspection certificates issued pursuant to the requirements of the order should be supplied to the committee promptly so that such committee may properly discharge its administrative responsibilities under the program.

Provision should be made in the order for authority to inspect celery not only by personnel of the Federal-State Inspection Service, but also by personnel of such inspection service as the Secretary may designate so that sufficient flexibility for successful operation can be provided through appropriate inspection if, by some chance, the Federal-State Inspection Service cannot properly perform its duties.

The requirement that no handler shall handle celery unless each lot of celery is inspected by an authorized inspection service approved under the order is reasonable and it is necessary for the proper administration of the program. Such requirements should apply except to celery which may be relieved of inspection requirements by the Secretary.

Responsibility for obtaining inspection should fall primarily on the handler who first handles such celery after it has been prepared for market so that each lot of such celery may be identified and certified with respect to grade, size, and quality. Such identification and certification is essential to proper administration of the order so that a determination may be made as to whether such shipment accords with the grade, size, quality, and maturity regulations issued under such order. The handler who so first handles celery is required to obtain inspection and subsequent handlers may not handle the celery unless a properly issued inspection certificate valid under the terms of the order applies to such shipments. Each handler must bear responsibility for determining that each of his shipments is inspected. If a handler should receive celery which has not been inspected, he should be responsible for having it inspected. Such requirement is necessary so that the committee can obtain evidence in the form of inspection certificates which it needs to carry out its appropriate functions in determining if specific shipments have been inspected and if they otherwise meet requirements of the order and regulations issued pursuant thereto.

Whenever any shipment of celery subject to the terms and provisions of the order has been inspected, but such celery is later dumped from the containers in which it was inspected, such celery loses its identity insofar as the original inspection certificate for it is concerned. If any such lot of celery is thereafter repacked, such repacked celery has a new identity and the subsequent handling of such celery should comply with regulations issued under the order. Such requirement is necessary to effectuate the declared policy of the act. Therefore, the order should provide that any person who handles Florida celery after it has been repacked, resorted, or regraded shall not handle such celery unless it has been inspected, except when relieved from such requirements by the Secretary. Such inspection of regraded, resorted, or repacked celery should be necessary so that the handler thereof, as well as subsequent handlers, and the committee may determine if such shipments comply with the regulations then in effect and applicable thereto.

The committee, with the approval of the Secretary, should be authorized to determine the length of time the inspection certificate is valid insofar as the requirements of the order are concerned. Such requirement is appropriate and necessary especially with respect to lot inspections which may be administratively desirable to accommodate handlers and truckers because celery is a perishable commodity.

(n) Certain hazards are encountered in the production of celery grown in the production area which are beyond the control or reasonable expectation of the producer of such celery. Because of these circumstances, and to provide equity among producers and handlers insofar as any regulations under the order are concerned, the committee should be given authority to issue exemption certificates to producer applicants to permit such applicants to handle their equitable proportion of all celery handled. It is contemplated, however, that such an exemption will require the approved applicant to handle his best quality celery.

The committee, by reason of its knowledge of the conditions and problems applicable to the production of celery in the production area and the information which it will have available in each case, will be well qualified to judge each applicant's case in a fair and equitable manner and to fix the quantity of exempted celery which each such applicant may handle.

The provisions contained in the notice of hearing relevant to the procedure to be followed in issuing exemption certificates, in investigating exemption claims, in appealing exemption claim determinations, and in recording and reporting exemption claim determinations to the Secretary are necessary to the orderly and equitable operation of the order and they should, therefore, be incorporated in the order. The committee should maintain adequate, comprehensive records of all applications for exemptions. Similarly, an adequate record should be maintained by the committee of all exemptions granted as well as shipments made under exemptions.

Provision should be made for the Secretary to modify, change, alter, or rescind any procedure established by the committee for granting of exemptions and of exemptions granted pursuant to such procedure. This is desirable to guard against inequities in the granting of exemptions and to preclude the issuance of exemption certificates in unjustifiable cases.

(6) Except as provided in the order, no handler should be permitted to handle celery, the handling of which is

prohibited pursuant to the order, and

which is practicable, consistently with

COMMITTEE

prohibited pursuant to the order, and no handler should be permitted to handle celery except in conformity with the order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of celery handled by him, would be demoralizing to other handlers and would tend to impair operation of the program.

(7) The provisions of §§ 937.80 through 937.95, as published in the FEDERAL REGISTER of February 26, 1955 (20 F. R. 1217), are common to marketing agreements and orders now operating. Such sections set forth certain rights, obligations, privileges, or procedures which are necessary and appropriate for the effective operation of the order. These provisions are incidental to, and not inconsistent with, section 8c (6) and (7) of the act, and are necessary to effectuate the other provisions of the order and to effectuate the declared policy of the act. The substance of such provisions, therefore, should be included in the order.

General findings. Upon the basis of evidence introduced in the hearing and record thereof it is found that:

(1) The order as hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to celery produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such celery above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such celery as will be in the public interest, and (iv) by establishing and maintaining such orderly marketing conditions as will provide, in the interest of producers and consumers, an orderly flow of the supply of such celery to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices;

(2) The marketing agreement and order regulate the handling of celery grown in the production area in the same manner as, and is applicable only to, persons in the respective classes of industrial and commercial activity specified in a proposed marketing agreement upon which a hearing has been held;

(3) The said marketing agreement and order are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of the several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of celery grown in the production area; and

(5) All handling of celery grown in the production area as defined in the said marketing agreement and order, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Celery Grown in Florida" and "Order Regulating the Handling of Celery Grown in Florida" which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. The aforesaid marketing agreement and the aforesaid order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the attached order, which will be published with this decision.

Dated: October 20, 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] *Regulating the Handling of Celery Grown in Florida*

AUTHORITY: §§ 937.0 to 937.92 issued under 48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047.

§ 937.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act. No. 10, 73rd Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Winter Haven, Florida, on March 28–31, 1955, upon a proposed marketing agreement and a proposed order regulating the handling of celery grown in Florida. Upon the basis of evidence introduced in the hearing, and the record thereof, it is found that:

[1] This order shall not become effective unless and until requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

(1) The order as hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to celery produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such celery above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such celery as will be in the public interest, and (iv) by establishing and maintaining such orderly marketing conditions as will provide, in the interest of producers and consumers, an orderly flow of the supply of such celery to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices;

(2) This order regulates the handling of celery grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) This order is limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) This order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the difference in the production and marketing of celery grown in the production area; and

(5) All handling of celery grown in the production area as defined in this order, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

Order relative to handling. It is, therefore, ordered that on and after the effective time hereof, the handling of celery grown in Florida shall be in conformity to and in compliance with the terms and conditions of this order and such terms and conditions are as follows:

DEFINITIONS

§ 937.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 937.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq. 68 Stat. 906, 1947).

§ 937.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 937.4 *Production area.* "Production area" means the entire State of Florida.

§ 937.5 *Celery.* "Celery" means all varieties of celery grown within the production area.

§ 937.6 *Type.* "Type" or "variety" means and includes those classifications or subdivisions of celery according to definitive characteristics now or hereafter recognized by the United States Department of Agriculture as Pascal type or variety and Golden type or variety.

§ 937.7 *Handle.* "Handle" means to harvest celery, or to sell, transport, or ship celery within the production area or between the production area and any point outside thereof: *Provided*, That such term shall not include the sale of unharvested celery or the sale of celery at retail.

§ 937.8 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of celery owned by another person) who handles celery or causes celery to be handled.

§ 937.9 *Harvest.* "Harvest" is synonymous with "preparation for market" and means the cutting and stripping, and the sorting or separation of celery into grades and sizes for market.

§ 937.10 *Producer.* "Producer" or "grower" means any person who is engaged in the production of celery for market.

§ 937.11 *Grade and size.* "Grade" means any one of the established grades of celery as defined and set forth in the United States Standards for Celery (§§ 51.560 to 51.581 of this title), or the United States Consumer Standards for Celery Stalks (§§ 51.595 to 51.609 of this title), or amendments thereto, or modifications thereof, or variations based thereon; and "size" means the number of celery stalks which may be packed in a container of fixed size and capacity, as approved by the Secretary pursuant to the methods set forth in this part.

§ 937.12 *Container.* "Container" means a crate, bag, box, basket, package, or any other unit, used in the packaging, transportation, sale, shipment, or other handling of celery, the size, capacity, weight, dimensions, or pack of which is fixed pursuant to methods approved by the Secretary upon recommendation of the committee.

§ 937.13 *Pack.* "Pack" or "packs" means the manner in which stalks of celery may be placed in a container or containers.

§ 937.14 *Fiscal period.* "Fiscal period" means the period beginning August 1 and ending July 31 following.

§ 937.15 *Committee.* "Committee" means the administrative committee, called the Florida Celery Committee, established pursuant to § 937.25.

§ 937.16 *District.* "District" means each of the geographic divisions of the production area initially established pursuant to § 937.27, or as reestablished pursuant to § 937.28.

§ 937.17 *Field.* "Field" means a well delineated plot of cultivated land upon which celery is grown.

§ 937.18 *Block.* "Block" means a portion of a field or fields of celery which may be ready for harvest during designated periods.

§ 937.19 *Available supply of celery.* "Available supply of celery" means the linear feet of rows of unharvested celery of a particular variety ready for harvest for shipment during a particular prorate period or periods.

§ 937.20 *Allotment.* "Allotment" means the amount of celery which may be handled by any and all handlers during specific prorate periods.

§ 937.21 *Prorate period.* "Prorate period" means the period or periods of time recommended by the committee and approved by the Secretary during which allotments of celery may be established.

§ 937.22 *Export.* "Export" means shipment of celery beyond the boundaries of continental United States and of Canada.

COMMITTEE

§ 937.25 *Administrative committee.* (a) The Florida Celery Committee, consisting of 9 producer members, is hereby established as the administrative committee. For each member of such committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a member or alternate of the committee shall be an individual who is a producer, or an officer or employee of a producer, in the district for which selected and a resident of the production area.

§ 937.26 *Term of office.* (a) The term of office of members and alternates of the committee shall be for one year and shall begin as of August 1 and end as of July 31.

(b) Such members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 937.27 *Districts.* For the purpose of determining the basis of selecting committee members and alternates, the following districts of the production area are hereby initially established:

District No. 1 or South Florida District. The Counties of Martin, Dade, Broward, Col-

lier, Monroe, Lee, Charlotte, St. Lucie, Okeechobee, Highlands, Indian River, Glades, Hendry, and Palm Beach.

District No. 2 or Florida West Coast District. The Counties of Sarasota, DeSoto, Hardee, Pinellas, Pasco, Polk, Manatee, and Hillsborough.

District No. 3 or Central and North Florida District. All the remaining counties in Florida not included in Districts 1 and 2.

§ 937.28 *Redistricting.* The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of committee members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in celery acreage within districts and within the production area during years immediately preceding such consideration; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 937.29 *Selection.* The Secretary shall select 3 members, with alternates, from District No. 1, 2 members, with alternates, from District No. 2, and 4 members, with alternates from District No. 3, to serve on the committee.

§ 937.30 *Nomination.* The Secretary may select the members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers shall be held in each district to nominate members and alternates for the committee. For nominations to the initial committee, the meetings may be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by such Department. Appropriate notice of such meetings shall be given to growers by means of press release to newspapers and other media of communications. For nominations for succeeding members and alternates, the committee shall give appropriate notice thereof and shall hold such meetings or cause them to be held prior to July 10 of each year, after the effective date of this subpart.

(b) At each such meeting at least two nominees shall be designated for each position as committee member and for each position as alternate. The producer in each district who during the season immediately prior to the current fiscal period sold of his own production the largest amount of celery among all producers in such district and who elects to vote therein may designate two such nominees for a member and two such nominees for an alternate. At such meetings other eligible voters may ballot to indicate the ranking of their choice among the nominees.

(c) Nominations for committee members and for alternates, other than initial members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than July 15, of each year.

(d) In the event a person is engaged in producing celery in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees.

(e) Regardless of the number of districts in which a person produces celery, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the district in which he elects to vote.

§ 937.31 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 937.30, the Secretary may, without regard to nominations, select the members and alternates of the committee, which selection shall be on the basis of the representation provided for in § 937.29.

§ 937.32 *Acceptance.* Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 937.33 *Vacancies.* To fill vacancies in the committee, the Secretary may select such members or alternates from unselected nominees on the respective current nominee lists from the district involved, or from nominations made in the manner specified in § 937.30. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in § 937.29.

§ 937.34 *Alternate members.* An alternate shall act in the place and stead of the respective committee member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 937.35 *Procedure.* (a) Six members of the committee shall be necessary to constitute a quorum and the same number of concurring votes shall be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be promptly confirmed in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 937.36 *Expenses and compensation.* Committee members and alternates may be reimbursed for expenses necessarily incurred by them in the performance of duties and in the exercise of powers under this part.

§ 937.37 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 937.38 *Duties.* It shall be the duty of the committee:

(a) At the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To prepare a marketing policy;

(f) To recommend marketing regulations to the Secretary;

(g) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both;

(h) To investigate an applicant's claim for exemption;

(i) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(j) At the beginning of each fiscal period to prepare a budget of committee expenses for such fiscal period, together with a report thereon;

(k) To cause committee books to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request;

(l) To prepare and maintain, in cooperation with handlers, an accurate map or diagram for each field of celery by grower designation and by blocks;

(m) To provide an adequate system for determining the total available supply of celery by varieties or types, and to make such determinations, including determinations by grade and size, as it may deem necessary, or as may be prescribed by the Secretary, in connection with the administration of this part;

(n) To investigate compliance with respect to any regulation pursuant to this part applicable to handling of celery or harvesting celery for shipment;

(o) To consult, cooperate, and exchange information with other marketing order committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 937.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for the maintenance and functioning of the committee, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period or such portion or portions thereof as the committee may recommend and the Secretary approve as a representative period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of celery handled by him as the first handler thereof during the fiscal period or representative period and the total quantity of celery handled by all handlers as first handlers thereof during such fiscal period or representative period.

§ 937.41 *Budget.* At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 937.42 *Assessments.* (a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. During any period in which handling of celery is regulated pursuant to this part each handler who first handles celery after it has been prepared for market shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all handling of celery which is regulated under this part and which is handled by the first handler thereof during such fiscal period.

§ 937.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part.

(b) The report of the audit which the committee is required to have made at least once each fiscal period shall show the receipts and expenditures of funds collected pursuant to this part. A copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers.

(c) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee, or alternate, he shall account to his successor, the committee, or the person designated by the Secretary, for all receipts, disbursements, funds, and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(d) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 937.44 *Refunds.* At the end of each fiscal period or other representative period used by the committee as a basis for seasonal accounting, monies arising from the excess of assessments over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him; or

(b) The Secretary, upon recommendation of the committee may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds collected during a fiscal period which are in excess of the expenses necessary for the committee's operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this part to liquidate the affairs of the committee: *Provided,* That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of such liquidation shall to the extent practical be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH

§ 937.48 *Research and development.* The committee may investigate from time to time and assemble data on the growing, harvesting, shipping, and marketing conditions with respect to celery, and, upon approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of celery.

REGULATION

§ 937.50 *Marketing policy.* (a) Prior to or at the same time as recommendations are made pursuant to § 937.51, a marketing policy deemed desirable for the industry to follow in handling celery during the ensuing marketing period shall be developed by the committee. In developing such marketing policy, the committee shall give due consideration to the following:

(1) Estimates by districts and by prorate periods of the available supply, in terms of linear feet of rows, or crates, or both, of celery by types or groupings thereof, by grade, size, and quality in the production area, and supply estimates for celery in competing areas;

(2) Estimated shipments by prorate periods for the current season of celery from each district and from competing areas;

(3) Estimated supplies of competing commodities;

(4) Current and prospective marketing prices and marketing conditions for Florida celery, including prices by grades, sizes, and quality, and similar estimates for competing areas;

(5) Estimates of harvesting and marketing costs and charges for celery grown in Florida;

(6) The level and trend of consumer income;

(7) Marketing conditions affecting celery prices; and

(8) Other factors pertinent to celery marketing.

(b) The marketing policy shall be reported to the Secretary by the committee. Additional reports shall be submitted from time to time if requested by the Secretary, or if it is deemed advisable by the committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to celery. Such reports shall set forth: (1) Estimates of the available supply of celery for shipment during the season or respective portions thereof and estimates of the proportion of such crop which should be shipped during such season or respective portions thereof; (2) the proposed regulations which may be recommended by the committee during such season, or respective portions thereof, and the justification therefor; and (3) the estimates and other data set forth in and considered pursuant to paragraph (a) of this section.

(c) The committee shall notify producers and handlers of the contents of each such report by publishing a summary thereof in such newspapers of general circulation in each district as the committee may select.

§ 937.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 937.50, may recommend to the Secretary regulations authorized in this part whenever it finds that such regulations will tend to effec-

tuate the declared policy of the act. The committee may also recommend amendment, modification, termination, or suspension of any regulation issued under this part.

§ 937.52 *Issuance of regulation.* The Secretary shall regulate the handling of celery in any one or more of the ways set forth in this subpart whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(a) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities, or packs of any or all types of celery during any period; or

(b) Limit the handling of particular grades, sizes, qualities, or packs of celery differently, for different types, for different portions of the production area, for different containers, for different purposes specified in § 937.60; or any combination of the foregoing during any period; or

(c) Limit the handling of celery by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(d) Fix the size, weight, capacity, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or other handling of celery; or

(e) Fix, or provide methods pursuant to §§ 937.53 through 937.55 for fixing, the total allotments of any or all types of celery that may be handled by each handler during a specified prorate period or periods.

§ 937.53 *Prorate bases.* (a) Each handler who has celery available for handling during a particular prorate period or periods and who desires to handle such celery during such prorate periods, shall submit to the committee a written application for a prorate base and for allotments as provided in this part. Such applications and supporting information shall be submitted in such manner and in such form as the committee shall designate pursuant to rules and regulations approved by the Secretary pursuant to § 937.56.

(b) For each prorate period during the marketing season when volume regulation has been or is likely to be recommended for a particular type of celery, the committee, upon receipt of applications for prorate bases and allotments with accompanying reports and information from handlers, shall compute the available supply of celery of such type of each handler who has applied for prorate bases and for allotments. On the basis of such computations, the committee shall fix prorate bases for each handler who is entitled thereto. Each such prorate base shall represent the ratio between the available supply of celery of the particular type of each applicant during a particular prorate period and the total available supply of celery of the same type of all such applicants during the same prorate period. The committee shall notify each handler of each prorate base fixed for him.

§ 937.54 *Allotments.* (a) The Secretary, upon the basis of recommendations by the committee or other available information, shall fix the total linear feet of rows from which each type of celery may be handled during any specified prorate period or periods, and whenever the Secretary so fixes such total, the committee shall compute the quantity of each such type of celery that may be handled by each handler during such prorate period or periods. Each such quantity shall be the allotment of such handler and shall be in an amount equivalent to the product of the prorate base for such handler for a particular type of celery and the total linear feet of rows of the same type fixed by the Secretary as the total of such type from which celery may be handled during such prorate period or periods. Each allotment for each handler shall be designated by type in terms of linear feet of rows of celery that may be harvested. The committee shall give reasonable notice to each handler of the allotment computed for him pursuant to this part.

(b) During a particular prorate period celery may be handled by any handler pursuant to an allotment only from such harvested rows which are contained in the fields and blocks specified in the applicable approved report filed by such handler which shows his available supply of celery for such specified prorate period. Such celery, shall be harvested from the same relative location in each row of each block within each field, or from consecutive complete rows except that the last rows cut in each block or field may be fractions of rows to complete the total linear feet of rows of celery specified in the allotment.

(c) Celery contained in any handler's reported available supply of celery for a particular prorate period and not included in the allotment, as aforesaid, for such period shall remain unharvested until a certificate of compliance has been issued by a designated agent of the committee with respect to such unharvested celery. None of such unharvested celery may thereafter be harvested for shipment unless all handlers' unharvested celery, originally contained in reports of available supply of celery for a particular prorate period is authorized by the Secretary to be harvested for shipment. The Secretary may issue such authorization upon recommendation of the committee or upon other available information.

§ 937.55 *Modification of allotments.* (a) Each handler who gives written or telegraphic notice to the committee that such handler will not, during a current prorate period, harvest for shipment all or a portion of the celery included in his allotment for such prorate period, may withdraw his application for such allotment or portion thereof. All such celery which was included in the previous application and which is not harvested, as aforesaid, may thereafter be included in such handler's report of his available supply of celery for any subsequent prorate period; and an application based thereon for a prorate base and an allotment may be made for such prorate period. In the event of allotments during such subsequent period for the type which was withdrawn, as aforesaid, the prorate base for such withdrawn celery for such subsequent prorate period shall be a number of percentage points, as recommended by the committee, and approved by the Secretary, lower than the prorate base which applies to such variety for such prorate period.

(b) Each handler who gives written or telegraphic notice to the committee that such handler desires, during a particular prorate period, to harvest a quantity of a particular type of celery in excess of his allotment for such prorate period may exceed his allotment on the following conditions in addition to those set forth in § 937.54 (b): (1) The total number of linear feet of rows of such type of celery which such handler desires to harvest for shipment shall be included in the aforesaid notice and shall be identified by field, block, and row; and (2) the prorate base for such total number of linear feet of rows shall be a number of percentage points lower, as recommended by the committee and approved by the Secretary, than the prorate base which applies to such type for such prorate period.

§ 937.56 *Reports.* (a) The committee, with approval of the Secretary, may request handlers for reports and information which are necessary and incidental to the operation of this part. Each handler so requested pursuant hereto shall submit such reports and information to the committee. Such reports may include, but not be limited to, estimates by handlers, in such form and at such times as the committee finds necessary, of the quantities of celery available for handling or handled during specific periods by each reporting handler.

(b) The committee may prescribe, with approval of the Secretary, through rules and regulations, the type of reports, the times when such reports shall be submitted, and the information which shall be submitted by handlers with respect to the celery which they own or control. Such reports may be requested weekly, if found necessary but not more often, in the case of regulation by prorate periods. Maps or diagrams of fields and blocks of celery, by variety or type, by time of planting, by time of prospective harvest, and by the amount handled during specific periods, by grade, size, and quality, as well as other reports and information necessary and incidental to the operation of this part, may be requested as parts of handlers' reports.

(c) All reports, including reports of available supply of celery submitted by handlers, and all requests for allotment shall be subject to inspection, correction of errors, and approval by the committee. All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers' identities or operations.

§ 937.57 *Notice.* (a) The committee shall give notice to all handlers of meetings to consider recommendation of regulation pursuant to § 937.52. Such notice shall contain a direction to handlers to make the application required by § 937.53 (a), whenever the committee contemplates recommending regulation pursuant to § 937.52 (e). Such notice shall be given in adequate time prior to the meeting for handlers to receive such notice, and the adequate time shall be determined pursuant to the rules and regulations authorized by § 937.56 (b) as approved by the Secretary.

(b) The committee shall promptly give notice of any recommendation for regulations pursuant to § 937.52 (e) at least forty-eight (48) hours before the recommended effective time of the proposed regulation by forwarding a copy of such recommendation to each handler who has filed his address with the committee for this purpose.

(c) Prior to the beginning of each regulation issued pursuant to § 937.52, the Secretary shall notify the committee of the regulation issued and such committee shall promptly give notice thereof to all handlers and also shall forward a copy of such notice to each handler who has filed his address for that purpose with the committee.

§ 937.58 *Minimum quantities.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued or effective pursuant to §§ 937.42, 937.52, 937.59, 937.60, 937.65, or any combination thereof.

§ 937.59 *Shipments for special purposes.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 937.42, 937.52, 937.58, 937.65, or any combination thereof, in order to facilitate handling of celery for the following purposes:

(a) For grading within the production area;

(b) For export;

(c) For relief or for charity; or

(d) For other purposes which may be specified.

§ 937.60 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 937.58 or § 937.59 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to handle celery pursuant to §§ 937.58 and 937.59; or

(2) Handlers shall obtain inspection provided by § 937.65, or pay the assessment pursuant to § 937.42, or both, in connection with handling pursuant to § 937.59; or

(3) Handlers shall obtain Certificates of Privilege from the committee for handling of celery under the provisions of §§ 937.58 and 937.59.

(b) The committee may rescind Certificates of Privilege, or deny such certificates to any handler, if proof is obtained that celery handled by him was handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of celery covered by such applications, the number of such applications denied and certificates granted, the quantity of celery handled under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 937.65 *Inspection and certification.* (a) During any period in which the handling of celery is regulated pursuant to §§ 937.52 or 937.59, or both, no handler shall handle celery unless such celery is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, and is covered by a valid inspection certificate, except when relieved from such requirements by the Secretary pursuant to recommendation by the committee.

(b) Regrading, resorting, or repacking any lot of celery shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall handle celery after it has been regraded, resorted, repacked, or in any other way further prepared for market within the production area, unless such celery is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirement by the Secretary, pursuant to recommendation of the committee.

(c) Insofar as the requirements of this section are concerned the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When celery is inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

EXEMPTIONS

§ 937.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers for the purpose of obtaining equitable treatment under regulation issued pursuant to § 937.52.

§ 937.71 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who applies for such exemptions and furnishes adequate evidence to the committee, that by reason of a regulation issued pursuant to § 937.52 he will be prevented from handling as large a proportion of his celery as the average proportion handled during the entire season, or such portion thereof as may be determined by the committee, of all producers' celery in said applicant's immediate production area and the grade, size, or quality of the applicant's celery crop has been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the handling of such quantity of celery as may be specified thereon. Such certificate shall be transferred with such celery at the time of transportation or sale.

§ 937.72 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 937.73 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 937.74 *Records.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of celery covered by such exemption certificates, a record of the amount of celery handled under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right to modify, change, alter, or rescind any procedure and an exemptions granted pursuant to §§ 937.70, through 937.73.

MISCELLANEOUS PROVISIONS

§ 937.80 *Compliance.* Except as provided in this subpart:

(a) No handler shall handle celery, the handling of which has been prohibited in accordance with the provisions of this part; and

(b) No handler shall harvest celery for shipment during any prorate period in which a regulation issued by the Secretary pursuant to § 937.52 (e) is in effect, unless such celery is covered by an allotment or modification thereof.

§ 937.81 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval the disapproved action of said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 937.82 *Effective time.* The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force until terminated in one of the ways specified in this subpart.

§ 937.83 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one (1) day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds, by referendum or otherwise, that such termination is favored by the majority of the producers who, during such representative period as may be determined by the Secretary, have been engaged in the production of celery for market: *Provided*, That such majority has, during such representative period, produced for market more than fifty (50) percent of the volume of celery produced for market, but such termination shall be effective only if announced on or before June 30 of the then current fiscal period.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 937.84 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as joint trustees, for the purpose of liquidating the affairs of said committee, of all funds and property then in the possession of or under control of such committee, including claims for any funds unpaid or property not delivered at the time of such termination. The rules of procedure governing the activities of said joint trustees, including but not being limited to the determination as to whether action shall be taken by a majority vote of the joint trustees, shall be prescribed by the Secretary.

(b) The said trustees (1) shall continue in such capacity until discharged by the Secretary; (2) shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the joint trustees, to such person as the Secretary may direct; and (3) shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section shall be subject to the same obligations imposed upon the members of said committee and upon the said joint trustees.

§ 937.85 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 937.86 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 937.87 *Agents.* The Secretary may, by designation in writing, name any person including any officer or employee of the Government, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 937.88 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 937.89 *Personal liability.* No member or alternate of the committee, nor any employee thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any other person or errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty.

§ 937.90 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 937.91 *Amendments.* Amendments to this subpart, may be proposed, from time to time, by the committee or by the Secretary.

§ 937.92 *Title.* This subpart shall be entitled Order No. 37. Reference to this subpart in rules and regulations pursuant thereto may be made to this title and such reference shall be considered comprehensive, and to include all amendments thereto that are in effect at the time of such reference.

Order Directing That a Referendum Be Conducted Among Producers; Designating Agents to Conduct Such Referendum; and Determination of a Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among producers who, during the period August 1, 1954, to July 31, 1955 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the production area as defined in § 937.4 of Order No. 37 (7 CFR Part 937), in the production of celery for market, to determine whether such producers approve or favor the issuance of an order regulating the handling of celery grown therein, and said order is annexed to the decision of the Secretary of Agriculture.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection With Marketing Orders (Except Those Applicable to Milk and Its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176).

For the purpose of this referendum, the production area defined in § 937.4 of Order No. 37 means the entire State of Florida.

M. F. Miller and W. R. Cleveland, Field Representatives, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Florida Citrus Mutual Building, Lakeland, Florida, and E. E. Gallahue, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., are hereby designated as agents of the Secretary of Agriculture to conduct said referendum jointly or severally.

Copies of the text of the aforesaid order, the aforesaid procedure, and of this order may be examined in the office of the referendum agents, at the office of the Hearing Clerk, Administration Building, U. S. Department of Agriculture, Washington, D. C., and at those places within the production area announced by the referendum agents.

Ballots to be cast in the referendum and copies of the text of said order may be obtained from any referendum agent and any appointee hereunder.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 20th day of October 1955.

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 329]

PAYMENT OF DEPOSITS AND INTEREST THEREON BY INSURED NONMEMBER BANKS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that adoption of the following amendment of § 329.0 of Chapter III, Title 12, Code of Federal Regulations, is contemplated. Prior to its final adoption, however, consideration will be given to any data, views or comments pertaining thereto which are submitted in writing to the Secretary, Federal Deposit Insurance Corporation, Washington 25, D. C., by any interested person within thirty days from the publication of this notice in the FEDERAL REGISTER.

The proposed amendment is as follows:

Section 329.0 is amended by deleting the last sentence thereof which reads as follows: "The provisions of this part do not apply to mutual savings banks or to any deposit in a bank located outside of, or payable only at a bank's office which is located outside of, the States of the United States and the District of Columbia."

and by substituting in lieu thereof the following sentence: "The provisions of this part do not apply to mutual savings banks, or to guaranty savings banks operating in the State of New Hampshire so long as said guaranty savings banks operate substantially under and pursuant to the laws of the State of New Hampshire pertaining to mutual savings banks and do not engage in commercial banking, or to any deposit in a bank located outside of, or payable only at a bank's office which is located outside of, the United States of America and the District of Columbia."

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] A. J. LODA,
Acting Secretary.

NOTICES

DEPARTMENT OF COMMERCE

Maritime Administration

TRADE ROUTE NO. 30; WASHINGTON AND OREGON PORTS/FAR EAST

ESSENTIALITY AND UNITED STATES FLAG SERVICE REQUIREMENTS; CONCLUSIONS AND DETERMINATIONS

Notice is hereby given that on October 14, 1955, the Maritime Administrator, acting pursuant to Section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States Foreign Trade Route No. 30 and, in accordance with his action of October 29, 1954, ordered that the following conclusions and determinations reached by the Maritime Administrator with respect to said route be published in the FEDERAL REGISTER:

1. Trade Route No. 30, as described below is reaffirmed as an essential foreign trade route of the United States with no change in the United States and foreign areas served:

Between Washington and Oregon ports and ports in the Far East (Japan, Formosa, Philippine Islands, and the Continent of Asia from the Union of Soviet Socialist Republics to Siam, inclusive).

2. Requirements for United States flag operation are approximately 9 to 11 sailings per month of freight vessels, with approximately one-half serving the route exclusively, and the remainder serving it in conjunction with other United States Coastal areas.

3. The C-3 type freighter now operated on Trade Route No. 30 is suitable for operation thereon, and the present C-2 type and AP-3 Victory type ships are suitable for interim operation thereon. Under present conditions approximately 22 to 27 U. S. flag freighters are required to serve the route adequately. Replacement freighters should be somewhat superior to the present C-3 design.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views thereon should submit same in writing to the Secretary, Maritime Administration, Department of Commerce, Washington 25, D. C., within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: October 20, 1955.

By order of the Maritime Administrator.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-6483]

ARKLA OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 18, 1955.

Take notice that W. G. Skelly, Gertrude Skelly, Joan Skelly Stuart and Carolyn Skelly Burford, doing business as Arkla Oil Company, Applicant, whose address is Rodessa, Louisiana, filed on November 29, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas in the Rodessa Field, Miller County, Arkansas, and sells it in interstate commerce to the Arkansas-Louisiana Gas Company for resale. Applicant also purchases natural gas from other producers in the same field which is sold to the same company for the same purpose and in the same manner.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 21, 1955, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 10, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-7342]

H. R. SMITH ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

OCTOBER 18, 1955.

In the matter of H. R. Smith, A. E. Bruggemann, Southwestern Oil & Refining Company, Columbus Export Corporation; Docket No. G-7342.

Take notice that H. R. Smith an individual whose address is Box 98, Alice, Texas, filed on behalf of the above-entitled applicants on January 3, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants propose to produce and sell natural gas from the La Jara Field in Hidalgo County, Texas, to Tennessee Gas Transmission Company (Tennessee). Tennessee will transport the gas commingled with its other gas supplies for sale in interstate commerce.

The initial rate for the sale of gas to Tennessee is 10 cents per Mcf.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 21, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW. Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 6, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or to be represented at the hearing.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. 8914]

J. M. HUBER CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 18, 1955.

Take notice that J. M. Huber Corporation (Applicant), a New Jersey corporation whose address is P. O. Box 831, Borger, Texas, filed on May 16, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas to be produced from the Lucky Field, Matagorda County, Texas, to Tennessee Gas Transmission Company (Tennessee). Tennessee will transport and sell the gas in interstate commerce. The proposed initial rate is 13.70018 cents per Mcf at 14.65 p. s. i. a.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 22, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 8, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure, herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or to be represented at the hearing.

[Docket No. G-9049 etc.]

SINCLAIR OIL AND GAS CO. ET AL.

NOTICE OF APPLICATIONS, CONSOLIDATION OF PROCEEDINGS, AND DATE OF HEARING

OCTOBER 18, 1955.

In the matters of Sinclair Oil and Gas Company, Docket No. G-9049; The Atlantic Refining Company, Docket No. G-9154; Transcontinental Gas Pipe Line Corporation, Docket No. G-9162.

Transcontinental Gas Pipe Line Corporation (hereinafter referred to as Transco), a Delaware corporation with its principal place of business at Houston, Texas, filed on July 21, 1955, its application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to construct and operate gas facilities as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in its application which is on file with the Commission and open for public inspection.

(1) To construct and operate approximately 1,600 feet of 4-inch pipeline.

(a) A meter station and appurtenant equipment from a point in Palmetto Field, St. Landry Parish, Louisiana, to Transco's main 30-inch pipeline.

The purpose of the above project is to make available to Transco's system an additional supply of gas at minimum expense and to provide a market for the gas from the Palmetto Field.

The Atlantic Refining Company has heretofore filed for a certificate of public convenience and necessity, such notice and date of hearing being issued on September 14, 1955 at (20 F. R. 6758).

The Sinclair Oil and Gas Company (hereinafter referred to as Sinclair) a Maine corporation with its principal place of business at Tulsa, Oklahoma, filed on June 17, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application which is on file with the Commission and open for public inspection.

Sinclair proposes to produce natural gas from Palmetto Field, St. Landry Parish, Louisiana, which will be sold to Transco for transportation in interstate commerce for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 17, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D., C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 2, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-8575; Filed, Oct. 24, 1955; 8:47 a. m.]

[Docket Nos. G-9116, G-9117]

UNITED GAS PIPE LINE CO. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 18, 1955.

Take notice that United Gas Pipe Line Company (United), and Transcontinental Gas Pipe Line Corporation (Transco), Applicants, both Delaware corporations and with their principal places of business at Shreveport, Louisiana, and Houston, Texas, respectively, filed on July 8, 1955, complimentary applications for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing them to construct and operate interconnecting facilities to provide for an exchange of natural gas on an interruptible basis between their already existing facilities during emergencies subject to the jurisdiction of the Commission all as more fully represented in their respective applications which are on file with the Commission and open for public inspection.

United proposes to construct and operate the necessary tap and metering facilities to connect with Transco's pipeline in Walthall County, Mississippi.

Transco proposes to construct 40 feet of 16-inch connecting pipeline at a point where Transco's 30-inch pipeline and United's 24-inch Baxterville lateral cross in Walthall County, Mississippi.

United states that the proposed facilities will have a delivery capacity of 304,000 Mcf per day at a pressure of 800 p. s. i. g. The tie-in will be located approximately 6.2 miles downstream from United's compressor station at the junction of its cross-country 30-inch mainline and its 24-inch Baxterville lateral and 4.4 miles downstream from Transco's compressor station number seven.

Transco indicates a pressure of about 800 p. s. i. g. and a delivery capacity of about 700,000 Mcf per day at its compressor station.

United's proposed rate schedule X-6 and Transco's proposed rate schedule X-14 comprise a contract, dated June 1, 1955, covering the proposed exchange of gas. It provides that the amount of gas exchanged will be such quantity as may be agreed upon at the time of emergency and specifies that the exchange of gas shall not result in curtailment of deliveries to the regular markets of the party supplying gas.

The contract also provides for a return in kind within 90 days by the party receiving the gas.

Operating and maintenance cost of the metering facilities will be equally divided between the Applicants. Term of the contract is one year.

No additional markets beyond those previously certificated by the Commission are to be served by either Applicant. No additional gas supply is involved herein.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on November 18, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (2) of the Commission's Rules of Practice and Procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 3, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9234]

NORTEX OIL & GAS CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 18, 1955.

Take notice that Nortex Oil & Gas Corp. (Applicant), a Delaware corporation whose address is Fidelity Union Life Building, Dallas, Texas, filed on August 16, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas to be produced from the Carroll Unit, Logansport Area, Desoto Parish, Louisiana, to Southern Natural Gas Company (Southern). Southern will transport and sell the gas commingled with its other supplies in interstate commerce. The initial rate proposed is 12.82 cents per Mcf at 15.025 p. s. i. a.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 23, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (20) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 9, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be necessary for Applicant to appear or to be represented at the hearing.

[Docket No. G-9476]

TEXAS GULF PRODUCING CO. ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Texas Gulf Producing Company, et al. (Applicant), on September 19, 1955, tendered for filing proposed changes in presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed change, which constitutes increased rates and charges, is contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, indicated	United Fuel Gas Co	Supplement No. 2 to Applicants FPC Gas Rate Schedule No. 10.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 12, 1955.

Issued: October 18, 1955.

By the Commission.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 12, 1955.

Issued: October 18, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

STANOLIND OIL AND GAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Stanolind Oil and Gas Company (Applicant) on September 23, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Sept. 21, 1955.	Hassie Hunt Trust	Supplement No. 7 to Applicant's FPC Gas Rate Schedule No. 39.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the

manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 12, 1955.

Issued: October 18, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3416]

SOUTHERN CO. ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE OF ADDITIONAL COMMON STOCK BY HOLDING COMPANY PURSUANT TO UNDERWRITTEN RIGHTS OFFERING, AND ISSUANCE AND SALE OF ADDITIONAL COMMON STOCK BY SUBSIDIARIES AND ACQUISITION THEREOF BY HOLDING COMPANY

OCTOBER 19, 1955.

The Southern Company ("Southern"), a registered holding company, and its public-utility subsidiaries Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia") have filed a joint application-declaration and amendments thereto pursuant to sections 6 (a), 6 (b), 7, 9 (a), 10, 12 (c), and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42, U-43, and U-50 thereunder, regarding the following proposed transactions:

STOCK ISSUE BY SOUTHERN AND APPLICATION OF PROCEEDS

Southern proposes to issue 1,507,303 additional shares of its authorized but unissued common stock (par value $5

per share), and to offer to the holders of its outstanding common stock the right to subscribe for such shares on the basis of 1 share of the additional stock for each 12 shares of common stock held on the record date. Rights to subscribe will be evidenced by transferable registered subscription warrants and the subscription offer will be open for approximately three weeks. No fractional shares will be issued. Southern will provide facilities through the subscription agent so that rights (not exceeding 11) may be sold or additional rights (not to exceed 11) may be purchased to enable the warrant holder to subscribe to a whole number of shares.

The offer of the additional common stock will be underwritten. Southern proposes to invite bids, pursuant to Rule U-50, such invitation to request prospective underwriters to name the amount of compensation to be paid by Southern to such underwriters for their services and agreement to purchase any shares not subscribed for as a result of the offering to stockholders, and also to purchase shares acquired by Southern, if any, in connection with its stabilizing activities referred to below.

The subscription price per share at which Southern proposes to offer the additional common stock to its common stockholders and to underwriters will be determined by the company. Prospective underwriters who have qualified to bid will be notified of the price per share as so determined by the company at least 20 hours prior to the time for the submission of bids. Such price will not be more than the last reported sale price on the New York Stock Exchange prior to the fixing thereof and not less than such last reported sale price less 15 percent.

Southern proposes, if it considers it necessary or desirable, to effect transactions which will stabilize or maintain the market price of its common stock for the purpose of facilitating the offering and distribution of the additional common stock. In connection therewith, the company may, during the period commencing with the first business day prior to the date when the price per share is to be determined by the company and continuing until the acceptance of a bid from underwriters, purchase shares of common stock of the company (but not in excess of 150,730 shares) on the New York Stock Exchange or otherwise, such purchases to be made through brokers with the payment of regular stock exchange commissions.

The proposed purchase contract will provide that the underwriters will agree that, in case any shares of additional common stock purchased by them thereunder shall be sold by the underwriters prior to the expiration of 30 days following the expiration of the subscription period for a price in excess of the subscription price plus $0.75 per share (the excess to be computed before the deduction of any expenses, selling commissions or concessions), the underwriters shall pay to Southern, in addition to the purchase price for shares purchased by them, a sum equal to 50 percent of such excess; such additional payment, if any, to be made by the underwriters to the company as promptly as practicable after the expiration of such 30 days.

Southern proposes to apply the proceeds from the sale of the additional common stock to the payment at or prior to maturity, February 1, 1956, of the outstanding $15,000,000 principal amount of the company's 3½ percent notes payable to banks and the balance of said proceeds, together with treasury funds to the extent required up to approximately $3,500,000, to the purchase at $100 per share (so far as such funds will extend and, as between the subsidiaries hereafter referred to, in the approximate proportion of the maximum numbers of shares to be purchased) up to 55,000 additional shares of common stock of Alabama and up to 85,000 additional shares of common stock of Georgia.

Southern's expenses other than underwriting discounts or commissions, are estimated as follows:

Federal original issue tax	$15,000
Filing fee, this Commission	3,316
Listing on New York Stock Exchange	3,750
Charges of transfer agent and registrar	60,000
Charges of warrant agent (being the lowest of 3 competitive bids)	119,500
Cost of stock certificates and warrants	8,000
Blue Sky expense	1,000
Mailing expense	20,000
Printing and preparing registration statement, prospectus, bidding papers, etc.	80,000
Fee of counsel	12,500
Fees of accountans	20,000
Services of Southern Services, Inc. (mutual service company)	8,000
Miscellaneous (telephone, travel, etc.)	9,000
Total estimated expenses of Southern	360,066

The above estimate does not include the fee of counsel for the underwriters, estimated at $7,500, which will be paid by the successful bidder.

STOCK ISSUES BY ALABAMA AND GEORGIA AND APPLICATION OF PROCEEDS

Alabama and Georgia propose to issue up to an additional 55,000 shares and 85,000 shares, respectively, of their authorized but unissued common stock without par value; to sell such shares to Southern for an aggregate consideration of $5,500,000 in the case of Alabama and of $8,500,000 in the case of Georgia, and to use the proceeds from such sales to provide a portion of the funds required to finance improvements, extensions and additions to their respective utility plants.

Expenditures during 1955 and 1956 for the construction or acquisition of property additions are estimated at $71,790,000 in the case of Alabama and $65,200,000 in the case of Georgia. Such additions have been financed in part by the sale during the second quarter of 1955 or $15,000,000 principal amount of bonds by Alabama and $12,000,000 principal amount of bonds by Georgia. It is estimated that in 1956 Alabama and Georgia will be required to raise, respectively, $17,000,000 and $10,500,000 by the sale of additional securities.

Fees and expenses to be paid by Alabama and Georgia other than Federal issuance taxes and other charges fixed by law will be nominal in amount.

The issuance and sale of the additional shares by Alabama have been approved by the Alabama Public Service Commission, the regulatory commission of the State in which Alabama is organized and doing business; and the issuance and sale of the additional shares by Georgia have been approved by the Georgia Public Service Commission, the regulatory commission of the State in which Georgia is organized and doing business.

Due notice having been given of the filing of said application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding with respect to the transactions described herein that the applicable provisions of the Act and the Rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration as amended be granted and permitted to become effective forthwith, subject to the conditions below set out:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that the application-declaration as amended be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-50 and Rule U-24.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 70-3414]

NEW ENGLAND ELECTRIC SYSTEM AND QUINCY ELECTRIC CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT

OCTOBER 19, 1955.

New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Quincy Electric Company ("Quincy") have filed a joint application and an amendment thereto pursuant to sections 6 (b), 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("act") regarding the following proposed transactions:

Quincy, which now has outstanding 38,226 shares of capital stock (par value $25 per share), proposes to issue and sell for cash 13,000 additional shares at the price of $75 a share, as fixed by its directors, or a total cash consideration of $975,000. Nees, the sole stockholder of Quincy, proposes to acquire the additional shares, and in payment therefor to use available treasury funds. The proceeds from the sale of the additional shares will be applied by Quincy to the payment of a like amount of notes payable to NEES.

Quincy and NEES desire to consummate the transactions in order to finance permanently a portion of the capitalizable additions to Quincy's plant through the issuance of equity securities.

The issuance and sale of the additional shares by Quincy have been approved by the Department of Public Utilities of Massachusetts, in which State the company is organized and doing business.

Due notice having been given of the filing of said application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding with respect to the proposed transactions that the applicable provisions of the Act are satisfied and that no adverse findings are necessary; and deeming it appropriate in the public interest and in the interest of investors and consumers that the amended application be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said application as amended be, and it hereby is, granted, effective forthwith, subject to the conditions prescribed in Rule U-24.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 811-485]

ULEN MANAGEMENT CO.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

OCTOBER 19, 1955.

Notice is hereby given that Ulen Management Company ("Ulen") registered under the Investment Company Act of 1940 ("act") as a closed-end non-diversified management investment company, has filed an amended application under section 8 (f) of the act for an order declaring that Ulen Management Company has ceased to be an investment company under the act.

The application makes the following representations:

Ulen is a Delaware corporation and its stock is listed on the American Stock Exchange. It was organized in 1941 under the name of Ulen Realization Corporation ("Ulen Realization") for the express purpose of liquidating the assets of its predecessor, Ulen & Company. The assets turned over to Ulen Realization were comprised primarily of various bonds and stocks, advances, claims, and miscellaneous assets amounting to approximately $900,000 as of December 31, 1941, after giving effect to certain reserves for revaluation of investments. The corporate existence of Ulen Realization was limited to 10 years subject to five-year renewal periods upon majority vote of stockholders. Ulen Realization registered under the act on November 30, 1943.

By order dated April 18, 1944 (Investment Company Act Release No. 649), Ulen Realization was exempted from: (1) Section 8 (b) of the act except for the filing of policy items contained in Form N-8B-1; (2) section 30 (b) (1) and Rule N-30B-1; and (3) section 30 (d) and Rule N-30D-1 to the extent that only annual reports to stockholders were required.

By early 1955, Ulen Realization had liquidated substantially all of the assets received from its predecessor, with the principal exception of $7,519,000 principal amount of National Economic Bank of Poland 8 percent Sinking Fund Bonds, a 50 percent ownership of the outstanding capital stock of Athens Water Company (Societe Anonyme Hellenique des Eaux), and Ulen Management Company, then a wholly owned subsidiary. For the fiscal year ended October 31, 1954, the gross revenues of Ulen Realization amounted to approximately $60,000, represented principally by $23,000 of fees from the Greek water company and dividends of $35,000 from its subsidiary, Ulen Management Company.

In early 1955 the Board of Directors of Ulen Realization determined that the sale of its remaining assets would not be in the best interests of its stockholders and submitted a proposal to convert Ulen Realization from a liquidating corporation and investment company, with restricted charter powers and a limited existence, into an industrial corporation of unlimited duration and broad charter powers. This conversion was to be effected through the merger of Ulen Realization and Ulen Management Company, with the surviving company adopting the name of Ulen Management Company. The merger was chosen as the means of effecting the conversion in order to give all stockholders a right of appraisal under Delaware law.

At a meeting of stockholders held on April 7, 1955, such merger was duly approved by the holders of more than two-thirds of the outstanding capital stock, and the merger became effective. No stockholder exercised his statutory right of appraisal. At such meeting, the holders of more than a majority of the outstanding capital stock also approved (a) the change of the nature of Ulen's business from an investment company to an industrial corporation (b) adoption of revised policies under the Act to give effect to its intention to become an industrial company and ceasing to be an investment company, and (c) the filing of the instant application.

As the first step in implementing and carrying out the policy approved by the stockholders to become an industrial corporation, the management of Ulen entered into a purchase agreement on September 21, 1955, for the purchase of the outstanding capital stock and $600,000 outstanding principal amount of 4 percent notes of Acorn Paint & Chemical Company from Sutro Bros. & Co. and Merkin & Co. in exchange for $1,000,000 principal amount of Ulen's 5 percent Convertible Debentures due November 1, 1970. One of the directors of Ulen is a partner of Sutro Bros & Co. and another director is a partner of Merkin & Co. Sutro Bros & Co. and Merkin & Co. purchased such stock and notes on June 24, 1955, in connection with the organization of Acorn at a price of $1,000,000 in cash. Acorn, a successor to Acorn Refining Company, which dissolved on June 30, 1955, after the purchase of its stock by Acorn, is engaged in the manufacture of paints and allied products in its plant in Cleveland, Ohio and the distribution and sale thereof on a national basis.

Upon the completion of the purchase agreement it is intended that the officers and directors of Ulen will be elected to substantially the same positions with Acorn and will constitute the officers and directors of Acorn. Ulen, it is represented, will participate directly in the conduct of the business of Acorn and will supervise and direct such business in all its phases.

The application states that Ulen was required to register as an investment company only by virtue of the provisions of section 3 (a) (3) of the act which provides, in pertinent part, that an investment company means any issuer which is engaged in the business of owning, holding, and owns investment securities having a value exceeding 40 percent of the value of such issuer's total assets (exclusive of Government securities and cash items) on an unconsolidated basis. Investment securities includes all securities except (A) Government securities, (B) securities issued by employees' securities companies, and (C) securities issued by majority-owned subsidiaries of the owner which are not investment companies.

The application states that Ulen's present portfolio of securities consists of the $7,519,000 principal amount of Polish Bank Bonds, 1,250 shares of Athens Water Company stock (representing 50 percent of outstanding voting securities), and $20,000 principal amount of Hellenic Republic External Water Works 4 percent Loan due April 1, 1985, now in default. It is represented that there are no readily available market quotations for such securities and that the board of directors of Ulen has determined their fair value to be $280,029 for the Polish Bank Bonds, $357,500 for the stock of Athens Water Company Stock and $4,850 for the Hellenic Republic External Water Works 4 percent Loan. As defined in section 3 (a) (3) of the act, Ulen's investment securities are comprised of the Polish Bank Bonds and the Hellenic Republic External Water Works Loan and the value thereof is $284,879. Such investment securities represent approximately 38.3 percent of Ulen's total assets exclusive of Government securities and cash items on an unconsolidated basis. The application further states that therefore Ulen no longer comes within the provisions of section 3 (a) (3) of the act, since it does not have investment securities which represent 40 percent or more of its total assets. Accordingly, applicant requests an order under section 8 (f) declaring that it has ceased to be an investment company.

Section 8 (f) of the act provides, in part, that whenever the Commission upon application finds that a registered

investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 2, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the act.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 20, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31215: *Fly ash from, to, and between points in the Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on fly ash, in covered hopper cars, as more fully described in the application, between (a) points in southwestern territory; (b) points in southwestern territory, on one hand, and points in Illinois and western trunk-line territories, on the other; (c) points in western trunk-line territory; and (d) points in western trunk-line territory, on one hand, and points in Illinois territory, on the other.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 7 to Agent Kratzmeir's I. C. C. 4171; Supplement 5 to Agent Prueter's I. C. C. A-4106.

FSA No. 31216: *Acetic acid—Kingport, Tenn., to Calvert, Ky.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on acetic acid, carloads from Kingsport, Tenn., to Calvert, Ky.

Grounds for relief: Circuitous routes.

Tariff: Supplement 244 to Agent Spaninger's I. C. C. 1062.

FSA No. 31217: *Zircon ore—Winter Beach, Fla., to Louisville, Ky., and St. Louis, Mo.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on zircon ore, carloads from Winter Beach, Fla., to Louisville, Ky., and St. Louis, Mo.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 81 to Agent Spaninger's I. C. C. 1346.

FSA No. 31218: *Ilmenite ore—Winter Beach, Fla., to Official territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on ilmenite ore concentrates, carloads from Winter Beach, Fla., to specified points in official territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 81 to Agent Spaninger's I. C. C. 1346.

FSA No. 31219: *Merchandise—Mobile, Ala., to St. Louis, Mo., Group.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on commodities various, in mixed carloads from Mobile, Ala., to St. Louis, Mo., and East St. Louis, Ill.

Grounds for relief: Short-line distance formula, and circuity.

Tariff: Supplement 19 to Agent Spaninger's I. C. C. 1458.

FSA No. 31220: *Less carload class and volume class rates in Missouri.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on commodities various, on which less carload and volume class rates are applied, between points in Missouri.

Grounds for relief: Intrastate competition and circuity.

Tariff: Supplement 63 to Agent Kratzmeir's I. C. C. 3627.

By the Commission.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 55-8592; Filed, Oct. 24, 1955; 8:50 a. m.]

[Rev. S. O. 562, Taylor's I. C. C. Order 62]

FERNWOOD, COLUMBIA AND GULF RAILROAD CO.

DIVERSION AND REROUTING OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the Fernwood, Columbia and Gulf Railroad Company due to bridge burned out between West Columbia and Tylertown, Mississippi, is unable to transport

traffic routed over its line between these points.

It is ordered, That:

(a) Rerouting traffic: The Fernwood, Columbia & Gulf Railroad Company, and its connections, is hereby authorized to reroute or divert traffic moving over its line between West Columbia and Tylertown, Mississippi, due to bridge burned out, over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 4:00 p. m., October 14, 1955.

(g) Expiration date: This order shall expire at 11:59 p. m., October 31, unless otherwise modified. changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., October 14, 1955.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1, Rice, Revised]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP RICE LOAN AND PURCHASE AGREEMENT PROGRAM

The 1955 C. C. C. Grain Price Support Bulletin 1, (20 F. R. 3017 and 4563) issued by the Commodity Credit Corporation and containing the regulations of a general nature with respect to price support operations for certain grains and other commodities produced in 1955 was supplemented by 1955 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Rice, (20 F. R. 6233) containing the specific regulations applicable to price support operations on rice of the 1955 crop. Supplement 1 is revised as follows: (1) To permit delivery of rice to CCC in bags; (2) to change the maturity date in all States except Arizona and California; (3) to amend the provisions pertaining to location differentials; (4) to extend the period in which official weight and inspection certificates must be furnished; and (5) to provide, under specific conditions, for the acceptance by CCC of modified commingled warehouse receipts under the purchase agreement program.

Sec.
421.1336 Purpose.
421.1337 Availability of price support.
421.1338 Eligible rice.
421.1339 Bagged and bulk rice.
421.1340 Warehouse receipts.
421.1341 Determination of quantity.
421.1342 Determination of quality.
421.1343 Maturity of loans.
421.1344 Support rates.
421.1345 Warehouse charges.
421.1346 Settlement.

AUTHORITY: §§ 421.1336 to 421.1346 issued under sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1421, 1441.

§ 421.1336 *Purpose.* Sections 421.1336 to 421.1346 state additional specific requirements which, together with the general requirements contained in the 1955 C. C. C. Grain Price Support Bulletin 1 (20 F. R. 3017 and 4563), comprise the regulations governing loans and purchase agreements under the 1955-Crop Rice Price Support Program.

§ 421.1337 *Availability of price support*—(a) *Method of support.* Price support will be made available through farm-storage and warehouse-storage loans and through purchase agreements.

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available to eligible producers on eligible rice produced in the States of Arizona, Arkansas, California, Florida, Illinois, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee and Texas.

(c) *Where to apply.* Application for rice price support must be made at the office of the County Committee which keeps the farm program records for the farm. In the case of eligible cooperative marketing associations of producers, application for price support shall be made in the county where the main office of the cooperative marketing association of producers is located or in such other county as the State Committee determines the application can be more expeditiously handled.

(d) *When to apply.* Loans and purchase agreements will be available from time of harvest through January 31, 1956, and the applicable documents must be signed by the producer and delivered to the County Committee not later than such date. Applicable documents include the Producer's Note and Loan Agreement for warehouse-storage loans, the Producer's Note and Supplemental Loan Agreement and the Commodity Chattel Mortgage for farm-storage loans and the Purchase Agreement for purchase agreements.

(e) *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity producing rice in 1955 as landowner, landlord, tenant, or sharecropper, including a person owning and operating his own farm, a tenant operat-

ing a farm rented for cash, a tenant operating a farm under a crop-share lease, contract, or agreement, a landlord leasing to share tenants, and an irrigation company furnishing water for a share of the crop: *Provided*, That a producer shall not be an eligible producer unless he satisfies the compliance requirements of the regulations pertaining to acreage allotments for the 1955 crop as provided in 1955 C. C. C. Rice Bulletin A and any amendments thereto.

(f) *Cooperative associations.* A cooperative marketing association of producers which satisfies the following conditions shall be deemed an eligible producer and shall be eligible for warehouse-storage loans and purchase agreements:

(1) The terms and conditions under which producer members' rice is marketed through the association must be set out in a uniform marketing agreement and must be applicable to all rice delivered to the association by producer members.

(2) The major part of the rice marketed by the association must be produced by members who are eligible producers.

(3) The members must share proportionately in the proceeds from marketings according to the quantity and quality of rice each delivers to the association. This provision shall not be construed to prohibit the association from establishing separate pools.

(4) The association must have authority to obtain a loan on the security of the rice and to give a lien thereon as well as authority to sell such rice.

(5) The association must maintain a record by varieties, grade and milling yields of the total quantity of rough rice acquired by or delivered to the association from all sources and must maintain a separate record of all such rice which is ineligible for price support. The association must keep in inventory at all times a quantity of rough rice of the varieties, average grade and milling yield equal to its outstanding warehouse receipts for commingled rice, plus a quantity of rough rice of the varieties, average grade and milling yield equal to the quantity of rice represented by outstanding warehouse receipts (including receipts held by CCC) for rice stored modified commingled and identity preserved. Rice stored modified commingled or identity preserve must be stored separately by lot and so kept in storage so long as receipts for such rice are outstanding.

(6) Not later than December 1, 1955, the association must have set aside in segregated storage, quantities of rough rice by varieties, grade and milling yield, equivalent to the quantities by varieties, grade and milling yield of rough rice which does not meet the eligibility requirements of § 421.1338, hereinafter referred to as "ineligible" rough rice (except rough rice in inventory on July 31, 1955, and rough rice received from CCC and placed in inventory subsequent to July 31, 1955) received by the association from all sources up to such date. All ineligible rough rice received by the association on or after the date of such segregation must also be set aside in segregated storage together with other rough rice required to be set aside in segregated storage. The association must keep a detailed record of the disposition made of the rough rice required to be so set aside. In addition, all rough rice in inventory on July 31, 1955, and all rough rice received from CCC and placed in inventory subsequent to July 31, 1955, must be physically segregated in storage from other rice and a separate record kept of the disposition of such rice. Price support may be obtained only on that rough rice not required to be segregated in storage by this paragraph. The association shall not be entitled to obtain price support until such ineligible rice has been segregated in accordance with this paragraph.

(7) In making settlement with producer members the association shall make settlement with respect to the ineligible rice separately from the settlement made on eligible rice in accordance with the quantity and quality and sales proceeds from each.

(8) Rough rice held by the association must be made available for inspection by CCC at all reasonable times so long as the association has rice under price suport and the books and records of the association must be made available to CCC for inspection at all reasonable times through May 1, 1961.

§ 421.1338 *Eligible rice.* To be eligible for price support, rice must meet the following requirements:

(a) The rice must have been produced in 1955 by an eligible producer on a farm on which the rice acreage allotment was not exceeded in the States of Arizona, Arkansas, California, Florida, Illinois, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, or Texas.

(b) The beneficial interest in the rice must be in the eligible producer tendering the rice for loan or for purchase under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the rice was harvested. In the case of cooperative marketing associations, the beneficial interest in the rice must have been in the producer members who delivered the rice to the association and must always have been in them or in them and former producers whom they succeeded before the rice was harvested.

(c) The rice must be of one of the classes within the Official Standards of the United States for Rough Rice other than "mixed rough rice."

(d) The rice, at the time it is placed under loan or purchased under a purchase agreement, must (1) grade U. S. No. 5 or better (rice of special grades shall not be eligible rice); and (2) contain not more than 14 percent moisture.

(e) If offered as security for a farm-storage loan, the rice must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the ASC State Committee.

(f) Rice may be either in bags or in bulk when a loan is obtained or when rice is purchased under a purchase agreement.

§ 421.1339 *Bagged and bulk rice.* (a) As specified in § 421.1338 (f), rice may be either in bags or in bulk when a loan is obtained or when rice is purchased under a purchase agreement.

(b) It is a requirement of the 1955–Crop Rice Price Support Program that rice acquired by CCC under this program shall be in the same form as when placed under loan. Therefore, if a loan is made on rice in bags, the rice is to be in bags at the time of acquisition by CCC under the program, and if a loan is made on rice in bulk, the rice is to be in bulk at the time of acquisition under the program by CCC.

Part 182 (proposed) 8052

ing a farm rented for cash, a tenant operating a farm under a crop-share lease, contract, or agreement, a landlord leasing to share tenants, and an irrigation company furnishing water for a share of the crop: *Provided*, That a producer shall not be an eligible producer unless he satisfies the compliance requirements of the regulations pertaining to acreage allotments for the 1955 crop as provided in 1955 C. C. C. Rice Bulletin A and any amendments thereto.

(f) *Cooperative associations.* A cooperative marketing association of producers which satisfies the following conditions shall be deemed an eligible producer and shall be eligible for warehouse-storage loans and purchase agreements:

(1) The terms and conditions under which producer members' rice is marketed through the association must be set out in a uniform marketing agreement and must be applicable to all rice delivered to the association by producer members.

(2) The major part of the rice marketed by the association must be produced by members who are eligible producers.

(3) The members must share proportionately in the proceeds from marketings according to the quantity and quality of rice each delivers to the association. This provision shall not be construed to prohibit the association from establishing separate pools.

(4) The association must have authority to obtain a loan on the security of the rice and to give a lien thereon as well as authority to sell such rice.

(5) The association must maintain a record by varieties, grade and milling yields of the total quantity of rough rice acquired by or delivered to the association from all sources and must maintain a separate record of all such rice which is ineligible for price support. The association must keep in inventory at all times a quantity of rough rice of the varieties, average grade and milling yield equal to its outstanding warehouse receipts for commingled rice, plus a quantity of rough rice of the varieties, average grade and milling yield equal to the quantity of rice represented by outstanding warehouse receipts (including receipts held by CCC) for rice stored modified commingled and identity preserved. Rice stored modified commingled or identity preserve must be stored separately by lot and so kept in storage so long as receipts for such rice are outstanding.

(6) Not later than December 1, 1955, the association must have set aside in segregated storage, quantities of rough rice by varieties, grade and milling yield, equivalent to the quantities by varieties, grade and milling yield of rough rice which does not meet the eligibility requirements of § 421.1338, hereinafter referred to as "ineligible" rough rice (except rough rice in inventory on July 31, 1955, and rough rice received from CCC and placed in inventory subsequent to July 31, 1955) received by the association from all sources up to such date. All ineligible rough rice received by the association on or after the date of such segregation must also be set aside in segregated storage together with other rough rice required to be set aside in segregated storage. The association must keep a detailed record of the disposition made of the rough rice required to be so set aside. In addition, all rough rice in inventory on July 31, 1955, and all rough rice received from CCC and placed in inventory subsequent to July 31, 1955, must be physically segregated in storage from other rice and a separate record kept of the disposition of such rice. Price support may be obtained only on that rough rice not required to be segregated in storage by this paragraph. The association shall not be entitled to obtain price support until such ineligible rice has been segregated in accordance with this paragraph.

(7) In making settlement with producer members the association shall make settlement with respect to the ineligible rice separately from the settlement made on eligible rice in accordance with the quantity and quality and sales proceeds from each.

(8) Rough rice held by the association must be made available for inspection by CCC at all reasonable times so long as the association has rice under price suport and the books and records of the association must be made available to CCC for inspection at all reasonable times through May 1, 1961.

§ 421.1338 *Eligible rice.* To be eligible for price support, rice must meet the following requirements:

(a) The rice must have been produced in 1955 by an eligible producer on a farm on which the rice acreage allotment was not exceeded in the States of Arizona, Arkansas, California, Florida, Illinois, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, or Texas.

(b) The beneficial interest in the rice must be in the eligible producer tendering the rice for loan or for purchase under a purchase agreement and must always have been in him, or must have been in him and a former producer whom he succeeded before the rice was harvested. In the case of cooperative marketing associations, the beneficial interest in the rice must have been in the producer members who delivered the rice to the association and must always have been in them or in them and former producers whom they succeeded before the rice was harvested.

(c) The rice must be of one of the classes within the Official Standards of the United States for Rough Rice other than "mixed rough rice."

(d) The rice, at the time it is placed under loan or purchased under a purchase agreement, must (1) grade U. S. No. 5 or better (rice of special grades shall not be eligible rice); and (2) contain not more than 14 percent moisture.

(e) If offered as security for a farm-storage loan, the rice must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling, and sealing, unless otherwise approved by the ASC State Committee.

(f) Rice may be either in bags or in bulk when a loan is obtained or when rice is purchased under a purchase agreement.

§ 421.1339 *Bagged and bulk rice.* (a) As specified in § 421.1338 (f), rice may be either in bags or in bulk when a loan is obtained or when rice is purchased under a purchase agreement.

(b) It is a requirement of the 1955–Crop Rice Price Support Program that rice acquired by CCC under this program shall be in the same form as when placed under loan. Therefore, if a loan is made on rice in bags, the rice is to be in bags at the time of acquisition by CCC under the program, and if a loan is made on rice in bulk, the rice is to be in bulk at the time of acquisition under the program by CCC.

(c) Settlement with respect to rice placed under loan in bulk or purchased under a purchase agreement in bulk shall be on the basis of the net weight of the bulk rice acquired.

(d) Settlement with respect to rice which was placed under loan in bags or purchased under purchase agreements in bags, shall be on the basis of the combined weight of the rice and bags, and title to the bags shall pass with the rice. CCC shall not otherwise pay any amounts representing the value of the bags. In the event any person should successfully dispute the passing of title to the bags, the producer shall indemnify CCC for any loss sustained by reason thereof.

§ 421.1340 *Warehouse receipts.* Warehouse receipts representing rice in approved warehouse storage to be placed under loan or to be delivered to CCC under a purchase agreement, must meet the requirements of this section.

(a) Warehouse receipts must be issued in the name of the producer, or cooperative marketing association, must be properly endorsed in blank so as to vest title in any holder, and must be issued by a warehouse approved under the Uniform Rice Storage Agreement (CCC Form 26). The receipts must be negotiable, must cover eligible rice actually in store in the warehouse and must clearly indicate whether the rice is stored in bulk or in bags (sacks). Under the Uniform Rice Storage Agreement, the warehouseman guarantees the quantity and quality of the rice unless the warehouse receipts or accompanying supplemental certificates state that the rice is stored "identity-preserved" or "modified commingled." In the case of rice stored identity-preserved, the warehouseman is not a guarantor but is required to redeliver the identical rice on which the warehouse receipt was issued. In the case of bulk rice stored modified commingled, the warehouseman guarantees quantity but not quality and the rice of two or more owners is stored together in one lot, the identity of which the warehouseman is required to maintain.

(b) In order to be acceptable as security for a warehouse-storage loan, each warehouse receipt, or the accompanying supplemental certificate, must contain a statement that the rice is insured in accordance with CCC Form 26, "Uniform Rice Storage Agreement," and if such insurance was not effective as of the date of deposit of the rice in the warehouse, the warehouseman must certify as to the effective date of the insurance and that the rice is in the warehouse and undamaged. The insurance on rice with respect to which the warehouseman guarantees quality and quantity (hereinafter called commingled rice) must be obtained by the warehouseman. Insurance on modified commingled rice must be obtained by the warehouseman. Insurance on identity-preserved rice must be obtained by either the producer or the warehouseman. If the insurance on identity-preserved rice is obtained by the producer, it must be assigned to the warehouseman, with the consent of the insurance company, before a loan will be made and the warehouseman must also certify that the insurance has been assigned to him with the consent of the insurance company. Insurance is not required in order for rice represented by warehouse receipts to be purchased under the purchase agreement program.

(c) A supplemental certificate will be required to be executed in duplicate when all of the following information is not contained in the warehouse receipt or inspection certificate: Variety, grade, grade factors, milling yield, moisture, weight, method of storage and manner by which the rice was received. When required, the supplemental certificate (completed for all items) shall be executed by the warehouseman for commingled rice, by the warehouseman and producer for modified commingled rice and by the producer for identity-preserved rice.

(d) When the warehouse receipt represents identity-preserved rice, the producer's responsibility will be as stated in § 421.1015 of the 1955 C. C. C. Grain Price Support Bulletin 1. The producer's responsibility for modified commingled rice shall be the same as stated in § 421.1015 of 1955 C. C. C. Grain Price Support Bulletin 1 for farm-stored and identity-preserved rice except that he shall not be responsible for the quantity.

(e) A separate warehouse receipt must submitted for each class or variety, grade, and milling yield of rice.

(f) Warehouse receipts must carry an endorsement by the warehouseman in substantially the following form:

Warehouse charges through (insert the applicable maturity date for loans for the State where stored), including, but not limited to, receiving and loading out charges accrued or to accrue, and all other charges incident to the acquisition of the rice by CCC, on the rice represented by this warehouse receipt have been paid or otherwise provided for and a lien for such charges will not be claimed by the warehouseman from CCC or any subsequent holder of the warehouse receipt. If the rice represented by this warehouse receipt is stored in bags (sacks), the warehouseman agrees that any and all right, title, and interest which he has in such bags (sacks) shall pass with the rice if such rice is acquired under the price support program.

(g) The warehouse receipt shall not contain any statement indicating that the quantity is subject to a shrinkage factor.

§ 421.1341 *Determination of quantity.* (a) Loans and purchase agreements shall be made on the basis of rough rice expressed in units of 100 pounds, and fractional units of less than 100 pounds shall be disregarded. The quantity of rice placed under farm-storage loan may be determined either by weight or by measurement. The quantity of rice placed under a warehouse-storage loan shall be determined on the basis of weight. Determination of the quantity of rice delivered under a farm-storage loan, or for making settlement on an identity-preserved warehouse-storage loan or under a purchase agreement shall be on the basis of weight.

(b) In determining the quantity of bagged rice by weight, the gross weight, including bags, shall be used.

(c) When the quantity of rice is determined by measurement, a cubic foot of rice testing 45 pounds per bushel, shall be 36 pounds. The quantity determined will be the following percentages of 36 pounds:

For rice testing:	Percent
45 pounds or over	100
44 pounds or over, but less than 45 pounds	98
43 pounds or over, but less than 44 pounds	96
42 pounds or over, but less than 43 pounds	93
41 pounds or over, but less than 42 pounds	91
40 pounds or over, but less than 41 pounds	89

Proportionately lower for rice testing below 40 pounds.

(d) In the case of commingled rice, loans will be made and settlement with the producer will be made on 100 percent of the quantity of rice determined in accordance with this section, based on the quantity shown on the warehouse receipt or the supplemental certificate. In all other cases, loans will be made on 95 percent of the quantity of rice determined in accordance with this section, and the determination of quantity for settlement purposes will be made on the basis of the actual quantity acquired by CCC, except that in the case of bulk rice stored modified commingled, settlement with the producer will be made on the basis of 100 percent of the quantity shown on the warehouse receipt or the supplemental certificate.

(e) In the case of rice under purchase agreement, the producer shall, at the time he notifies the County Committee of his intention to sell rice to CCC in accordance with § 421.1018 (d), specify the quantity of each class or variety of rice included in the total quantity to be sold.

§ 421.1342 *Determination of quality.* (a) The class, grade, grade factors, milling yield and all quality factors for price support purposes shall be determined in accordance with the methods set forth in the Official United States Standards for Rough Rice.

(b) In the case of commingled rice, loans will be made and settlement with the producer, either on loans or purchase agreements, will be on the basis of the quality shown on the warehouse receipt or supplemental certificate. In all other cases, loans will be made on the basis of quality shown on an official (Federal or Federal-State) sample inspection certificate, based on a representative sample drawn by the County Committee for each lot of rice at the time application is made for the loan, and settlement with the producer, both with respect to loans and purchase agreements, will be on the basis of quality determined by a Federal or Federal-State lot inspection certificate dated not earlier than 30 days prior to the applicable maturity date for loans, and submitted by the producer in accordance with the settlement provisions of this bulletin. Sample inspection fees incurred by the county committee in connection with the making of loans will be for the account of CCC. Lot inspection fees incurred in connection with the acquisition of rice by CCC will be for the account of the producer.

§ 421.1343 *Maturity of loans.* Unless demand is made earlier, loans on rice stored in California and Arizona will mature on April 30, 1956, and loans on rice stored in other States will mature on March 16, 1956.

§ 421.1344 *Support rates.* Loans and purchases under purchase agreement will be made at the support rates set forth in this section.

(a) *Basic rates.* The basic support rate per 100 pounds of rough rice in approved storage and with all accrued charges paid through the applicable maturity date for loans, including all receiving and loading out charges, accrued or to accrue, shall be computed as follows: Multiply the yield (in pounds per hundredweight) of head rice by the applicable value factor for head rice (as shown in the table below according to class or variety). Similarly, multiply the difference between the total yield and head rice yield (in pounds per hundredweight) by the applicable value factor for broken rice. Add the results of these two computations to obtain the basic loan or purchase rate per 100 pounds of rough rice and express such rate in dollars and cents, rounded to the nearest whole cent.

VALUE FACTORS FOR HEAD AND BROKEN RICE

Group	Rough rice class or variety	Head rice	Broken rice
I	Patna (except the variety Century Patna), and Rexoro (except the variety Rexark).	$0.0938	$0.0400
II	Blue Bonnet, Nira and Rexark.	.0904	.0400
III	Century Patna, Fortuna, R. N., and Edith.	.0851	.0400
IV	Blue Rose (including the varieties Improved Blue Rose, Greater Blue Rose, Kamrose and Arkrose), Magnolia, Zenith, Prelude and Lady Wright.	.0740	.0400
V	Pearl, Calrose, Early Prolific, Calady, and other varieties.	.0688	.0400

(b) *Premiums and discounts.* The basic support rates, determined under paragraph (a) of this section, per 100 pounds of rough rice shall be adjusted by the following premium or discount for the grade applicable to an individual lot of rough rice:

Grade U. S. No. 1: Premium of 20 cents per 100 pounds.
Grade U. S. No. 2: Premium of 10 cents per 100 pounds.
Grade U. S. No. 3: Discount of 5 cents per 100 pounds.
Grade U. S. No. 4: Discount of 20 cents per 100 pounds.
Grade U. S. No. 5: Discount of 40 cents per 100 pounds.

(c) *Location differentials.* For rice produced in the following areas, discounts for location (to adjust for transportation costs of moving the rice to an area where competitive milling facilities are available) shall be applied to the basic support rate determined under paragraph (a) of this section and shall be in addition to any adjustment in accordance with paragraph (b) of this section: *Provided, however,* That such location differentials shall not apply to rice produced in these areas if the rice is placed under loan or delivered to CCC under a purchase agreement in a rice producing area where no location differential is applicable:

Area	Discount per 100 pounds
State of Florida	$0.82
States of South Carolina and North Carolina	.77
Counties of Lafayette, Little River and Miller in Arkansas; Bowie in Texas; McCurtain in Oklahoma; and Bossier Parish in Louisiana	.30
Imperial County, Calif., and adjacent counties in Arizona and California	.96
Counties of Holt, Lincoln, Marion, and Pike in Missouri, and Adams in Illinois	.43

§ 421.1345 *Warehouse charges.* On rice stored in an approved warehouse prior to acquisition by CCC and acquired by CCC in such approved storage, with receiving and loading out charges paid by the producer, CCC will refund to the producer an amount computed at the rate of 8 cents per hundred pounds as compensation for any receiving and loading out charges paid by the producer. Inspection and weighing fees and any special charges assessed by the warehouseman, such as for unpiling and repiling required in order to obtain weights or grade samples in connection with acquisition of the rice by CCC from the producer, shall be for the account of the producer.

§ 421.1346 *Settlement*—(a) *Farm-storage and identity preserved warehouse-storage loans.* (1) For settlement on loans on farm-stored or identity-preserved warehouse-stored rice the producer shall, at his own expense, furnish to the county committee official weight certificates and Federal or Federal-State lot inspection certificates dated not earlier than 30 days prior to the applicable maturity date, covering the rice. Settlement on such loans will be made at the applicable support rate for the grade and quality of the quantity of rice as shown by such weight certificates and inspection certificates. On farm-storage loans such certificates shall be furnished at the time of delivery of the rice. On identity-preserved warehouse-storage loans such certificates shall be furnished within 10 days after the maturity date. However, notwithstanding the foregoing provisions of this subparagraph, if at the time of delivery to CCC of rice covered by a farm-storage loan or if at the time of acquisition by CCC of rice covered by an identity-preserved warehouse-storage loan the warehouseman, with the agreement of the producer, issues a commingled warehouse receipt covering the rice, inspection and weight certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt.

(2) If the inspection certificate for the rice under farm-storage or identity-preserved warehouse-storage loan, or, where applicable, the commingled receipt for rice originally stored identity preserved or covered by a farm-storage loan, shows that the rice is of a grade for which no support rate has been established, the settlement value shall be the support rate established for the grade and milling yield of the rice placed under loan, less the difference, if any, on the date that the inspection and weight certificates, or the commingled receipts, are delivered to the county committee, between the market price for the grade and milling yield placed under loan and the market price of the rice described in the inspection certificate or commingled warehouse receipt, as determined by CCC: *Provided, however,* That if the rice is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price.

(b) *Modified commingled warehouse-storage loans.* (1) For settlement on loans on modified commingled warehouse-stored rice the producer shall, at his own expense and within 10 days after maturity, furnish to the County Committee a Federal or Federal-State lot inspection certificate dated not earlier than 30 days prior to the applicable maturity date, covering the lot of rice acquired by CCC which must have been taken from the modified commingled lot against which the warehouse receipt representing the rice under loan was issued. Settlement on such loans shall be made at the applicable support rate for the grade and quality of the rice as shown on the inspection certificate and for the quantity shown on the warehouse receipt. However, notwithstanding the foregoing provisions of this subparagraph, if, at the time of acquisition of the rice by CCC, the warehouseman, with the agreement of the producer, issues a commingled warehouse receipt covering the rice, inspection certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt.

(2) If the inspection certificate for the rice under modified commingled warehouse-storage loan, or, where applicable, the commingled warehouse receipt for rice originally stored modified commingled, shows that the rice is of a grade for which no support rate has been established, the settlement value shall be the support rate established for the grade and milling yield of the rice placed under loan, less the difference, if any, on the date that the inspection certificate, or commingled receipt, is delivered to the County Committee, between the market price for the grade and milling yield placed under loan and the market price of the rice described in the inspection certificate or commingled warehouse receipt, as determined by CCC: *Provided, however,* That if the rice is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price.

(c) *Commingled warehouse-storage loans.* Settlement will be made with the producer at the applicable support rate for the quantity and quality of rice shown on the warehouse receipt and accompanying documents.

(d) *Purchase agreements.* Eligible rice sold to CCC under a purchase agree-

ment will be purchased in accordance with § 421.1018 (d), at the applicable support rate for the grade and quality of the rice sold. CCC will accept modified commingled warehouse receipts under the purchase agreement program only when the entire quantity of rice in the modified commingled lot against which the warehouse receipt was issued, is delivered to CCC in a single unit. Otherwise, rice so stored must be removed from such storage and, if the producer desires to deliver warehouse receipts to CCC under the sale, new warehouse receipts representing the lot to be sold must be obtained from an approved warehouse. Where the rice sold to CCC is represented by modified commingled warehouse receipts, the producers shall, at their expense, furnish to the County Committee at the time of sale Federal or Federal-State lot inspection certificates covering the entire quantity of rice in the modified commingled lot issued on a single date not earlier than 30 days prior to the applicable maturity date for loans. Where the rice sold is represented by an identity-preserved warehouse receipt or is physically delivered to CCC, the producer shall, at his expense, furnish to the County Committee at the time of sale official weight certificates and Federal or Federal-State lot inspection certificates dated not earlier than 30 days prior to the applicable maturity date for loans. Where the rice sold is represented by commingled warehouse receipts, inspection and weight certificates will not be required and settlement with the producer will be made at the applicable support rate for the quantity and quality of rice shown on the commingled warehouse receipt.

(e) *Storage payment where CCC is unable to take delivery of rice stored in other than an approved warehouse under loan or purchase agreement.* The producer may be required to retain rice stored in other than an approved warehouse under loan or purchase agreement for a period of 60 days after the applicable maturity date without any cost to CCC. However, if CCC is unable to take delivery of such rice within the 60-day period after maturity, the producer shall be paid a storage payment upon delivery of the rice to CCC: *Provided, however,* That a storage payment shall be paid a producer whose rice is stored in other than an approved warehouse under purchase agreement only if he has properly given notice of his intention to sell the rice to CCC and delivery cannot be accepted within the 60-day period after maturity. The period for earning such storage payment shall begin the day following the expiration of the 60-day period after maturity and extend through the final date of delivery, or the final date for delivery as specified in the delivery instructions issued to the producer by the county office, whichever is earlier. The storage payment shall be computed at the rate of 2½ cents per cwt., for each 30 days or fraction thereof for the eligible rice accepted for delivery by CCC.

(f) In any instance where the producer fails to furnish to CCC weight or inspection certificates required for settlement on loans, CCC may obtain such certificates. The cost incurred by CCC in obtaining such certificates and any other fees or expenses incurred in connection with settlement on loans shall be for the account of the producer.

Issued this 21st day of October 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 55-8661; Filed, Oct. 25, 1955; 8:54 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146d—CERTIFICATION OF CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR, 1954 Supp., Parts 146, 146c, 146d; 20 F. R. 5421) are amended as indicated below:

1. Section 146.26 *Animal feed containing penicillin* • • • is amended as follows:

a. Paragraph (b) (16) is amended by adding the following new sentence at the end thereof: "When intended for such uses it may also contain the equivalent of not less than 50 grams of bacitracin per ton of feed."

b. Paragraph (b) (17) is amended by adding the following new sentence at the end thereof: "When intended for such uses it may also contain the equivalent of not less than 100 grams of bacitracin per ton of feed."

2. In § 146c.226 *Tetracycline and vasoconstrictor suspension* • • •, paragraph (a) *Standards of identity* • • • is amended by changing the number "4.0" to read "3.0".

3. In § 146d.307 *Chloramphenicol solution* • • •, paragraph (c) (1) (iii) is amended by changing the number "24" to read "48".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it relaxes existing requirements, and since it would be against public interest to delay providing for the amendments set forth above.

I further find that animal feeds containing bacitracin in the amounts designated in amendment 1 need not comply with the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they are used in the amounts and for the purposes specified in these amendments.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055 as amended; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463 as amended, 67 Stat. 389; 21 U. S. C. 352, 357)

Dated: October 20, 1955.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 55-8616; Filed, Oct. 25, 1955; 8:45 a. m.]

Chapter II—Bureau of Narcotics, Department of the Treasury

[T. D. 54, Narcotic Regs. 2]

PART 202—IMPORTATION AND EXPORTATION OF NARCOTIC DRUGS

MISCELLANEOUS AMENDMENTS

Narcotic Regulations 2 are amended to delete therefrom all reference to certified consular invoices.

By virtue of the authority vested in me by Treasury Order No. 120 (15 F. R. 6521) Narcotic Regulations 2 (21 CFR Part 202) relating to the importation and exportation of narcotic drugs are amended as follows:

PARAGRAPH 1. Article 4 (21 CFR 202.4) is amended to read as follows:

§ 202.4 *Alternative foreign ports.* If desired, alternative foreign ports of exportation within the same country may be indicated upon the application, thus, (a) Calcutta, (b) Bombay. If a formal permit is issued pursuant to such application it will bear the names of the two ports in the order given in the application and will authorize shipment from either port. Alternate ports in different countries will not be authorized in the same permit.

PAR. 2. Article 5 (21 CFR 202.5) is amended by striking out the word "sextuplet" in the first sentence and inserting in lieu thereof the word "quintuplicate."

PAR. 3. Article 6 (21 CFR 202.6) is amended by striking out the word "six" in the first sentence and inserting in lieu thereof the word "five."

PAR. 4. Article 9 (21 CFR 202.9) is amended to read as follows:

§ 202.9 *Cancelation of permit.* A permit may be canceled after being issued at the request of the importer, provided no shipment has been made thereunder. In the event that a permit is lost, the Commissioner may upon the production by the importer of satisfactory proof, by affidavit or otherwise, issue a duplicate permit. Nothing in this subpart shall affect the right, hereby reserved by the Commissioner, to cancel a permit at any time for proper cause.

PAR. 5. Article 10 (21 CFR 202.10) is amended to read as follows:

§ 202.10 *Disposition of copies of permit.* If it is decided to approve an application for permission to import crude opium or coca leaves, an import permit shall be prepared in quintuplicate, each copy of which shall be signed by the Commissioner. The five copies of each permit are designated respectively as original, duplicate, triplicate, quadruplicate, quintuplicate. After being signed these copies shall be distributed and shall serve purposes as follows:

(a) The original copy, together with the quintuplicate copy, shall be transmitted to the importer, who will retain the quintuplicate copy on file as his record of authority for the importation, and he shall transmit the original copy of the permit to the foreign exporter. The foreign exporter will submit the original copy of the permit to the proper governmental authority in the exporting country, if required as a prerequisite to the issuance of an export authorization. This copy of the permit will accompany the shipment. Upon arrival of the imported merchandise the collector of customs at the port of entry will forward the original copy of the permit with the bill of lading to the appraiser for the port, who, after appraising the merchandise, will return the original copy of the permit to the Commissioner with a report on the reverse side of such original copy, showing the name of the port of importation, date prepared, net quantity and kind, and report of analysis of the merchandise entered.

(b) The duplicate copy shall be forwarded to the proper governmental authorities of the exporting country.

(c) An additional copy shall be forwarded to the collector of customs at the United States port of entry, which shall be the customs port of destination in the case of shipments transported under immediate transportation entries, in order that said collector may compare it with the original copy and the bill of lading upon arrival of the merchandise.

(d) The other copy of the permit shall be retained on file in the office of the Commissioner.

If a discrepancy is noted between corresponding items upon different copies of a permit bearing the same serial number when compared by the United States collector of customs, the officer shall refuse to permit entry of the importation until the facts are communicated to the Commissioner and further instructions are received.

PAR. 6. Article 11 (21 CFR 202.11) is hereby revoked.

(Sec. 2, 35 Stat. 614, as amended, 21 U. S. C. 173)

Because the amendments made by this Treasury Decision relieve restrictions it is found unnecessary to issue the decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

This Treasury Decision shall be effective upon its filing for publication in the FEDERAL REGISTER.

G. W. CUNNINGHAM,
Commissioner of Narcotics.

Approved: October 19, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 22—FOREIGN RELATIONS

Chapter II—International Cooperation Administration[1]

PART 201—PROCEDURES FOR FURNISHING ASSISTANCE TO COOPERATING COUNTRIES

MISCELLANEOUS AMENDMENTS

Pursuant to Executive Order No. 10610, effective at the close of June 30, 1955, and Department of State Delegation of Authority No. 85, FOA Regulation 1, as revised October 15, 1954, is redesignated ICA Regulation 1 as of July 1, 1955, and will continue in effect with the following revisions and amendments:

1. The terms "International Cooperation Administration" and "ICA" are substituted for "Foreign Operations Administration" and "FOA", respectively, wherever the latter terms appear in the regulation.

2. Section 201.1 (a) is amended to read as follows:

§ 201.1 *Definition of terms.* For the purposes of this part:

(a) "The act" means the Mutual Security Act of 1954 (Pub. Law 665, 83d Cong.), as amended.

• • • • •

3. Section 201.6 (h) is amended by striking out the second sentence of subparagraph (2), by striking out subparagraphs (3) and (4), and by adding the following new subparagraphs (3), (4), and (5):

§ 201.6 *General provisions incorporated in PAs and PIOs.* • • •

(h) *Insurance.* • • •

(3) In authorizing or subauthorizing procurement under a commodity PA or PIO, the cooperating country will instruct each importer that, with respect to commodities procured in the United States pursuant to the PA or PIO, dollar funds made available under the authorization or subauthorization may, at the election of the importer, be used to purchase in the United States marine insurance for such commodities.

(4) As documentation to support ICA reimbursement for marine insurance dollar premiums, the insurer, insurance broker, or underwriter will execute a supplier's certificate (Form ICA-280) in accordance with § 201.18 (a) (2) (i) (c).

(5) In the event a cooperating country, by statute, decree, rule or regulation, discriminates with respect to ICA financed procurement against any marine insurance company authorized to do business in any State of the United States, then commodities procured in the United States with ICA funds, destined for such country, and insured against marine risk, shall be so insured in the United States with a company or companies authorized to do a marine insurance business in any State of the United States.

4. Section 201.7 (e) is amended to read as follows:

§ 201.7 *Ocean transportation.* • • •

(e) The requirements for use of United States flag vessels are contained in section 509 of the act and section 901 (b) of the Merchant Marine Act, 1936, added by Pub. Law 664, 83d Congress. These provisions generally require that at least 50 percent of the tonnage of ICA-financed commodities transported on ocean vessels be so transported on United States flag commercial vessels.

5. Section 201.10 (a) is amended to read as follows:

§ 201.10 *Information to be furnished by importer to supplier.* (a) Each importer must inform his supplier that the transaction is to be financed by ICA, and must give to his supplier the PA or PIO number that has been given to him, together with all instructions given to him by the cooperating country which will affect the supplier in carrying out the transaction, such as, for example, eligible source of commodities, periods during which contracts and deliveries must be made, shipping provisions, and documentation requirements. The supplier should request the importer to furnish the foregoing information, and the importer must furnish such information.

• • • • •

6. Section 201.13 is amended to read as follows:

§ 201.13 *Information for Office of Small Business/ICA.* (a) To permit ICA, in accordance with section 504 of the act, to give United States suppliers (particularly small independent enterprises) an opportunity to participate in supplying commodities and services financed by ICA, the importer (if not a United States Government Agency) shall insofar as practicable and to the maximum extent consistent with the accomplishment of the purposes of the Act furnish the following information in the following form so as to reach the Office of Small Business, ICA, Washington, D. C., at least 30 days prior to placing any order in excess of $5,000 (unless a shorter time is approved by the Office of Small Business, ICA, Washington, D. C.). This form will be submitted in duplicate in the English language, and specifications for commodities must be stated in terms of U. S. standards.

[1] Formerly designated as Foreign Operations Administration.

Name and Address of Importer	ICA PA or PIO/C Number (if known)	Quotations will be accepted until _____ (Date)
Subauthorization or Import License Number (if known)	Cabled quotations ( ) will ( ) will not be accepted (check one). If yes, give cable address	Approximate dollar amount of the proposed purchase

Full description of commodities and services (excluding ocean transportation and marine insurance) to be imported, including sizes, quantities, etc., and any special conditions:

Name of Importer _____
By _____
(Authorized signature)

(b) Where procurement is undertaken directly by a cooperating country government or its governmental agency on the basis of formal sealed bids, the importer, in addition to furnishing the information required in paragraph (a) of this section, shall at the same time furnish to the Office of Small Business, ICA, Washington, D. C., the closing hour and date for bids, the applicable invitation number, and the address where invitation forms and complete specifications may be obtained.

(c) The provisions of paragraphs (a) and (b) of this section shall not apply to imports of agricultural commodities except as otherwise specifically provided for in any PA or PIO covering agricultural commodities.

(d) Where ICA-financed purchases are made on the basis of sealed bids, the importer shall, within thirty days after making the award, furnish the Office of Small Business, ICA, Washington, D. C., an abstract of the bids submitted showing the names and addresses of all bidders the bids they submitted in terms of commodities, quantity, and prices, and the name and address of the successful bidder or bidders. The abstract of bids shall not be required in any cases either where the supplier and importer are private commercial operators or where the supplier is a United States Government Agency unless the Office of Small Business, ICA, Washington, D. C., specifically requests the importer for such an abstract.

7. In § 201.18 that portion of paragraph (a) preceding subparagraph (1) is amended to read as follows:

§ 201.18 *Documents required for reimbursement.* * * *

(a) For cost of any commodity, including ocean freight in c. & f. (cost and freight), marine insurance in c. & i. (cost and insurance), and ocean freight and marine insurance in c. i. f. (cost, insurance, and freight) transactions:

* * * * * * *

8. In § 201.18 (a) (2) (i), (*a*) is amended to read as follows:

(*a*) The cost of the commodity, including ocean freight in c. & f., marine insurance in c. & i., and ocean freight and marine insurance in c. i. f. transactions, to be executed by the supplier of the commodity.

9. In § 201.18 (a) (2) (i), (*c*) is added to read as follows:

(*c*) The cost of marine insurance in c. & i. and c. i. f. transactions, to be executed by the insurer, insurance broker, or underwriter.

10. Section 201.18 (a) (3) is amended by adding the following subdivision (iv):

(iv) In the case of shipments, other than by ocean vessel or aircraft, to a cooperating country from an authorized source country or area other than the continental United States but including Alaska, if the banking institution furnishes a certificate to the effect that it has been informed by the approved applicant or the supplier that it is impracticable to furnish any of the documents described in subdivision (i) of this subparagraph, such other documents evidencing shipment to or receipt by the cooperating country as are acceptable under good commercial practice, such as railway, barge, or truck bills of lading, or importers' receipts.

11. Section 201.18 (a) (4) is amended by adding the following at the end thereof: "In the case of commodities shipped from a free port or bonded warehouse, a statement by the supplier shall be endorsed on, or attached to, the copy (or photostat) of the supplier's invoice indicating (*a*) shipment from either a free port or bonded warehouse, in accordance with the facts, and (*b*) the country or area from which the commodity was shipped into such free port or bonded warehouse."

12. In § 201.18 that part of paragraph (c) preceding subparagraph (1) is amended to read as follows:

(c) For the cost of services (other than ocean transportation and marine insurance):

13. In § 201.22 (e) the first sentence is amended by adding the following at the end thereof:

(e) *Source.* * * * unless a statement furnished under § 201.18 (a) (4) indicates that the "source" is not the one shown in the PA or PIO.

14. Section 201.24 is amended to read as follows:

§ 201.24 *Continuation in effect of certain prior issuances.* Cooperating country allotments, PAs or PIOs, U. S. Government agency purchase requisitions, letters of commitment to banking institutions and letters of commitment to suppliers, issued by ECA under ECA Regulation 1, as amended, and by MSA under MSA Regulation 1, as amended, and by FOA under FOA Regulation 1, as amended, are reaffirmed and will continue in effect, subject to the terms and conditions thereof. The provisions of this part may be satisfied by the submission of a certificate or writing in a form: (a) Prescribed by or provided for by corresponding provisions of ECA Regulation 1, as in effect on December 29, 1951, or authorized by ECA on that date, or referring to an ECA Commodity Code number; or (b) prescribed by or provided for by corresponding provisions of MSA Regulation 1, as in effect on July 31, 1953, or authorized by MSA on that date, or referring to an MSA Commodity Code number; (c) or prescribed by or provided for by corresponding provisions of FOA Regulation 1, as in effect on June 30, 1955, or authorized by FOA on that date, or referring to an FOA Commodity Code number; or (d) prescribed by or provided for by corresponding provisions of ICA Regulation 1, as in effect on October 24, 1955, or authorized by ICA on that date, or referring to an ICA Commodity Code number. Authorizations, bank contracts, letters of guaranty to banking institutions or suppliers issued by The Institute of Inter-American Affairs, the Technical Cooperation Administration, the Foreign Operations Administration, and the International Cooperation Administration, all prior to October 25, 1955, are reaffirmed and will continue in effect subject to the terms and conditions thereof. Amendments to any of the above documents may continue to be made in accordance with the procedures in effect prior to October 25, 1955.

15. Section 201.25 is amended to read as follows:

§ 201.25 *Transitory provision.* This redesignation of FOA Regulation 1 as ICA Regulation 1 will take effect as of July 1, 1955; the amendments thereto will take effect as of October 25, 1955, but will not be applicable to claims for reimbursement from, or payments made to, a supplier pursuant to letters of credit issued, confirmed or advised, or payment instructions received, prior to October 25, 1955.

(Sec. 525, 68 Stat. 856; 22 U. S. C. 1785)

D. A. FITZGERALD,
Acting Director, International Cooperation Administration.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 167]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (–) side of final course; course and distance (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	6	7	8	9	10	11
GOSHEN, IND. Municipal, 823'. SBRAZ-VDT-GSH. Procedure No. 1. Amendment No. 5. Effective date: November 26, 1953. Supersedes Amendment No. 4, dated July 9, 1954. Major changes: (1) Course and distance revised Column 3; (2) Minimum altitude from VOR revised Column 4; (3) Distance revised Column 5, present criteria; (3) Course revised Column 7; (4) Minimums format revised.	Goshen VOR	091—9.0 final	1,500	S side of W course: 270° outbound. 090° inbound. 2,000' within 10 miles.	1,400	317—2.4	2 engines or less: T-dn 300–1; C-dn 400–1; S-dn 32 800–2	2 engines or less: 300–1; 400–1; 800–2	More than 2 engines: 200–1½; 500–1¾; 400–1; 800–2	Within 2.4 miles, climb to 2,000' on NW course MKG LFR within 10 miles.
MUSKEGON, MICH. Muskegon County, 628'. SBMRLZ-VDT-MKG. Procedure No. 1. Amendment No. 7. Effective date: November 26, 1953. Supersedes Amendment 6, dated December 20, 1953. Major changes: (1) Distance and altitude revised column 5; (2) Altitude revised column 6; (3) Minimums format revised; (4) Column 11 revised to avoid restricted area.				E side S.E. course: 137° outbound. 317° inbound. 1,900' within 10 miles.						Within 2.7 miles climb to 2,300' on E course within 25 miles.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

RECORDS OF CASH COMMODITY AND FUTURES TRANSACTIONS

By virtue of the authority vested in the Secretary of Agriculture under the Commodity Exchange Act (7 U. S. C. 1–17a), and pursuant to notice published in the FEDERAL REGISTER on August 11, 1955 (20 F. R. 5829), § 1.35 of Chapter I of Title 17, Code of Federal Regulations (17 CFR 1.35), is hereby amended to read as follows:

§ 1.35 *Records of cash commodity and futures transactions*—(a) *Futures commission merchants and members of contract markets.* Each futures commission merchant and each member of a contract market shall keep full, complete, and systematic records of all commodity futures transactions and cash commodity transactions, made by or through him, on or subject to the rules of a board of trade. He shall keep such records, including all orders, trading cards, signature cards, street books, journals, ledgers, cancelled checks, copies of confirmations and copies of statements of purchase and sale, together with all other data and memoranda, and records of every sort pertaining to transactions in cash commodities and in commodities for future delivery, for the period of time and in the manner prescribed in § 1.31. He shall produce the same for inspection and shall furnish true and correct information and reports as to the contents or the meaning thereof, when and as requested by any authorized representative of the Commodity Exchange Authority.

(b) *Futures commission merchants and clearing members of contract markets.* Each futures commission merchant and each clearing member of a contract market shall, as a minimum requirement, prepare regularly and promptly, and keep systematically and in permanent form, the following:

(1) A financial ledger record which will show separately for each customer all charges against and credits to such customer's account, including but not limited to funds or securities deposited, withdrawn, or transferred, and charges or credits resulting from losses or gains on closed transactions;

(2) A record of transactions which will show separately for each account (including house accounts) all commodity futures transactions executed for such account, including the date, price, quantity, market, commodity, and future; and

(3) A record or journal which will show separately for each business day complete details of all commodity futures transactions executed on that day, including the date, price, quantity, market, commodity, future, and the person for whom such transaction was made.

(c) *Clearing members of contract markets.* In the daily record or journal required to be kept under paragraph (b) (3) of this section, each clearing member of a contract market shall also show the floor broker or other person executing each transaction and the opposite clearing member with whom it was made.

(Sec. 8a, as added by sec. 10, 49 Stat. 1500; 7 U. S. C. 12a)

NOTE: The record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective December 1, 1955.

Issued this 21st day of October 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-8660; Filed, Oct. 25, 1955; 8:54 a. m.]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 20—SPECIAL REGULATIONS

BLUE RIDGE PARKWAY; COMMERCIAL HAULING PROHIBITED

1. Paragraph (f), Commercial Hauling, of § 20.34, entitled *Blue Ridge Parkway*, is hereby created to read as follows:

§ 20.34 *Blue Ridge Parkway* • • •

(f) *Commercial Hauling by Trucks, Station Wagons, Pickups, Passenger Cars, or Other Vehicles.* Commercial hauling on the Blue Ridge Parkway, for any purpose, by trucks, station wagons, pickups, passenger cars, or other vehicles, when such hauling is in no way connected with the operation of the Parkway, is prohibited, except that, in emergencies, special hauling permits may be issued by the Superintendent.

(Sec. 3, 39 Stat. 535, as amended; 16 U. S. C. 3)

Issued this 21st day of September 1955.

[SEAL] SAM P. WEEMS,
Superintendent,
Blue Ridge Parkway.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 611, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.718 (Lemon Regulation 611, 20 F. R. 7774) are hereby amended to read as follows:

(ii) District 2: 200 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: October 20, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8615; Filed, Oct. 25, 1955; 8:45 a. m.]

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

BITUMINOUS COAL INDUSTRY

On August 6, 1955, notice was published in the FEDERAL REGISTER of a proposed decision of the Secretary of Labor in regard to the determination of the prevailing minimum wages pursuant to the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. Sec. 35, et seq.), for the Bituminous Coal Industry (20 F. R. 5690). The notice allowed a period of 30 days in which interested parties might submit exceptions to the proposed decision.[1]

Exceptions and objections to the proposed decision have been received from the Central Pennsylvania Open Pit Mining Association, from some 300 operators in the State of Virginia (hereinafter referred to as the Virginia Operators), from the Stearns Coal and Lumber Company on its own behalf and on behalf of 30 other operators in McCreary, Pulaski, and Whitley Counties, Kentucky, from the Laddie Coal and Mining Company, Robbins, Tennessee, from the Hawthorne Coal and Coke Company, Norton, Virginia, and from operators in Clay and Leslie Counties, Kentucky.

It has been contended that no determination should be made, because (1) wages below the prevailing minima are necessary to meet the competition of other fuels, (2) some operators cannot pay the prevailing minimum, (3) the lower wages paid by some are not below the minimum required by the Fair Labor Standards Act, and (4) the proposal would have an adverse effect on employment opportunities of aged workers.

The objections that this industry must compete with other fuels and that some operators will be unable to compete and pay the prevailing minima afford no sound reasons for failing to make a determination. The requirement that the prevailing minimum wage be paid on Government contracts to which the act applies contemplates that those members of the industry who are unable to meet its prevailing minimum wage standards will not be favored with Government business. The fact that a determination for this Industry will have this effect is no reason for withholding a determination.

Irrelevant to this proceeding is the fact that wages lower than the prevailing minima paid by some operators are not below the minimum requirements of the Fair Labor Standards Act. As pointed out by the Supreme Court in Powell v. U. S. Cartridge Co., 339 U. S. 497, the Walsh-Healey Act and the Fair Labor Standards Act are "mutually supplementary" rather than "mutually exclusive", and where both acts are applicable, employees are entitled to the advantages of both acts.

The objection that the proposed determination will have an adverse effect on aged workers is without merit. Section 201.1102 of the regulations issued under the Walsh-Healey Public Contracts Act permits the employment of handicapped workers at subminimum wages under certificates issued in accordance with standards and procedures prescribed by the Administrator of the Wage and Hour and Public Contracts Divisions under the Fair Labor Standards Act (29 CFR, Parts 524 and 525). A person may be considered "handicapped" under this regulation because of age, mental or physical deficiency, or injury. It is unnecessary and inconsistent with the basic objectives of the act to deny "prevailing minimum" wages to able bodied workers merely because lower rates are paid to handicapped or aged workers.

I have considered all arguments advanced against the issuance of a determination for the Bituminous Coal Industry. In my opinion these arguments do not outweigh the fact that this industry, selling in excess of 13,000,000 tons of coal to the Government in 1954,

[1] Two requests were received for an extension of time within which to file exceptions. However, the need for additional time, in view of the variety of issues presented, was anticipated in advance. The proposal, accordingly, granted 30 days for filing instead of the 15-day period provided in the rules of practice. In view of this fact and in view of the many other parties having an interest in this matter, further delay in reaching a final decision was not deemed advisable.

is a proper subject for a wage determination. All objections to the issuance of a determination are accordingly overruled.

Several exceptions have been filed with respect to the basis of the determination. Many of these exceptions are directed at the failure of the notice of hearing to make reference to all of the bases for wage determinations set forth in section 1 (b) of the act.

Section 1 (b) of the act provides for determination by the Secretary of Labor of "the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished." The act does not require that the determination of minimum wages be on the basis of all or a combination of the various standards. The act confers discretion on the Secretary of Labor in the choice of the method by which he shall proceed to determine the prevailing minima. No request was received prior to the hearing that the scope of the inquiry go beyond the question of the wages prevailing in the Bituminous Coal Industry. It is apparent from the record that there are ample data as to wages paid in the entire Bituminous Coal Industry and that it has long been recognized as a unique industry with a distinctive wage structure. Accordingly I find that there is no need to go outside the Industry or to consider any of the alternative standards.

Several other objections have been received as to the content and timing of the notice of hearing. These objections are substantially the same as those previously filed and considered in the proposed decision. Many of them are based on the theory that the notice of hearing limited the issue in this proceeding to either adoption or rejection of the proposal of petitioners as set forth in the notice of hearing. This theory is not supported by the language of the notice. The notice did not call solely for data, views, and argument as to the propriety of petitioners' proposals. On the contrary, the notice, in general terms, called for data and evidence which could form the basis of a rule to be proposed subsequent to the hearing. It contemplated a hearing at which various proposals and evidence in support thereof would be submitted.

The notice has also been challenged on the ground that it failed to set forth all of the issues that arose at the hearing. The necessity for some generality of notice in rule-making proceedings has been considered in the proposal. For the reasons stated therein, I consider this objection to be without merit.

I have reviewed my earlier findings as to the content and timing of the notice of hearing and I have considered all objections here raised which are based upon alleged imperfections in the content and timing of the notice. In the light of this review, it is my conclusion that the notice adequately described the subjects and issues involved, and sufficiently in advance of the hearing, to permit effective public participation. All objections to the content and timing of the notice of hearing, to previous findings concerning the subject, and to specific findings on the grounds of alleged inconsistency with the notice of hearing are therefore overruled.

An objection has been filed to the proposed definition of the industry. It is asserted that captive mines should be specifically excluded from the definition and that wages paid therein should not be considered in determining the prevailing minimum wages in the industry. In support of this contention, it is argued that coal produced in captive mines is not sold to the Government, but is consumed exclusively by the owner for his own purposes. This argument assumes that it is the function of a wage determination to reflect the minimum wage which prevails only among Government contractors in the industry. Section 1 (b) of the act, on the other hand, contemplates that the Secretary of Labor determine the minimum wages which prevail in the entire industry. It was the very purpose of the act that the award of Government contracts should not operate to depress minimum wage standards prevailing in the industry generally. The argument that the determination should ignore the wages paid in a substantial segment of the Bituminous Coal Industry merely because that segment does not currently contract with the Government runs counter to both the terms and the basic purposes of the act.

It has been suggested that the proposed definition itself has the effect of excluding captive mines. This suggestion is based upon that portion of the definition which reads: "Produces or furnishes" includes mining or other extraction, and the loading, screening, sizing, washing, oiling, and other preparation for market of bituminous coal and activities incidental to these operations.

It is argued that the words "preparation for market" would exclude captive mines since their production cannot be said to be a preparation for market. The phrase "preparation for market" was not used in such a restrictive sense. It was the intention to include preparational activities regardless of the ultimate use of the coal. Inasmuch as the proposed definition may be subject to misunderstanding on this point, it appears desirable to delete the phrase "for market". The complete definition of the Industry will then read as follows: "The Bituminous Coal Industry is defined as that industry which produces or furnishes all coal (including lignite) except Pennsylvania anthracite. "Produces or furnishes" includes mining or other extraction, and the loading, screening, sizing, washing, oiling, and other preparation of bituminous coal, and activities incidental to these operations. The term "preparation of bituminous coal" does not include any activities performed at Great Lakes or Tidewater docks."

Exception is also taken to the inclusion of preparatory activities in the proposed definition, it being argued that no evidence was taken on this point. The record clearly shows, however, that preparation of coal is considered an activity of the Bituminous Coal Industry.[1] Wage data introduced covered processing plants. The various operations performed to increase coal's marketability or to prepare it for particular uses were repeatedly alluded to. In addition, Government Exhibit 7 (U. S. Bureau of Mines Survey "Bituminous Coal and Lignite in 1953") contains extensive material on various preparational activities including statistical data concerning these processing practices. In view of the fact that the various preparatory activities referred to in the record as well as the actual mining or extraction of coal are considered activities of the Industry, the Industry is properly defined as including preparation of coal.

The proponents of various geographic units other than production districts as wage determination areas have renewed their arguments in favor of their respective areas. The areas supported in these contentions are the State of Virginia; Clay and Leslie Counties, Kentucky; 21 contiguous counties in Central Pennsylvania; and McCreary, Pulaski and a part of Whitley Counties, Kentucky. All of these areas and the arguments advanced in support thereof were discussed in detail in the proposal.

In taking exception to the choice of production districts as wage determination areas, it is asserted that there exist within individual districts variations in methods of mining, characteristics of the coal, freight rates, and mining conditions generally. These variations, however, are characteristic of the Bituminous Coal Industry and exist to a much greater degree among the different production districts. The existence of these varying economic characteristics and the fact that historically they have been considered in the development of the differentials between the minimum wages prevailing in competing districts are persuasive reasons for using a district approach in this determination rather than alternative areas suggested at the hearing. The fact that differences may exist between mines within a single production district does not affect the conclusion that, generally speaking, common natural economic characteristics which affect the ability of mines to compete prevail within individual districts. That these characteristics do prevail on a district basis is demonstrated not only by evidence of record as to the background and origin of the production districts, but by the existence of well established uniform patterns of prevailing minimum wages according to districts.

The use of production districts is also challenged on the ground that the wage data introduced by the petitioners at the hearing were not collated or assembled on a production district basis and that there is nothing in the record upon which a production district evaluation can be made.

Considerable data introduced by petitioners are on a district basis. Even where this is not the case, mines having UMWA contracts or paying minimum

[1] T. 288-89.

wages at least equal to those specified in such contracts are identified by name and address and in most cases, the 1953 tonnage and employment are given for each mine. The record also contains the precise boundaries of each production district and the total production and employment on a production district basis for the year 1953. With these basic data and the aid of such standard works as Rand McNally's Commercial Atlas and a Postal Guide, it is possible to ascertain a minimum percentage for 1953 of both total production and employment for each production district accounted for by UMWA signatories and those non-signatories paying not less than the minimum called for in the UMWA contracts.

In view of the basic data in the record, the charge that there is nothing in the record upon which a district evaluation can be made is unfounded. However, in view of the objections raised, the wage data of record have again been checked on a district basis. This recheck confirms the conclusion that a majority of both tonnage and employment was accounted for by mines paying minimum rates at least equal to those called for in the UMWA contracts in all producing districts except district 12.[3]

It has also been asserted that a district evaluation cannot be made since the breakdown and evaluation has not been subject to cross examination. However, the evaluation is made from evidence which was subject to cross-examination when it was introduced. Moreover, the parties have had an opportunity to object to the proposed evaluation and have failed to point to, or render, any evidence indicating that it is not accurate.

Exception has been taken to my statement that I do not consider the question of portal-to-portal pay as a matter within these proceedings. It is argued that both the daily wage of shift workers and the tonnage formula for incentive workers are designed to reflect portal-to-portal pay and that if a minimum based on these wage scales is placed in effect, it will have the effect of imposing upon non-union operators the payment of portal-to-portal pay in violation of the Portal Act.

It is true that under the UMWA agreements the pay for both classes of workers includes a certain amount for travel time within the mine. The fact, however, that the daily earnings include compensation for travel times does not increase the hourly rate nor make it any less "prevailing" than does the fact that the rate reflects other factors considered in the process of wage bargaining. The minimum hourly rates set forth in the proposal are those rates which prevail for one hour's work. Whether a particular operator is required to pay this rate portal-to-portal or only for time spent at the mine face is dependent entirely on those circumstances governing the compensability of travel time under the Portal-to-Portal Act of 1947. In view of this fact, all exceptions to the use of UMWA data on the ground that its use violates the Portal Act are overruled.

Exception is taken to the special provision for payment of incentive workers. This part of the proposal is said to be "unreasonable, arbitrary, and unjustified" and to be administratively unworkable.

Special provision was made for tonnage workers at the specific request of numerous representatives, including both labor and management. Some problems of administration of an hourly rate requirement with respect to incentive workers are present in any determination under the act. I do not anticipate any great difficulty in administering the proposed order. However, I am instructing the Administrator of the Wage and Hour and Public Contracts Divisions to report to me any difficulties in administration that may arise. In the event that such action appears to be in the public interest, proceedings will be instituted to amend the order.

Several other objections have been filed which are based on issues fully covered in the proposal. These include consideration of the "open market" exemption contained in the act, conclusions as to the conflict of the proposal with existing employment contracts, the nature and adequacy of the prevailing wage data, the propriety of basing the determination on 1953 production and employment data, questions as to the minimum rate prevailing in various areas, and the question raised on the record as to whether union mines were in fact living up to their contractual obligations. I have again reviewed each and every issue previously raised and for the reasons stated in the proposal, overrule these objections.[4]

In addition to exceptions to the substance of the proposal, numerous objections have been made to the failure of the proposed decision to refer to certain testimony and documents of record, to various statements in the proposal, and to certain rulings of the hearing examiner.

While the proposal did not refer specifically to each individual piece of evidence or document of record, all evidence of record and all matters raised were considered in reaching the proposed decision. The proposal was based on the entire record and the presentation and arguments of all interested parties were fully considered in the light of the entire record. Exception to the failure to refer specifically to all evidence of record is accordingly overruled.

I have considered the exceptions to rulings of the hearing examiner but find that the charge that those rulings were unreasonable, arbitrary, capricious and prejudicial has not been substantiated.

Although many of the objections to various statements in the proposal do not raise material questions of fact or law, all such statements have been reviewed. One minor objection raised by the Virginia Operators I find is well taken. There was an erroneous reference to an "association" of coal operators from Virginia, whereas they all made individual appearances and were referred to as the Virginia Operators for convenience only. The remaining objections are based either upon a dispute as to the proper inference to be drawn from the evidence or on a challenge to the credibility of various witnesses. I am convinced that a sound evaluation has been made of all evidence of record. Except for the objection to referring to the Virginia Operators as an association, all objections and exceptions to specific statements in the proposal are overruled.[5]

In addition to objections to the merits of the proposal, the charge that I have prejudged the issues in this proceeding has been renewed. This allegation in connection with a recommendation of the Advisory Committee on Energy and Power Resources was considered in the proposal. A press release of the United States Department of Labor issued on December 17, 1954, has now been advanced as an additional ground for this assertion.

This release, however, did no more than announce my decision that a wage determination should be made for the Bituminous Coal Industry through proceedings in accordance with law. My decision as to the prevailing minimum wages and all other issues involved in the proceeding was arrived at only after consideration of all evidence and data of record. The charge that any issue was prejudged is unfounded.

Upon reviewing the entire record in the light of all objections and exceptions filed, it is my conclusion that the proposed decision, amended by deleting the phrase "for market" from the definition of the industry, should be adopted. Accordingly, pursuant to the authority vested in me by the Walsh-Healey Public Contracts Act, Title 41, Code of Federal Regulations, Part 202, is hereby amended by addition of the following new section:

§ 202.51 *Bituminous coal industry*—(a) *Definition.* The bituminous coal industry is defined as that industry which produces or furnishes all coal (including lignite) except Pennsylvania anthracite. "Produces or furnishes" includes mining or other extraction, and the loading, screening, sizing, washing, oiling and other preparation of bituminous coal, and activities incidental to these operations. The term "preparation of bituminous coal" does not include any activities performed at Great Lakes or tidewater docks.

(b) *Minimum wage.* The minimum wage for employees (other than auxiliary workers) engaged in the performance of contracts with agencies of the United States subject to the provisions of the Act for production or furnishing of bituminous coal (including lignite) shall be the amount indicated for each area as follows:

District 1. Eastern Pennsylvania: $2.245.

The following counties in Pennsylvania: Bedford, Blair, Bradford, Cambria, Cameron, Centre, Clarion, Clearfield, Clinton, Elk, Forest, Fulton, Huntingdon, Jefferson, Lycoming, McKean, Mifflin, Potter, Somerset, Tioga.

Armstrong County, including mines served by the Pittsburgh and Shawmut Railroad on the west bank of the Allegheny River, and north of the Conemaugh division of the Pennsylvania Railroad.

Fayette County, all mines on and east of the line of Indian Creek Valley branch of the Baltimore and Ohio Railroad.

Indiana County, north of but excluding the Saltsburg branch of the Pennsylvania Railroad between Edri and Blairsville, both exclusive.

Westmoreland County, including all mines served by the Pennsylvania Railroad, Torrance, and east.

All coal-producing counties in the State of Maryland.

The following counties in West Virginia: Grant, Mineral, and Tucker.

District 2. Western Pennsylvania: $2.245.

The following counties in Pennsylvania: Allegheny, Beaver, Butler, Greene, Lawrence, Mercer, Venango, Washington.

Armstrong County, west of the Allegheny River and exclusive of mines served by the Pittsburgh and Shawmut Railroad.

Indiana County, including all mines served on the Saltsburg branch of the Pennsylvania Railroad north of Conemaugh River.

Fayette County, except all mines on and east of the line of Indian Creek Valley, branch of the Baltimore and Ohio Railroad.

Westmoreland County, including all mines except those served by the Pennsylvania Railroad from Torrance, east.

District 3. Northern West Virginia: $2.245.

The following counties in West Virginia: Barbour, Braxton, Calhoun, Doddridge, Gilmer, Harrison, Jackson, Lewis, Marion, Monongalia, Pleasants, Preston, Randolph, Ritchie, Roane, Taylor, Tyler, Upshur, Webster, Wetzel, Wirt, Wood.

That part of Nicholas County including mines served by the Baltimore and Ohio Railroad and north.

District 4. Ohio: $2.245.

All coal-producing counties in Ohio.

District 5. Michigan: (No determination.)

District 6. Panhandle: $2.245.

The following counties in West Virginia: Brooke, Hancock, Marshall, and Ohio.

District 7. Southern Numbered 1: $2.245.

The following counties in West Virginia: Greenbrier, Mercer, Monroe, Pocahontas, Summers.

Fayette County, east of Gauley River and including the Gauley River branch of the Chesapeake and Ohio Railroad and mines served by the Virginian Railway.

McDowell County, that portion served by the Dry Fork branch of the Norfolk and Western Railroad and east thereof.

Raleigh County, excluding all mines on the Coal River branch of the Chesapeake and Ohio Railroad.

Wyoming County, that portion served by the Gilbert branch of the Virginian Railway lying east of the mouth of Skin Fork of Guyandot River and that portion served by the main line and the Glen Rogers branch of the Virginian Railway.

The following counties in Virginia: Montgomery, Pulaski, Wythe, Giles, Craig.

Tazewell County, that portion served by the Dry Fork branch to Cedar Bluff and from Bluestone Junction to Boissevain branch of the Norfolk and Western Railroad and Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

Buchanan County, that portion served by the Richlands-Jewell Ridge branch of the Norfolk and Western Railroad and that portion of said county on the headwaters of Dismal Creek, east of Lynn Camp Creek (a tributary of Dismal Creek).

District 8. Southern Numbered 2: $2.245.

The following counties in West Virginia: Boone, Clay, Kanawha, Lincoln, Logan, Mason, Mingo, Putnam, Wayne, Cabell.

Fayette County, west of, but not including mines of the Gauley River branch of the Chesapeake and Ohio Railroad.

McDowell County, that portion not served by and lying west of the Dry Fork branch of the Norfolk and Western Railroad.

Raleigh County, all mines on the Coal River branch of the Chesapeake and Ohio Railroad and north thereof.

Nicholas County, that part south of and not served by the Baltimore and Ohio Railroad.

Wyoming County, that portion served by Gilbert branch of the Virginian Railway lying west of the mouth of Skin Fork of Guyandot River.

The following counties in Virginia: Dickinson, Lee, Russell, Scott, Wise.

All of Buchanan County, except that portion on the headwaters of Dismal Creek, east of Lynn Camp Creek (tributary of Dismal Creek) and that portion served by the Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

Tazewell County, except portions served by the Dry Fork branch of Norfolk and Western Railroad and branch from Bluestone Junction to Boissevain of Norfolk and Western Railroad and Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

The following counties in Kentucky: Bell, Boyd, Breathitt, Carter, Clay, Clinton, Elliott, Floyd, Greenup, Harlan, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, McCreary, Magoffin, Martin, Menifee, Morgan, Owsley, Perry, Pike, Pulaski, Rockcastle, Wayne, Whitley, Wolfe.

The following counties in Tennessee: Anderson, Campbell, Claiborne, Cumberland, Fentress, Morgan, Overton, Pickett, Putnam, Roane, Scott.

The following counties in North Carolina: Lee, Chatham, Moore.

District 9. West Kentucky: $2.09.

The following counties in Kentucky: Butler, Christian, Crittenden, Daviess, Hancock, Henderson, Hopkins, Logan, McLean, Muhlenberg, Ohio, Simpson, Todd, Union, Warren, Webster.

District 10. Illinois: $2.245.

All coal-producing counties in Illinois.

District 11. Indiana: $2.28.

All coal-producing counties in Indiana.

District 12. Iowa: $1.40.

All coal-producing counties in Iowa.

District 13. Southeastern: $2.015.

All coal-producing counties in Alabama.

The following counties in Georgia: Dade, Walker.

The following counties in Tennessee: Marion, Grundy, Hamilton, Bledsoe, Sequatchie, White, Van Buren, Warren, McMinn, Rhea.

District 14. Arkansas-Oklahoma: $2.09.

The following counties in Arkansas: All counties in the State.

The following counties in Oklahoma: Haskell, Le Flore, Sequoyah.

District 15. Southwestern: $2.09.

All coal-producing counties in Kansas. All coal-producing counties in Texas. All coal-producing counties in Missouri.

The following counties in Oklahoma: Coal, Craig, Latimer, McIntosh, Muskogee, Okmulgee, Pittsburg, Rogers, Tulsa, Wagoner.

District 16. Northern Colorado: $2.296.

The following counties in Colorado: Adams, Arapahoe, Boulder, Douglas, Elbert, El Paso, Jackson, Jefferson, Larimer, Weld.

District 17. Southern Colorado: $2.296.

The following counties in Colorado: All counties not included in northern Colorado district.

The following counties in New Mexico: All coal-producing counties in the State of New Mexico, except those included in the New Mexico district.

District 18. New Mexico: $2.296.

The following counties in New Mexico: Grant, Lincoln, McKinley, Rio Arriba, Sandoval, San Juan, San Miguel, Santa Fe, Socorro.

The following counties in Arizona: Pinal, Navajo, Graham, Apache, Coconino.

All coal-producing counties in California.

District 19. Wyoming: $2.32.

All coal-producing counties in Wyoming.

The following counties in Idaho: Fremont, Jefferson, Madison, Teton, Bonneville, Bingham, Bannock, Power, Caribou, Oneida, Franklin, Bear Lake.

District 20. Utah: $2.32.

All coal-producing counties in Utah.

District 21. North Dakota-South Dakota: $2.236.

All coal-producing counties in North Dakota. All coal-producing counties in South Dakota.

District 22. Montana: $2.346.

All coal-producing counties in Montana.

[3] There are a few instances where doubt exists as to whether a particular mine is located in one or the other of two adjoining districts. Careful consideration has been given to this problem, however, and in no instance could the location of such mines in one district or the other affect the conclusion that in all producing districts except district 12 a majority of both tonnage and employment was accounted for by the mines paying minimum rates at least equal to those called for in the UMWA agreements. This conclusion is not affected even if all mines operating under the union agreement in 1953 which are shown by the record to have been out of operation at the time of the hearing, or though operating, were no longer signatories to the union agreement, are excluded in arriving at union totals.

[4] With respect to the necessity for using 1953 production data, the Virginia Operators have requested that I take official notice of the 1954 report of the Virginia State Department of Labor and Industry. It is asserted that this demonstrates the availability of more current data with respect to this State. The report, however, does not contain data as to tonnage and employment of individual mines for the year 1954, nor is it possible to determine from the report the proportion of the State's total tonnage coming from districts 7 and 8.

The Virginia operators have asserted that as a result of decreased production in union mines in 1954, the union minimum no longer prevails in their area. The record shows, however, that even if the total estimated decrease in production and employment in districts 7 and 8, which include the Virginia fields, were attributed to union mines, the union minimum would still prevail in each district. This is also true for districts 1 and 2 concerning which the same assertion was made by the Pennsylvania Open Pit Mining Association.

[5] In exception No. 17, the Virginia Operators object to the statement that the growth of small truck mines in Virginia was reported to be a recent development in response to the difficulties encountered by the unionized section of the industry in meeting the competition of fuels such as gas and oil.

I have received this statement and the testimony presented by the Virginia Operators. Although I find the statement to be proper in the light of all the testimony of the various witnesses presented by the Virginia Operators, the first footnote reference (footnote No. 27 in the proposal) should have read "T. 702–6" rather than "T. 702–4."

District 23. Washington: $2.235.

All coal-producing counties in Washington.
All coal-producing counties in Oregon.

(c) *Tonnage workers.* In the case of employees compensated in whole or in part under a piece rate system, the minimum wage obligations under the Walsh-Healey Public Contracts Act will be fulfilled if a majority of the incentive workers engaged in work for the Government in a contracting establishment receive the applicable prevailing minimum hourly rate as set forth in paragraph (b) of this section during the period of time in which they perform such work, and if the average hourly earnings of the group of incentive workers engaged in work for the Government exceed this minimum during this period. Notwithstanding a mine's failure to meet the foregoing requirement during the particular period in which Government contract work is performed, it will nevertheless be regarded as in compliance with the minimum wage provisions of the act if it can demonstrate that a majority of its incentive workers have or would have earned at least the minimum wage and that the average hourly earnings of such workers as a group have or would have exceeded that minimum under normal mining conditions under the compensation arrangements prevailing during the period in which the mine was producing for the Government.

(d) *Auxiliary workers.* The term "auxiliary workers" as applied to employees in the Bituminous Coal Industry shall include employees who are employed in the following occupations or combinations of occupations:

Engineering:
1. Rodman.
2. Chainman.
3. Assistant transitman.
4. Transitman or transit worker.
5. Corpsman.
6. Surveyor.
7. Junior draftsman.
8. Draftsman.
9. Engineer, mining and civil.
10. Surveyor helper.

Laboratory:
1. Laboratory assistant.
2. Laboratory technician.
3. Sampler.
4. Chemist helper or assistant chemist.
5. Chemist.
6. Laboratory sample grinder.

Shipping:
1. Billing clerk.
2. Shipping clerk.
3. Shipper.
4. Weighmaster or retail weighmaster.
5. Weighman, scaleman, or weighboss.
6. Mine clerk.
7. Payroll clerk.

Supply:
1. Supply clerk, warehouse clerk, or store clerk.
2. Supplyman, warehouseman, storeman, or storekeeper.
3. Supply purchasing agent.

Other:
1. Prospecting driller and assistant driller.
2. Other prospecting crew members.
3. Coal inspector.
4. Coal preparation technician.
5. Dispatcher.
6. Electrician or electrical engineer.
7. Shift maintenance foreman.
8. Machinist foreman.
9. Lampman.
10. Utility truck driver.
11. Machinist.
12. Timekeeper and assistant timekeeper.
13. Powerhouse, sub-station, and pump attendant.
14. Hoisting engineer.

(e) *Subminimum wages authorized.* (1) Handicapped workers may be employed at wages below the applicable minimum wages specified herein upon the same terms and conditions as are prescribed for the employment of handicapped workers by the Regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524 and 525 of this title), under section 14 of the Fair Labor Standards Act, as amended.

(2) The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(f) *Effect on other obligations.* Nothing in this section shall affect any obligation for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(g) *Effective date.* This section shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after November 25, 1955.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38)

Signed at Washington, D. C., this 21st day of October 1955.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 55-8648; Filed, Oct. 25, 1955; 8:51 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11019; FCC 55-1040]

[Rules Amdts. 7-4 and 8-3]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

SPECIFIC AVAILABILITY DATE FOR CERTAIN FREQUENCIES

In the matter of amendment of Parts 7 and 8 of the Commission's rules proposing specific availability date for frequencies in the band 2000–2850 kc.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of October 1955;

The Commission having under consideration the above-captioned matter:

It appearing that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, Notice of Proposed Rule Making in this matter, which made provision for submission of written comments by interested parties, was duly published in the FEDERAL REGISTER on May 12, 1954 (19 F. R. 2738) and that the period for filing of comments has now expired; and

It further appearing that the subject rule making proposed to make the frequencies 2482 kc (coast), 2382 kc (ship) available at New York, New York, temporarily on a "day only" basis, and on condition that harmful interference would not be caused to the police radio service by use of 2482 kc; and

It further appearing that the New York Telephone Company submitted comments stating that the police in Nassau County, which adjoins New York City on the east, were using the frequency 2490 kc; that boats in the vicinity of Nassau County and police cars within the County would experience serious interference if 2482 kc and 2490 kc were both operated for coverage of virtually the same area; and that finalization of the Commission's proposal should, therefore, be held in abeyance; and

It further appearing that with respect to both 2482 kc (coast) and 2382 kc (ship) it is now feasible to make the frequencies available for assignment on a full time basis rather than "day only" as proposed, inasmuch as police operations at various locations on the co-channels and channels adjacent to these frequencies either do not conflict or the conflict has been satisfactorily resolved, including the conflict with the police operations at Nassau County, New York; and

It further appearing that in view of the fact that it is not expected that marine use of the frequency 2482 kc will cause interference to police operations, the proposed condition that no interference shall be caused to the Police Radio Service by use of 2482 kc is not necessary; and

It further appearing that a remaining operation on 2384 kc which conflicts with the activation of the frequency 2382 kc in the maritime mobile service will be removed by January 1, 1956, and, therefore, the effective date of this action should be January 1, 1956; and

It further appearing that the public interest, convenience and necessary will be served by the amendments herein ordered, the authority for which is contained in sections 4 (i), 303 (f) and (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective January 1, 1956, Parts 7 and 8 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: October 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 7 is amended as follows:

1. Section 7.306 (b) is amended by changing the New York, New York, portion of the table of frequencies to read:

New York, N. Y.	2522	None	2126	None.
	2590	None	2198	None.
	2482	Available on condition that harmful interference is not caused to the service of any coast station located in the vicinity of New Orleans, La., to which this carrier frequency is assigned for transmission.	2382	Available on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.
	2558	None	2166	None.
	4406.9	None	4087.7	None.
	4434.5	Available for use annually during period Dec. 15 to March 15.	4129.1	Available for use annually during period Dec. 15 to March 15.
	4752.5	None	4101.5	None.

B. Part 8 is amended as follows:

1. Section 8.354 (a) (1) is amended by changing the New York, New York, portion of the table of frequencies to read:

New York, N. Y.	2126	None	2522	None.
	2198	None	2590	None.
	2382	Available on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.	2482	Available on condition that harmful interference is not caused to the service of any coast station located in the vicinity of New Orleans, La., to which this carrier frequency is assigned for transmission.
	2166	None	2558	None.
	4087.7	None	4406.9	None.
	4129.1	Available for use annually during period Dec. 15 to March 15.	4434.5	Available for use annually during period Dec. 15 to March 15.
	4101.5	None	4752.5	None.

[Docket No. 11406; FCC 55-1041]

[Rules Amdt. 8-4]

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

SUPPLEMENTAL ELIGIBILITY REQUIREMENTS

In the matter of petition of the Lake Carriers' Association for Repeal of § 8.301 (b) of the Commission's rules.

1. The above-captioned petition was made the subject of proposed rule making proceedings by a notice dated June 8, 1955. Comments in support of the petition were received from three parties. There were no comments in opposition.

2. Section 8.301 (b), which the petition requests to be repealed, prohibits the assignment of certain business and operational frequencies in the band 152–162 Mc to applicants who are not themselves engaged in the operation of the vessel upon which the ship station would be located. The petition of the Lake Carriers' Association requested repeal of the rule because experience with it showed that the effect of the rule has been to discourage the use of the business and operational frequency 156.5 Mc. According to the petition, this result occurred because usually "the licenses for all other channels * * * are held by communication companies serving the Great Lakes" and the prohibition of § 8.301 (b) necessitated a "complicated and cumbersome dual licensing procedure" in order to obtain an authorization for use of the frequency 156.5 Mc.

3. The Central Committee on Radio Facilities of the American Petroleum Institute "agree(d) that it does appear to be a cumbersome proceeding to require two separate licensees and two separate licenses for a ship VHF set to be used on the eighth channel (156.5 Mc) which is the subject matter of the petition. Accordingly, the Committee feels that petitioner's position in this proceeding has merit".

4. The American Telephone & Telegraph Company stated that it normally supplies multi-channel equipment for installation on board vessels of its customers and that such equipment can economically and efficiently be used to provide business and operational channels as well as public communication service. It alleged that "where such equipment is provided, the rule has imposed upon operators of commercial transport vessels the burden of making application for, and holding a separate license for, the business and operational frequencies and has introduced confusion in the operation of such equipment by requiring two call signs to be associated with a single transmitter". It further states that its experience in the seaboard areas, as well as on the Great Lakes, indicates that the rule in question "has discouraged the development and use of business and operational channels".

5. The Lorain County Radio Corporation stated that it has, for many years, secured and held licenses for ship stations on board vessels navigating on the Great Lakes; that Lorain has thereby furnished to ship operators "the know-how which it has gained from wide experience in handling applications for licenses and compiling reports for the Commission"; that ship operators "recognized that it is uneconomical and perhaps unsound for each of them to maintain a technical staff competent to perform all necessary functions in connection with such radiotelephone equipment, [and] have for many years taken advantage of the service offered by Lorain and by certain other qualified radio companies on the Lakes in connection with licensing of all of the frequencies used by their ship stations"; that while Lorain installs eight channel VHF equipments, "virtually none of the operators ordering such sets have had the necessary equipment installed to operate on [the business and operational frequency 156.5 Mc] since they had not secured individual licenses authorizing use by them of said frequency * * * that the principal deterrent to the securing of such licenses is the additional and unfamiliar filing and administrative complications involved".

6. It is not clear from any of the comments filed nor from the petition of the Lake Carriers' Association why a so-called "dual licensing procedure" is made necessary by the provisions of § 8.301 (b) of the Commission's rules. The vessel owner may, if he chooses, become the sole licensee of all radio transmitting equipment aboard his vessel. It is not clear why all the services rendered by third persons to ship owners in connection with applications, licensing, servicing, etc., cannot continue to be provided under an arrangement whereby the ship owner instead of the third person is the licensee. On the other hand, regardless of the validity of the reason therefor, one year's experience with the rule has shown, according to the comments received, that the effect of the rule has been to deter the use of the involved frequencies in both the Great Lakes and the seaboard areas.

7. Because of the extremely congested situation which exists in the lower frequencies, the Commission has consistently sought to encourage the use of very high frequencies in the maritime radio service to a maximum extent. These frequencies are in heavy demand. Failure of the maritime mobile service to utilize fully the frequencies allocated to it can lead ultimately only to a re-examination of their allocation. On the other hand, as stated in the Commission's Report and Order in Docket No. 10914, which adopted § 8.301 (b), such a re-examination could be brought about if the frequencies were not utilized in accordance with the purpose for which they were allocated.

8. Under the circumstances, a difficult choice is presented as to action on the instant petition. It has been decided, however, to grant the petition on the basis that ship owners and operators and third person licensees, being fully aware of the difficulties pointed out above, will be alert to the necessity of precluding any tendency toward use of the frequencies in a manner which would impair the basis of their allocation.

9. In view of the foregoing, it is ordered, pursuant to section 303 (a) (b) (c) and (r), and effective immediately, that § 8.301 is amended by deleting paragraph (b) thereof.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: October 19, 1955.

Released: October 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[7 CFR Part 911]

[Docket No. AO-262]

HANDLING OF MILK IN TEXAS PANHANDLE MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of milk in the Texas Panhandle marketing area which was issued October 4, 1955 (20 F. R. 7492), is hereby extended until November 4, 1955.

Dated: October 21, 1955.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 55-8658; Filed, Oct. 25, 1955; 8:53 a. m.]

[7 CFR Ch. IX]

HANDLING OF MILK IN NEW YORK, NEW JERSEY AREA

DETERMINATION RELATIVE TO AREA OF REGULATION AND NOTICE OF THIRD PUBLIC MEETING

Determination. After consideration of pertinent information, including all data, views and arguments presented at the public meetings held at Trenton, New Jersey, during the period July 18-22, 1955, and at Newark, New Jersey, during the period October 4-7, 1955, pursuant to notices thereof issued on June 15, 1955 (20 F. R. 4307), and September 6, 1955 (20 F. R. 6609), respectively, it is hereby determined that the territory, outside the marketing area presently regulated under Order No. 27, to be included in any notice or notices of hearing which may be issued relating to proposals currently under consideration for new or revised Federal or joint Federal-State regulation of the handling of milk in the New York-New Jersey area should be that territory within the boundaries of the New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren; and the New York counties of Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster.

Notice. It was indicated in the notice of September 6, 1955, that after a determination had been made concerning the proposed marketing area, for notice of hearing purposes, a further public meeting would be conducted. Accordingly, and further pursuant to § 900.3 of the rules of practice and procedure governing procedure to formulate marketing agreements and orders (7 CFR Part 900), notice is hereby given of a third public meeting to be held at the Douglas Hotel in Newark, New Jersey, beginning at 10:00 a. m., e. s. t., November 14, 1955, at which data, views or arguments may be presented concerning, and limited to, the question of whether, for the purpose of any notice or notices of hearing which may be issued relative to proposed new or revised Federal or joint Federal-State regulation of the handling of milk in the New York-New Jersey area, the handling of milk in the territory within the boundaries of the New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren; and the New York counties of Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster should be regulated separately by means of one or more new marketing orders, or in combination with the marketing area presently regulated under Order No. 27, or both.

As in the case of the two meetings already held (at Trenton, July 18-22 and at Newark, October 4-7), the data, views and arguments presented at this third meeting shall be by means of statements presented orally, not under oath. The record of this meeting and the record of the two preceding meetings shall be considered as being cumulative. Otherwise, no part of the record of any prior proceeding shall be incorporated by reference into the record of this meeting. Cross-examination, as such, shall not be permitted, but in the discretion of the presiding officer clarifying questions may be asked. Statistical tables, maps, charts, or other written exhibits shall be supplied in quadruplicate by the person offering the exhibit.

Issued at Washington, D. C., this 21st day of October 1955.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

Federal Maritime Board and Maritime Administration

[46 CFR Ch. II]

[Docket No. S-59]

AMERICAN PRESIDENT LINES, LTD.

NOTICE OF PROPOSED RULE MAKING

By petition, dated June 17, 1955, American President Lines, Ltd., sought a declaratory order that section 605 (a) of the Merchant Marine Act, 1936, as amended, makes unnecessary written permission under section 805 (a) of said act for its vessels in subsidized service to carry passengers and cargoes between California and Hawaii.

The Federal Maritime Board and the Maritime Administrator have authorized a proceeding broader in scope than the question raised by the aforementioned petition.

Notice is hereby given that pursuant to section 4 of the Administrative Procedure Act (60 Stat. 237), the Federal Maritime Board and the Maritime Administrator have instituted a rule-making proceeding to determine whether written permission is required under section 805 (a) of the Merchant Marine Act, 1936, as amended, for the activities and relationships described therein related to voyages described in section 605 (a) of said act, as follows:

• • • a round-the-world voyage or a round voyage from the west coast of the United States to a European port or ports or a round voyage from the Atlantic coast to the Orient which includes intercoastal ports of the United States or a voyage in foreign trade on which the vessel may stop at an island possession or island territory of the United States • • •.

Interested persons may file with the Secretary of the Federal Maritime Board and the Maritime Administration, General Accounting Office Building, Washington 25, D. C., on or before November 15, 1955, such written data, views, and arguments as they deem relevant to the issue stated above and shall accompany such written material with a statement showing the interest of the party.

By order of the Federal Maritime Board/Maritime Administrator.

Dated: October 21, 1955.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 201]

GENERAL REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority contained in sections 4 and 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35-45), notice is hereby given that I propose to amend Part 201 of the General Regulations (41 CFR Part 201) by the revocation of § 201.101 (b) (2) and by the amendment of § 201.603 to include a new paragraph to read as follows:

(f) Contracts with a person who regularly buys and sells coal on his own account in lots of not less than a cargo or railroad carload, or with a person who is authorized by one or more persons engaged in mining coal to negotiate and conclude contracts for the furnishing thereof in such lots, are exempt from the requirement of section 1 (a) of the act that such person represent that he is a manufacturer or a regular dealer in coal; *Provided, however,* That all of the following terms and conditions are met:

(1) That such person will notify the person engaged in mining the coal that the purchaser thereof is the United States and that provisions of the Public Contracts Act are applicable; and

(2) That such person, irrespective of any liability that may exist on the part of the mines, shall be liable for the observance of all of the stipulations provided for in section 1 of the act except subsection (a) thereof; and

(3) That such person notify the contracting agency that he will accept the contract upon the terms and conditions set forth above.

Interested persons may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, submit in writing to the Office of the Administrator, Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D. C., their views, arguments or data relative to the proposed amendment.

Signed at Washington, D. C., this 21st day of October 1955.

JAMES P. MITCHELL,
Secretary of Labor.

Wage and Hour Division

[29 CFR Part 779]

RETAIL OR SERVICE ESTABLISHMENT AND RELATED EXEMPTIONS

APPLICATION OF CERTAIN EXEMPTIONS TO ICE MANUFACTURERS AND ICE DEALERS

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), notice is hereby given that the Administrator of the Wage and Hour Division of the United States Department of Labor, proposes to amend Interpretative Bulletin, Part 779 (29 CFR Part 779) by the addition of § 779.32 to read as follows:

§ 779.32 *Application of the 13 (a) (2) and 13 (a) (4) exemptions to ice manufacturers and ice dealers.* (a) It is the purpose of this section to show generally how the principles governing the application of the 13 (a) (2) and 13 (a) (4) exemptions apply to establishments engaged in selling ice, including those establishments which make the ice they sell.

(b) In applying the tests of the 13 (a) (2) exemption, all sales of ice will be regarded as retail except:

(1) Sales for resale.

(2) Sales of ice for icing railroad cars and for icing cargo trucks. However, sales of ice for the re-icing of cargo trucks are recognized as retail if such sales do not fall into the nonretail categories described in subparagraphs (4) or (5) of this paragraph.

(3) Sales of ice in railroad car lots.

(4) Sales of ice of a ton or more.

(5) Sales of ice at a price comparable to that charged by the establishment to dealers or, if no sales are made to dealers by the establishment, at a price comparable to or lower than the prevailing price to dealers in the area.

(c) If 50 percent or more of the establishment's annual dollar volume of sales of goods or services is made within the state in which the establishment is located and if 75 percent or more of the annual dollar volume of sales of the establishment consists of sales which are not for resale and are recognized as retail, the exemption under section 13 (a) (2) will apply to all employees employed by the establishment except those employees who are engaged in the making or processing of ice or other goods. In order for employees engaged in making or processing of ice to be exempt, the establishment must meet all of the following tests of the exemption under section 13 (a) (4):

(1) The establishment must qualify as an exempt retail establishment under section 13 (a) (2), as explained above.

(2) More than 85 percent of the establishment's annual dollar volume of sales of the ice which it makes or processes must be made within the state in which the establishment is located.

(3) The ice which the establishment makes or processes must be made or processed at the establishment which sells it.

(4) The establishment must be recognized as a retail establishment in the particular industry.

(d) With respect to the application of the requirement in paragraph (c) (4) of this section, the legislative history indicates that ice plants are among the establishments which may qualify as retail establishments under the 13 (a) (4) exemption. It appears that all ice plants are manufacturing establishments of the same general type, permitting no separate classifications with respect to recognition as retail establishments. Any ice plant which meets the tests of section 13 (a) (2) will, therefore, be considered to be recognized as a retail establishment in the industry under this requirement.

(e) There are some ice plants which meet the 13 (a) (2) exemption tests, but do not qualify under section 13 (a) (4) because they are unable to meet the tests listed in paragraph (c) (2) or (3) of this section. In such establishments, there may be some employees whose duties relate to both the sales portion of the business and the making or processing of ice. These employees will not qualify for exemption. However, in such establishments, there may be some employees who work primarily for the sales portion of the business and also perform incidental clerical, custodial, or messenger service for the manufacturing operation. For example, office workers may keep records of both the manufacturing activities and of the retail sales department, maintenance workers may clean up in both parts of the establishment, and messengers may perform services for both activities. If these employees spend relatively little time in the work related to the ice manufacturing portion of the business, they will not, as an enforcement policy, be regarded as engaged in the making or processing of ice. Such an auxiliary employee will thus be exempt under section 13 (a) (2) in any workweek in which an insubstantial amount of his time (20 percent or less) is allocable to the clerical, messenger, or custodial work of the ice manufacturing operations.

Prior to the final adoption of the proposed amendment set forth above, consideration will be given to any views, arguments or data pertaining thereto which are submitted in writing to the Administrator, Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 21st day of October 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 11522; FCC 55-1051]

HEARING MANUAL FOR COMPARATIVE BROADCAST PROCEEDINGS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 1, §§ 1.840 and 1.871 of the Commission's rules and regulations to incorporate by reference a hearing manual for comparative broadcast proceedings.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission is proposing to amend §§ 1.840 and 1.871 of its rules and regulations, as set forth below, to incorporate by reference into the rules the Hearing Manual for Comparative Broadcast Proceedings.[1] The manual is designed to promote uniformity in matters concerning the introduction and use of evidence in comparative broadcast proceedings.

3. The Commission is desirous of receiving comments both with respect to the provisions of the proposed manual and the question of whether the manual should be incorporated by reference into the Commission's rules or merely issued to serve as a guide to Hearing Examiners, Commission attorneys and members of the Bar.

4. Authority for the proposed amendments to the rules is contained in sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended.

5. Any interested party may file with the Commission on or before November 21, 1955, a written statement or brief setting forth his comments. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments that are submitted before taking action in this matter.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: October 19, 1955.

Released: October 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

It is proposed to amend §§ 1.840 and 1.871 of the Commission's rules to read as follows:

§ 1.840 *Applicability.* (a) Sections 1.843, 1.851 and 1.858 shall apply only to (1) cases which have been designated for hearing on or after December 11, 1946; (2) cases which were designated for hearing prior to December 11, 1946, and which after the record was closed were designated for further hearing on and after December 11, 1946, before a Commissioner or a Hearing Examiner appointed pursuant to the Administrative Procedure Act; and (3) cases designated for a hearing prior to December 11, 1946, if consolidated with a case designated for hearing on or after said date.

(b) All comparative hearings in broadcast matters in which the first prehearing conference pursuant to § 1.841 is held on or after _____, shall be governed by the provision of the Commission's Hearing Manual for Comparative Broadcast Proceedings, adopted on ____ copies of which may be obtained from the Commission's Office of Reports and Information.

§ 1.871 *Rules of evidence.* (a) Except as otherwise provided in this part, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern formal hearings. Such rules may be relaxed if the ends of justice will be better served by so doing.

(b) All comparative hearings in broadcast matters in which the first prehearing conference pursuant to § 1.841 is held on or after _____, shall be governed by the provisions of the Commission's Hearing Manual for Comparative Broadcast Proceedings, adopted on _____ copies of which may be obtained from the Commission's Office of Reports and Information.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 182]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I COMMON AND CONTRACT CARRIERS OF PROPERTY

NOTICE OF PROPOSED RULE MAKING

OCTOBER 11, 1955.

Having under consideration the matter of accounting regulations prescribed for motor carriers, the Commission has approved modifications of the Uniform System of Accounts for Class I Common and Contract Motor Carriers of Property, issue of 1952, which (1), will restrict charges to account 4645, Employees' Welfare Expenses, to payments and expenses under arrangements which were originated by carrier managements and voluntarily installed; and (2), will insert new and additional primary expense accounts to include contributions to health and welfare plans covering equipment maintenance employees, transportation employees, terminal employees, traffic employees, insurance and safety department employees, and general office employees, respectively, when the contributions are made under contract arrangements with labor organizations.

Any interested person may on or before November 30, 1955, file with the Commission's Secretary written views or arguments to be considered in this connection. After consideration of representations so received, and giving effect to any changes necessary because of them, an order will be entered making the above modifications effective January 1, 1956.

[SEAL] HAROLD D. McCOY,
Secretary.

CIVIL SERVICE COMMISSION

CERTAIN VETERINARIAN POSITIONS THROUGHOUT THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS, AND IN FOREIGN COUNTRIES

NOTICE OF INCREASE IN MINIMUM RATES OF PAY

Under the provisions of section 803 of the Classification Act of 1949, as amended (68 Stat. 1106; 5 U. S. C. 1133), pursuant to 5 CFR 25.103, 25.105, the Commission has increased the minimum rate of pay for all professional veterinarian positions at grade GS-7 in the entire Veterinary Science Group, GS-700-0. The new rate has been set at the sixth step of the grade ($5,200). This increase will be effective on the first day of the first pay period which begins after October 22, 1955, and applies to these positions throughout the continental United States, its territories and possessions, and in foreign countries.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

NOTICE OF AGREEMENTS FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to § 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 7707-4 between Isthmian Steamship Company and Matson Navigation Company, modifies their approved joint cargo service and pooling agreement (No. 7707) covering the trade between the Hawaiian Islands and U. S. Atlantic and Gulf ports, to extend the time on or before which each final annual pool settlement will be effected.

(2) Agreement No. 8051, between Hanseatische Reederei Emil Offen & Co., a German company, and Vaasan Laiva Cy, a Finnish company, covers a sailing arrangement in the trade from North Continental Pacific Coast ports to Europe.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: October 21, 1955.

By order of the Federal Maritime Board.

IDAHO

PARTIALLY REVOKING DEPARTMENTAL ORDER OF JUNE 18, 1908, WHICH WITHDREW LAND FOR USE OF FOREST SERVICE AS GRAYS LAKE ADMINISTRATIVE SITE

OCTOBER 20, 1955.

Upon request of the Department of Agriculture and pursuant to the authority delegated by Departmental Order No. 2583, sec. 2.22 (a) of August 16, 1950, it is ordered as follows:

The order of the First Assistant Secretary of the Interior of June 18, 1908, reserving lands in the Caribou National Forest for use of the Forest Service, Department of Agriculture, as the Grays Lake Administrative Site, is hereby revoked so far as it affects the following-described land:

BOISE MERIDIAN

T. 4 S., R. 43 E.,
Sec. 26, NW¼SW¼.

The area described contains 40 acres.

Subject to any valid existing rights and to the requirements of applicable law, the released lands are hereby opened to such applications, selections, and locations as are permitted on national forest lands, including the filing of applications and offers under the mineral-leasing laws and locations under the mining laws, as follows:

(1) Applications and offers under the mineral-leasing laws may be presented to the Manager, Land Office, Bureau of Land Management, Boise, Idaho, beginning on the date of this order. All such applications filed prior to 10:00 a. m. on November 25, 1955, will be considered as simultaneously filed at that hour. Rights under such applications and offers filed after that hour will be governed by the time of filing.

(2) The lands will be open to mining location under the United States mining laws, beginning at 10:00 a. m. on November 25, 1955.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho. Other inquiries shall be addressed to the Regional Forester, Forest Service Building, Ogden, Utah.

EDWARD WOOZLEY,
Director.

OCTOBER 20, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Subject to any valid existing rights, the provisions of existing withdrawals for power purposes, and to the requirements of applicable law, the released lands are hereby opened to such applications, selections, and locations as are permitted on national forest lands, including the filing of applications and offers under the mineral-leasing laws and locations under the mining laws, as follows:

(1) Applications and offers under the mineral-leasing laws may be presented to the Manager, Land Office, Bureau of Land Management, Sacramento, California, beginning on the date of this order. All such applications filed prior to 10:00 a. m. on November 25, 1955, will be considered as simultaneously filed at that hour. Rights under such applications and offers filed after that hour will be governed by the time of filing.

(2) The lands will be open to mining location under the United States mining laws, beginning at 10:00 a. m. on November 25, 1955.

Inquiries concerning applications and offers under the mineral-leasing laws and locations under the mining laws shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California. Other inquiries shall be addressed to the Regional Forester, 630 Sansome Street, San Francisco, California.

CHIEFS, WESTERN AND EASTERN OFFICES, DIVISION OF DESIGN AND CONSTRUCTION

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN CONTRACTS

OCTOBER 17, 1955.

(a) The Chief, Western Office, Division of Design and Construction, and the Chief, Eastern Office, Division of Design and Construction, are authorized to exercise within the respective areas under their supervision and subject to the provisions of paragraph (b) of this section, the authority delegated to the Director, National Park Service, for the period ending June 30, 1957, by the Acting Secretary of the Interior on September 29, 1955 (20 F. R. 7458), to negotiate, without advertising, under section 302 (c) (4) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., sec. 252 et seq.), contracts for the services of architectural firms in connection with the construction activities of the National Park Service in Yosemite, Grand Canyon, and Grand Teton National Parks, located in California, Arizona, and Wyoming, respectively, and other areas under the administrative jurisdiction of the National Park Service.

(b) The authority granted in paragraph (a) of this section shall be exercised in accordance with the applicable limitations and requirements in the Act, particularly sections 304 and 307, and in accordance with policies, procedures, and contracts prescribed by the General Services Administration.

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

1. A plat of survey of the lands described below will be officially filed in the Bureau of Land Management, United States Department of the Interior, Washington 25, D. C., effective 10:00 a. m. on November 24, 1955:

TALLAHASSEE MERIDIAN, FLORIDA

T. 27 S., R. 37 E.,
Sec. 11, Lots 5, 6, 7, 8, 9;
Sec. 13, Lots 5, 6, 7, 8, 9, 10, 11, 12;
Sec. 14, Lots 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16;
Sec. 23, Lots 1, 2, 3;
Sec. 24, Lots 9, 10, 11, 12, 13, 14;
Sec. 25, Lots 5, 6, 7, 8, 9, 10, 11, 12, 13, 14;
Sec. 36, Lots 5, 6, 7, 8.

The area described aggregates 576.64 acres.

2. The act of August 9, 1955 (69 Stat. 541) directs the Secretary of the Interior to issue patents to the above-described public lands in good faith and in peaceful adverse possession, if they or their predecessors in interest have been issued patents, prior to January 1, 1954, for the upland tracts adjoining such public lands. The law further provides that payment to the United States shall be made for such lands at the same price per acre as that at which the land included in the original patent was purchased, but in no case less than $1.25 per acre. Under the terms of the above act, persons qualified to receive patents for any of the above-described lands must make application therefor within one year from August 9, 1955.

3. Notice is hereby given that the above-described lands are now open to application by the persons described in paragraph 2 above.

(a) All applications must be filed in duplicate with the Bureau of Land Management, Washington 25, D. C.

(b) Every application must be accompanied by a filing fee of $10 which is nonreturnable.

(c) No particular form of application is required but applications must be typewritten or in legible handwriting, must be captioned "Application under the act of August 9, 1955 (69 Stat. 541)," and must contain the following information:

(1) The full name and full post-office address of the applicant.

(2) The legal description and acreage, in accordance with the plat of survey, of the public lands applied for.

(3) The legal description of the lands owned by the applicant adjoining the public lands applied for, together with a certificate from the proper county official or by an abstracter showing that the applicant owns such adjoining lands in fee simple as of the date of application.

(4) A statement setting forth the facts which show that the applicant holds the public lands in good faith and in peaceful adverse possession. This statement must include the period of time the lands have been held adversely and a description of the specific acts constituting the alleged peaceful adverse possession. The facts surrounding any prior interference or attempted interference with the adverse claimant's possession of the lands must also be fully stated.

(5) The names and post-office addresses of any adverse claimants, settlers, or occupants of the public lands applied for.

(6) The names and post-office addresses of at least two disinterested persons having knowledge of the facts relating to the applicant's claim.

4. Applicants will be required to publish once a week for five consecutive weeks in accordance with 43 CFR 106.14, at their expense, in a designated newspaper and in a designated form, a notice allowing all persons claiming the land adversely to file with the Bureau of Land Management, Washington 25, D. C., their objections to issuance of patent under the applications. A protestant must serve on the applicant a copy of the objections and furnish evidence of such service. Applicants must file a statement of the publisher, accompanied by a copy of the notice published, showing that publication had been had for the required time.

5. Persons entitled to a patent must, within 30 days after request therefor, pay the same price per acre as that at which the lands included in the original patent to the adjoining tract was purchased, or $1.25 per acre, whichever is greater.

6. No patents for the above-described lands will be issued prior to August 10, 1956. Any of the above-described lands not sold to persons described in paragraph 2 above shall not become subject to the initiation of any rights or to any disposition under the public land laws until it is so provided by an appropriate order.

7. Inquiries concerning the above-described lands shall be addressed to the Director, Bureau of Land Management, Washington, D. C.

DOUGLAS MCKAY,
Secretary of the Interior.

OCTOBER 19, 1955.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9243 etc.; FCC 55–1030]

HARVEY E. SEIBERT AND CLINTON D. MCKINNON ET AL.

ORDER AMENDING ISSUES

In the matter of Harvey E. Seibert and Clinton D. McKinnon, and The Pacific Telephone & Telegraph Company, Docket No. 9243; applications for construction permits for coastal harbor stations at San Diego, California (File No. 10257–F1–P–C), and at San Pedro, California (File No. 11682–F1–P–C), respectively. The Pacific Telephone & Telegraph Company, Docket No. 11284; application for construction permit to add transmitter to existing station KOU (File No. 13412–F1–P–G) at San Pedro, California. Radiomarine Corporation of America, Docket No. 11285; application for construction permit for new public class II–B coast station at San Diego, California (File No. 17229–F1–P–D).

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of October 1955;

The Commission having under consideration a motion to change issues and a petition to amend application in Docket No. 9243 filed by The Pacific Telephone and Telegraph Company on June 14, 1954; an opposition thereto and a motion to dismiss applications and terminate the proceedings in Docket No. 9243 filed by the Chiefs of the Commission's Common Carrier and Safety and Special Radio Services Bureaus on February 24, 1955; a reply of The Pacific Telephone and Telegraph Company to said opposition and opposition of said company to the motion to dismiss, filed on March 14, 1955; and a motion to enlarge issues in Dockets Nos. 11284 and 11285 filed by the above-mentioned Bureau Chiefs on April 28, 1955;

It appearing that at the request of Harvey E. Seibert and Clinton D. McKinnon their application was dismissed without prejudice on April 29, 1955; and

It further appearing that the sole application now involved in Docket No. 9243 is that of The Pacific Telephone and Telegraph Company which presently requests the assignment of frequencies not available under the Commission's Rules and as to which a pending petition seeks the allowance of an amendment to request frequencies which will become available at a future date to be designated by the Commission; and

It further appearing that under the circumstances above-described no useful purpose would be served either by retaining the present application on file or granting the petition to amend in the respects requested; and

It further appearing that with respect to the above-entitled applications of The Pacific Telephone and Telegraph Company and Radiomarine Corporation of America in Dockets Nos. 11284 and 11285, a question exists as to the extent of the mutual harmful electrical interference which may occur from the proposed use of the frequency 2598 kc by the respective applicants, and that enlargement of the issues therein to inquire into this question would be appropriate;

It is ordered, That the motion to change issues and petition to amend application in Docket No. 9243 filed by The Pacific Telephone and Telegraph Company is denied;

It is further ordered, That the motion to dismiss applications and terminate the proceedings in Docket No. 9243 filed by the Chiefs of the Common Carrier and Safety and Special Radio Services Bureaus is granted; *And it is further ordered*, That the application (File No. 11682–F1–P–C) of The Pacific Telephone and Telegraph Company is dismissed and that the proceedings in Docket No. 9243 are terminated;

It is further ordered, That the motion of the Chiefs of the Common Carrier and Safety and Special Radio Services Bureaus to enlarge issues in Dockets Nos. 11284 and 11285 is granted and that an Issue No. 5 is included in said proceedings, to read as follows:

5. To determine the extent of the mutual harmful electrical interference which may occur from the proposed use of the frequency 2598 kc by Pacific Telephone and Telegraph Company and by Radiomarine Corporation of America in view of the service proposed to be rendered by each.

Released: October 20, 1955.

ALLEGHENY-KISKI BROADCASTING CO. (WKPA)

ORDER SCHEDULING HEARING CONFERENCE

In re application of Allegheny-Kiski Broadcasting Co. (WKPA), New Kensington, Pennsylvania, Docket No. 11300, File No. BP–9546; for construction permit.

The Hearing Examiner having under consideration the above-entitled proceeding and an informal agreement of the parties concerning the scheduling of a hearing conference to consider matters connected with new issues added by the Commission's order of October 12, 1955;

It is ordered, This 18th day of October 1955, that all parties, or their attorneys, are directed to appear for a hearing conference at the Commission's offices in Washington, D. C., at 9:00 a. m., October 26, 1955.

FEDERAL POWER COMMISSION

[Projects Nos. 175 and 1988]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATIONS FOR AMENDMENT OF LICENSES

OCTOBER 20, 1955.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed applications under the Federal Power Act (16 U. S. C. 791a–825r) for amendment of the licenses for water-power Project No. 175, located on the North Fork of Kings River and for water-power Project No. 1988, located on the Kings River, North Fork of Kings River, and Helms Creek in Fresno County, California. Applicant seeks amendment of the license for Project No. 175 to increase the height of the existing Balch Diversion Dam by 44 feet; install two new 67,000-horsepower vertical-shaft, multiple-jet, impulse turbines, instead of the three previously proposed 40,000-horsepower horizontal-shaft, double-overhung units; and install two new 54,000 kva (0.9 PF) generators, instead of the three previously proposed 33,000-kva (0.85 PF) units; raise the spill crest of Balch Afterbay Dam an additional six feet (to Elev. 1704) and omit the bridge over that dam; and to revise and modify miscellaneous project works; and seeks amendment of the license for Project No. 1988 to reduce height of Helms Dam by six feet, and reduce height of Wishon Dam by 10 feet; add four auxiliary concrete gravity dams in four saddles near the right abutment of Wishon Dam; eliminate Wishon penstock, A. E. Wishon Powerhouse, afterbay dam, and the 110-kv transmission line from that plant to applicant's Balch Powerhouse (Project No. 175); install two new 92,000 horsepower vertical-shaft, multiple-jet, impulse turbines at Haas Powerhouse, instead of the three previously pro-

posed horizontal-shaft, double-overhung, impulse, 50,000-horsepower turbines, and install two 75,000 kva (0.9 PF) generators instead of the three previously proposed 40,000 kva (0.85 PF) units; reduce by approximately one-half mile (to 26.5 miles) each of the transmission lines from Haas Powerhouse to Piedra substation; eliminate the approximately one mile long double-circuit transmission line from Kings River Powerhouse to the Haas-Piedra transmission lines; and add two tap lines, each about 200 feet long, from Kings River Powerhouse to applicant's Balch-Sanger transmission line (Project No. 175); add project roads for access to certain of the project works; increase the installed turbine-generator capacity of Kings River Powerhouse from one 54,000-horsepower and 45,000-kva (0.85 PF) unit to one 60,000-horsepower and 49,000-kva (0.9 PF) unit; and to provide for miscellaneous structural revisions in and relocations of project works. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last date upon which protests may be filed is December 1, 1955. The applications are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 83]

MOTOR CARRIER APPLICATIONS

OCTOBER 21, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each

protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of motor carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 263 Sub 79, filed October 10, 1955, GARRETT FREIGHTLINES, INC., 2055 Pole Line Road, P. O. Box 349, Pocatello, Idaho. Applicant's attorney: Maurice H. Greene, P. O. Box 1554, Boise, Idaho. For authority to operate as a *common carrier*, over regular routes, transporting: (1) *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving all intermediate points between Cortez, Colo., and Shiprock, N. Mex., including Shiprock, over U. S. Highway 666, and the off-route points of Towaoc and Mesa Verde National Park, Colo., in connection with carrier's regular route operations between Cortez, Colo., and Gallup, N. Mex. (2) On Sheet No. 2 of Certificate No. MC 263 Sub 66, among other authority, carrier is authorized to serve the off-route point of Mesa Verde National Park, Colo., restricted to truckload lots only. The instant application also seeks to remove the restriction "truckload lots only" insofar as Mesa Verde National Park, Colo., is concerned, under the commodity description *General commodities*, except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment. Applicant is authorized to conduct regular route operations in California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon and Utah, and irregular route operations in California, Idaho, Nevada, Oregon and Washington.

No. MC 730 Sub 53, filed October 11, 1955, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline Street, Oakland, Calif. For authority to operate as a *common carriers*, over a regular route, transporting: *General commodities*, including *articles of unusual value*, but excluding Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction U. S. Highways 30N and 30S, near Granger, Wyo., and junction U. S. Highways 30N and 91 at McCammon, Idaho, over U. S. Highway 30N, serving no intermediate points, as an alternate route for operating convenience only, in connection with carrier's regular route operations between Denver, Colo., and Salt Lake City, Utah, (b) between Salt Lake City, Utah, and Pocatello, Idaho, and (c) between Brigham, Utah, and Downey, Idaho. Applicant is authorized to conduct operations in California, Colorado, Idaho, Illinois, Indiana, Kansas, Missouri, Nevada, Utah, and Wyoming.

NOTE: Applicant states that the use of the proposed route would permit operations through a less populated area thereby decreasing exposure to accidents inherent to more congested areas and, therefore requests appropriate authority to operate over the proposed alternate route to effect operating economies and in the interest of safety to the public.

No. MC 1849 Sub 84, filed October 14, 1955, NORTHERN TRANSPORTATION CO., a corporation, 3201 Ringsby Court, Denver, Colo. For authority to operate as a *common carrier*, transporting: *General commodities*, except wool, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment other than refrigeration, between Los Angeles, Calif., and Reno, Nev., from Los Angeles over U. S. Highway 6 to junction U. S. Highway 395 at or near Bishop, Calif., thence over U. S. Highway 395 to Reno, and return over the same route, serving no intermediate points, as an alternate route, for operating convenience only, in connection with carrier's regular route operations between Los Angeles, Calif., and Silverpeak, Nev., and between Reno, Nev., and Tonopah, Nev. Applicant is authorized to conduct regular route operations in California, Nevada and Utah.

No. MC 2136 Sub 13, filed October 14, 1955, CLEMANS TRUCK LINE, INC., 815 East Pennsylvania Avenue, South Bend, Ind. Applicant's attorney: James L. Beattey, Suite 1021-1029, 130 East Washington Street, Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Class A, B and C explosives*, between Kingsbury Ordnance Plant at or near Kingsbury, Ind., on the one hand, and, on the other, interchange lots located (a) one mile southwest of Rockdale, Ill., (b) one-half mile west of Joliet, Ill. on U. S. Highway 66-A, and (c) at junction U. S. Highways 66 and 66-A approximately 13 miles northeast of Joliet, Ill. Applicant is authorized to conduct operations in Indiana and Michigan.

No. MC 2202 Sub 133, filed October 12, 1955, ROADWAY EXPRESS, INC., 147 Park Street, Akron, Ohio. Applicant's attorney: William O. Turney, 2001 Massachusetts Avenue, N. W., Washington 6, D. C. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A, B and C explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Plant of the United States Gypsum Company near Shoals, Marion County, Ind., as an off-route point in connection with carrier's regular route operations between St. Louis, Mo., and Cincinnati, Ohio, over U. S. Highway 50. Applicant is authorized to conduct regular route operations in Alabama, Delaware, Georgia, Illinois, Indiana, Kansas, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 2304 Sub 21, filed October 17, 1955, THE KAPLAN TRUCKING COMPANY, 1607 Woodland Ave., Cleveland, Ohio. Applicant's attorney: George, Greek, King and McMahon, 44 E. Broad St., Columbus, Ohio. For authority to operate as a *common carrier*, over irregular routes, transporting: *Iron and steel, iron and steel products*, and *pallets and empty containers* used in the transportation of iron and steel and iron and steel products, between points in Ohio, Pennsylvania, New York, and West Virginia on the one hand, and on the other, points in Monmouth, Morris, Essex, Passaic, Union, Somerset, Middlesex, Hudson, and Bergen Counties, N. J., without joinder at New York City or the New York Commercial Zone. Applicant is authorized to conduct irregular route operations in Ohio, Pennsylvania, New York, West Virginia, Kentucky, Indiana, and Michigan.

No. MC 3252 Sub 12, filed September 19, 1955, PAUL E. MERRILL, doing business as MERRILL TRANSPORT CO., 1037 Forest Ave., Portland, Maine. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, (1) from East Boston, East Braintree, Braintree, Weymouth, Revere, Everett, Chelsea, Quincy, and Boston, Mass., and East Providence, Providence, and Pawtucket, R. I., to points in Maine except those within an area bounded on the west by the New Hampshire-Maine State line, on the north by U. S. Highway 2, on the east by U. S. Highway 1 to the Atlantic Ocean, and on the south by the Atlantic Ocean, including points on the indicated portions of the highways specified, but excepting transportation from Boston, Mass. and Beverly, Mass. to Lubec, Maine; (2) from Newington, N. H. and Portsmouth, N. H. to points in Maine north of a line beginning at the Maine-New Hampshire State line and extending along U. S. Highway 202 to Alfred, Maine, thence along Maine Highway 111 to Biddeford, Maine, and thence along Maine Highway 208 to Biddeford Pool, Maine, including points on the indicated portions of the highways specified. Applicant is authorized to conduct operations in

Maine, New Hampshire, Massachusetts, and Rhode Island.

No. MC 8681 Sub 36, filed October 11, 1955, WESTERN AUTO TRANSPORTS, INC., 430 South Navajo Street, Denver, Colo. Applicant's attorneys: Stockton, Linville and Lewis, The 1650 Grant Street Building, Denver 3, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Cable reel carriers*, in initial movements, by the truckaway method, (2) *cable reel carriers*, in secondary movements, by the truckaway method, and (3) *damaged shipments of cable reel carriers*, between Denver, Colo., and all points in the United States, including the District of Columbia.

No. MC 8681 Sub 37, filed October 11, 1955, WESTERN AUTO TRANSPORTS, INC., 430 South Navajo Street, Denver, Colo. Applicant's attorneys: Stockton, Linville and Lewis, The 1650 Grant Street Building, Denver 3, Colo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Utility rental trailers*, (designed to be towed by passenger automobiles, excluding house trailers), in secondary movements, by the truckaway method, and *damaged shipments of utility rental trailers*, between all points in the United States, including the District of Columbia.

No. MC 25643 Sub 38, filed October 10, 1955, EVERTS' COMMERCIAL TRANSPORT, INC., 815 Garfield St., Eugene, Oreg. Applicant's attorney: Earle V. White, 1401 Northwest 19th Ave., Portland 9, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Formaldehyde*, in bulk, in tank vehicles, from Springfield, Oreg., to points in Solano, Naps, San Mateo, Santa Clara, Yolo, and Monterey Counties, Calif. Applicant is authorized to conduct operations in Oregon, Washington, and California.

No. MC 25643 Sub 39, filed October 10, 1955, EVERTS' COMMERCIAL TRANSPORT, INC., 815 Garfield St., Eugene, Oreg. Applicant's attorney: Earle V. White, 1401 Northwest 19th Ave., Portland 9, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Formaldehyde*, in bulk, in tank vehicles, from Springfield, Oreg., to points in Canyon and Ada Counties, Idaho, and Yakima and Grant Counties, Wash. Applicant is authorized to conduct operations in Oregon, Washington and California.

No. MC 30042 Sub 14, filed October 17, 1955, JOHN W. PRESLEY, doing business as SECURITY TRUCKING CO., 1211 N. Peoria Street, Tulsa, Okla. Applicant's attorney: George L. Ruddle, 1518 Hunt Building, Tulsa, Okla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products; and *machinery, equipment, materials*, and *supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof except in connection with main or trunk pipelines, between points in Oklahoma, on the one hand, and, on the other, ports of entry on the International Boundary Line between the United States and Canada in Montana and North Dakota, between Sweetgrass, Mont., and Pembina, N. Dak. Applicant is authorized to conduct operations in Arkansas, Oklahoma, Louisiana, Montana, New Mexico, North Dakota, South Dakota, and Texas.

No. MC 30092 Sub 6, filed October 10, 1955, HERRETT TRUCKING COMPANY INC., P. O. Box 118, Sunnyside, Wash. Applicant's attorney: George H. Hart, Central Bldg., Seattle 4, Wash. For authority to operate as a *common carrier*, over irregular routes, transporting: *Feed, flour* and *grain milling products*, between Ports of Entry on the Washington-British Columbia International Boundary line and points in Washington, Oregon, Idaho and California. No. MC 52460 Sub 33, filed October 7, 1955, HUGH BREEDING, INC., 1420 West 35th St., P. O. Box 9515, Tulsa, Okla. Applicant's attorney: James W. Wrape, Sterick Building, Memphis 3, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Amarillo, Tex., and points within 10 miles thereof, to Altus, Enid, Muskogee, Tulsa and Oklahoma City, Okla., and Fort Smith, Ark., and points within 10 miles of each of these destinations. Applicant is authorized to conduct operations in Arkansas, Kansas, Missouri, Oklahoma, and Texas.

No. MC 60012 Sub 35, filed October 17, 1955, RIO GRANDE MOTOR WAY, INC., 775 Wazee Street, P. O. Box 1469, Denver, Colo. For authority to operate as a *common carrier*, over a regular route, transporting: (1) *Ore* and *ore concentrates*, in bulk, in special equipment, from Pandora, Colo., to Montrose, Colo., from Pandora over Colorado Highway 108 to junction Colorado Highways 108 and 145, thence over Colorado Highway 145 to Placerville, thence over Colorado Highway 62 to junction Colorado Highway 62 and U. S. Highway 550 at or near Ridgway, Colo., thence over U. S. Highway 550 to Montrose; and (2) *coal*, in bulk, on return movements, over the above described regular route, serving no intermediate points. Applicant is authorized to conduct operations in Colorado.

No. MC 62942 Sub 3, filed October 18, 1955, SOUTHERN TRANSFER & STORAGE CO., INC., 2161–87 Fifth Ave., South, St. Petersburg, Fla. Applicant's attorney: Leo P. Kitchen, Professional Bldg., Jacksonville 2, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Baby furniture (new)*, uncrated, crated, in boxes or cartons, or otherwise, between points in Florida, on the one hand, and, on the other, points in Georgia, South Carolina, North Carolina, Virginia, Maryland, Pennsylvania, New Jersey, New York, Connecticut, Delaware, Rhode Island, Massachusetts, West Virginia, Ohio, Indiana, Illinois, Missouri, Tennessee, Kentucky, Arkansas, Alabama, Mississippi, Louisiana, Texas, Michigan, Wisconsin, Maine, Oklahoma, Nebraska, Iowa, New Hampshire, Kansas, Vermont, Florida, and the District of Columbia.

No. MC 66125 Sub 1, filed October 12, 1955, HUDSON DELIVERY CO., INC., 25 West 18th Street, Bayonne, N. J. Applicant's attorney: Herman B. J. Weckstein, 1060 Broad Street, Newark 2, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Garments*, and *materials and supplies* used in the manufacture of garments, between New York, N. Y., on the one hand, and, on the other, points in Bergen and Passaic Counties, N. J. Carrier is authorized to conduct operations in New Jersey and New York.

No. MC 67646 Sub 41, filed September 19, 1955, HALL'S MOTOR TRANSIT COMPANY, Fourth St. and Shikellimy Ave., Sunbury, Pa. Applicant's attorney: Leonard R. Apfelbaum, Bittner Bldg., Sunbury, Pa. For authority to operate as a *common carrier*, over regular and irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Cameron, Clinton, Clearfield, and Centre Counties, Pa., on the one hand, and, on the other, points on the carrier's routes as authorized in Certificates Nos. 67646 Subs 2, 27, 28, 30, 33, 34, 39 and 40, in the States of Pennsylvania, New York, New Jersey, and Ohio.

No. MC 71460 Sub 2, filed October 12, 1955, SOUTHERN FORWARDING CO., a Corporation, 728 Alston Avenue, Memphis, Tenn. Applicant's attorney: Charles H. Hudson, Jr., 407 Broadway National Bank Bldg., Nashville, Tenn. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Bowling Green, Ky., and Atwood, Tenn., from Bowling Green over U. S. Highway 68 to Russellville, Ky., thence over U. S. Highway 79 to Atwood, Tenn., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's regular route operations between Louisville, Ky., and Memphis, Tenn. Applicant is authorized to conduct operations in Kentucky and Tennessee.

No. MC 76032 Sub 96, filed October 13, 1955, NAVAJO FREIGHT LINES, INC., 381 South Broadway, Denver 9, Colo. Applicant's attorney: Paul M. Hupp, 738 Majestic Building, Denver, Colo. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *Class A and B explosives*, but excluding commodities of unusual value, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Barstow, Calif., and San Francisco, Calif., from Barstow over U. S. Highway 466 to junction U. S. Highway 395, near Kramer, Calif., thence over U. S. Highway 395 to junction U. S. Highway 6, near Brown, Calif., thence over U. S. Highway 6 to junction U. S. Highway 95 at Coaldale, Nev., thence over U. S. Highway 95 to junction U. S. Highway 50 at Fallon, Nev., thence over U. S. Highway 50 to junction U. S. Highway 99 at Stockton, Calif., thence over U. S. Highway 99 to Manteca, Calif., thence over California Highway 120 to junction U. S. Highway 50, thence over U. S. Highway 50 via Oakland, Calif., to San Francisco; (also from Stockton over California Highway 4 to junction California Highway 24, near Oakley, Calif., thence over California Highway 24 via Oakland, to San Francisco), and return over the above route serving the intermediate points of Stockton, Manteca, Pittsburg, and Oakland, Calif., and the off-route points of the U. S. Naval Ammunition Depot near Hawthorne, Nev., the Sierra Army Ordnance Depot near Herlong, Calif., and Port Chicago, Moffett Field, Nimbus, Benicia, and Antioch, Calif. Applicant is authorized to conduct operations in Arizona, California, Colorado, Illinois, Indiana, Iowa, Kansas, Missouri, Nebraska, Nevada, New Mexico, and Texas.

No. MC 82100 Sub 15, filed October 11, 1955, EASTERN AUTOMOBILE FORWARDING CO., INC., 2727 William St., Cheektowaga, N. Y. Applicant's attorney: Thomas J. Runfola, 631 Niagara St., Buffalo, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor vehicles*, in driveaway and truckaway service, except trailers designed to be drawn by passenger automobiles, in secondary movement, between points in Pennsylvania and New Jersey. Applicant is authorized to conduct irregular routes operations in Ohio, New York, Pennsylvania, Connecticut, New Jersey, Massachusetts, Rhode Island, Vermont and Michigan.

No. MC 87674 Sub 3, filed September 28, 1955, BERNERD EDWARD RICE, doing business as RICE TRANSFER & STORAGE, 117 Lancaster Ave., Rock Hill, S. C. Applicant's attorney: Frank A. Graham, Jr., 406–7 Palmetto Bldg., Columbia 1, S. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meats, meat products, meat by-products*, and *articles distributed by meat-packing houses*, as defined by the Commission, from Cayce, West Columbia, and Rock Hill, S. C., and points in Richland County, S. C., to points in South Carolina, excepting points within seventy (70) miles of Rock Hill; *damaged shipments* of the above-described commodities on return. Applicant is authorized to conduct operations in North Carolina and South Carolina.

NOTE: Applicant presently holds authority in Docket No. MC 87674 to transport meat and packing house products within 70 miles of Rock Hill, S. C.

No. MC 95540 Sub 265, filed October 5, 1955, WATKINS MOTOR LINES, INC., Cassidy Road, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Wine*, and *canned goods*, from points in New York and Pennsylvania on and west of U. S. Highway 11 to points in Alabama, Florida, Georgia, and South Carolina. Applicant is authorized to conduct operations in New Jersey, Delaware, Maryland, North Carolina, South Carolina, Georgia, and Virginia.

No. MC 95540 Sub 267, filed October 13, 1955, WATKINS MOTOR LINES, INC., Cassidy Road, P. O. Box 785, Thomasville, Ga. Applicant's attorney: Joseph H. Blackshear, Gainesville, Ga. For authority to operate as a *common carrier*, over irregular routes, transporting: *Frozen foods*, from points in New York and Pennsylvania on and west of U. S. Highway 11 to points in Alabama, Florida, Georgia, and South Carolina. Applicant is authorized to conduct operations in Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 98615 Sub 3, filed October 10, 1955, J. M. ATTHOWE and C. H. ATTHOWE, doing business as EAST BAY DRAYAGE & WAREHOUSE CO., 3rd and Addison Streets, Berkeley, Calif. Applicant's attorney: Daniel W. Baker, 465 California St., San Francisco 4,

Calif. For authority to operate as a *common carrier*, over regular routes, transporting: *Canned goods; equipment, materials, and supplies* used by canneries; and *empty containers*, and *pallets*, used in transporting the aforesaid commodities, between (1) Tracy, Calif., and Stockton, Calif., over U. S. Highway 50, serving no intermediate points, (2) Tracy, Calif., and San Francisco, Calif., over U. S. Highway 50, serving the intermediate points of Oakland, and Alameda, Calif., and (3) junction unnumbered highway and U. S. Highway 50 near Hayward, Calif., over said unnumbered highway from junction U. S. Highway 50 to the San Mateo, Calif. Bridge, thence over the San Mateo Bridge to junction U. S. By-Pass Highway 101, thence over U. S. By-Pass Highway 101 to San Francisco, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with operations over route described under (2) above. The applicant does not presently hold any authority from this Commission to transport the commodities named in this application but is performing second proviso operations in interstate or foreign commerce under Section 206 (a) (1) of the Interstate Commerce Act pursuant to Form BMC 75 filing in Docket No. MC 98615 Sub 1 in the transportation of property between certain specifically named points in California.

No. MC 99406 Sub 1, filed October 11, 1955, PAUL M. TURCO, doing business as REFRIGERATED DELIVERY SERVICE, 3165 Park Avenue, Bronx, N. Y. Applicant's attorney: Morris Honig, 150 Broadway, New York 38, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Butter, cheese, meats, meat products* and *dressed poultry* and *eggs*, from Jersey City, N. J., to points in Westchester, Putnam, Dutchess, Orange, Ulster, Rockland and Sullivan Counties, N. Y., and *empty containers or other such incidental facilities* used in transporting the commodities specified, on return movements. Applicant is authorized to conduct operations in New York and New Jersey.

No. MC 101186 Sub 7, filed October 10, 1955, JAMES G. ARLEDGE, doing business as ARLEDGE TRANSFER COMPANY, 2210 Summer St., Burlington, Iowa. Applicant's attorney: Robert H. Levy, 39 South LaSalle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Burlington, Iowa, and Milwaukee, Wis., (a) from Burlington over U. S. Highway 34 to junction Illinois Highway 88, thence over Illinois Highway 88 to junction U. S. Highway 30, thence over U. S. Highway 30 to junction Illinois Highway 26, thence over Illinois Highway 26 to junction Illinois Highway 2, thence over Illinois Highway 2 to junction U. S. Highway 20, thence over U. S. Highway 20 to junction U. S. Highway 51, thence over U. S. Highway 51 to junction Illinois Highway 173, thence over Illinois Highway 173 to junction Illinois Highway 76, thence over Illinois Highway 76 to the Illinois-Wisconsin State line, thence over Wisconsin Highway 140 to junction Wisconsin Highway 15, thence over Wisconsin Highway 15 to Milwaukee; (b) from Burlington over U. S. Highway 34 to junction Illinois Highway 91, thence over Illinois Highway 91 to junction Illinois Highway 93, thence over Illinois Highway 93 to junction Illinois Highway 88, thence over Illinois Highway 88 to junction U. S. Highway 30, thence over U. S. Highway 30 to junction U. S. Highway 51, thence over U. S. Highway 51 to junction Wisconsin Highway 15, thence over Wisconsin Highway 15 to Milwaukee; and (c) from Burlington over U. S. Highway 61 to junction U. S. Highway 67, thence over U. S. Highway 67 to junction Illinois Highway 2, thence over Illinois Highway 2 to junction U. S. Highway 20, thence over U. S. Highway 20 to junction U. S. Highway 51, thence over U. S. Highway 51 to junction Illinois Highway 173, thence over Illinois Highway 173 to junction Illinois Highway 76, thence over Illinois Highway 76 to the Illinois-Wisconsin State line, thence over Wisconsin Highway 140 to junction Wisconsin Highway 15, thence over Wisconsin Highway 15 to Milwaukee, and return over the above routes, serving all intermediate points, and the off-route points of Stronghurst, Raritan, and Camden, Ill.

NOTE: Applicant has authority to transport general commodities, with the above exceptions, over irregular routes, between Burlington, Iowa, and Milwaukee, Wis., and seeks by this application to perform these operations over the above-described routes.

No. MC 104584 Sub 2, filed August 5, 1955, published in the August 31, 1955 issue on page 6428, amended October 11, 1955, B. C. COOPER, S. 58 Madison Street, Walla Walla, Wash. For authority to operate as a *common carrier*, over a regular route, transporting: *Baggage, including remains of deceased persons*, moving on railroad billing, baggage check or railroad ticket, between Walla Walla, Wash., and Pendleton, Oreg., from Walla Walla over Washington Highway 3 to the Washington-Oregon State line, thence over Oregon Highway 11 to Pendleton, and return over the same route, serving the intermediate points of Milton-Freewater and Athena, Oreg. RESTRICTION: Service to be performed shall be subject and restricted to the following conditions: The service to be performed shall be limited to that which is auxiliary to or supplemental of rail passenger-train or baggage-car service of the Union Pacific Railroad. Applicant will not serve any point not a station on the rail line of the Union Pacific Railroad. Shipments to be transported by applicant will be limited to those which it receives from or delivers to the Union Pacific Railroad under through billing of the Railroad covering in addition to movement by applicant an immediately prior or subsequent movement by Railroad.

No. MC 104887 Sub 3, filed October 18, 1955, AMERICAN VAN & STORAGE, INC., 2125 N. W. First Court, Miami, Fla. Applicant's attorney: Leo P. Kitchen, Professional Bldg., Jacksonville 2, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in Florida, Connecticut, Georgia, Indiana, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Texas, Virginia, California, Arizona, Utah, Oregon, Missouri, Kansas, Wisconsin, Oklahoma, Alabama, Delaware, Illinois, Kentucky, Maine, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, Tennessee, Vermont, West Virginia, New Mexico, Nevada, Colorado, Washington, Iowa, Minnesota, Arkansas, Michigan, Nebraska, and the District of Columbia.

NOTE: All duplicating authority to be eliminated. Applicant is authorized to conduct operations in Alabama, Delaware, Illinois, Kentucky, Maine, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, Tennessee, Vermont, West Virginia, Connecticut, Georgia, Indiana, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Texas, Virginia, and the District of Columbia.

No. MC 106965 Sub 82, filed October 10, 1955, M. I. O'BOYLE & SON, INC., doing business as O'BOYLE TANK LINES, 817 Michigan Avenue, N. E., Washington, D. C. Applicant's attorney: Dale C. Dillon, Suite 944 Washington Building, Washington 5, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Fish oil, fish oil products*, and *paint oils and paint vehicles* (consisting of oils which have fish oil or some extract of fish oil as a principal ingredient), in bulk, in tank vehicles, from Baltimore, Md., to points in Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, West Virginia, North Carolina, and the District of Columbia.

No. MC 107403 Sub 213, filed October 12, 1955, E. BROOKE MATLACK, INC., 33rd & Arch Streets, Philadelphia 4, Pa. Applicant's attorney: Paul F. Barnes, 811–19 Lewis Tower Building, 225 South 15th Street, Philadelphia 2, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Asphalt*, in bulk, in tank vehicles, from points in Hancock County, Ohio, to points in Michigan. Applicant is authorized to conduct operations in Alabama, Delaware, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 107403 Sub 214, filed October 12, 1955, E. BROOKE MATLACK, INC., 33rd & Arch Streets, Philadelphia 4, Pa. Applicant's attorney: Paul F. Barnes, 811–19 Lewis Tower Building, 225 South 15th Street, Philadelphia 2, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from Wellsville, Ohio, to points in Pennsylvania on and south of U. S. Highway 322 from the Ohio-Pennsylvania State line to junction U. S. Highway 219, and thence on and west of U. S. Highway 219 to the Pennsylvania-Maryland State line, and those in West Virginia west of the West Virginia-Maryland State line from the Pennsylvania-Maryland-West Virginia State line to point where intersected by U. S. Highway 219, thence on and west of U. S. Highway 219 to junction U. S. Highway 33, and thence on and north of U. S. Highway 33 to the West Virginia-Ohio State line. Applicant is authorized to conduct operations in Alabama, Delaware, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia.

Application has been filed for temporary authority under Section 210a (b).

No. MC–F 6110. Authority sought for purchase by HARRY T. BUSSMANN, JR., doing business as SUPREME EXPRESS AND TRANSFER COMPANY, 327 S. 14th St., St. Louis 3, Mo., of the operating rights of ALBERT F. WILLIE, 5921 Drury Lane, St. Louis 21, Mo. Applicants' attorney: Ernest A. Brooks II, 1310 Ambassador Bldg., St. Louis 1, Mo. Operating rights sought to be transferred: *Malt beverages*, as a *contract carrier*, over regular routes, from Belleville, Ill., to St. Louis, Mo., serving no intermediate points. Vendee is authorized to operate as a *common carrier* in Missouri and Illinois. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6113. Authority sought for purchase by WORSTER MOTOR LINES, INC., East Main Road, R. D. #1, North East, Pa., of the operating rights of C. AUSTIN SMITH, doing business as SMITH TRUCK LINES, 61 Myrtle St., LeRoy, N. Y., and for acquisition by DAVID B. WORSTER, also of North East, of control of the operating rights through the purchase. Applicants' attorney: William W. Knox, 1102 Palace Bldg., Erie, Pa. Operating rights sought to be transferred: *Food products* and *such materials and supplies* as are used in the manufacture and distribution thereof, *insulators, steel chests, scrap metal, wire*, and *cable*, as a *common carrier*, over irregular routes, from, to and between certain points in New York, Massachusetts, Rhode Island, New Jersey, Ohio, Pennsylvania, and New York. Vendee is authorized to operate in Pennsylvania, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, West Virginia, Michigan, Ohio, Illinois, and the District of Columbia. Application has been filed for temporary authority under Section 210a (b).

By the Commission.

FOURTH SECTION APPLICATIONS FOR RELIEF

OCTOBER 21, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31221: *Window glass—Ohio, Pennsylvania, and West Virginia to Florida.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on window glass, carloads from specified points in Ohio, Pennsylvania, and West Virginia to specified points in Florida.

Grounds for relief: Competition of imported glass at destinations and circuitous routes.

Tariffs: Supplement 4 to Agent H. R. Hinsch's I. C. C. 4664; Supplement 88 to Agent C. W. Boin's I. C. C. A–968.

FSA No. 31222: *Cake and meal between and from Central Territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on cake and meal (including crushed or ground cake or screenings), carloads between points in central territory, and from points in central territory to points in trunk-line territory and trunk-line arbitrary territory east of Pittsbugh, Pa.

Grounds for relief: Circuitous routes.

FSA No. 31223: *Fruits and vegetables between points in Southern Territory.* Filed by St. Louis-San Francisco Railway Company, for itself and other interested rail carriers. Rates on fresh fruits and vegetables (not cold-packed nor frozen), carloads between specified points in southern territory, including Ohio River crossings included in Agent Spaninger's tariff I. C. C. 1483 over routes in part west of the Mississippi River.

Grounds for relief: Circuitous routes in part west of the Mississippi River embracing the lines of the St. Louis-San Francisco Railway.

FSA No. 31224: *Automobile parts—New York and Pennsylvania to South.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on automobile parts, namely, automobile bodies, seat cabs, etc., carloads, from specified points in New York and Pennsylvania to specified points in southern territory.

Grounds for relief: Circuitous routes.

Tariff: Supplement 89 to Agent Boin's I. C. C. A–968.

FSA No. 31225: *Phosphates—St. Louis, Mo., and East St. Louis, Ill., to the South.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on sodium, disodium, and tri-sodium phosphates, carloads from St. Louis, Mo., and East St. Louis, Ill., to specified points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 244 to Agent Spaninger's I. C. C. 1062.

FSA No. 31226: *Aluminum billets from Chalmette and New Orleans, La.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on aluminum billets, blooms, ingots, pigs or slabs, straight or mixed carloads from Chalmette and New Orleans, La., to Birmingham and Fairfield, Ala., and Cincinnati, Ohio.

Grounds for relief: Circuitous routes.

Tariff: Supplement 10 to Agent Spaninger's I. C. C. 1473.

FSA No. 31227: *Cheese—Galax, Va., to Southern Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on cheese, carloads from Galax, Va., to specified points in southern territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 1 to Agent Spaninger's I. C. C. 1497.

FSA No. 31228: *Tin mill black plate—Ohio, Pennsylvania and West Virginia to Missouri River Cities.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on tin mill black plate, tin or terne plate, carloads from specified points in Ohio, Pennsylvania, and West Virginia to Kansas City and St. Joseph, Mo., Omaha and Nebraska City, Nebr.

Grounds for relief: Barge competition and circuity.

Tariff: Supplement 127 to Agent Hinsch's I. C. C. 4238.

FSA No. 31229: *Bonding mortar—Michigan points to Kansas and Missouri.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on high temperature bonding mortar, carloads from Stronach and Manistee, Mich., to Atchison, Kans., and Kansas City, Kans.-Mo.

Grounds for relief: Circuitous routes.

Tariff: Supplement 127 to Agent Hinsch's I. C. C. 4238.

FSA No. 31230: *Iron and steel articles—Newport, Ky., to Michigan City, Ind.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on iron and steel articles, carloads from Newport, Ky., to Michigan City, Ind.

Grounds for relief: Circuitous routes.

Tariff: Supplement 209 to Agent Hinsch's I. C. C. 3388.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24A-884]

NATIONAL UNION LIFE INSURANCE CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

OCTOBER 18, 1954.

I. National Union Life Insurance Company, 424 Brown Marx Building, Birmingham, Alabama, having filed with the Commission on March 22, 1955, a Notification on on Form 1-A and an offering circular, relating to an offering of 5,000 shares of capital stock, $1 par value, at $38 per share for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe:

A. That an exemption under Regulation A was not available in that the aggregate offering price of all securities sold by the issuer within one year prior to the commencement of the aforesaid offering plus all securities under the aforesaid Notification exceeded the limitation of $300,000 as prescribed by Rule 217 (a), under the following circumstances:

The issuer filed a Notification on Form 1-A under Regulation A with the Commission on June 9, 1954, for a public offering of $100,000 of its stock, and thereafter on July 15, 1954, said offering was commenced and by October 5, 1954, was completed;

The issuer sold 10,000 shares of its stock, valued at $125,000, to Gregg Motors, Inc., in October 1954 which were thereafter, in November 1954, publicly distributed;

The issuer commenced its offering under the instant Notification on April 11, 1955;

The issuer sold 5,000 shares of its stock to F. C. A. Discount Corporation on or about June 22, 1955, which were publicly distributed by July 12, 1955;

B. That the terms and conditions of Regulation A have not been complied with in that:

1. The issuer failed to disclose under Item 3 of said notification the sale of 10,000 shares of its stock within one year prior to the date of filing of the Notification and the sale during the same period by Basil P. Autrey, director and affiliate of the issuer, of 14,315 shares of stock of the issuer on his own behalf, and

2. The issuer failed to file, as required by Rule 221 of Regulation A, a letter, dated April 15, 1955, used in connection with said offering;

C. The Notification and offering circular, filed as part thereof, contain untrue statements of material facts, and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

1. The failure of the balance sheet, dated December 31, 1954, and included in said offering circular, to reflect (a) net reductions in net admitted asset values of $20,213.62, (b) net increases in liabilities and reserves of $159,364.11 and (c) a net reduction in surplus of $179,577.73, which adjustments were determined as being applicable to said balance sheet by examiners representing the Superintendent of Insurance, State of Alabama and the Insurance Commission of the State of Florida, the more significant of which are:

(a) The balance sheet reflected an aggregate reserve for life policies and contracts of $478,808 instead of $506,947.75;

(b) The failure to include in the balance sheet liability for policy and contract claims of $29,874.93;

(c) The failure to include in the balance sheet general expenses of $7,257.51 due or accrued;

(d) An understatement of F. O. A. B. tax of $2,238.53, the failure to include a liability of $1,154.32 for Florida S. U. I. tax and the failure to include in the balance sheet a tax liability of $17,964.03 for Florida Premium Tax;

(e) The failure to include in the balance sheet a liability for "Agents Credit Balances" of $45,855.09;

(f) The failure to make provision in the balance sheet for Mandatory Security Valuation Reserve of $5,789.87;

(g) The failure to disclose in the balance sheet a contingent liability of $15,000 on thirteen trailer sales contracts discounted at a bank for the original sellers and the failure to state that United States Government Bonds in the amount of $15,000, par value, were on deposit with a bank to guarantee such contingent liability;

(h) The failure to increase accounts payable in the balance sheet from $871.90 to $16,404.52, the principal item of which was $13,500 representing funds deposited with the company for the purpose of repurchasing its stock from stockholders when such stock is available;

2. The failure to indicate in the balance sheet that the net figure of $364,998.80 under "Real Estate" was after deduction of an indebtedness of $48,015.07 secured by a mortgage on properties held by the company;

3. The failure to eliminate from the items of "Real Estate" and "Unassigned Surplus" in the balance sheet the sum of $60,000 representing a write up of value of an office building, which was based on an alleged appraisal and placed on the company's books January 1, 1955, and retroactively reflected in the balance sheet dated December 31, 1954, and the fair value of which at the time of purchase, based on available data, appears to be $125,000 rather than the $185,000 included in the balance sheet.

4. The summary of operations for the years 1953 and 1954 is incorrectly stated insofar as they may be affected by the application of any adjustments referred to in the report of the examiners of the State Insurance Commissions;

5. The summary of operations for the year 1954 is misleading in that it failed to disclose that premium income reflected premiums of substantial amounts from single premium policies which arose from unusual transactions; and

6. The issuer failed to disclose, as required by Rule 219 (c) (2), the purchase of a yacht for $45,000 for the benefit of Basil P. Autrey and Paul J. Meyer, directors, and the investment of $5,000 in an insurance agency operated by Russell Williams, Manager of Public Relations.

D. That the use of the offering circular in connection with the offering of the shares to which the Notification relates did operate as a fraud and deceit upon the purchasers thereof;

III. *It is ordered,* Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

It is further ordered, That this Order and Notice shall be served upon National Union Life Insurance Company, and John Paul Riddle, 1309 Asturia Avenue, Coral Gables, Florida, personally or by registered mail or by confirmed telegraphic notice and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[F. R. Doc. 55-8634; Filed, Oct. 25, 1955; 8:49 a. m.]

[File No. 22-1763]

RUDOLPH KARSTADT AKTIENGESELLSCHAFT

NOTICE OF APPLICATION FOR EXEMPTION

OCTOBER 20, 1955.

Notice is hereby given that Rudolph Karstadt Aktiengesellschaft, ("Karstadt"), a corporation organized and existing under the laws of Germany, has filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) and 310 (b) (1) of the act, the 4½ percent Debt Adjustment Bonds, due January 1, 1963, to be issued by Karstadt under an Indenture to be dated as of January 1, 1953, between Karstadt and The First National City Bank of New York as Trustee and Deutsche Kreditsicherung Kommanditgesellschaft, Dr. Alexander Kreuter, a limited partnership, as Co-Trustee, in connection with Karstadt's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Government of the Federal Republic of Germany, the United States of America, and other countries.

Section 304 (d) of the act permits the Commission, on application by the issuer and after opportunity for hearing thereon, to enter an order exempting from any one or more provisions of the act, any security proposed to be issued by a person organized and existing under the laws of a foreign government if and to the extent it finds that compliance with such provision or provisions is not necessary in the public interest and for the protection of investors.

The application states, with respect to the request for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) Karstadt has outstanding bonds which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. Karstadt is, however, liable only for the repayment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotiated by Karstadt for its outstanding obligations provide for the issuance by Karstadt of its Debt Adjustment Bonds, due January 1, 1963, in exchange for its outstanding validated bonds.

(2) The mortgage securing the new bonds will be registered in favor of the German Co-Trustee and certain acts with respect to the release of property, the reduction of the registered amount of liens and the disposition of release moneys are performed only by the Co-Trustee subject, however, to ultimate control by the American institutional Trustee. Section 310 (a) (3) of the Trust Indenture Act of 1939 requires that the rights, powers, duties and obligations be conferred upon the American institutional Trustee alone or jointly with the Co-Trustee unless under the laws of any jurisdiction in which acts are to be performed the institutional Trustee is incompetent or unqualified to act.

(3) While no contention is made that the American institutional Trustee is incompetent or unqualified to act it is contended that the vesting of title and related powers in the Co-Trustee is essential to the orderly settlement and payment of the obligations; the rights in the security of both the holders of the new bonds and the old bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such right in the security should be adjudicated only by German courts. In this connection it is urged that the vesting of these functions in the American institutional Trustee may result in litigation in this country by non-depositing bondholders who seek to establish some special rights in the security.

(4) While the procedure proposed necessarily results in certain acts being performable by the Co-Trustee, the protection intended to be accorded to the bondholders by the Trust Indenture Act of 1939 is in no way impaired. All of the acts which are performable only by the Co-Trustee are in each case, subject to ultimate control by the Trustee if such control is exercised within 30 days after notice is received of the proposed action.

The application states, with respect to the request for exemption from section 310 (b) (1), to permit the same organization to act as Co-Trustee under the old and new indenture as follows:

(1) Section 12 of the Law of the Federal Republic of Germany of August 24, 1953, implementing the London Agreement which was adopted in order to allow an orderly and nondiscriminatory settlement of debts under the London Agreement, prohibits the German debtor from making payments or any other performance with respect to any old obligations until all refunding obligations issued by all German debtors, corporate or otherwise, have been paid in full. By virtue of the provisions of the Implementation Law, the Co-Trustee under the old indenture is without the power or incentive either to seek payment of the old bonds, out of such security or otherwise, in preference to payment on the new bonds or to prevent orderly payment in full of the new bonds in accordance with their terms. Any remaining conflict of interest between the Co-Trustee under the old and the new indentures would appear to be eliminated by reason of the powers in the American institutional Trustee to direct action by the Co-Trustee under the indenture to be qualified.

(2) The complicated nature of German real estate law and title registration procedures, makes it highly desirable that the holder of a lien be fully familiar with the entire records in each land register relating to the property subject to the lien. The desirability for familiarity with the land registers is greatly increased in the case of the settlement of a debt under the London Agreement because of the fact that frequent changes in the land registers will be required in the first two years after the settlement offer has been made relating both to the correction of the land registers to reflect the variations in the registered amounts of the mortgage securing the old and new bonds as the new bonds are issued in exchange for old bonds, and also to the reduction of such registered amounts and the release of security from time to time pursuant to the terms of the settlement offer and such changes will be even more complicated by reason of the new and untested procedures under the Implementation Law.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to such application which is now on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after November 2, 1955, unless prior thereto a hearing is ordered by the Commission. Any interested person may, not later than October 31, 1955, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[File No. 22-1757]

VEREINIGTE ELEKTRIZITATSWERKE WESTFALEN AKTIENGESELLSCHAFT

NOTICE OF APPLICATION FOR EXEMPTION

OCTOBER 20, 1955.

Notice is hereby given that Vereinigte Elektrizitatswerke Westfalen Aktiengesellschaft ("VEW"), a corporation organized and existing under the laws of Germany, has filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) of the act, the 4½ percent Debt Adjustment Bonds, due January 1, 1968, to be issued by VEW under an Indenture to be dated as of January 1, 1953, between VEW and The First National City Bank of New York as Trustee and Deutsche Kreditsicherung Kommanditgesellschaft, Dr. Alexander Kreuter, a limited partnership, as Co-Trustee, in connection with VEW's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Government of the Federal Republic of Germany, the United States of America and other countries.

Section 304 (d) of the act permits the Commission, on application by the issuer and after opportunity for hearing thereon, to enter an order exempting from any one or more provisions of the act, any security proposed to be issued by a person organized and existing under the laws of a foreign government if and to

the extent it finds that compliance with such provision or provisions is not necessary in the public interest and for the protection of investors.

The application states, with respect to the request for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) VEW has outstanding bonds which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. VEW is, however, liable only for the repayment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotiated by VEW for its outstanding obligations provide for the issuance by VEW of its Debt Adjustment Bonds, due January 1, 1968, in exchange for its outstanding validated bonds.

(2) The mortgage securing the new bonds will be registered in favor of the German Co-Trustee and certain acts with respect to the release of property, the reduction of the registered amount of liens and the disposition of release moneys are performed only by the Co-Trustee subject, however, to ultimate control by the American institutional trustee. Section 310 (a) (3) of the Trust Indenture Act of 1939 requires that the rights, powers, duties and obligations be conferred upon the American institutional trustee alone or jointly with the Co-Trustee unless under the laws of any jurisdiction in which acts are to be performed the institutional Trustee is incompetent or unqualified to act.

(3) While no contention is made that the American institutional Trustee is incompetent or unqualified to act it is contended that the vesting of title and related powers in the Co-Trustee is essential to the orderly settlement and payment of the obligations; the rights in the security of both the holders of the new bonds and the old bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such right in the security should be adjudicated only by German courts. In this connection it is urged that the vesting of these functions in the American institutional Trustee may result in litigation in this country by non-depositing bondholders who seek to establish some special rights in the security.

(4) While the procedure proposed necessarily results in certain acts being performable by the Co-Trustee, the protection intended to be accorded to the bondholders by the Trust Indenture Act of 1939 is in no way impaired. All of the acts which are performable only by the Co-Trustee are in each case, subject to ultimate control by the Trustee if such control is exercised within 30 days after notice is received of the proposed action.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to such application which is now on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after November 2, 1955, unless prior thereto a hearing is ordered by the Commission. Any interested person may, not later than October 31, 1955, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

ENERGIE-VERSORGUNG SCHWABEN AKTIENGESELLSCHAFT

NOTICE OF APPLICATION FOR EXEMPTION

OCTOBER 20, 1955.

Notice is hereby given that Energie-Versorgung Schwaben Aktiengesellschaft ("EVS"), a corporation organized and existing under the laws of Germany, has filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) of the act, the 5¼ percent Debt Adjustment Bonds, due January 1, 1973, to be issued by EVS under an Indenture to be dated as of January 1, 1953, between EVS and The First National City Bank of New York as Trustee and Deutsche Kreditsicherung Kommanditgesellschaft, Dr. Alexander Kreuter, a limited partnership as Co-Trustee, in connection with EVS's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Government of the Federal Republic of Germany, the United States of America and other countries.

Section 304 (d) of the act permits the Commission, on application by the issuer and after opportunity for hearing thereon, to enter an order exempting from any one or more provisions of the act, any security proposed to be issued by a person organized and existing under the laws of a foreign government if and to the extent it finds that compliance with such provision or provisions is not necessary in the public interest and for the protection of investors.

The application states, with respect to the request for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) EVS has outstanding bonds which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. EVS is, however, liable only for the repayment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotiated by EVS for its outstanding obligations provide for the issuance by EVS of its Debt Adjustment Bonds, due January 1, 1973, in exchange for its outstanding validated bonds.

(2) The mortgage securing the new bonds will be registered in favor of the German Co-Trustee and certain acts with respect to the release of property, the reduction of the registered amount of liens and the disposition of release moneys are performed only by the Co-Trustee subject, however, to ultimate control by the American institutional trustee. Section 310 (a) (3) of the Trust Indenture Act of 1939 requires that the rights, powers, duties and obligations be conferred upon the American institutional Trustee alone or jointly with the Co-Trustee unless under the laws of any jurisdiction in which acts are to be performed the institutional Trustee is incompetent or unqualified to act.

(3) While no contention is made that the American institutional Trustee is incompetent or unqualified to act it is contended that the vesting of title and related powers in the Co-Trustee is essential to the orderly settlement and payment of the obligations; the rights in the security of both the holders of the new bonds and the old bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such right in the security should be adjudicated only by German courts. In this connection it is urged that the vesting of these functions in the American institutional Trustee may result in litigation in this country by non-depositing bondholders who seek to establish some special rights in the security.

(4) While the procedure proposed necessarily results in certain acts being performable by the Co-Trustee, the protection intended to be accorded to the bondholders by the Trust Indenture Act of 1939 is in no way impaired. All of the Acts which are performable only by the Co-Trustee are in each case, subject to ultimate control by the Trustee if such control is exercised within 30 days after notice is received of the proposed action.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to such application which is now on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after November 2, 1955, unless prior thereto a hearing is ordered by the Commission. Any interested person may, not later than October 31, 1955, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[F. R. Doc. 55-8637; Filed, Oct. 25, 1955; 8:50 a. m.]

[File No. 70-3420]

MICHIGAN CONSOLIDATED GAS CO. AND AMERICAN NATURAL GAS CO.

NOTICE OF FILING REGARDING PROPOSED ISSUANCE AND SALE BY SUBSIDIARY OF REGISTERED HOLDING COMPANY OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING; AND ISSUANCE AND SALE BY SAID SUBSIDIARY AND ACQUISITION BY ITS PARENT COMPANY OF COMMON STOCK

OCTOBER 20, 1955.

Notice is hereby given that American Natural Gas Company ("American Natural"), a registered holding company, and its subsidiary Michigan Consolidated Gas Company ("Michigan Consolidated"), an operating gas utility company, have filed a joint application-declaration and amendments thereto with this Commission under the Public Utility Holding Company Act of 1935 ("act") designating sections 6 (b), 9, 10 and 12 and Rules U-43 and U-50 as applicable to the proposed transactions which are summarized as follows:

Michigan Consolidated proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $30,000,000 principal amount of First Mortgage Bonds, -- percent Series, due 1980. These bonds will be dated November 15, 1955, will mature November 15, 1980, and will be issued under Michigan Consolidated's Indenture of Mortgage and Deed of Trust dated as of March 1, 1944 as heretofore supplemented by six supplemental indentures and as to be further supplemented by a Seventh Supplemental Indenture to be dated as of November 15, 1955. The interest rate on the new bonds (which is to be a multiple of ⅛ of 1 percent and the price to be received by Michigan Consolidated (which price, exclusive of accrued interest, is to be not less than 100 percent and not more than 102¾ percent of the principal amount) are to be determined at competitive bidding pursuant to the provisions of Rule U-50.

Prior to or simultaneously with the issuance of the bonds, Michigan Consolidated proposes to sell to American Natural and American Natural proposes, with funds on hand, to purchase 72,000 shares of Michigan Consolidated's common stock, par value $14 a share, for a cash consideration of $1,008,000, which is equal to the aggregate par value thereof.

Michigan Consolidated has heretofore borrowed, pursuant to a Credit Agreement, $31,000,000 on its 3 percent notes maturing August 15, 1956 (File No. 70-3395). On October 7, 1955, Michigan Consolidated issued and sold 930,000 shares of its common stock to American Natural for a total cash consideration of $13,020,000, the aggregate par value of such shares (File No. 70-3412). It is anticipated that concurrently with the issuance and sale of the new bonds and the new common stock the borrowing under the Credit Agreement will be repaid and the Credit Agreement terminated.

Of the proceeds from the sale of the new bonds it is estimated that approximately $5,000,000, representing the principal amount of new bonds not issued in the first instance against net property additions, will be deposited with the Trustee under Michigan Consolidated's Indenture of Mortgage and Deed of Trust and will be held as part of the trust estate pending withdrawal from time to time through the certification of net property additions.

The filing represents that the issuance and sale of the securities by Michigan Consolidated are subject to the jurisdiction of the Michigan Public Service Commission and contains a copy of the application filed by Michigan Consolidated with that State Commission.

It is estimated that fees and expenses to be incurred by applicants-declarants in connection with the issuance and sale of the new securities will approximate $159,200, of which $68,267 represents registration fees and stamp taxes and $25,000 represents printing and engraving expenses.

It is requested that the Commission's Order herein be issued and become effective by November 9, 1955.
